May 10, 2006

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF  
1934

For the Quarterly Period Ended March 31, 2006

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF  
1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Commission File Number 001-31657

**ARENA RESOURCES, INC.**

(Exact name of registrant as specified in its charter)

Nevada

(State or other jurisdiction of  
Incorporation or organization)

73-1596109

(I.R.S. Employer  
Identification No.)

4920 South Lewis Street, Suite 107

Tulsa, Oklahoma 74105

(Address of principal executive offices)

(918) 747-6060

(Registrant's telephone number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the past 12 months, and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act):

Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practical date:

As of May 2, 2006, the Company had outstanding 13,361,655 shares of common stock (\$0.001 par value).

**Part I Financial Information**

**Item 1. Financial Statements:**

The condensed financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

In the opinion of the Company, all adjustments, consisting of only normal recurring adjustments, necessary to present fairly the financial position of the Company and the results of its operations and its cash flows have been made. The results of its operations and its cash flows for the three months ended March 31, 2006 are not necessarily indicative of the results to be expected for the year ending December 31, 2006.

ARENA RESOURCES, INC.  
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS  
MARCH 31, 2006

**NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES**

**Condensed Financial Statements** The accompanying condensed financial statements have been prepared by the Company and are unaudited. In the opinion of management, the accompanying unaudited financial statements contain all adjustments necessary for fair presentation, consisting of normal recurring adjustments, except as disclosed herein.

The accompanying unaudited interim financial statements have been condensed pursuant to the rules and regulations of the Securities and Exchange Commission; therefore, certain information and disclosures generally included in financial statements have been condensed or omitted. The condensed financial statements should be read in conjunction with the Company's annual financial statements included in its annual report on Form 10-K as of December 31, 2005. The financial position and results of operations for the three months ended March 31, 2006 are not necessarily indicative of the results to be expected for the full year ending December 31, 2006.

**Nature of Operations** The Company owns interests in oil and gas properties located in Oklahoma, Texas, Kansas and New Mexico. The Company is engaged primarily in the acquisition, exploration and development of oil and gas properties and the production and sale of oil and gas.

**Use of Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Oil and Gas Properties** The Company uses the full cost method of accounting for oil and gas properties. Under this method, all costs associated with acquisition, exploration, and development of oil and gas reserves are capitalized. Costs capitalized include acquisition costs, geological and geophysical expenditures, lease rentals on undeveloped properties and costs of drilling and equipping productive and non-productive wells. Drilling costs include directly related overhead costs. Capitalized costs are categorized either as being subject to amortization or not subject to amortization.

All capitalized costs of oil and gas properties, including the estimated future costs to develop proved reserves and estimated future costs of abandonment and site restoration, are amortized on the unit-of-production method using estimates of proved reserves as determined by independent engineers. Investments in unproved properties and major development projects are not amortized until proved reserves associated with the projects can be determined. The Company evaluates oil and gas properties for impairment at least quarterly. Amortization expense for the three months ended March 31, 2006 was \$1,052,462 based on depletion at the rate of \$5.48 per barrel of oil equivalent compared to \$421,599 based on depletion at the rate of \$4.62 per barrel of oil equivalent for the three months ended March 31, 2005. These amounts include \$6,409 and \$4,477 of depreciation on equipment during the three months ended March 31, 2006 and 2005, respectively.

In addition, capitalized costs are subject to a ceiling test which limits such costs to the estimated present value of future net revenues from proved reserves, discounted at a 10-percent interest rate, based on current economic and operating conditions, plus the lower of cost or fair market value of unproved properties. Consideration received from sales or transfers of oil and gas property is accounted for as a reduction of capitalized costs. Revenue is not recognized in connection with contractual services performed in connection with properties in which the Company holds an ownership interest.

ARENA RESOURCES, INC.  
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS  
MARCH 31, 2006

**Income Per Common Share** Basic income per common share is computed by dividing net income by the weighted-average number of common shares outstanding during the period. Diluted income per share reflects the potential dilution that could occur if all contracts to issue common stock were converted into common stock, except for those that are anti-dilutive.

