ITEM 1. MANAGEMENT REPORT ON THE INTERIM
CONSOLIDATED FINANCIAL RESULTS
AS OF SEPTEMBER 30, 2011
(UNAUDITED)

The following discussion should be read in conjunction with the disclosure contained in the Consolidated Financial Statements as of December 31, 2010, which includes a study about risks and uncertainties that can influence operational results or the financial position of Luxottica Group (the "Group").

1. OPERATING PERFORMANCE FOR THE THREE- AND THE NINE-MONTH PERIODS ENDED SEPTEMBER 30, 2011

During the first nine months and third quarter of 2011, Luxottica's growth trend continued. In a macroeconomic environment that was positive, the Group benefited from a prolonged "sun" season, delivering sales and earnings growth for the eighth straight quarter. The Group achieved particularly solid performance in Emerging Markets (growing more than 24 percent and 35 percent at constant exchange rates¹ for the first nine months and third quarter of 2011, respectively) and in North America during this period. Despite the significant depreciation of the U.S. dollar against the Euro, going from 1.3145 to 1.4065 (6.5 percent) in the first nine months of 2011 and from 1.2910 during the third quarter of 2010 to 1.4127 (8.6 percent) during the same period in 2011, net sales exceeded Euro 4.7 billion and Euro 1.5 billion and net income was Euro 388.0 million and Euro 111.2 million for the first nine months and for the third quarter of 2011, respectively.

¹ We calculate constant exchange rates by applying to the current period the average exchange rates between the Euro and the relevant currencies of the various markets in which the Group operates, during the relevant nine and three months periods ended September 30, 2011. Please refer to Attachment 1 for further details on exchange rates.

During the third quarter of the year, Luxottica achieved well-balanced growth in both its Retail and Wholesale Divisions. The results recorded by the Wholesale Division were once again excellent, with strong growth in net sales which were Euro 1,900.2 million (+10.3 percent or +11.9 percent at constant exchange rates) and Euro 555.1 million (+7.1 percent or +10.7 percent at constant exchange rates) for the nine months ended September 30, 2011 and for the third quarter 2011, respectively.

The results recorded by the Retail Division confirmed the positive trend shown in the first six months of the year with well-balanced growth rates in all the geographies in which the Group operates. Net sales were Euro 2,813.3 million (+3.1 percent or +8.0 percent at constant exchange rates) and Euro 968.7 million (+2.4 percent or +9.6 percent at constant exchange rates) for the nine months ended September 30, 2011 and for the third quarter 2011, respectively.

In the third quarter of 2011, net sales rose by 10.0 percent at constant exchange rates (+4.0 percent at current exchange rates) to Euro 1,523.8 million from Euro 1,464.7 million in the third quarter of 2010. During the nine-month period, net sales rose by 9.6 percent at constant exchange rates to Euro 4,713.5 million, from Euro 4,451.5 million in the first nine months of 2010.

Net income attributable to Luxottica Group Stockholders for the nine- and three-month periods ended September 30, 2011 was Euro 388.0 million and Euro 111.2 million, respectively, operating income for the respective periods was Euro 678.8 million and Euro 194.5 million and EPS was Euro 0.84

and Euro 0.24. During the third quarter of 2011, the Group recorded the following items characterized as extraordinary or non-recurring in its financial results which have been incorporated, as indicated, into our disclosures in this Report: (1) an extraordinary gain of approximately Euro 21.0 million related to the acquisition of a 40% stake in Multiópticas Internacional S.L. ("Multiópticas Internacional"); (2) non-recurring costs related to Luxottica's 50th anniversary celebrations of approximately Euro 12.0 million; and (3) non-recurring restructuring and start-up costs in the Retail Division of approximately Euro 11.8 million.

Adjusted EBITDA² for the third quarter of 2011 grew over the previous year by 4.7 percent to Euro 276.0 million, from Euro 263.5 million in the third quarter of 2010. For the first nine months of the year, adjusted EBITDA increased to Euro 911.1 million from Euro 841.5 million posted for the same period of 2010.

