NOTES TO THE CONDENSED FINANCIAL STATEMENTS
October 31, 2013

NOTE 1. CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at October 31, 2013 and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's July 31, 2013 audited financial statements. The results of operations for the period ended October 31, 2013 are not necessarily indicative of the operating results for the full year.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

NOTE 2. GOING CONCERN

These financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. The Company has never generated revenues since inception and has never paid any dividends and is unlikely to pay dividends or generate earnings in the immediate or foreseeable future.

At October 31, 2013 the Company has limited cash resources and will likely require new financing, either through loans from officers, debt financing, equity offerings or business combinations to continue the development of its business; however, there can be no assurance that management will be successful in raising the funds necessary to maintain operations, or that a self-supporting level of operations will ever be achieved.

- 6 -

NOTE 2. GOING CONCERN (continued)

The likely outcome of these future events is indeterminable. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary equity financing to continue operations and the attainment of profitable operations.

As of October 31, 2013, the Company has never generated any revenues and has accumulated losses of $1,355,819 since inception. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. These factors raise substantial doubt regarding the Company’s ability to continue as a going concern.

NOTE 3. RECENT PRONOUNCEMENTS

We do not expect the adoption of recently issued accounting pronouncements to have a significant impact on our results of operations, financial position or cash flow.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Information

The Company may from time to time make written or oral "forward-looking statements" including statements contained in this report and in other communications by the Company, which are made in good faith by the Company pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements include statements of the Company's plans, objectives, expectations, estimates and intentions, which are subject to change based on various important factors (some of which are beyond the Company's control). The following factors, in addition to others not listed, could cause the Company's actual results to differ materially from those expressed in forward looking statements: the strength of the domestic and local economies in which the Company conducts operations, the impact of current uncertainties in global economic conditions and the ongoing financial crisis affecting the domestic and foreign banking system and financial markets, including the impact on the Company's suppliers and customers, changes in client needs and consumer spending habits, the impact of competition and technological change on the Company, the Company's ability to manage its growth effectively, including its ability to successfully integrate any business which it might acquire, and currency fluctuations. All forward-looking statements in this report are based upon information available to the Company on the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as required by law.

In this Form 10-Q references to “MeeMee”, “the Company”, “we”, “us” and “our” refer to MeeMee Media Inc.

Limited Operating History

There is limited historical financial information about our company upon which to base an evaluation of our future performance. We are a development stage corporation and have not generated any revenues from operations. We cannot guarantee that we will be successful in our business operations. We are subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible delays in the exploitation of business opportunities. We may fail to adopt a business model and strategize effectively or fail to revise our business model and strategy should industry conditions and competition change.

We have limited resources and there is no assurance that future financing will be available to us on acceptable terms. Additional equity financing could result in dilution to existing shareholders.

Overview of Operations

We were incorporated in the State of Nevada on August 23, 2005. We maintain our statutory registered agent's office at 311 W. Third Street, Carson City, NV 89703 and our business office is 6630 West Sunset Boulevard, Los Angeles, CA 90027. Our telephone number is (310) 460-9215.

Our original business was to involve the design and marketing of women’s intimate apparel. We were unsuccessful in our efforts to locate a suitable fabric, and as a result ventured into the development of skin care products built around the naturally occurring bioflavinoid “catechin”. Unfortunately we were unable to secure and develop working relationships with third party subcontractors needed to execute our business plan and we have been seeking other viable business opportunities for the Company.

On April 24, 2013, we issued a press release announcing that we had entered into an Exclusivity Agreement and Non-Binding Letter of Intent ("LOI") to purchase 100% of one of Latin America's largest and most successful mobile content and services companies. To better reflect our new business direction locating business opportunities in the digital media sector, we changed our name to MeeMee Media Inc. In connection with the name change, FINRA assigned the Company a new stock symbol "MEME", which was deemed effective at the open of business on May 16th, 2013. Under the terms of the LOI, the purchase of the Acquisition would primarily be paid for with cash consideration, a component of which is structured as a three-year earn-out, and conditioned on the achievement of certain EBITDA hurdles. The Acquisition would also receive some common stock, valued on the same basis as the equity component of the Company's intended financing. Completion of the transaction under the LOI is dependent on, among other things, the completion of due diligence satisfactory to the Company, and the completion of an audit under US GAAP. Under the terms of the Exclusivity Agreement, the parties agreed that the Acquisition would not engage in any negotiations or discussions with other potential acquirers during the period of exclusivity. The parties also agreed to maintain the confidentiality of the identity of the Acquisition in order to protect the Acquisition's competitive interests, and the interests of its many customers and employees, during what is always a tumultuous period for a company that is in the process of being acquired.