**Concentration of Credit Risk and Major Customer** The Company currently has cash in excess of federally insured limits at March 31, 2006. During the three months ended March 31, 2006, sales to one customer represented 79% of oil and gas revenues. At March 31, 2006, this customer made up 79% of accounts receivable.

**Stock-Based Employee Compensation** Effective January 1, 2006, the Company adopted SFAS No. 123(R), Share-Based Payment ( FAS 123(R) ), an amendment of SFAS No. 123, Accounting for Stock-Based Compensation, using the modified prospective transition method. Under this transition method, compensation costs are recognized beginning with the effective date: (a) based on the requirements of FAS 123(R) for all share-based awards granted after the effective date and (b) based on the requirements of FAS 123 for all awards granted to employees prior to the effective date of FAS 123(R) that remain unvested on the effective date. Accordingly, we did not restate the results of prior periods. The most notable change with the adoption is that compensation expense associated with stock options is now recognized in our Statements of Operations, rather than being disclosed in a pro forma footnote to our financial statements.

As a result of adopting FAS 123(R), we recognized compensation expense related to unvested options in the amount of \$179,767 for the three months ended March 31, 2006. Due to the implementation of FAS 123(R), the remaining \$115,545 in deferred compensation, resulting from of the options issued at a 15% discount, was eliminated against options and warrants outstanding.

Prior to January 1, 2006, the Company accounted for stock options granted under our Stock Option Plan under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25) and related interpretations, as permitted by Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (SFAS No. 123). Under these provisions, prior to January 1, 2005, the Company recognized compensation expense related to the 15% discount amount of the exercise price from the market price of the stock at the date of grant over the five year vesting period of the options. The Company recognized compensation expense for the three months ended March 31, 2005 of \$42,350. Had the Company determined compensation cost based on the fair value at the grant date for its stock options under SFAS No. 123, the Company's net income would have been decreased to the pro forma amounts indicated below for the three months ended March 31, 2005:

**ARENA RESOURCES, INC.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**MARCH 31, 2006**

		<b>For the Three Months Ended March 31, 2005</b>
Net income, as reported	\$	1,286,700
Add: Stock based employee compensation expense included in net income, net of related tax effects		26,553
Deduct: Total stock-based employee compensation expense determined under the fair value based method for all awards, net of related tax effects		(152,217)
<b>Pro Forma Net Income</b>	<b>\$</b>	<b>1,161,036</b>
<b>Income Per Common Share</b>		
Basic, as reported	\$	0.13
Basic, pro forma		0.12
Diluted, as reported	\$	0.11
Diluted, pro forma		0.10

The fair value of the options granted during the three months ended March 31, 2005 was \$1,128,510, or \$3.01 per share, and was estimated on the dates granted using the Black-Scholes option-pricing model with the following weighted average assumptions: dividend yield of 0%, expected volatility of 33.47%, risk-free interest rate of 3.64%, and expected lives of 5 years.

**NOTE 2 EARNINGS PER SHARE INFORMATION**

**ARENA RESOURCES, INC.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**MARCH 31, 2006**

**NOTE 3 ACQUISITION OF OIL AND GAS PROPERTIES**

In January 2006, the Company entered into a definitive agreement to reacquire the working interests and related rights in two different prospects in Comanche and Hamilton Counties, Kansas with combined acreage totaling approximately 20,000. During 2005 the Company sold working interest rights in multiple wells drilled on these prospects, along with rights to participate in additional wells on the acreage. Total consideration provided for the re-acquisitions of these rights and interests was 120,800 shares of common stock, issued in February 2006, valued at \$3,326,832, or \$27.54 per share.

