BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS  
JUNE 30, 2003

NOTE (1) - Basis of Financial Statement Presentation

The unaudited consolidated financial statements included herein have been

## Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10QSB

prepared in accordance with accounting principles generally accepted in the United States of America for interim financial statements and pursuant to the instructions for Form 10-QSB and the rules and regulations of the Securities and Exchange Commission. In the opinion of the management of Broadway Financial Corporation (the "Company"), the preceding unaudited consolidated financial statements contain all material adjustments, consisting solely of normal recurring accruals, necessary to present fairly the consolidated financial position of the Company and its subsidiaries at June 30, 2003, the results of their operations and comprehensive earnings for the three and six months ended June 30, 2003 and 2002 and their cash flows for the six months ended June 30, 2003 and 2002. These unaudited consolidated financial statements do not include all disclosures associated with the Company's consolidated annual financial statements included in its annual report on Form 10-KSB for the year ended December 31, 2002 and, accordingly, should be read in conjunction with such audited financial statements. The results of operations for the three and six months ended June 30, 2003 are not necessarily indicative of the results to be expected for the full year.

### NOTE (2) - Earnings Per Share

Basic earnings per share is determined by dividing net earnings available to common shareholders by the weighted average number of shares of Common Stock outstanding for the period (1,794,153 and 1,780,568 shares for the three months ended June 30, 2003 and 2002, and 1,790,925 and 1,781,444 for the six months ended June 30, 2003 and 2002, respectively). Diluted earnings per share is determined by dividing net earnings available to common shareholders by the weighted average number of shares of Common Stock outstanding for the period, adjusted for the dilutive effect of Common Stock equivalents, (1,889,536 and 1,805,716 shares for the three months ended June 30, 2003 and 2002, and 1,884,063 and 1,804,154 for the six months ended June 30, 2003 and 2002, respectively).

### NOTE (3) - Cash and Cash Equivalents

For purposes of reporting cash flows in the "Consolidated Statements of Cash Flows", cash and cash equivalents include cash and federal funds sold.

7

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS -CONTINUED  
JUNE 30, 2003

### NOTE (4) - Current Accounting Pronouncements

In April 2003, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS 149"). SFAS 149 amends and clarifies accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS 133. In particular, SFAS 149 clarifies under what circumstances a contract with an initial net investment meets the characteristic of a derivative and when a derivative contains a financing component that warrants special reporting in the statement of cash flows. SFAS 149 is generally effective for contracts entered into or modified after June 30, 2003. Management anticipates the adoption of SFAS 149 will have no impact on the Company's consolidated financial statements.

In May 2003, the FASB issued Statement of Financial Accounting Standards No.

## Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10QSB

150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS 150") which establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity that have been presented either entirely as equity or between the liabilities section and equity section of the statement of financial position. SFAS 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. Management anticipates the adoption of SFAS 150 will have no impact on the Company's consolidated financial statements.

### NOTE (5) - Stock-based Compensation Plans

The Company has stock-based compensation plans (the "Plans"), which provide for the granting of stock options, stock appreciation rights and restricted stock to employees and directors. The Plans authorize 430,638 shares (adjusted for stock dividends and splits) of Common Stock to be available for issuance under the Plans. Stock options granted under the Plans are exercisable over vesting periods specified in each Plan and, unless exercised, the options terminate ten years from the date of the grant. The option price must be no less than the fair market value of the underlying shares on the date the options are granted. At June 30, 2003, the Company had 49,008 shares of treasury stock that may be issued on the exercise of options or for payment of other awards.

8

The Company measures its employee stock-based compensation arrangements under the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees ("APB 25"). Accordingly, no compensation expense has been recognized for the Plans, as stock options were granted at fair value at the date of grant. Had compensation expense for the Plans been determined based on the fair value method provision of the Statement of Financial Accounting Standards No. 123 "Accounting for Stock-Based Compensation" for previous awards, the Company's net earnings and earnings per share would have been reduced to the pro forma amounts indicated for the quarters below:

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain statements under this caption may constitute "forward-looking statements" under the Private Securities Litigation Reform Act of 1995 which involve risks and uncertainties. Actual results may differ significantly from the results discussed in such forward-looking statements. Factors that may cause such a difference include, but are not limited to, economic conditions, competition in the geographic and business areas in which operations are conducted, fluctuations in the interest rates, credit quality and government regulation.

