PRESIDENT'S LETTER

FELLOW SHAREHOLDERS:

JULY 2004

The stock market posted a modest advance during the second quarter, as the S&P 500 Index gained 1.7 percent during the period. The gain duplicated the index's 1.7 percent advance in the first quarter, bringing its first half return to 3.4 percent. The S&P 500 declined in April, but gained ground in May and June to conclude the half.

The quarter was marked by the prospect of higher interest rates, rising oil prices, fears surrounding the handover of power in Iraq and concerns over a slowdown in global economic growth. All contributed to sluggishness in share prices. With this uncertainty as a backdrop, small cap stocks underperformed large cap stocks; energy stocks advanced, and financial stocks declined owing to concerns over higher interest rates. Stocks have experienced a broad based decline thus far in July as the market has failed to overcome the aforementioned concerns.

On the positive side, the economy continued to expand and corporate earnings continued to rise. During the quarter, the government reported a 4.4 percent rise in first quarter GDP, up from the solid 4.1 percent pace registered in the fourth quarter of 2003. By the time all reports are in, year-over-year second quarter corporate earnings are expected to be ahead by more than 20 percent for the fourth quarter in a row--a rare event.

We continued to see a gradual rotation toward higher quality stocks--those companies that exhibit sustainable earnings growth, strong balance sheets and solid cash flow. However, for the entire first half the lowest quality stocks still narrowly outperformed the highest quality ones. In terms of style, value outperformed growth across the board--large, mid and small-cap--during the first half.

Liberty All-Star Equity Fund posted a generally positive quarter. With shares valued at net asset value (NAV) with dividends reinvested, the Fund gained 2.6 percent. This result topped the S&P 500 Index and was ahead of the Fund's primary benchmark, the Lipper Large-Cap Core Mutual Fund Average, which advanced 0.9 percent. For the first half, the Fund gained 5.6 percent with shares valued at NAV with dividends reinvested. By comparison, the S&P 500 Index, as mentioned, gained 3.4 percent for the half, while the Lipper Large-Cap Core Mutual Fund Average advanced 2.0 percent.

## Edgar Filing: LIBERTY ALL STAR EQUITY FUND - Form N-CSRS

The sole reversal for the quarter was a 6.4 percent decline in the market value of Fund shares with dividends reinvested. This was in sharp contrast to the solid NAV

1

investment performance. During the quarter, the premium at which Fund shares traded above NAV reached a high of 13.6 percent which, history shows, was unsustainably high. By quarter-end, the Fund continued to trade at a modest premium to NAV, and its market price return for the first half was on the positive side at 2.3 percent.

Long term, the Fund continues to perform well. The Fund ranks in the top 20 percent of funds in the Lipper Large-Cap Core Mutual Fund universe since the Fund's first full calendar year of operation, more than 17 years ago. One-, three- and five-year Fund returns are all in the top 5 percent of that Lipper universe.

In other Fund news, the offering to shareholders of rights to purchase additional shares of the Fund was completed successfully. The offering, which allowed investors to subscribe for one additional share for each 10 shares owned, was oversubscribed. In accord with previously announced terms of the offering, the number of shares offered was increased by an additional 25 percent to cover a portion of the over-subscription requests. This brought the total value of the offering to approximately \$132 million. We at Liberty Asset Management Company (LAMCO) are gratified by this response, and thank shareholders for their confidence in the Fund.

We invite you to read the interview with investment manager Arnold Schneider of Schneider Capital Management beginning on page 8. This is the first interview of this manager since we introduced him to Fund shareholders in the first quarter report of 2002. We believe you'll find his comments to be interesting and insightful.

Once again, we at LAMCO thank shareholders for their ongoing support of the Fund. We believe that the Fund is properly structured with a quality team of investment managers, giving us confidence as we move into the future.

Sincerely,

/s/ William R. Parmentier, Jr.

The dark blue region of the graph above reflects the growth of the investment assuming all distributions were received in cash and not reinvested back in the Fund. The value of the investment under this scenario grew to \$46,017 (this value includes distributions per share totaling \$18.40 during the period, including tax credits of \$0.67 per share on retained capital gains).

The light blue region of the graph depicts additional value realized through reinvestment of all distributions and participation in all the rights offerings under the terms of each offering. On five occasions, the Fund has conducted rights offerings that allowed shareholders to purchase additional shares at a discount. The value of the investment under this scenario grew to \$93,457.