**NOTE 4 NOTES PAYABLE**

In April 2005, the Company entered into an agreement that increased its credit facility to \$50,000,000, with an increased borrowing base of \$35,000,000. Any increases in the borrowing base are subject to written consent by the financial institution. The interest rate is a floating rate equal to the 30, 60 or 90 day LIBOR rate plus 2.25%, currently 7.25% per annum, and is payable monthly. Amounts borrowed under the revolving credit facility are due on April 30, 2008. The revolving credit facility is secured by the Company's principal mineral interests. In order to obtain the revolving credit facility, loans from two officers were subordinated to the position of the bank. The Company is required under the terms of the credit facility to maintain a tangible net worth of \$12,000,000, maintain a 5-to-1 ratio of income before interest, taxes, depreciation, depletion and amortization to interest expense and maintain a current asset to current liability ratio of 1-to-1. At March 31, 2006, the Company was in compliance with all covenants and \$11,000,000 was outstanding under this credit facility, and an additional \$527,500 is reserved under the revolving credit facility as collateral for standby letters of credit issued to various states.

On March 31, 2006, two officers of the Company and the Board of Directors agreed to an extension of the \$400,000 notes payable to the two officers to July 1, 2008, under the same terms as the original notes.

**NOTE 5 ASSET RETIREMENT OBLIGATION**

The Company provides for the obligation to plug and abandon oil and gas wells at the dates properties are acquired or the wells are drilled. The asset retirement obligation is adjusted each quarter for any liabilities incurred or settled during the period, accretion expense and any revisions made to the estimated cash flows. The reconciliation of the asset retirement obligation for the three months ended March 31, 2006 is as follows:

Balance, January 1, 2006	\$ 1,515,347
Liabilities incurred	41,186
Accretion expense	29,304
<hr/>	
Balance, March 31, 2006	\$ 1,585,837
<hr/>	

**NOTE 6 STOCKHOLDERS EQUITY**

**Warrants exercised** During the three months ended March 31, 2006, the Company issued 50,000 shares of common stock for the exercise of warrants for proceeds of \$150,000, or \$3.00 per share.

**Shares issued in property or equipment acquisition** In February 2006, the Company issued 120,800 shares of restricted common stock, valued at \$3,326,832, or \$27.54 per share, as partial consideration for the acquisition of working interests in the Syracuse and Rocky prospects in Comanche and Hamilton Counties, Kansas, as disclosed in Note 3.

Also in February 2006, the Company issued 6,200 shares of restricted common stock, valued at \$181,040, or \$29.20 per share, as part of the cost of a drilling rig that the Company acquired, which was placed in service in April 2006.

**ARENA RESOURCES, INC.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**  
**MARCH 31, 2006**

**Warrants issued** In connection with the July 2005 private placement of common stock, the Company committed to use its best efforts to register such shares with the Securities and Exchange Commission. The Company was unable to effect the registration within the allotted time and was required to issue warrants to acquire 29,126 shares of common stock in January 2006. The exercise price of these warrants is \$10.30 and the warrants expire in January 2011. The Company recognized an expense equal to the fair value of these warrants of \$785,598 as a result of this issuance. The fair value of the warrants was determined using the Black-Scholes option pricing model with the following assumptions: 4.44% risk-free interest rate; 43.42% expected volatility; five year expected life and 0% dividend yield.

**Offering costs** During the three months ended March 31, 2006, the Company incurred \$46,284 in offering costs related to the 2005 Private Placement.

**NOTE 7 CONTINGENCIES AND COMMITMENTS**

**Standby Letters of Credit** A commercial bank has issued standby letters of credit on behalf of the Company to the states of Texas, Oklahoma, New Mexico and Kansas totaling \$527,500 to allow the Company to do business in those states. The standby letters of credit are valid through May 2006 and are collateralized by the revolving credit facility with the bank. The Company intends to renew the standby letters of credit for as long as the Company does business in those states. No amounts have been drawn under the standby letters of credit.

**NOTE 8 SUBSEQUENT EVENTS**

Subsequent to March 31, 2006, option holders exercised 80,000 options, 70,000 having an exercise price of \$3.70 per share and 10,000 having an exercise price of \$4.80 per share. Proceeds from these exercises totaled \$307,000.

