Explanatory Note

This amendment (Form 10-Q/A) is being provided for the sole purpose of amending the original Form 10-Q for the period ended April 29, 2017, as filed on June 5, 2017, to correct the number of Class A Common Stock shares outstanding as of June 1, 2017. The cover page of the original Form 10-Q inadvertently misstated the number of Class A Common Stock shares outstanding as of June 1, 2017, to be 86,016,786. The actual number of Class A Common Stock shares outstanding as of that date was 68,016,186.

No other changes have been made to the Form 10-Q. This Form 10-Q/A does not reflect events that may have occurred subsequent to the original filing date, and does not modify or update any related disclosures made in the Form 10-Q. For convenience, the entire Form 10-Q, as amended, is being re-filed.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

Nature of Business

Abercrombie & Fitch Co. (“A&F”), through its subsidiaries (collectively, A&F and its subsidiaries are referred to as “Abercrombie & Fitch” or the “Company”), is a specialty retailer of branded apparel and accessories. The Company operates through store and direct-to-consumer operations, as well as through various wholesale, franchise and licensing arrangements. The Company has operations in North America, Europe, Asia and the Middle East.

Principles of Consolidation

The accompanying Condensed Consolidated Financial Statements include historical financial statements of, and transactions applicable to, the Company and reflect its assets, liabilities, results of operations and cash flows.

The Company has interests in a United Arab Emirates business venture and in a Kuwait business venture with Majid al Futtaim Fashion L.L.C. (“MAF”), each of which meets the definition of a variable interest entity (“VIE”). The Company is deemed to be the primary beneficiary of these VIEs; therefore, the Company has consolidated the assets, liabilities, results of operations and cash flows of these VIEs.

Fiscal Year

The Company’s fiscal year ends on the Saturday closest to January 31. All references herein to “Fiscal 2017” and “Fiscal 2016” represent the fifty-three week fiscal year ending on February 3, 2018 and the fifty-two week fiscal year ended on January 28, 2017, respectively.

Interim Financial Statements

The Condensed Consolidated Financial Statements as of April 29, 2017, and for the thirteen week periods ended April 29, 2017 and April 30, 2016, are unaudited and are presented pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, these Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto contained in A&F’s Annual Report on Form 10-K for Fiscal 2016 filed with the SEC on March 27, 2017. The January 28, 2017 consolidated balance sheet data, included herein, were derived from audited consolidated financial statements, but do not include all disclosures required by accounting principles generally accepted in the United States of America (“U.S. GAAP”).

In the opinion of management, the accompanying Condensed Consolidated Financial Statements reflect all adjustments (which are of a normal recurring nature) necessary to state fairly, in all material respects, the financial position and results of operations and cash flows for the interim periods, but are not necessarily indicative of the results of operations to be anticipated for Fiscal 2017.

Table of Contents

Recent Accounting Pronouncements

The following table provides a brief description of recent accounting pronouncements that could affect the Company's financial statements:

Accounting Standards Update (ASU) Standards adopted	Description	Date of Adoption	Effect on the Financial Statements or Other Significant Matters
ASU 2015-11, Simplifying the Measurement of Inventory	This update amends ASC 330, Inventory. The new guidance applies to inventory measured using first-in, first-out (FIFO) or average cost. Under this amendment, inventory is to be measured at the lower of cost and net realizable value, which is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.	January 29, 2017*	The adoption of this guidance did not have any impact on the Company's consolidated financial statements.
ASU 2016-09, Compensation—Stock Compensation	This update amends ASC 718, Compensation. Under the new guidance, tax benefits and certain tax deficiencies arising from the vesting of share-based payments are to be recognized as income tax benefits or expenses in the statement of operations; whereas, under the previous guidance, such benefits and deficiencies were recorded in additional paid-in-capital. The cash flow effects of the tax benefit are to be reported in cash flows from operating activities; whereas, they were previously reported in cash flows from financing activities. This guidance also allows for entities to make a policy election to estimate forfeitures or account for them when they occur.	January 29, 2017*	As required by the update, all excess tax benefits and tax deficiencies recognized on share-based compensation expense are reflected in the condensed consolidated statements of income as a component of the provision for income taxes on a prospective basis. This update resulted in additional non-cash income tax expense of \$9.3 million in the first quarter of Fiscal 2017. In addition, excess tax benefits and tax deficiencies recognized on share-based compensation expense are now classified as an operating activity on the condensed consolidated statements of cash flows. The Company has applied this provision on a retrospective basis. For the first quarter of Fiscal 2016, net cash used by operating activities decreased by \$0.6 million with a corresponding offset to net cash used for financing activities. The Company has elected to maintain its practice of estimating forfeitures when recognizing expense for share-based payment awards rather than accounting for forfeitures when they occur. Based on share-based compensation awards currently outstanding at current stock prices, the adoption of this guidance will result in non-cash income tax expense of approximately \$11 million for Fiscal 2017 and \$20 million for Fiscal 2018.
Standards not yet adopted			

ASU 2014-09, Revenue from Contracts with Customers	<p>This update supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. The new guidance requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration which the entity expects to be entitled to in exchange for those goods or services.</p>	February 4, 2018	<p>The Company is currently evaluating the impact that this guidance will have on its consolidated financial statements.</p>
ASU 2016-02, Leases	<p>This update supersedes the leasing requirements in ASC 840, Leases. The new guidance requires an entity to recognize lease assets and lease liabilities on the balance sheet and disclose key leasing information that depicts the lease rights and obligations of an entity.</p>	February 3, 2019*	<p>The Company expects that this guidance will result in a significant increase in the Company's long-term assets and long-term liabilities on the Company's consolidated balance sheets, and is currently evaluating additional impacts that it may have on its consolidated financial statements.</p>

* Early adoption is permitted.

