LETTER TO SHAREHOLDERS

August 2, 2006

DEAR SHAREHOLDER:

For the six month period ended June 30, 2006, the net asset value (NAV) of The Chile Fund, Inc. (the "Fund") increased by 1.27%, vs. an increase of 0.34% for the Morgan Stanley Capital International Chile Index.*

The market price of the Fund's shares declined 16.60% in the period, closing at US\$14.72. As a result, the Fund's shares traded at a premium of 2.7% on June 30, 2006, compared with a 24.6% premium to NAV at the start of the period.

FUND NOW TRADING ON AMEX

Effective May 11, 2006, the Fund is listed on, and has commenced trading on, the American Stock Exchange, LLC ("AMEX"). The Fund opted to make the move based on listing costs. The Fund estimates that the Fund's annual listing fees will decline substantially. The Fund continues to trade under the same ticker symbol (CH).

MARKET OVERVIEW: CHILE TRAILS IN VOLATILE MARKET

The world's emerging equity markets had positive, though volatile, performance in the period. The group started the year on a bright note, extending a strong rally begun in 2003. Emerging markets turned sharply down in May, however, when worries over US inflation and global interest-rates sparked a broad sell off that hit riskier asset classes the hardest. The group suffered a peak-to-trough fall of 25%, before staging a partial rebound late in the period.

Chile had only a marginal gain in the period, underperforming global emerging markets and its regional peers. Stocks in Chile corrected by significantly less than other Latin American markets during the May/June sell off, but the bounce back was relatively mild. This was consistent with our view that Chile's market is less susceptible to volatility in general, due to the depth of local capital market demand.

In this environment, the Fund had only a modest gain, though it outperformed its benchmark. Stocks that aided the Fund's return included its consumer stocks, in particular consumer discretionary holdings. The Fund's materials companies also outperformed, and the Fund's underweighting in the financial services sector was beneficial as well, as financial stocks struggled. The Fund's industrial and telecommunications holdings underperformed.

OUTLOOK AND STRATEGY

Against a global backdrop that we view as more challenging, given an increasingly clouded outlook for global growth and frequent shifts in risk appetite, here are some of the factors we consider noteworthy:

Edgar Filing: CHILE FUND INC - Form N-CSRS

- Commodities have fallen from their peaks but copper, a key Chilean export, remains at high levels by historical standards.
- After poor readings in March and April, the Monthly Economic Activity Indicator, an index of economic activity, bounced in the May reading, and continues to suggest a growth rate of between 5.5% and 6.0% in 2006.

1

- The previously weak readings may explain why consumer confidence has dipped in recent surveys. Other factors that may have contributed include a) the energy crisis resulting from Argentina restricting natural gas supplies, b) the falling popularity of President Bachelet amid student protests, c) rising unemployment rates and d) rising interest rates.
- Our analysis, however, suggests a more positive economic picture. The increase in unemployment is mainly a reflection of the increased labor force participation. Job creation has actually been growing at a healthy rate of 4.2%.
- CPI inflation over the last twelve months is running at around 4%, at the top of the Central Bank's target range of 2-4%, but core inflation has been trending down again; we expect the Bank to raise rates by only another 25 basis points before pausing.
- The government's attempts to talk the peso down seems to have had some effect recently, with the currency weakening slightly to the Ch\$540 level against the US Dollar.

For our part, we will continue to look for reasonably valued companies we think can deliver consistent earnings growth. From a sector perspective, we remain overweighted in consumer areas such as beverages and specific retail stocks, reflecting our view that consumption should be a main pillar in Chile's economy in the next few years. We also continue to focus on the pulp and paper and electricity industries, while remaining underweighted in telecoms and financial services, based on risk/reward characteristics.

We would also note that, as the result of our sale of Infraestructura 2000 late in the period (at a value 25% higher than the carrying value), the Fund as of June 30, 2006 has no remaining private equity investments.