Also subsequent to March 31, 2006, underwriters' option/warrant holders exercised 3,461 warrants having an exercise price of \$7.49 per share and 2,962 options having an exercise price of \$9.00 per share. These options and warrants were exercised under the cashless exercise provisions of the warrants or option agreement, resulting in the issuance of 2,736 and 2,217 shares, respectively.

Subsequent to March 31, 2006, the Company issued 50,000 options with an exercise price of \$34.43 under the Company's stock option plan.

Subsequent to March 31, 2006, the Company entered into a new credit agreement increasing the Company's credit facility to \$150,000,000 with a \$65,000,000 borrowing base. Prior to the increase the credit facility had been \$50,000,000, with a \$35,000,000 borrowing base.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*Results of Operations For the Three Months Ended March 31, 2006*

*Oil and natural gas sales.* For the three months ended March 31, 2006, oil and natural gas sales revenue increased \$6,465,660 to \$10,380,395, compared to \$3,914,735 for the same period during 2005. Oil sales increased \$5,802,824 and natural gas sales increased \$662,836. The increases were the result of our increased volumes due to our development throughout 2005 and 2006 and increased average realized sales prices. For the three months ended March 31, 2006, oil sales volume increased 89,907 barrels to 167,167 barrels, compared to 77,260 barrels for the same period in 2005. The average realized per barrel oil price increased 22% from \$45.70 for the three months ended March 31, 2005 to \$55.85 for the three months ended March 31, 2006. For the three months ended March 31, 2006, gas sales volume increased 58,721 thousand cubic feet (MCF) to 142,036 MCF, compared to 83,315 MCF for the same period in 2005. The average realized natural gas price per MCF increased 59% from \$4.61 for the three months ended March 31, 2005 to \$7.35 for the three months ended March 31, 2006.

*Oil and gas production costs.* Our lease operating expenses (LOE) increased from \$812,237 or \$8.91 per barrel of oil equivalent (BOE) for the three months ended March 31, 2005 to \$1,378,419 or \$7.22 per BOE for the three months ended March 31, 2006. The increase in total LOE was due to our development projects throughout 2005 and 2006. The decrease in the per BOE amounts is a result of increased production as a result of the development of our properties.

*Production taxes.* Production taxes as a percentage of oil and natural gas sales were 7% during the three months ended March 31, 2005 and remained steady at 7% for the three months ended March 31, 2006. Production taxes vary from state to state. Therefore, these taxes may vary in the future depending on the mix of production we generate from various states, as well as the possibility that any state may raise its production tax.

*Depreciation, depletion and amortization.* Our depreciation, depletion and amortization expense increased by \$630,863 to \$1,052,462 for the three months ended March 31, 2006, compared to the same period in 2005. The increase was a result of an increase in volume and in the average depreciation, depletion and amortization rate from \$4.62 per BOE during the three months ended March 31, 2005 to \$5.48 per BOE during the three months ended March 31, 2006. The increased depreciation, depletion and amortization rate was the result of a revision to our reserves and increased capitalized costs and development costs.

*General and administrative expenses.* General and administrative expenses increased by \$311,855 to \$703,932 for the three months ended March 31, 2006, compared to the same period in 2005. A portion of this increase was due to the adoption of FASB 123(R) which resulted in the recognition of compensation expense of \$179,767. The remaining increase was primarily related to increases in compensation expense associated with an increase in personnel required to administer our growth.

*Other financing expense.* Other financing expense was \$785,598 for the three months ended March 31, 2006, compared to \$0 in 2005. This financing expense relates to the issuance in the first quarter of 2006 of warrants associated with the 2005 private offering and subsequent registration of common stock.

*Interest expense.* Interest expense decreased \$46,715 to \$46,684 for the three months ended March 31, 2006 when compared to the same period in 2005. The decrease was due to lower outstanding debt over the full quarter.