### MANAGER INTERVIEW

PHOTO OF ARNOLD C. SCHNEIDER, III  
ARNOLD C. SCHNEIDER, III  
President and Chief Investment Officer  
Schneider Capital Management Corporation

WHEN A STOCK IS OUT OF FAVOR, IT MIGHT FIND A FRIEND IN SCM--IF THERE'S REASON TO ANTICIPATE A REBOUND IN FUNDAMENTALS

SCHNEIDER CAPITAL MANAGEMENT (SCM) IS A VALUE STYLE MANAGER PRACTICING A DISCIPLINED FUNDAMENTAL APPROACH TO ADD VALUE OVER TIME. A RESEARCH-INTENSIVE MANAGER, SCM FOCUSES ON UNCOVERING NEW IDEAS IN THE BELIEF THAT THE BROADER MARKET IS SLOW TO REACT TO CHANGE, PARTICULARLY WHERE OUT-OF-FAVOR STOCKS ARE CONCERNED. OWNING THESE STOCKS BEFORE THEY EXPERIENCE A REBOUND IN EARNINGS AND COME TO THE ATTENTION OF OTHER INVESTORS CREATES THE OPPORTUNITY FOR PRICE APPRECIATION BEFORE FUNDAMENTALS WARRANT THE STOCK BE SOLD. RECENTLY, WE HAD THE OPPORTUNITY TO SPEAK WITH ARNOLD C. SCHNEIDER, III, CFA, THE FIRM'S FOUNDER, PRESIDENT AND CHIEF INVESTMENT OFFICER.

THE VIEWS EXPRESSED IN THIS INTERVIEW REPRESENT THE PORTFOLIO MANAGER'S POSITION AT THE TIME OF THE DISCUSSION (JULY 2004) AND ARE SUBJECT TO CHANGE.

LAMCO: THE LAST TIME WE SPOKE IN DEPTH FOR A SHAREHOLDER REPORT WAS IN THE FIRST QUARTER OF 2002, AND THAT WAS ALSO YOUR FIRST INTERVIEW FOR LIBERTY ALL-STAR EQUITY FUND. AS A REFRESHER AND FOR THE BENEFIT OF NEW FUND SHAREHOLDERS, TELL US A LITTLE ABOUT SCM.

SCHNEIDER: We started Schneider Capital Management in 1996. We're located in Wayne, Pennsylvania, and the firm is 100 percent employee owned. We have about \$3 billion in total assets under management. Our clients are mostly institutions, including corporations, endowments, foundations and public retirement systems.

As to our investment philosophy, it's one of deep value. We focus on companies that are out-of-favor in the marketplace but that, in our assessment, have the ability to repair their current performance and return to former levels of earnings. We generally expect to see improvement in these companies' fundamentals around a year after their purchase. SCM has a solid research foundation focused on new idea generation, and we believe in managing relatively concentrated portfolios that are focused on the best ideas our research process can produce.

LAMCO: You describe Schneider Capital Management as "research intensive." Given that many, if not most, managers use or rely on research, what is unique or differentiating about SCM's research?

SCHNEIDER: For one thing, we try to

[SIDENOTE]

"WE FOCUS ON COMPANIES THAT ARE OUT-OF-FAVOR IN THE MARKETPLACE BUT THAT...HAVE THE ABILITY TO REPAIR THEIR CURRENT PERFORMANCE AND RETURN TO FORMER LEVELS OF EARNINGS."

8

focus on the future. Spending time on the past or present simply isn't productive because all of that is already fully discounted in the marketplace. We also try to be relatively efficient by focusing only on those elements of a company's business that will ultimately drive its profitability. Finally, ours is very much a hands-on process. We're quite independent, we have our own point of view and we don't rely on quantitative research or computer screens.

LAMCO: YOUR "SCM VALUE CYCLE" ILLUSTRATES YOUR PHILOSOPHY QUITE WELL. WOULD YOU DESCRIBE IT FOR US?

SCHNEIDER: There are five phases to the SCM value cycle--reject, consider, buy, hold and sell.

