Media Release

FOR IMMEDIATE RELEASE

SERONO TO HOLD R&D DAY FOR INVESTORS AND ANALYSTS TODAY

London, UK, December 2, 2002 Serono S.A. (virt-x: SEO and NYSE: SRA) announced that it will hold an R&D Day for investors and analysts in London today at which it will present an update on projects in research and development. The event will begin at 14.00 Greenwich Mean Time (15.00 Central European Time and 9.00 A.M. Eastern Time).

The agenda for this meeting is available on www.serono.com. The presentation will be available via a live audio webcast with slide transmission, also accessible at www.serono.com. An archive of this webcast will be available until December 20, 2002.

About Serono

Serono is a global biotechnology leader. The Company has six recombinant products on the market, Gonal-F®, Luveris®, Ovidrel®/Ovitrelle®, Rebif®, Serostim® and Saizen® (Luveris® is not approved in the USA). In addition to being the world leader in reproductive health, Serono has strong market positions in neurology, metabolism and growth. The Company's research programs are focused on growing these businesses and on establishing new therapeutic areas. Currently, there are twenty-one new molecules in development.

In 2001, Serono achieved worldwide revenues of US\$1.38 billion, and a net income of US\$317 million, making it the third largest biotech company in the world based on revenues. The Company operates in 45 countries, and its products are sold in over 100 countries. Bearer shares of Serono S.A., the holding company, are traded on the virt-x (SEO) and its American Depositary Shares are traded on the New York Stock Exchange (SRA).

###

Some of the statements in this press release are forward looking. Such statements are inherently subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of Serono S.A. and affiliates to be materially different from those expected or anticipated in the forward-looking statements. Forward-looking statements are based on Serono's current expectations and assumptions, which may be affected by a number of factors, including those discussed in this press release and more fully described in Serono's Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission on May 21, 2002. These factors include any failure or delay in Serono's ability to develop new products, any failure to receive anticipated regulatory approvals, any problems in commercializing current products as a result of competition or other factors, our ability to obtain reimbursement coverage for our products, and government regulations limiting our ability to sell our products. Serono has no responsibility to update the forward-looking statements contained in this press release to reflect events or circumstances occurring after the date of this press release.