*Income tax expense.* Our effective tax rate was 37% during the three months ended March 31, 2005 and remained steady at 37% for the three months ended March 31, 2006.

## Edgar Filing: ARENA RESOURCES INC - Form 10-Q

*Net income.* Net income increased from \$1,286,700 for the three months ended March 21, 2005 to \$3,582,676 for the same period in 2006. The primary reasons for this increase include increased volumes as a result of the development of our properties and higher crude oil prices between periods, partially offset by higher lease operating expense, general and administrative expense and income tax expense due to our growth.

### *Revenues Year to Date by Geographic Section*

Arena reports its net oil and gas revenues for the year to date as applicable to the following geographic sectors:

#### **OIL**

	Net Production Volume	Net Revenue
Texas Leases	103,583 BBLS	\$ 5,769,828
Oklahoma Leases	11,701 BBLS	\$ 698,850
New Mexico Leases	51,883 BBLS	\$ 2,868,157

#### **GAS**

	Net Production Volume	Net Revenue
Texas Leases	55,744 MCF	\$ 398,467
Oklahoma Leases	6,439 MCF	\$ 33,764
New Mexico Leases	47,775 MCF	\$ 424,157
Kansas	32,078 MCF	\$ 187,172

### *Significant Subsequent Events occurring after March 31, 2006:*

Subsequent to March 31, 2006, option holders exercised 80,000 options, 70,000 having an exercise price of \$3.70 per share and 10,000 having an exercise price of \$4.80 per share. Proceeds from these exercises totaled \$307,000.

Also subsequent to March 31, 2006, option/warrant holders exercised 3,461 warrants having an exercise price of \$7.49 per share and 2,962 options having an exercise price of \$9.00 per share. These options and warrants were exercised under the cashless exercise provisions of the warrants or option agreement, resulting in the issuance of 2,736 and 2,217 shares, respectively.

Subsequent to March 31, 2006, the Company issued 50,000 options with an exercise price of \$34.43 under the Company's stock option plan.

Subsequent to March 31, 2006, the Company entered into a new credit agreement increasing the Company's credit facility to \$150,000,000 with a \$65,000,000 borrowing base. Prior to the increase the credit facility had been \$50,000,000, with a \$35,000,000 borrowing base. The details of this transaction are shown below under *Capital Resources and Liquidity*.

### *Capital Resources and Liquidity*

As shown in the financial statements for the three months ended March 31, 2006, the Company had cash on hand of \$7,650,020, compared to \$4,317,114 as of December 31, 2005. The Company had positive net cash flows from operations for the three months ended March 31, 2006 of \$6,114,193, compared to \$1,258,365 for the same period 2005. Other significant source of cash inflow was \$11,000,000 drawn down on the Company's credit facility in 2006 and \$5,672,607 net proceeds from the exercise of warrants in 2005. The most significant cash outflows during the three months ended March 31, 2006 and 2005 were capital expenditures of \$13,446,705 in 2006 and \$1,409,705 in 2005 and repayment of debt on the Company's credit facility of \$5,000,000 in 2005.

## Edgar Filing: ARENA RESOURCES INC - Form 10-Q

In April 2005, the Company entered into an agreement that increased its credit facility to \$50,000,000, with an increased borrowing base of \$35,000,000. Any increases in the borrowing base are subject to written consent by the financial institution. The interest rate is a floating rate equal to the 30, 60 or 90 day LIBOR rate plus 2.25%, currently 7.25% per annum, and is payable monthly. Amounts borrowed under the revolving credit facility are due on April 30, 2008. The revolving credit facility is secured by the Company's principal mineral interests. In order to obtain the revolving credit facility, loans from two officers were subordinated to the position of the bank. The Company is required under the terms of the credit facility to maintain a tangible net worth of \$12,000,000, maintain a 5-to-1 ratio of income before interest, taxes, depreciation, depletion and amortization to interest expense and maintain a current asset to current liability ratio of 1-to-1. At March 31, 2006, the Company was in compliance with all covenants and \$11,000,000 was outstanding under this credit facility, and an additional \$527,500 is reserved under the revolving credit facility as collateral for standby letters of credit issued to various states.

