PART I

ITEM 1. DESCRIPTION OF BUSINESS

Dalrada Financial Corporation (OTCBB symbol: DRDF) ("DRDF" or the "Company") was incorporated in March 1982 under the laws of the State of California, and reincorporated in May 1983 under the laws of the State of Delaware. The Company's principal executive offices are located at 9949 Balboa Avenue, Suite 210, San Diego, CA 92123. The Company's main phone number is (858) 277-5300.

We provide a variety of financial, staffing, and human resources services to small and medium-size businesses. These services allow our customers to outsource many human resources tasks, including payroll processing, workers' compensation insurance, health insurance and employee benefits. These financial services relieve existing and potential customers of the burdens associated with personnel management and control.

DRDF provides services through its wholly-owned subsidiaries and division, SourceOne Group, Inc. ("SOG"), Master Staffing and Heritage Staffing; in addition, through The Solvis Group, Inc., ("Solvis") a 90% owned subsidiary that includes several operating units, including CallCenterHR(TM), Worldwide of California, and M&M Nursing. These companies and business units provide a broad range of financial services, including: benefits and payroll administration, health and workers' compensation insurance programs, personnel records management, employer liability management, and temporary staffing services, to small and medium-sized businesses.

In January 2003, we completed the acquisition of a controlling interest approximating 88% of the shares of Greenland Corporation, whose shares were traded on the NASD Electronic Bulletin Board under the symbol GRLC. Subsequently, in March 2004, due to disagreements with Greenland's management, we entered into an agreement with Greenland to return most of our shares in Greenland in return for Greenland's forgiveness of certain DRDF indebtedness and business opportunities. Greenland is not longer affiliated with Dalrada.

In January 2003, we completed the acquisition of a controlling in the shares of Quik Pix, Inc. ("QPI"), located in Anaheim, California. QPI shares are traded on the National Quotation Bureau Pink Sheets(R) under the symbol QPIX. At the time of acquisition, QPI's principal business was providing products and services associated with visual marketing support. At that time, QPI's major source of revenues is in developing and mounting photographic and digital images for use in display advertising for tradeshows and customer building interiors. QPI also has a proprietary product PhotoMotion(TM), which is a patented color medium of multi-image transparencies. The process uses existing originals to create the illusion of movement, and allows for three to five distinct images to be displayed with an existing lightbox.

In July 2005, QPI acquired Solvis from DRDF and changed its name to The

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

Solvis Group and its trading symbol to SLVG. Solvis principally serves as a staffing company and provides extensive human resources services. At this time, DRDF owns 90% of Solvis. Also in July 2005, Solvis organized a wholly-owned subsidiary, Imaging Tech, Inc., in order to separately pursue its remaining imaging business.

Market Overview - Financial and Human Resources Services

Our entry into the financial services and human resources business, in November 2001, was through the acquisition of professional employer organizations ("PEO"). We are expanding the services we provide beyond PEO services, including staffing. Our services cover a broad range of services including payroll management, workers' compensation insurance, and safety programs. Expanded products and services are made available to employers and employees, such as payroll debit cards, group health insurance, 401(k) and 125-Flex plans, supplemental insurance, payroll advances, and other value-added benefits.

The burdens placed on small and medium-sized employers by the complex legal and regulatory issues related to human resources management caused our industry segment to grow beginning in the 1980's. While various service providers have been available to assist these businesses with specific tasks, companies like ours emerged as providers of a more comprehensive range of services relating to the employer/employee relationship. Integral to our client relationships, we assume broad aspects of the employer/employee relationship. Because we provide employee-related services to a large number of employees, we provide economies of scale that provide our clients employment-related functions more efficiently, provide a greater variety of employee benefits, and devote more attention to human resources management.

-2-

We believe that the demand for our services is driven by (1) the trend by small and medium-sized businesses toward outsourcing management tasks outside of core competencies; (2) the difficulty of providing competitive health care and related benefits to attract and retain employees; (3) the increasing costs of health and workers' compensation insurance coverage and workplace safety programs; and (4) complex regulation of labor and employment issues and the related costs of compliance.

Market Overview - Imaging Products

We continue to operate a business unit (Imaging Tech, Inc., a wholly-owned subsidiary of The Solvis Group) to market our proprietary imaging products and to provide photographic services to selected clientele.

ColorBlind software is a suite of software applications, which allow users to build color profiles of images in order to insure accurate output on digital devices such as printers, plotters, scanners, monitors, and cameras.

Color integrity is an important underlying requirement in the imaging process. The widespread use of color applications at the desktop, demand for higher quality color reproduction, expanded use of the Internet for document dissemination and e-commerce, growth of office networks, and the increased acceptance and use of digital photography are some of the factors that influence our markets.

Photomotion is a patented process for adding multiple images to backlit static displays that appear to change as the viewer passes by the image. The Photomotion process uses existing original art to create an illusion of

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

movement; and allows for separate and distinct image displays. It allows for three to five distinct images to be displayed within an existing light box. Images appear to change or "morph" as the viewer passes the display.

We offer a spectrum of services allowing a client to produce color visuals (digital and photographic) according to parameters as specified by a client. We also offer a full range of color laboratory reproduction services.

The market for Photomotion and color reproduction services is large. The products are especially useful in point-of-purchase displays, indoor display advertising, and trade show exhibits and displays. To date, marketing has been limited to targeted customers such as beverage companies, casinos, sports arenas, and other specialty clients.

Business Strategy

Financial and Human Resources Services

Our business provides a broad range of services associated with human resources management. These include benefits and payroll administration, health and workers' compensation insurance programs, other benefits programs, personnel records management, employer liability management, employee recruiting and selection, performance management, and training and development services.

Administrative Functions. We perform a wide variety of processing and record keeping tasks, mostly related to payroll administration and government compliance. Specific examples include payroll processing, payroll tax deposits, quarterly payroll tax reporting, employee file maintenance, unemployment claims processing, workers' compensation claims management and reporting, safety programs, and other benefits administration..

Workers' Compensation. We provide workers' compensation insurance through independent carriers and coordinate rates, compliance, claims, safety programs, and medical review. We provide coverage through an A-rated national carrier and take responsibility for payment of premiums and the deposit of adequate reserves against claims.

Benefit Plans Administration. We sponsor benefit plans including individual and group health coverage, 401(k) and 125-Flex plans, and others. We are responsible for the costs and premiums associated with these plans, act as plan sponsor and administrator of the plans, negotiate the terms and costs of the plans, maintain the plans in accordance with applicable federal and state regulations, and serve as liaison for the delivery of such benefits to worksite employees.

Personnel Management. We provide a variety of personnel management services, which provide our client companies access to resources normally found in the human resources departments of larger companies. Our client companies will have access to a personnel guide, which will set forth a systematic approach to administering personnel policies and practices and can be customized to fit a client company's particular work culture/environment.

-3-

Employer Liability Management. We assume many employment-related responsibilities associated with administrative functions and benefit plans administration. Upon request, we can also provide our clients guidance on

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

avoiding liability for discrimination, sexual harassment, and civil rights violations. We employ counsel specializing in employment law.

Service Staffing and/or Services Agreement. All clients we serve sign a service staffing agreement and/or services agreement ("Client Agreement"), which establishes our service fee. The client agreement is subject to periodic adjustments to account for changes in the composition of the associated workforce and statutory changes that affect our costs. Our client agreement establishes the division of responsibilities between us and client management at the employee worksite. We are responsible for personnel administration and are liable for certain employment-related government regulation. In addition, we assume liability for payment of salaries, wages (including payroll taxes), and employee benefits of worksite employees. Client company management retains the employees' services and remains liable for the purposes of certain government regulations.

Our business represents a distribution channel for a wide variety of employer and employee benefit programs such as 401(k) plans, 125-Flex plans, legal services, tax consulting, payroll advances, and insurance programs. Our intention is to expand our business through offering a variety of financial services.

Our business is growing rapidly, but profit margins are small. Consequently, profitability depends on (1) economies of scale leading to greater operating efficiencies; and (2) value-added services such as training, education, Internet support, and other services that may be used by employers and employees.

The income model for the service segment of our business generally revolves around fees charged per employee. While gross profit is low, gross revenues are generally substantial. To this end, the Company intends to pursue acquisitions of small firms and strategic alliances with similar companies as ours.

We evaluate our business as one segment even though our staffing and human resources services and products are offered under various brand names.

Imaging Products and Services

We continue to provide imaging products and services through the Imaging Tech subsidiary of The Solvis Group subsidiary. This business segment includes our proprietary ColorBlind color management software, our patented Photomotion visual images, and photographic services.

Accurate color reproduction is one of the largest single challenges facing the imaging industry. Customers demand systems that are easy to use, predictable and consistent. A color management system is needed so users can convert files for use with different devices. The varying characteristics of each device are captured in a device profile. The International Color Consortium ("ICC") has established a standard for the format for these profiles.

ColorBlind(R) color management software is a pre-packaged suite of applications, utilities, and tools that allow users to precisely create ICC profiles for each device in the color workflow including scanners, monitors, digital cameras, printers, and other specialized digital color input and output devices. Once profiled, ColorBlind balances these profiles to produce accurate, consistent, and reliable color rendering from input to output. ColorBlind software is sold as a stand-alone application or licensed to OEM's for resale to be bundled with peripheral devices.