Respectfully,

/s/ Matthew J.K. Hickman

THE CHILE FUND, INC.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

NOTE A. ORGANIZATION

The Chile Fund, Inc. (the "Fund") was incorporated in Maryland on January 30, 1989 and commenced investment operations on September 27, 1989. The Fund is registered under the Investment Company Act of 1940, as amended, as a closed-end, non-diversified management investment company.

NOTE B. SIGNIFICANT ACCOUNTING POLICIES

USE OF ESTIMATES: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

SECURITY VALUATION: The net asset value of the Fund is determined daily as of the close of regular trading on the New York Stock Exchange, Inc. (the "Exchange") on each day the Exchange is open for business. Equity investments are valued at market value, which is generally determined using the closing price on the exchange or market on which the security is primarily traded at the time of valuation (the "Valuation Time"). If no sales are reported, equity investments are generally valued at the most recent bid quotation as of the Valuation Time or at the lowest ask quotation in the case of a short sale of securities. Debt securities with a remaining maturity greater than 60 days are valued in accordance with the price supplied by a pricing service, which may use a matrix, formula or other objective method that takes into consideration market indices, yield curves and other specific adjustments. Debt obligations that will mature in 60 days or less are valued on the basis of amortized cost, which approximates market value, unless it is determined that this method would not represent fair value. Investments in mutual funds are valued at the mutual fund's closing net asset value per share on the day of valuation. Securities and other assets for which market quotations are not readily available, or whose values have been materially affected by events occurring before the Fund's Valuation Time, but after the close of the securities' primary market, are valued at fair value as determined in good faith by, or under the direction of, the Board of Directors under procedures established by the Board of Directors. The Fund may utilize a service provided by an independent third party which has

Edgar Filing: CHILE FUND INC - Form N-CSRS

been approved by the Board of Directors to fair value certain securities. When fair-value pricing is employed, the prices of securities used by a fund to calculate its net asset value may differ from quoted or published prices for the same securities. The Fund's estimate of fair value assumes a willing buyer and a willing seller neither acting under the compulsion to buy or sell.

SHORT-TERM INVESTMENT: The Fund sweeps available cash into a short-term time deposit available through Brown Brothers Harriman & Co., the Fund's custodian. The short-term time deposit is a variable rate account classified as a short-term investment.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME: Investment transactions are accounted for on a trade date basis. The cost of investments sold is determined by use of the specific identification method for both financial reporting and U.S. income tax purposes. Interest income is accrued as earned; dividend income is recorded on the ex-dividend date.

TAXES: No provision is made for U.S. income or excise taxes as it is the Fund's intention to continue to qualify as a regulated investment company and to make the requisite distributions to its shareholders sufficient to relieve it from all or substantially all U.S. income and excise taxes.

12

The Fund accrues foreign taxes on realized gains and repatriation taxes in an amount equal to what the Fund would owe if the securities were sold and the proceeds repatriated on the valuation date as a liability and reduction of realized/unrealized gains. Taxes on foreign income are recorded when the related income is recorded. For the six months ended June 30, 2006, the Fund incurred \$281,145 of such expense.

FOREIGN CURRENCY TRANSLATIONS: The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (I) market value of investment securities, assets and liabilities at the valuation date rate of exchange; and
- (II) purchases and sales of investment securities, income and expenses at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of gains and losses on investments in equity securities which is due to changes in the foreign exchange rates from that which is due to changes in market prices of equity securities. Accordingly, realized and unrealized foreign currency gains and losses with respect to such securities are included in the reported net realized and unrealized gains and losses on investment transactions balances.

The Fund reports certain foreign currency related transactions and foreign taxes withheld on security transactions as components of realized gains for financial reporting purposes, whereas such foreign currency related transactions are treated as ordinary income for U.S. federal income tax purposes.

Net unrealized currency gains or losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of net unrealized appreciation/depreciation in value of investments, and translation of other assets and liabilities denominated in foreign currencies.

