The Company changed its name from International Food & Beverage, Inc. to Internet Business's International, Inc., and reincorporated the Company on December 8, 1998 in the state of Nevada. During April of 1999, the Company announced the opening of its first e-commerce site and engaged in the development, operation and marketing of a number of commercial web sites. The Company's subsidiaries consisted of: Lending on Line (providing real estate loans and equipment leasing), Internet Service Provider (providing national Internet access dial-up service, wireless high speed Internet, and Internet web design and hosting), E. During the fiscal year ended June 30, 2004, the Company changed its name to Alpha Wireless Broadband, Inc, and started a wireless operation through it's wholly owned subsidiary Skyy-Fi, Inc a Nevada Corporation. Skyy-Fi began providing access to the Internet, by installing equipment in locations such as hotels and coffee shops for use by their patrons for a fee or free basis. As of June 30, 2008, Skyy-Fi closed the internet service and tech support for these locations.

In January 2005, the Company acquired the assets of Seamless P2P, LLC and contributed these assets to its 80% owned subsidiary Seamless Peer to Peer, Inc., which is a developer and provider of a patent pending software program Phenom Encryption Software that encrypts Wi-Fi transmissions based upon RSA's government certified 256 bit AES encryption coupled with RSA's Public Key Infrastructure flexible telecom data and voice transport solutions.

In July 2008 Seamless discontinued its operations of providing Wi-Fi to hospitality providers. Therefore the Assets, Liabilities, Income and Expenses associated with those operations are delineated on the financials statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION AND PRINCIPLES OF CONSOLIDATION

The financial statements include the accounts of the Company and its wholly owned subsidiaries and majority-owned subsidiary. They have been prepared in conformity with (i) accounting principles generally accepted in the United States of America; and (ii) the rules and regulations of the United States Securities and Exchange Commission. All significant intercompany accounts and transactions between the Company and its subsidiaries have been eliminated in consolidation.

UNAUDITED FINANCIAL STATEMENTS

The accompanying unaudited consolidated financial statements of Seamless Corporation, and its Subsidiaries (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information, pursuant to the rules and regulations of the Securities and Exchange Commission. Pursuant to such rules and regulations, certain financial information and footnote disclosures normally included in the consolidated financial statements have been condensed or omitted. The results for the periods indicated are unaudited, but reflect all adjustments (consisting only of normally recurring adjustments) which management considers necessary for a fair presentation of operating results.

The operating results for the nine-month period ended March 31, 2009 are not necessarily indicative of the results that may be expected for the year ended June 30, 2009. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30, 2008.

RECLASSIFICATIONS

Certain reclassifications have been made in the 2009 financial statements to conform to the 2008 presentation. These reclassifications did not have any effect on net income (loss) or shareholders' equity.

USE OF ESTIMATES

Edgar Filing: SEAMLESS Corp - Form 10-Q/A

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include allowances for doubtful accounts and notes and loans receivable. Actual results could differ from those estimates.

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

On July 1, 2008, we adopted Financial Accounting Standards Board ("FASB") Statement No. 157, Fair Value Measurements ("SFAS No. 157") for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This statement does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information.

Statement of Financial Accounting Standard ("SFAS") No. 159, The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115, became effective for us on July 1, 2008. SFAS No. 159 gives us the irrevocable option to elect fair value for the initial and subsequent measurement for certain financial assets and liabilities on a contract-by-contract basis with the difference between the carrying value before election of the fair value option and the fair value recorded upon election as an adjustment to beginning retained earnings. We chose not to elect the fair value option. IMPACT OF NEW ACCOUNTING STANDARDS