#### General

Broadway Financial Corporation (the "Company") is primarily engaged in the savings and loan business through its wholly owned subsidiary, Broadway Federal Bank, f.s.b. ("Broadway Federal" or "the Bank"). Broadway Federal is a community-oriented savings institution dedicated to serving the African-American, Hispanic and other communities of Mid-City and South Los Angeles, California. Broadway Federal's business is that of a financial intermediary and consists primarily of attracting deposits from the general public and using such deposits, together with borrowings and other funds, to make mortgage loans secured by residential real estate located in Southern California. At June 30, 2003, Broadway Federal operated four retail banking offices in Mid-City and South Los Angeles. Broadway Federal is subject to significant competition from other financial institutions, and is also subject to regulation by federal agencies and undergoes periodic examinations by those regulatory agencies.

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Broadway Federal and BankSmart, Inc. (a dormant company). All significant inter-company balances and transactions have been eliminated in consolidation.

The Company's principal business is serving as a holding company for Broadway Federal. The Company's results of operations are dependent primarily on Broadway Federal's net interest income, which is the difference between the interest income earned on its interest-earning assets, such as loans and investments, and the interest expense paid on its interest-bearing liabilities, such as deposits and borrowings. Broadway Federal also generates recurring non-interest income, such as transactional fees on its loan and deposit portfolios. The Company's operating results are affected by the amount of provisions for loan losses and the Bank's non-interest expenses, which consist principally of employee compensation and benefits, occupancy expenses, and technology and communication costs. More generally, the results of operations of thrift and banking institutions are also affected by prevailing economic conditions, competition, and the monetary and fiscal policies of governmental agencies.

### Critical Accounting Policy

Accounting for the allowance for loan losses involves significant judgments and assumptions by management, which have a material impact on the carrying value of net loans receivable. Management considers this accounting policy to be a critical accounting policy. The judgments and assumptions used by management are based on historical experience, current economic trends, the Company's assessment of the borrowers' ability to repay and repayment performance, and other factors, which are believed to be reasonable under the circumstances as described under the heading "Loans Receivable and the Allowance for Loan Losses" in the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2002.

Comparison of Operating Results for the Three Months and Six Months ended June 30, 2003 and June 30, 2002

### General

The Company recorded net earnings of \$356,000 and \$720,000, or \$0.18 and \$0.36 per diluted share, respectively, for the three and six months ended June 30, 2003, compared to \$322,000 and \$648,000, or \$0.18 and \$0.35 per diluted share, respectively, for the three and six months ended June 30, 2002. Compared to 2002, second quarter net earnings increased 10.56% and net earnings for the first six months increased 11.11%.

### Net Earnings

The increase in net earnings in 2003 over 2002 was primarily attributable to the increase in net interest income and non-interest income, offset by an increase in non-interest expense. Net interest income after provision for loan losses increased \$92,000 and \$163,000, or 4.59% and 4.09%, respectively, for the three and six months ended June 30, 2003 compared to the same periods in 2002. Non-interest income increased \$125,000 and \$178,000, or 56.56% and 38.95%, respectively, for the three and six months ended June 30, 2003 compared to the same periods in 2002. Non-interest expense increased \$168,000 and \$251,000, or 9.92% and 7.47%, respectively, for the three and six months ended June 30, 2003 compared to the same periods in 2002.

### Net Interest Income

Net interest income after provision for loan losses increased to \$2,097,000 and \$4,152,000 for the three and six months ended June 30, 2003, from \$2,005,000 and \$3,989,000 for the same periods in 2002. A six month rate/volume analysis indicates that the \$163,000 increase in net interest income in the first six months of 2003 over 2002 was primarily attributable to the impact of the growth in average interest-earning assets of \$33.8 million, or 19.71%, and interest-bearing liabilities of \$30.9 million, or 19.08%, which resulted in an increase in net interest income of \$731,000 (volume impact), offset by the impact of a decrease in the net interest rate spread of 58 basis points, which resulted in a decrease in net interest income of \$568,000 (rate impact).

