August 01, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q
(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number 1-31429

Valmont Industries, Inc.
(Exact name of registrant as specified in its charter)
Delaware 47-0351813
(State or Other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)
One Valmont Plaza,
Omaha, Nebraska 68154-5215
(Address of Principal Executive Offices) (Zip Code)

(402) 963-1000
(Registrant's telephone number, including area code)
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Sections 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non accelerated filer Smaller reporting company
Emerging growth company (Do not check if a smaller reporting company)

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Condensed Consolidated Financial Statements

The Condensed Consolidated Balance Sheet as of June 30, 2018, the Condensed Consolidated Statements of Earnings and Comprehensive Income for the thirteen and twenty-six weeks ended June 30, 2018 and July 1, 2017, and the Condensed Consolidated Statements of Cash Flows and Shareholders' Equity for the twenty-six week periods then ended have been prepared by the Company, without audit. In the opinion of management, all necessary adjustments (which include normal recurring adjustments) have been made to present fairly the financial statements as of June 30, 2018 and for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These Condensed Consolidated Financial Statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2017. The accounting policies and methods of computation followed in these interim financial statements are the same as those followed in the financial statements for the year ended December 30, 2017 with the exception of the revenue recognition accounting policy which changed from adopting ASU 2014-09 and is discussed later within this footnote. The results of operations for the period ended June 30, 2018 are not necessarily indicative of the operating results for the full year.

Inventories

Approximately 37% and 37% of inventory is valued at the lower of cost, determined on the last-in, first-out (LIFO) method, or market as of June 30, 2018 and December 30, 2017. All other inventory is valued at the lower of cost, determined on the first-in, first-out (FIFO) method or market. Finished goods and manufactured goods inventories include the costs of acquired raw materials and related factory labor and overhead charges required to convert raw materials to manufactured and finished goods. The excess of replacement cost of inventories over the LIFO value is approximately \$46,459 and \$43,727 at June 30, 2018 and December 30, 2017, respectively.

Inventories consisted of the following:

	June 30, 2018	December 30, 2017
Raw materials and purchased parts	\$ 191,918	\$ 183,029
Work-in-process	19,500	30,671
Finished goods and manufactured goods	217,012	250,975
Subtotal	428,430	464,675
Less: LIFO reserve	46,459	43,727
	\$ 381,971	\$ 420,948

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

Earnings before income taxes and equity in earnings of nonconsolidated subsidiaries for the thirteen and twenty-six weeks ended June 30, 2018 and July 1, 2017, were as follows:

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	2018	2017	2018	2017
United States	\$42,336	\$50,773	\$84,101	\$86,197
Foreign	6,749	17,634	17,996	37,534
	\$49,085	\$68,407	\$102,097	\$123,731

The Company estimated and recognized provisional amounts at December 30, 2017 for the following aspect of the 2017 Tax Act:

Deemed Repatriation transition tax: The Deemed Repatriation transition tax ("Transition Tax") is a tax on unremitted foreign earnings of certain foreign subsidiaries, which subjected the Company's unremitted foreign earnings of approximately \$400,000 to tax at certain specified rates less associated foreign tax credits. The Company recorded a provisional Transition Tax obligation of \$9,890.

Indefinite reinvestment assertion: The Company's position is that unremitted foreign earnings subject to the Transition Tax are not indefinitely reinvested. The Company recorded a provisional amount of the deferred income taxes for foreign withholding taxes and U.S. state income taxes of \$10,373 and \$1,300, respectively. The Company also continues to gather additional information to determine its permanently reinvested position with respect to future foreign earnings.

No adjustments to these 2017 Tax Act amounts were recognized during the first half of 2018. However, the Company may adjust these provisional amounts in future quarters of 2018 after assessing additional implementation guidance as it becomes available.

Pension Benefits

The Company incurs expenses in connection with the Delta Pension Plan ("DPP"). The DPP was acquired as part of the Delta plc acquisition in fiscal 2010 and has no members that are active employees. In order to measure expense and the related benefit obligation, various assumptions are made including discount rates used to value the obligation, expected return on plan assets used to fund these expenses and estimated future inflation rates. These assumptions are based on historical experience as well as current facts and circumstances. An actuarial analysis is used to measure the expense and liability associated with pension benefits.

The components of the net periodic pension (benefit) expense for the thirteen and twenty-six weeks ended June 30, 2018 and July 1, 2017 were as follows:

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	2018	2017	2018	2017
Net periodic (benefit) expense:				
Interest cost	\$4,486	\$4,478	\$9,202	\$8,799
Expected return on plan assets	(5,815)	(5,054)	(11,929)	(9,931)
Amortization of actuarial loss	764	736	1,568	1,446

Net periodic expense (benefit) \$(565) \$160 \$(1,159) \$314

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Stock Plans

The Company maintains stock based compensation plans approved by the shareholders, which provide that the Human Resource Committee of the Board of Directors may grant incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock awards, restricted stock units, and bonuses of common stock. At June 30, 2018, 1,700,000 shares of common stock remained available for issuance under the plans.

Under the plans, the exercise price of each option equals the closing market price at the date of the grant. Options vest beginning on the first anniversary of the grant in equal amounts over three to six years or on the grant's fifth anniversary. Expiration of grants is from seven to ten years from the date of grant. Restricted stock units and awards generally vest in equal installments over three years beginning on the first anniversary of the grant.

The Company's compensation expense (included in selling, general and administrative expenses) and associated income tax benefits related to stock options and restricted stock for the thirteen and twenty-six weeks ended June 30, 2018 and July 1, 2017, respectively, were as follows:

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	2018	2017	2018	2017
Compensation expense	\$2,599	\$2,096	\$5,374	\$4,590
Income tax benefits	650	807	1,344	1,767

Fair Value

The Company applies the provisions of Accounting Standards Codification 820, Fair Value Measurements ("ASC 820") which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The provisions of ASC 820 apply to other accounting pronouncements that require or permit fair value measurements. As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

ASC 820 establishes a three level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Trading Securities: The assets and liabilities recorded for the investments held in the Valmont Deferred Compensation Plan of \$39,508 (\$39,091 at December 30, 2017) represent mutual funds, invested in debt and equity securities, classified as trading securities in accordance with Accounting Standards Codification 320, Accounting for Certain

Investments in Debt and Equity Securities, considering the employee's ability to change investment allocation of their deferred compensation at any time.

The Company's ownership of shares in Delta EMD Pty. Ltd. (JSE:DTA) is also classified as trading securities. The shares are valued at \$1,686 and \$1,951 as of June 30, 2018 and December 30, 2017, respectively, which is the estimated fair value. Quoted market prices are available for these securities in an active market and therefore categorized as a Level 1 input.

Comprehensive Income

Comprehensive income includes net earnings, currency translation adjustments, certain derivative-related activity and changes in net actuarial gains/losses from a pension plan. Results of operations for foreign subsidiaries are translated using the average exchange rates during the period. Assets and liabilities are translated at the exchange rates in effect on the balance sheet dates. Accumulated other comprehensive income (loss) consisted of the following at June 30, 2018 and December 30, 2017:

	Foreign Currency Translation Adjustments	Gain/(Loss) on Hedging Activities	Defined Benefit Pension Plan	Accumulated Other Comprehensive Loss
Balance at December 30, 2017	\$(171,399)	\$ 6,357	\$(113,980)	\$(279,022)
Current-period comprehensive income (loss)	(43,091)	529	—	(42,562)
Divestiture of grinding media business	9,203	1,215	—	10,418

Balance at June 30, 2018	\$ (205,287)	\$ 8,101	\$(113,980)	\$ (311,166)
Revenue Recognition				

On December 31, 2017, the Company adopted Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). The Company elected to use the modified retrospective approach for the adoption of the new revenue standard. The cumulative effect of initially applying the new revenue standard was recorded as an adjustment to the opening balance of retained earnings, which impacted the Condensed Consolidated Balance Sheet as follows:

Operating Income	\$63,670	\$66,707	\$(3,037)	\$127,630	\$125,592	\$2,038

The Company determines the appropriate revenue recognition for our contracts by analyzing the type, terms and conditions of each contract or arrangement with a customer. Contracts with customers for all businesses are fixed-price with sales tax excluded from revenue, and do not include variable consideration. Discounts included in contracts with customers, typically early pay discounts, are recorded as a reduction of net sales in the period in which the sale is recognized. Contract revenues are classified as product when the performance obligation is related to the manufacturing of goods. Contract revenues are classified as service when the performance obligation is the performance of a service. Service revenue is primarily related to the Coatings segment.

Customer acceptance provisions exist only in the design stage of our products and acceptance of the design by the customer is required before the project is manufactured and delivered to the customer. The Company is not entitled to any compensation solely based on design of the product and does not recognize revenue associated with the design stage. There is one performance obligation for revenue recognition. No general rights of return exist for customers

once the product has been delivered and the Company establishes provisions for estimated warranties. The Company does not sell extended warranties for any of its products.

