-

Item 8.01. Other Events

OGE Energy Corp. (the "Company") is the parent company of Oklahoma Gas and Electric Company ("OG&E"), a regulated electric utility with approximately 789,000 customers in Oklahoma and western Arkansas, and OGE Enogex Holdings LLC and its subsidiaries, a midstream natural gas pipeline business with principal operations in Oklahoma.

As previously reported, on July 28, 2011, OG&E filed its application with the Oklahoma Corporation Commission ("OCC") requesting an annual rate increase of \$73.3 million, or a 4.3 percent increase in its rates. OG&E is requesting a return on equity of 11.00 percent based on a common equity percentage of 53 percent. Each 0.10 percent change in the requested return on equity affects the requested rate increase by \$3.0 million. In its application, OG&E seeks to recover increases in its operating costs and to begin earning on approximately \$500 million of new capital investments made on behalf of its Oklahoma customers during the previous two and one-half years. On November 9, 2011, the OCC Staff recommended a \$6.2 million annual rate decrease based on a return on equity of 9.81 percent and a common equity percentage of 53 percent. The staff of the Oklahoma Attorney General ("AG") recommended a return on equity of 9.818 percent and a common equity percentage of 49.5 percent. The AG Staff did not recommend a specific revenue requirement, but OG&E believes that adoption of the AG Staff's recommendations would result in a rate decrease. The Oklahoma Industrial Electric Consumers ("OIEC") recommended a \$56 million annual rate decrease based on a return on equity of 9.5 percent and a common equity percentage of 48 percent. OG&E plans to file rebuttal testimony on November 29, 2011. On November 16, 2011, the parties will file cost-of-service and rate design testimony and OG&E's rebuttal testimony in those areas will be filed by December 2, 2011. A hearing in this matter is scheduled for December 13, 2011. OG&E expects to receive an order from the OCC in early 2012.