2. NET LOSS PER SHARE

Net loss per basic and diluted share is computed based on the weighted-average number of outstanding shares of common stock.

The following table presents weighted-average shares outstanding and anti-dilutive shares:

(in thousands)	Thirteen Weeks	
	Ended	
	April 29, 2017	April 30, 2016
Shares of common stock issued	103,300	103,300
Weighted-average treasury shares	(35,227)	(35,675)
Weighted-average — basic shares	68,073	67,625
Dilutive effect of share-based compensation awards	—	—
Weighted-average — diluted shares	68,073	67,625
Anti-dilutive shares ⁽¹⁾	5,263	7,954

(1) Reflects the total number of shares related to outstanding share-based compensation awards that have been excluded from the computation of net loss per diluted share because the impact would have been anti-dilutive.

3. FAIR VALUE

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value are prioritized based on a three-level hierarchy. The three levels of inputs to measure fair value are as follows:

Level 1—inputs are unadjusted quoted prices for identical assets or liabilities that are available in active markets that the Company can access at the measurement date.

Level 2—inputs are other than quoted market prices included within Level 1 that are observable for assets or liabilities, directly or indirectly.

Level 3—inputs to the valuation methodology are unobservable.

The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. The three levels of the hierarchy and the distribution within it of the Company's assets and liabilities, which are measured at fair value on a recurring basis, were as follows:

(in thousands)	Assets and Liabilities at Fair Value as of April 29, 2017			
	Level 1	Level 2	Level 3	Total

Total liabilities	\$—	\$492	\$	—\$492

8

Table of Contents

The Level 2 assets and liabilities consist of trust-owned life insurance policies and derivative financial instruments, primarily foreign currency exchange forward contracts. The fair value of foreign currency exchange forward contracts is determined by using quoted market prices of the same or similar instruments, adjusted for counterparty risk.

Fair value of borrowings:

The Company's borrowings under the Company's credit facilities are carried at historical cost in the accompanying Condensed Consolidated Balance Sheets. For disclosure purposes, the Company estimated the fair value of borrowings outstanding based on market rates for similar types of debt, which are considered to be Level 2 inputs.

The carrying amount and fair value of the Company's term loan facility were as follows:

(in thousands)	April 29, 2017	January 28, 2017
Gross borrowings outstanding, carrying amount	\$268,250	\$ 268,250
Gross borrowings outstanding, fair value	\$258,861	\$ 260,551

No borrowings were outstanding under the Company's senior secured revolving credit facility as of April 29, 2017 or January 28, 2017.

4. PROPERTY AND EQUIPMENT, NET

Property and equipment, net consisted of:

(in thousands)	April 29, 2017	January 28, 2017
Property and equipment, at cost	\$2,766,557	\$2,772,139
Less: Accumulated depreciation and amortization	(1,960,500)	(1,947,401)
Property and equipment, net	\$806,057	\$824,738

Long-lived assets, primarily comprised of leasehold improvements, furniture, fixtures and equipment, are tested for recoverability whenever events or changes in circumstances indicate that the carrying amount of the long-lived assets might not be recoverable. These include, but are not limited to, material declines in operational performance, a history of losses, an expectation of future losses, adverse market conditions and store closure or relocation decisions. On at least a quarterly basis, the Company reviews for indicators of impairment at the individual store level, the lowest level for which cash flows are identifiable.

Stores that display an indicator of impairment are subjected to an impairment assessment. The Company's impairment assessment requires management to make assumptions and judgments related, but not limited, to management's expectations for future operations and projected cash flows. The key assumptions used in the Company's undiscounted future cash flow models include sales, gross profit and, to a lesser extent, operating expenses.

An impairment loss would be recognized when these undiscounted future cash flows are less than the carrying amount of the asset group. In the circumstance of impairment, the loss would be measured as the excess of the carrying amount of the asset group over its fair value. The key assumptions used in estimating the fair value of impaired assets include projected cash flows and discount rate.

The Company incurred asset impairment charges of \$0.7 million for the thirteen weeks ended April 29, 2017. There were no asset impairment charges for the thirteen weeks ended April 30, 2016.

The Company had \$35.9 million and \$35.6 million of construction project assets in property and equipment, net at April 29, 2017 and January 28, 2017, respectively, related to the construction of buildings in certain lease arrangements where the Company is deemed to be the owner of the construction project.

5. INCOME TAXES

The Company's quarterly tax provision and the estimate of the annual effective tax rate are subject to significant variation due to several factors. These include variability in the pre-tax jurisdictional mix of earnings, changes in how the Company does business including entering into new businesses or geographies, changes in foreign currency exchange rates, changes in law, regulations, and administrative practices, relative changes of expenses or losses for which tax benefits are not recognized and the impact of discrete items. The impact of these items on the effective tax rate will be greater at lower levels of pre-tax income (loss).

In the first quarter of Fiscal 2017, the provision for income taxes also differs from the tax computed at the U.S. federal statutory tax rate due to the tax effects of stock-based compensation. In the first quarter of Fiscal 2017, the Company adopted ASU 2016-09, "Compensation—Stock Compensation," which resulted in a discrete non-cash income tax charge of \$9.3 million recognized in income tax benefit on the Condensed Consolidated Statements of Operations and Comprehensive Loss. Refer to Note 1, "BASIS OF PRESENTATION--Recent Accounting Pronouncements" for further discussion regarding the adoption of this standard.