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Shipping and handling costs associated with sales are recorded as cost of goods sold. The Company elected to use the practical expedient of treating freight as a fulfillment obligation instead of a separate performance obligation and ratably recognize freight expense as the structure is being manufactured, when the revenue from the associated customer contract is being recognized over time. With the exception of the Utility segment and the wireless communication structures product line, the Company's inventory is interchangeable for a variety of each segment's customers. The Company elected the practical expedient to not disclose the partially satisfied performance obligation at the end of the period when the contract has an original expected duration of one year or less. In addition, the Company elected the practical expedient to not adjust the amount of consideration to be received in a contract for any significant financing component if payment is expected within twelve months of transfer of control of goods or services; the Company expects all consideration to be received in one year or less at contract inception.

Segment and Product Line Revenue Recognition

The global Utility segment revenues are derived from manufactured steel and concrete structures for the North America utility industry and offshore and other complex structures used in energy generation and distribution outside of the United States. Steel and concrete utility structures are engineered to customer specifications resulting in limited ability to sell the structure to a different customer if an order is canceled after production commences. The continuous transfer of control to the customer is evidenced either by contractual termination clauses or by our rights to payment for work performed to-date plus a reasonable profit as the products do not have an alternative use to the Company. Since control is transferring over time, revenue is recognized based on the extent of progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment. For our steel and concrete utility and wireless communication structure product lines, we generally recognize revenue on an inputs basis, using total production hours incurred to-date for each order as a percentage of total hours estimated to produce the order. The completion percentage is applied to the order's total revenue and total estimated costs to determine reported revenue, cost of goods sold and gross profit. Production of an order, once started, is typically completed within three months. Revenue from the offshore and other complex structures business is also recognized using an inputs method, based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. External sales agents are used in certain sales of steel and concrete structures; the Company has chosen to use the practical expedient to expense estimated commissions owed to third parties by recognizing them proportionately as the goods are manufactured.

The global ESS segment revenues are derived from the manufacture and distribution of engineered metal, composite structures and components for lighting and traffic and roadway safety, engineered access systems, and wireless communication. For the lighting and traffic and roadway safety product lines, revenue is recognized upon shipment or delivery of goods to the customer depending on contract terms, which is the same point in time that the customer is billed. For Access Systems, revenue is generally recognized upon delivery of goods to the customer which is the same point in time that the customer is billed. The wireless communication product line has large regional customers who have unique product specifications for communication structures. When the customer contract includes a cancellation clause that would require them to pay for work completed plus a reasonable margin if an order was canceled, revenue is recognized over time based on hours worked as a percent of total estimated hours to complete production. For the remaining wireless communication product line customers which do not provide a contractual right to bill for work completed on a canceled order, revenue is recognized upon shipment or delivery of the goods to the customer which is the same point in time that the customer is billed.

The global Coatings segment revenues are derived by providing coating services to customers' products, which include galvanizing, anodizing, and powder coating. Revenue is recognized once the coating service has been performed and

the goods are ready to be picked up or delivered to the customer which is the same time that the customer is billed. The global Irrigation segment revenues are derived from the manufacture of agricultural irrigation equipment and related parts and services for the agricultural industry and tubular products for industrial customers. Revenue recognition for the irrigation segment is generally upon shipment of the goods to the customer which is the same point in time that the customer is billed. The remote monitoring subscription services are primarily billed annually and revenue is recognized on a straight-line basis over the subsequent twelve months.

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Disaggregation of revenue by product line is disclosed in the Segment footnote. A breakdown by segment of revenue recognized over time and revenue recognized at a point in time for the thirteen and twenty-six weeks ended June 30, 2018 is as follows:

	Point in Time Thirteen weeks ended June 30, 2018	Over Time Thirteen weeks ended June 30, 2018	Point in Time Twenty-six weeks ended June 30, 2018	Over Time Twenty-six weeks ended June 30, 2018
Utility Support Structures	\$—	\$ 196,531	\$—	\$ 406,390
Engineered Support Structures	237,720	8,321	444,914	17,043
Coatings	74,539	—	142,997	—
Irrigation	157,800	2,813	341,034	5,631
Other	4,681	—	23,080	—
Total	\$474,740	\$207,665	\$ 952,025	\$ 429,064

The Company's contract asset as of June 30, 2018 is \$92,585. This amount is included within prepaid expenses and other assets line item within current assets. The contract assets attributable to the cumulative effect from the adoption of the new revenue recognition guidance was \$51,507; the contract asset at December 30, 2017, attributable to the offshore and other complex structures product line, was \$16,165. Both steel and concrete utility customers are generally invoiced upon shipment or delivery of the goods to the customer's specified location and there are normally no up-front or progress payments. The offshore and complex steel structures business invoices customers a number of ways including advanced billings, progress billings, and billings upon shipment.

At June 30, 2018 and December 30, 2017, the contract liability for revenue recognized over time was \$4,669 and \$7,368. The contract liability is included in Accrued Expenses on the Condensed Consolidated Balance Sheets. During the twenty-six weeks ended June 30, 2018, the Company recognized \$4,456 of revenue that was included in the liability as of December 30, 2017. The revenue recognized was due to applying advance payments received for projects completed during the period.

Hedging Activities

The Company manages interest rate risk, commodity price risk, and foreign currency risk related to foreign currency denominated transactions and investments in foreign subsidiaries. Depending on the circumstances, the Company may manage these risks by utilizing derivative financial instruments. Some derivative financial instruments are marked to market and recorded in the Company's consolidated statements of earnings, while others may be accounted for as fair value, cash flow, or net investment hedges. Derivative financial instruments have credit and market risk. The Company manages these risks of derivative instruments by monitoring limits as to the types and degree of risk that can be taken, and by entering into transactions with counterparties who are recognized, stable multinational banks. Fair value of derivative instruments at June 30, 2018 and December 30, 2017 are as follows:

Derivatives designated as hedging instruments: Balance sheet location	June 30, 2018	December 30, 2017
Commodity forward contracts	Prepaid expenses and other assets	\$ 1,345 \$ —

Edgar Filing: VALMONT INDUSTRIES INC - Form 10-Q

Foreign currency forward contracts	Prepaid expenses and other assets	2,005	—
Foreign currency forward contracts	Accrued expenses	—	(826)
		\$3,350	\$ (826)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the second quarter of 2016, the Company entered into a one-year foreign currency forward contract which qualified as a net investment hedge, in order to mitigate foreign currency risk on a portion of our investments denominated in British pounds. The forward contract had a notional amount to sell British pounds and receive \$44,000, and matured in May 2017. The realized gain of \$5,123 (\$3,150 after tax) has been deferred in other comprehensive income (OCI) where it will remain until the Company's net investments in its British subsidiaries are divested.

In the third quarter of 2017, the Company entered into two six-month foreign currency forward contracts which qualified as net investment hedges, in order to mitigate foreign currency risk on the grinding media business that is denominated in both Australian dollars and British pounds. The Company announced its intention to divest of this business in August 2017 and finalized the sale in the second quarter. The forward contracts had a maturity date of January 2018 and a notional amount to sell British pounds and Australian dollars to receive \$24,059 and \$21,222, respectively. As regulatory approval was still pending at maturity of the contracts, the Company chose to extend the Australian dollar contract through April 2018 which was the planned date of divestiture. Due to the sale of the grinding media business in the second quarter of 2018, the Company reclassified the net investment hedge loss of \$1,621 (\$1,215 after tax) from OCI to Loss from divestiture of grinding media business in the Statements of Earnings.

In the first quarter of 2018, the Company entered into a steel hot rolled coil forward contract which qualified as a cash flow hedge of the variability in the cash flows attributable to future steel purchases. The forward contract has a notional amount of \$7,142 for the purchase of 1,500 short tons for each month from July 2018 to December 2018. During the second quarter of 2018, the Company entered into an additional steel hot rolled coil forward contract with a notional amount of \$7,185 for an additional 2,000 short tons for each month from July to September 2018 and 1,000 short tons for each month from October to December 2018. The unrealized gain on the hedges of \$1,345 is recorded in OCI. The gain/(loss) upon settlement will be recognized in earnings based on average inventory turns.

In the second quarter of 2018, the Company entered into a two foreign currency forward contracts which qualified as net investment hedges, each for a two year term, to mitigate foreign currency risk of the Company's investment in its Australian dollar and euro denominated businesses. The forward contracts have a maturity date of May 2020 and notional amounts to sell Australian dollars and euro to receive \$100,000 and \$50,000, respectively. The unrealized gain recorded in OCI for the Australian dollar and euro net investment hedges at June 30, 2018 are \$857 and \$1,148, respectively.

On June 19, 2018, the Company issued and sold \$200,000 aggregate principal amount of the Company's 5.00% senior notes due 2044 and \$55,000 aggregate principal amount of the Company's 5.25% senior notes due 2054. During the second quarter of 2018, the Company executed a contract to lock in the interest rate related to the issuance of the 2044 Notes and an additional contract to lock in the interest rate on the 2054 Notes. These contracts, with a combined notional amount of \$175,000, were executed to hedge the risk of potential fluctuations in the treasury rates which would change the amount of net proceeds received from the debt offering. On June 8, 2018, these contracts were settled with the Company paying \$2,467 to the counterparties which was recorded in OCI and will be amortized as an increase to interest expense over the term of the debt.