We operate an internet site, color.com, as a resource center to provide information on the highest quality correct color. This site allows consumers to

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

purchase our products, including ColorBlind software; and serves as an information resource for color imaging, including white papers on color imaging and management, links to color consultants and experts, and products.

Photomotion Images(TM) are based upon patented technology. The resulting product is a unique color medium that uses existing original images to create the illusion of movement or multiple static displays that allow three to five distinct images to be displayed in an existing light box. The images appear to change, or "morph," as a viewer passes the display. This ability to put multiple images in a single space, without the need for mechanical devices, allows for the creation of an active and entertaining display. The product is currently marketed in the U.S., Europe, Asia and Latin America.

Visual marketing, including out-of-home media, is a large and growing, multi-billion dollar worldwide industry. An industry survey suggests that the field of visual marketing will increase at a rate of 50% annual for the next ten years. Out-of-home media plays a critical role in the media plans of national and international advertisers.

-4-

Competition

The financial and human resources services business is highly competitive, with over 800 firms operating in the U.S. There are several firms that operate on a nationwide basis with revenues and resources far greater than ours. Some large PEO companies are owned by insurance carriers and some are public companies whose shares trade on Nasdaq, including Administaff, Inc., Team Staff, Inc., Barrett Business Services, and Staff Leasing, Inc. Also see "Risks and Uncertainties."

The markets for our imaging products and services are also highly competitive and rapidly changing. Our ability to compete in our markets depends on a number of factors, including the success and timing of product and services introductions by us and our competitors, selling prices, performance, distribution, marketing ability, and customer support. A key element of our strategy is to provide competitively-priced, quality products and services.

Operations

Our corporate headquarters facility in San Diego, California houses most of our administrative operations. Human resource services operations are conducted from the Company's headquarters offices and small branch offices in Michigan and Anaheim California.

Manufacturing, Production, and Sources of Supply

We manufacture our software products in-house and through selected outside vendors. Also see "Risks and Uncertainties."

Research and Development

Some of our imaging products are characterized by rapidly evolving technology, frequent new product introductions, and significant price competition. Accordingly, we monitor new technology developments and coordinate with suppliers, distributors and dealers to enhance existing products and to lower costs. Advances in technology require ongoing investment. We have entered into no formal projects in research and development for several years; however, we do make modifications to existing products on an as-needed basis to maintain their currency. Also see "Risks and Uncertainties."

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

Intellectual Property

Our software products are copyrighted. However, copyright protection does not prevent other companies from emulating the features and benefits provided by our software. We protect our software source code as trade secrets and make our proprietary source code available to OEM customers only under limited circumstances and specific security and confidentiality constraints. Imaging Tech, Inc. (The Solvis Group) holds the patent for Photomotion Images. Technology products exist in a rapidly changing business environment. Consequently, we believe the effectiveness of patents, trade secrets, and copyright protection is less important in influencing long term success than the experience of our employees and our contractual relationships. Due to lack of sales of the Photomotion Images, Dalrada intends to fully write-off the value of the related patent at fiscal June 2005 year end. The book value is approximately \$1.6 million.

We have obtained U.S. registration for several of our trade names or trademarks, including ColorBlind, Photomotion Images, MedicalHR, CallCenterHR, SourceOne Group, and The Benefits Bank. These trade names are used to distinguish our products and services in the markets we serve. During fiscal 2005 the Company elected to fully reserve for the costs of the patents.

If we fail to establish that we have not violated the asserted rights, we could be prohibited from marketing the associated product and/or services, and we could be liable for damages. We rely on a combination of trade secret, copyright and trademark protection, and non-disclosure agreements to protect our proprietary rights. Also see "Risks and Uncertainties."

Employees

Our Company (including subsidiaries, but not including employees pursuant to staffing and/or co-employer client contracts) employed a total of 50 individuals worldwide as of August 31, 2005. Of this number, 10 were involved in sales and marketing, 8 in corporate administration and finance, 30 were in human resources, payroll, and benefits administration, and 2 in engineering and technical support. There is no union representation for any of our employees.

-5-

Government Regulation

While many states do not explicitly regulate companies like ours, over 20 states have passed laws that have licensing or registration requirements for professional employer organizations ("PEO"), which is a component of our business. Such laws vary from state to state, but generally provide for monitoring the fiscal responsibility of PEOs and, in some cases, codify and clarify the co-employment relationship for unemployment, workers' compensation, and other purposes under state law. We estimate that the annual costs of compliance with these regulations is approximately \$250,000.

ITEM 2. DESCRIPTION OF PROPERTY

DRDF owns no real property. Dalrada leases the facility at 9449 Balboa Avenue, Suite 210, San Diego, California, 92123. This is a new five year lease entered into on August 3, 2005 by the Christianson Group, a wholly-owned subsidiary.. The facility is approximately 5,397 square feet and will serve as our new corporate headquarters. Payments under the lease are currently \$10.8 thousand per month.

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

Dalrada's, Source One Goup, Inc. subsidiary, leases the facility at 1520 Lewis Street, Anaheim California. This is a month-to-month agreement entered into on December 15, 2004 with Employment Systems, Inc.. The facility is approximately 10,000 square feet. Payments under the lease are currently \$2 thousand per month.

Dalrada's, The Solvis Group subsidiary leases the facility at 1520 Lewis Street, Anaheim, California. This is month-to-month agreement entered on December 15, 2004. The facility is approximately 10,000 square feet. Payments under the lease are currently \$6 thousand per month.

ITEM 3. LEGAL PROCEEDINGS

The Company and its SourceOne Group ("SOG") subsidiary have been sued by the Arena Football 2 Operating Company, LLC ("Arena") in Wayne County Circuit Court, Michigan. The claims made by Arena against the Company and SOG are that SOG failed to perform under an agreement to procure and furnish workers' compensation insurance and that Arena incurred alleged damages in an amount no less than \$709 as a result. Management has vigorously contested the claims made by Arena. In addition, the Company has filed claims against Arena and Arena's agent, Thilman and Filippini, based on, among other things, the representations made to SOG that let it to enter into the agreement with Arena. The case remains in the discovery phase.

The Company and SOG have been sued by Liberty Mutual Insurance Company ("Liberty") in the United States District Court for the Northern District of Illinois. The nature of the specific claims made by Liberty against the Company and SOG are that the Company and SOG were and are obligated to make additional premium payments to Liberty for workers' compensation insurance, which is related to the Arena litigation described above. The initial claim by Liberty was estimated by Liberty to be \$829 and is now claimed to exceed \$1,000. Management has vigorously contested the claims made by Liberty. The case remains in the discovery phase.

On February 10, 2005, Berryman & Henigar Enterprises ("Plaintiff"), filed a complaint in the Superior Court of California, County of San Diego, Case No. GIC842610, against Warning Model Management, Inc. for breach of a promissory note issued pursuant to terms and conditions of a certain stock purchase and sale agreement dated September 9, 2004. The Company and its subsidiary, Employment Systems, Inc. ("ESI"), each allegedly guaranteed payments on the underlying promissory note. Plaintiff seeks principal damages of \$750,000.00 in that regard. Warning Model Management, Inc. has taken the position that Plaintiff failed to disclose certain material information in the underlying transaction which thereby negates the promissory note. As such, the guarantees allegedly provided by the Company and ESI could thereby be invalidated. Discovery has commenced but is not complete at this time. Trial has not been set. Management has fully cooperated in our investigation of the facts and we intend to defend against the claims asserted. This Company has reached a verbal settlement with the plaintiff., pending the completion of the signed agreement.

On March 17, 2005, Greenland Corporation ("Plaintiff"), filed an amended complaint in the Superior Court of California, County of San Diego, Case No. GIC842605, against the Company and multiple other individuals and entities resulting from a transaction as evidenced by the "Agreement to Acquire Shares" dated August 9, 2002, whereby the Company obtained a controlling equity interest in Plaintiff. Plaintiff contends that the Company engaged in various forms of wrongdoing including breach of fiduciary duty, conversion, conspiracy and aiding and abetting. Discovery has commenced but is not complete at this time. Trial has not been set. Management has fully cooperated in our investigation of the facts and we intend to continue with vigorous defense against the claims asserted.

On August 29, 2005, United Bank & Trust filed suit against the Company and other parties. The allegations of the lawsuit are that the Company guaranteed certain debt owed by InfoServices, Inc. and is liable in the amount of \$678. The case is in its early stages and discovery has not yet commenced. However, the Company intends to vigorously defend itself against the claims asserted.

On September 7, 2005, the arbitrator from the American Arbitration Association awarded to Accord Human Resources a judgment against Greenland Corporation and the Company as the guarantor, an amount equaling \$168. Legal counsel has estimated that the claim could amount to as much as \$214. The Company has reserved \$200 for the claim.

