UNION PACIFIC CORPORATION AND SUBSIDIARY COMPANIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

For purposes of this report, unless the context otherwise requires, all references herein to the “Corporation”, “Company”, “UPC”, “we”, “us”, and “our” mean Union Pacific Corporation and its subsidiaries, including Union Pacific Railroad Company, which will be separately referred to herein as “UPRR” or the “Railroad”.

1. Basis of Presentation

Our Condensed Consolidated Financial Statements are unaudited and reflect all adjustments (consisting of normal and recurring adjustments) that are, in the opinion of management, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America (GAAP). Pursuant to the rules and regulations of the Securities and Exchange Commission (SEC), certain information and note disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted. Accordingly, this Quarterly Report on Form 10-Q should be read in conjunction with our Consolidated Financial Statements and notes thereto contained in our 2015 Annual Report on Form 10-K. Our Consolidated Statement of Financial Position at December 31, 2015, is derived from audited financial statements. The results of operations for the nine months ended September 30, 2016, are not necessarily indicative of the results for the entire year ending December 31, 2016.

The Condensed Consolidated Financial Statements are presented in accordance with GAAP as codified in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

2. Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09 (ASU 2014-09), Revenue from Contracts with Customers (Topic 606). ASU 2014-09 supersedes the revenue recognition guidance in Topic 605, Revenue Recognition. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods and services to customers in an amount that reflects the consideration to which the entity expects to

be entitled in the exchange for those goods or services. This standard is effective for annual reporting periods beginning after December 15, 2017. ASU 2014-09 is not expected to have a material impact on our consolidated financial position, results of operations, or cash flows.

In January 2016, the FASB issued Accounting Standards Update No. 2016-01 (ASU 2016-01), Recognition and Measurement of Financial Assets and Financial Liabilities (Subtopic 825-10). ASU 2016-01 provides guidance for the recognition, measurement, presentation, and disclosure of financial instruments. This guidance is effective for annual and interim periods beginning after December 15, 2017, and early adoption is not permitted. ASU 2016-01 is not expected to have a material impact on our consolidated financial position, results of operations, or cash flows.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02 (ASU 2016-02), Leases (Subtopic 842). ASU 2016-02 will require companies to recognize lease assets and lease liabilities on the balance sheet and disclose key information about leasing arrangements. For public companies, this standard is effective for annual reporting periods beginning after December 15, 2018, and early adoption is permitted. The Company is currently evaluating the impact of this standard on our consolidated financial position, results of operations, and cash flows.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09 (ASU 2016-09) Compensation - Stock Compensation (Topic 718), which simplifies the accounting for income taxes related to stock-based compensation. We elected to early adopt ASU 2016-09 in the first quarter of 2016 with an effective date of January 1, 2016. As a result of the adoption, we recognized excess tax benefits in the Condensed Consolidated Statements of Income and the Condensed Consolidated Statements of Cash Flows of \$5 million and \$21 million for the three and nine months ended September 30, 2016, respectively. Prior periods have not been adjusted.

Table of Contents

3. Operations and Segmentation

The Railroad, along with its subsidiaries and rail affiliates, is our one reportable operating segment. Although we provide and analyze revenue by commodity group, we treat the financial results of the Railroad as one segment due to the integrated nature of our rail network. The following table provides freight revenue by commodity group:

Millions	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Agricultural Products	\$ 937	\$ 880	\$ 2,664	\$ 2,686
Automotive	485	529	1,483	1,605
Chemicals	875	882	2,617	2,684
Coal	728	898	1,741	2,492
Industrial Products	855	979	2,519	2,966
Intermodal	957	1,047	2,745	3,101
Total freight revenues	\$ 4,837	\$ 5,215	\$ 13,769	\$ 15,534
Other revenues	337	347	1,004	1,071
Total operating revenues	\$ 5,174	\$ 5,562	\$ 14,773	\$ 16,605

Although our revenues are principally derived from customers domiciled in the U.S., the ultimate points of origination or destination for some products we transport are outside the U.S. Each of our commodity groups includes revenue from shipments to and from Mexico. Included in the above table are freight revenues from our Mexico business which amounted to \$564 million and \$554 million, respectively, for the three months ended September 30, 2016, and September 30, 2015, and \$1,649 million and \$1,655 million, respectively, for the nine months ended September 30, 2016, and September 30, 2015.

4. Stock-Based Compensation

We have several stock-based compensation plans under which employees and non-employee directors receive stock options, nonvested retention shares, and nonvested stock units. We refer to the nonvested shares and stock units collectively as “retention awards”. We have elected to issue treasury shares to cover option exercises and stock unit vestings, while new shares are issued when retention shares are granted. Information regarding stock-based compensation appears in the table below:

Millions	Three		Nine	
	Months		Months	
	Ended		Ended	
	September		September	
	30,	30,	30,	30,
	2016	2015	2016	2015
Stock-based compensation, before tax:				
Stock options	\$ 5	\$ 5	\$ 13	\$ 14
Retention awards	15	20	48	65
Total stock-based compensation, before tax	\$ 20	\$ 25	\$ 61	\$ 79
Excess tax benefits from equity compensation plans	\$ 5	\$ 2	\$ 21	\$ 57

Stock Options – We estimate the fair value of our stock option awards using the Black-Scholes option pricing model. The table below shows the annual weighted-average assumptions used for valuation purposes:

Weighted-Average Assumptions	2016	2015
Risk-free interest rate	1.3%	1.3%
Dividend yield	2.9%	1.8%
Expected life (years)	5.1	5.1
Volatility	23.2%	23.4%
Weighted-average grant-date fair value of options granted	\$ 11.36	\$ 22.30

Table of Contents

The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant; the expected dividend yield is calculated as the ratio of dividends paid per share of common stock to the stock price on the date of grant; the expected life is based on historical and expected exercise behavior; and expected volatility is based on the historical volatility of our stock price over the expected life of the option.

A summary of stock option activity during the nine months ended September 30, 2016, is presented below:

	Options (thous.)	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Intrinsic Value
			(yrs.)	(millions)
Outstanding at January 1, 2016	5,571	\$ 66.69	5.4 yrs.	\$ 114
Granted	1,672	75.52	N/A	N/A
Exercised	(620)	33.99	N/A	N/A
Forfeited or expired	(79)	103.93	N/A	N/A
Outstanding at September 30, 2016	6,544	\$ 71.59	6.0 yrs.	\$ 192
Vested or expected to vest at September 30, 2016	6,467	\$ 71.39	6.0 yrs.	\$ 191
Options exercisable at September 30, 2016	3,996	\$ 61.26	4.3 yrs.	\$ 153

Stock options are granted at the closing price on the date of grant, have ten-year contractual terms, and vest no later than three years from the date of grant. None of the stock options outstanding at September 30, 2016, are subject to performance or market-based vesting conditions.

At September 30, 2016, there was \$23 million of unrecognized compensation expense related to nonvested stock options, which is expected to be recognized over a weighted-average period of 1.5 years. Additional information regarding stock option exercises appears in the table below:

Millions	Three Months Ended September 30, 2016	2015	Nine Months Ended September 30, 2016	2015
Intrinsic value of stock options exercised	\$ 15	\$ 3	\$ 32	\$ 42
Cash received from option exercises	11	2	24	23
Treasury shares repurchased for employee payroll taxes	(4)	(1)	(9)	(10)

Edgar Filing: UNION PACIFIC CORP - Form 10-Q

Tax benefit realized from option exercises	5	1	12	16
Aggregate grant-date fair value of stock options vested	-	-	19	19

Retention Awards – The fair value of retention awards is based on the closing price of the stock on the grant date. Dividends and dividend equivalents are paid to participants during the vesting periods.

Changes in our retention awards during the nine months ended September 30, 2016, were as follows:

	Shares (thous.)	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2016	2,900	\$ 80.01
Granted	835	75.76
Vested	(792)	57.53
Forfeited	(131)	88.88
Nonvested at September 30, 2016	2,812	\$ 84.67

Retention awards are granted at no cost to the employee or non-employee director and vest over periods lasting up to four years. At September 30, 2016, there was \$98 million of total unrecognized compensation expense related to nonvested retention awards, which is expected to be recognized over a weighted-average period of 1.8 years.

Performance Retention Awards – In February 2016, our Board of Directors approved performance stock unit grants. The basic terms of these performance stock units are identical to those granted in

Table of Contents

February 2014 and February 2015, except for different annual return on invested capital (ROIC) performance targets and the addition of relative operating income growth (OIG) as a modifier compared to the companies included in the S&P 500 Industrials Index. We define ROIC as net operating profit adjusted for interest expense (including interest on the present value of operating leases) and taxes on interest divided by average invested capital adjusted for the present value of operating leases. The modifier can be up to +/- 25% of the award earned based on the ROIC achieved.

Stock units awarded to selected employees under these grants are subject to continued employment for 37 months and the attainment of certain levels of ROIC, and for the 2016 plan, modified for the relative OIG. We expense the fair value of the units that are probable of being earned based on our forecasted ROIC over the 3-year performance period, and with respect to the third year of the 2016 plan, the relative OIG modifier. We measure the fair value of these performance stock units based upon the closing price of the underlying common stock as of the date of grant, reduced by the present value of estimated future dividends. Dividend equivalents are paid to participants only after the units are earned.

The assumptions used to calculate the present value of estimated future dividends related to the February 2016 grant were as follows:

	2016
Dividend per share per quarter	\$ 0.55
Risk-free interest rate at date of grant	0.9%

Changes in our performance retention awards during the nine months ended September 30, 2016, were as follows:

	Shares	Weighted-Average Grant-Date Fair Value
	(thous.)	
Nonvested at January 1, 2016	1,255	\$ 82.98
Granted	503	70.09
Vested	(530)	62.57
Forfeited	(65)	91.98
Nonvested at September 30, 2016	1,163	\$ 86.20

At September 30, 2016, there was \$17 million of total unrecognized compensation expense related to nonvested performance retention awards, which is expected to be recognized over a weighted-average period of 1.4 years. This expense is subject to achievement of the performance measures established for the performance stock unit grants.

5. Retirement Plans

Pension and Other Postretirement Benefits

Pension Plans – We provide defined benefit retirement income to eligible non-union employees through qualified and non-qualified (supplemental) pension plans. Qualified and non-qualified pension benefits are based on years of service and the highest compensation during the latest years of employment, with specific reductions made for early retirements.

Other Postretirement Benefits (OPEB) – We provide medical and life insurance benefits for eligible retirees. These benefits are funded as medical claims and life insurance premiums are paid.

Expense

Both pension and OPEB expense are determined based upon the annual service cost of benefits (the actuarial cost of benefits earned during a period) and the interest cost on those liabilities, less the expected return on plan assets. The expected long-term rate of return on plan assets is applied to a calculated value of plan assets that recognizes changes in fair value over a five-year period. This practice is intended to reduce year-to-year volatility in pension expense, but it can have the effect of delaying the recognition of differences between actual returns on assets and expected returns based on long-term rate

Table of Contents

of return assumptions. Differences in actual experience in relation to assumptions are not recognized in net income immediately, but are deferred in accumulated other comprehensive income and, if necessary, amortized as pension or OPEB expense.