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Adopted Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-9, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Accounting Standards Codification ("ASC") 605, Revenue Recognition. Effective December 31, 2017, the Company adopted Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). The Company elected the modified retrospective approach for the adoption of the new revenue standard, resulting in a credit to retained earnings being recognized for \$9,771. The Company calculated the cumulative effect on revenue of approximately \$51,507 with \$13,121 of pre-tax operating income; these were customer orders for the steel utility, concrete utility, and wireless communication structures product lines at various stages of production at December 30, 2017.

In March 2017, the FASB issued ASU 2017-07, Presentation of Net Periodic Benefit Cost Related to Defined Benefit Plans, which amends the income statement presentation requirements for the components of net periodic benefit cost for an entity's defined benefit pension and post-retirement plans. The Company adopted this ASU in the first quarter of 2018, recognizing the DPP net periodic pension expense within Other income (expense). The Company also reclassified \$160 and \$314 of DPP net periodic pension expense for second quarter and first half of 2017 out of selling, general, and administrative expense and into Other expense.

In December 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash, which requires amounts generally described as restricted cash and restricted cash equivalents to be included within cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown in the statement of cash flows.

The Company adopted the ASU in the first quarter of 2018, recasting the beginning-of-period and end-of-period total cash and cash equivalent amounts on the statement of cash flows to include the £10,000 restricted cash account for the pension plan at December 31, 2016, thus reducing cash flows from operating activities by \$12,568 in 2017. The Company did not have any restricted cash at June 30, 2018 or December 30, 2017.

In August 2017, the FASB issued ASU 2017-12, Targeted Improvements to Accounting for Hedging Activities, which improves the financial reporting of hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. ASU 2017-12 is effective for periods and fiscal years beginning after December 15, 2018. Early adoption is permitted for any interim period post issuance. The Company adopted this ASU in the first quarter of 2018, which did not have a material impact on the consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments in the Statement of Cash Flows, which provides more specific guidance on cash flow presentation for certain transactions. ASU 2016-15 is effective for interim periods and fiscal years beginning after December 15, 2017, with early adoption permitted. The Company adopted this ASU in the first quarter of 2018, which did not have a material impact on the consolidated financial statements.

In October 2016, the FASB issued ASU 2016-16, Intra-Entity Transfers of Assets Other than Inventory, which requires the Company to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs, as opposed to when it is sold to an outside party. The Company adopted this standard in 2018 and the result was an increase to retained earnings of \$1,038.

Recently Issued Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases, which provides revised guidance on leases requiring lessees to recognize a right-of-use asset and a lease liability for virtually all of their leases (other than leases that meet the definition of a short-term lease). ASU 2016-02 is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the effect of adopting this new accounting guidance but expects the adoption will result in a significant increase in total assets and liabilities.

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(2) ACQUISITIONS

On January 26, 2018, the Company acquired 60% of the assets of Torrent Engineering and Equipment ("Torrent") for \$4,800 in cash. Torrent operates in Indiana and is an integrator of prefabricated pump stations that involves designing high pressure water and compressed air process systems. Torrent has annual sales of approximately \$9,000. In the purchase price allocation, goodwill of \$3,922 and \$4,020 of customer relationships and other intangible assets were recorded. A portion of the goodwill is deductible for tax purposes. Torrent is included in the Irrigation segment and was acquired to expand the Company's water management capabilities. The purchase price allocation was finalized in the second quarter of 2018. Proforma disclosures were omitted as this business does not have a significant impact on the Company's financial results.

On July 31, 2017, the Company purchased Aircon Guardrails Private Limited ("Aircon") for \$5,362 in cash, net of cash acquired, plus assumed liabilities. Aircon produces highway safety systems including guardrails, structural metal products, and solar structural products in India with annual sales of approximately \$10,000. In the purchase price allocation, goodwill of \$3,327 and \$2,109 of customer relationships and other intangible assets were recorded.

Goodwill is not deductible for tax purposes. This business is included in the Engineered Support Structures segment and was acquired to expand the Company's geographic presence in the Asia-Pacific region. The purchase price allocation was finalized in the fourth quarter of 2017. Proforma disclosures were omitted as this business does not have a significant impact on the Company's financial results.

Acquisitions of Noncontrolling Interests

In March 2018, the Company acquired the remaining 10% of Valmont Industria e Commercio Ltda. that it did not own for \$5,510. As this transaction was for the acquisition of all of the remaining shares of a consolidated subsidiary with no change in control, it was recorded within shareholders' equity and as a financing activity in the Consolidated Statements of Cash Flows.

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(3) DIVESTITURE

On April 30, 2018, the Company completed the sale of Donhad, its grinding media business in Australia, reported in the Other segment. The business was sold because it did not fit the long-term strategic plans for the Company. The grinding media business historical annual sales, operating profit, and net assets are not significant for discontinued operations presentation.

The grinding media business had operating income/(loss) of (\$334) and (\$913) for the thirteen and twenty-six weeks ended June 30, 2018, and \$1,859 and \$3,945 for the thirteen and twenty-six weeks ended July 1, 2017. The Company received Australian \$82,500 (U.S. \$62,518) but is subject to a working capital target settlement with the buyer that is expected to be finalized before the end of fiscal 2018.

The assets and liabilities of the grinding media business at closing on April 30, 2018 were as follows:

Receivables, net	\$9,848
Inventories	15,945
Net property, plant, and equipment	13,815
Goodwill and intangible assets	27,153
Other assets	1,388
Total assets	\$68,149

Accounts payable	\$7,125
Accrued expenses	2,484
Deferred income taxes	2,187
Total liabilities	\$11,796

Net assets	\$56,353
------------	----------

The pre-tax loss from the divestiture is reported in other income (expense). The loss is comprised of the proceeds from buyer, less deal-related costs, less the net assets of the business which resulted in a gain of \$4,334. Offsetting this amount is a \$(10,418) realized loss on foreign exchange translation adjustments and net investment hedges previously reported in shareholders' equity.

Pre-tax gain from divestiture, before recognition of currency translation loss	\$4,334
Recognition of cumulative currency translation loss and hedges (out of OCI)	(10,418)
Net pre-tax loss from divestiture of the grinding media business	\$(6,084)

The transaction did not result in a taxable capital gain as the cash proceeds were less than the tax carrying value of the business. There is an insignificant tax benefit from the tax deductibility of deal related expenses.

(Unaudited)

(4) RESTRUCTURING ACTIVITIES

In February 2018, the Company decided upon certain regional restructuring activities (the "2018 Plan") of approximately \$20,000, primarily in the ESS segment. The Company expects to incur \$13,500 of pre-tax restructuring expenses in cost of sales and \$6,500 of pre-tax restructuring expense in SG&A in 2018. Within the \$20,000 are expected pre-tax asset impairments of approximately \$5,000.

The following pre-tax expense were recognized during the second quarter of 2018:

	ESS	Utility	Corporate	Total
Severance	\$ 1,603	\$ 515	\$ —	\$ 2,118
Other cash restructuring expenses	152	959	—	1,111
Asset impairments/net loss on disposals	1,261	—	—	1,261
Total cost of sales	3,016	1,474	—	4,490
Severance	1,533	—	—	1,533
Other cash restructuring expenses	485	—	126	611
Asset impairments/net loss on disposals	385	—	—	385
Total selling, general and administrative expenses	2,403	—	126	2,529
Consolidated total	\$ 5,419	\$ 1,474	\$ 126	\$ 7,019

In the first half of 2018, the Company recognized the following pre-tax restructuring expenses:

	ESS	Utility	Corporate	Total
Severance	\$ 2,026	\$ 515	\$ —	\$ 2,541
Other cash restructuring expenses	152	1,731	—	1,883
Asset impairments/net loss on disposals	2,406	—	—	2,406
Total cost of sales	4,584	2,246	—	6,830
Severance	3,511	—	—	3,511
Other cash restructuring expenses	567	—	126	693
Asset impairments/net loss on disposals	385	—	—	385
Total selling, general and administrative expenses	4,463	—	126	4,589
Consolidated total	\$ 9,047	\$ 2,246	\$ 126	\$ 11,419

Liabilities recorded for the restructuring plans and changes therein for the first half of 2018 were as follows:

	Balance at December 30, 2017	Recognized Restructuring Expense	Costs Paid or Otherwise Settled	Balance at June 30, 2018
Severance	\$ —	\$ 6,052	\$ (6,052)	\$ —
Other cash restructuring expenses	1,216	2,576	(2,609)	1,183
Total	\$ 1,216	\$ 8,628	\$ (8,661)	\$ 1,183

(5) GOODWILL AND INTANGIBLE ASSETS

Amortized Intangible Assets

The components of amortized intangible assets at June 30, 2018 and December 30, 2017 were as follows:

	June 30, 2018		
	Gross Carrying Amount	Accumulated Amortization	Weighted Average Life
Customer Relationships	\$188,767	\$ 126,904	13 years
Proprietary Software & Database	3,589	3,075	8 years
Patents & Proprietary Technology	7,225	4,238	11 years
Other	4,496	3,789	3 years
	\$204,077	\$ 138,006	
	December 30, 2017		
	Gross Carrying Amount	Accumulated Amortization	Weighted Average Life
Customer Relationships	\$200,810	\$ 131,062	13 years
Proprietary Software & Database	3,671	3,107	8 years
Patents & Proprietary Technology	6,693	3,999	11 years
Other	4,861	4,121	3 years
	\$216,035	\$ 142,289	

Amortization expense for intangible assets for the thirteen and twenty-six weeks ended June 30, 2018 and July 1, 2017, respectively was as follows:

Thirteen Weeks Ended	Twenty-six Weeks Ended
2018	2017
3,572	3,903
7,455	7,767

Estimated annual amortization expense related to finite lived intangible assets is as follows:

Estimated Amortization Expense
2018 \$ 14,187
2019 12,903
2020 11,804
2021 9,748
2022 7,573

The useful lives assigned to finite lived intangible assets included consideration of factors such as the Company's past and expected experience related to customer retention rates, the remaining legal or contractual life of the underlying arrangement that resulted in the recognition of the intangible asset and the Company's expected use of the intangible asset.