Throughout fiscal 2004 and 2005, and through the date of this filing, trade creditors have made claims and/or filed actions alleging the failure of the Company to pay its obligations to them in a total amount exceeding \$3,000. These actions are in various stages of litigation, with many resulting in judgments being entered against the Company. Several of those who have obtained judgments have filed judgment liens on the Company's assets. These claims range in value from less than one thousand dollars to just over one million dollars, with the great majority being less than twenty thousand dollars.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITIES HOLDERS

ANNUAL MEETING OF STOCKHOLDERS HELD ON MAY 14, 2004

Notice was given and the 2004 Annual Meeting of Stockholders of DALRADA FINANCIAL CORPORATION, formerly Imaging Technologies Corporation, was held at 9449 Balboa Avenue, Suite 211, San Diego, California 92123, at 10 a.m., local time, to where upon the following proposals were approved by a majority of the shareholders:

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(IN THOUSANDS, EXCEPT SHARE DATA)

The following discussion and analysis should be read in conjunction with the consolidated financial statements and notes thereto included elsewhere in this Form 10-KSB. The statements contained in this Report on Form 10-KSB that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding our expectations, hopes, intentions or strategies regarding the future. Forward-looking statements include statements regarding: future product or

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

product development; future research and development spending and our product development strategies, and are generally identifiable by the use of the words "may", "should", "expect", "anticipate", "estimates", "believe", "intend", or "project" or the negative thereof or other variations thereon or comparable terminology. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements (or industry results, performance or achievements) expressed or implied by these forward-looking statements to be materially different from those predicted. The factors that could affect our actual results include, but are not limited to, the following: general economic and business conditions, both nationally and in the regions in which we operate; competition; changes in business strategy or development plans; our inability to retain key employees; our inability to obtain sufficient financing to continue to expand operations; and changes in demand for products by our customers.

OVERVIEW

We provide a variety of financial services to small and medium-size businesses. These services allow our customers to outsource many human resources tasks, including payroll processing, workers' compensation insurance, health insurance, employee benefits, 401k investment services, personal financial management, and income tax consultation. In November 2001, we began to provide these services to relieve some of the negative impact they have on the business operations of our existing and potential customers. To this end, through strategic acquisitions, we became a professional employer organization ("PEO").

We provide financial services principally through our wholly-owned SourceOne Group, Inc. ("SOG") subsidiary. These units provide a broad range of financial services, including: benefits and payroll administration, health and workers' compensation insurance programs, personnel records management, and employer liability management. Through our Jackson Staffing subsidiary (and MedicalHR and CallCenterHR operating units), we provide temporary staffing services to small and medium-sized businesses - primarily to call centers and medical facilities.

In January 2003, we completed the acquisition of controlling interest (approximately 85%) in the shares of Greenland Corporation whose shares are traded on the NASD Electronic Bulletin Board under the symbol GRLC. Subsequently, in March 2004, we entered into an agreement with Greenland to return most of our shares in Greenland in return for Greenland's forgiveness of certain DRDF indebtedness and business opportunities. We no longer have an affiliation with Greenland Corporation.

In January 2003, we completed the acquisition of a controlling interest (85%) in the shares of Quik Pix, Inc. ("QPI"). QPI shares are traded on the National Quotation Bureau Pink Sheets under the symbol QPIX. QPI is a visual marketing support firm located in Anaheim, California. Its principal service is to provide photographic and digital images mounted for customer displays in tradeshow and other displays. Its principal product, PhotoMotion is a patented color medium of multi-image transparencies. The process uses existing originals to create the illusion of movement, and allows for six to five distinct images to be displayed with an existing lightbox.

In September 2003, we hired two key persons and acquired the operations of the temporary staffing service then owned by Jackson Staffing, LLC. In order to formalize this arrangement, we entered into an acquisition agreement with Jackson Staffing effective September 1, 2003 and accordingly, the financial statements of Jackson Staffing from September 1, 2003 are included in our financial statements.

In April 2004, we transferred our ColorBlind software technology to QPI. ColorBlind software provides color management to improve the accuracy of color reproduction - especially as it relates to matching color between different

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

devices in a network, such as monitors and printers. ColorBlind software products are marketed internationally through direct distribution, resellers, and on the internet through our color.com website.

-12-

Our business continues to experience operational and liquidity challenges. Accordingly, year-to-year financial comparisons may be of limited usefulness now and for the next several periods due to anticipated changes in our business as these changes relate to potential acquisitions of new businesses and changes in products and services.

On June 28, 2004, we completed an acquisition of certain assets of M&M Nursing (M&M"). The purchase price was 5,000,000 shares of our common stock valued at \$31 plus the assumption of \$204 of liabilities. M&M is a temporary staffing agency primarily for nurses.

On April 4, 2005, we completed an acquisition of certain assets of Heritage Staffing Group, Inc. ("Heritage"). The purchase price was \$80 consisting of \$20 in cash, a \$45 note payable to the owner of Heritage and 5,000,000 warrants to purchase shares of DRDF common stock valued at \$14. Heritage is in the temporary staffing business and we acquired certain assets of Heritage to complement our other temporary staffing business.

On May 5, 2005 we established a self-insured worker's compensation program. In connection with this self-insured program, we were required to establish a worker's compensation deposit in the amount of \$2,625. Our maximum exposure under this self-insured worker's compensation program is \$4,200 and we are liable up to \$250 per occurrence. We purchase coverage from a worker's compensation insurer to cover additional losses above the policy limits. We believe that we can expand our staffing business as a result of us establishing this self-insured worker's compensation program

Our current strategy is: to expand our financial services businesses, including PEO services and temporary staffing, and to continue to commercialize imaging technologies, including PhotoMotion Images and ColorBlind color management software through our QPI subsidiary.

To successfully execute our current strategy, we will need to improve our working capital position. The report of our independent auditors accompanying our June 30, 2005 financial statements included elsewhere in this Form 10KSB includes an explanatory paragraph indicating there is a substantial doubt about our ability to continue as a going concern, due primarily to our recent loss from operations, the decreases in our working capital and net worth. In addition, we are late in our filing of payroll tax returns for certain of our PEO divisions and are delinquent on the payment of payroll tax withholdings. We plan to overcome the circumstances that impact our ability to remain a going concern through a combination of achieving profitability, raising additional debt and equity financing, and renegotiating existing obligations. In addition, we will continue to work with the Internal Revenue Service and State taxing Authorities to reconcile and resolve all open accounts and issues.

In recent years, we have been working to reduce costs through the reduction in staff and reorganizing our business activities. Additionally, we have sought to reduce our debt through debt to equity conversions. We continue to pursue the acquisition of businesses that will grow our business.

There can be no assurance that we will be able to complete any additional debt or equity financings on favorable terms or at all, or that any such financings, if completed, will be adequate to meet our capital requirements. Any additional

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

equity or convertible debt financings could result in substantial dilution to our shareholders. If adequate funds are not available, we may be required to delay, reduce or eliminate some or all of our planned activities, including any potential mergers or acquisitions. Our inability to fund our capital requirements would have a material adverse effect on the Company.

SIGNIFICANT ACCOUNTING POLICIES AND ESTIMATES

Management's Discussion and Analysis of Financial Condition and Results of Operations discuss our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, we evaluate our estimates and judgments, including those related to allowance for doubtful accounts, value of intangible assets and valuation of non-cash compensation. We base our estimates and judgments on historical experiences and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our consolidated financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources,

-13-

primarily allowance for doubtful accounts, estimated fair value of equity instruments used for compensation, estimated tax liabilities from PEO operations and estimated liabilities associated with worker's compensation liabilities. These accounting policies are described at relevant sections in this discussion and analysis and in the notes to the consolidated financial statements included elsewhere in this Form 10-KSB.

REVENUE RECOGNITION

PEO SERVICE FEES AND WORKSITE EMPLOYEE PAYROLL COSTS

We recognize our revenues associated with our PEO business pursuant to EITF 99-19 "Reporting Revenue Gross as a Principal versus Net as an Agent." Our revenues are reported net of worksite employee payroll cost (net method). Pursuant to discussions with the Securities and Exchange Commission staff, we changed our presentation of revenues from the gross method to an approach that presents our revenues net of worksite employee payroll costs (net method) primarily because we are not generally responsible for the output and quality of work performed by the worksite employees.

In determining the pricing of the markup component of the gross billings, we take into consideration our estimates of the costs directly associated with our worksite employees, including payroll taxes, benefits and workers' compensation costs, plus an acceptable gross profit margin. As a result, our operating results are significantly impacted by our ability to accurately estimate, control and manage our direct costs relative to the revenues derived from the markup component of our gross billings.

Consistent with our revenue recognition policy, our direct costs do not include

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

the payroll cost of our worksite employees. Our direct costs associated with our revenue generating activities are comprised of all other costs related to our worksite employees, such as the employer portion of payroll-related taxes, employee benefit plan premiums and workers' compensation insurance premiums.