The components of our net periodic pension cost were as follows:

Millions	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Service cost	\$ 21	\$ 30	\$ 64	\$ 78
Interest cost	36	41	107	121
Expected return on plan assets	(67)	(63)	(201)	(191)
Amortization of:				
Actuarial loss	21	27	62	79
Net periodic pension cost	\$ 11	\$ 35	\$ 32	\$ 87

The components of our net periodic OPEB cost were as follows:

Millions	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Service cost	\$ -	\$ 1	\$ 1	\$ 2
Interest cost	2	3	8	10
Amortization of:				
Prior service credit	(2)	(3)	(7)	(8)
Actuarial loss	2	4	7	10
Net periodic OPEB cost	\$ 2	\$ 5	\$ 9	\$ 14

Cash Contributions

For the nine months ended September 30, 2016, we made \$100 million of voluntary cash contributions to the qualified pension plan. Any additional contributions made in the fourth quarter of 2016 will be based on cash generated from operations and financial market considerations. Our policy with respect to funding the qualified plans is to fund at least the minimum required by law and not more than the maximum amount deductible for tax purposes. At September 30, 2016, we do not have minimum cash funding requirements for 2016.

6. Other Income

Other income included the following:

	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Millions,				
Net gain on non-operating asset dispositions [a] [b]	\$ 3	\$ 10	\$ 91	\$ 138
Rental income	23	25	71	71
Interest income	3	2	8	4
Non-operating environmental costs and other	-	(7)	(18)	(15)
Total	\$ 29	\$ 30	\$ 152	\$ 198

[a]2016 includes \$17 million related to a real estate sale in the first quarter and \$50 million related to a real estate sale in the second quarter.

[b]2015 includes \$113 million related to a real estate sale in the second quarter.

Table of Contents

7. Income Taxes

UPC is not currently under examination by the Internal Revenue Service (IRS). IRS examinations have been completed and settled for all years prior to 2011, and the statute of limitations bars any additional tax assessments for those years.

Several state tax authorities are examining our state tax returns for years 2006 through 2012.

At September 30, 2016, we had a net liability for unrecognized tax benefits of \$90 million.

8. Earnings Per Share

The following table provides a reconciliation between basic and diluted earnings per share:

Millions, Except Per Share Amounts	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2016	2015	2016	2015
Net income	\$ 1,131	\$ 1,300	\$ 3,089	\$ 3,655
Weighted-average number of shares outstanding:				
Basic	829.0	862.9	836.8	871.5
Dilutive effect of stock options	1.6	1.3	1.4	1.6
Dilutive effect of retention shares and units	1.6	1.6	1.4	1.5
Diluted	832.2	865.8	839.6	874.6
Earnings per share – basic	\$ 1.36	\$ 1.51	\$ 3.69	\$ 4.19
Earnings per share – diluted	\$ 1.36	\$ 1.50	\$ 3.68	\$ 4.18
Stock options excluded as their inclusion would be anti-dilutive	0.9	0.9	2.4	0.8

9. Accumulated Other Comprehensive Income/(Loss)

Reclassifications out of accumulated other comprehensive income/(loss) for the three and nine months ended September 30, 2016, and 2015, were as follows (net of tax):

Millions	Defined benefit plans	Foreign currency translation	Total
Balance at July 1, 2016	\$ (1,082)	\$ (116)	\$ (1,198)
Other comprehensive income/(loss) before reclassifications	1	(1)	-
Amounts reclassified from accumulated other comprehensive income/(loss) [a]	13	-	13
Net quarter-to-date other comprehensive income/(loss), net of taxes of \$(7) million	14	(1)	13
Balance at September 30, 2016	\$ (1,068)	\$ (117)	\$ (1,185)
Balance at July 1, 2015	\$ (1,133)	\$ (75)	\$ (1,208)
Other comprehensive income/(loss) before reclassifications	-	(21)	(21)
Amounts reclassified from accumulated other comprehensive income/(loss) [a]	17	-	17
Net quarter-to-date other comprehensive income/(loss), net of taxes of \$3 million	17	(21)	(4)
Balance at September 30, 2015	\$ (1,116)	\$ (96)	\$ (1,212)

[a]The accumulated other comprehensive income/(loss) reclassification components are 1) prior service cost/(credit) and 2) net actuarial loss which are both included in the computation of net periodic pension cost. See Note 5 Retirement Plans for additional details.

Table of Contents

Millions	Defined benefit plans	Foreign currency translation	Total
Balance at January 1, 2016	\$ (1,103)	\$ (92)	\$ (1,195)
Other comprehensive income/(loss) before reclassifications	(4)	(25)	(29)
Amounts reclassified from accumulated other comprehensive income/(loss) [a]	39	-	39
Net year-to-date other comprehensive income/(loss), net of taxes of \$(8) million	35	(25)	10
Balance at September 30, 2016	\$ (1,068)	\$ (117)	\$ (1,185)
Balance at January 1, 2015	\$ (1,161)	\$ (49)	\$ (1,210)
Other comprehensive income/(loss) before reclassifications	(5)	(47)	(52)
Amounts reclassified from accumulated other comprehensive income/(loss) [a]	50	-	50
Net year-to-date other comprehensive income/(loss), net of taxes of \$(1) million	45	(47)	(2)
Balance at September 30, 2015	\$ (1,116)	\$ (96)	\$ (1,212)

[a]The accumulated other comprehensive income/(loss) reclassification components are 1) prior service cost/(credit) and 2) net actuarial loss which are both included in the computation of net periodic pension cost. See Note 5 Retirement Plans for additional details.

10. Accounts Receivable

Accounts receivable includes freight and other receivables reduced by an allowance for doubtful accounts. The allowance is based upon historical losses, credit worthiness of customers, and current economic conditions. At September 30, 2016, and December 31, 2015, our accounts receivable were reduced by \$7 million and \$5 million, respectively. Receivables not expected to be collected in one year and the associated allowances are classified as other assets in our Condensed Consolidated Statements of Financial Position. At September 30, 2016, and December 31, 2015, receivables classified as other assets were reduced by allowances of \$29 million and \$11 million, respectively.

Receivables Securitization Facility –The Railroad maintains a \$650 million, 3-year receivables securitization facility (the Receivables Facility), which now matures in July 2019, after we completed a renewal in August 2016 with comparable terms. Under the Receivables Facility, the Railroad sells most of its eligible third-party receivables to Union Pacific Receivables, Inc. (UPRI), a consolidated, wholly-owned, bankruptcy-remote subsidiary that may subsequently transfer, without recourse, an undivided interest in accounts receivable to investors. The investors have no recourse to the Railroad’s other assets except for customary warranty and indemnity claims. Creditors of the Railroad do not have recourse to the assets of UPRI.

The amount outstanding under the Receivables Facility was \$400 million at both September 30, 2016, and December 31, 2015. The Receivables Facility was supported by \$1.0 billion and \$0.9 billion of accounts receivable as collateral at September 30, 2016, and December 31, 2015, respectively, which, as a retained interest, is included in accounts receivable, net in our Condensed Consolidated Statements of Financial Position.

The outstanding amount the Railroad is allowed to maintain under the Receivables Facility, with a maximum of \$650 million, may fluctuate based on the availability of eligible receivables and is directly affected by business volumes and credit risks, including receivables payment quality measures such as default and dilution ratios. If default or dilution ratios increase one percent, the allowable outstanding amount under the Receivables Facility would not materially change.

The costs of the Receivables Facility include interest, which will vary based on prevailing benchmark and commercial paper rates, program fees paid to participating banks, commercial paper issuance costs, and

Table of Contents

fees of participating banks for unused commitment availability. The costs of the Receivables Facility are included in interest expense and were \$2 million and \$1 million for the three months ended September 30, 2016, and 2015, respectively, and \$5 million and \$4 million for the nine months ended September 30, 2016, and 2015, respectively.

11. Properties

The following tables list the major categories of property and equipment, as well as the weighted-average estimated useful life for each category (in years):

Millions, Except Estimated Useful Life As of September 30, 2016	Cost	Accumulated Depreciation	Net Book Value	Estimated Useful Life
Land	\$ 5,207	\$ N/A	\$ 5,207	N/A
Road:

Equipment rents payable	105	105
Other	592	550
Total accounts payable and other current liabilities	\$ 2,850	\$ 2,612

13. Financial Instruments

Derivative Strategy and Risk – We may use derivative financial instruments in certain instances, for other than trading purposes, to hedge our overall exposure to fluctuations in interest rates and fuel prices. We are not a party to leveraged derivatives and, by policy, do not use derivative financial instruments for speculative purposes. Derivative financial instruments qualifying for hedge accounting must maintain a specified level of effectiveness between the hedging instrument and the item being hedged, both at inception and throughout the hedged period. We formally document the nature and relationships between the hedging instruments and hedged items at inception, as well as our risk-management objectives, strategies for undertaking the various hedge transactions, and method of assessing hedge effectiveness. Changes in the fair market value of derivative financial instruments that do not qualify for hedge accounting are charged to earnings. We may use swaps, collars, futures, and/or forward contracts to mitigate the risk of adverse movements in interest rates and fuel prices; however, the use of these derivative financial instruments may limit future benefits from favorable interest rate and fuel price movements.

Short-Term Investments – The Company’s short-term investments consist of time deposits and government agency securities. These investments are considered level 2 investments and are valued at amortized cost, which approximates fair value (\$310 million of time deposits and \$20 million of government agency securities as of September 30, 2016). All short-term investments have a maturity of less than one year and are classified as held-to-maturity. There were no transfers out of Level 2 during the nine months ended September 30, 2016.

Fair Value of Financial Instruments – The fair value of our short- and long-term debt was estimated using a market value price model, which utilizes applicable U.S. Treasury rates along with current market quotes on comparable debt securities. All of the inputs used to determine the fair market value of the Corporation’s long-term debt are Level 2

inputs and obtained from an independent source. At September 30, 2016, the fair value of total debt was \$17.9 billion, approximately \$2.3 billion more than the carrying value. At December 31, 2015, the fair value of total debt was \$15.2 billion, approximately \$1.0 billion more than the carrying value. The fair value of the Corporation's debt is a measure of its current value under present market conditions. It does not impact the financial statements under current accounting rules. At both September 30, 2016, and December 31, 2015, approximately \$155 million of debt securities contained call provisions that allow us to retire the debt instruments prior to final maturity, with the payment of fixed call premiums, or in certain cases, at par. The fair value of our cash equivalents approximates their carrying value due to the short-term maturities of these instruments.

14. Debt

Credit Facilities – At September 30, 2016, we had \$1.7 billion of credit available under our revolving credit facility, which is designated for general corporate purposes and supports the issuance of commercial paper. We did not draw on the facility during the nine months ended September 30, 2016. Commitment fees and interest rates payable under the facility are similar to fees and rates available to comparably rated, investment-grade borrowers. The facility allows for borrowings at floating rates based on London Interbank Offered Rates, plus a spread, depending upon credit ratings for our senior unsecured debt. The facility matures in May 2019 under a five-year term and requires UPC to maintain a debt-to-net-worth coverage ratio.

Table of Contents

The definition of debt used for purposes of calculating the debt-to-net-worth coverage ratio includes, among other things, certain credit arrangements, capital leases, guarantees and unfunded and vested pension benefits under Title IV of ERISA. At September 30, 2016, the debt-to-net-worth coverage ratio allowed us to carry up to \$40.6 billion of debt (as defined in the facility), and we had \$15.7 billion of debt (as defined in the facility) outstanding at that date. Under our current capital plans, we expect to continue to satisfy the debt-to-net-worth coverage ratio; however, many factors beyond our reasonable control could affect our ability to comply with this provision in the future. The facility does not include any other financial restrictions, credit rating triggers (other than rating-dependent pricing), or any other provision that could require us to post collateral. The facility also includes a \$125 million cross-default provision and a change-of-control provision.

