Safe Harbor Statement

Information provided in the exhibit hereto contains statements which may constitute “forward-looking” statements, usually containing the words “believe,” “estimate,” “project,” “anticipate,” “expect,” “target,” “goal,” or similar expressions. Forward looking statements in the exhibit relate to, among other things, USE’s drilling of wells on leases acquired from Crimson Exploration Inc., its anticipated ownership interests in those wells and their expected costs, the potential number of gross and net drilling locations, the oil and natural gas targets or goals for the wells and the expectation to acquire additional oil and gas properties with Crimson. These statements are made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995. Forward-looking statements inherently involve risks and uncertainties that could cause actual results to differ materially from the forward-looking statements. Factors that would cause or contribute to such differences include, but are not limited to, future trends in commodity and/or mineral prices, the availability of capital, competitive factors, and other risks described in the Company’s filings with the SEC (including, without limitation, the Form 10-K for the year ended December 31, 2009 and the Form 10-Q filed on November 8, 2010). By making these forward-looking statements, the Company undertakes no obligation to update these statements for revision or changes after the date of this release.

The forward-looking statements referenced above are made only as of the date of the exhibit. We undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