6. SHARE-BASED COMPENSATION

The Company recognized share-based compensation expense of \$4.9 million for the thirteen weeks ended April 29, 2017 and \$6.6 million for the thirteen weeks ended April 30, 2016. The tax benefit associated with share-based compensation expense was \$1.9 million for the thirteen weeks ended April 29, 2017 and \$2.5 million for the thirteen weeks ended April 30, 2016.

Unvested at April 29, 2017	2,735,329	\$ 16.81	722,790	\$ 12.26	416,599	\$ 17.25

This includes 786,449 unvested restricted stock units as of April 29, 2017 that are subject to the requirement that ⁽¹⁾ the Company must achieve at least \$1.00 of GAAP net income attributable to A&F for the fiscal year in order to vest.

Fair value of both service-based and performance-based restricted stock units is calculated using the market price of the underlying common stock on the date of grant reduced for anticipated dividend payments on unvested shares. In determining fair value, the Company does not take into account performance-based vesting requirements. Performance-based vesting requirements are taken into account in determining the number of awards expected to vest. For market-based restricted stock units, fair value is calculated using a Monte Carlo simulation with the number of shares that ultimately vest dependent on the Company's total stockholder return measured against the total stockholder return of a select group of peer companies over a three-year period. For an award with performance-based or market-based vesting requirements, the number of shares that ultimately vest can vary from 0% to 200% of target depending on the level of achievement of performance criteria. Unvested shares related to restricted stock units with performance-based vesting conditions are reflected at 100% of their target vesting amount in the table above.

Service-based restricted stock units are expensed on a straight-line basis over the total requisite service period, net of forfeitures. Performance-based restricted stock units subject to graded vesting are expensed on an accelerated attribution basis, net of forfeitures. Market-based restricted stock units without graded vesting features are expensed on a straight-line basis over the requisite service period, net of forfeitures.

As of April 29, 2017, there was \$30.1 million, \$4.9 million and \$4.8 million of total unrecognized compensation cost, net of estimated forfeitures, related to service-based, performance-based and market-based restricted stock units, respectively. The unrecognized compensation cost is expected to be recognized over a weighted-average period of 17 months, 18 months and 16 months for service-based, performance-based and market-based restricted stock units, respectively.

The tax benefit associated with restricted stock vesting during the thirteen weeks ended April 29, 2017 and April 30, 2016 was \$2.1 million and \$4.9 million, respectively.

Additional information pertaining to restricted stock units for the thirteen weeks ended April 29, 2017 and April 30, 2016 follows:

7. DERIVATIVE INSTRUMENTS

The Company is exposed to risks associated with changes in foreign currency exchange rates and uses derivative instruments, primarily forward contracts, to manage the financial impacts of these exposures. The Company does not use forward contracts to engage in currency speculation and does not enter into derivative financial instruments for trading purposes.

The Company uses derivative instruments, primarily forward contracts designated as cash flow hedges, to hedge the foreign currency exposure associated with forecasted foreign-currency-denominated intercompany inventory sales to foreign subsidiaries and the related settlement of the foreign-currency-denominated intercompany receivables. Fluctuations in exchange rates will either increase or decrease the Company's intercompany equivalent cash flows and affect the Company's U.S. Dollar earnings. Gains or losses on the foreign currency exchange forward contracts that are used to hedge these exposures are expected to partially offset this variability. Foreign currency exchange forward contracts represent agreements to exchange the currency of one country for the currency of another country at an agreed upon settlement date. These forward contracts typically have a maximum term of twelve months. The sale of the inventory to the Company's customers will result in the reclassification of related derivative gains and losses that are reported in accumulated other comprehensive loss ("AOCL"). Substantially all of the unrealized gains or losses related to designated cash flow hedges as of April 29, 2017 will be recognized in cost of sales, exclusive of depreciation and amortization, over the next twelve months.

The Company presents its derivative assets and derivative liabilities at their gross fair values on the Condensed Consolidated Balance Sheets. However, the Company's Master International Swap Dealers Association, Inc., Agreement and other similar arrangements allow net settlements under certain conditions.

As of April 29, 2017, the Company had outstanding the following foreign currency exchange forward contracts that were entered into to hedge either a portion, or all, of forecasted foreign-currency-denominated intercompany inventory sales, the resulting settlement of the foreign-currency-denominated intercompany accounts receivable, or both:

(in thousands)	Notional Amount ⁽¹⁾
Euro	\$ 81,038

Canadian dollar	\$ 15,119
Japanese yen	\$ 7,934

(1) Amounts reported are the U.S. Dollar notional amounts outstanding as of April 29, 2017.

The Company also uses foreign currency exchange forward contracts to hedge certain foreign-currency-denominated net monetary assets/liabilities. Examples of monetary assets/liabilities include cash balances, receivables and payables. Fluctuations in exchange rates result in transaction gains/(losses) being recorded in earnings as U.S. GAAP requires that monetary assets/liabilities be remeasured at the spot exchange rate at quarter-end or upon settlement. The Company has chosen not to apply hedge accounting to these instruments because there are no differences in the timing of gain or loss recognition on the hedging instruments and the hedged items.

9. SEGMENT REPORTING

The Company has two operating segments: Hollister; and Abercrombie, which includes the Company's Abercrombie & Fitch and abercrombie kids brands. These operating segments have similar economic characteristics, classes of consumers, products, and production and distribution methods, and have been aggregated into one reportable segment.

The following table provides the Company's net sales by operating segment for the thirteen weeks ended April 29, 2017 and April 30, 2016.

