FIRST FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

PART I - FINANCIAL INFORMATION

1 - Basis of Presentation

The financial information included herein for First Financial Corporation, and all of its wholly owned subsidiaries (the "Company") is unaudited; however, such unaudited information reflects all adjustments which are, in management's opinion, necessary for a fair presentation of the financial position, results of operations and statement of cash flows for the interim periods. In preparing these financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenue and expense for the period. Actual results could differ significantly from those estimates.

The results of operations and changes in cash flow for the three-month period ended March 31, 2005 are not necessarily indicative of the results to be expected for the full year or any future period.

Certain reclassifications were made to prior periods to ensure comparability with the current period.

2 - Earnings Per Share

Earnings per common share were computed by dividing net income by the weighted average number of shares outstanding during the period.

3 - Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of the loan loss reserve for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred taxes also are recognized for operating losses that are available to offset future taxable income and tax credits that are available to offset future federal income taxes. The Company has approximately \$6.8 million in available net operating loss carryforward benefits for financial statement purposes to offset future income, if any. A valuation allowance has been provided for all tax benefits.

#### 4 - Contingencies

Substantially all of the conventional pools of manufactured home loans serviced by the Company, approximately \$277,000 at March 31, 2005, were sold to investors with recourse. The recourse provisions typically require the Company to repurchase delinquent loans at the unpaid balances plus accrued interest, or replace delinquent loans with another loan which is current.

#### Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

##### Results of Operations

The Company had a net loss of \$(492,419) for the quarter ended March 31, 2005 compared to net loss of \$(294,180) for the same period in 2004. Loan administration revenues were \$1,084,524 for the first quarter for 2005 compared to \$1,366,338 for the first quarter of 2004. The decrease in loan administration revenues is the result of decreased retail loan origination fees from the Company's residential mortgage loan operations. During the quarter ended March 31, 2005, FPMC funded approximately \$14.1 million in retail residential mortgage loans and approximately \$70.3 million in wholesale loans compared to approximately \$20.2 million and \$64.8 million, respectively during the same period in 2004. In addition, the revenues from the sale of the mortgage loans to governmental and private investors decreased by approximately \$140,000 for the three months ended March 31, 2005 compared to the same period in 2004. This decrease is due to an approximately 14% reduction in the net margins realized on the sale of these mortgage loans during the quarter ended March 31, 2005 compared with the same period in 2004. In addition, the amount on loans sold during the period decreased by \$10.8 million from the same period in 2004.

Interest income for the quarter ended March 31, 2005 amounted to \$346,958 compared to \$273,073 for the same period in 2004. During this period, the interest income earned on mortgages held-for-sale increased by approximately \$75,000 from the same period in 2004 primarily due to increasing mortgage loan interest rates during these periods. FPMC earns interest from the date the mortgage loan is closed until the date the mortgage loan is sold to investors.

Other income for the quarter ended March 31, 2005 amounted to \$331,738 compared to \$404,434 for the same period in 2004. As more fully discussed in the Annual Report Form 10-KSB for the year ended December 31, 2004, the Company sold First Apex Re ("FAR") effective December 29, 2004. The Company's consolidated statements of income include the revenue and expense of FAR for the period January 1, 2004 to March 31, 2004. During the quarter ended March 31, 2004, FAR had total insurance revenues of approximately \$75,000. In addition, the net fees earned under fronting and reinsurance agreements decreased due to a reduction in the number of policies written and changes in commissions paid under these agreements.

As more fully discussed in the Annual Report Form 10-KSB for the year ended December 31, 2004, the Company sold Apex Lloyds Insurance Company ("Apex Lloyds") on March 31, 2005. The Company realized a gain on the sale of \$73,234.

Salaries and related expenses increased to \$1,139,323 for the three months ended March 31, 2005, compared to \$1,277,530 for the three months ended March 31, 2004. This decrease is primarily due to the decrease in the volume of new retail residential mortgage loans originated during the quarter ended March 31, 2005 compared to the same period in 2004 as previously discussed.

For the quarter ended March 31, 2005, interest expense amounted to \$312,478 compared to \$211,218 for the same period in 2004. The significant increase in interest expense for the quarter ended March 31, 2005 is primarily the result of the increase in the weighted average interest rate on the Company's financing of its mortgage lending activities. During this period, the weighted average interest rate increased to approximately 4.86% compared to approximately 4.39% for the same period in 2004.

Operating expenses for the quarter ended March 31, 2005 were \$803,838 compared to \$849,277 for the same period in 2004. This decrease is primarily due to the overall decrease in the volume of new residential mortgage loans originated during the quarter ended March 31, 2005 compared to the same period in 2004 as previously discussed.