During the three and nine months ended September 30, 2016, we did not issue or repay any commercial paper, and at September 30, 2016, we had no commercial paper outstanding. Our revolving credit facility supports our outstanding commercial paper balances, and, unless we change the terms of our commercial paper program, our aggregate issuance of commercial paper will not exceed the amount of borrowings available under the facility.

Shelf Registration Statement and Significant New Borrowings – On July 28, 2016, the Board of Directors renewed its authorization for the Company to issue up to \$4.0 billion of debt securities under the Company’s current three-year shelf registration filed in February 2015. This authorization replaces the original Board authorization in February 2015, which had \$0.9 billion of authority remaining. Under our shelf registration, we may issue, from time to time, any combination of debt securities, preferred stock, common stock, or warrants for debt securities or preferred stock in one or more offerings. At September 30, 2016, we had remaining authority to issue up to \$3.55 billion of debt securities under our shelf registration.

During the nine months ended September 30, 2016, we issued the following unsecured, fixed-rate debt securities under our current shelf registration:

Date	Description of Securities
March 1, 2016	\$500 million of 2.750% Notes due March 1, 2026
	\$600 million of 4.050% Notes due March 1, 2046
	\$200 million of reopened 4.375% Notes due November 15, 2065
August 8, 2016	\$150 million of reopened 2.750% Notes due March 1, 2026
	\$300 million of 3.350% Notes due August 15, 2046

We used the net proceeds from the offerings for general corporate purposes, including the repurchase of common stock pursuant to our share repurchase program. These debt securities include change-of-control provisions.

As of September 30, 2016, we reclassified as long-term debt \$100 million of debt due within one year that we intend to refinance. This reclassification reflects our ability and intent to refinance any short-term borrowings and certain current maturities of long-term debt on a long-term basis.

Equipment Trust – On May 9, 2016, UPRR consummated a pass-through (P/T) financing, whereby a P/T trust was created, which issued \$151 million of P/T trust certificates with a stated interest rate of 2.495%. The P/T trust certificates will mature on November 9, 2029. The proceeds from the issuance of the P/T trust certificates were used to purchase equipment trust certificates to be issued by UPRR to finance the acquisition of 59 locomotives. The equipment trust certificates are secured by a lien on the locomotives. The \$151 million is classified as debt due after one year in our Condensed Consolidated Statements of Financial Position.

Receivables Securitization Facility – As of both September 30, 2016, and December 31, 2015, we recorded \$400 million of borrowings under our Receivables Facility as secured debt. (See further discussion of our receivables securitization facility in Note 10).

Subsequent Event – On October 4, 2016, we exchanged \$1,006 million of various outstanding notes and debentures due between 2028 and 2044 (the Existing Notes) for \$1,044 million of 3.799% notes (the New Notes) due October 1, 2051, plus cash consideration of approximately \$183 million in addition to \$11

Table of Contents

million for accrued and unpaid interest on the Existing Notes. In accordance with ASC 470-50-40, Debt-Modifications and Extinguishments-Derecognition, this transaction was accounted for in October as a debt exchange, as the exchanged debt instruments are not considered to be substantially different. The cash consideration was recorded in October as an adjustment to the carrying value of debt, and the balance of the unamortized discount and issue costs from the Existing Notes will be amortized as an adjustment of interest expense over the terms of the New Notes. No gain or loss was recognized as a result of the exchange. Costs related to the debt exchange that were payable to parties other than the debt holders totaled approximately \$8 million and were included in interest expense during the period ended September 30, 2016.

The following table lists the outstanding notes and debentures that were exchanged:

Millions	Principal amount exchanged
7.125% Debentures due 2028	\$ 2
6.625% Debentures due 2029	25
5.375% Debentures due 2033	15
6.250% Debentures due 2034	52
6.150% Debentures due 2037	2
5.780% Notes due 2040	4
4.750% Notes due 2041	175
4.750% Notes due 2043	204
4.821% Notes due 2044	373
4.850% Notes due 2044	154
Total	\$ 1,006

15. Variable Interest Entities

We have entered into various lease transactions in which the structure of the leases contain variable interest entities (VIEs). These VIEs were created solely for the purpose of doing lease transactions (principally involving railroad equipment and facilities) and have no other activities, assets or liabilities outside of the lease transactions. Within these lease arrangements, we have the right to purchase some or all of the assets at fixed prices. Depending on market conditions, fixed-price purchase options available in the leases could potentially provide benefits to us; however, these benefits are not expected to be significant.

We maintain and operate the assets based on contractual obligations within the lease arrangements, which set specific guidelines consistent within the railroad industry. As such, we have no control over activities that could materially impact the fair value of the leased assets. We do not hold the power to direct the activities of the VIEs and, therefore, do not control the ongoing activities that have a significant impact on the economic performance of the VIEs. Additionally, we do not have the obligation to absorb losses of the VIEs or the right to receive benefits of the VIEs that could potentially be significant to the VIEs.

We are not considered to be the primary beneficiary and do not consolidate these VIEs because our actions and decisions do not have the most significant effect on the VIE's performance and our fixed-price purchase options are not considered to be potentially significant to the VIEs. The future minimum lease payments associated with the VIE leases totaled \$2.3 billion as of September 30, 2016.

16. Commitments and Contingencies

Asserted and Unasserted Claims – Various claims and lawsuits are pending against us and certain of our subsidiaries. We cannot fully determine the effect of all asserted and unasserted claims on our consolidated results of operations, financial condition, or liquidity. To the extent possible, we have recorded a liability where asserted and unasserted claims are considered probable and where such claims can be reasonably estimated. We do not expect that any known lawsuits, claims, environmental costs, commitments, contingent liabilities, or guarantees will have a material adverse effect on our consolidated results of operations, financial condition, or liquidity after taking into account liabilities and insurance recoveries previously recorded for these matters.

Table of Contents

Personal Injury – The cost of personal injuries to employees and others related to our activities is charged to expense based on estimates of the ultimate cost and number of incidents each year. We use an actuarial analysis to measure the expense and liability, including unasserted claims. The Federal Employers’ Liability Act (FELA) governs compensation for work-related accidents. Under FELA, damages are assessed based on a finding of fault through litigation or out-of-court settlements. We offer a comprehensive variety of services and rehabilitation programs for employees who are injured at work.

Our personal injury liability is not discounted to present value due to the uncertainty surrounding the timing of future payments. Approximately 94% of the recorded liability is related to asserted claims and approximately 6% is related to unasserted claims at September 30, 2016. Because of the uncertainty surrounding the ultimate outcome of personal injury claims, it is reasonably possible that future costs to settle these claims may range from approximately \$288 million to \$315 million. We record an accrual at the low end of the range as no amount of loss within the range is more probable than any other. Estimates can vary over time due to evolving trends in litigation.

Our personal injury liability activity was as follows:

Millions, for the Nine Months Ended September 30,	2016	2015
Beginning balance	\$ 318	\$ 335
Current year accruals	54	65
Changes in estimates for prior years	(30)	(3)
Payments	(54)	(80)
Ending balance at September 30	\$ 288	\$ 317
Current portion, ending balance at September 30	\$ 62	\$ 63

We have insurance coverage for a portion of the costs incurred to resolve personal injury-related claims, and we have recognized an asset for estimated insurance recoveries at September 30, 2016, and December 31, 2015. Any changes to recorded insurance recoveries are included in the above table in the Changes in estimates for prior years category.

Asbestos – We are a defendant in a number of lawsuits in which current and former employees and other parties allege exposure to asbestos. We assess our potential liability using a statistical analysis of resolution costs for asbestos-related claims. This liability is updated annually and excludes future defense and processing costs. The liability for resolving both asserted and unasserted claims was based on the following assumptions:

- The ratio of future claims by alleged disease would be consistent with historical averages adjusted for inflation.
- The number of claims filed against us will decline each year.
- The average settlement values for asserted and unasserted claims will be equivalent to historical averages.
- The percentage of claims dismissed in the future will be equivalent to historical averages.

Our liability for asbestos-related claims is not discounted to present value due to the uncertainty surrounding the timing of future payments. Approximately 23% of the recorded liability related to asserted claims and approximately 77% related to unasserted claims at September 30, 2016.

Table of Contents

Our asbestos-related liability activity was as follows:

Millions, for the Nine Months Ended September 30,	2016	2015
Beginning balance	\$ 120	\$ 126
Accruals	-	-
Payments	(18)	(4)
Ending balance at September 30	\$ 102	\$ 122
Current portion, ending balance at September 30	\$ 7	\$ 7

We have insurance coverage for a portion of the costs incurred to resolve asbestos-related claims, and we have recognized an asset for estimated insurance recoveries at September 30, 2016, and December 31, 2015.

We believe that our estimates of liability for asbestos-related claims and insurance recoveries are reasonable and probable. The amounts recorded for asbestos-related liabilities and related insurance recoveries were based on currently known facts. However, future events, such as the number of new claims filed each year, average settlement costs, and insurance coverage issues, could cause the actual costs and insurance recoveries to be higher or lower than the projected amounts. Estimates also may vary in the future if strategies, activities, and outcomes of asbestos litigation materially change; federal and state laws governing asbestos litigation increase or decrease the probability or amount of compensation of claimants; and there are material changes with respect to payments made to claimants by other defendants.

Environmental Costs – We are subject to federal, state, and local environmental laws and regulations. We have identified 305 sites at which we are or may be liable for remediation costs associated with alleged contamination or for violations of environmental requirements. This includes 33 sites that are the subject of actions taken by the U.S. government, 21 of which are currently on the Superfund National Priorities List. Certain federal legislation imposes joint and several liability for the remediation of identified sites; consequently, our ultimate environmental liability may include costs relating to activities of other parties, in addition to costs relating to our own activities at each site.

When we identify an environmental issue with respect to property owned, leased, or otherwise used in our business, we perform, with assistance of our consultants, environmental assessments on the property. We expense the cost of the assessments as incurred. We accrue the cost of remediation where our obligation is probable and such costs can be reasonably estimated. Our environmental liability is not discounted to present value due to the uncertainty surrounding the timing of future payments.

Our environmental liability activity was as follows:

Millions, for the Nine Months Ended September 30,	2016	2015
Beginning balance	\$ 190	\$ 182
Accruals	66	51
Payments	(48)	(32)
Ending balance at September 30	\$ 208	\$ 201
Current portion, ending balance at September 30	\$ 54	\$ 60

The environmental liability includes future costs for remediation and restoration of sites, as well as ongoing monitoring costs, but excludes any anticipated recoveries from third parties. Cost estimates are based on information available for each site, financial viability of other potentially responsible parties, and existing technology, laws, and regulations. The ultimate liability for remediation is difficult to determine because of the number of potentially responsible parties, site-specific cost sharing arrangements with other potentially responsible parties, the degree of contamination by various wastes, the scarcity and quality of volumetric data related to many of the sites, and the speculative nature of remediation costs. Estimates of liability may vary over time due to changes in federal, state, and local laws governing

Table of Contents

environmental remediation. Current obligations are not expected to have a material adverse effect on our consolidated results of operations, financial condition, or liquidity.