(Unaudited)

(5) GOODWILL AND INTANGIBLE ASSETS (Continued)

Non-amortized intangible assets

Intangible assets with indefinite lives are not amortized. The carrying values of trade names at June 30, 2018 and December 30, 2017 were as follows:

	June 30, 2018	December 30, 2017	Year Acquired
Newmark	\$ 11,111	\$ 11,111	2004
Valmont SM	9,717	9,973	2014
Webforge	9,230	9,432	2010
Ingal EPS/Ingal Civil Products	7,526	7,690	2010
Shakespeare	4,000	4,000	2014
Other	16,894	22,647	
	\$58,478	\$ 64,853	

In its determination of these intangible assets as indefinite lived, the Company considered such factors as its expected future use of the intangible asset, legal, regulatory, technological and competitive factors that may impact the useful life or value of the intangible asset and the expected costs to maintain the value of the intangible asset. The Company expects that these intangible assets will maintain their value indefinitely. Accordingly, these assets are not amortized.

The Company's trade names were tested for impairment in the third quarter of 2017. The values of each trade name was determined using the relief-from-royalty method. Based on this evaluation, no trade names were determined to be impaired.

Goodwill

The carrying amount of goodwill by segment as of June 30, 2018 and December 30, 2017 was as follows:

	Engineered Support Structures Segment	Utility Support Structures Segment	Coatings Segment	Irrigation Segment	Other	Total
Gross Balance at December 30, 2017	\$ 170,076	\$ 90,248	\$ 76,696	\$ 19,778	\$ 15,814	\$ 372,612
Accumulated impairment losses	(18,670)	—	(16,222)	—	—	(34,892)
Balance at December 30, 2017	\$ 151,406	\$ 90,248	\$ 60,474	\$ 19,778	\$ 15,814	\$ 337,720
Acquisitions	—	—	—	3,922	—	3,922
Divestiture of grinding media	—	—	—	—	(15,814)	(15,814)
Foreign currency translation	(3,443)	(380)	(527)	(116)	—	(4,466)
Balance at June 30, 2018	\$ 147,963	\$ 89,868	\$ 59,947	\$ 23,584	\$—	\$ 321,362

The Company's annual impairment test of goodwill was performed during the third quarter of 2017. As a result of that testing, the Company determined that its goodwill was not impaired, as the valuation of the reporting units exceeded their respective carrying values. The Company's offshore and other complex steel structures reporting unit with \$14,464 of goodwill, is the reporting unit that did not have a substantial excess of estimated fair value over its carrying value. The Company continues to monitor changes in global market conditions, including commodity prices, which could impact future results of any of its reporting units.

(6) CASH FLOW SUPPLEMENTARY INFORMATION

The Company considers all highly liquid temporary cash investments purchased with an original maturity of three months or less at the time of purchase to be cash equivalents. Cash payments for interest and income taxes (net of refunds) for the twenty-six weeks ended June 30, 2018 and July 1, 2017 were as follows:

	2018	2017
Interest	\$19,448	\$22,113
Income taxes	22,796	26,966

(7) EARNINGS PER SHARE

The following table provides a reconciliation between Basic and Diluted earnings per share (EPS):

	Basic EPS	Dilutive Effect of Stock Options	Diluted EPS
Thirteen weeks ended June 30, 2018:			
Net earnings attributable to Valmont Industries, Inc.	\$32,960	\$—	\$32,960
Shares outstanding (000 omitted)	22,438	135	22,573
Per share amount	\$1.47	\$(0.01)	\$1.46
Thirteen weeks ended July 1, 2017:			
Net earnings attributable to Valmont Industries, Inc.	\$45,664	\$—	\$45,664
Shares outstanding (000 omitted)	22,517	223	22,740
Per share amount	\$2.03	\$(0.02)	\$2.01
Twenty-six weeks ended June 30, 2018:			
Net earnings attributable to Valmont Industries, Inc.	\$72,241	\$—	\$72,241
Shares outstanding (000 omitted)	22,523	161	22,684
Per share amount	\$3.21	\$(0.03)	\$3.18
Twenty-six weeks ended July 1, 2017:			
Net earnings attributable to Valmont Industries, Inc.	\$84,643	\$—	\$84,643
Shares outstanding (000 omitted)	22,494	206	22,700
Per share amount	\$3.76	\$(0.03)	\$3.73

Basic and diluted earnings per share in the second quarter and first half of 2018 were impacted by the 2018 Restructuring Plan costs of \$6,295, after-tax (\$0.28 per share) and \$9,620, after-tax (\$0.43 per share), respectively. In addition, the Company divested of its grinding media business in the second quarter of 2018 resulting in a loss of \$5,455, after-tax (\$0.24 per share).

At June 30, 2018 and July 1, 2017, there were 145,105 and 84,712 outstanding stock options with exercise prices exceeding the market price of common stock that were excluded from the computation of diluted earnings per share, respectively.

(8) LONG-TERM DEBT

On June 19, 2018, the Company issued and sold \$200,000 aggregate principal amount of the Company's 5.00% senior notes due 2044 and \$55,000 aggregate principal amount of the Company's 5.25% senior notes due 2054.

Long-term debt is as follows:

	June 30, 2018	December 30, 2017
5.00% senior unsecured notes due 2044(a)	\$450,000	\$250,000
5.25% senior unsecured notes due 2054(b)	305,000	250,000
Unamortized discount on 5.00% and 5.25% senior unsecured notes (a)(b)	(21,624)	(4,312)
6.625% senior unsecured notes due 2020(c)	250,200	250,200
Unamortized premium on 6.625 senior unsecured notes (c)	2,018	2,545
Revolving credit agreement (d)	—	—
IDR Bonds(e)	8,500	8,500
Other notes	3,456	4,033
Debt issuance costs	(8,167)	(6,112)
Long-term debt	989,383	754,854
Less current installments of long-term debt	253,081	966
Long-term debt, excluding current installments	\$736,302	\$753,888

The 5.00% senior unsecured notes due 2044 include an aggregate principal amount of \$450,000 on which interest is paid and an unamortized discount balance of \$14,053 at June 30, 2018. The notes bear interest at 5.000% per annum and are due on October 1, 2044. The discount is amortized and recognized as interest expense as interest payments are made over the term of the notes. The notes may be repurchased prior to maturity in whole, or in part, at any time at 100% of their principal amount plus a make-whole premium and accrued and unpaid interest. These notes are guaranteed by certain subsidiaries of the Company.

The 5.25% senior unsecured notes due 2054 include an aggregate principal amount of \$305,000 on which interest is paid and an unamortized discount balance of \$7,571 at June 30, 2018. The notes bear interest at 5.250% per annum and are due on October 1, 2054. The discount is amortized and recognized as interest expense as interest payments are made over the term of the notes. The notes may be repurchased prior to maturity in whole, or in part, at any time at 100% of their principal amount plus a make-whole premium and accrued and unpaid interest. These notes are guaranteed by certain subsidiaries of the Company.

The 6.625% senior unsecured notes due 2020, following a partial tender offer in September 2014, include a remaining aggregate principal amount of \$250,200 on which interest is paid and an unamortized premium balance of \$2,018 at June 30, 2018. The notes bear interest at 6.625% per annum and are due on April 1, 2020. The remaining premium will be amortized against interest expense as interest payments are made over the term of the notes. The notes may be redeemed prior to maturity in whole, or in part, at any time at 100% of their principal amount plus a make-whole premium and accrued and unpaid interest. These notes are guaranteed by certain subsidiaries of the Company.

On June 11, 2018, the Company notified the holders of the 2020 bonds of its plan to redeem all of these bonds. On July 9, 2018, the Company redeemed all \$250,200 of the 2020 bonds at a make-whole redemption price equal to approximately \$266,000 plus approximately \$3,600 of accrued and unpaid interest on the notes from April 20, 2018

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(8) LONG-TERM DEBT (Continued)

to July 8, 2018. The Company recognized approximately \$14,800 of redemption related expenses, including the recognition of the unamortized premium, in the third quarter of 2018.