SALES OF PRODUCTS

Revenue is recognized when earned. Our revenue recognition policies are in compliance with all applicable accounting regulations, including American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) 97-2, Software Revenue Recognition, and SOP 98-9, Modification of SOP 97-2, With Respect to Certain Transactions. Revenue from products licensed to original equipment manufacturers is recorded when OEMs ship licensed products while revenue from certain license programs is recorded when the software has been delivered and the customer is invoiced. Revenue from packaged product sales to and through distributors and resellers is recorded when related products are shipped. Maintenance and subscription revenue is recognized ratably over the contract period. When the revenue recognition criteria required for distributor and reseller arrangements are not met, revenue is recognized as payments are received. Provisions are recorded for returns and bad debts. Our software arrangements do not contain multiple elements, and we do not offer post contract support.

TEMPORARY STAFFING

We record gross revenue for temporary staffing. We have concluded that gross reporting is appropriate because we (i) have the risk of identifying and hiring qualified employees, (ii) have the discretion to select the employees and establish their price and duties and (iii) bear the risk for services that are not fully paid for by customers. Temporary staffing revenues are recognized when the services are rendered by our temporary employees. Temporary employees placed by us are our legal employees while they are working on assignments. We pay all related costs of employment, including workers' compensation insurance, state and federal unemployment taxes, social security and certain fringe benefits. We assume the risk of acceptability of our employees to our customers.

RESULTS OF OPERATIONS (IN \$000)

YEAR ENDED JUNE 30, 2005 COMPARED TO YEAR ENDED JUNE 30, 2004

REVENUES

Total revenues were \$19,476 and \$13,526 for the year ended June 30, 2005 and 2004, respectively; an increase of \$5,950 (44%). The principal reason for the increase is due to a full year of revenue from our temporary staffing division for the year ended June 30, 2005 as compared to only ten months for the same period in 2004 and an overall increase in revenue in our staffing division.

-14-

PEO SERVICES

PEO revenues were \$1,930 and \$2,607 for the year ended June 30, 2005 and 2004, respectively; a decrease of \$667 (26%) due primarily to the decrease in our PEO customer base due to an increased focus by us to expand our temporary staffing business.

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

TEMPORARY STAFFING

In September 2003, we entered into an agreement to purchase a temporary staffing business through the organization of CallCenterHR and MedicalHR and the acquisition of Jackson Staffing. In June 2004, we entered into an agreement to purchase certain assets of M&M Nursing, a temporary staffing agency for nurses. During fiscal 2005, Jackson Staffing and M&M Nursing were renamed Solvis Group, Inc. Temporary Staffing revenues were \$17,029 and \$10,119 for the year ended June 30, 2005 and 2004, respectively; an increase of \$6,910 (68%). The principal reason for the increase is due to a full year of revenue from our temporary staffing division for the year ended June 30, 2005 as compared to only ten months for the same period in 2004 and an overall increase in revenue in our staffing division due to our focus to grow this segment of our business.

PRODUCTS

Sales of products were generated principally from our QPI subsidiary. Products revenues were \$447 and \$764 for the year ended June 30, 2005 and 2004, respectively; a decrease of \$317 (41%). The decrease is principally due to lower sales of photographic and digital images through our QPI subsidiary.

SOFTWARE

Software revenues were \$70 and \$36 for the year ended June 30, 2005 and 2004, respectively; an increase of \$34 (94%). Revenues from licenses and royalties for the periods were insignificant.

Royalties and licensing fees vary from quarter to quarter and are dependent on the sales of products sold by OEM customers using our technologies. These revenues continue to decline as we have elected to transfer our ColorBlind software to QPI, which has accelerated product development and begun to implement a more aggressive product sales program.

COST OF PRODUCTS SOLD

Cost of PEO services for the year ended June 30, 2005 and 2004 was \$1,424 (74% of PEO revenues) and \$894 (34% of PEO revenues), respectively. The decrease in gross profit is due primarily to us incurring additional employee benefit related costs.

Costs of temporary staffing for the year ended June 30, 2005 and 2004 was \$15,010 (88% of temporary staffing revenue) and \$9,209 (91% of temporary staffing revenue), respectively. The significant increase is due to the increase in temporary staffing revenue.

Cost of products sold for the year ended June 30, 2005 and 2004 were \$93 (21% of product sales) and \$196 (26% of product sales), respectively.

Cost of software, licenses and royalties for the year ended June 30, 2005 and 2004 were \$3 (4% of software, license and royalties revenue) and \$3 (8% of software, license and royalties revenue), respectively.

OPERATING EXPENSES

Operating expenses for the year ended June 30, 2005 and 2004 were \$5,578 and \$4,196, respectively; an increase of \$1,382 (33%). The increase is due to an overall increase in our business as reflected in the 44% increase in revenues.

During the year ended June 30, 2005, we determined that the cost of the patent was not recoverable and took a write-off related to the patent of \$1,348.

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

OTHER INCOME AND EXPENSE

Interest expense and financing costs for the year ended June 30, 2005 and 2004 was \$1,709 and \$1,930 respectively; a decrease of \$221 (11%). The decrease is principally due to the write off of the unamortized debt discounts associated with the conversion of debentures into common stock for the year ended June 30, 2004 (there were fewer conversions during the year ended June 30, 2005) offset by an increase due to the amount of debt outstanding.

GAIN ON EXTINGUISHMENT OF DEBT

Gain on the extinguishment of debt was \$829 and \$1145 for the year ended June 30, 2005 and 2004, respectively. The amounts related to accounts payable, which had become stale and uncollectible under the Statute of Limitations in the State of California and upon obtaining a legal opinion with respect to the State of California Statute of Limitations.

GAIN FROM RECONCILIATION OF PAYROLL TAX LIABILITES TO TAXING AUTHORITIES

During the year ended June 30, 2005, we recorded as other income an adjustment of accrued PEO payroll taxes payable of \$1,895 resulting from reconciliations of certain liabilities with the Internal Revenue Service and certain State taxing authorities of amounts due for delinquent payment of payroll tax liabilities. We continually updates our estimate of the amount due related to delinquent payroll taxes and penalties as we receive correspondence or settlement agreements with the Internal Revenue Service and State taxing authorities.

LIQUIDITY AND CAPITAL RESOURCES

Historically, we have financed our operations primarily through cash generated from operations, debt financing, and the sale of equity securities. Additionally, in order to facilitate our growth and future liquidity, we have made some strategic acquisitions.

As a result of some of our financing activities, there has been a significant increase in the number of issued and outstanding shares. During the year ended June 30, 2005 and the year ended June 30, 2004, we issued an additional 182,890,125 and 371,126,679 shares, respectively. These shares of common stock were issued primarily for corporate expenses in lieu of cash, for acquisition of businesses, for the conversion of convertible debentures and other debt, and for the exercise of warrants.

As of June 30, 2005, we had negative working capital of \$26,780, a decrease in working capital of \$4,844 since June 30, 2004.

The Company is late on filing payroll tax returns and owes approximately 8.8 million in past due payroll taxes.

Net cash used in operating activities was \$4,351 for the year ended June 30, 2005 as compared to net cash used in activities of \$489 for the prior-year period; a decrease of \$3,862. The principal reason for the decrease was the payment of the worker's compensation premium and the worker's compensation deposit paid during the year ended June 30, 2005.

Cash provided by financing activities was \$4,482 for the year ended June 30, 2005 as compared to \$526 for the year ended June 30, 2004, an increase of \$3,956 from the prior-year period. The primary reason for the increase was the issuance

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

of two notes payable totaling \$3,710 to pay the worker's compensation premium and deposit.

We have no material commitments for capital expenditures. Our 5% convertible preferred stock (which ranks prior to our common stock), carries cumulative dividends, when and as declared, at an annual rate of \$50 per share. The aggregate amount of such dividends in arrears at June 30, 2005, was approximately \$453.

Our capital requirements depend on numerous factors, including market acceptance of our products and services, the resources we devote to marketing and selling our products and services, and other factors. The report of our independent auditors accompanying our June 30, 2005 financial statements includes an explanatory paragraph indicating there is a substantial doubt about our ability to continue as a going concern, due primarily to the decreases in our working capital and net worth.

-16-

CONTINGENT LIABILITY

The Company accrues and discloses contingent liabilities in its consolidated financial statements in accordance with Statement of Financial Accounting Standards ("SFAS") No. 5, Accounting for Contingencies. SFAS No. 5 requires accrual of contingent liabilities that are considered probable to occur and that can be reasonably estimated. For contingent liabilities that are considered reasonably possible to occur, financial statement disclosure is required, including the range of possible loss if it can be reasonably determined. The Company has disclosed in its audited financial statements several issues that it believes are reasonably possible to occur, although it cannot determine the range of possible loss in all cases. As these issues develop, the Company will continue to evaluate the probability of future loss and the potential range of such losses. If such evaluation were to determine that a loss was probable and the loss could be reasonably estimated, the Company would be required to accrue its estimated loss, which would reduce net income in the period that such determination was made.

During the fiscal year ended June 30, 2005 the Company recorded approximately \$463,000 in loss reserves.

