PART I: FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The financial information set forth below with respect to our statements of operations for the three and six month periods ended June 30, 2005 and 2004 is unaudited. This financial information, in the opinion of management, includes all adjustments consisting of normal recurring entries necessary for the fair presentation of such data. The results of operations for the six month period ended June 30, 2005 are not necessarily indicative of results to be expected for any subsequent period.

View Systems, Inc.  
Notes to the Consolidated Financial Statements  
June 30, 2005

GENERAL

View Systems, Inc. (the Company) has elected to omit substantially all footnotes to the financial statements for the six months ended June 30, 2005 since there have been no material changes (other than indicated in other footnotes) to the information previously reported by the Company in their Annual Report filed on the Form 10-KSB for the twelve months ended December 31, 2004.

UNAUDITED INFORMATION

The information furnished herein was taken from the books and records of the Company without audit. However, such information reflects all adjustments which are, in the opinion of management, necessary to properly reflect the results of the interim period presented. The information presented is not necessarily indicative of the results from operations expected for the full fiscal year.

7

In this report references to "View Systems," "we," "us," and "our" refer to View Systems, Inc. and its subsidiaries.

## Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

### SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The Securities and Exchange Commission ("SEC") encourages companies to disclose forward-looking information so that investors can better understand future prospects and make informed investment decisions. This report contains these types of statements. Words such as "may," "will," "expect," "believe," "anticipate," "estimate," "project," or "continue" or comparable terminology used in connection with any discussion of future operating results or financial performance identify forward-looking statements. You are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date of this report. All forward-looking statements reflect our present expectation of future events and are subject to a number of important factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

#### EXECUTIVE OVERVIEW

View Systems acquires, develops and markets technologies related to surveillance, detection and security for the purpose of commercializing them. We offer:

- . Visual First Responder - a lightweight, wireless camera system housed in a tough, waterproof flashlight body.
- . SecureScan Concealed Weapons Detection System - a walk-through concealed weapons detector which uses sensing technology and artificial intelligence algorithms to accurately pinpoint the location, size and number of concealed weapons.
- . ViewMaxx Digital Video products - a high-resolution, digital video recording and real-time monitoring system.

Our revenues for the past two years have been from sales of our products. Management believes that heightened attention to terrorism and other security threats, and spending by the United States government on Homeland Security will continue to drive growth in the market for security products.

During 2005 we have continued to provide live demonstrations of our SecureScan product at sporting and entertainment venues, expos, and at state corrections facilities. We also have provided demonstrations of our Visual First Responder for police and civil support teams. These demonstrations have raised interest in our products and resulted in increased orders of our products.

During the last nine months we have contracted with the University of Northern Florida to design new sensor boards for the SecureScan product which has allowed us to reduce the installed sensor cost by a factor of four. The new lower costs allow us to offer price points to the market which compete directly with traditional metal detectors. We feel the new reduced price points and enhanced interface abilities will allow us to be more competitive, along with the advantages of three to four times the throughput rate, non-contact imaging and permanent visual storage, and a log of all individuals scanned.

In August 2005 we contracted with Inter-Connect Electronics, Inc. to manufacture and assemble our Visual First Responder units. We have also contracted with Sports Field Specialties, LLC, an experienced manufacturer, to build the SecureScan line. These manufacturing agreements will allow us to clear our current backlog for our product lines and reduce our labor cost. Our backlog as of the end of July is in excess of \$500,000 in orders and contracts.

## Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

We rely on revenues, private financing and sales of common stock to fund our operations. We have incurred losses

8

for the past two fiscal years and had a net loss of \$184,377 for the six month period ended June 30, 2005. Our auditors have expressed doubt that we can continue as a going concern based on these operating losses. Management believes we will incur operating losses for the near future while we continue to expand our product line and develop our sales and marketing channels. Management continues to seek additional funding to continue our business plan development for the next twelve months. However, we can not assure you that we will be successful at obtaining the necessary funding to continue this development.

For the next twelve months our primary challenge will be to more fully develop our sales and distribution network for the United States. We continue to establish new partnerships, add active resellers and dealers. We intend to build a United States domestic network of manufacturing representatives and dealers for the sale and distribution of our products within the 48 states. Our emphasis has been on marketing and sales programs through dealer channels, plus internal marketing support for our products. We train our dealers and support the dealer network by collaborating at customer demonstrations. However, we cannot assure you that we will be able to develop these sales and distribution channels to a level which will result in increased revenues or continued profitability.

### LIQUIDITY AND CAPITAL RESOURCES

While our revenues are increasing, we are unable to satisfy our operating expenses. Net cash used by operating activities was \$211,201 for the six month period ended June 30, 2005 (the "2005 six month period") compared to \$539,078 for the six month period ended June 30, 2004 (the "2004 six month period"). However, operating expenses for the 2005 periods were less than half of the 2004 comparable periods. However, operating expenses for the 2005 three month period were less than half of the 2004 comparable period.

