ADOPTION OF THE 2009 STOCK OPTION PLAN

INTRODUCTION

The Board of Directors approved the 2009 Stock Option Plan (the “Option Plan”) under which up to 1,300,000 shares of incentive and non-qualified options may be granted to employees, directors and certain key affiliates. Under the Option Plan, options may be granted at not less than the fair market value on the date of grant. The Board of Directors adopted the Option Plan to attract, maintain and develop management by encouraging ownership of the Company's Common Stock by key employees, directors, and others.

Options under the Option Plan will be either “incentive options” (“ISOs”) under Section 422A of the Internal Revenue Code of 1986, as amended, or “non-qualified stock options” (“NQOs”) which are not intended to so qualify.

SUMMARY DESCRIPTION OF THE OPTION PLAN

The Option Plan is administered by the Board or by a committee of the Board. The Board is authorized to grant incentive stock options to officers and other key executive and management employees of the Company and non-qualified options to employees, directors and others performing services to the Company.

If there is a stock split, stock dividend, or other relevant change affecting the Company's shares, appropriate adjustments would be made in the number of shares that could be issued in the future and in the number of shares and

price under all outstanding grants made before the event. Future options may also cover such shares as may cease to be under option by reason of total or partial expiration, termination or voluntary surrender of an option.

The vesting period for options granted under the Option Plan are set forth in an option agreement entered into with the optionee. ISOs granted to an optionee terminate ninety (90) days after retirement termination of employment and twelve (12) months in the event of death or disability.

Unless otherwise provided in any option, each outstanding option becomes immediately fully exercisable in the event of: (i) a change of control of the Company, (ii) a merger, consolidation, reorganization or dissolution in which the Company does not survive, or (iii) the sale, release, exchange or disposition of substantially all the property and assets of the Company.

The Board may grant options qualifying as ISOs under the Internal Revenue Code of 1986, as amended, or as NQOs. The Board determines the duration of each option; however, the term of an option cannot exceed ten (10) years from the date of grant and cannot exceed five (5) years in the case of a greater than ten percent (10%) shareholder. The option price for an ISO is the fair market value of a share of the Company's Common Stock on the date of grant. The grantee can pay the option price in cash, or if permitted, by delivering to the Company shares of Common Stock owned by the grantee that have a fair market value equal to the option price.

FEDERAL INCOME TAX CONSEQUENCES

The holder of an ISO does not realize taxable income upon the grant or upon the exercise of the option (although the option spread is an item of tax preference income potentially subject to the alternative minimum tax). If the stock acquired upon exercise of the option is sold or otherwise disposed of within two (2) years from the option grant date or within one (1) year from the exercise date then, in general, gain realized on the sale is treated as ordinary income to the extent of the option spread at the exercise date, and the Company receives a corresponding deduction. Any remaining gain is treated as capital gain. If the stock is held for at least two (2) years from the grant date and one (1) year from the exercise date, then gain or loss realized upon the sale will be capital gain or loss and the Company will not be entitled to a deduction. A special basis adjustment applies to reduce the gain for alternative minimum tax purposes.

An optionee does not realize taxable income upon the grant of an NQO if the exercise price is equal to the fair market value. If the exercise price is less than the fair market value, the optionee will realize income equal to the difference between the exercise of the NQO in an amount equal to the difference between the exercise price and the market value on the date of exercise. The Company is entitled to a deduction at the same time and in a corresponding amount.

In general, if an optionee delivers previously-owned shares in payment of the exercise price of an option, no gain or loss will be recognized on the exchange of the previously-owned shares for an equivalent number of newly issued shares. However, if the previously-owned shares delivered in payment of the exercise price were acquired pursuant to the exercise of an ISO and if the requisite option holding periods are not satisfied (see above), then the optionee will realize ordinary income on the delivery of the previously-owned shares as in the case of any other "early" disposition of option-acquired shares.

APPROVAL OF AMENDMENT TO THE 2009 STOCK OPTION PLAN

As originally adopted, the Option Plan covered up to 1,300,000 shares of Common Stock of the Company. As of December 31, 2010, there are options to purchase 1,056,000 shares outstanding.

The Board of Directors concluded that the Option Plan has been effective in incentivizing employees, and approved an amendment to the Stock Option Plan increasing the number of shares available under the Plan by 700,000, to an aggregate of 2,000,000 shares, so the Company would have flexibility in future option grants.

NO DISSENTERS' RIGHTS

Nevada law does not provide for dissenter's rights in connection with the approval of the actions described in this Information Statement.

NO ACTION IS REQUIRED

No other votes are necessary or required. The Company anticipates that the stockholder consent described in this Information Statement will become effective, for securities law purposes, approximately twenty (20) days after mailing of this Information Statement.
