PATHFINDER BANCORP, INC. ANNOUNCES FIRST QUARTER EARNINGS

Oswego, New York, April 28, 2004 Pathfinder Bancorp, Inc., the mid-tier holding company of Pathfinder Bank, (NASDAQ SmallCap Market; symbol: PBHC, listing: PathBcp) announced reported net income of \$323,000, or \$0.13 per share, for the three months ended March 31, 2004 as compared to \$493,000, or \$0.20 per share for the same period in 2003.

"The Company has begun to feel the effects of margin compression as asset yields are declining," according to Thomas W. Schneider, President and Chief Executive Officer. "Net interest income was \$200,000 less than the prior year. Some of this decline was offset by higher non-interest income production, but it is likely that reduced margin revenue will continue to challenge earnings growth over the near term. Deposit growth was a robust 12% for the first quarter, primarily fueled by expanding deposits with local municipalities."

Net interest income for the three months ended March 31, 2004, decreased 8% to \$2.2 million when compared to the same period during 2003. Interest income

decreased 441,000, or 11%, partially offset by a decrease in interest expense of \$243,000, or 15%. Net interest rate spread decreased to 3.22% for the first quarter of 2004 from 3.84% for the same period in 2003. Average interest-earning assets increased 4% to \$264.7 million at March 31, 2004 as compared to \$254.0 million at March 31, 2003, while the yield on those assets decreased 95 basis points to 5.41% compared to 6.36% for the same period in 2003. The increase in average earning assets is primarily attributable to a \$5.3 million increase in net loans receivable and a \$5.0 million increase in investment securities. Average interest-bearing liabilities increased \$8.5 million, while the cost of funds decreased 49 basis points to 2.19% from 2.68% for the same period in 2003. The increase in the average balance of interest-bearing liabilities resulted primarily from a \$10.3 million growth in average deposits. The growth in deposits primarily resulted from the Company's focus on attracting new municipal deposit customers.

Provision for loan losses for the quarter ended March 31, 2004 increased 77% to \$188,000 from \$106,000 for the same period in 2003. The Company's ratio of allowance for loan losses to period end loans has increased to 0.95% at March 31, 2004 from 0.91% at December 31, 2003. Nonperforming loans to period end loans has remained consistent at 1.59% at March 31, 2004 and December 31, 2003.

The Company's non-interest income is principally comprised of fees on deposit accounts and transactions, loan servicing, commissions, and net securities and loan sale gains and losses. Non-interest income, net of gains and losses from the sale of securities, loans and other real estate, increased 25% to \$444,000 for the quarter ended March 31, 2004 compared to \$356,000 for the same period in the prior year. The increase in non-interest income is primarily attributable to a \$74,000 increase in service charges on deposit accounts and an \$18,000 increase in other charges commissions and fees. Net gains and losses from the sale of securities, loans and foreclosed real estate increased \$27,000 to \$234,000 for the quarter ended March 31, 2004 compared to \$207,000 for the same period in the prior year.

Operating expenses increased 2% to \$2.3 million for the quarter ended March 31, 2004, when compared to the same period in the prior year. The increase in operating expenses was primarily due to a \$90,000 increase in salary and employee benefits, a \$20,000 increase in building occupancy expenses and a \$27,000 increase in data processing expenses. These increases were partially offset by a \$17,000 decrease in professional and other services and a \$71,000 decrease in other operating expenses. The increase in salaries and employee benefits was primarily due to the salaries and benefits associated with an increase in personnel and an increase in employee benefit costs. The decrease in professional and other services and other operating expenses primarily resulted from operating costs associated with a foreclosed real estate property not recurring in 2004 as the property was sold during 2003.