Insurance – The Company has a consolidated, wholly-owned captive insurance subsidiary (the captive), that provides insurance coverage for certain risks including FELA claims and property coverage which are subject to reinsurance. The captive entered into annual reinsurance treaty agreements that insure workers compensation, general liability, auto liability and FELA risk. The captive cedes a portion of its FELA exposure through the treaty and assumes a proportionate share of the entire risk. The captive receives direct premiums, which are netted against the Company's premium costs in other expenses in the Condensed Consolidated Statements of Income. The treaty agreements provide for certain protections against the risk of treaty participants' non-performance, and we do not believe our exposure to treaty participants' non-performance is material at this time. In the event the Company leaves the reinsurance program, the Company is not relieved of its primary obligation to the policyholders for activity prior to the termination of the treaty agreements. We record both liabilities and reinsurance receivables using an actuarial analysis based on historical experience in our Condensed Consolidated Statements of Financial Position.

Guarantees – At both September 30, 2016, and December 31, 2015, we were contingently liable for \$47 million and \$53 million in guarantees, respectively. The fair value of these obligations as of both September 30, 2016, and December 31, 2015 was \$0. We entered into these contingent guarantees in the normal course of business, and they include guaranteed obligations related to our affiliated operations. The final guarantee expires in 2022. We are not aware of any existing event of default that would require us to satisfy these guarantees. We do not expect that these guarantees will have a material adverse effect on our consolidated financial condition, results of operations, or liquidity.

Indemnities – We are contingently obligated under a variety of indemnification arrangements, although in some cases the extent of our potential liability is limited, depending on the nature of the transactions and the agreements. Due to uncertainty as to whether claims will be made or how they will be resolved, we cannot reasonably determine the probability of an adverse claim or reasonably estimate any adverse liability or the total maximum exposure under these indemnification arrangements. We do not have any reason to believe that we will be required to make any material payments under these indemnity provisions.

Operating Leases – At September 30, 2016, we had commitments for future minimum lease payments under operating leases with initial or remaining non-cancelable lease terms in excess of one year of approximately \$3.1 billion.

Gain Contingency – UPRR and Santa Fe Pacific Pipelines (SFPP, a subsidiary of Kinder Morgan Energy Partners, L.P.) currently are engaged in a proceeding to resolve the fair market rent payable to UPRR commencing on January 1, 2004, for pipeline easements on UPRR rights-of-way (Union Pacific Railroad Company vs. Santa Fe Pacific Pipelines, Inc., SFPP, L.P., Kinder Morgan Operating L.P. "D" Kinder Morgan G.P., Inc., et al., Superior Court of the

State of California for the County of Los Angeles, filed July 28, 2004). In February 2007, a trial began to resolve this issue, and in May 2012, the trial judge rendered an opinion establishing the fair market rent and entering judgment for back rent, including prejudgment interest. SFPP appealed the judgment. On November 5, 2014, the Second District Circuit Court of Appeal in California issued an opinion holding that UPRR was not entitled to collect rent from SFPP for easements on the portions of the property acquired solely through federal government land grants issued during the 1800s. The Appellate Court also reversed the award of prejudgment interest and remanded the case to the trial court. A favorable final judgment may materially affect UPRR's results of operations in the period of any monetary recoveries. Due to the uncertainty regarding the amount and timing of any recovery or any subsequent proceedings, we consider this a gain contingency and have not recognized any amounts in the Condensed Consolidated Financial Statements as of September 30, 2016.

17. Share Repurchase Program

Effective January 1, 2014, our Board of Directors authorized the repurchase of up to 120 million shares of our common stock by December 31, 2017, replacing our previous repurchase program. As of September 30, 2016, we repurchased a total of \$18.2 billion of our common stock since the commencement of our

Table of Contents

repurchase programs in 2007. The table below represents shares repurchased under this repurchase program during this reporting period.

	Number of Shares		Average Price	
	Purchased		Paid	
	2016	2015	2016	2015
First quarter	9,315,807	6,881,455	\$ 76.49	\$ 117.28
Second quarter	7,026,100	7,975,100	85.66	104.62
Third quarter	9,088,613	13,800,700	93.63	89.65
Total	25,430,520	28,657,255	\$ 85.15	\$ 100.45
Remaining number of shares that may be repurchased under current authority			27,221,926	

Management's assessments of market conditions and other pertinent factors guide the timing and volume of all repurchases. We expect to fund any share repurchases under this program through cash generated from operations, the sale or lease of various operating and non-operating properties, debt issuances, and cash on hand. Repurchased shares are recorded in treasury stock at cost, which includes any applicable commissions and fees.

18. Related Parties

UPRR and other North American railroad companies jointly own TTX Company (TTX). UPRR has a 36.79% economic and voting interest in TTX while the other North American railroads own the remaining interest. In accordance with ASC 323 Investments - Equity Method and Joint Venture, UPRR applies the equity method of accounting to our investment in TTX.

TTX is a railcar pooling company that owns railcars and intermodal wells to serve North America's railroads. TTX assists railroads in meeting the needs of their customers by providing railcars in an efficient, pooled environment. All railroads have the ability to utilize TTX railcars through car hire by renting railcars at stated rates.

UPRR had \$861 million and \$830 million recognized as investments related to TTX in our Condensed Consolidated Statements of Financial Position as of September 30, 2016, and December 31, 2015, respectively. TTX car hire expenses of \$93 million and \$96 million for the three months ended September 30, 2016, and 2015, respectively, and \$275 million and \$282 million for the nine months ended September 30, 2016, and 2015, respectively, are included in equipment and other rents in our Condensed Consolidated Statements of Income. In addition, UPRR had accounts

payable to TTX of \$63 million and \$61 million as of September 30, 2016, and December 31, 2015, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

UNION PACIFIC CORPORATION AND SUBSIDIARY COMPANIES

RESULTS OF OPERATIONS

Three and Nine Months Ended September 30, 2016, Compared to

Three and Nine Months Ended September 30, 2015

For purposes of this report, unless the context otherwise requires, all references herein to "UPC", "Corporation", "Company", "we", "us", and "our" shall mean Union Pacific Corporation and its subsidiaries, including Union Pacific Railroad Company, which we separately refer to as "UPRR" or the "Railroad".

The following discussion should be read in conjunction with the Condensed Consolidated Financial Statements and applicable notes to the Condensed Consolidated Financial Statements, Item 1, and other information included in this report. Our Condensed Consolidated Financial Statements are unaudited and reflect all adjustments (consisting only of normal and recurring adjustments) that are, in the opinion of management, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America (GAAP).

The Railroad, along with its subsidiaries and rail affiliates, is our one reportable business segment. Although we provide and analyze revenue by commodity group, we treat the financial results of the Railroad as one segment due to the integrated nature of our rail network.

Available Information

Our Internet website is www.up.com. We make available free of charge on our website (under the "Investors" caption link) our Annual Reports on Form 10-K; our Quarterly Reports on Form 10-Q; eXtensible Business Reporting Language (XBRL) documents; our current reports on Form 8-K; our proxy statements; Forms 3, 4, and 5, filed on behalf of directors and executive officers; and amendments to any such reports filed or furnished pursuant to the Securities Exchange Act of 1934, as amended (the Exchange Act), as soon as reasonably practicable after such

material is electronically filed with, or furnished to, the Securities and Exchange Commission (SEC). We also make available on our website previously filed SEC reports and exhibits via a link to EDGAR on the SEC's Internet site at www.sec.gov. We provide these previously filed reports as a convenience and their contents reflect only information that was true and correct as of the date of the report. We assume no obligation to update this historical information. Additionally, our corporate governance materials, including By-Laws, Board Committee charters, governance guidelines and policies, and codes of conduct and ethics for directors, officers, and employees are available on our website. From time to time, the corporate governance materials on our website may be updated as necessary to comply with rules issued by the SEC and the New York Stock Exchange or as desirable to promote the effective and efficient governance of our company. Any security holder wishing to receive, without charge, a copy of any of our SEC filings or corporate governance materials should send a written request to: Secretary, Union Pacific Corporation, 1400 Douglas Street, Omaha, NE 68179.

References to our website address in this report, including references in Management's Discussion and Analysis of Financial Condition and Results of Operations, Item 2, are provided as a convenience and do not constitute, and should not be deemed, an incorporation by reference of the information contained on, or available through, the website. Therefore, such information should not be considered part of this report.

Critical Accounting Policies and Estimates

We base our discussion and analysis of our financial condition and results of operations upon our Condensed Consolidated Financial Statements. The preparation of these financial statements requires estimation and judgment that affect the reported amounts of revenues, expenses, assets, and liabilities. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. If these estimates differ materially from actual results, the impact on the Condensed Consolidated Financial Statements may be material. Our critical accounting policies are available in Item 7 of our 2015 Annual

Table of Contents

Report on Form 10-K. There have not been any significant changes with respect to these policies during the first nine months of 2016.

RESULTS OF OPERATIONS

Quarterly Summary

We reported earnings of \$1.36 per diluted share on net income of \$1.1 billion in the third quarter of 2016 compared to earnings of \$1.50 per diluted share on net income of \$1.3 billion for the third quarter of 2015. Freight revenues decreased 7%, or \$378 million, in the third quarter compared to the same period in 2015. The decrease was due to a 6% decline in volume and a 2% decline in average revenue per car (ARC) resulting from lower fuel surcharge revenue, partially offset by core pricing gains. Lower energy prices continue to negatively impact the demand for coal and shale related products such as frac sand, crude oil, and pipe shipments. In addition, intermodal, finished vehicles, and rock shipments decreased compared to 2015. Conversely, shipments of automotive parts, grain, and industrial chemicals increased in the third quarter compared to the same period last year.

While our carload volume sequentially increased from the second quarter, we continue to align our critical resources with current market demands. At the end of the third quarter, approximately 3,200 employees were either furloughed or in alternate work status, and approximately 1,500 locomotives were in storage. Our operating expenses decreased 4% in the third quarter of 2016 compared to 2015 as a result of lower fuel prices, volume-related costs, and productivity gains, which more than offset inflation, higher depreciation, and other expenses.

Overall, we continued to make improvements in many of our operating and service metrics during the quarter, despite the disruptions caused by severe weather in the Southern Region. As reported to the Association of American Railroads (AAR), both average train speed and average terminal dwell time improved 2% in the third quarter compared to the same period in 2015 driven by lower volumes and improved network operations.

Operating Revenues

Three Months
Ended

Nine Months
Ended

Millions	September 30,			September 30,		
	2016	2015	% Change	2016	2015	% Change
Freight revenues	\$ 4,837	\$ 5,215	(7) %	\$ 13,769	\$ 15,534	(11) %
Other revenues	337	347	(3)	1,004	1,071	(6)
Total	\$ 5,174	\$ 5,562	(7) %	\$ 14,773	\$ 16,605	(11) %

We generate freight revenues by transporting freight or other materials from our six commodity groups. Freight revenues vary with volume (carloads) and ARC. Changes in price, traffic mix and fuel surcharges drive ARC. We provide some of our customers with contractual incentives for meeting or exceeding specified cumulative volumes or shipping to and from specific locations, which we record as reductions to freight revenues based on the actual or projected future shipments. We recognize freight revenues as shipments move from origin to destination. We allocate freight revenues between reporting periods based on the relative transit time in each reporting period and recognize expenses as we incur them.