Edgar Filing: CHILE FUND INC - Form N-CSRS

Net realized foreign exchange gains or losses represent foreign exchange gains and losses from transactions in foreign currencies and forward foreign currency contracts, exchange gains or losses realized between the trade date and settlement date on security transactions, and the difference between the amounts of interest and dividends recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received.

DISTRIBUTIONS OF INCOME AND GAINS: The Fund distributes at least annually to shareholders substantially all of its net investment income and net realized short-term capital gains, if any. The Fund determines annually whether to distribute any net realized long-term capital gains in excess of net realized short-term capital losses, including capital loss carryovers, if any. An additional distribution may be made to the extent necessary to avoid the payment of a 4% U.S. federal excise tax. Dividends and distributions to shareholders are recorded by the Fund on the ex-dividend date.

The character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for U.S. income tax purposes due to U.S. generally accepted accounting principles/tax differences in the character of income and expense recognition.

OTHER: The Fund invests in securities of foreign countries and governments which involve certain risks in addition to those inherent in domestic investments. Such risks generally include, among others, currency risks (fluctuations in currency exchange rates), information risk (key information may be inaccurate or unavailable) and political risk (expropriation,

13

nationalization or the imposition of capital or currency controls or punitive taxes). Other risks of investing in foreign securities include liquidity and valuation risks.

Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuations in exchange rates.

The Chilean securities markets are substantially smaller, less liquid and more volatile than the major securities markets in the United States. Consequently, acquisition and disposition of securities by the Fund may be inhibited. A significant proportion of the aggregate market value of equity securities listed on the Santiago Exchange are held by a small number of investors and are not publicly traded. This may limit the number of shares available for acquisition or disposition by the Fund.

Investments in Chile may involve certain considerations and risks not typically associated with investments in the United States, including the possibility of future political and economic developments and the level of Chilean governmental supervision and regulation of its securities markets.

The Fund, subject to local investment limitations, may invest up to 20% of its assets (at the time of commitment) in illiquid equity securities, including securities of private equity funds (whether in corporate or partnership form) that invest primarily in the emerging markets. When investing through another investment fund, the Fund will bear its proportionate share of the expenses incurred by that fund, including management fees. Such securities are expected to be illiquid, which may involve a high degree of business and financial risk and may result in substantial losses. Because of the current absence of any liquid trading market for these investments, the Fund may take longer to

Edgar Filing: CHILE FUND INC - Form N-CSRS

liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices realized on such sales could be substantially less than those originally paid by the Fund or the current carrying values and these difference could be material. Further, companies whose securities are not publicly traded may not be subject to the disclosure and other investor protection requirements applicable to companies whose securities are publicly traded.

NOTE C. AGREEMENTS

Credit Suisse Asset Management, LLC ("Credit Suisse") serves as the Fund's investment adviser with respect to all investments. Credit Suisse receives as compensation for its advisory services from the Fund, an annual fee, calculated weekly and paid quarterly, equal to 1.20% of the first \$50 million of the Fund's average weekly market value or net assets (whichever is lower), 1.15% of the next \$50 million and 1.10% of amounts in excess of \$100 million. For the six months ended June 30, 2006, Credit Suisse earned \$850,185 for advisory services. Credit Suisse also provides certain administrative services to the Fund and is reimbursed by the Fund for costs incurred on behalf of the Fund (up to \$20,000 per annum). For the six months ended June 30, 2006, Credit Suisse was reimbursed \$9,917 for administrative services rendered to the Fund.

Celfin Capital Servicios Financieros S.A. ("Celfin") serves as the Fund's Chilean sub-adviser. Celfin receives as compensation for its sub-advisory services, an annual fee, out of the advisory fee payable to Credit Suisse, calculated weekly and paid quarterly, equal to 0.20% of the Fund's average weekly market value or net assets (whichever is lower). For the six months ended June 30, 2006, these sub-advisory fees amounted to \$147,817.

For the six months ended June 30, 2006, Celfin earned approximately \$38,000 in brokerage commissions from portfolio transactions executed on behalf of the Fund.