10. CONTINGENCIES

The Company is a defendant in lawsuits and other adversary proceedings arising in the ordinary course of business. Legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes reserves for the outcome of litigation where losses are deemed probable and reasonably estimable. The Company's assessment of the current exposure could change in the event of the discovery of additional facts. Actual liabilities may exceed the amounts reserved, and there can be no assurance that final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows. There are certain claims and legal proceedings pending against the Company for which accruals have not been established.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

BUSINESS SUMMARY

The Company is a specialty retailer who primarily sells its products through store and direct-to-consumer operations, as well as through various wholesale, franchise and licensing arrangements. The Company offers a broad array of apparel products, including knit tops, woven shirts, graphic t-shirts, fleece, sweaters, jeans, woven pants, shorts, outerwear, dresses, intimates and swimwear; and personal care products and accessories for men, women and kids under the Hollister, Abercrombie & Fitch and abercrombie kids brands. The Company has operations in North America, Europe, Asia and the Middle East.

The Company's fiscal year ends on the Saturday closest to January 31. Fiscal years are designated in the consolidated financial statements and notes by the calendar year in which the fiscal year commences. All references herein to "Fiscal 2017" represent the fifty-three week fiscal year that will end on February 3, 2018, and to "Fiscal 2016" represent the fifty-two week fiscal year that ended January 28, 2017.

Due to the seasonal nature of the retail apparel industry, the results of operations for any current period are not necessarily indicative of the results expected for the full fiscal year. The seasonality of the Company's operations may also lead to significant fluctuations in certain asset and liability accounts.

SUMMARY RESULTS OF OPERATIONS

The table below summarizes the Company's results of operations for the thirteen week periods ended April 29, 2017 and April 30, 2016.

(in thousands, except change in comparable sales, gross profit rate and per share amounts)	April 29, 2017	April 30, 2016
Net sales	\$661,099	\$685,483
Change in comparable sales ⁽¹⁾	(3)%	(4)%
Gross profit rate	60.3 %	62.1 %
Operating loss	\$(69,941)	\$(54,911)
Net loss attributable to A&F	\$(61,700)	\$(39,587)
Net loss per diluted share attributable to A&F	\$(0.91)	\$(0.59)

Changes in comparable sales are calculated on a constant currency basis by converting prior year store and online sales at current year exchange rates. For inclusion in this calculation, a store must have been open as the same brand at least one year and its square footage must not have been expanded or reduced by more than 20% within the past year.

As of April 29, 2017, the Company had \$421.4 million in cash and equivalents and \$268.3 million in gross borrowings outstanding under its term loan facility. Net cash used by operating activities was \$84.3 million for the thirteen weeks ended April 29, 2017. The Company also used cash of \$32.1 million for capital expenditures and \$13.6 million to pay dividends during the thirteen weeks ended April 29, 2017.

CURRENT TRENDS AND OUTLOOK

Our results for the first quarter of Fiscal 2017 reflect comparable sales improvement over the prior quarter in a continued challenging, promotional environment. Hollister, our largest brand, delivered an increase in comparable sales. At Abercrombie, sales results were in line with our expectations as we continue to lay the foundation for its revitalization.

While we anticipate the second quarter retail environment to remain promotional and generally challenging, we expect comparable sales trend improvement in the second half of the year, as we gain traction from our strategic investments in marketing, loyalty programs and omnichannel capabilities. We continue to maintain a disciplined approach to our cost structure, with a balanced focus between dealing with short-term realities and driving towards our long-term ambition, and remain confident in our strategic direction and our ability to execute on our plans.

For Fiscal 2017, we expect:

• Comparable sales to remain challenging in the second quarter, with trend improvement in the second half of the year.

• Continued adverse impact from foreign currency on sales and operating income.

• A gross profit rate down slightly to last year's adjusted non-GAAP rate of 61.0%, with continued pressure in the second quarter.

• Operating expense to be down at least 3% from last year's adjusted non-GAAP operating expense of \$2.025 billion, with approximately 65% of the full year reduction to occur in the second half of the year.

• Net income attributable to noncontrolling interests of approximately \$4 million.

• A weighted average diluted share count of approximately 68 million shares, excluding the effect of potential share buybacks.

For the full year, we expect the effective tax rate to reflect a core tax rate in the low 30s, which remains highly sensitive at lower levels of pre-tax earnings. Additionally, we expect discrete non-cash income tax charges for the full year of approximately \$11 million primarily related to a change in share-based compensation accounting standards.

We expect capital expenditures to be approximately \$100 million for the full year.

We plan to open approximately seven full-price stores in Fiscal 2017, including six in the U.S. and one in international markets. We also plan to open two new outlet stores. In addition, we anticipate closing approximately 60 stores in the U.S. during the fiscal year through natural lease expirations.

NON-GAAP FINANCIAL MEASURES

This Quarterly Report on Form 10-Q includes discussion of certain financial measures under “RESULTS OF OPERATIONS” on both a GAAP and a non-GAAP basis. The Company believes that each of the non-GAAP financial measures presented in this “ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS” are useful to investors as they provide a measure of the Company’s operating performance excluding the effect of certain items which the Company believes do not reflect its future operating outlook, and therefore supplements investors’ understanding of comparability across periods. Management used these non-GAAP financial measures during the periods presented to assess the Company’s performance and to develop expectations for future operating performance. These non-GAAP financial measures should be used supplemental to, not as an alternative to, the Company’s GAAP financial results, and may not be the same as similar measures presented by other companies.

Changes in comparable sales are calculated on a constant currency basis by converting prior year store and online sales at current year exchange rates. For the purpose of this calculation, a store must have been open as the same brand at least one year and its square footage must not have been expanded or reduced by more than 20% within the past year.

(2) Includes Abercrombie & Fitch and abercrombie kids brands.