Subsequent to March 31, 2006, the Company entered into an agreement that increased the facility to \$150,000,000, with an increased borrowing base of \$65,000,000. At this time, the agreement was expanded from a single lender to a syndicate of lenders and the maturity date was extended to May 3, 2008. All other covenants and conditions remained the same.

### *Disclosures About Market Risks*

Like other natural resource producers, Arena faces certain unique market risks. The two most salient risk factors are the volatile prices of oil and gas and certain environmental concerns and obligations.

#### Oil and Gas Prices

Current competitive factors in the domestic oil and gas industry are unique. The actual price range of crude oil is largely established by major international producers. Pricing for natural gas is more regional. Because domestic demand for oil and gas exceeds supply, there is little risk that all current production will not be sold at relatively fixed prices. To this extent Arena does not see itself as directly competitive with other producers, nor is there any significant risk that the Company could not sell all production at current prices with a reasonable profit margin. The risk of domestic overproduction at current prices is not deemed significant. The primary competitive risks would come from falling international prices which could render current production uneconomical.

Secondarily, Arena is presently committed to use the services of the existing gatherers in its present areas of production. This gives to such gatherers certain short term relative monopolistic powers to set gathering and transportation costs, because obtaining the services of an alternative gathering company would require substantial additional costs since an alternative gatherer would be required to lay new pipeline and/or obtain new rights-of-way in the lease.

It is also significant that more favorable prices can usually be negotiated for larger quantities of oil and/or gas product, such that Arena views itself as having a price disadvantage to larger producers. Large producers also have a competitive advantage to the extent they can devote substantially more resources to acquiring prime leases and resources to better find and develop prospects.

#### Environmental

Oil and gas production is a highly regulated activity which is subject to significant environmental and conservation regulations both on a federal and state level. Historically, most of the environmental regulation of oil and gas production has been left to state regulatory boards or agencies in those jurisdictions where there is significant gas and oil production, with limited direct regulation by such federal agencies as the Environmental Protection Agency. However, while the Company believes this generally to be the case for its production activities in Texas, Oklahoma, Kansas and New Mexico, it should be noticed that there are various Environmental Protection Agency regulations which would govern significant spills, blow-outs, or uncontrolled emissions.

## Edgar Filing: ARENA RESOURCES INC - Form 10-Q

In Oklahoma, Texas, Kansas and New Mexico specific oil and gas regulations exist related to the drilling, completion and operations of wells, as well as disposal of waste oil. There are also procedures incident to the plugging and abandonment of dry holes or other non-operational wells, all as governed by the Oklahoma Corporation Commission, Oil and Gas Division, the Texas Railroad Commission, Oil and Gas Division, the Kansas Corporation Commission, Oil and Gas Division or the New Mexico Oil Conservation Division.

Compliance with these regulations may constitute a significant cost and effort for Arena. No specific accounting for environmental compliance has been maintained or projected by Arena to date. Arena does not presently know of any environmental demands, claims, or adverse actions, litigation or administrative proceedings in which it or the acquired properties are involved or subject to or arising out of its predecessor operations.

In the event of a breach of environmental regulations, these environmental regulatory agencies have a broad range of alternative or cumulative remedies to include: ordering a clean up of any spills or waste material and restoration of the soil or water to conditions existing prior to the environmental violation; fines; or enjoining further drilling, completion or production activities. In certain egregious situations the agencies may also pursue criminal remedies against the Company or its principals.