On October 18, 2017, the Company amended and restated its revolving credit facility with JP Morgan Chase Bank, N.A., as Administrative Agent, and the other lenders party thereto. The credit facility provides for \$600,000 of committed unsecured revolving credit loans. The Company may increase the credit facility by up to an additional (d) \$200,000 at any time, subject to lenders increasing the amount of their commitments. This amendment extends the maturity date of the credit facility from October 17, 2019 to October 18, 2022 and increases the available borrowings in foreign currencies from \$200 million to \$400 million. The interest rate on the borrowings will be, at the Company's option, either:

(i) LIBOR (based on a 1, 2, 3 or 6 month interest period, as selected by the Company) plus 100 to 162.5 basis points, depending on the credit rating of the Company's senior debt published by Standard & Poor's Rating Services and Moody's Investors Service, Inc., or;

(ii) the higher of

the prime lending rate,

the Federal Funds rate plus 50 basis points, and

LIBOR (based on a 1 month interest period) plus 100 basis points,

plus, in each case, 0 to 62.5 basis points, depending on the credit rating of the Company's senior debt published by Standard & Poor's Rating Services and Mood's Investors Service, Inc.

At June 30, 2018, the Company had no outstanding borrowings under the revolving credit facility. The revolving credit facility has a maturity date of October 18, 2022 and contains certain financial covenants that may limit additional borrowing capability under the agreement. At June 30, 2018, the Company had the ability to borrow \$585,350 under this facility, after consideration of standby letters of credit of \$14,650 associated with certain insurance obligations. We also maintain certain short-term bank lines of credit totaling \$110,940, \$110,670 of which was unused at June 30, 2018.

The Industrial Development Revenue Bonds were issued to finance the construction of a manufacturing facility in (e) Jasper, Tennessee. Variable interest is payable until final maturity on June 1, 2025. The effective interest rates at June 30, 2018 and December 30, 2017 were 2.96% and 2.00%, respectively.

The lending agreements include certain maintenance covenants, including financial leverage and interest coverage. The Company was in compliance with all financial debt covenants at June 30, 2018. The minimum aggregate maturities of long-term debt for 2018 is \$250,685 and each of the five years following 2018 are: \$820, \$824, \$829, \$499 and \$0.

The obligations arising under the 5.00% senior unsecured notes due 2044, the 5.25% senior unsecured notes due 2054, the 6.625% senior unsecured notes due 2020, and the revolving credit facility are guaranteed by the Company and its wholly-owned subsidiaries PiRod, Inc., Valmont Coatings, Inc., Valmont Newmark, Inc., and Valmont Queensland Pty. Ltd.

(Unaudited)

(9) BUSINESS SEGMENTS

In the fourth quarter of 2017, the Company's management structure and reporting was changed to reflect management's expectations of the future growth of certain product lines and to take into consideration the expected divestiture of the grinding media business which historically was reported in the Energy and Mining segment. Grinding media is reported in "Other" and was sold in the second quarter of 2018. The access systems applications product line is now part of the Engineered Support Structures ("ESS") segment and the offshore and other complex structures product line is now part of the Utility segment. The segment financial information have been accordingly reclassified in this report to reflect these changes, for all periods presented.

The Company has four reportable segments based on its management structure. Each segment is global in nature with a manager responsible for segment operational performance and the allocation of capital within the segment. Net corporate expense is net of certain service related expenses that are allocated to business units generally on the basis of employee headcounts.

Reportable segments are as follows:

ENGINEERED SUPPORT STRUCTURES: This segment consists of the manufacture of engineered metal and composite structures and components for lighting, traffic, and wireless communication markets, engineered access systems, integrated solutions for smart cities, and highway safety products;

UTILITY SUPPORT STRUCTURES: This segment consists of the manufacture of engineered steel and concrete structures for the global utility transmission, distribution, and generation applications and on and offshore and other complex steel structures used in energy generation and distribution outside of North America, and inspection services;

COATINGS: This segment consists of galvanizing, painting, and anodizing services; and

IRRIGATION: This segment consists of the manufacture of agricultural irrigation equipment, parts, services, tubular products, water management solutions, and technology for precision agriculture.

In addition to these four reportable segments, the Company had other businesses and activities that individually are not more than 10% of consolidated sales, operating income or assets. This includes the manufacture of forged steel grinding media for the mining industry and is reported in the "Other" category.

The Company evaluates the performance of its business segments based upon operating income and invested capital. The Company does not allocate LIFO expense, interest expense, non-operating income and deductions, or income taxes to its business segments.

(10) GUARANTOR/NON-GUARANTOR FINANCIAL INFORMATION

The Company had three tranches of senior unsecured notes at June 30, 2018. One of the tranches of senior unsecured notes was subsequently redeemed in the third quarter of 2018. All of the senior notes are guaranteed, jointly, severally, fully and unconditionally (subject to certain customary release provisions, including sale of the subsidiary guarantor, or sale of all or substantially all of its assets) by certain of the Company's current and future direct and indirect domestic and foreign subsidiaries (collectively the "Guarantors"), excluding its other current domestic and foreign subsidiaries which do not guarantee the debt (collectively referred to as the "Non-Guarantors"). All Guarantors are 100% owned by the parent company.

Consolidated financial information for the Company ("Parent"), the Guarantor subsidiaries and the Non-Guarantor subsidiaries is as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's discussion and analysis contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward looking statements are based on assumptions that management has made in light of experience in the industries in which the Company operates, as well as management's perceptions of historical trends, current conditions, expected future developments and other factors believed to be appropriate under the circumstances. These statements are not guarantees of performance or results. They involve risks, uncertainties (some of which are beyond the Company's control) and assumptions. Management believes that these forward looking statements are based on reasonable assumptions. Many factors could affect the Company's actual financial results and cause them to differ materially from those anticipated in the forward looking statements. These factors include, among other things, risk factors described from time to time in the Company's reports to the Securities and Exchange Commission, as well as future economic and market circumstances, industry conditions, company performance and financial results, operating efficiencies, availability and price of raw materials, availability and market acceptance of new products, product pricing, domestic and international competitive environments, and actions and policy changes of domestic and foreign governments.

This discussion should be read in conjunction with the financial statements and notes thereto, and the management's discussion and analysis included in the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2017. Segment net sales in the table below and elsewhere are presented net of intersegment sales. See Note 9 of our condensed consolidated financial statements for additional information on segment sales and intersegment sales.

Overview

On a consolidated basis, net sales in the second quarter of fiscal 2018, as compared with the second quarter of fiscal 2017, reflected lower sales in the Utility, Irrigation, and Other segments that were offset by higher net sales in the ESS and Coatings segments. In the first half of 2018, as compared to 2017, net sales were higher in ESS and Coatings and lower in the remaining segments. The changes in net sales in the second quarter and first half of fiscal 2018, as compared with the same periods in fiscal 2017, is as follows:

	Second quarter					
	Total	ESS	Utility	Coatings	Irrigation	Other
Sales - 2017	\$712.7	\$231.2	\$209.6	\$ 64.6	\$ 186.2	\$21.1
Volume	(54.5)	0.2	(28.4)	4.1	(30.4)	—
Pricing/mix	27.4	3.9	13.4	5.1	5.0	—
Acquisition/(divestiture)	(8.7)	4.9	—	—	2.8	(16.4)
Currency translation	5.5	5.8	1.9	0.7	(2.9)	—
Sales - 2018	\$682.4	\$246.0	\$196.5	\$ 74.5	\$ 160.7	\$4.7
	Year-to-date					
	Total	ESS	Utility	Coatings	Irrigation	Other
Sales - 2017	\$1,350.2	\$424.3	\$409.7	\$ 123.9	\$ 351.6	\$40.7
Volume	(45.1)	6.7	(39.3)	7.0	(15.2)	(4.3)
Pricing/mix	59.0	7.5	30.2	10.3	8.6	2.4
Acquisition/(divestiture)	(4.1)	8.6	—	—	3.7	(16.4)
Currency translation	21.1	14.8	5.8	1.8	(2.0)	0.7
Sales - 2018	\$1,381.1	\$461.9	\$406.4	\$ 143.0	\$ 346.7	\$23.1

Volume effects are estimated based on a physical production or sales measure. Since products we sell are not uniform in nature, pricing and mix relate to a combination of changes in sales prices and the attributes of the product sold. Accordingly, pricing and mix changes do not necessarily result in operating income changes. On the first day of fiscal 2018, the Company was required to adopt new revenue recognition guidance. Within the Utility Support Structures segment, the steel and concrete product lines now recognize revenue over time whereas in 2017 and years prior, their revenue was recognized at a point in time, which was typically upon product delivery to the customer. The estimated impact of the adoption of ASC 606 in the first half of 2018 was an increase in sales of approximately \$22 million and an increase in operating income of approximately \$2.0 million primarily in the Utility segment. It is not practical to estimate the sales volumes attributable to the adoption of ASC 606 and thus it is not a separate line item in the table above. Information on the adoption of the new revenue standard can be found under Critical Accounting Policies starting on page 48.

Average steel index prices for both hot rolled coil and plate were higher in North America and China in the first half of 2018, as compared to 2017, resulting in higher average cost of material. We expect that average selling prices will increase over time to offset the decrease in gross profit realized from the higher cost of steel for the Company.