² For a further discussion of Adjusted EBITDA, see page 17 "Non-IAS/IFRS Measures."

Adjusted operating income³ for the third quarter of 2011 was Euro 197.4 million (Euro 186.4 million for the same period last year, +5.9 percent), while the Group's adjusted operating margin⁴ improved from 12.7 percent in the third quarter of 2010 to 13.0 percent in the third quarter of 2011. For the first nine months of the year, the adjusted operating income amounted to Euro 681.6 million, up 10.6 percent over the Euro 616.0 million posted for the same period last year.

³ For a further discussion of Adjusted Operating Income, see page 17 "Non-IAS/IFRS Measures."

⁴ For a further discussion of Adjusted Operating Margin, see page 17 "Non-IAS/IFRS Measures."

Adjusted net income⁵ for the third quarter of 2011 increased to Euro 106.1 million, up by +4.1 percent from Euro 101.9 million in the same period of 2010, resulting in adjusted earnings per share⁶ (EPS) of Euro 0.23 (at an average Euro/U.S. dollar exchange rate of 1.4127). The adjusted EPS in U.S. dollars grew by 13.4 percent from U.S. \$0.29 in the third quarter of 2010 to U.S. \$0.33 in the third quarter of 2011. Net income for the nine month period of 2011 increased to Euro 388.0 million (Adjusted Euro 382.9 million), up by 11.8 percent from Euro 347.1 million in the same period of 2010, resulting in EPS of Euro 0.84 (at an average Euro/U.S. dollar exchange rate of 1.4065). The adjusted EPS in U.S. dollars grew by 17.6 percent to U.S. \$ 1.17 in the first nine months of 2011 from U.S. \$ 0.99 in the same period of 2010.

⁵ For a further discussion of Adjusted Net Income, see page 17 "Non-IAS/IFRS Measures."

⁶ For a further discussion of Adjusted EPS, see page 17 "Non-IAS/IFRS Measures."

For the third quarter of 2011 and the first nine month period ended September 30, 2011, Luxottica once again generated positive free cash flow⁷ (Euro 200 million and Euro 338 million, respectively). Net debt⁸ as of September 30, 2011 amounted to Euro 2,078 million (Euro 2,111 million at the end of 2010), with a ratio of net debt to adjusted EBITDA of 1.8x as compared with 2.0x at the end of 2010.

⁷ For a further discussion of Free Cash Flow, see page 17 "Non-IAS/IFRS Measures."

⁸ For a further discussion of Net Debt and Net Debt to Adjusted EBITDA, see page 17 "Non-IAS/IFRS Measures."

February

On February 17, 2011, the Group announced that it had entered into agreements pursuant to which the Group subsequently acquired two sunglass specialty retail chains totaling more than 70 stores in Mexico for a total amount of Euro 19.5 million. This transaction marks the Company's entry into the sun retail business in Mexico where the Group already has a solid presence through its wholesale division. Over time, the stores will be rebranded under the Sunglass Hut brand. The acquisition was completed in the second quarter of 2011.

March

During the first three months of 2011, we purchased on the Mercato Telematico Azionario ("MTA") 466,204 of our ordinary shares at an average price of Euro 22.45 per share, for a total amount of Euro 10.5 million, pursuant to the stock purchase program approved at the Stockholders' Meeting on October 29, 2009 and launched on November 16, 2009. This stock purchase program expired on April 28, 2011.

April

At the Stockholders' Meeting on April 28, 2011, the stockholders approved the Statutory Financial Statements as of December 31, 2010, as proposed by the Board of Directors and the distribution of a cash dividend of Euro 0.44 per ordinary share, reflecting a year-over-year 26 percent increase. The aggregate dividend amount of Euro 204.6 million was fully paid in May 2011.

May

On May 23, 2011, the Group announced that it had entered into an agreement to accelerate the purchases, in July 2011, of 57 percent of Multiópticas Internacional share capital. The Group already owned a 40 percent stake in Multiópticas Internacional, which itself currently owns over 470 eyewear stores operating under the Ópticas GMO, Econópticas and Sun Planet retail brands in Chile, Peru, Ecuador and Colombia.