OFF-BALANCE ARRANGEMENTS

There are no off balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors, except for the following.. As of September 8, 2004, Warning Management Services, Inc. ("Warning") purchased all of the issued and outstanding shares of Employment Systems, Inc. ("ESI") for \$1,500. The purchase was \$750 cash paid at the closing and a \$750 note payable. In connection with this transaction, the Company agreed to be a guarantor of the \$750 note payable. Our CEO, Brian Bonar, is also the CEO of Warning. As inducement to enter into this guarantee, we were given a non-cancelable 2-year payroll processing contract with ESI. Currently the \$750 note payable is in dispute. Warning is claiming that certain representations made by ESI were not correct and is proposing that the purchase price be reduced, thus reducing the \$750 note payable to \$258. Management has evaluated this contingent liability and has determined that no loss is anticipated as a result of this guarantee.

ITEM 7. Financial Statements

The report of our independent auditors and our financial statements are set forth in this report beginning on Page F-1.

ITEM 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

On September 3, 2003, the Registrant appointed Pohl, McNabola, Berg & Company, LLP ("PMBC") as Dalrada Financial Corporation's ("DRDF," the "Registrant", or the "Company") independent auditors upon the recommendation of its Audit Committee.

ITEM 8A. Controls and Procedures.

(a) Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the period ended June 30, 2005, covered by this annual report (the "Evaluation Date"), and based on such evaluation, such officers have concluded, as of the Evaluation Date, that our disclosure controls and procedures were not effective in ensuring that all information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms.

The material weaknesses in internal control over financial reporting resulting from the Chief Executive Officer and Chief Financial Officer's evaluation are described below. In addition there are inherent limitations to the effectiveness of any system of disclosure controls and procedures. Even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

(b) Except as described below, during our fourth quarter of fiscal 2005, there were no changes made in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

-17-

Attached as Exhibits 31.1 and 31.2 to this annual report are certifications of the Chief Executive Officer and Chief Financial Officer required in accordance with Rule 13a-14(a) of the Exchange Act. This portion of the Company's annual report includes the information concerning the controls evaluation referred to in the certifications and should be read in conjunction with the certifications for a more complete understanding of the topics presented.

In conjunction with their audit of our fiscal year 2005 consolidated financial statements, PMB & Co., LLP (PMB), the Company's independent registered public accounting firm, identified and orally reported to management and the Audit Committee the material weaknesses under standards established by the Public Company Accounting Oversight Board (PCAOB). A material weakness is a significant

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Company's ability to initiate, authorize, record, process, or report external financial data reliably in accordance with generally accepted accounting principles such that there is a more than a remote likelihood that a misstatement of the company's annual or interim financial statements that is more than inconsequential will not be prevented or detected.

The material weaknesses were identified as:

(1) Planning and implementation of the Company's Accounting System; (2) Financial Statement closing process; (3) Ineffective Information Technology control environment, including the design of the Company's information security and data protection controls; (4) Untimely detection and assessment of impairment of intangible assets (i.e., patents where indicators of impairment are present; (5) Inadequate review of the valuation of certain payroll tax liabilities that resulted in post-closing journal entries to properly reflect the Company's payroll tax liabilities; (6) Proper recording of conversion of debt into shares of common stock, including the ability of certain managers to record journal entries without adequate review or supporting documentation and an inability by management to adequately review the issuance of common stock; and, (7) Lack of the necessary depth of personnel with sufficient technical accounting experience with U.S. GAAP to perform an adequate and effective secondary review of technical accounting matters. The Company will continue to evaluate the material weaknesses and will take all necessary action to correct the internal control deficiencies identified. The Company will also further develop and enhance its internal control policies, procedures, systems and staff to allow it to mitigate the risk that material accounting errors might go undetected and be included in its consolidated financial statements.

The Company contemplates undertaking a thorough review of its internal controls as part of the Company's preparation for compliance with the requirements under Section 404 of the Sarbanes-Oxley Act of 2002 and the Company is using this review to further assist in identifying and correcting control deficiencies. At this time, the Company has not completed its review of the existing controls and their effectiveness. Unless and until the material weaknesses described above, or any identified during this review, are completely remedied, evaluated and tested, there can be no assurances that the Company will be able to assert that its internal control over financial reporting is effective, pursuant to the rules adopted by the SEC under Section 404, when those rules take effect.

AUDIT COMMITTEE FINANCIAL EXPERT

The Audit Committee of the Board of Directors consists of Mr. Dietrich and Dr. Green, both of whom are independent and qualify as financial experts under SEC regulations.

COMPLIANCE WITH SECTION 16 OF THE SECURITIES EXCHANGE ACT OF 1934

Section 16(a) of the Securities Exchange Act of 1934 requires DRDF's directors and executive officers, and persons who own more than 10% of a registered class of DRDF's equity securities to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of Common Stock and other DRDF equity securities. Officers, directors and greater than 10% shareholders are required by SEC regulations to furnish DRDF with copies of all Section 16(a) forms they file.

To DRDF's knowledge, based solely on its review of the copies of such reports furnished to the company and written representations that no other reports were required during the fiscal year ended June 30, 2005, all Section 16(a) filing requirements applicable to its officers, directors and greater than 10% beneficial owners were complied with.

BUSINESS ETHICS CONFLICTS OF INTERESTS POLICY

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
Dalrada Financial Corporation
San Diego, California

We have audited the accompanying consolidated balance sheet of Dalrada Financial Corporation and Subsidiaries as of June 30, 2005, and the related consolidated statements of operations, stockholders' deficit and cash flows for years ended June 30, 2005 and 2004. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Dalrada Financial Corporation and Subsidiaries as of June 30, 2005 and the consolidated results of their operations and their consolidated cash flows for each of the years ended June 30, 2005 and 2004, in conformity with accounting principles generally accepted in the United States of America.

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the accompanying consolidated financial statements, for the year ended June 30, 2005 the Company experienced a net loss from continuing operations of \$4,218,000 and as of June 30, 2005, the Company had a negative working capital deficit of \$26,780,000 and had a negative stockholders' deficit of \$24,695,000. In addition, the Company is in default on certain note payable obligations and is being sued by numerous trade creditors for nonpayment of amounts due. The Company is also deficient in its payments relating to payroll tax liabilities. These conditions raise substantial doubt about its ability to continue as a going concern. Management's plan in regard to these matters is also discussed in Note 1. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2005 AND 2004
(in thousands, except share information)

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements include the accounts of Dalrada Financial Corporation ("DRDF" or the "Company"), incorporated under the laws of the state of California in March 1982 and subsequently reincorporated under the laws of the state of Delaware in May 1983, and its following active subsidiaries (there are ten inactive subsidiaries not listed):

- a) SourceOne Group, Inc., ("SourceOne") - 100% owned by DRDF;
- b) The Christianson Group ("TCG") - 100% owned by DRDF;
- c) Quik Pix, Inc. ("QPI") - 85% owned by DRDF.

During the year ended June 30, 2005, the Company contributed its wholly-owned subsidiary, Solvis Group, Inc. ("Solvis") f/k/a Jackson Staffing, Inc. to QPI. As of June 30, 2005, Solvis is a wholly-owned subsidiary of QPI.

All significant intercompany accounts and transactions have been eliminated.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. For the year ended June 30, 2005, the Company experienced a net loss from continuing operations of \$4,218 and as of June 30, 2005, the Company had a negative working capital deficit of \$26,780 and had a negative stockholders' deficit of \$24,695. In addition, the Company is in default on certain note payable obligations, delinquent on payroll tax obligations and is being sued by numerous trade creditors for nonpayment of amounts due. The Company is also delinquent in its payments relating to payroll tax liabilities. These conditions raise substantial doubt about its ability to continue as a going concern. Management believes that it can continue to raise debt and equity financing to support its operations.

Nature of Business

The Company business operations are as follows:

- a) The Company is a professional employer organization (PEO) that provides comprehensive personnel management services including benefits and payroll administration, medical and workers'

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

compensation insurance programs, personnel records management, and employer liability management;

- b) The Company also develops and mounts photographic and digital images for use in display advertising for tradeshow, building interiors, and other point-of-sale locations; and
- c) The Company is a provider of temporary staffing services that includes providing all related costs of employment, such as workers' compensation insurance, state and federal unemployment taxes, social security and certain fringe benefits.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED JUNE 30, 2005 AND 2004 (in thousands, except share information)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported periods. Significant estimates made by the Company's management include but are not limited to recoverability of property and equipment, payroll tax liabilities, reserves for contingent liabilities and deferred taxes. Actual results could materially differ from those estimates.

Revenue Recognition

PEO SERVICE FEES AND WORKSITE EMPLOYEE PAYROLL COSTS

The Company recognizes its revenues associated with its PEO business pursuant to EITF 99-19 "Reporting Revenue Gross as a Principal versus Net as an Agent." The Company's revenues are reported net of worksite employee payroll cost (net method). Pursuant to discussions with the Securities and Exchange Commission staff, the Company changed its presentation of revenues from the gross method to an approach that presents its revenues net of worksite employee payroll costs (net method) primarily because the Company is not generally responsible for the output and quality of work performed by the worksite employees.

In determining the pricing of the markup component of the gross billings, the Company takes into consideration its estimates of the costs directly associated with its worksite employees, including payroll taxes, benefits and workers' compensation costs, plus an acceptable gross profit margin. As a result, the Company's operating results are significantly impacted by the Company's ability to accurately estimate, control and manage its direct costs relative to the revenues derived from the markup component of the Company's gross billings.