Loan originations were \$6.6 million and \$19.0 million for the three and six

## Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10QSB

months ended June 30, 2003 compared to \$8.3 million and \$13.4 million for the same periods in 2002. Loan purchases totaled \$14.2 million in the first quarter of 2003. No loans were purchased in the 2002 periods or in the second quarter of 2003. Mortgage-backed securities ("MBS") purchases were \$10.0 million and \$12.0 million for the three and six months ended June 30, 2003 compared to \$2.1 million for the second quarter of 2002. Loan prepayments amounted to \$14.4 million and \$23.1 million for the three and six months ended June 30, 2003 compared to \$8.0 million and \$15.0 million for the same periods in 2002. Management anticipates that prepayments will continue at a comparable rate in the current low interest rate environment, and is focused on increasing lending volume and continuing purchases of loans and MBSs.

Interest-bearing liabilities increased \$900,000 during the second quarter of 2003. The increase was primarily attributable to the net effect of a decrease in deposits of \$6.0 million and an increase in Federal Home Loan Bank ("FHLB") advances of \$6.9 million. For the six months ended June 30, 2003, interest-bearing liabilities increased \$10.8 million, resulting from a \$7.4 million increase in deposits and a \$3.4 million increase in FHLB advances.

The net interest rate spread for the three and six months ended June 30, 2003 was 3.88% and 3.93%, respectively, compared to 4.52% and 4.51%, respectively, for the same periods in 2002. The 64 and 58 basis point decrease in spread, or margin compression, was attributable to the fact that the weighted average yield on the loan portfolio declined more than the weighted average cost of funds on interest-bearing liabilities. The yield on interest-earning assets declined 139 and 135 basis points to 5.81% and 5.95%, respectively, for the three and six months ended June 30, 2003 from 7.20% and 7.30%, respectively, for the same periods in 2002. The weighted average cost of funds declined to 1.93% and 2.02%, respectively, for the three and six months ended June 30, 2003 compared to 2.68% and 2.80% for the same periods in 2002. The primary spread (weighted average interest rate on loans minus weighted average interest rate on deposits) at June 30, 2003 was 4.88% compared to 5.36% at June 30, 2002. The Company's interest-earning assets are substantially adjustable rate assets, and as interest rates have fallen such assets have repriced downward to a greater extent than the interest-bearing liabilities. A substantial portion of the Company's interest-bearing liabilities have fixed rates and maturities that reprice at different intervals compared to the interest-earning assets.

### Provision for Loan Losses

As of June 30, 2003, the Company's allowance for loan losses totaled \$1.4 million, unchanged from the balance at December 31, 2002. The allowance for loan losses represents 0.92% of gross loans at June 30, 2003, compared to 0.98% at December 31, 2002.

12

Total non-performing assets, consisting of non-accrual loans and real estate acquired through foreclosure ("REO"), decreased by \$55,000, to \$80,000 at June 30, 2003 from \$135,000 at December 31, 2002. Non-accrual loans at June 30, 2003 consisted of one loan totaling \$80,000 secured by a single-family dwelling. There was no REO as of June 30, 2003 and December 31, 2002. As a percentage of total assets, non-performing assets were 0.04% at June 30, 2003, compared to 0.07% at December 31, 2002.

Management believes that the allowance for loan losses is adequate to cover inherent losses in Broadway Federal's loan portfolio as of June 30, 2003, but there can be no assurance that actual losses will not exceed the estimated amounts. In addition, the Office of Thrift Supervision ("OTS") and the Federal

Deposit Insurance Corporation periodically review Broadway Federal's allowance for loan losses as an integral part of their examination process. These agencies may require Broadway Federal to increase the allowance for loan losses based on their judgments of the information available to them at the time of their examination.

### Non-interest Income

Total non-interest income increased to \$346,000 and \$635,000 for the three and six months ended June 30, 2003, from \$221,000 and \$457,000 for the same periods in 2002. The \$125,000 increase for the second quarter was primarily attributable to an increase in service charges.

### Non-interest Expense

Total non-interest expense increased to \$1,861,000 and \$3,610,000 for the three and six months ended June 30, 2003, from \$1,693,000 and \$3,359,000 for the same periods in 2002. The \$168,000 increase in the second quarter from 2002 to 2003 was primarily attributable to an increase in compensation and benefits costs.