The Company acquired a highway business in India ("Aircon") in the third quarter of 2017 that is included in our ESS segment. The Company acquired a majority interest in the assets of Torrent Engineering and Equipment ("Torrent") in the first quarter of 2018 that is included in our Irrigation segment.

The Company divested of its grinding media business in the second quarter of 2018, which resulted in a pre-tax loss of approximately \$6.1 million. The grinding media business is reported in Other and the loss was recorded in other income/expense on the Condensed Consolidated Statements of Earnings.

Restructuring Plan

In February 2018, the Company announced a restructuring plan related to certain operations in 2018, primarily in the ESS segment, through consolidation and other cost-reduction activities (the "2018 Plan"). The Company incurred pre-tax expenses from the 2018 Plan of \$7.0 million and \$11.4 million in the second quarter and first half of 2018, respectively. The decrease in the second quarter and first half of 2018 gross profit due to restructuring expense by segment is as follows:

Gross Profit	Total	ESS	Utility	Corporate
Second quarter	\$ 4.5	\$ 3.0	\$ 1.5	\$ —
Year-to-date	\$ 6.8	\$ 4.6	\$ 2.2	\$ —

The decrease in the second quarter and first half of 2018 operating income due to restructuring expense by segment is as follows:

Operating Income	Total	ESS	Utility	Corporate
Second quarter	\$ 7.0	\$ 5.4	\$ 1.5	\$ 0.1
Year-to-date	\$ 11.4	\$ 9.0	\$ 2.3	\$ 0.1

Currency Translation

In the second quarter of fiscal 2018, we realized a slight decrease in operating profit, as compared with fiscal 2017, due to currency translation effects. The breakdown of this effect by segment was as follows:

	Total	ESS	Utility	Coatings	Irrigation	Other	Corporate
Second quarter	\$(0.3)	\$0.2	\$ 0.1	\$ 0.1	\$(0.7)	\$ —	\$ —
Year-to-date	\$0.1	\$0.2	\$ 0.2	\$ 0.3	\$(0.6)	\$ —	\$ —

Gross Profit, SG&A, and Operating Income

At a consolidated level, the reduction in gross margin (gross profit as a percent of sales) in the second quarter and first half of 2018, as compared with the same periods in 2017, was primarily due to higher raw material prices across most of our businesses. Gross profit was lower in the second quarter and first half of 2018, as compared to 2017, due to lower sales volumes, restructuring expenses, and higher LIFO expense incurred in 2018. Coatings and Utility realized increases in gross profit, while the remaining operating segments had a decrease in gross profit.

The Company saw an increase in SG&A in the second quarter and first half of fiscal 2018, as compared to the same periods in 2017, primarily due to currency translation effects of \$0.8 million and \$3.1 million, restructuring costs incurred of \$2.5 million and \$4.6 million, and expenses related to recently acquired businesses of \$1.1 million and \$1.5 million, respectively.

In the second quarter and first half of 2018, as compared to the same periods in 2017, operating income was lower for all operating segments except for Coatings. The overall decrease in operating income in the second quarter and first half of 2018, as compared to the same periods in 2017, is primarily attributable to lower irrigation volumes, restructuring costs incurred in the ESS and Utility segments, and the disposal of the grinding media business included in Other.

Net Interest Expense and Debt

Net interest expense in the second quarter of 2018, as compared to 2017, was higher due to issuing \$255 million of bonds in June 2018 that resulted in additional interest expense. The proceeds from the new debt issuance were subsequently

42

used to pay off the 2020 bonds in July 2018. Interest income was higher in the second quarter of 2018, as compared to 2017, due to having more cash on hand to invest.

Other Income/Expense

The change in other income/expense in the second quarter and first half of 2018, as compared with the same periods in 2017, was primarily due to the divestiture of our grinding media business that resulted in a loss of approximately \$6.1 million. In addition, the change in valuation of deferred compensation assets in the second quarter and first half of 2018 resulted in an additional loss of \$0.6 million and \$2.0 million, respectively. This amount is offset by a gain of the same amount in SG&A expense. The loss was offset by a periodic pension benefit in 2018 compared to pension expense in 2017 that resulted in a change of \$0.7 million and \$1.4 million, respectively. The remaining change was due to more favorable foreign currency transaction gains/losses.

Income Tax Expense

Our effective income tax rate in the second quarter and first half of 2018 was 29.3% and 26.4%, compared to 30.8% and 29.4% in the second quarter and first half of 2017, respectively. The rate reduction can be attributed to the Tax Cuts and Jobs Act of 2017 (the "2017 Tax Act") that reduced the Company's statutory federal corporate income tax rate from 35% to 21% at the beginning of 2018.

Earnings attributable to noncontrolling interests was higher in the second quarter and first half of 2018, as compared to 2017, due to improved earnings for our majority-owned irrigation businesses.

Cash Flows from Operations

Our cash flows provided by operations was \$53.7 million in the first half of fiscal 2018, as compared with \$55.7 million provided by operations in the first half of 2017. The decrease in operating cash flow in the first half of fiscal 2018, as compared with 2017, was primarily the result of higher net working capital levels partially offset by lower pension plan contributions.

ESS segment

The increase in sales in the second quarter and first half of 2018, as compared with the same periods in 2017, was primarily due to higher roadway product sales volumes, higher sales pricing due to higher costs of steel, and favorable currency translation effects.

Global lighting and traffic, and roadway product sales in the second quarter and first half of 2018 were \$17.5 million and \$37.1 million higher as compared to the same periods in fiscal 2017, primarily due to increased sales volumes. In the second quarter and first half of 2018, as compared to the same periods in 2017, sales volumes and pricing in North America were higher across commercial and transportation markets. Improved sales volumes in Europe contributed to higher sales in the second quarter and first half of 2018, as compared to 2017, along with favorable currency translation effects as the value of the euro appreciated against the U.S. dollar. Sales volumes in Asia-Pacific were lower primarily due to lower demand in China for lighting and traffic products. Roadway product sales increased significantly in 2018, as compared to 2017, due to higher demand in Australia and the acquisition of Aircon in the third quarter of 2017.

Communication product line sales were lower by \$4.2 million and \$1.6 million in the second quarter and first half of 2018, respectively, as compared with 2017. In North America, communication structure and component sales increased due to higher demand from the continued network expansion by providers. In Asia-Pacific, sales volumes decreased due to significantly lower demand in China for new wireless communication structures.

Access Systems product line net sales increased slightly in the second quarter of 2018 as compared to the second quarter of 2017. Access Systems sales in the first half of 2018 were lower by \$1.6 million as compared to the first half

of 2017, due to lower sales volumes in Asia due to less large project work that was partially offset by improved market demand in Australia.

Gross profit, as a percentage of sales, and operating income for the segment were lower in the second quarter and first half of 2018, as compared to 2017, primarily due to restructuring costs incurred in 2018. In the second quarter and first

43

half of 2018, the segment incurred \$3.0 million and \$4.6 million of restructuring costs within product cost of sales and \$2.4 million and \$4.4 million within SG&A, respectively. SG&A spending was higher in the second quarter and first half of 2018, as compared to 2017, due to restructuring costs and foreign currency translation effects.

Utility segment

In the Utility segment, sales decreased in the second quarter and first half of 2018, as compared with 2017, due to lower sales volumes. The reduction of volumes can be attributed to a more unfavorable product mix as compared with 2017. The volume decrease was offset by higher sales pricing to cover higher steel costs and favorable currency exchange rates. A number of our sales contracts contain provisions that tie the sales price to published steel index pricing at the time our customer issues their purchase order. Measured in tonnages, sales volumes for steel utility structures in North America were lower whereas concrete utility structure sales volumes were higher in the second quarter and first half of 2018, as compared to the same periods in 2017. The Company adopted new revenue recognition guidance effective the first day of fiscal 2018; steel and concrete reported sales for second quarter and first half of 2017 were recognized upon delivery to customers (point in time) whereas reported revenue for second quarter and first half of 2018 is based on progress of production on customer orders (over time).

Offshore and other complex structures sales decreased in the second quarter and first half of 2018, as compared to 2017, due to lower volumes that were partially offset by positive effects from currency translation.

Gross profit as a percentage of sales increased in the second quarter and first half of 2018, as compared to 2017, due to an improved customer sales mix that was partially offset by restructuring costs incurred of \$1.4 million and \$2.2 million, respectively. SG&A expense was higher in the second quarter and first half of 2018, as compared with the same periods in 2017, primarily attributed to increased acquisition diligence expenses. Excluding restructuring expenses, operating income was consistent in the second quarter and first half of 2018, as compared with the same periods in 2017.

Coatings segment

Coatings segment sales increased in the second quarter and first half of 2018, as compared to the same periods in 2017, due primarily to increased sales prices to recover higher zinc costs globally and higher sales volumes. Sales pricing and volume demand increased in North America in the second quarter and first half of 2018, as compared to 2017. In the Asia-Pacific region, continued improvements in the Australia market along with overall higher sales pricing provided an increase in net sales.