For the short term, management believes that revenues, advances and sales of our common stock will provide funds for operations and further development of our business plan. For the long term, management expects that the development of our sales and distribution channels will increase our revenues; however, we will need to continue to raise additional funds through loans and sales of our common stock, as needed.

### FINANCING

We have financed our operations primarily through revenues and private financing. Net cash provided by financing activities for the 2005 six month period was \$137,000, primarily from proceeds from sales of common stock. Net cash provided by financing activities for the 2004 six month period was \$538,685, with \$491,685 of that amount related to funds advanced by stockholders. We estimate that we will require additional financing of approximately \$500,000 to meet our needs for the next six months. We intend to use this financing to increase ongoing operations to self-sustaining levels and increase profits.

Management believes that it will be essential to continue to raise additional capital, both internally and externally, to compete in our markets. We cannot

## Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

assure you that we will be able to obtain financing on favorable terms and we may be required to further reduce expenses and scale back our operations. In addition to accessing the public and private equity markets, we will pursue bank credit lines and equipment leases for certain capital expenditures, if necessary.

### COMMITMENTS AND CONTINGENT LIABILITIES

Our base rent for operating leases related to our principal office and manufacturing facility is approximately \$2,300 per month, with an annual rent escalator of 3%. At December 31, 2004, future minimum payments for operating leases related to our office and manufacturing facility were \$19,964 through 2006.

Our total current liabilities of \$394,579 at June 30, 2005 included accounts payable of \$143,377, accrued expenses of \$30,802, accrued interest of \$71,400 and notes payable of \$149,000

9

### OFF-BALANCE SHEET ARRANGEMENTS

None.

### RESULTS OF OPERATIONS

The following discussions are based on the unaudited consolidated financial statements of View Systems and its subsidiaries. These charts and discussions summarize our financial statements for the three and six month periods ended June 30, 2004 and 2005 and should be read in conjunction with the financial statements, and notes thereto, included with this report at Part I, Item 1, above.

#### Summary Comparison of Three and Six Month Period Operations

	Six month period ended June 30, 2005	Six month period ended June 30, 2004	Three month period ended June 30, 2005	Three month period ended June 30, 2004
Revenues, net	\$ 481,556	\$ 192,394	\$ 195,914	\$ 158,041
Cost of sales	229,508	106,198	125,180	73,872
Gross profit	252,048	86,196	70,734	84,169
Total operating expenses	430,887	703,062	223,008	489,694
Total other income (expense)	(5,538)	(28,311)	(5,538)	(25,297)
Net income (loss)	(184,377)	(645,177)	(157,812)	(430,822)
Net earnings (loss)				

## Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

per share                      \$            (0.00) \$            (0.01) \$            (0.00) \$            (0.01)

Revenues for the 2005 six month period increased 150.2% compared to the 2004 six month period due to increased sales of our products. Revenues for the three month period ended June 30, 2005 (the "2005 second quarter") increased 24.0% compared to the three month period ended June 30, 2004 (the "2004 second quarter"). However, costs of sales also increased 65.3% for the 2005 six month period compared to the 2004 six month period and increased 116.0% for the 2005 second quarter compared to the 2004 second quarter. As a result of increased revenues in the 2005 six month period our gross profit increased 192.4% from the 2004 six month period. Due to increased cost of sales, gross profit decreased 16.0% for the 2005 second quarter compared to 2004 second quarter

For the 2005 six month period total operating expense decreased 54.6% compared to the 2004 six month period. For the 2005 second quarter total operating expense decreased 38.7% compared to the 2004 second quarter. The decreases in the 2005 periods was primarily a result of decreases in general and administrative expense and salaries and benefits.

Total other expense for the 2005 and 2004 comparable periods was related to interest on loans.

As a result of the above, our net loss decreased 63.4% for the 2005 six month period compared to the 2004 six month period and decreased 71.4% for the 2005 second quarter compared to the 2004 second quarter.

The following chart summarizes our balance sheet at June 30, 2005 and December 31, 2004

10

### Summary Balance Sheet

	For six month period ended June 30, 2005	For the year ended December 31, 2004
	-----	-----
Cash and cash equivalents	\$            93,269	\$            173,486
Total current assets	133,438	343,025
Total assets	1,937,487	2,151,958
Total current liabilities	394,579	647,324
Retained earnings (Deficit)	(15,875,873)	(15,691,496)
Total stockholders equity	\$    1,542,908	\$    1,504,634

Our total assets decreased at June 30, 2005 primarily as a result of decreases in our total current assets and property and equipment. Total current liabilities decreased primarily due to decreases in accounts payable and accrued expenses.

FACTORS AFFECTING FUTURE PERFORMANCE

## Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

Our independent auditors have expressed concern whether we can continue as a going concern.

We have incurred ongoing operating losses and do not currently have financing commitments in place to meet expected cash requirements for the next twelve months. We are unable to fund our day-to-day operations through revenues alone and management believes we will incur operating losses for the near future while we seek financing commitments during the next twelve months to fund further development of our business plan. While we have expanded our product line and established new sales channels, we may be unable to increase revenues to the point that we attain and are able to maintain profitability.