14

Bear Stearns Funds Management Inc. ("BSFM") serves as the Fund's U.S. administrator. The Fund pays BSFM a monthly fee that is calculated weekly based on the Fund's average weekly net assets. For the six months ended June 30, 2006, BSFM earned \$49,120 for administrative services.

Celfin Capital S.A. Administradora de Fondos de Capital Extranjero ("AFCE") serves as the Fund's Chilean administrator. For its services, AFCE is paid a fee, out of the advisory fee payable to Credit Suisse, that is calculated weekly and paid quarterly at an annual rate of 0.05% of the Fund's average weekly market value or net assets (whichever is lower). In addition, AFCE receives a supplemental administration fee, an annual reimbursement of out-of-pocket expenses and an accounting fee. For the six months ended June 30, 2006, the administration fees, supplemental administration fees and accounting fees amounted to \$36,954, \$39,671 and \$3,372, respectively.

Merrill Corporation ("Merrill"), an affiliate of Credit Suisse, has been engaged by the Fund to provide certain financial printing services. For the six months ended June 30, 2006, Merrill was paid \$16,115 for its services to the Fund.

The Independent Directors receive fifty percent (50%) of their annual retainer in the form of shares purchased by the Fund's transfer agent in the open market. Directors as a group own less than 1% of the Fund's outstanding shares.

NOTE D. CAPITAL STOCK

Edgar Filing: CHILE FUND INC - Form N-CSRS

The authorized capital stock of the Fund is 100,000,000 shares of common stock, \$0.001 par value. Of the 10,139,926 shares outstanding at June 30, 2006, Credit Suisse owned 14,615 shares.

NOTE E. INVESTMENT IN SECURITIES

For the six months ended June 30, 2006, purchases and sales of securities, other than short-term investments, were \$21,777,502 and \$23,909,952, respectively.

NOTE F. CREDIT FACILITY

The Fund, together with other funds/portfolios advised by Credit Suisse (collectively, the "Participating Funds"), participates in a \$75 million committed, unsecured, line of credit facility ("Credit Facility") with Deutsche Bank, A.G. as administrative agent and syndication agent and State Street Bank and Trust Company as operations agent for temporary or emergency purposes. Under the terms of the Credit Facility, the Participating Funds pay an aggregate commitment fee at a rate of 0.10% per annum on the average unused amount of the Credit Facility, which is allocated among the Participating Funds in such manner as is determined by the governing Boards of the Participating Funds. In addition, the Participating Funds pay interest on borrowings at the Federal Funds rate plus 0.50%. During the six months ended June 30, 2006, the Fund had no borrowings under the Credit Facility.

NOTE G. FEDERAL INCOME TAXES

Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of foreign currency transactions, losses deferred due to wash sales and excise tax regulations.

At June 30, 2006, the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized appreciation from investments were \$91,620,062, \$58,015,373, \$(3,393,097) and \$54,622,276, respectively.

15

NOTE H. CONTINGENCIES

In the normal course of business, the Fund may provide general indemnifications pursuant to certain contracts and organizational documents. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

16

RESULTS OF ANNUAL MEETING OF SHAREHOLDERS (UNAUDITED)

On April 20, 2006, the Annual Meeting of Shareholders of the Fund (the "Meeting") was held and the following matter was voted upon:

Edgar Filing: CHILE FUND INC - Form N-CSRS

(1) To re-elect two directors (Mr. Arzac and Mr. Torino) and to elect two directors (Mr. Fox and Mr. Haber) to the Board of Directors of the Fund:

NAME OF DIRECTOR -----	FOR -----	WITHHELD -----
Enrique R. Arzac	6,920,423	63,778
Lawrence J. Fox	6,907,063	77,139
Lawrence D. Haber	6,916,760	67,441
Martin M. Torino	6,915,408	68,793

In addition to the directors elected at the Meeting, James J. Cattano and Steven N. Rappaport continued as directors of the Fund. Subsequent to this Meeting Lawrence D. Haber resigned as a director of the Fund.