In April 2009, FASB issued Financial Accounting Standards Board, or FASB, Staff Position, or FSP, SFAS No. 107-1 and Accounting Principles Board Opinions, or APB, No. 28-1 Interim Disclosures about Fair Value of Financial Instruments. This FSP amends FASB Statement No. 107, Disclosures about Fair Value of Financial Instruments, to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. The FSP also amends APB No. 28, Interim Financial Reporting, to require those disclosures in summarized financial information at interim reporting periods. This FSP applies to all financial instruments within the scope of SFAS No. 107 held by publicly traded companies, as defined by APB No. 28. A publicly traded company is required to include disclosures about the fair value of its financial instruments whenever it issues summarized financial information for interim reporting periods. Such entity is required to disclose in the body or in the accompanying notes of its summarized financial information for interim reporting periods and in its financial statements for annual reporting periods the fair value of all financial instruments for which it is practicable to estimate that value, whether recognized or not recognized in the statement of financial position, as required by SFAS No. 107. Fair value information disclosed in the notes must be presented together with the related carrying amount in a form that makes it clear whether the fair value and carrying amount represent assets or liabilities and how the carrying amount relates to what is reported in the statement of financial position. Such entity also must disclose the methods and significant assumptions used to estimate the fair value of financial instruments and describe changes in methods and significant assumptions during the period. This FSP will be effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The Company plans to adopt this FSP for the quarter ended June 30, 2009 and anticipates that the adoption of SFAS No. 107-1 and APB No. 28-1 will not have a material impact on the Company's consolidated results of operations and financial position.

In April 2009, FASB issued FSP SFAS No. 115-2 and No. 124-2, Recognition and Presentation of Other-Than-Temporary Impairments. This FSP amends the other-than-temporary impairment guidance in GAAP for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. This FSP does not amend existing recognition and measurement guidance related to other-than-temporary impairments of equity securities. This FSP will be effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The Company plans to adopt this FSP for the quarter ended June 30, 2009 and anticipates that adoption of SFAS No. 115-2 and SFAS No. 124-2 will not have a material impact on the Company's consolidated results of operations and financial position.

In April 2009, FASB issued FSP SFAS No. 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly. This FSP provides additional guidance for estimating fair value in accordance with SFAS No. 157, Fair Value Measurements, when the volume and level of activity for the asset or liability have significantly decreased. This FSP also includes guidance on identifying circumstances that indicate a transaction is not orderly. This FSP emphasizes that even if there has been a significant decrease in the volume and level of activity for the asset or liability and regardless of the valuation technique(s) used, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. This FSP will be effective for interim and annual reporting periods ending after June 15, 2009, and will be applied prospectively. The Company plans to adopt this FSP for the quarter ended June 30, 2009 and anticipates that adoption of SFAS No. 157-4 will not have a material impact on the Company's consolidated results of operations and financial position.

NOTE 3: OPERATIONS AND LIQUIDITY

The Company is actively pursuing additional equity financing through discussions with investment bankers and private investors. There can be no assurance the Company will be successful in its effort to secure additional equity financing. The Company's ability to continue as a going concern is contingent upon its ability to secure financing and attain profitable operations. The financial statements do not include any adjustment to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

THREE AND NINE MONTHS ENDED MARCH 31, 2009 (UNAUDITED) COMPARED TO THREE AND NINE MONTHS ENDED MARCH 31, 2008 (UNAUDITED)

REVENUES

Revenue for the three and nine months ended March 31, 2009 is not compared to revenue of the discontinued operations of all the Wi-Fi locations which ended in the previous fiscal year ended June 30, 2008.

COST OF REVENUES

The cost of revenues for the three and nine months ended March 31, 2009 was \$1,423 and \$10,342 compared to \$19,985 and \$25,375 for the three and nine months periods ended March 31, 2008, decreased approximately 93% for the three months and a decrease of approximately 60% for nine months respective. The decrease in cost was due to the termination of the marketing program for the S-SIB product.

OPERATING EXPENSES

The operating expenses for the three and nine months ended March 31, 2009 of \$224,739 and \$993,667 as compared to the three and nine months ended March 31, 2008 of 1,382,235 and \$1,427,018 represents an decrease of approximately 78% for the three months ended and approximately 3% for the nine months ended March 31. The decrease is due to a reduction in operations.

OTHER INCOME

Edgar Filing: SEAMLESS Corp - Form 10-Q/A

Other income for the for the three and nine months ended March 31, 2009 of \$12,119 and \$36,357 as compared to the other income of \$12,119 and \$37,797 for the same periods ended in 2008. This represents no change for three months and a decrease of 4% for nine months respectively. Other income consists primarily of debt forgiveness from prior operations due to the fact that certain debts were not paid within the prescribed time as required by law and the Company now has to report that debt as income.