Taking them in order, the "reject" stage is what's sometimes called the "value trap" stage. That's when a company's stock appears to be cheap but really isn't, either because earnings are unsustainably high or because the industry is about to undergo secular change that's going to cause returns to permanently decline. The "consider" stage is the reject stage after some of the negative elements have been disseminated in the marketplace. At this point, the stock is even cheaper. The negative cards have been turned over and it's now obvious that company fundamentals are deteriorating and the stock is now out of favor and completely friendless. No one is recommending it. We wouldn't buy in the consider stage, however, until we feel that there's a bottom and the fundamentals are no longer declining. That's the point when we move into the "buy" stage--when the stock is undervalued but the fundamentals have at least stopped deteriorating. We aren't necessarily looking for an immediate first leg up. But, we do expect the fundamentals to begin to improve over the ensuing year. The "hold" stage phases in as the fundamentals are starting to turn up. The stock price may be higher, but mostly fundamentals are getting better. Typically, however, the kinds of companies that we own still have a long way to go at this stage, so we let our winners run and we hold our stocks in this category. Ultimately, we move into the "sell" stage either because the stock hits our price target or because the positive fundamentals have now run their course and aren't going to get any better.

LAMCO: IS THERE SUCH A THING AS A TYPICAL HOLDING PERIOD?

SCHNEIDER: We really don't have a typical holding period. If we miss on a stock and it turns out to be a loser, we will hold it for a very short period of time. On the other hand, we will hold some of our winners for five years or longer. If pressed, I would say that our successful investments most often fall into the three- to four-year timeframe.

LAMCO: INVESTORS READ AND HEAR A LOT ABOUT MACRO FACTORS THESE DAYS. THEY INCLUDE INFLATION, HIGHER INTEREST RATES, HIGH OIL PRICES, PRESIDENTIAL POLITICS AND GEOPOLITICAL TENSIONS. TO WHAT EXTENT DO YOU FACTOR TOP-DOWN CONCERNS INTO YOUR THINKING, OR ARE YOU STRICTLY BOTTOM-UP?

SCHNEIDER: We do use macro factors to provide a framework for our decision-making, but macro factors don't play a

[SIDENOTE]

"...WE BELIEVE IN MANAGING RELATIVELY CONCENTRATED PORTFOLIOS THAT ARE FOCUSED ON THE BEST IDEAS OUR RESEARCH PROCESS CAN PRODUCE."

9

significant role in our stock selection process. We're primarily a bottom-up stock picker. We mostly use macro factors to keep us away from certain areas as opposed to guiding us towards areas for investment.

LAMCO: EARLIER, YOU MENTIONED YOUR BELIEF IN CONCENTRATED PORTFOLIOS WHERE YOU CAN LET YOUR BEST IDEAS IMPACT OVERALL PERFORMANCE. CAN YOU DESCRIBE A TYPICAL SCHNEIDER PORTFOLIO?

SCHNEIDER: We usually have 50 to 60 stocks, with the top 10 holdings representing one-third of the market value of the portfolio. We have industry and sector weightings that are often meaningfully different from a large cap value benchmark, such as the Russell 1000 Value Index. We're not trying to replicate benchmarks because we don't closet index. We let bottom-up decisions lead us to our weightings.

LAMCO: YOU PRACTICE A RIGOROUS SELL DISCIPLINE. CAN YOU SUMMARIZE IT FOR US?

SCHNEIDER: I already mentioned two of the ways we sell: when a stock reaches its target price or when the fundamentals begin to deteriorate. A third way would be if a new idea has better investment potential versus an older idea that may not necessarily have reached its target but has lower potential than the new one. So, we would trim the existing holding to make room for the new one. The other scenario is just a matter of portfolio construction--if there's a certain industry exposure that becomes too great or if a single position just becomes too large. We don't want any single holding to exceed 5 percent of the portfolio at cost or 8 percent of the portfolio at market value.

LAMCO: CATCH US UP ON HOW, IN GENERAL, VALUE PERFORMED THROUGH 2003 AND THE FIRST HALF OF 2004.

SCHNEIDER: Two thousand three was a pretty broad-based rally, so growth and value did fairly similarly. This year, the value indices have resumed their outperformance of the earlier years of the decade, mostly because tech stocks have lagged and they are more widely represented in the growth indices.

LAMCO: AND HOW IS THAT INFLUENCED BY CAPITALIZATION IN TERMS OF LARGE CAP, MID-CAP AND SMALL CAP? IS THAT PRETTY MUCH TRUE ACROSS THE BOARD?

SCHNEIDER: Yes, it has just been an unbelievable five- to six-year period... very consistent beginning in late 1998. Small caps have beat mid-caps, which have beat large caps. We have been favorably disposed towards small cap stocks, but their terrific outperformance over mid-caps and the mid-caps' outperformance over large caps has narrowed the valuation gap. So, at least from a valuation standpoint, the gap has been closed, although the market can sometimes carry that beyond where it should go.