Other revenues include revenues earned by our subsidiaries, revenues from commuter rail operations that we manage, accessorial revenues, which we earn when customers retain equipment owned or controlled by us or when we perform additional services such as switching or storage, and miscellaneous contract revenue. We recognize other revenues as we perform services or meet contractual obligations.

Freight revenues decreased during the third quarter and year-to-date periods of 2016 compared to 2015 as a result of volume declines in most of our six commodity groups and lower fuel surcharge revenue. Mix of traffic also decreased revenue and average revenue per car in the year-to-date period. These declines were partially offset by core pricing gains in the third quarter and year-to-date periods.

Each of our commodity groups includes revenue from fuel surcharges. Freight revenues from fuel surcharge programs were \$173 million and \$373 million in the third quarter and year-to-date periods of 2016 compared to \$314 million and \$1.1 billion in the same periods of 2015. Lower fuel surcharge

Table of Contents

revenue resulted from lower fuel prices and lower volumes. In addition, year-to-date fuel surcharge recovery was lower as a number of our fuel recovery programs were below the minimum surcharge entry point in the second quarter due to declining fuel prices in the first quarter (it can generally take up to two months for changing fuel prices to affect fuel surcharge recoveries).

Other revenues decreased in the third quarter and year-to-date periods of 2016 compared to 2015 due to lower subsidiary revenues, primarily those that broker intermodal and automotive services. Year-to-date, volume-related reductions in accessorial revenues also drove the decrease.

The following tables summarize the year-over-year changes in freight revenues, revenue carloads, and ARC by commodity type:

Freight Revenues Millions	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Agricultural Products	\$ 937	\$ 880	6 %	\$ 2,664	\$ 2,686	(1) %

Average	\$ 2,195	\$ 2,229	(2) %	\$ 2,187	\$ 2,265	(3) %

[a]Each intermodal container or trailer equals one carload.

Agricultural Products – Freight revenue from agricultural products shipments increased in the third quarter of 2016 compared to 2015 due to volume growth and core pricing gains, partially offset by lower fuel surcharge revenue and mix of traffic, including length of haul. Volumes increased 11% in the third quarter compared to 2015 driven by a 22% increase in grain shipments from strong export demand. Market conditions in South America and ample supply of U.S. grains led to competitive U.S. pricing relative to the global market. Year-to-date, freight revenue was down 1% compared to 2015 due to lower fuel surcharge revenue, partially offset by a 3% volume increase and core pricing gains.

Table of Contents

Automotive – Freight revenue from automotive shipments decreased in the third quarter compared to 2015 due to lower fuel surcharge revenue, mix of traffic, and volume declines, which more than offset core pricing gains. Volumes declined in the third quarter compared to 2015 as finished vehicle shipments decreased 7% resulting from a partial contract loss as well as reduced production of passenger vehicles, impacting key UPRR-served plants. Year-to-date, automotive freight revenue decreased compared to 2015 as a result of lower fuel surcharge revenue and mix of traffic, more than offsetting volume growth of 1% and core pricing gains. Automotive parts shipments grew 5% and 8% in the third quarter and year-to-date periods, respectively, driven by growth in truck-to-rail conversions.

Chemicals – Freight revenue from chemical shipments decreased in the third quarter and year-to-date periods of 2016 compared to 2015 primarily due to lower fuel surcharge revenue and volume declines, which were partially offset by core price improvements. Crude oil shipments declined resulting from continued low crude oil prices, regional pricing differences for certain types of crude oil, and available pipeline capacity. Fertilizer shipments also declined in the year-to-date period of 2016 compared to 2015 due to weak world-wide demand for potash in the first half of the year and the strong U.S. dollar. These decreases were partially offset by growth in industrial chemical and liquid petroleum gas shipments in both periods compared to 2015.

Coal – Lower volume, lower fuel surcharge revenue, and mix of traffic resulted in a decline in freight revenue from coal shipments in the third quarter and year-to-date periods of 2016 compared to 2015. Shipments out of the Powder River Basin (PRB) declined 17% in the third quarter of 2016 due to high inventory levels at utilities and competitive natural gas prices. Shipments out of Colorado and Utah declined 16% compared to the third quarter of 2015 due to the same drivers, combined with lower international demand. Year-to-date, coal shipments out of the PRB and Colorado/Utah region declined 27% and 24%, respectively, compared to 2015.

Industrial Products – Freight revenue from industrial products shipments decreased compared to the third quarter and year-to-date periods of 2015 as a result of lower volume and lower fuel surcharge revenue, partially offset by core price improvements. Declines in shale drilling activity, due to lower crude oil prices, negatively impacted non-metallic mineral (frac sand) shipments compared to 2015. Rock shipments also decreased in both periods versus 2015 as severe weather and flooding in the Southern Region during the second quarter limited construction activity and demand for shipment of materials, which created high inventory carryover into the third quarter. Steel shipments also declined as a result of reductions in shale drilling activity and strong import levels associated with the strength of the U.S. dollar.

Intermodal – Lower volume and lower fuel surcharge revenue, partially offset by core pricing gains, resulted in a decline in freight revenue from intermodal shipments in the third quarter and year-to-date periods of 2016 compared to the same periods in 2015. Volume levels from international and domestic traffic decreased 11% and 2%, respectively, in the third quarter versus 2015 due to weaker global trade activity, softer domestic sales, high retail inventories, and a customer bankruptcy. Year-to-date, volume levels from international and domestic traffic decreased 13% and 4%, respectively, compared to last year.

Mexico Business – Each of our commodity groups includes revenue from shipments to and from Mexico. Revenue from Mexico business increased 2% to \$564 million in the third quarter compared to the same period in 2015 primarily due to a 4% increase in volume levels. Year-to-date, revenue of \$1,649 million was flat compared to last year. Lower fuel surcharge revenue offset the 5% increase in volume, which was driven by growth in Agricultural Products, Coal, Intermodal and automotive parts shipments.

Table of Contents

Operating Expenses

Millions	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Compensation and benefits	\$ 1,191	\$ 1,267	(6) %	\$ 3,564	\$ 3,941	(10) %
Purchased services and materials	566	589	(4)	1,705	1,832	(7)
Depreciation	512	507	1	1,518	1,495	2
Fuel	392	484	(19)	1,058	1,589	(33)
Equipment and other rents	282	302	(7)	857	925	(7)
Other	271	205	32	764	689	11
Total	\$ 3,214	\$ 3,354	(4) %	\$ 9,466	\$ 10,471	(10) %

Operating expenses decreased \$140 million and \$1,005 million in the third quarter and year-to-date periods, respectively, compared to 2015. Lower fuel prices, volume-related savings, productivity gains, and lower equipment maintenance expense drove the decreases. These cost reductions were partially offset by inflation, other costs and depreciation expense.

Compensation and Benefits – Compensation and benefits include wages, payroll taxes, health and welfare costs, pension costs, other postretirement benefits, and incentive costs. For the third quarter and year-to-date periods of 2016, expenses decreased 6% and 10%, respectively compared to 2015, driven by lower volume-related costs, productivity gains, and lower training expense. General wage and benefit inflation partially offset these decreases.

Purchased Services and Materials – Expense for purchased services and materials includes the costs of services purchased from outside contractors and other service providers (including equipment maintenance and contract expenses incurred by our subsidiaries for external transportation services); materials used to maintain the Railroad's lines, structures, and equipment; costs of operating facilities jointly used by UPRR and other railroads; transportation and lodging for train crew employees; trucking and contracting costs for intermodal containers; leased automobile maintenance expenses; and tools and supplies. Purchased services and materials decreased 4% and 7% in the third quarter and year-to-date periods of 2016, respectively, when compared to the same periods of 2015. Primary drivers included lower volume-related costs and lower locomotive and freight car repair and maintenance expenses.

Fuel – Fuel includes locomotive fuel and fuel for highway and non-highway vehicles and heavy equipment. Locomotive diesel fuel prices, which averaged \$1.57 per gallon (including taxes and transportation costs) in the third quarter of 2016, compared to \$1.81 per gallon in the same period in 2015, decreased expenses by \$59 million. In

addition, fuel costs were lower as gross ton-miles decreased 6% compared to the same period in 2015. The fuel consumption rate (c-rate), computed as gallons of fuel consumed divided by gross ton-miles in thousands, improved 2% compared to the third quarter of 2015. For the nine month period, locomotive diesel fuel prices averaged \$1.42 per gallon in 2016 compared to \$1.92 in 2015, reducing expenses by \$358 million.

Depreciation – The majority of depreciation relates to road property, including rail, ties, ballast, and other track material. A higher depreciable asset base, reflecting recent years' higher capital spending, increased depreciation expense in the third quarter and year-to-date periods of 2016 compared to 2015. These increases were partially offset by our recent depreciation studies that resulted in lower depreciation rates for some asset classes.

Equipment and Other Rents – Equipment and other rents expense primarily includes rental expense that the Railroad pays for freight cars owned by other railroads or private companies; freight car, intermodal, and locomotive leases; and office and other rentals. Equipment and other rents expense in the third quarter and year-to-date periods of 2016 decreased 7% compared to the same periods in 2015, mainly driven by the decline in volume levels which reduced car hire expense, and lower locomotive lease expense.

Other – Other expenses include state and local taxes; freight, equipment and property damage; utilities, insurance, personal injury, environmental, employee travel, telephone and cellular, computer software, bad debt and other general expenses. Other costs in the third quarter and year-to-date periods increased

Table of Contents

32% and 11%, respectively, compared to 2015, as a result of higher state and local taxes, bad debt expense (customer bankruptcy), the write-off of certain in-progress capital projects that were cancelled, and environmental costs. These increases were partially offset by lower personal injury expense. Year-to-date, the increase in other expenses was also partially offset by lower property and equipment damage expense.

Non-Operating Items

	Three Months			Nine Months		
	Ended			Ended		
Millions	September 30, 2016	September 30, 2015	Change %	September 30, 2016	September 30, 2015	Change %
Other income	\$ 29	\$ 30	(3) %	\$ 152	\$ 198	(23) %
Interest expense	(184)	(157)	17	(524)	(458)	14
Income taxes	(674)	(781)	(14)	(1,846)	(2,219)	(17)

Other Income – Other income decreased slightly in the third quarter 2016 compared to 2015 due to lower real estate gains. Year-to-date, other income decreased primarily as a result of a \$113 million real estate sale gain in 2015 and higher environmental costs on non-operating property in 2016. The decreases were partially offset by \$67 million of real estate sale gains in the first half of 2016.

Interest Expense – Interest expense increased in the third quarter of 2016 compared to 2015 due to an increased weighted-average debt level of \$15.4 billion in 2016 compared to \$13.2 billion in 2015, and costs of approximately \$8 million related to the debt exchange. These increases were partially offset by a lower effective interest rate of 4.7% compared to 4.8%. Year-to-date, interest expense increased due to an increased weighted-average debt level of \$15.0 billion in 2016 from \$12.6 billion in 2015, partially offset by a lower effective interest rate of 4.7% compared to 4.9%.

Income Taxes – Income taxes were lower in the third quarter and year-to-date periods of 2016 compared to 2015, driven by lower pre-tax income. Our effective tax rates for third quarter 2016 and 2015 were 37.3% and 37.5%, respectively. Our 2016 year-to-date effective tax rate was 37.4% compared to 37.8% in 2015.