INCOME TAX

The Company accounts for income taxes under the asset and liability approach of reporting for income taxes. Deferred taxes are recorded based upon the tax impact of items affecting financial reporting and tax filings in different periods. A valuation allowance is provided against net deferred tax assets where the Company determines realization is not currently judged to be more likely than not. The Company and its 80% of more owned U.S. subsidiaries file a consolidated federal income tax return.

The Company adopted the provision of FASB Interpretation ("FIN") No. 48, Accounting for Uncertainty in Income Taxes, on January 1, 2008.

NET INCOME/LOSS FROM CONTINUING OPERATIONS

The Company has experienced a decrease of approximately 79% in the net loss of \$(212,620) from continuing operations for the three months ended March 31, 2009 as compared to a net loss of \$(981,548) for the three months ended March 31, 2008. The Company also experienced an decrease of approximately 3% in the net loss from continuing operations of \$(1,345,878) for the nine months ended March 31, 2009 as compared to a net loss of \$(1,389,221) for the nine months ended March 31, 2008. The net loss from discontinued operations of \$(2,996,512) for nine months ended of March 31, 2009 as compared to the prior nine months for 2008 in the amount of \$320,676 is primarily due to writing off uncollectible receivables from discontinued operations due the Company.

16

The affect of the discontinued operation was an increase in the net loss available to common shareholders. The net loss per shareholder was offset because of the corresponding increase in the number of shares issued and outstanding which increased the weighted average number shares.

LIQUIDITY AND CAPITAL RESOURCES

The Company had no cash and or cash equivalents at March 31, 2009. Net loss from operations was \$(1,345,878) for the period ended March 31, 2009 compared to net loss from operations of \$(1,389,221) for the comparable period ended March 31, 2008.

As a result of the Company's increases in net operation losses, the Companies working capital deficiency has increased. The Company has funded the losses through an equity line of credit secured by preferred stock. Repayments of certain loans occurred by the lender taking possession of the collateral. The Company anticipates these losses to continue through 2009.

The Company has a working capital deficit of \$(1,801,048) as of March 31, 2009 compared to a working capital of \$1,461,040 as of March 31, 2008, does not factor the impact of the discontinued operations. This is an increase in the working capital deficit as compared to the working capital surplus from the previous year and we expect the working capital deficit to continue to increase till the Company begins product delivery and generates income from the sale of

Edgar Filing: SEAMLESS Corp - Form 10-Q/A

products.

As shown in the accompanying financial statements, we have incurred an accumulated deficit of \$(25,428,657) and a working capital deficit of approximately \$(1,801,048) as of March 31, 2009. The Companies ability to continue as a going concern is dependent on obtaining additional capital and financing and operating at a profitable level.

The Company is actively pursuing additional equity financing through discussions with investment bankers and private investors. There can be no assurance the Company will be successful in its effort to secure additional equity financing. The Company's ability to continue as a going concern is contingent upon its ability to secure financing and attain profitable operations. The financial statements do not include any adjustment to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

NET OPERATING LOSS CARRY FORWARD

Edgar Filing: SEAMLESS Corp - Form 10-Q/A

No provision for income taxes has been recorded in the accompanying financial statements as a result of our net operating losses. We have unused tax loss carry forwards of approximately \$(25,500,000) to offset future taxable income. Such carry forwards expire in the years beginning 2023.

The deferred tax asset we recorded as a result of these tax loss carry forwards is approximately \$(25,500,000) as of December 31, 2008. We have reduced the deferred tax asset resulting from our tax loss carry forwards by a valuation allowance of an equal amount as the realization of the deferred tax asset is uncertain. The net change in the deferred tax asset and valuation allowance which was \$(20,660,864) as of June 30, 2008 to March 31, 2009 of (\$25,428,657) is an increase in the Net Operating Loss Carry Forward of (\$4,767,793).