For the first quarter of Fiscal 2017, net sales decreased 4% as compared to the first quarter of Fiscal 2016, primarily attributable to a 3% decrease in comparable sales, driven by the Abercrombie brand.

Gross profit	\$398,925 60.3%	\$425,721 62.1%

For the first quarter of Fiscal 2017, cost of sales, exclusive of depreciation and amortization, as a percentage of net sales increased by approximately 180 basis points as compared to the first quarter of Fiscal 2016, primarily due to lower average unit retail, which includes the adverse effects from changes in foreign currency exchange rates of approximately 50 basis points, partially offset by lower average unit cost.

Stores and Distribution Expense

(in thousands)	Thirteen Weeks Ended	
	April 29, 2017	April 30, 2016
	% of Net Sales	% of Net Sales
Stores and distribution expense	\$359,929 54.4%	\$369,118 53.8%

For the first quarter of Fiscal 2017, stores and distribution expense as a percentage of net sales increased by approximately 60 basis points as compared to the first quarter of Fiscal 2016, primarily due to the deleveraging effect from negative comparable sales and higher direct-to-consumer expense, partially offset by expense reduction efforts.

For the first quarter of Fiscal 2017, shipping and handling costs, including costs incurred to store, move and prepare product for shipment and costs incurred to physically move product to the customer, associated with direct-to-consumer operations were \$29.7 million as compared to \$22.8 million for the first quarter of Fiscal 2016.

For the first quarter of Fiscal 2017, handling costs, including costs incurred to store, move and prepare product for shipment to stores, were \$8.1 million as compared to \$10.4 million for the first quarter of Fiscal 2016.

Shipping and handling costs are included in stores and distribution expense on the Condensed Consolidated Statements of Operations and Comprehensive Loss.

For the first quarter of Fiscal 2017, marketing, general and administrative expense as a percentage of net sales decreased by approximately 10 basis points as compared to the first quarter of Fiscal 2016, primarily due to expense reduction efforts, partially offset by higher marketing expenses and the deleveraging effect from negative comparable sales.

Asset Impairment

For the first quarter of Fiscal 2017, the Company incurred asset impairment charges of \$0.7 million. There were no asset impairment charges for the first quarter of Fiscal 2016.

(in thousands, except ratios)	Effective Tax Rate	Effective Tax Rate
Income tax benefit	\$(13,052) 17.6%	\$(20,787) 35.0%

For the first quarter of Fiscal 2017, the Company's income tax benefit as a percentage of loss before taxes was 17.6% as compared to 35.0% for the first quarter of Fiscal 2016. The change in tax rate was primarily driven by a discrete non-cash income tax charge of \$9.3 million related to the adoption of ASU 2016-09 in the first quarter of Fiscal 2017, as well as changes in the level and mix of consolidated pre-tax earnings between operating and valuation allowance jurisdictions. The Company's effective income tax rate remains sensitive at lower levels of full year pre-tax earnings.

Net Loss and Net Loss per Share Attributable to A&F

For the first quarter of Fiscal 2017, net loss and net loss per diluted share attributable to A&F were \$61.7 million and \$0.91, respectively, as compared to net loss and net loss per diluted share attributable to A&F of \$39.6 million and \$0.59, respectively, for the first quarter of Fiscal 2016.

Seasonality of Cash Flows

The Company's business has two principal selling seasons: the Spring season, which includes the first and second fiscal quarters ("Spring"), and the Fall season, which includes the third and fourth fiscal quarters ("Fall"). As is typical in the apparel industry, the Company experiences its greatest sales activity during the Fall season due to Back-to-School and Holiday sales periods. The Company relies on excess operating cash flows, which are largely generated in the Fall season, to fund operations throughout the year and to reinvest in the business to support future growth. The Company also has a revolving credit facility available as a source of additional funding.

Asset-Based Revolving Credit Facility

The Company has a senior secured revolving credit facility with availability of up to \$400 million (the "ABL Facility"), subject to a borrowing base. The ABL Facility is available for working capital, capital expenditures and other general corporate purposes. The ABL Facility will mature on August 7, 2019. No borrowings were outstanding under the ABL Facility as of April 29, 2017.

Amounts borrowed under the ABL Facility bear interest, at the Company's option, at either an adjusted LIBOR rate plus a margin of 1.25% to 1.75% per annum, or an alternate base rate plus a margin of 0.25% to 0.75% per annum based on average historical excess availability during the preceding quarter. The Company is also required to pay a fee of 0.25% per annum on undrawn commitments under the ABL Facility. Customary agency fees and letter of credit fees are also payable in respect of the ABL Facility.

As of April 29, 2017, the borrowing base on the ABL Facility was \$253.7 million. As of June 1, 2017, the Company had not drawn on the ABL Facility, but had approximately \$1.8 million in outstanding stand-by letters of credit under the ABL Facility.

Term Loan Facility

The Company has a term loan agreement, which provides for a term loan facility of \$300 million (the "Term Loan Facility" and, together with the ABL Facility, the "2014 Credit Facilities"). The Term Loan Facility was issued at a \$3 million or 1.0% discount. In addition, the Company recorded deferred financing fees associated with the issuance of the 2014 Credit Facilities of \$5.8 million in aggregate, of which \$3.2 million was paid to lenders. The Company is amortizing the debt discount and deferred financing fees over the respective contractual terms of the 2014 Credit Facilities.