Consistent with its revenue recognition policy, the Company's direct costs do not include the payroll cost of its worksite employees. The Company's direct

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

costs associated with its revenue generating activities are comprised of all other costs related to its worksite employees, such as the employer portion of payroll-related taxes, employee benefit plan premiums and workers' compensation insurance premiums.

SALES OF PRODUCTS

Revenue is recognized when earned. The Company's revenue recognition policies are in compliance with all applicable accounting regulations, including American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) 97-2, Software Revenue Recognition, and SOP 98-9, Modification of SOP 97-2, With Respect to Certain Transactions. Revenue from products licensed to original equipment manufacturers is recorded when OEMs ship licensed products while revenue from certain license programs is recorded when the software has been delivered and the customer is invoiced. Revenue from packaged product sales to and through distributors and resellers is recorded when related products are shipped. Maintenance and subscription revenue is recognized ratably over the

F-10

DALRADA FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED JUNE 30, 2005 AND 2004 (in thousands, except share information)

contract period. When the revenue recognition criteria required for distributor and reseller arrangements are not met, revenue is recognized as payments are received. Provisions are recorded for returns and bad debts. The Company's software arrangements do not contain multiple elements, and the Company does not offer post contract support.

TEMPORARY STAFFING

The Company records gross revenue for temporary staffing. The Company has concluded that gross reporting is appropriate because the Company (i) has the risk and responsibility of identifying and hiring qualified employees, (ii) has the discretion to select the employees and establish their price and duties and (iii) bears the risk for services that are not fully paid for by customers. Temporary staffing revenues are recognized when the services are rendered by the Company's temporary employees. Temporary employees placed by the Company are the Company's legal employees while they are working on assignments. The Company pays all related costs of employment, including workers' compensation insurance, state and federal unemployment taxes, social security and certain fringe benefits. The Company assumes the risk of acceptability of its employees to its customers.

Worker's Compensation

During the year ended June 30, 2005, the Company established a self-insured worker's compensation program. In connection with this self-insured program, the Company was required to establish a worker's compensation deposit in the amount of \$2,625. The Company's maximum exposure under this self-insured worker's compensation program is \$4,200 and the Company is liable up to \$250 per

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

occurrence. The Company purchases coverage from a worker's compensation insurer to cover additional losses above the policy limits. Loss reserves from this program amounted to \$229 during the year ended June 30, 2005.

Contingent Liabilities

The Company accrues and discloses contingent liabilities in its consolidated financial statements in accordance with Statement of Financial Accounting Standards ("SFAS") No. 5, Accounting for Contingencies. SFAS No. 5 requires accrual of contingent liabilities that are considered probable to occur and that can be reasonably estimated. For contingent liabilities that are considered reasonably possible to occur, financial statement disclosure is required, including the range of possible loss if it can be reasonably determined. The Company has disclosed in its audited financial statements several issues that it believes are reasonably possible to occur, although it cannot determine the range of possible loss in all cases. As these issues develop, the Company will continue to evaluate the probability of future loss and the potential range of such losses. If such evaluation were to determine that a loss was probable and the loss could be reasonably estimated, the Company would be required to accrue its estimated loss, which would reduce net income in the period that such determination was made.

Reclassifications

Certain reclassifications have been made to the prior year consolidated financial statements to conform to the current year's presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

F-11

DALRADA FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED JUNE 30, 2005 AND 2004 (in thousands, except share information)

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents.

Concentration of Credit Risk

The Company places its cash in what it believes to be credit-worthy financial institutions. However, cash balances may exceed FDIC and SPIC insured levels at various times during the year.

Financial instruments that could potentially subject the Company to concentration of credit risk include accounts receivable. The Company generally requires clients to pay invoices for service fees no later than one day prior to the applicable payroll date. As such, the Company generally does not require

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

collateral.

Additionally, during 2004, all revenue derived from temporary staffing was from one client and during 2005 96% of revenue derived from temporary staffing was from two clients.

Allowance Method Used to Record Bad Debts

The Company provides an allowance for doubtful accounts equal to the estimated uncollectible amounts. The Company's estimate is based on historical collection experience and a review of the current status of trade accounts receivable. It is reasonably possible that the Company's estimate of the allowance for doubtful accounts will change. Accounts receivable are presented net of an allowance for doubtful accounts of \$51 at June 30, 2005. Accounts deemed uncollectible are written off against the allowance.

Long-Lived Assets and Intangible Assets

In accordance with SFAS Nos. 142 and 144, long-lived assets to be held and used are analyzed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. SFAS No. 142 relates to assets with an indefinite life where as SFAS 144 relates to assets that can be amortized and the life determinable. The Company evaluates at each balance sheet date whether events and circumstances have occurred that indicate possible impairment. If there are indications of impairment, the Company uses future undiscounted cash flows of the related asset or asset grouping over the remaining life in measuring whether the assets are recoverable. In the event such cash flows are not expected to be sufficient to recover the recorded asset values, the assets are written down to their estimated fair value. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value of asset less the cost to sell.

F-12

DALRADA FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED JUNE 30, 2005 AND 2004 (in thousands, except share information)

Property and Equipment

Property and equipment are recorded at cost. Depreciation, including amortization of assets recorded under capitalized leases, is generally computed on a straight-line basis over the estimated useful lives of assets ranging from three to seven years. Amortization of leasehold improvements is provided over the initial term of the lease, on a straight-line basis. Maintenance, repairs, and minor renewals and betterments are charged to expense.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, and the effects of obsolescence, demand, competition, and other economic factors.

Customer lists

Customer lists includes customer purchased with the acquisition of certain assets of Heritage Group, Inc. The customer lists are being amortized over their estimated useful life of 36 months using the straight-line method. Amortization expense for the fiscal years 2006, 2007 and 2008 is expected to be \$24, \$24, and \$18, respectively.

Patent Costs

Patent costs include direct costs of obtaining the patent. Costs for new patents are capitalized and amortized over the estimated useful life of the patent, generally over the life of the patent on a straight-line method. The cost of patents in process is not amortized until issuance. During the year ended June 30, 2005, the Company determined that the cost of the patent was not recoverable and took a write-off related to the patent of \$1,348.

Advertising Costs

The Company expenses advertising and promotion costs as incurred. During fiscal 2005 and 2004, the Company incurred advertising and promotion costs of approximately \$135 and \$76, respectively.

Research and Development

Research and development costs are charged to expense as incurred.

Loss per Common Share

The Company reports earnings (loss) per share in accordance with SFAS No. 128, "Earnings per Share." Basic earnings (loss) per share are computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share have not been presented since the effect of the assumed conversion of options and warrants and convertible debt securities to purchase common shares would have an anti-dilutive effect. The following potential common shares have been excluded

from the computation of diluted net loss per share for the years ended June 30, 2005 and 2004, respectively: warrants - 31,563,430 and 21,563,430; stock options - 39,150,000 and 39,150,000; and convertible securities of 415,751,623 and 210,896,000. The Company has no dilutive shares due to having a loss from operations.

Debt Discounts

Debt discounts costs are principally the values attributed to the detachable warrants issued in connection with the convertible debentures and the value of the preferential conversion feature associated with the convertible debentures. These debt issuance costs are accounted for in accordance with Emerging Issues Task Force ("EITF") 00-27 issued by the Financial Accounting Standards Board ("FASB").

Minority Interest

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

On April 1, 2005, the Company contributed its wholly-owned subsidiary, Solvis, to QPI. At that date, Solvis had a stockholders' equity of \$393. As a result of the Company contributing Solvis to an 85% owned subsidiary, the Company recognized minority interest on its consolidated balance sheet in the amount of \$59. During the year ended June 30, 2005, QPI incurred a net loss of which 15% is attributed to the minority interest. In the accompanying consolidated statement of operations, the Company has only recognized the minority interests' share of the net loss to the extent of the minority interest recorded on the consolidated balance sheet. Recognizing the minority interests' entire share of the net loss would have resulted in the recording of a minority interest receivable.

F-14

DALRADA FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED JUNE 30, 2005 AND 2004 (in thousands, except share information)

Income Taxes -----

The Company utilizes SFAS No. 109, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

The Company recognizes the amount of taxes payable or refundable for the current year and recognizes deferred tax liabilities and assets for the expected future tax consequences of events and transactions that have been recognized in the Company's financial statements or tax returns. The Company currently has substantial net operating loss carryforwards. The Company has recorded a 100% valuation allowance against net deferred tax assets due to uncertainty of their ultimate realization.