OTHER OPERATING/PERFORMANCE AND FINANCIAL STATISTICS

We report a number of key performance measures weekly to the AAR. We provide this data on our website at www.up.com/investor/aar-stb_reports/index.htm.

Operating/Performance Statistics

Railroad performance measures are included in the table below:

	Three Months			Nine Months		
	Ended			Ended		
	September 30, %			September 30, %		
	2016	2015	Change	2016	2015	Change
Average train speed (miles per hour)	26.0	25.6	2 %	26.6	24.9	7 %
Average terminal dwell time (hours)	28.0	28.7	(2) %	27.9	29.2	(4) %
Gross ton-miles (billions)	224.6	238.0	(6) %	633.1	702.8	(10) %
Revenue ton-miles (billions)	117.5	125.6	(6) %	325.0	368.3	(12) %
Operating ratio	62.1	60.3	1.8 pts	64.1	63.1	1.0 pts
Employees (average)	42,756	47,515	(10) %	43,154	48,446	(11) %

Average Train Speed – Average train speed is calculated by dividing train miles by hours operated on our main lines between terminals. Average train speed for the third quarter and year-to-date periods of 2016, as reported to the AAR, improved 2% and 7%, respectively, compared to the same periods in 2015. Velocity gains resulted from lower volumes, improved network fluidity and a strong resource position.

Average Terminal Dwell Time – Average terminal dwell time is the average time that a rail car spends at our terminals. Lower average terminal dwell time improves asset utilization and service. Average terminal dwell time in the third quarter and year-to-date periods of 2016 improved 2% and 4%, respectively,

Table of Contents

compared to the same periods of 2015, reflecting the impact of lower volumes and improved network operations.

Gross and Revenue Ton-Miles – Gross ton-miles are calculated by multiplying the weight of loaded and empty freight cars by the number of miles hauled. Revenue ton-miles are calculated by multiplying the weight of freight by the number of tariff miles. Both gross ton-miles and revenue ton-miles decreased 6% during the third quarter of 2016 compared to 2015, resulting from a 6% decline in carloadings. Year-to-date, gross ton-miles and revenue ton-miles decreased 10% and 12% respectively, compared to the same period of 2015, resulting from an 8% decrease in carloadings. Changes in commodity mix drove the variances in year-over-year declines between gross ton-miles, revenue ton-miles and carloads.

Operating Ratio – Operating ratio is our operating expenses reflected as a percentage of operating revenue. Our third quarter operating ratio increased 1.8 points to 62.1% in 2016 versus 2015 as core pricing gains, resource realignments, and productivity gains were more than offset by the impact of lower volume, inflation, and other costs. Year-to-date, our operating ratio of 64.1% increased 1 point compared to 2015 as a result of the same factors affecting the third quarter.

Employees – Employee levels in the third quarter and year-to-date periods decreased 10% and 11% respectively, compared to the same periods in 2015. The decreases were driven by lower volume levels, productivity gains, a smaller capital workforce, and fewer transportation employees in training.

Debt to Capital / Adjusted Debt to Capital

	Sep. 30,	Dec. 31,
Millions, Except Percentages	2016	2015
Debt (a)	\$ 15,612	\$ 14,201
Equity	20,284	20,702
Capital (b)	\$ 35,896	\$ 34,903
Debt to capital (a/b)	43.5%	40.7%

Sep. 30, Dec. 31,

Millions, Except Percentages	2016	2015
Debt	\$ 15,612	\$ 14,201
Net present value of operating leases	2,517	2,726
Unfunded pension and OPEB	367	463
Adjusted debt (a)	18,496	17,390
Equity	20,284	20,702
Adjusted capital (b)	\$ 38,780	\$ 38,092
Adjusted debt to capital (a/b)	47.7%	45.7%

Adjusted debt to capital is a non-GAAP financial measure under SEC Regulation G and Item 10 of SEC Regulation S-K, and may not be defined and calculated by other companies in the same manner. We believe this measure is important to management and investors in evaluating the total amount of leverage in our capital structure, including off-balance sheet lease obligations, which we generally incur in connection with financing the acquisition of locomotives and freight cars and certain facilities. Operating leases were discounted using 4.7% at September 30, 2016, and 4.8% at December 31, 2015. The discount rate reflects our effective interest rate. We monitor the ratio of adjusted debt to capital as we manage our capital structure to balance cost-effective and efficient access to the capital markets with the Corporation's overall cost of capital. Adjusted debt to capital should be considered in addition to, rather than as a substitute for, debt to capital. The tables above provide reconciliations from debt to capital to adjusted debt to capital.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Financial Condition

Cash Flows

Millions, for the Nine Months Ended September 30,	2016	2015
Cash provided by operating activities	\$ 5,467	\$ 5,625
Cash used in investing activities	(2,819)	(3,250)
Cash used in financing activities	(2,130)	(2,883)
Net change in cash and cash equivalents	\$ 518	\$ (508)

Operating Activities

In the first nine months of 2016, lower income decreased cash provided by operating activities compared to the same period of 2015. The timing of tax payments, primarily related to bonus depreciation on capital spending partially offset this decrease.

Investing Activities

Lower capital investments, partially offset by short-term investment purchases, decreased cash used in investing activities in the first nine months of 2016 compared to the same period in 2015.

The table below details cash capital investments:

Millions, for the Nine Months Ended September 30,	2016	2015
Rail and other track material	\$ 486	\$ 597

Ties	397	359
Ballast	184	185
Other [a]	345	291
Total road infrastructure replacements	1,412	1,432
Line expansion and other capacity projects	104	384
Commercial facilities	111	167
Total capacity and commercial facilities	215	551
Locomotives and freight cars [b]	638	869
Positive train control	263	300
Technology and other	76	171
Total cash capital investments	\$ 2,604	\$ 3,323

[a]Other includes bridges and tunnels, signals, other road assets, and road work equipment.

[b]Locomotives and freight cars include lease buyouts of \$70 million in 2016 and \$166 million in 2015.

Capital Plan

Due to anticipated delays in locomotive deliveries in the fourth quarter of 2016, we are reducing our capital plan by approximately \$100 million to slightly below \$3.6 billion, which includes Positive Train Control (PTC), but excludes lease buyouts. We will continue to evaluate and revise our capital plan if business conditions warrant or if new laws or regulations affect our ability to generate sufficient returns on these investments.

Financing Activities

Cash used in financing activities decreased in the first nine months of 2016 compared to the same period of 2015 by \$753 million. Reductions in common stock repurchases and dividends paid of \$695 million and \$495 million, respectively, more than offset a decrease of \$360 million in debt issued. The decrease in dividends paid was a result of adjusting the dividend payable dates in 2015 to align with the timing of the quarterly dividend declaration and payment dates within the same quarter. Aligning the quarterly dividend

Table of Contents

declaration and payment resulted in two payments in the first quarter of 2015: the fourth quarter 2014 dividend of \$438 million, which was paid on January 2, 2015, as well as the first quarter 2015 dividend of \$484 million, which was paid on March 30, 2015. The second quarter 2015 dividend of \$479 million was paid on June 30, 2015, and the third quarter 2015 dividend of \$476 million, which was paid on September 30, 2015.

Free Cash Flow – Free cash flow is defined as cash provided by operating activities less cash used in investing activities and dividends paid.

Free cash flow is not considered a financial measure under GAAP by SEC Regulation G and Item 10 of SEC Regulation S-K and may not be defined and calculated by other companies in the same manner. We believe free cash flow is important to management and investors in evaluating our financial performance and measures our ability to generate cash without additional external financings. Free cash flow should be considered in addition to, rather than as a substitute for, cash provided by operating activities. The following table reconciles cash provided by operating activities (GAAP measure) to free cash flow (non-GAAP measure):

Millions,		
for the Nine Months Ended September 30,	2016	2015
Cash provided by operating activities	\$ 5,467	\$ 5,625
Cash used in investing activities	(2,819)	(3,250)
Dividends paid	(1,382)	(1,877)
Free cash flow	\$ 1,266	\$ 498

Credit Facilities – At September 30, 2016, we had \$1.7 billion of credit available under our revolving credit facility, which is designated for general corporate purposes and supports the issuance of commercial paper. We did not draw on the facility during the nine months ended September 30, 2016. Commitment fees and interest rates payable under the facility are similar to fees and rates available to comparably rated, investment-grade borrowers. The facility allows for borrowings at floating rates based on London Interbank Offered Rates, plus a spread, depending upon credit ratings for our senior unsecured debt. The facility matures in May 2019 under a five-year term and requires UPC to maintain a debt-to-net-worth coverage ratio. At September 30, 2016, and December 31, 2015 (and at all times during the periods presented), we were in compliance with this covenant.

The definition of debt used for purposes of calculating the debt-to-net-worth coverage ratio includes, among other things, certain credit arrangements, capital leases, guarantees and unfunded and vested pension benefits under Title IV of ERISA. At September 30, 2016, the debt-to-net-worth coverage ratio allowed us to carry up to \$40.6 billion of debt (as defined in the facility), and we had \$15.7 billion of debt (as defined in the facility) outstanding at that date. Under our current capital plans, we expect to continue to satisfy the debt-to-net-worth coverage ratio; however, many factors

beyond our reasonable control could affect our ability to comply with this provision in the future. The facility does not include any other financial restrictions, credit rating triggers (other than rating-dependent pricing), or any other provision that could require us to post collateral. The facility also includes a \$125 million cross-default provision and a change-of-control provision.

During the three and nine months ended September 30, 2016, we did not issue or repay any commercial paper, and at September 30, 2016, we had no commercial paper outstanding. Our revolving credit facility supports our outstanding commercial paper balances, and, unless we change the terms of our commercial paper program, our aggregate issuance of commercial paper will not exceed the amount of borrowings available under the facility.

Shelf Registration Statement and Significant New Borrowings – On July 28, 2016, the Board of Directors renewed its authorization for the Company to issue up to \$4.0 billion of debt securities under the Company’s current three-year shelf registration filed in February 2015. This authorization replaces the original Board authorization in February 2015, which had \$0.9 billion of authority remaining. Under our shelf registration, we may issue, from time to time, any combination of debt securities, preferred stock, common stock, or warrants for debt securities or preferred stock in one or more offerings. We have no immediate plans to issue equity securities; however, we will continue to explore opportunities to replace existing debt or access capital through issuances of debt securities under our shelf registration, and,

Table of Contents

therefore, we may issue additional debt securities at any time. At September 30, 2016, we had remaining authority to issue up to \$3.55 billion of debt securities under our shelf registration.

During the nine months ended September 30, 2016, we issued the following unsecured, fixed-rate debt securities under our current shelf registration:

Date	Description of Securities
March 1, 2016	\$500 million of 2.750% Notes due March 1, 2026
	\$600 million of 4.050% Notes due March 1, 2046
	\$200 million of reopened 4.375% Notes due November 15, 2065
August 8, 2016	\$150 million of reopened 2.750% Notes due March 1, 2026
	\$300 million of 3.350% Notes due August 15, 2046

We used the net proceeds from the offerings for general corporate purposes, including the repurchase of common stock pursuant to our share repurchase program. These debt securities include change-of-control provisions.