We are currently dependent on the efforts of our resellers for our continued growth and must expand our sales channels to increase our revenues.

We are in the process of developing and expanding our sales channels, but we expect overall sales to remain down as we develop our marketing activities. If we are unsuccessful in developing sales channels then we may have to scale down our business plan. We are actively recruiting and adding other additional resellers and dealer and must continue to find other methods of distribution to increase customers.

We may not be able to compete successfully in our market because we have a small market share and compete with large national and international companies.

We estimate that we have less than a 1% market share of the surveillance and weapons detection market. We compete with many companies that have greater brand name recognition and significantly greater financial, technical, marketing, and managerial resources. The position of these competitors in the market may prevent us from capturing more market share. We intend to remain competitive by increasing our existing business through marketing efforts, selectively acquiring complementary technologies or businesses and services, and increasing our efficiency and reducing costs.

Our revenues are dependent in part upon our relationships and alliances with government agencies and partners.

11

While we own exclusive licenses for the SecureScan technology, we are dependent upon the continuation of the ongoing contract between the Department of Energy and National Institute of Justice for continuations and improvements to the concealed weapons detection technology. We are also dependent upon the U.S. Department of Energy's Idaho National Engineering and Environmental Laboratory for further development of the Visual First Responder product. If either of these entities should discontinue its operations or research and development we may lose our competitive edge in our markets.

We must successfully introduce new or enhanced products and manage the costs associated with producing several product lines to be successful.

Our future success depends on our ability to continue to improve our existing products and to develop new products using the latest technology that can satisfy customer needs. However, we cannot be certain that we will be successful at producing multiple product lines and we may find that the cost

## Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

of production of multiple product lines inhibits our ability to maintain or improve our gross profit margins. In addition, the failure of our products to gain or maintain market acceptance or our failure to successfully manage our cost of production could adversely affect our financial condition.

We would be harmed if we were unable to use our manufacturing facility.

We assemble and manufacture a portion of our products at our facility located in Baltimore, Maryland. If we were unable to continue manufacturing at this location due to fire, prolonged power shortage or other natural disaster, then we would be unable to supply products to our customers.

### ITEM 3. CONTROLS AND PROCEDURES

Our Chief Executive Officer, who also acts in the capacity of principal financial officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, he concluded that our disclosure controls and procedures were effective.

Also, our Chief Executive Officer determined that there were no significant changes made in our internal controls over financial reporting during the second quarter of 2005 that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

## PART II: OTHER INFORMATION

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

#### Sale of Unregistered Securities

The following discussion describes securities sold by View Systems without registration through a recent date which have not been previously reported.

On March 9, 2005, we issued 200,000 shares of common stock to Liem Nguyen in consideration for a final and full release. We relied on an exemption from registration for a private transaction not involving a public distribution provided by Section 4(2) of the Securities Act.

On April 6, 2005, we issued 87,500 shares of common stock to William H. Zuhone for \$7,000. We relied on an exemption from registration for a private transaction not involving a public distribution provided by Section 4(2) of the Securities Act.

12

On May 3, 2005, we issued 2,000,000 shares of common stock to Clark Companies in consideration for an agreement. We relied on an exemption from registration for a private transaction not involving a public distribution provided by Section 4(2) of the Securities Act.

On May 11, 2005, we issued 200,000 shares of common stock to Jeffrey B. McIntosh for \$10,000. We relied on an exemption from registration for a private transaction not involving a public distribution provided by Section 4(2) of the Securities Act.

## Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

On June 21, 2005, our board of directors authorized the issuance of 522,000 shares of common stock to Martin J. Maassen for advances to View Systems of \$52,000. Our board of directors also authorized the issuance of 230,000 shares of common stock to Michael L. Bagnoli for direct investments to View Systems of \$11,000 and services rendered to the company. We relied on an exemption from registration for a private transaction not involving a public distribution provided by Section 4(2) of the Securities Act.

### ITEM 6. EXHIBITS

#### Part I Exhibits

- 31.1 Chief Executive Officer Certification
- 31.2 Principal Financial Officer Certification
- 32.1 Section 1350 Certification

#### Part II Exhibits

- 3.1 Articles of Incorporation of View Systems, as amended (Incorporated by reference to exhibit 3.1 to Form 10-QSB filed November 14, 2003)
- 3.2 By-Laws of View Systems (Incorporated by reference to exhibit 3.2 to Form 10-QSB filed November 14, 2003)
- 10.1 Employment agreement between View Systems and Gunther Than, dated January 1, 2003. (Incorporated by reference to exhibit 10.3 to Form 10-KSB, filed April 14, 2004)
- 21.1 Subsidiaries (Incorporated by reference to exhibit 21.1 to Form 10-KSB, filed March 31, 2003)

### SIGNATURES

In accordance with the requirements of the Securities Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

VIEW SYSTEMS, INC.