LAMCO: PERHAPS WE COULD CLOSE BY ASKING YOU TO DESCRIBE A COUPLE OF STOCKS THAT ARE IN THE PORTION OF THE LIBERTY ALL-STAR EQUITY FUND PORTFOLIO THAT YOU MANAGE AND WHY THEY EXEMPLIFY THE SCM APPROACH TO INVESTING.

[SIDENOTE]

"...WE TRY TO FOCUS ON THE FUTURE. SPENDING TIME ON THE PAST OR PRESENT SIMPLY ISN'T PRODUCTIVE BECAUSE ALL OF THAT IS ALREADY FULLY DISCOUNTED IN THE MARKETPLACE."

## Edgar Filing: LIBERTY ALL STAR EQUITY FUND - Form N-CSRS

SCHNEIDER: J. C. Penney has been one of our best stocks since we've been managing for Liberty All-Star Equity Fund. It is a company that has been totally transformed over the last two and one-half years under the leadership of Chairman and CEO Allen Questrom. He has replaced virtually the entire executive management of the company. It was a company that had become moribund and lost its way--there was no vision or leadership. Questrom has brought in a plan and a strategy and now the company has become a real leader, gaining market share versus its competitors every year. Margins are in the process of moving from 2 percent in the department store division to the 6 to 7 percent range. It's just a tremendous turnaround. The stock has more than doubled in a period where the market has been relatively flat. This is a classic broken stock, not necessarily a broken company. It has been completely revitalized under new leadership and is now considered to be a very well run company. Now the stock is in favor, with a couple of people recommending it when no one recommended it three years ago. So, J.C. Penney is a stock that represents our style well.

LAMCO: WHERE DID QUESTROM COME FROM?

SCHNEIDER: He has a background with Federated Department Stores and Barney's, so he has been in the retail business his whole career, and has a very strong track record. Once again, he is achieving great results.

LAMCO: CAN YOU DESCRIBE ANOTHER STOCK?

SCHNEIDER: A second one would be Tyco International. Obviously, this is a company that has been under a lot of press scrutiny, given the issues surrounding former CEO Dennis Kozlowski, and it could be considered a controversial stock. But, the fact is that it is a company with leadership positions in most of its businesses and it generates strong free cash flow. The old management was forced out under the scandal and Edward Breen came in from Motorola to be chairman and CEO. He has a good reputation for operations, and that's what the company needed because a lot of its divisions had lost their way. And, even though the company had leadership positions in their industries, many divisions were underperforming. Breen has instituted six sigma quality programs and other initiatives to improve operations. Earnings were in the \$1.25 range when we bought the stock and we believe that they should improve to over \$2 a share in the next couple of years. The stock has not jumped as much as J. C. Penney but it has gone from the high teens to over \$30 a share today. So, it has been a good performer and, just like J. C. Penney, we think it has more upside potential.

LAMCO: THANK YOU FOR ANOTHER INTERESTING INTERVIEW.

[SIDENOTE]

"...WE WILL HOLD SOME OF OUR WINNERS FOR FIVE YEARS OR LONGER. IF PRESSED, I WOULD SAY THAT OUR SUCCESSFUL INVESTMENTS MOST OFTEN FALL INTO THE THREE- TO FOUR-YEAR TIMEFRAME."

"WE'RE PRIMARILY A BOTTOM-UP STOCK PICKER. WE MOSTLY USE MACRO FACTORS TO KEEP US AWAY FROM CERTAIN AREAS AS OPPOSED TO GUIDING US TOWARDS AREAS FOR INVESTMENT."

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004 (UNAUDITED)

#### I. ORGANIZATION

Liberty All-Star Equity Fund (the "Fund"), is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a diversified, closed-end management investment company.

#### INVESTMENT GOAL

The Fund seeks total investment return comprised of long-term capital appreciation and current income through investing primarily in a diversified portfolio of equity securities.

#### FUND SHARES

The Fund may issue an unlimited number of shares of beneficial interest.

#### II. SIGNIFICANT ACCOUNTING POLICIES

##### USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

##### SECURITY VALUATION

Equity securities are valued at the last sale price at the close of the principal exchange on which they trade. Unlisted securities or listed securities for which there were no sales during the day are valued at the closing bid price on such exchanges or over-the-counter markets.

