FIRST FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

PART I - FINANCIAL INFORMATION

1 - Basis of Presentation

The financial information included herein for First Financial Corporation, and all of its wholly owned subsidiaries (the "Company") is unaudited; however, such unaudited information reflects all adjustments which are, in management's opinion, necessary for a fair presentation of the financial position, results of operations and statement of cash flows for the interim periods. In preparing these financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenue and expense for the period. Actual results could differ significantly from those estimates.

As more fully discussed in the Annual Report Form 10-KSB for the year ended December 31, 2002, effective July 31, 2002, the Company acquired all of the outstanding common stock of First Preference Mortgage Corp. ("FPMC") so that the Company directly owns 100% of the capital stock of FPMC. FPMC was a third-tier subsidiary of Key Group, Ltd. ("Key Group"), a Texas Limited Partnership, which the Company owned an approximately 53% interest. The Company's consolidated statements of income for the nine months ended September 30, 2002, include the revenue and expense of Key Group for the period January 1, 2002 to July 31, 2002 and the revenue and expense of FPMC for the period August 1, 2002 to September 30, 2002. The minority interest in net loss for the nine months ended September 30, 2002 represents the ownership of other entities in the net loss of Key Group.

The results of operations and changes in cash flow for the nine-month period ended September 30, 2003 are not necessarily indicative of the results to be expected for the full year or any future period.

Certain reclassifications were made to prior periods to ensure comparability with the current period.

2 - Earnings Per Share

Earnings per common share were computed by dividing net income by the weighted average number of shares outstanding during the period.

3 - Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of the loan loss reserve for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred taxes also are recognized for operating losses that are available to offset future taxable income and tax credits that are available to offset future federal income taxes. The Company has approximately \$6,000,000 in available net operating loss carryforward benefits for financial statement purposes to offset future income, if any. A valuation allowance has been provided for all tax benefits.

4 - Contingencies

Substantially all of the conventional pools of manufactured home loans serviced by the Company, approximately \$307,000 at September 30, 2003, were sold to investors with recourse. The recourse provisions typically require the Company to repurchase delinquent loans at the unpaid balances plus accrued interest, or replace delinquent loans with another loan which is current. Further, several of the agreements require the Company to establish and maintain cash reserve accounts. Deposits are periodically made to the accounts equal to a specified percent of the outstanding loans. The accounts may be used to cover deficiencies from foreclosure and liquidation of delinquent pooled mortgage loans. Such cash reserve accounts totaled \$4,495 and are included in restricted cash at September 30, 2003.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

Results of Operations

The Company had net income of \$1,131,216 for the nine months ended September 30, 2003 compared to net income of \$374,836 for the same period in 2002. Loan administration revenues were \$10,104,240 for the first nine months for 2003 compared to \$5,304,859 for the same period of 2002. The increase in loan administration revenues is the result of increased loan origination fees from the Company's residential mortgage loan operations. During the nine months ended September 30, 2003, FPMC funded approximately \$606.0 million in new residential mortgage loans compared to approximately \$472.8 million during the same period in 2002. In addition, the revenues from the sale of the mortgage loans to governmental and private investors increased by approximately \$3.7 million for the nine months ended September 30, 2003 compared to the same period in 2002. This increase is due to a significant improvement in the net margins realized on the sale of these mortgage loans and a \$170.3 million increase in the amount of mortgage loans sold during the period. The net margins realized during the first quarter of 2002 were decreased due to the unstable market conditions that prevailed during the period.

For the seven months ended July 31, 2002, Key Group had a net loss of (\$786,352). The Company's share of the net loss of Key Group was (\$416,303) for the seven months ended July 31, 2002. The minority interest in the net loss of Key Group amounted to \$370,049 for the seven months ended July 31, 2002. The minority interest represents the ownership of other entities in the Key Group net loss. As a result of transactions previously discussed that took place in July 2002, Key Group was dissolved and FPMC is now 100% directly owned by the Company.

For the two months ended September 30, 2002, FPMC had net income of \$744,522. Approximately \$636,000 of this net income was attributable to other income from the recoupment of an asset valuation reserve that was required to be recorded by FPMC in connection with its acquisition by the Company as discussed above.

Interest income for the nine months ended September 30, 2003 amounted to \$2,059,353 compared to \$1,590,831 for the same period in 2002. This increase is primarily due to the approximate \$133.2 million increase in loan originations from 2003 to 2002, as discussed above. FPMC earns interest from the date the mortgage loan is closed until the date the mortgage loan is sold to investors.

Other income for the nine months ended September 30, 2003 amounted to \$1,154,134 compared to \$1,562,087 for the same period in 2002. As discussed above, FPMC realized approximately \$636,000 in other income during the two months ended September 30, 2002. For the nine months ended September 30, 2003, fees earned under fronting and reinsurance agreements increased by approximately \$171,000 compared to the same period in 2002.