### Loans Receivable, Net

Loans receivable, net increased \$12.8 million, or 9.2%, to \$152.9 million at June 30, 2003 from \$140.1 million at December 31, 2002. During February 2003, the Bank purchased \$14.2 million of adjustable rate mortgage loans having an initial fixed rate period ("hybrid ARMs"). This purchase of hybrid ARMs, along with loan originations, offset the combined negative effect of a decline in the yield on the loan portfolio and the continuing high level of loan prepayments.

13

### Deposits

Total deposits increased \$7.4 million, or 4.73%, to \$163.5 million from \$156.1 million at December 31, 2002. Core deposits (NOW, demand, money market and passbook accounts) increased by \$10.0 million during the first six months of 2003 as the Company focused on increasing such account types. At June 30, 2003 core deposits represented 44.6% of total deposits, compared to 40.4% at December 31, 2002, and 40.0% at June 30, 2002.

### Capital

Total capital at June 30, 2003 was \$17.8 million, compared to \$16.9 million at December 31, 2002. The increase was primarily due to net earnings for the period.

### Performance Ratios

For the three months ended June 30, 2003, the Company's return on average equity declined slightly to 8.03% compared to 8.51% for the same period in 2002. The return on average assets also declined slightly to 0.65% for the three months ended June 30, 2003 compared to 0.72% for the same period in 2002. The ratio of non-interest expense to average assets improved to 3.41% for the three months ended June 30, 2003 compared to 3.76% for the same period in 2002. The efficiency ratio (total non-interest expense divided by the sum of net interest income before provision for loan losses and non-interest income) increased slightly to 76.18% in second quarter 2003 compared to 76.06% in second quarter 2002.

### Income Taxes

The Company's effective tax rate was approximately 39% for the three months and six months ended June 30, 2003, compared to 40% for the same periods in the prior year. Income taxes are computed by applying the statutory federal income tax rate of 34% and the California income tax rate of 10.84% to earnings before income taxes. California income taxes are reduced by tax credits relating to the California Enterprise Zone Incentive.

### Liquidity, Capital Resources and Market Risk

Sources of liquidity and capital for the Company on a stand-alone basis include distributions from the Bank and the issuance of equity securities such as the preferred stock issued in 2002. Dividends and other capital distributions from the Bank are subject to regulatory restrictions.

The Bank's primary sources of funds are deposits, principal and interest payments on loans, mortgage-backed securities and investments, and advances from the Federal Home Loan Bank of San Francisco. Other sources of liquidity include principal repayments on mortgage-backed securities and other investments, and contributions of capital by the Company. During the first quarter of 2003, the Company contributed \$1 million to the Bank, which was raised from the issuance of preferred stock to Fannie Mae.

Since December 31, 2002, there has been no material change in the Company's interest rate sensitivity. For a discussion on the Company's interest rate sensitivity and market risk, see the Company's annual report on Form 10-KSB for the year ended December 31, 2002, including the Company's audited financial statements and the notes thereto.

### Regulatory Capital

The OTS capital regulations include three separate minimum capital requirements for savings institutions that are subject to OTS supervision. First, the tangible capital requirement mandates that the Bank's stockholder's equity, less intangible assets, be at least 1.50% of adjusted total assets as defined in the capital regulations. Second, the core capital requirement currently mandates that core capital (tangible capital plus certain qualifying intangible assets) be at least 4.00% of adjusted total assets as defined in the capital regulations. Third, the risk-based capital requirement presently mandates that core capital plus supplemental capital (as defined by the OTS) be at least 8.00% of risk-weighted assets as prescribed in the capital regulations. The capital regulations assign specific risk weightings to all assets and off-balance sheet items.

Broadway Federal was in compliance with all capital requirements in effect at June 30, 2003, and met all standards necessary to be considered "well-capitalized" under the prompt corrective action regulations adopted by the OTS pursuant to the Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA").

The following table reflects the required and actual regulatory capital ratios of Broadway Federal at the date indicated:

Regulatory Capital Ratios	FIRREA Minimum	FDICIA "Well-capitalized"	Actual At June 30,

ITEM 3. DISCLOSURE CONTROLS AND PROCEDURES

As of June 30, 2003, an evaluation was performed under the supervision of the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of June 30, 2003. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to June 30, 2003.