The Company's Term Loan debt is presented in the Condensed Consolidated Balance Sheets, net of the unamortized discount and deferred financing fees. Net borrowings as of April 29, 2017 and April 30, 2016 were as follows:

(in thousands)	April 29, 2017	April 30, 2016
Borrowings, gross at carrying amount	\$268,250	\$293,250
Unamortized discount	(1,666)	(2,250)
Unamortized fees	(3,231)	(4,385)
Borrowings, net	263,353	286,615
Less: short-term portion of borrowings, net	—	(733)

Long-term portion of borrowings, net \$263,353 \$285,882

The Term Loan Facility will mature on August 7, 2021 and amortizes at a rate equal to 0.25% of the original principal amount per quarter, beginning with the fourth quarter of Fiscal 2014. The Term Loan Facility is subject to (a) beginning in 2016, an annual mandatory prepayment in an amount equal to 0% to 50% of the Company's excess cash flows in the preceding fiscal year, depending on the Company's leverage ratio and (b) certain other mandatory prepayments upon receipt by the Company of proceeds of certain debt issuances, asset sales and casualty events, subject to certain exceptions specified therein, including reinvestment rights, less any voluntary payments made. The Company made a repayment of \$25 million in January 2017, in prepayment of its scheduled Fiscal 2017 through Fiscal 2021 amortization and a portion of the amount of principal due at maturity.

Table of Contents

At the Company's option, borrowings under the Term Loan Facility will bear interest at either (a) an adjusted LIBOR rate no lower than 1.00% plus a margin of 3.75% per annum or (b) an alternate base rate plus a margin of 2.75% per annum. Customary agency fees are also payable pursuant to the Term Loan Facility. The interest rate on borrowings under the Term Loan Facility was 4.75% as of April 29, 2017.

Operating Activities

Net cash used by operating activities was \$84.3 million for the thirteen weeks ended April 29, 2017 compared to \$75.7 million for the thirteen weeks ended April 30, 2016. The year-over-year change in cash flow associated with operating activities was primarily driven by greater net loss net of non-cash adjustments and lease deposits that were returned in the first quarter of Fiscal 2016, partially offset by year-over-year decreases in income tax and incentive compensation payments.

Investing Activities

Cash outflows for investing activities for the thirteen weeks ended April 29, 2017 and April 30, 2016 included capital expenditures of \$32.1 million and \$26.0 million, respectively, primarily for store updates and new stores, as well as direct-to-consumer and omnichannel and information technology investments.

Financing Activities

For the thirteen weeks ended April 29, 2017 and April 30, 2016, cash outflows for financing activities consisted primarily of dividend payments of \$13.6 million and \$13.5 million, respectively.

As of April 29, 2017, A&F had approximately 6.5 million remaining shares available for repurchase as part of the A&F Board of Directors' previously approved authorization.

FUTURE CASH REQUIREMENTS AND SOURCES OF CASH

Over the next twelve months, the Company's primary cash requirements will be to fund operating activities, including the acquisition of inventory, and obligations related to compensation, leases, taxes and other operating activities, as well as to fund capital expenditures, marketing initiatives, quarterly dividends to stockholders subject to approval by A&F's Board of Directors and debt service requirements, including required repayments, if any, based on annual excess cash flows, as defined in the term loan agreement. The Company has availability under the ABL Facility as a source of additional funding.

The Company expects total capital expenditures to be approximately \$100 million for Fiscal 2017, primarily for store updates and new stores, as well as direct-to-consumer and omnichannel and information technology investments to support growth initiatives.

The Company may repurchase shares of its Common Stock and, if it were to do so, would anticipate funding such repurchases by utilizing free cash flow generated from operations or proceeds from the ABL Facility.

As of April 29, 2017, \$289.0 million of the Company's \$421.4 million of cash and equivalents was held by foreign affiliates. The Company is not dependent on dividends from its foreign affiliates to fund its U.S. operations or pay dividends to A&F's stockholders. Unremitted earnings from foreign affiliates generally would become subject to U.S. income tax if remitted as dividends or lent to A&F or a U.S. affiliate.

OFF-BALANCE SHEET ARRANGEMENTS

The Company uses, in the ordinary course of business, stand-by letters of credit under the existing ABL Facility. The Company had \$1.8 million in stand-by letters of credit outstanding as of April 29, 2017. The Company has no other off-balance sheet arrangements.

CONTRACTUAL OBLIGATIONS

The Company's contractual obligations consist primarily of operating leases, purchase orders for merchandise inventory, unrecognized tax benefits, certain retirement obligations, lease deposits and other agreements to purchase goods and services that are legally binding and that require minimum quantities to be purchased. These contractual obligations impact the Company's short-term and long-term liquidity and capital resource needs. During the thirteen weeks ended April 29, 2017, there were no material changes in the contractual obligations as of January 28, 2017, with the exception of those obligations which occurred in the normal course of business (primarily changes in the Company's merchandise inventory-related purchases and lease obligations, which fluctuate throughout the year as a result of the seasonal nature of the Company's operations).

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 1, "BASIS OF PRESENTATION--Recent Accounting Pronouncements" of the Notes to Condensed Consolidated Financial Statements included in "ITEM 1. FINANCIAL STATEMENTS," of this Quarterly Report on Form 10-Q for recent accounting pronouncements, including the expected dates of adoption and estimated effects on our Condensed Consolidated Financial Statements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We describe our significant accounting policies in Note 2, "SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES," of the Notes to Consolidated Financial Statements contained in "ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA" of A&F's Annual Report on Form 10-K for Fiscal 2016. We discuss our critical accounting estimates in "ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS", of our Annual Report on Form 10-K for Fiscal 2016. There have been no significant changes in our significant accounting policies or critical accounting estimates since the end of Fiscal 2016.