Salaries and related expenses increased to \$5,406,924 for the nine months ended September 30, 2003, compared to \$4,392,897 for the nine months ended September 30, 2002. This increase is primarily due to the overall increase in the volume of new residential mortgage loans originated during the nine months ended September 30, 2003 compared to the same period in 2002 as previously discussed.

For the nine months ended September 30, 2003, interest expense amounted to \$1,752,387 compared to \$1,027,707 for the same period in 2002. The significant increase in interest expense for the nine months ended September 30, 2003 is primarily the result of increased utilization of the warehouse line of credit and loan participation agreements due to the previously discussed increase in loan origination volume. During this period, the weighted average interest rate on the Company's financing of its mortgage lending activities increased to approximately 4.61% compared to approximately 4.40% for the same period in 2002.

Other operating expenses for the nine months ended September 30, 2003 were \$5,027,200 compared to \$3,032,162 for the same period in 2002. This increase is primarily due to the overall increase in the volume of new residential mortgage loans originated during the nine months ended September 30, 2003 compared to the same period in 2002 as previously discussed.

The consolidated statements of income for the nine months ended September 30, 2002 reflect equity in the net loss of affiliates of (\$206). As more fully discussed in the Annual Report Form 10-KSB for the year ended December 31, 2002, the Company exchanged its interest in affiliates in acquiring all of the outstanding common stock of FPMC effective July 31, 2002.

Other comprehensive income consists of unrealized holding gains (losses) on marketable investment securities net of income taxes. For the nine months ended September 30, 2003, unrealized holding losses amounted to (\$264) compared to unrealized holding gains of \$16,315 for the nine months ended September 30, 2002.

Financial Condition

On consolidated basis, cash and cash equivalents (including restricted cash) were \$4,157,514 at September 30, 2003. Included therein is cash and cash equivalents of Apex Lloyds Insurance Company of \$940,174 and First Apex Re of \$442,803. The cash flow of Apex Lloyds Insurance Company and First Apex Re are only available to the Company as allowed by state insurance regulations.

As more fully discussed in the Annual Report Form 10-KSB for the year ended December 31, 2002, FPMC has a mortgage warehouse line of credit with a financial institution totaling \$45,000,000 which expired April 30, 2003. On April 9, 2003, the maturity date was extended to May 31, 2003. On April 30, 2003, the maturity date was extended to July 31, 2003 and the amount of the line of credit increased to \$50,000,000. On July 31, 2003, the maturity date was extended to August 31, 2003. On August 29, 2003, the maturity date was extended to June 30, 2004. This agreement includes certain financial covenants including requirements to maintain FPMC stockholders' equity above \$3,600,000 and adjusted-tangible-net worth above \$3,500,000. Also, FPMC's total liabilities to adjusted tangible net worth may never exceed 15 to 1. On June 9, 2003, FPMC entered into a loan participation agreement in the amount of \$10,000,000 with this financial institution. Under this agreement, the financial institution has the option to purchase an undivided interest in the residential mortgage loans originated by FPMC. When the subject mortgage is sold in the secondary market, the financial institution recoups its investment plus a specified yield on its investment. At September 30, 2003, no participations were outstanding under this agreement.

In addition, FPMC has a loan participation agreement with another financial institution, which is a related party by common ownership, amounting to \$22,500,000. Under this agreement, the financial institution has the option to purchase an undivided interest in the residential mortgage loans originated by FPMC. When the subject mortgage loan is sold in the secondary market, the financial institution recoups its investment plus a specified yield on its investment. At September 30, 2003, \$14,364,611 in participations were outstanding under this agreement.

Item 3. Controls and Procedures

Within the 90 days prior to the filing of this report, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures. The evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer. Based on and as of the date of the evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company, including its consolidated subsidiaries, required to be included in reports the Company files with or submits to the Securities and Exchange Commission under the Securities Exchange Act of 1934. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's internal controls subsequent to the date of the evaluation.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in routine litigation incidental to its business, both as a plaintiff and a defendant. Management of the Company, after consulting with legal counsel, feels that liability resulting from the litigation, if any, will no have a material effect on this financial position of the Company.

Item 5. Other Information

This report on Form 10-Q is accompanied by a statement of the Chief Executive Officer and the Chief Financial Officer of the registrant making certain certifications as to the contents hereof, as required by Section 906 of the Sarbanes-Oxley Act of 2002.

Item 6. Exhibits and Reports on Form 8-K

No Form 8-K was filed during the quarter ended September 30, 2003.

Annual and Quarterly Certifications

Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, David W. Mann, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of First Financial Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Date: November 12, 2003