The Exclusivity Agreement and LOI expired on July 31, 2013 and on October 3, 2013, both parties agreed to revise and extend the LOI and Exclusivity Agreement. The parties intend to close the proposed Acquisition by November 30, 2013.

We have no employees and own no property. We currently maintain office space located at 6630 West Sunset Boulevard, Los Angeles, CA 90027. There is no lease arrangement for the office space. We are on a month-by-month, as needed basis. We do not intend to perform any further operations until a merger or acquisition candidate is located and a merger or acquisition consummated. We can be defined as a "shell company" whose sole purpose at this time is to locate and consummate a merger and/or acquisition with an operating entity.

Liquidity and Capital Resources

At October 31, 2013, we had total assets of $11,755 ($1,731 in cash and $10,024 in prepaid expenses) and total liabilities of $478,983 compared to total assets of $5,234 and total liabilities of $ 291,877 at July 31, 2013. Net working capital was ($467,228) compared to ($286,643) at July 31, 2013. We incurred a loss of $727,876 for the three months ending October 31, 2013 and an aggregate deficit since inception of $1,355,819.

Since inception, we have used our common stock to raise money to fund our business operations, for corporate expenses and to repay outstanding indebtedness. Net cash provided by the sale of shares from inception on August 23, 2005 to October 31, 2013 was $834,450. During the three months ended October 31, 2013 we issued 1,235,000 shares of our common stock valued at $513,450. In addition the Company received $33,841 towards subscriptions of common stock. As of October 31, 2013, the shares had not yet been issued by the transfer agent and are recorded as subscription funds received on the Balance Sheet.

At October 31, 2013 we had $1,731 in cash remaining in our treasury. We do not have enough money to meet our cash requirements for the next twelve months, as we have yet to commence operations and have not generated any revenues, nor can there be any assurance that we can generate significant revenues from operations. During the next twelve months we expect to incur indebtedness for administrative and professional charges associated with preparing, reviewing, auditing and filing our financial statements and our periodic and other disclosure documents to maintain the Company in good standing.

We need to raise additional capital to fund any future plan of operation. Our management is exploring a variety of options to meet our cash requirements and future capital requirements, including the possibility of equity offerings, debt financing and business combinations. As at October 31, 2013, an aggregate of $371,855 is owed to our current officers of the Company pursuant to an Employment Agreement and a Management Services Agreement with the Company.

Our ability to meet our financial liabilities and commitments is primarily dependent upon the continued financial support of our management and stockholders, the continued issuance of equity to new stockholders, and our ability to achieve and maintain profitable operations. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. There can be no assurance that we will be able to raise additional capital, and if we are unable to raise additional capital, we will unlikely be able to continue operations. Management has committed to providing additional advances as required to enable us to maintain our filing requirements.

Plan of Operation

Currently, we are a development stage corporation. A development stage corporation is one engaged in the search of business opportunities, successful negotiation and closing of a business acquisition and furthering its business plan.

Our plan of operation for the next twelve months will be to continue working towards the completion of the proposed transaction under the revised LOI executed on October 3, 2013. In the event the transaction does not close, we will then (i) consider guidelines of industries in which we may have an interest; (ii) adopt a business plan regarding engaging in business in any selected industry; and (iii) to commence such operations through funding and/or the acquisition of an operating entity engaged in any industry selected.

Results of Operations

We did not generate any revenues during the periods ended October 31, 2013 and 2012.

During the three month periods ended October 31, 2013 and 2012, much of the Company's resources were directed at maintaining the Company in good standing, identifying new business opportunities and conducting due diligence on the transaction as proposed under the revised LOI executed October 3, 2013.

We had a net loss of $727,876 for the three months ended October 31, 2013 compared to a net loss of $10,529 for the three month period ended October 31, 2012. The change is explained below.