### *Forward-Looking Information*

Certain statements in this Section and elsewhere in this report are forward-looking in nature and relate to trends and events that may affect the Company's future financial position and operating results. Such statements are made pursuant to the safe harbor provision of the *Private Securities Litigation Reform Act of 1995*. The terms expect, anticipate, intend, and project and similar words or expressions are intended to identify forward-looking statements. These statements speak only as of the date of this report. The statements are based on current expectations, are inherently uncertain, are subject to risks, and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors, including changes in economic conditions in the markets served by the company, increasing competition, fluctuations in raw materials and energy prices, and other unanticipated events and conditions. It is not possible to foresee or identify all such factors. The company makes no commitment to update any forward-looking statement or to disclose any facts, events, or circumstances after the date hereof that may affect the accuracy of any forward-looking statement.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

#### *Interest Rate Risk*

The Company is subject to interest rate risk on its revolving credit facility, which bears variable interest based upon a LIBOR rate. Changes in interest rates affect the interest earned on the Company's cash and cash equivalents and the interest rate paid on borrowings under its bank credit facility. Currently, the Company does not use interest rate derivative instruments to manage exposure to interest rate changes.

*Commodity Price Risk*

The Company's revenues, profitability and future growth depend substantially on prevailing prices for oil and natural gas. Prices also affect the amount of cash flow available for capital expenditures and Arena's ability to borrow and raise additional capital. The amount the Company can borrow under its bank credit facility is subject to periodic redetermination based in part on changing expectations of future prices. Lower prices may also reduce the amount of oil and natural gas that the Company can economically produce. Arena currently sells all of its oil and natural gas production under price sensitive or market price contracts.

Arena does not currently use derivative commodity instruments or similar financial instruments to attempt to hedge commodity price risks associated with future oil and natural gas production.

*Currency Exchange Rate Risk*

Foreign sales accounted for none of the Company's sales; further, the Company accepts payment for its commodity sales only in U.S. dollars; hence, Arena is not exposed to foreign currency exchange rate risk on these sales.

**Item 4. Controls and Procedures**

*Evaluation of Disclosure Controls and Procedures*

The Company maintains controls and procedures designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. At the end of the period covered by this Quarterly Report on Form 10-Q, the Company's management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that as of the end of such period the Company's disclosure control and procedures are effective in alerting them to material information that is required to be included in the reports the Company files or submits under the Securities Exchange Act of 1934.

*Changes in Internal Controls Over Financial Reporting*

There have been no changes in the Company's internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Part II Other Information**

**Item 1. Legal Proceedings**

None.

**Item 1A. Risk Factors**

There have been no material changes in the risk factors previously described in Item 1A to Part I of our Form 10-K filed on March 16, 2006.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

During the three months ended March 31, 2006, the Company issued 120,800 shares of common stock as consideration for an acquisition in Kansas that has not yet closed. The shares were valued at \$3,326,832, or \$27.54 per share. The shares were issued in transactions not involving a public offering in reliance upon the exemption from registration provided by Section 4(2) of the Securities Act of 1933. The persons to whom the shares were issued in exchange for the warrants had access to full information concerning the Company and represented that they acquired the shares for their own account and not for the purpose of distribution. The certificates for the shares contain a restricted legend advising that the shares may not be offered for sale, sold or otherwise transferred without having first been registered under the 1933 Act or pursuant to an exemption from registration under the 1933 Act. There was no underwriter involved in these transactions.

During the three months ended March 31, 2006, the Company issued 6,200 shares of common stock as partial consideration for the acquisition of a drilling rig. The shares were valued at \$181,040, or \$29.20 per share. The shares were issued in transactions not involving a public offering in reliance upon the exemption from registration provided by Section 4(2) of the Securities Act of 1933. The persons to whom the shares were issued in exchange for the warrants had access to full information concerning the Company and represented that they acquired the shares for their own account and not for the purpose of distribution. The certificates for the shares contain a restricted legend advising that the shares may not be offered for sale, sold or otherwise transferred without having first been registered under the 1933 Act or pursuant to an exemption from registration under the 1933 Act. There was no underwriter involved in these transactions.

**Item 3. Defaults Upon Senior Securities**

None.

**Item 4. Submission of Matters to a Vote of Security Holders**

None.

**Item 5. Other Information**

None.

**Item 6. Exhibits**