During the quarter ended March 31, 2005, the Company recorded a provision for loan losses of \$15,576 compared to \$65,972 for the same period in 2004. At March 31, 2005, the reserve for indemnifications and early payment default losses amounted to \$1,777,523 compared to \$260,004 at March 31, 2004. The Company is at risk under certain of its agreements with private investors for credit losses and cost of foreclosure on default of the borrower. The Company has analyzed certain attributes of the mortgage loans that it has sold to investors, including delinquencies, credit quality, credit insurance, loss experience and insurance coverage. Based on this review, the Company believes that its reserve for indemnifications and early payment default losses is adequate for potential loan losses.

The Company made no provision for losses under servicing agreements in either the quarter ended March 31, 2005 or 2004. The reserve for losses under servicing agreements amounted to \$234,595 at March 31, 2005 and 2004. Under the terms of certain of its servicing agreements, the Company is at risk for any credit losses and costs of foreclosure, net of credit insurance proceeds, if any, sustained on default of the borrower. The Company has analyzed its servicing portfolio characteristics, including servicing portfolio balance, loss experience, maturity and aging of the loans and the credit insurance coverage on the loans. Based on this analysis, it is the Company's belief that its reserve for losses under servicing agreements is adequate for potential losses attributable to the servicing agreements.

Other comprehensive income consists of unrealized holding gains (losses) on marketable investment securities net of income taxes. For the quarter ended March 31, 2005, unrealized holding losses amounted to \$(14,327) compared to unrealized holding gains of \$13,951 for the quarter ended March 31, 2004.

### Financial Condition

At March 31, 2005, the Company's total assets were \$30,604,379 compared to \$27,449,614 at March 31, 2004. Included in the total assets at March 31, 2004, are the total assets of Apex Lloyds and FAR amounting to \$3,827,761. The increase in the total assets is primarily due to the reduction in the amount of residential mortgage loans sold to investors during the quarter ended March 31, 2005 as previously discussed. As reflected in the financial statements, the stockholders' equity of the Company was \$2,636,695 at March 31, 2005 and the stockholders' equity was \$5,937,328 at March 31, 2004.

### Liquidity and Capital Resources

The Company's primary sources of liquidity are proceeds from the sale of mortgage loans, net interest income, fees earned from originating mortgage loans and borrowings under the Company's warehouse credit facilities. The Company's use of cash include the funding of mortgage loans prior to their sale, payment of interest, repayment of amounts borrowed pursuant to warehouse lines of credit, operating and general and administrative expenses and capital expenditures. On consolidated basis, cash and cash equivalents were \$1,992,955 at March 31, 2005

As more fully discussed in the Annual Report Form 10-KSB for the year ended December 31, 2004, FPMC has a mortgage warehouse line of credit with a financial institution totaling \$25,000,000 which expires on June 30, 2005. This agreement includes certain financial covenants including requirements to maintain adjusted-tangible-net worth above \$2,500,000. Also, FPMC's total liabilities to adjusted tangible net worth may never exceed 15 to 1. The obligations under this agreement are guaranteed under an Unlimited Continuing Guaranty Agreement executed by David W. Mann. Management expects to renew this agreement or possibly seek an alternate funding source for its financing of operations, and therefore, management does not believe that this matter will have a material adverse effect on the financial position of FPMC, however, the ability to provide adequate funding sources for its financing of operations has a direct impact on maintaining the level of operations.

FPMC has a loan participation agreement in the amount of \$10,000,000 with its line of credit lender. Under this agreement, the financial institution has the option to purchase an undivided interest in the residential mortgage loans originated by FPMC. When a subject mortgage loan is sold in the secondary market, the financial institution recoups its investment plus a specified yield on its investment. At March 31, 2005, \$6,184,893 in participations were outstanding under this agreement.

In addition, FPMC has a loan participation agreement with another financial institution, which is a related party by common ownership, amounting to \$22,500,000. Under this agreement, the financial institution has the option to purchase an undivided interest in the residential mortgage loans originated by FPMC. When the subject mortgage loan is sold in the secondary market, the financial institution recoups its investment plus a specified yield on its investment. At March 31, 2005, no participations were outstanding under this agreement.

Item 3. Controls and Procedures

As of March 31, 2005, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures. The evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer. Based on and as of the date of the evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company, including its consolidated subsidiaries, required to be included in reports the Company files with or submits to the Securities and Exchange Commission under the Securities Exchange Act of 1934. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's internal controls subsequent to the date of the evaluation.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in routine litigation incidental to its business, both as a plaintiff and a defendant. Management of the Company, after consulting with legal counsel, feels that liability resulting from the litigation, if any, will not have a material effect on this financial position of the Company.

Item 5. Other Information

This report on Form 10-Q is accompanied by a statement of the Chief Executive Officer and the Chief Financial Officer of the registrant making certain certifications as to the contents hereof, as required by Section 906 of the Sarbanes-Oxley Act of 2002.

Item 6. Exhibits and Reports on Form 8-K

A Form 8-K with a report date of March 31, 2005 was filed on April 6, 2005, pertaining to the sale of Apex Lloyds Insurance Company and First Apex Re, Inc.

SIGNATURES

Pursuant to the requirements of the Securities and Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