SG&A expense was higher in the second quarter and first half of 2018, as compared to the same periods in 2017, due to higher compensation costs related to improved business operations and currency translation effects. Operating income was higher in the second quarter and first half of 2018 compared to 2017, due to improved sales volumes and the associated operating leverage of fixed costs and improved sales pricing.

Irrigation segment

The decrease in Irrigation segment net sales in the second quarter of 2018, as compared to 2017, was primarily due to sales volume decreases, particularly in the international markets. The decrease in international sales can be attributed to project delays and lower overall large project work across most regions. In addition, there was a truckers' strike in Brazil in late May 2018 that contributed to lower sales during the quarter. North America sales volume decreases contributed to lower second quarter sales and were the primary driver of the decrease in sales for the first half of 2018, as compared to the first half of 2017. Sales in North America were lower due to continued weak farm income levels. Recent proposed tariffs also caused uncertainly leading farmers to delay irrigation purchases. North America sales decreases were partially offset by higher sales pricing attributed to higher cost of steel.

SG&A was higher in the second quarter and first half of 2018, as compared to the same periods in 2017. The increase can be attributed to SG&A expenses associated with the acquisitions made in 2018 totaling \$1.0 million and \$1.2 million, respectively. Operating income for the segment decreased in the second quarter and first half of 2018 over the same periods in 2017, primarily due to sales volume decreases and the associated operating de-leverage of fixed costs.

Other

At the end of April 2018, the Company completed its previously announced sale of Donhad, a mining consumable business with operations in Australia. The Company realized an approximate \$6.1 million loss on the sale that is recorded in other income/expense, subject to certain post-closing adjustments.

LIFO expense

Steel index prices for both hot rolled coil and plate, and zinc in the U.S. increased at a higher rate in 2018, as compared to 2017, resulting in higher LIFO expense.

Net corporate expense

Corporate SG&A expense was lower in the second quarter and first half of 2018, as compared to the same periods in 2017, due to \$0.6 million and \$2.0 million of lower deferred compensation expenses that is offset by the same amount in other expense. In addition, incentive costs were lower by \$0.5 million in the second quarter and first half of 2018, as compared to 2017.

Liquidity and Capital Resources

Cash Flows

Working Capital and Operating Cash Flows-Net working capital was \$1,108.5 million at June 30, 2018, as compared to \$1,069.6 million at December 30, 2017. The increase in net working capital in 2018 is attributed to the increase in contract assets associated with our Utility segment which now recognizes revenue over time and lower accounts payable. Cash flow provided by operations was \$53.7 million in the first half of 2018, as compared with \$55.7 million in first half of 2017. The decrease in operating cash flow in the first half of 2018, as compared to 2017, was primarily the result of higher working capital that was offset by lower pension contributions.

Investing Cash Flows-Capital spending in the first half of fiscal 2018 was \$31.8 million, as compared to \$26.2 million for the same period in 2017. The increase in investing cash flows in the first half of 2018, as compared to 2017, was primarily due to the sale of the grinding media business which resulted in proceeds of \$62.5 million. We acquired 60% of Torrent in the first quarter of 2018 and a small irrigation components business in the second quarter of 2018. Capital spending projects in 2018 and 2017 related to investments in machinery and equipment across all businesses. We expect our capital spending for the 2018 fiscal year to be approximately \$70 million.

Financing Cash Flows-Our total interest bearing debt was \$989.7 million at June 30, 2018 and \$755.0 at December 30, 2017. Financing cash flows changed from a use of \$13.5 million in the first half of 2017 to an inflow of \$165.1 million in the first half of 2018. The increase in financing cash inflows in the first half of 2018, as compared to 2017, was primarily due to issuing \$255 million of long-term debt. The inflow was offset by the purchase of \$44.0 million of treasury shares under our share repurchase program and purchase of certain noncontrolling interests totaling \$5.5 million in 2018.

Financing and Capital

We have an open \$250 million authorized share purchase program without an expiration date. The share purchases will be funded from available working capital and short-term borrowings and will be made subject to market and economic conditions. We are not obligated to make any share repurchases under the share repurchase program and we may discontinue the share repurchase program at any time. We acquired 203,869 treasury shares for approximately \$29.2 million under our share repurchase program during the second quarter of 2018. As of June 30, 2018, we have approximately \$88.2 million open under this authorization to repurchase shares in the future.

Our capital allocation philosophy announcement included our intention to manage our capital structure to maintain our investment grade debt rating. Our most recent rating were Baa3 by Moody's Investors Services, Inc. and BBB+ rating by Standard and Poor's Rating Services. We expect to maintain a leverage ratio which will support our current investment grade debt rating.

Our debt financing at June 30, 2018 is primarily long-term debt consisting of:

- \$250.2 million face value (\$252.2 million carrying value) of senior unsecured notes that bear interest at 6.625% per annum and are due in April 2020.

- \$450 million face value (\$435.9 million carrying value) of senior unsecured notes that bear interest at 5.00% per annum and are due in October 2044.

- \$305 million face value (\$297.4 million carrying value) of unsecured notes that bear interest at 5.25% per annum and are due in October 2054.

- We are allowed to repurchase the notes at specified prepayment premiums. All three tranches of these notes are guaranteed by certain of our subsidiaries.

At June 30, 2018 and December 30, 2017, we had no outstanding borrowings under our revolving credit agreement. The revolving credit agreement contains certain financial covenants that may limit our additional borrowing capability under the agreement. At June 30, 2018, we had the ability to borrow \$585.3 million under this facility, after consideration of standby letters of credit of \$14.7 million associated with certain insurance obligations and international sales commitments. We also maintain certain short-term bank lines of credit totaling \$110.9 million, \$110.7 million of which was unused at June 30, 2018.

Our senior unsecured notes and revolving credit agreement each contain cross-default provisions which permit the acceleration of our indebtedness to them if we default on other indebtedness that results in, or permits, the acceleration of such other indebtedness.

The debt agreements contain covenants that require us to maintain certain coverage ratios and may limit us with respect to certain business activities, including capital expenditures. The debt agreements allow us to add estimated EBITDA from acquired businesses for periods we did not own the acquired business. The debt agreements also provide for an adjustment to EBITDA, subject to certain limitations, for non-cash charges or gains that are non-recurring in nature. For 2018, our covenant calculations do not include any estimated EBITDA from acquired businesses.

Our key debt covenants are as follows:

- Leverage ratio - Interest-bearing debt is not to exceed 3.5X Adjusted EBITDA (or 3.75X Adjusted EBITDA after certain material acquisitions) of the prior four quarters; and

- Interest earned ratio - Adjusted EBITDA over the prior four quarters must be at least 2.5X our interest expense over the same period.

At June 30, 2018, we were in compliance with all covenants related to the debt agreements. The key covenant calculations at June 30, 2018 were as follows (in 000's):

Interest-bearing debt	\$989,654
Adjusted EBITDA-last four quarters	348,224
Leverage ratio	2.84

Adjusted EBITDA-last four quarters	\$348,224
Interest expense-last four quarters	45,388
Interest earned ratio	7.67

Subsequent to quarter-end, the Company redeemed all \$250,200 of 2020 bonds, reducing its interest-bearing debt.

The calculation of Adjusted EBITDA-last four quarters (July 2, 2017 through June 30, 2018) is as follows:

Net cash flows from operations	\$131,076
Interest expense	45,388
Income tax expense	96,635
Impairment of property, plant and equipment	(2,791)
Loss on investment	(278)
Deferred income tax benefit	(34,908)
Loss on sale of grinding media business	(6,084)
Noncontrolling interest	(6,360)
Stock-based compensation	(11,490)
Pension plan expense	825
Contribution to pension plan	15,597
Changes in assets and liabilities	98,963
Other	4,148
EBITDA	330,721
Cash restructuring expenses	8,628
Impairment of property, plant and equipment	2,791
Loss on sale of grinding media business	6,084
Adjusted EBITDA	\$348,224
Net earnings attributable to Valmont Industries, Inc.	\$103,838
Interest expense	45,388
Income tax expense	96,635
Depreciation and amortization expense	84,860
EBITDA	330,721
Cash restructuring expenses	8,628
Impairment of property, plant, and equipment	2,791
Loss on sale of grinding media business	6,084
Adjusted EBITDA	348,224

Our businesses are cyclical, but we have diversity in our markets, from a product, customer and a geographical standpoint. We have demonstrated the ability to effectively manage through business cycles and maintain liquidity. We have consistently generated operating cash flows in excess of our capital expenditures. Based on our available credit facilities, recent issuance of senior unsecured notes and our history of positive operational cash flows, we believe that we have adequate liquidity to meet our needs.

We previously considered the earnings in our non-U.S. subsidiaries to be indefinitely reinvested and, accordingly, recorded no related deferred income taxes. Prior to the 2017 Tax Act, we had an excess of the amount for financial reporting over the tax basis in our foreign subsidiaries, including unremitted foreign earnings of approximately \$400 million. At the end of the second quarter of 2018, the unremitted foreign earnings were approximately \$348 million as a result of dividends that were paid. While the tax on these foreign earnings imposed by the 2017 Tax Act (“Transition Tax”) resulted in the reduction of the excess of the amount for financial reporting over the tax basis in our foreign subsidiaries, an actual repatriation from our non-U.S. subsidiaries may still be subject to foreign withholding taxes and U.S. state income taxes.