As of September 30, 2016, we reclassified as long-term debt \$100 million of debt due within one year that we intend to refinance. This reclassification reflects our ability and intent to refinance any short-term borrowings and certain current maturities of long-term debt on a long-term basis.

Equipment Trust – On May 9, 2016, UPRR consummated a pass-through (P/T) financing, whereby a P/T trust was created, which issued \$151 million of P/T trust certificates with a stated interest rate of 2.495%. The P/T trust certificates will mature on November 9, 2029. The proceeds from the issuance of the P/T trust certificates were used to purchase equipment trust certificates to be issued by UPRR to finance the acquisition of 59 locomotives. The equipment trust certificates are secured by a lien on the locomotives. The \$151 million is classified as debt due after one year in our Condensed Consolidated Statements of Financial Position.

Subsequent Event – On October 4, 2016, we exchanged \$1,006 million of various outstanding notes and debentures due between 2028 and 2044 (the Existing Notes) for \$1,044 million of 3.799% notes (the New Notes) due October 1, 2051, plus cash consideration of approximately \$183 million in addition to \$11 million for accrued and unpaid interest on the Existing Notes. In accordance with ASC 470-50-40, Debt-Modifications and Extinguishments-Derecognition, this transaction was accounted for in October as a debt exchange, as the exchanged debt instruments are not considered to be substantially different. The cash consideration was recorded in October as an adjustment to the carrying value of debt, and the balance of the unamortized discount and issue costs from the Existing Notes will be

amortized as an adjustment of interest expense over the terms of the New Notes. No gain or loss was recognized as a result of the exchange. Costs related to the debt exchange that were payable to parties other than the debt holders totaled approximately \$8 million and were included in interest expense during the period ended September 30, 2016.

The following table lists the outstanding notes and debentures that were exchanged:

Millions	Principal amount exchanged
7.125% Debentures due 2028	\$ 2
6.625% Debentures due 2029	25
5.375% Debentures due 2033	15
6.250% Debentures due 2034	52
6.150% Debentures due 2037	2
5.780% Notes due 2040	4
4.750% Notes due 2041	175
4.750% Notes due 2043	204
4.821% Notes due 2044	373
4.850% Notes due 2044	154
Total	\$ 1,006

Table of Contents

Receivables Securitization Facility – The Railroad maintains a \$650 million, 3-year receivables securitization facility (the Receivables Facility), which now matures in July 2019, after we completed a renewal in August 2016 with comparable terms. Under the Receivables Facility, the Railroad sells most of its eligible third-party receivables to Union Pacific Receivables, Inc. (UPRI), a consolidated, wholly-owned, bankruptcy-remote subsidiary that may subsequently transfer, without recourse, an undivided interest in accounts receivable to investors. The investors have no recourse to the Railroad’s other assets except for customary warranty and indemnity claims. Creditors of the Railroad do not have recourse to the assets of UPRI.

The amount outstanding under the Receivables Facility was \$400 million at both September 30, 2016, and December 31, 2015. The Receivables Facility was supported by \$1.0 billion and \$0.9 billion of accounts receivable as collateral at September 30, 2016, and December 31, 2015, respectively, which, as a retained interest, is included in accounts receivable, net in our Condensed Consolidated Statements of Financial Position.

The outstanding amount the Railroad is allowed to maintain under the Receivables Facility, with a maximum of \$650 million, may fluctuate based on the availability of eligible receivables and is directly affected by business volumes and credit risks, including receivables payment quality measures such as default and dilution ratios. If default or dilution ratios increase one percent, the allowable outstanding amount under the Receivables Facility would not materially change.

The costs of the Receivables Facility include interest, which will vary based on prevailing benchmark and commercial paper rates, program fees paid to participating banks, commercial paper issuance costs, and fees of participating banks for unused commitment availability. The costs of the Receivables Facility are included in interest expense and were \$2 million and \$1 million for the three months ended September 30, 2016, and 2015, respectively, and \$5 million and \$4 million for the nine months ended September 30, 2016, and 2015, respectively.

Share Repurchase Program

Effective January 1, 2014, our Board of Directors authorized the repurchase of up to 120 million shares of our common stock by December 31, 2017, replacing our previous repurchase program. As of September 30, 2016, we repurchased a total of \$18.2 billion of our common stock since the commencement of our repurchase programs in 2007. The table below represents shares repurchased under this repurchase program during this reporting period.

	Number of Shares		Average Price	
	Purchased		Paid	
	2016	2015	2016	2015
First quarter	9,315,807	6,881,455	\$ 76.49	\$ 117.28
Second quarter	7,026,100	7,975,100	85.66	104.62
Third quarter	9,088,613	13,800,700	93.63	89.65
Total	25,430,520	28,657,255	\$ 85.15	\$ 100.45
Remaining number of shares that may be repurchased under current authority			27,221,926	

Management's assessments of market conditions and other pertinent factors guide the timing and volume of all repurchases. We expect to fund any share repurchases under this program through cash generated from operations, the sale or lease of various operating and non-operating properties, debt issuances, and cash on hand. Repurchased shares are recorded in treasury stock at cost, which includes any applicable commissions and fees.

Off-Balance Sheet Arrangements, Contractual Obligations, and Commercial Commitments

As described in the notes to the Condensed Consolidated Financial Statements and as referenced in the tables below, we have contractual obligations and commercial commitments that may affect our financial condition. However, based on our assessment of the underlying provisions and circumstances of our contractual obligations and commercial commitments, including material sources of off-balance sheet and structured finance arrangements, there is no known trend, demand, commitment, event, or uncertainty that is reasonably likely to occur that would have a material adverse effect on our consolidated results of operations, financial condition, or liquidity. In addition, our commercial obligations, financings, and

Table of Contents

commitments are customary transactions that are similar to those of other comparable corporations, particularly within the transportation industry.

The following tables identify material obligations and commitments as of September 30, 2016:

Contractual Obligations Millions	Total	Oct. 1 Payments Due by Dec. 31, through					After Dec. 31, 2020	Other
		2016	2017	2018	2019	2020		
Debt [a]	\$ 25,647	\$ 110	\$ 1,206	\$ 1,008	\$ 1,450	\$ 1,409	\$ 20,464	\$ -
Operating leases [b]	3,131	85	460	387	351	289	1,559	-
Capital lease obligations [c]	1,394	24	220	198	184	193	575	-
Purchase obligations [d]	3,216	735	1,251	532	259	205	202	32
Other postretirement benefits [e]	419	11	45	46	46	46	225	-
Income tax contingencies [f]	90	-	-	-	-	-	-	90
Total contractual obligations	\$ 33,897	\$ 965	\$ 3,182	\$ 2,171	\$ 2,290	\$ 2,142	\$ 23,025	\$ 122

[a]Excludes capital lease obligations of \$1,135 million, as well as unamortized discount and deferred issuance costs of (\$683) million. Includes an interest component of \$10,487 million.

[b] Includes leases for locomotives, freight cars, other equipment, and real estate.

[c]Represents total obligations, including interest component of \$259 million.

[d]Purchase obligations include locomotive maintenance contracts; purchase commitments for fuel purchases, locomotives, ties, ballast, and rail; and agreements to purchase other goods and services. For amounts where we cannot reasonably estimate the year of settlement, they are included in the Other column.

[e]Includes estimated other postretirement, medical, and life insurance payments and payments made under the unfunded pension plan for the next ten years.

[f]Future cash flows for income tax contingencies reflect the recorded liabilities and assets for unrecognized tax benefits, including any interest or penalties, as of September 30, 2016. For amounts where the year of settlement is uncertain, they are included in the Other column.

Other Commercial Commitments Millions	Total	Amount of Commitment Expiration by Dec. 31,					
		through Dec. 31, 2016	2017	2018	2019	2020	After 2020
Credit facilities [a]	\$ 1,700	\$ -	\$ -	\$ -	\$ 1,700	\$ -	\$ -
Receivables securitization facility [b]	650	-	-	-	650	-	-
Guarantees [c]	47	3	10	11	8	5	10
Standby letters of credit [d]	20	7	13	-	-	-	-
Total commercial commitments	\$ 2,417	\$ 10	\$ 23	\$ 11	\$ 2,358	\$ 5	\$ 10

[a] None of the credit facility was used as of September 30, 2016.

[b] \$400 million of the receivables securitization facility was utilized as of September 30, 2016, which is accounted for as debt. The full program matures in July 2019.

[c] Includes guaranteed obligations related to our affiliated operations.

[d] None of the letters of credit were drawn upon as of September 30, 2016.

OTHER MATTERS

Asserted and Unasserted Claims – Various claims and lawsuits are pending against us and certain of our subsidiaries. We cannot fully determine the effect of all asserted and unasserted claims on our consolidated results of operations, financial condition, or liquidity. To the extent possible, we have recorded a liability where asserted and unasserted claims are considered probable and where such claims can be reasonably estimated. We do not expect that any known lawsuits, claims, environmental costs, commitments, contingent liabilities, or guarantees will have a material adverse effect on our consolidated results of operations, financial condition, or liquidity after taking into account liabilities and insurance recoveries previously recorded for these matters.

Indemnities – We are contingently obligated under a variety of indemnification arrangements, although in some cases the extent of our potential liability is limited, depending on the nature of the transactions and

Table of Contents

the agreements. Due to uncertainty as to whether claims will be made or how they will be resolved, we cannot reasonably determine the probability of an adverse claim or reasonably estimate any adverse liability or the total maximum exposure under these indemnification arrangements. We do not have any reason to believe that we will be required to make any material payments under these indemnity provisions.

Accounting Pronouncements – In May 2014, the FASB issued Accounting Standards Update No. 2014-09 (ASU 2014-09), Revenue from Contracts with Customers (Topic 606). ASU 2014-09 supersedes the revenue recognition guidance in Topic 605, Revenue Recognition. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods and services to customers in an amount that reflects the consideration to which the entity expects to be entitled in the exchange for those goods or services. This standard is effective for annual reporting periods beginning after December 15, 2017. ASU 2014-09 is not expected to have a material impact on our consolidated financial position, results of operations, or cash flows.

In January 2016, the FASB issued Accounting Standards Update No. 2016-01 (ASU 2016-01), Recognition and Measurement of Financial Assets and Financial Liabilities (Subtopic 825-10). ASU 2016-01 provides guidance for the recognition, measurement, presentation, and disclosure of financial instruments. This guidance is effective for annual and interim periods beginning after December 15, 2017, and early adoption is not permitted. ASU 2016-01 is not expected to have a material impact on our consolidated financial position, results of operations, or cash flows.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02 (ASU 2016-02), Leases (Subtopic 842). ASU 2016-02 will require companies to recognize lease assets and lease liabilities on the balance sheet and disclose key information about leasing arrangements. For public companies, this standard is effective for annual reporting periods beginning after December 15, 2018, and early adoption is permitted. The Company is currently evaluating the impact of this standard on our consolidated financial position, results of operations, and cash flows.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09 (ASU 2016-09) Compensation - Stock Compensation (Topic 718), which simplifies the accounting for income taxes related to stock-based compensation. We elected to early adopt ASU 2016-09 in the first quarter of 2016 with an effective date of January 1, 2016. As a result of the adoption, we recognized excess tax benefits in the Condensed Consolidated Statements of Income and the Condensed Consolidated Statements of Cash Flows of \$5 million and \$21 million for the three and nine months ended September 30, 2016, respectively. Prior periods have not been adjusted.