Once the call option is exercised (which is worth approximately Euro 95 million), the Group will own 97 percent of Multiópticas Internacional's share capital.

Multiópticas Internacional is currently present in South America with more than 470 stores as follows: 221 in Chile, 141 in Peru, 40 in Ecuador and 77 in Colombia. In 2010 they had total net sales exceeding Euro 80 million. Over the last four years, Compound Annual Growth Rate (CAGR) of net sales was more than 11 percent. It is expected that net sales for 2011 for the Multiópticas Internacional business could reach Euro 95 million.

Under the terms of the agreement, the Group paid on July 13, 2011, 70 percent of the exercise price, determined on the basis of Multiópticas Internacional's sales and EBITDA values, at the time of the exercise of the call option. The remaining 30 percent of the exercise price will be paid by the end of 2011.

August

On August 5, 2011, the Group announced that it had entered into an agreement pursuant to which it will acquire Erroca, the premier sunglass specialty retail chain in Israel, with more than 60 stores. This transaction marks Luxottica's entry into the sun Retail business in Israel, where the Group already has a solid presence through its Wholesale Division. Over time, the stores will be rebranded under the Sunglass Hut brand, the largest sunglass specialty retailer in the world.

The enterprise value of this transaction, which is subject to the approval of the relevant competition authority and is expected to close by the end of 2011, is approximately Euro 20 million.

As part of the celebrations marking the Group's 50th anniversary of its founding, on August 31, 2011 the Board of Directors of Luxottica Group S.p.A. approved the gifting of free treasury shares to

Table of Contents

employees of the Group in Italy. The transaction involved over 7 thousand employees for an aggregate maximum amount of 313,575 Group treasury shares.

September

On September 19, 2011, the Group approved the partial demerger of Luxottica S.r.l., a wholly-owned subsidiary of Luxottica, in favor of Luxottica Group S.p.A. The assets of Luxottica S.r.l. that, in connection with the demerger, will be transferred to Luxottica Group S.p.A. are primarily the subsidiary's license contracts and assets related to its distribution activities. Given that Luxottica Group S.p.A. owns 100 percent of the share capital of Luxottica S.r.l., according to the provisions of article n° 2505 of the Italian Civil Code and pursuant to the bylaws of the companies involved, the demerger will be executed in simplified form and the resolution authorizing the demerger will be approved by the Boards of Directors of the two companies. Given that Luxottica is the sole shareholder of Luxottica S.r.l., no shares of Luxottica will be granted in exchange for these assets and no capital increase will take place. Furthermore, the corporate purpose of Luxottica will not be changed. The demerger is part of a broader project of reorganization of the activities of Luxottica S.r.l., which started in 2007 and is aimed at focusing the business of this company on manufacturing activities. The demerger, which is not subject to the Group's Procedure for Operations with Related Parties, will be based upon the financial statements as of June 30, 2011 of the two companies. The transaction is expected to be completed by January 1, 2012.

3. FINANCIAL RESULTS

The Group is a global leader in the design, manufacture and distribution of fashion, luxury and sport eyewear, with net sales reaching Euro 5.8 billion in 2010, over 60,000 employees and a strong global presence. The Group operates in two industry segments: (i) manufacturing and wholesale distribution (the "Wholesale Segment"); and (ii) retail distribution (the "Retail Segment"). See Note 5 to the Condensed Consolidated Quarterly Financial Report as of September 30, 2011 (unaudited) for additional disclosures about our operating segments. Through the manufacturing and wholesale distribution segment, we are engaged in the design, manufacture, wholesale distribution and marketing of house and designer lines of mid- to premium-priced prescription frames and sunglasses. The Group operates its retail distribution segment principally through its retail brands, which include, among others, LensCrafters, Sunglass Hut, Pearle Vision, ILORI, The Optical Shop of Aspen, OPSM, Laubman & Pank, Budget Eyewear, Bright Eyes, Oakley "O" Stores and Vaults, David Clulow and our Licensed Brands (Sears Optical and Target Optical).

