These statements are subject to risks and uncertainties that could cause actual results to differ materially, including the following risks: our financial performance is dependent on international operations, which exposes us to various risks; any failure by us to manage our widely dispersed operations could adversely affect our business; we face significant competition; future sales growth depends, in part,

business and adversely affect our results of operations; we could be subject to additional tax liabilities; a few of our stockholders own approximately 28.1% of our voting stock as of August 31, 2014, which may make it difficult to complete some corporate transactions without their support and may impede a change in control; our inability to develop and retain existing key personnel or to attract highly qualified employees could adversely impact our business, financial condition and results of operations; we are subject to volatility in foreign currency exchange rates; we face the risk of exposure to product liability claims, a product recall and adverse publicity; if we do not maintain the privacy and security of confidential information, we could damage our reputation, incur substantial additional costs and become subject to litigation; we are subject to payment related risks; changes in accounting standards and assumptions, estimates and judgments by management related to complex accounting matters could significantly affect our financial condition and results of operations; we face increased public company compliance risks and compliance risks related to our international operations; we face increased compliance risks associated with compliance with Section 404 of the Sarbanes- Oxley Act of 2002; and if remediation costs or hazardous substance contamination levels at certain properties for which we maintain financial responsibility exceed management's current expectations, our financial condition and results of operations could be adversely impacted. In addition to the risks described above, these statements are also subject to other risks detailed in the Company's U.S. Securities and Exchange Commission (SEC) reports, including the Company's Annual Report on Form 10-K filed for the fiscal year ended August 31, 2014 filed on October 30, 2014 pursuant to the Securities Exchange Act of 1934.