CAUTIONARY INFORMATION

Certain statements in this report, and statements in other reports or information filed or to be filed with the SEC (as well as information included in oral statements or other written statements made or to be made by us), are, or will be, forward-looking statements as defined by the Securities Act of 1933 and the Securities Exchange Act of 1934. These forward-looking statements and information include, without limitation, the statements and information set forth under the caption “Liquidity and Capital Resources” in Item 2 regarding our capital plan and statements under the caption “Off-Balance Sheet Arrangements, Contractual Obligations, and Commercial Commitments.” Forward-looking statements and information also include any other statements or information in this report regarding: expectations as to operational or service improvements; expectations regarding the effectiveness of steps taken or to be taken to improve operations, service, infrastructure improvements, and transportation plan modifications; expectations as to cost savings, revenue growth, and earnings; the time by which goals, targets, or objectives will be achieved; projections, predictions, expectations, estimates, or forecasts as to our business, financial and operational results, future economic performance, and general economic conditions; proposed new products and services; estimates of costs relating to environmental remediation and restoration; estimates and expectations regarding tax matters, expectations that claims, litigation, environmental costs, commitments, contingent liabilities, labor negotiations or agreements, or other matters will not have a material adverse effect on our consolidated results of operations, financial condition, or liquidity and any other similar expressions concerning matters that are not historical facts.

Forward-looking statements and information reflect the good faith consideration by management of currently available information, and may be based on underlying assumptions believed to be reasonable

Table of Contents

under the circumstances. However, such information and assumptions (and, therefore, such forward-looking statements and information) are or may be subject to variables or unknown or unforeseeable events or circumstances over which management has little or no influence or control. The Risk Factors in Item 1A of our 2015 Annual Report on Form 10-K, filed February 6, 2016, could affect our future results and could cause those results or other outcomes to differ materially from those expressed or implied in the forward-looking statements, and this report, including this Item 2, should be read in conjunction with these Risk Factors. To the extent circumstances require or we deem it otherwise necessary, we will update or amend these risk factors in a Form 10-Q or Form 8-K. Information regarding new risk factors or material changes to our risk factors, if any, is set forth in Item 1A of Part II of this report. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times that, or by which, such performance or results will be achieved. Forward-looking information is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements.

Forward-looking statements speak only as of the date the statement was made. We assume no obligation to update forward-looking information to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information. If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect thereto or with respect to other forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There were no material changes to the Quantitative and Qualitative Disclosures About Market Risk previously disclosed in our 2015 Annual Report on Form 10-K.

Item 4. Controls and Procedures

As of the end of the period covered by this report, the Corporation carried out an evaluation, under the supervision and with the participation of the Corporation's management, including the Corporation's Chief Executive Officer (CEO) and Executive Vice President – Finance and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based upon that evaluation, the CEO and the CFO concluded that, as of the end of the period covered by this report, the Corporation's disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the SEC, and that such information is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Additionally, the CEO and CFO determined that there were no changes to the Corporation's internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) during the last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in legal proceedings, claims, and litigation that occur in connection with our business. We routinely assess our liabilities and contingencies in connection with these matters based upon the latest available information and, when necessary, we seek input from our third-party advisors when making these assessments. Consistent with SEC rules and requirements, we describe below material pending legal proceedings (other than ordinary routine litigation incidental to our business), material proceedings known to be contemplated by governmental authorities, other proceedings arising under federal, state, or local environmental laws and regulations (including governmental proceedings involving potential fines, penalties, or other monetary sanctions in excess of \$100,000), and such other pending matters that we may determine to be appropriate.

Table of Contents

Environmental Matters

We receive notices from the EPA and state environmental agencies alleging that we are or may be liable under federal or state environmental laws for remediation costs at various sites throughout the U.S., including sites on the Superfund National Priorities List or state superfund lists. We cannot predict the ultimate impact of these proceedings and suits because of the number of potentially responsible parties involved, the degree of contamination by various wastes, the scarcity and quality of volumetric data related to many of the sites, and the speculative nature of remediation costs.

Information concerning environmental claims and contingencies and estimated remediation costs is set forth in Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies – Environmental, Item 7 of our 2015 Annual Report on Form 10-K.

Other Matters

Antitrust Litigation - As we reported in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2007, 20 rail shippers (many of whom are represented by the same law firms) filed virtually identical

antitrust lawsuits in various federal district courts against us and four other Class I railroads in the U.S. Currently, UPRR and three other Class I railroads are the named defendants in the lawsuit. The original plaintiff filed the first of these claims in the U.S. District Court in New Jersey on May 14, 2007. The number of complaints reached a total of 30. These suits allege that the named railroads engaged in price-fixing by establishing common fuel surcharges for certain rail traffic.

In addition to suits filed by direct purchasers of rail transportation services, a few of the suits involved plaintiffs alleging that they are or were indirect purchasers of rail transportation and sought to represent a purported class of indirect purchasers of rail transportation services that paid fuel surcharges. These complaints added allegations under state antitrust and consumer protection laws. On November 6, 2007, the Judicial Panel on Multidistrict Litigation ordered that all of the rail fuel surcharge cases be transferred to Judge Paul Friedman of the U.S. District Court in the District of Columbia for coordinated or consolidated pretrial proceedings. Following numerous hearings and rulings, Judge Friedman dismissed the complaints of the indirect purchasers, which the indirect purchasers appealed. On April 16, 2010, the U.S. Court of Appeals for the District of Columbia affirmed Judge Friedman's ruling dismissing the indirect purchasers' claims based on various state laws.

On June 21, 2012, Judge Friedman issued a decision that certified a class of plaintiffs with eight named plaintiff representatives. The decision included in the class all shippers that paid a rate-based fuel surcharge to any one of the

defendant railroads for rate-unregulated rail transportation from July 1, 2003, through December 31, 2008. This was a procedural ruling, which did not affirm any of the claims asserted by the plaintiffs and does not address the ability of the railroad defendants to disprove the allegations made by the plaintiffs. On July 5, 2012, the defendant railroads filed a petition with the U.S. Court of Appeals for the District of Columbia requesting that the court review the class certification ruling. On August 28, 2012, a panel of the Circuit Court of the District of Columbia referred the petition to a merits panel of the court to address the issues in the petition and to address whether the district court properly granted class certification. The Circuit Court heard oral arguments on May 3, 2013. On August 9, 2013, the Circuit Court vacated the class certification decision and remanded the case to the district court to reconsider the class certification decision in light of a recent Supreme Court case and incomplete consideration of errors in the expert report of the plaintiffs. On October 31, 2013, Judge Friedman approved a schedule agreed to by all parties for consideration of the class certification issue on remand.

On October 2, 2014, the plaintiffs informed Judge Friedman that their economic expert had a previously undisclosed conflict of interest. Judge Friedman ruled on November 26, 2014, that the plaintiffs had until April 1, 2015, to file a supplemental expert report to support their motion for class certification. The plaintiffs filed their supplemental expert report on April 1, 2015. Judge Friedman issued a scheduling order on June 19, 2015, scheduling a class certification hearing for November 2, 2015. Judge Friedman then vacated the hearing date in an Order on September 28, 2015 because of the potential impact resulting from the decision of the U.S. Supreme Court case, *Tyson Foods v. Bouphakeo*, related to class action certification and damages. The U.S. Supreme Court issued a decision in that case on March 22, 2016. After reviewing the Supreme Court's decision and related briefings from the parties, Judge Friedman issued an order scheduling the class certification hearing for the week of September 26, 2016, which was conducted as scheduled. The parties are awaiting the results of that hearing.

Table of Contents

As we reported in our Current Report on Form 8-K, filed on June 10, 2011, the Railroad received a complaint filed in the U.S. District Court for the District of Columbia on June 7, 2011, by Oxbow Carbon & Minerals LLC and related entities (Oxbow). The complaint named the Railroad and one other U.S. Class I Railroad as defendants and alleged that the named railroads engaged in price-fixing and monopolistic practices in connection with fuel surcharge programs and pricing of shipments of certain commodities, including coal and petroleum coke. The complaint sought injunctive relief and payment of damages of over \$30 million, and other unspecified damages, including treble damages. Some of the allegations in the complaint were addressed in the existing fuel surcharge litigation referenced above. The complaint also included additional unrelated allegations regarding alleged limitations on competition for shipments of Oxbow's commodities. Judge Friedman, who presides over the fuel surcharge matter described above, also presides over this matter. On February 26, 2013, Judge Friedman granted the defendants' motion to dismiss Oxbow's complaint for failure to state properly a claim under the antitrust laws. However, the dismissal was without prejudice to refile the complaint. Judge Friedman approved a schedule that allowed Oxbow to file a revised complaint, which Oxbow filed on May 1, 2013. The amended complaint alleges that UPRR and one other Class I railroad violated Sections 1 and 2 of the Sherman Antitrust Act and that UPRR also breached a tolling agreement between Oxbow and UPRR. Oxbow claims that it paid more than \$50 million in wrongfully imposed fuel surcharges. UPRR and the other railroad filed separate motions to dismiss the Oxbow revised complaint on July 1, 2013. Judge Friedman heard oral arguments on the motions to dismiss filed by UPRR and the other railroad on January 8, 2015. Judge Friedman denied the motions to dismiss on February 24, 2015. This was a procedural ruling, which did not affirm any of the claims asserted by Oxbow and does not affect the ability of the railroad defendants to disprove the allegations made by Oxbow. UPRR filed its answer to Oxbow's complaint on March 24, 2015, and the parties have commenced discovery.

We deny the allegations that our fuel surcharge programs violate the antitrust laws or any other laws. We believe that these lawsuits are without merit, and we will vigorously defend our actions. Therefore, we currently believe that these matters will not have a material adverse effect on any of our results of operations, financial condition, and liquidity.

Item 1A. Risk Factors

There were no material changes from the risk factors previously disclosed in our 2015 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities – The following table presents common stock repurchases during each month for the third quarter of 2016:

Period	Total Number of Shares Purchased [a]	Average	Total Number of Shares Purchased as Part of a Publicly Announced Plan or Program [b]	Maximum Number of Shares That May Be Purchased Under Current Authority [b]
		Price Paid Per Share		
Jul. 1 through Jul. 31	2,462,707	\$ 91.67	2,455,000	33,855,539
Aug. 1 through Aug 31	2,583,627	94.13	2,579,413	31,276,126
Sep. 1 through Sep. 30	4,056,109	94.51	4,054,200	27,221,926
Total	9,102,443	\$ 93.63	9,088,613	N/A

[a]Total number of shares purchased during the quarter includes 13,830 shares delivered or attested to UPC by employees to pay stock option exercise prices, satisfy excess tax withholding obligations for stock option exercises or vesting of retention units, and pay withholding obligations for vesting of retention shares.

[b]Effective January 1, 2014, our Board of Directors authorized the repurchase of up to 120 million shares of our common stock by December 31, 2017. These repurchases may be made on the open market or through other transactions. Our management has sole discretion with respect to determining the timing and amount of these transactions.

Dividend Restrictions – Our revolving credit facility includes a debt-to-net worth covenant that, under certain circumstances, restricts the payment of cash dividends to our shareholders. The amount of retained earnings available for dividends was \$12.4 billion and \$13.6 billion at September 30, 2016, and December 31, 2015, respectively.