Debt securities generally are valued by a pricing service approved by the Fund's Board of Trustees (the "Board"), based upon market transactions for normal, institutional-sized trading units of similar securities. The services may use various pricing techniques, which will take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for

## Edgar Filing: LIBERTY ALL STAR EQUITY FUND - Form N-CSRS

which quotes are readily available are valued at an over-the-counter or exchange bid quotation.

Short-term debt obligations maturing in more than 60 days for which market quotations are readily available are valued at current market value. Short-term debt obligations maturing within 60 days are valued at amortized cost, which approximates market value.

Investments for which market quotations are not readily available are valued at fair value as determined in good faith under consistently applied procedures approved by and under the general supervision of the Board.

### SECURITY TRANSACTIONS

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

### REPURCHASE AGREEMENTS

The Fund may engage in repurchase agreement transactions with institutions that the Fund's investment advisor has determined are creditworthy. The Fund, through its custodian, receives delivery of underlying securities collateralizing a repurchase agreement. Collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays or restrictions upon the Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

### INCOME RECOGNITION

Interest income is recorded on the accrual

26

basis. Premium and discount are amortized and accreted, respectively, on all debt securities. Corporate actions and dividend income are recorded on the ex-date.

### FEDERAL INCOME TAX STATUS

Consistent with the Fund's policy to qualify as a regulated investment company and to distribute all of its taxable income to shareholders, no federal income tax has been accrued.

### DISTRIBUTIONS TO SHAREHOLDERS

The Fund currently has a policy of paying distributions on its shares of beneficial interest totaling approximately 10% of its net asset value per year. The distributions are payable in four quarterly distributions of 2.5% of the Fund's net asset value at the close of the New York Stock Exchange on the Friday prior to each quarterly declaration date. Distributions to shareholders are recorded on ex-date.

### III. FEDERAL TAX INFORMATION

The tax character of distributions paid during the year ended December 31, 2003 was as follows:

## Edgar Filing: LIBERTY ALL STAR EQUITY FUND - Form N-CSRS

Distributions paid from:	
Ordinary income*	\$ 9,756,164
Long-term capital gain	28,334,312
	-----
	38,090,476
Return of capital	53,106,588
	-----
	\$ 91,197,064

\*For tax purposes short-term capital gains distributions, if any, are considered ordinary income distributions.

The source of the distributions in the Statement of Changes in Net Assets for the six-month period ended June 30, 2004 are estimates and are subject to change based on Fund activity through December 31, 2004, the Fund's fiscal year-end.

#### IV. FEES AND COMPENSATION PAID TO AFFILIATES

Liberty Asset Management Company ("LAMCO"), an indirect, wholly owned subsidiary of Bank of America Corporation ("BOA"), is the investment advisor of the Fund. Prior to April 1, 2004, LAMCO was an indirect, wholly owned subsidiary of FleetBoston Financial Corporation ("FleetBoston"). Effective April 1, 2004, FleetBoston, including the Fund's investment advisor, was acquired by BOA. The acquisition did not change the way the Fund is managed, the investment personnel assigned to manage the Fund or the fees paid by the Fund.

#### INVESTMENT ADVISORY FEE

LAMCO receives a monthly investment advisory fee based on the Fund's average weekly net assets at the following annual rates:

AVERAGE WEEKLY NET ASSETS	FEE RATE
-----	-----
First \$400 million	0.800%
Next \$400 million	0.720%
Next \$400 million	0.648%
Over \$1.2 billion	0.584%

For the six months ended June 30, 2004, the Fund's annualized effective investment advisory fee rate was 0.72%.

Under Portfolio Manager Agreements, LAMCO pays each Portfolio Manager a portfolio management fee based on the assets of the investment portfolio that they manage. The portfolio management fee is paid from the investment advisory fees collected by LAMCO and is based on the Fund's average weekly net assets at the following annual rates:

AVERAGE WEEKLY NET ASSETS	FEE RATE
-----	-----
First \$400 million	0.400%
Next \$400 million	0.360%

## Edgar Filing: LIBERTY ALL STAR EQUITY FUND - Form N-CSRS

Next \$400 million	0.324%
Over \$1.2 billion	0.292%

### ADMINISTRATION FEE

LAMCO provides administrative and other services for a monthly fee based on the Fund's average weekly net assets at the following annual rates:

27

AVERAGE WEEKLY NET ASSETS -----	FEE RATE -----
First \$400 million	0.200%
Next \$400 million	0.180%
Next \$400 million	0.162%
Over \$1.2 billion	0.146%

For the six months ended June 30, 2004, the Fund's annualized effective administration fee rate was 0.18%.