DESCRIPTION OF INVESTLINK(SM) PROGRAM (UNAUDITED)

The InvestLink(SM) Program is sponsored and administered by Computershare Trust Company N.A. ("Computershare"), not by the Fund. Computershare will act as program administrator (the "Program Administrator") of the InvestLink(SM) Program (the "Program"). The purpose of the Program is to provide existing shareholders with a simple and convenient way to invest additional funds and reinvest dividends in shares of the Fund's common stock ("Shares") at prevailing prices, with reduced brokerage commissions and fees.

In order to participate in the Program, you must be a registered holder of at least one Share of stock of the Fund. Purchases of Shares with funds from a participant's cash payment or automatic account deduction will begin on the next day on which funds are invested. All cash payments must be drawn on a U.S. bank and payable in U.S. dollars. Checks must be made payable to Computershare. If a participant selects the dividend reinvestment option, automatic investment of dividends generally will begin with the next dividend payable after the Program Administrator receives his enrollment form. Once in the Program, a person will remain a participant until he terminates his participation or sells all Shares held in his Program account, or his account is terminated by the Program Administrator. A participant may change his investment options at any time by requesting a new enrollment form and returning it to the Program Administrator.

A participant will be assessed certain charges in connection with his participation in the Program. All optional cash deposit investments will be subject to a service charge. Sales processed through the Program will have a service fee deducted from the net proceeds, after brokerage commissions. In addition to the transaction charges outlined above, participants will be assessed per share processing fees (which include brokerage commissions.) Participants will not be charged any fee for reinvesting dividends.

The number of Shares to be purchased for a participant depends on the amount of his dividends, cash payments or bank account or payroll deductions, less applicable fees and commissions, and the purchase price of the Shares. The investment date for cash payments is the 25th day of each month (or the next trading day if the 25th is not a trading day). The investment date for dividend reinvestment is the dividend payment date. The Program Administrator uses dividends and funds of participants to purchase Shares of the Fund in the open market. Such purchases will be made by participating brokers as agent for the participants using normal cash settlement practices. All Shares purchased through the Program will be allocated to participants as of the settlement date, which is usually three business days from the purchase date. In all cases, transaction processing will occur within 30 days of the receipt of funds, except where temporary curtailment or suspension of purchases is necessary to comply with applicable provisions of the Federal Securities laws or when unusual market conditions make prudent investment impracticable. In the event the Program Administrator is unable to purchase Shares within 30 days of the receipt of funds, such funds will be returned to the participants.

Edgar Filing: CHILE FUND INC - Form N-CSRS

The average price of all Shares purchased by the Program Administrator with all funds received during the time period from two business days preceding any investment date up to the second business day preceding the next investment date shall be the price per share allocable to a participant in connection with the Shares purchased for his account with his funds or dividends received by the Program Administrator during such time period. The average price of all Shares sold by the Program Administrator pursuant to sell orders received during such time period shall be the price per share allocable to a participant in connection with the Shares sold for his account pursuant to his sell orders received by the Program Administrator during such time period. All sale requests having an

19

anticipated market value of \$100,000.00 or more are expected to be submitted in written form. In addition, all sale requests received by the Program Administrator within thirty (30) days of an address change are expected to be submitted in written form.

Computershare, as Program Administrator, administers the Program for participants, keeps records, sends statements of account to participants and performs other duties relating to the Program. Each participant in the Program will receive a statement of his account following each purchase of Shares. The statements will also show the amount of dividends credited to such participant's account (if applicable), as well as the fees paid by the participant. In addition, each participant will receive copies of the Fund's annual and semi-annual reports to shareholders, proxy statements and, if applicable, dividend income information for tax reporting purposes.

If the Fund is paying dividends on the Shares, a participant will receive dividends through the Program for all Shares held on the dividend record date on the basis of full and fractional Shares held in his account, and for all other Shares of the Fund registered in his name. The Program Administrator will send checks to the participants for the amounts of their dividends that are not to be automatically reinvested at no cost to the participants.