Operating Expenses: Operating expenses were $727,876 and $10,529 respectively. During the three months ended October 31, 2013 operating expenses increased by $717,347 as the Company focused its resources on pursuing a potential merger/acquisition with one of Latin America's largest and most successful mobile content and services companies. The Company also entered into employment and consulting agreements with two of its officers to assist with the due diligence process.

During the three months ended October 31, 2013, we incurred expenses of $485,799 for consulting and related fees owed to our two officers for professional services rendered to the Company. Due diligence fees of $190,273 were incurred during the period in connection with the investigation of a prospective merger with a Latin American mobile content and services company. We incurred $51,804 in general and administrative expenses which included administrative and professional charges associated with preparing, reviewing, auditing and filing our financial statements and our periodic and other disclosure documents to maintain the Company in good standing, transfer agent fees, travel and entertainment, bank and foreign exchange fees and general office expenses.

As of the date of this report, we have not generated any revenues. As a result, we have generated significant operating losses since our formation and expect to incur substantial losses and negative operating cash flows for the foreseeable future as we attempt to expand our infrastructure and development activities and carry on with the due diligence process of the proposed acquisition. Our ability to continue may prove more expensive than we currently anticipate and we may incur significant additional costs and expenses.

We are subject to risks inherent in the establishment of a new business enterprise. We may fail to adopt a business model and strategize effectively or fail to revise our business model and strategy should industry conditions and competition change. We have limited resources and there is no assurance that future financing will be available to our Company on acceptable terms. These conditions could further impact our business and have an adverse effect on our financial position, results of operations and/or cash flows.

Going Concern Uncertainties

As of the date of this quarterly report, there is substantial doubt regarding our ability to continue as a going concern as we have not generated sufficient cash flow to fund our business operations. The financial statements included in this quarterly report have been prepared on the going concern basis, which assumes that we will be able to realize our assets and discharge our obligations in the normal course of business. If we are not to continue as a going concern, we would likely not be able to realize our assets at values comparable to the carrying value or the fair value estimates reflected in the balances set out in the preparation of the financial statements.

Our future success and viability, therefore, are dependent upon our ability to generate capital financing. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon us and our shareholders.

Off-Balance Sheet Arrangements

At October 31, 2013, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results or operations, liquidity, capital expenditures or capital resources that is material to investors.

Critical Accounting Policies

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations", included in our Annual Report for the fiscal year ended July 31, 2013 and subsequently through the interim quarterly report for the period ending October 31, 2013.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

In connection with the preparation of this Quarterly Report on Form 10-Q, an evaluation was carried out by our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), as of October 31, 2013. Based on that evaluation, our principal executive officer and our principal financial officer have concluded that our disclosure controls and procedures were ineffective as of October 31, 2013. The material weaknesses we identified in our annual report on Form 10-K for our fiscal year ending July 31, 2013 have not been remedied due to our lack of sufficient capital resources.

Changes in Internal Control Over Financial Reporting

As of October 31, 2013, there have been no changes in internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the period ended October 31, 2013, that materially affected, or are reasonably likely to materially affect, our company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. We are not presently a party to any material litigation, nor to the knowledge of management is any litigation threatened against us, which may materially affect us.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On August 28, 2013, the Company issued 25,000 shares of unregistered restricted common stock valued at $0.25 per share in lieu of outstanding debt totaling $6,250 for professional services rendered.

On September 9, 2013, the Company issued 250,000 shares of unregistered common stock at $0.50 per share for a total of $125,000 cash and cash equivalent.

On October 3, 2013, the Company issued 510,000 common shares at $0.21 per common share for a total of $107,100 cash.

The above noted shares were issued pursuant to the exemption from registration contained in Regulation S of the Securities Act of 1933, as amended, in that the transaction took place outside the United States of America with a non-US person.

On October 21, 2013 the Company issued an aggregate of 200,000 shares common stock pursuant to a consulting agreement entered into during the period. The shares were valued at $120,000 based on the fair market value of the stock on the date the shares were issued. On October 31, 2013, the Company issued 250,000 shares of common stock pursuant to a financial advisory agreement. The shares were valued at $150,000 based on the fair market value of the stock on the date the shares were issued.
