The information contained in this report shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

On July 25, 2003, Marten Transport, Ltd. (the "Company") issued a press release (the "Press Release") announcing its financial results for the quarter and six months ended June 30, 2003, as well as the filing of a registration statement and the filing of a proxy statement for a special stockholders' meeting. A copy of the Press Release is attached as Exhibit 99.1 to the Form 8-K filed by the Company on July 25, 2003 (SEC File No. 000-15010).

On July 28, 2003, the Company held a teleconference to discuss the Press Release and other information concerning the Company. After delivering prepared remarks that were made available on the Company's website prior to the start of the teleconference (the "Teleconference Script"), the Company's Chairman and President, Randolph L. Marten, and the Company's Executive Vice President, Chief Financial Officer, Treasurer, and Assistant Secretary, Darrell D. Rubel (the "Company Representatives"), accepted questions. The following information supplements, clarifies, and amends the answers to questions during the teleconference. The questions are paraphrased for clarity and brevity.

Q: What are the Company's anticipated capital expenditures for the second half of 2003?

A: The Company's estimated capital expenditures, net of proceeds received from the disposition of capital assets, are expected to be approximately \$16.0 million for the second half of 2003, or approximately \$29.0 million for the full year of 2003.

Q: What are the Company's expectations concerning average freight revenue

Edgar Filing: MARTEN TRANSPORT LTD - Form 8-K

per total mile?

A: As disclosed in the Press Release, the Company's average freight revenue per total mile increased \$.01 for the three months ended June 30, 2003, compared to the same period for 2002. The Company expects its average freight revenue per total mile to hold fairly steady for the remainder of 2003 and to increase 2% to 3% during 2004. During the first quarter of 2003, the Company discontinued its short haul dedicated and regional operations in the Northeast, which were primarily for two customers. This had a negative impact of approximately \$.01 per mile on the Company's average freight revenue per total mile for periods after March 31, 2003. Mr. Marten's reference to the cessation of business for one customer affecting average revenue per total mile by \$.016 is hereby modified. The Company's expectations are based on modest economic growth and

growth in temperature-sensitive tractor-trailer capacity that is not greater than economic growth.

Q: Concerning the Company's near-term goal of achieving an operating ratio of approximately 93% on an annualized basis, to what time periods does that goal apply?

A: The Company's goal applies to the second half of 2003 and to the year 2004 on a full-year basis.

The information in this report and the statements made by the Company Representatives during the teleconference contain "forward-looking statements" that are made pursuant to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995 and otherwise may be protected. Such statements are made based on the current beliefs and expectations of the Company's management and are subject to significant risks and uncertainties. Actual results may differ from those anticipated by forward-looking statements. Please refer to the Company's Annual Report on Form 10-K and other filings with the Securities and Exchange Commission for information concerning risks, uncertainties, and other factors that may affect future results.