Shares of the Fund purchased under the Program will be registered in the name of the accounts of the respective participants. Unless requested, the Fund will not issue to participants certificates for Shares of the Fund purchased under the Program. The Program Administrator will hold the Shares in book-entry form until a Program participant chooses to withdraw his Shares or terminate his participation in the Program. The number of Shares purchased for a participant's account under the Program will be shown on his statement of account. This feature protects against loss, theft or destruction of stock certificates.

A participant may withdraw all or a portion of the Shares from his Program account by notifying the Program Administrator. After receipt of a participant's request, the Program Administrator will issue to such participant certificates for the whole Shares of the Fund so withdrawn or, if requested by the participant, sell the Shares for him and send him the proceeds, less applicable brokerage commissions, fees, and transfer taxes, if any. If a participant withdraws all full and fractional Shares in his Program account, his participation in the Program will be terminated by the Program Administrator. In no case will certificates for fractional Shares be issued. The Program Administrator will convert any fractional Shares held by a participant at the time of his withdrawal to cash.

Participation in any rights offering, dividend distribution or stock split will

Edgar Filing: CHILE FUND INC - Form N-CSRS

be based upon both the Shares of the Fund registered in participants' names and the Shares (including fractional Shares) credited to participants' Program accounts. Any stock dividend or Shares resulting from stock splits with respect to Shares of the Fund, both full and fractional, which participants hold in their Program accounts and with respect to all Shares registered in their names will be automatically credited to their accounts.

All Shares of the Fund (including any fractional share) credited to his account under the Program will be voted as the participant directs. The participants will be sent the proxy materials for the annual meetings of shareholders. When a participant returns an executed proxy, all of such Shares will be voted as indicated. A participant may also elect to vote his Shares in person at the Shareholders' meeting.

20

A participant will receive tax information annually for his personal records and to help him prepare his U.S. federal income tax return. The automatic reinvestment of dividends does not relieve him of any income tax which may be payable on dividends. For further information as to tax consequences of participation in the Program, participants should consult with their own tax advisors.

The Program Administrator in administering the Program will not be liable for any act done in good faith or for any good faith omission to act. However, the Program Administrator will be liable for loss or damage due to error caused by its negligence, bad faith or willful misconduct. Shares held in custody by the Program Administrator are not subject to protection under the Securities Investors Protection Act of 1970.

The participant should recognize that neither the Fund nor the Program Administrator can provide any assurance of a profit or protection against loss on any Shares purchased under the Program. A participant's investment in Shares held in his Program account is no different than his investment in directly held Shares in this regard. The participant bears the risk of loss and the benefits of gain from market price changes with respect to all of his Shares. Neither the Fund nor the Program Administrator can guarantee that Shares purchased under the Program will, at any particular time, be worth more or less than their purchase price. Each participant must make an independent investment decision based on his own judgment and research.

While the Program Administrator hopes to continue the Program indefinitely, the Program Administrator reserves the right to suspend or terminate the Program at any time. It also reserves the right to make modifications to the Program. Participants will be notified of any such suspension, termination or modification in accordance with the terms and conditions of the Program. The Program Administrator also reserves the right to terminate any participant's participation in the Program at any time. Any question of interpretation arising under the Program will be determined in good faith by the Program Administrator and any such good faith determination will be final.

Any interested shareholder may participate in the Program. All other cash payments or bank account deductions must be at least \$100.00, up to a maximum of \$100,000.00 annually. An interested shareholder may join the Program by reading the Program description, completing and signing the enrollment form and returning it to the Program Administrator. The enrollment form and information relating to the Program (including the terms and conditions) may be obtained by calling the Program Administrator at one of the following telephone numbers: (800) 730-6001 (U.S. and Canada) or (781) 575-3100 (outside U.S. and Canada).

Edgar Filing: CHILE FUND INC - Form N-CSRS