Stock Based Compensation -----

SFAS No. 123, "Accounting for Stock-Based Compensation," establishes and encourages the use of the fair value based method of accounting for stock-based compensation arrangements under which compensation cost is determined using the fair value of stock-based compensation determined as of the date of grant and is recognized over the periods in which the related services are rendered. The statement also permits companies to elect to continue using the current intrinsic value accounting method specified in Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," to account for stock-based compensation. The Company has elected to use the intrinsic value based method and has disclosed the pro forma effect of using the fair value based method to account for its stock-based compensation issued to employees. For options granted to employees where the exercise price is less than the fair value of the stock at the date of grant, the Company recognizes an expense in

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

accordance with APB 25. For non-employee stock based compensation the Company recognizes an expense in accordance with SFAS No. 123 and values the equity securities based on the fair value of the security on the date of grant. For stock-based awards the value is based on the market value for the stock on the date of grant and if the stock has restrictions as to transferability a discount is provided for lack of tradability. Stock option awards are valued using the Black-Scholes option-pricing model.

If the Company had elected to recognize compensation expense based upon the fair value at the grant date for awards under the Stock Option Plan consistent with the methodology prescribed by SFAS No. 123, the Company's net loss and loss per share would be reduced to the pro forma amounts indicated below for the years ended June 30, 2005 and 2004:

	2005	2004
	-----	-----
Net income (loss) attributed to common stockholders:

DALRADA FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED JUNE 30, 2005 AND 2004 (in thousands, except share information)

This option valuation model requires input of highly subjective assumptions. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing model does not necessarily provide a reliable single measure of fair value of its employee stock options.

The weighted average fair value of the options granted during fiscal years 2005 and 2004 is estimated on the date of grant using the Black-Scholes option-pricing model. The weighted average fair values and weighted average assumptions used in calculating the fair values were as follows for the years ended June 30:

	2005	2004
	-----	-----
Fair Value of options granted	\$ n/a	\$ 0.025
Risk free interest rate	n/a	3.5%
Expected life (years)	n/a	3
Expected volatility	n/a	426%
Expected dividends	n/a	--

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

Fair Value of Financial Instruments

For certain of the Company's financial instruments, including accounts receivable, inventories, accounts payable, and accrued expenses, the carrying amounts approximate fair value, due to their relatively short maturities. The amounts owed for long-term debt also approximate fair value because current interest rates and terms offered to the Company are at current market rates.

Comprehensive Income

The Company adopted SFAS No. 130, "Reporting Comprehensive Income." This statement establishes standards for reporting other comprehensive income and its components in a financial statement. Comprehensive income, as defined, includes all changes in equity (net assets) during a period from non-owner sources. Examples of items to be included in comprehensive income, which are excluded from net income, include foreign currency translation adjustments and unrealized gains and losses on available-for-sale securities. Comprehensive income is not presented in the Company's financial statements since the Company did not have any of the items of other comprehensive income in any period presented.

Segment Disclosure

SFAS No. 131, "Disclosure about Segments of an Enterprise and Related Information," was issued, which changes the way public companies report information about segments. SFAS No. 131, which is based on the selected segment information, requires quarterly and entity-wide disclosures about products and services, major customers, and the material countries in which the entity holds assets and reports revenues. The Company has four segment. (See Note 8).

Recent Accounting Pronouncements

In November 2004, the FASB issued SFAS No. 151, entitled INVENTORY COSTS -- AN AMENDMENT OF ARB NO. 43, CHAPTER 4. SFAS No. 151 amends the guidance in ARB No. 43, Chapter 4, entitled INVENTORY PRICING [June 1953], to clarify the accounting for "abnormal amounts" of idle facility expense, freight, handling costs, and wasted material [spoilage]. Before revision by SFAS No. 151, the guidance that existed in ARB No. 43 stipulated that these type items may be "so abnormal" that the appropriate accounting treatment would be to expense these costs as incurred [i.e., these costs would be current-period charges]. SFAS No. 151 requires that these type items be recognized as current-period charges WITHOUT REGARD to whether the "so abnormal" criterion has been met. Additionally, SFAS No. 151 requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The adoption of SFAS 151 did not impact the consolidated financial statements.

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

In December 2004, the FASB issued SFAS No. 152, entitled ACCOUNTING FOR REAL ESTATE TIME-SHARING TRANSACTIONS -- AN AMENDMENT OF FASB STATEMENTS NO. 66 AND 67. SFAS No. 152 amends SFAS No. 66 to reference the financial accounting and reporting guidance for real estate time-sharing transactions that is provided in AICPA Statement of Position 04-2. SFAS No. 152 also amends SFAS No. 67 to state that the guidance for (a) incidental operations and (b) costs incurred to sell real estate projects does not apply to real estate time-sharing transactions. The accounting for those operations and costs is subject to the guidance of SOP 04-2. This statement is effective for financial statements for fiscal years beginning after June 15, 2005. The adoption of SFAS 152 did not impact the consolidated financial statements.

In December 2004, the FASB issued SFAS No. 153, entitled EXCHANGES OF NONMONETARY ASSETS -- AN AMENDMENT OF APB OPINION NO.29. SFAS No. 153 amends Opinion 29 to eliminate the exception for nonmonetary exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. The adoption of SFAS 153 did not impact the consolidated financial statements.

In December 2004, the FASB issued SFAS No. 123 (Revised), entitled SHARE-BASED PAYMENT. This revised Statement eliminates the alternative to use APB Opinion No. 25's intrinsic value method of accounting that was provided in SFAS No. 123 as originally issued. Under Opinion 25, issuing stock options to employees generally resulted in recognition of no compensation cost. This Statement requires entities to recognize the cost of employee services received in exchange for awards of equity instruments based on the grant-date fair value of those awards. For public companies that file as a small business issuer, this Statement is effective as of the beginning of the first interim or annual reporting period that begins after December 15, 2005. The adoption of SFAS 123 (Revised) could impact the consolidated financial statements as the Company has granted any equity instruments to employees in the past.

In May 2005, the FASB issued SFAS No. 154, entitled ACCOUNTING CHANGES AND ERROR CORRECTIONS--A REPLACEMENT OF APB OPINION NO. 20 AND FASB STATEMENT NO. 3. This Statement replaces APB Opinion No. 20, Accounting Changes, and FASB Statement No. 3, Reporting Accounting Changes in Interim Financial Statements, and changes the requirements for the accounting for and reporting of a change in accounting

principle. This Statement applies to all voluntary changes in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions. Opinion 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. This Statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. This Statement defines RETROSPECTIVE APPLICATION as the application of a different accounting principle to prior accounting periods as if that principle

had always been used or as the adjustment of previously issued financial statements to reflect a change in the reporting entity. This Statement also redefines RESTATEMENT as the revising of previously issued financial statements to reflect the correction of an error. The adoption of SFAS 154 did not impact the consolidated financial statements.

NOTE 2 - PROPERTY AND EQUIPMENT

The cost of property and equipment at June 30, 2005 consisted of the following:

Computer and other equipment	\$	1,025

The 5% convertible preferred stock is convertible, at any time, into shares of the Company's common stock, at a price of \$17.50 per common share. This conversion price is subject to certain anti-dilution adjustments, in the event of certain future stock splits or dividends, mergers, consolidations or other similar events. In addition, the Company shall reserve, and keep reserved, out of its authorized but un-issued shares of common stock, sufficient shares to effect the conversion of all shares of the 5% convertible preferred stock.

In the event of any involuntary or voluntary liquidation, dissolution or winding up of the affairs of the Company, the 5% convertible preferred shareholders shall be entitled to receive \$1 per share, together with accrued dividends, to the date of distribution or payment, whether or not earned or declared.

The 5% convertible preferred stock is callable, at the Company's option, at call prices ranging from \$1,050 to \$1,100 per share. No call on the 5% convertible preferred stock was made during fiscal 2005 and 2004. As of June 30, 2005, the accumulated dividend in arrears was approximately \$453 on the Series A.

Common Stock Warrants

In connection with certain convertible debentures issued during fiscal 2004, the Company issued to the debenture holders warrants to purchase up to 16,000,000 shares of its common stock at an exercise price of \$0.02. The warrants expire on December 17, 2008. The value of these warrants was estimated at \$305. The Black-Scholes option-pricing model was used to determine the value of these warrants. The following assumptions were used: average risk-free interest rate of 3.5%; expected life of 5 years; dividend yield of 0%; and expected volatility of 426%. The value was then compared to the value of the underlying convertible debenture and the proportionate value was assigned to the detachable warrants and the underlying convertible debenture.

Common Stock Option Plans

In July 1984 ("1984 Plan"), November 1987 ("1988 Plan") and September, 1996 ("1997 Plan"), the Company adopted stock option plans, under which incentive stock options and non-qualified stock options may be granted to employees, directors, and other key persons, to purchase shares of the Company's common stock, at an exercise price equal to no less than the fair market value of such stock on the date of grant, with such options exercisable in installments at dates typically ranging from one to not more than ten years after the date of grant.

Under the terms of the 1988 and 1997 Plans, loans may be made to option holders, which permit the option holders to pay the option price, upon exercise, in installments. A total of 10,600 and 50,000 shares of common stock are authorized for issuance under the 1988 and 1997 Plans, respectively.

No shares are available for future issuance under the 1984 Plan due to the expiration of the plan during 1994. As of June 30, 1999, options to acquire 100 shares were outstanding under the 1984 Plan and options to acquire 33,500 shares remained available for grant under the 1988 and 1997 Plans.