As a result of the 2017 Tax Act, we have reassessed our position with respect to the approximately \$348 million of unremitted foreign earnings in our non-U.S. subsidiaries. We have taken the position that our previously deferred earnings in our non-U.S. subsidiaries that were subject to the Transition Tax are not indefinitely reinvested. Of our cash balances of \$722.6 million at June 30, 2018, approximately \$368.2 million is held in our non-U.S. subsidiaries. Consequently, with the change in our position on unremitted foreign earnings, if we distributed our foreign cash balances certain taxes would be applicable. Therefore at June 30, 2018, we recorded deferred income taxes for foreign withholding taxes and U.S. state

income taxes of \$6.6 million and \$1.1 million, respectively. The Company's estimates and the overall impact of the 2017 Tax Act may change for various reasons including, but not limited to, changes in our interpretation and assumptions, additional guidance that may be issued by governing authorities, and tax planning actions we may undertake. We continue to gather additional information to fully account for the 2017 Tax Act. Any updates and changes in the estimates will be communicated in future quarterly financial statements.

Financial Obligations and Financial Commitments

There have been no material changes to our financial obligations and financial commitments as described on page 35-36 in our Form 10-K for the fiscal year ended December 30, 2017.

Off Balance Sheet Arrangements

There have been no changes in our off balance sheet arrangements as described on page 36 in our Form 10-K for the fiscal year ended December 30, 2017.

Critical Accounting Policies

Other than revenue recognition as a result of our adoption of ASC 606 as described below, there were no other changes in our critical accounting policies as described on pages 37-41 in our Form 10-K for the fiscal year ended December 30, 2017 during the six months ended June 30, 2018.

Revenue Recognition

Effective the first day of fiscal 2018, we adopted the requirements of Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). Please see note 1 to the consolidated financial statements for additional information on the new standard and the cumulative effect from the modified retrospective adjustment.

We determine the appropriate revenue recognition for our contracts by analyzing the type, terms and conditions of each contract or arrangement with a customer. We have no contracts with customers, under any product line, where we could earn variable consideration. With the exception of our Utility segment and the wireless communication structures product line, our inventory is interchangeable for a variety of the product line's customers. There is one performance obligation for revenue recognition. Our Irrigation and Coatings segments recognize revenue at a point in time, which is when the service has been performed or when the goods ship; this is the same time that the customer is billed. Lighting, traffic, highway safety, and access system product lines within the ESS segment recognize revenue and bill customers at a point in time, which is typically when the product ships or when it is delivered, as stipulated in the customer contract.

The following provides additional information about our contracts with utility and wireless communication structures customers, where the revenue is recognized over time, the judgments we make in accounting for those contracts, and the resulting amounts recognized in our financial statements.

Accounting for utility and wireless communication structures contracts: Steel and concrete utility and wireless communication structures are engineered to customer specifications resulting in limited ability to sell the structure to a different customer if an order is canceled after production commences. The continuous transfer of control to the customer is evidenced either by contractual termination clauses or by our rights to payment for work performed to-date plus a reasonable profit as the products do not have an alternative use to us. Since control is transferring over time, revenue is recognized based on the extent of progress towards completion of the performance obligation. We have certain wireless communication structures customers contracts where we do not have the right to payment for work performed. In those instances, we recognize revenue at a point in time which is time of shipment of the structure.

The selection of the method to measure progress towards completion requires judgment. For our steel and concrete utility and wireless communication structure product lines, we recognize revenue on an inputs basis, using total production hours incurred to-date for each order as a percentage of total hours estimated to produce the order. The completion percentage is applied to the order's total revenue and total estimated costs to determine reported revenue,

cost of goods sold and gross profit. Our enterprise resource planning (ERP) system captures the total costs incurred to-date and the total production hours, both incurred to-date and forecast to complete. Revenue from the offshore and other complex steel structures business is also recognized using an inputs method, based on the cost-to-cost measure of progress. Under the cost-to-cost measure of

progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation.

Management must make assumptions and estimates regarding manufacturing labor hours and wages, the usage and cost of materials, and manufacturing burden / overhead recovery rates for each production facility. For our steel, concrete and wireless communication structures, production of an order, once started, is typically completed within three months. Projected profitability on open production orders is reviewed and updated monthly. We elected the practical expedient to not disclose the partially satisfied performance obligation at the end of the period when the contract has an original expected duration of one year or less.

We also have a few steel structure customer orders in a fiscal year that require one or two years to complete, due to the quantity of structures. Burden rates and routed production hours, per structure, will be adjusted if and when actual costs incurred are significantly higher than what had been originally projected. This resets the timing of revenue recognition for future periods so it is better aligned with the new production schedule. For our offshore and other complex steel structures, we update the estimates of total costs to complete each order quarterly. Based on these updates, revenue in the current period may reflect adjustments for amounts that had been previously recognized. During the quarter ended June 30, 2018, there were no changes to inputs/estimates which resulted in adjustments to revenue for production that occurred prior to the beginning of the quarter. A provision for loss on the performance obligation is recognized if and when an order is projected to be at a loss, whether or not production has started.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There were no material changes in the company's market risk during the quarter ended June 30, 2018. For additional information, refer to the section "Risk Management" in our Form 10-K for the fiscal year ended December 30, 2017.

Item 4. Controls and Procedures

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Securities Exchange Act Rule 13a-15. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports the Company files or submits under the Securities Exchange Act of 1934 is (1) accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures and (2) recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms.

No changes in the Company's internal control over financial reporting occurred during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price paid per share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Maximum Number of Shares that may yet be Purchased under the Program (1)
April 1, 2018 to April 28, 2018	88,950	\$ 141.85	88,950	\$ 104,765,000
April 29, 2018 to June 2, 2018	96,544	143.43	96,544	90,917,000
June 3, 2018 to June 30, 2018	18,375	149.35	18,375	88,173,000
Total	203,869	\$ 143.28	203,869	\$ 88,173,000

(1) On May 13, 2014, we announced a new capital allocation philosophy which included a share repurchase program. Specifically, the Board of Directors authorized the purchase of up to \$500 million of the Company's outstanding common stock from time to time over twelve months at prevailing market prices, through open market or privately-negotiated transactions. On February 24, 2015, the Board of Directors authorized an additional purchase of up to \$250 million of the Company's outstanding common stock with no stated expiration date. As of June 30, 2018, we have acquired 4,893,387 shares for approximately \$661.8 million under this share repurchase program.

Item 6. Exhibits

(a) Exhibits

Exhibit No. Description

- 4.1 Indenture, dated as of April 12, 2010, among Valmont Industries, Inc., the Subsidiary Guarantors party thereto and Wells Fargo Bank, National Association, as Trustee. This document was filed as Exhibit 4.1 to the Company's Current Report on Form 8-K (Commission file number 001-31429) dated April 12, 2010, and is incorporated herein by this reference.
- 4.2 Second Supplemental Indenture, dated as of September 22, 2014, among Valmont Industries, Inc., the Subsidiary Guarantors party thereto and Wells Fargo Bank, National Association, as Trustee. This document was filed as Exhibit 4.2 to the Company's Current Report on Form 8-K (Commission file number 001-31429) dated September 22, 2014, and is incorporated herein by this reference.
- 4.3 Third Supplemental Indenture, dated as of September 22, 2014, among Valmont Industries, Inc., the Subsidiary Guarantors party thereto and Wells Fargo Bank, National Association, as Trustee. This document was filed as Exhibit 4.3 to the Company's Current Report on Form 8-K dated September 22, 2014, and is incorporated herein by this reference.
- 4.4 Form of 5.00% Senior Notes due 2044 issued by Valmont Industries, Inc. on June 19, 2018. This document was filed as Exhibit 4.4 to the Company's Current Report on Form 8-K (Commission file number 001-31429) dated June 19, 2018, and is incorporated herein by this reference.
- 4.5 Form of 5.25% Senior Notes due 2054 issued by Valmont Industries, Inc. on June 19, 2018. This document was filed as Exhibit 4.5 to the Company's Current Report on Form 8-K (Commission file number 001-31429) dated June 19, 2018, and is incorporated herein by this reference.
- 31.1 Section 302 Certificate of Chief Executive Officer
- 31.2 Section 302 Certificate of Chief Financial Officer
- 32.1 Section 906 Certifications of Chief Executive Officer and Chief Financial Officer
- 101 The following financial information from Valmont's Quarterly Report on Form 10-Q for the quarter ended June 30, 2018, formatted in XBRL (eXtensible Business Reporting Language): (i) the Condensed Consolidated Statements of Earnings, (ii) the Condensed Consolidated Statements of Comprehensive Income, (iii) the Condensed Consolidated Balance Sheets, (iv) the Condensed Consolidated Statements of Cash Flows, (v) the Condensed Consolidated Statements of Shareholders' Equity, (vi) Notes to Condensed Consolidated Financial Statements and (vii) document and entity information.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf and by the undersigned hereunto duly authorized.

VALMONT INDUSTRIES, INC.