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

The Company cautions that any forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) contained in this Quarterly Report on Form 10-Q or made by the Company, its management or spokespeople involve risks and uncertainties and are subject to change based on various important factors, many of which may be beyond the Company's control. Words such as "estimate," "project," "plan," "believe," "expect," "anticipate," "intend," and similar expressions may identify forward-looking statements.

The following factors, including the disclosures under the heading "FORWARD-LOOKING STATEMENTS AND RISK FACTORS" in "ITEM 1A. RISK FACTORS" of A&F's Annual Report on Form 10-K for Fiscal 2016, and the disclosures under the heading "ITEM 1A. RISK FACTORS" in Part II of this Quarterly Report on Form 10-Q, in some cases have affected and in the future could affect the Company's financial performance and could cause actual results for Fiscal 2017 and beyond to differ materially from those expressed or implied in any of the forward-looking statements included in this Quarterly Report on Form 10-Q or otherwise made by management:

- changes in global economic and financial conditions, and the resulting impact on consumer confidence and consumer spending, as well as other changes in consumer discretionary spending habits, could have a material adverse effect on our business, results of operations and liquidity;
- our inability to anticipate customer demand and changing fashion trends and to manage our inventory commensurately could adversely impact our sales levels and profitability;
- our market share may be negatively impacted by increasing competition and pricing pressures from companies with brands or merchandise competitive with ours;
- direct-to-consumer sales channels are a significant component of our growth strategy, and the failure to successfully develop our position in these channels could have an adverse impact on our results of operations;
- our ability to conduct business in international markets may be adversely affected by legal, regulatory, political and economic risks;
- our inability to successfully implement our strategic plans could have a negative impact on our growth and profitability;
- our failure to protect our reputation could have a material adverse effect on our brands;
- our business could suffer if our information technology systems are disrupted or cease to operate effectively;
- we may be exposed to risks and costs associated with cyber-attacks, credit card fraud and identity theft that would cause us to incur unexpected expenses and reputation loss;
- fluctuations in foreign currency exchange rates could adversely impact our financial condition and results of operations;
- changes in the cost, availability and quality of raw materials, labor, transportation and trade relations could cause manufacturing delays and increase our costs;
- we depend upon independent third parties for the manufacture and delivery of all our merchandise, and a disruption of the manufacture or delivery of our merchandise could result in lost sales and could increase our costs;
- our ability to attract customers to our stores depends, in part, on the success of the shopping malls or area attractions that our stores are located in or around;
 - we rely on the experience and skills of our senior executive officers, the loss of whom could have a material adverse effect on our business;
- our reliance on DCs makes us susceptible to disruptions or adverse conditions affecting our supply chain;
- our litigation exposure could have a material adverse effect on our financial condition and results of operations;
- our inability or failure to adequately protect our trademarks could have a negative impact on our brand image and limit our ability to penetrate new markets;
- fluctuations in our tax obligations and effective tax rate may result in volatility in our operating results;
-

extreme weather conditions and the seasonal nature of our business may cause net sales to fluctuate and negatively impact our results of operations;

our facilities, systems and stores, as well as the facilities and systems of our vendors and manufacturers, are vulnerable to natural disasters, pandemic disease and other unexpected events, any of which could result in an interruption to our business and adversely affect our operating results;

the impact of war or acts of terrorism could have a material adverse effect on our operating results and financial condition;

changes in the regulatory or compliance landscape could adversely affect our business and results of operations;

our Asset-Based Revolving Credit Agreement and our Term Loan Agreement include restrictive covenants that limit our flexibility in operating our business; and,

compliance with changing regulations and standards for accounting, corporate governance and public disclosure could adversely affect our business, results of operations and reported financial results.

This list of important factors is not exclusive.

Table of Contents

Future economic and industry trends that could potentially impact revenue and profitability are difficult to predict. Therefore, there can be no assurance that the forward-looking statements included in this Quarterly Report on Form 10-Q will prove to be accurate. In light of the significant uncertainties in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company, or any other person, that the objectives of the Company will be achieved. The forward-looking statements included herein are based on information presently available to the management of the Company. Except as may be required by applicable law, the Company assumes no obligation to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Investment Securities

The irrevocable rabbi trust (the “Rabbi Trust”) is intended to be used as a source of funds to match respective funding obligations to participants in the Abercrombie & Fitch Co. Nonqualified Savings and Supplemental Retirement Plan I, the Abercrombie & Fitch Co. Nonqualified Savings and Supplemental Retirement Plan II and the Supplemental Executive Retirement Plan. The Rabbi Trust assets primarily consist of trust-owned life insurance policies which are recorded at cash surrender value. The change in cash surrender value of the trust-owned life insurance policies held in the Rabbi Trust resulted in realized gains of \$0.8 million for each of the thirteen weeks ended April 29, 2017 and April 30, 2016, respectively, which are recorded in interest expense, net on the Condensed Consolidated Statements of Operations and Comprehensive Loss.

The Rabbi Trust assets are included in other assets on the Condensed Consolidated Balance Sheets as of April 29, 2017 and January 28, 2017, and are restricted in their use as noted above.

Interest Rate Risks

The Company has approximately \$268.3 million in gross borrowings outstanding under its term loan facility (the “Term Loan Facility”) and no borrowings outstanding under its senior secured revolving credit facility (the “ABL Facility” and, together with the Term Loan Facility, the “2014 Credit Facilities”). The 2014 Credit Facilities carry interest rates that are tied to LIBOR, or an alternate base rate, plus a margin. The interest rate on the Term Loan Facility has a 100 basis point LIBOR floor, and assuming no changes in the Company’s financial structure as it stands, an increase in market interest rates of 100 basis points would increase annual interest expense by approximately \$2.7 million. This hypothetical analysis for the fifty-three weeks ending February 3, 2018 may differ from the actual change in interest expense due to various conditions which may result in changes in interest rates under the Company’s 2014 Credit Facilities.