In addition, the Board of Directors, outside the 1984, 1988 and 1997 Plans ("Outside Plan"), granted to employees, directors and other key persons of DRDF or its subsidiaries options to purchase shares of the Company's common stock, at an exercise price equal to no less than the fair market value of such stock on the date of grant. Options are exercisable in installments at dates typically ranging from one to not more than ten years after the date of grant.

In October 1995, the Board of Directors authorized the exercise price for employee options and warrants to be reduced to the current market value. Accordingly, the exercise price on an aggregate of 911 and 13,750 options under the 1988 and Outside Plans, respectively, were canceled and reissued at an exercise price of \$20.00 per share.

The 1997 Employee Stock Purchase Plan ("Purchase Plan") was approved by the Company's shareholders in September 1996. The Purchase Plan permits employees to purchase the Company's common stock at a 15% discounted price. The Purchase Plan is designed to encourage and assist a broad spectrum of employees of the Company to acquire an equity interest in the Company through the purchase of its common stock. It is also intended to provide participating employees the tax benefits under Section 421 of the Code. The Purchase Plan covers an aggregate of 25,000 shares of the Company's common stock.

All employees, including executive officers and directors who are employees, customarily employed more than 20 hours per week and more than five months per year by the Company are eligible to participate in the Purchase Plan on the first enrollment date following employment. However, employees who hold, directly or through options, five percent or more of the stock of the Company are not eligible to participate.

Participants may elect to participate in the Purchase Plan by contributing up to a maximum of 15 percent of their compensation, or such lesser percentage as the Board may establish from time to time. Enrollment dates are the first trading day of January, April, July and October or such other dates as may be established by the Board from time to time. On the last trading day of each December, March, June and September, or such other dates as may be established by the Board from time to time, the Company will apply the funds then in each participant's account to the purchase of shares. The cost of each share purchased is 85 percent of the lower of the fair market value of common stock on (i) the enrollment date or (ii) the purchase date. The length of the enrollment period may not exceed a maximum of 24 months. No participant's right to acquire shares may accrue at a rate exceeding \$25 of fair market value of common stock (determined as of the first trading day in an enrollment period) in any calendar year. No shares have been issued under the Purchase Plan.

2001 Stock Option and Stock Purchase Plans.

The Company's shareholders approved the 2001 Stock Option Plan, pursuant to which 5,000,000 shares of common stock are reserved for issuance to eligible employees and directors of, and consultants to, the Company or any of its subsidiaries. Upon expiration, cancellation or termination of unexercised options, the shares of the Company's Common Stock subject to such options will again be available for the grant of options under the 2001 Stock Option Plan. Options granted under the 2001 Stock Option Plan may either be incentive or nonqualified stock options.

The Company's shareholders approved the 2001 Stock Purchase Plan, as amended, which enables eligible employees to purchase in the aggregate up to 2,500,000 shares of common stock.

NOTE 9 - INCOME TAXES

The Company's provision for income taxes is accounted for in accordance with SFAS 109. SFAS 109 requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under the SFAS 109 asset and liability method, deferred tax assets and liabilities are determined based upon the difference between the financial statement and tax bases of assets and liabilities using the enacted tax rates in effect for the year in which the differences are expected to reverse. A valuation allowance is then provided for deferred tax assets that are more likely than not to not be realized.

The provision (benefit) for income taxes is as follows for the years ended June

The Company's federal and state net operating loss carryforwards expire in various years through 2017. The Company has made numerous equity issuances that could result in limitations on the annual utilization of the Company's net operating loss carryforwards. The Company has not performed an analysis to determine the effect of such changes.

The provision for income taxes results in an effective rate that differs from the federal statutory rate. Reconciliation between the actual tax provision and taxes computed at the statutory rate is as follows for the year ended June 30, 2005:

	Tax	Percentage
Federal Tax	\$ (1,434)	34.0%

Legal Matters

The Company and its SourceOne Group ("SOG") subsidiary have been sued by the Arena Football 2 Operating Company, LLC ("Arena") in Wayne County Circuit Court, Michigan. The claims made by Arena against the Company and SOG are that SOG failed to perform under an agreement to procure and furnish workers' compensation insurance and that Arena incurred alleged damages in an amount no less than \$709 as a result. Management has vigorously contested the claims made by Arena. In addition, the Company has filed claims against Arena and Arena's agent, Thilman and Filippini, based on, among other things, the representations made to SOG that let it to enter into the agreement with Arena. The case remains in the discovery phase.

The Company and SOG have been sued by Liberty Mutual Insurance Company ("Liberty") in the United States District Court for the Northern District of Illinois. The nature of the specific claims made by Liberty against the Company and SOG are that the Company and SOG were and are obligated to make additional premium payments to Liberty for workers' compensation insurance, which is related to the Arena litigation described above. The initial claim by Liberty was estimated by Liberty to be \$829 and is now claimed to exceed \$1,000. Management has vigorously contested the claims made by Liberty. The case remains in the discovery phase.

On February 10, 2005, Berryman & Henigar Enterprises ("Plaintiff"), filed a complaint in the Superior Court of California, County of San Diego, Case No. GIC842610, against Warning Model Management, Inc. for breach of a promissory note issued pursuant to terms and conditions of a certain stock purchase and sale agreement dated September 9, 2004. The Company and its subsidiary, Employment Systems, Inc. ("ESI"), each allegedly guaranteed payments on the underlying promissory note. Plaintiff seeks principal damages of \$750 in that regard. Warning Model Management, Inc. has taken the position that Plaintiff failed to disclose certain material information in the underlying transaction which thereby negates the promissory note. As such, the guarantees allegedly provided by the Company and ESI could thereby be invalidated. Discovery has commenced but is not complete at this time. Trial has not been set. Management has fully cooperated in our investigation of the facts and we intend to defend against the claims asserted. This Company has reached a verbal settlement with the plaintiff., pending the completion of the signed agreement.

On March 17, 2005, Greenland Corporation ("Plaintiff"), filed an amended complaint in the Superior Court of California, County of San Diego, Case No. GIC842605, against the Company and multiple other individuals and entities resulting from a transaction as evidenced by the "Agreement to Acquire Shares" dated August 9, 2002, whereby the Company obtained a controlling equity interest in Plaintiff. Plaintiff contends that the Company engaged in various forms of wrongdoing including breach of fiduciary duty, conversion, conspiracy and aiding and abetting. Discovery has commenced but is not complete at this time. Trial has not been set. Management has fully cooperated in our investigation of the facts and we intend to continue with vigorous defense against the claims asserted.

On August 29, 2005, United Bank & Trust filed suit against the Company and other parties. The allegations of the lawsuit are that the Company guaranteed certain debt owed by InfoServices, Inc. and is liable in the amount of \$678. The case is in its early stages and discovery has not yet commenced. However, the Company intends to vigorously defend itself against the claims asserted.

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB

Throughout fiscal 2004 and 2005, and through the date of this filing, trade creditors have made claims and/or filed actions alleging the failure of the Company to pay its obligations to them in a total amount exceeding \$3,000. These actions are in various stages of litigation, with many resulting in judgments being entered against the Company. Several of those who have obtained judgments have filed judgment liens on the Company's assets. These claims range in value from less than \$1,000 to just over \$1,000,000, with the great majority being less than \$20,000.

On September 7, 2005, the arbitrator from the American Arbitration Association awarded to Accord Human Resources a judgment against Greenland Corporation and the Company as the guarantor, an amount equaling \$168. Legal counsel has estimated that the claim could amount to as much as \$214. The Company has reserved \$200 for the claim.

The Company is currently in dispute with one of its investors regarding the pay down of a convertible note payable with shares of the Company's common stock issued during the year ended June 30, 2005. The Company has currently reserved \$263 regarding this dispute and is hopeful that the matter can be resolved amicably.

>From time to time, the Company is involved in litigation relating to claims arising out of their operations in the normal course of business.

NOTE 11 - GAIN ON SETTLEMENT OF DEBT

During the years ended June 30, 2005 and 2004, the Company recognized a gain on settlement of debt of \$829 and \$1,145, respectively. This gain resulted primarily from the write off of stale accounts payable. The Company, based upon an opinion provided by independent legal counsel, has been released as the obligator of these liabilities. Accordingly, management has elected to adjust its accounts payable and to classify such adjustments as settlement of debt.

NOTE 12 - GAIN RESULTING FROM RECONCILIATION OF PAYROLL TAX LIABILITIES TO TAXING AUTHORITIES

During the year ended June 30, 2005, the Company recorded an adjustment to earnings of \$1,895, resulting from a reconciliation with the Internal Revenue Service and certain State taxing authorities of the amounts due for delinquent payment of payroll tax liabilities. The Company continually updates its estimate of the amount due related to delinquent payroll taxes and penalties as it receives correspondence or settlement agreements with the Internal Revenue Service and State taxing authorities.

The Company is delinquent in filing its payroll tax returns and owes \$8,683 in delinquent payroll tax payments, interest and penalties.

NOTE 13 - SUBSEQUENT EVENTS

Edgar Filing: DALRADA FINANCIAL CORP - Form 10KSB