### PRICING AND BOOKKEEPING FEES

Columbia Management Advisors, Inc. ("Columbia"), an indirect, wholly owned subsidiary of BOA and an affiliate of LAMCO, is responsible for providing pricing and bookkeeping services to the Fund under a pricing and bookkeeping agreement. Under a separate agreement (the "Outsourcing Agreement"), Columbia has delegated those functions to State Street Corporation ("State Street"). Columbia pays the total fees collected from the Fund for the services to State Street under the Outsourcing Agreement.

Under its pricing and bookkeeping agreement with the Fund, Columbia receives from the Fund an annual flat fee of \$10,000 paid monthly, and in any month that the Fund's average weekly net assets exceed \$50 million, an additional monthly fee. The additional fee rate is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement. This rate is applied to the average daily net assets of the Fund for that month. The Fund also pays additional fees for pricing services. For the six months ended June 30, 2004, the annualized effective pricing and bookkeeping fee rate was 0.020%.

### CUSTODY CREDITS

The Fund has an agreement with its custodian bank under which custody fees may be reduced by balance credits. The Fund could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income producing asset if it had not entered into such an agreement.

### FEES PAID TO OFFICERS

The Fund pays no compensation to its officers, all of whom are employees of LAMCO or its affiliates.

### OTHER

Columbia provides certain services to the Fund related to Sarbanes-Oxley compliance. For the six months ended June 30, 2004, the Fund paid \$2,937 to Columbia for such services. This amount is included in "Miscellaneous expense"

## Edgar Filing: LIBERTY ALL STAR EQUITY FUND - Form N-CSRS

on the Statement of Operations.

### V. PORTFOLIO INFORMATION

#### PURCHASES AND SALES OF SECURITIES

For the six months ended June 30, 2004, the cost of purchases and proceeds from sales of securities, excluding short-term obligations, were \$460,068,509 and \$491,094,795, respectively.

### VI. CAPITAL TRANSACTIONS

During the six months ended June 30, 2004, and the year ended December 31, 2003, distributions in the amount of \$18,933,626 and \$38,881,100, respectively, were paid in newly issued shares valued at market value or net asset value, but not less than 95% of market value. Such distributions resulted in the issuance of 2,094,335 and 4,584,918 shares, respectively.

### VII. SUBSEQUENT EVENT:

#### RIGHTS OFFERING

In a rights offering commencing June 2004, shareholders were issued non-transferable rights entitling them to subscribe for one additional share for every ten shares held, with the right to subscribe for additional shares not subscribed for by others in the primary subscription. The rights offering expired on July 7, 2004. The Fund issued 15,841,927 shares at \$8.34 per share, which represented 95% of the net asset value on July 8, 2004. Total proceeds of the offering amounted to \$132,121,671. The issuance of shares at a discount to NAV resulted in dilution to the NAV of \$0.05 per share.

28

### DISTRIBUTION POLICY/DIVIDEND REINVESTMENT PLAN

#### DISTRIBUTION POLICY

Liberty All-Star Equity Fund's current policy, in effect since 1988, is to pay distributions on its shares totaling approximately 10 percent of its net asset value per year, payable in four quarterly installments of 2.5 percent of the Fund's net asset value at the close of the New York Stock Exchange on the Friday prior to each quarterly declaration date. THE FIXED DISTRIBUTIONS ARE NOT RELATED TO THE AMOUNT OF THE FUND'S NET INVESTMENT INCOME OR NET REALIZED CAPITAL GAINS OR LOSSES AND MAY BE TAXED AS ORDINARY INCOME UP TO THE AMOUNT OF THE FUND'S CURRENT AND ACCUMULATED EARNINGS AND PROFITS. If, for any calendar year, the total distributions made under the 10 percent pay-out policy exceed the Fund's net investment income and net realized capital gains, the excess will generally be treated as a non-taxable return of capital, reducing the shareholder's adjusted basis in his or her shares. If the Fund's net investment income and net realized capital gains for any year exceed the amount distributed under the 10 percent pay-out policy, the Fund may, in its discretion, retain and not distribute net realized capital gains and pay income tax thereon to the extent of such excess. The Fund retained such excess gains in 1993, 1996 and 1997.

#### DIVIDEND REINVESTMENT PLAN

Through the Fund's Automatic Dividend Reinvestment and Cash Purchase Plan, the Fund's shareholders have the opportunity to have their dividends automatically reinvested in additional shares of the Fund. Participants are kept apprised of the status of their account through quarterly statements.