Foreign Exchange Rate Risk

A&F’s international subsidiaries generally operate with functional currencies other than the U.S. Dollar. Since the Company’s Condensed Consolidated Financial Statements are presented in U.S. Dollars, the Company must translate revenues, expenses, assets and liabilities from functional currencies into U.S. Dollars at exchange rates in effect during or at the end of the reporting period. The fluctuation in the value of the U.S. Dollar against other currencies affects the reported amounts of revenues, expenses, assets and liabilities. The potential impact of currency fluctuation increases as international expansion increases.

A&F and its subsidiaries have exposure to changes in foreign currency exchange rates associated with foreign currency transactions and forecasted foreign currency transactions, including the sale of inventory between subsidiaries and foreign-currency-denominated assets and liabilities. The Company has established a program that primarily utilizes foreign currency exchange forward contracts to partially offset the risks associated with the effects of certain foreign currency transactions and forecasted transactions. Under this program, increases or decreases in foreign currency exposures are partially offset by gains or losses on forward contracts, to mitigate the impact of foreign currency gains or losses. The Company does not use forward contracts to engage in currency speculation. All outstanding foreign currency exchange forward contracts are recorded at fair value at the end of each fiscal period.

Table of Contents

The fair value of outstanding foreign currency exchange forward contracts included in other current assets was \$2.4 million and \$6.0 million as of April 29, 2017 and January 28, 2017, respectively. The fair value of outstanding foreign currency exchange forward contracts included in accrued expenses was \$1.2 million and \$0.5 million as of April 29, 2017 and January 28, 2017, respectively. Foreign currency exchange forward contracts are sensitive to changes in foreign currency exchange rates. The Company assessed the risk of loss in fair values from the effect of a hypothetical 10% devaluation of the U.S. Dollar against the exchange rates for foreign currencies under contract. The results would decrease derivative contract fair values by approximately \$14.8 million. As the Company's foreign currency exchange forward contracts are primarily designated as cash flow hedges of forecasted transactions, the hypothetical change in fair value would be largely offset by the net change in fair values of the underlying hedged items.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

A&F maintains disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to provide reasonable assurance that information required to be disclosed in the reports that A&F files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to A&F's management, including the principal executive officer and the principal financial officer, as appropriate to allow timely decisions regarding required disclosures. Because of inherent limitations, disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of disclosure controls and procedures are met.

A&F's management, including the Chief Executive Officer (who serves as Principal Executive Officer) and the Executive Vice President, Chief Operating Officer and Chief Financial Officer of A&F (who serves as Principal Financial Officer and Principal Accounting Officer of A&F), evaluated the effectiveness of A&F's design and operation of its disclosure controls and procedures as of the end of the fiscal quarter ended April 29, 2017. The Chief Executive Officer (in such individual's capacity as the Principal Executive Officer of A&F) and the Executive Vice President, Chief Operating Officer and Chief Financial Officer of A&F (in such individual's capacity as the Principal Financial Officer of A&F) concluded that A&F's disclosure controls and procedures were effective at a reasonable level of assurance as of April 29, 2017, the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

There were no changes in A&F's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during A&F's fiscal quarter ended April 29, 2017 that materially affected, or are reasonably likely to materially affect, A&F's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is a defendant in lawsuits and other adversary proceedings arising in the ordinary course of business. Legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes reserves for the outcome of litigation where losses are deemed probable and reasonably estimable. The Company's assessment of the current exposure could change in the event of the discovery of additional facts. Actual liabilities may exceed the amounts reserved, and there can be no assurance that final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows. There are certain claims and legal proceedings pending against the Company for which accruals have not been established.

ITEM 1A. RISK FACTORS

The Company's risk factors as of April 29, 2017 have not changed materially from those disclosed in Part I, "ITEM 1A. RISK FACTORS" of A&F's Annual Report on Form 10-K for Fiscal 2016.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no sales of equity securities during the first quarter of Fiscal 2017 that were not registered under the Securities Act of 1933.

The following table provides information regarding the purchase of shares of Common Stock of A&F made by or on behalf of A&F or any "affiliated purchaser" as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, during each fiscal month of the thirteen weeks ended April 29, 2017:

Period (Fiscal Month)	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Number of Shares that May Yet Be Purchased under the Plans or Programs ⁽³⁾
January 29, 2017 through February 25, 2017	1,032	\$ 12.07	—	6,503,656
February 26, 2017 through April 1, 2017	150,735	\$ 11.79	—	6,503,656
April 2, 2017 through April 29, 2017	2,264	\$ 11.40	—	6,503,656
Total	154,031	\$ 11.79	—	6,503,656

All of the 154,031 shares of A&F's Common Stock purchased during the thirteen weeks ended April 29,

⁽¹⁾ 2017 represented shares which were withheld for tax payments due upon the exercise of employee stock appreciation rights and vesting of employee restricted stock units.

No shares were repurchased during the thirteen weeks ended April 29, 2017 pursuant to A&F's publicly announced

⁽²⁾ stock repurchase authorization. On August 14, 2012, A&F's Board of Directors authorized the repurchase of 10.0 million shares of A&F's Common Stock, which was announced on August 15, 2012.

The number shown represents, as of the end of each period, the maximum number of shares of A&F's Common

⁽³⁾ Stock that may yet be purchased under A&F's publicly announced stock repurchase authorization described in footnote 2 above. The shares may be purchased, from time-to-time, depending on market conditions.