As a result of numerous acquisitions and the subsequent expansion of business activities in the United States through these acquisitions, the Group's results of operations, which are reported in Euro, are susceptible to currency rate fluctuations between the Euro and the U.S. dollar. The Euro/U.S. dollar exchange rate has fluctuated from an average exchange rate of Euro 1.00 = U.S. \$1.3145 in the first nine months of 2010 to Euro 1.00 = U.S. \$1.4065 in the same period of 2011. With the acquisition of OPSM and Bright Eyes (acquired through Oakley), our results of operations have also been rendered susceptible to currency fluctuations between the Euro and the Australian dollar, from an average exchange rate of Euro 1.00 = Australian \$1.4655 in the first nine months of 2010 to Euro 1.00 = Australian \$1.3540 in the same period of 2011. Additionally, we incur part of our manufacturing costs in Chinese Yuan; therefore, the fluctuation of the Chinese Yuan relative to other currencies in which we receive revenues could impact the demand for our products or our profitability as reported in the Group's consolidated financial reports. However, in the first nine months of 2011, the fluctuation of the Chinese Yuan did not significantly affect demand for products or decrease the Group's reported profitability. Although the Group engages in certain foreign currency hedging activities to mitigate the impact of these fluctuations, they have impacted reported revenues and expenses during the periods discussed herein. This discussion should be read in conjunction with the risk factor discussion in Note 10 of the Management Report of the 2010 Consolidated Financial Statements.

Net Sales. Net sales increased by Euro 262.0 million, or 5.9 percent, to Euro 4,713.5 million in the first nine months of 2011 from Euro 4,451.5 million in the same period of 2010. Euro 177.3 million of such increase was attributable to the increased sales in the manufacturing and wholesale distribution

Table of Contents

segment in the first nine months of 2011 as compared to the same period in 2010 and to increased sales in the retail distribution segment of Euro 84.7 million for the same period.

⁹ Comparable store sales reflects the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period in the same geographic area, and applies to both periods the average exchange rate for the prior period.

Net sales for the retail distribution segment increased by Euro 84.7 million, or 3.1 percent, to Euro 2,813.3 million in the first nine months of 2011 from Euro 2,728.6 million in the same period in 2010. The increase in net sales for the period was partially attributable to a 5.1 percent improvement in comparable store sales⁽⁹⁾ mainly due to a 5.3 percent increase in comparable store sales for the North American retail operations. The effects from currency fluctuations between the Euro (which is the Group's reporting currency) and other currencies in which the Group conducts business, in particular the weakening of the U.S. dollar, despite the strengthening of the Australian dollar compared to the Euro, decreased net sales in the retail distribution segment by Euro 134.8 million during the period.

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 177.3 million, or 10.3 percent, to Euro 1,900.2 million in the first nine months of 2011 from Euro 1,722.9 million in the same period in 2010. This increase was mainly attributable to increased sales of most of the Group's house brands, in particular Ray-Ban and Oakley, and of some designer brands such as Prada, Polo, Burberry and Tiffany. These sales volume increases occurred in most of the geographic markets in which the Group operates. These positive effects were partially offset by negative currency fluctuations, in particular the weakening of the U.S. dollar, despite the strengthening of the Australian dollar and other minor currencies, including but not limited to the Brazilian Real and the Japanese Yen, the total effect of which was to decrease net sales to third parties in the manufacturing and wholesale distribution segment by Euro 28.4 million.

In the first nine months of 2011, net sales in the retail distribution segment accounted for approximately 59.7 percent of total net sales, as compared to approximately 61.3 percent of total net sales for the same period in 2010. This decrease in sales for the retail distribution segment as a percentage of total net sales was primarily attributable to a 10.3 percent increase in net sales to third parties in our manufacturing and wholesale distribution segment for the first nine months of 2011 as compared to the same period of 2010, which exceeded a 3.1 percent increase in net sales in the retail distribution segment for the first nine months of 2011 as compared to the same period of 2010.

In the first nine months of 2011, net sales in our retail distribution segment in the United States and Canada comprised 81.0 percent of our total net sales in this segment as compared to 83.3 percent of our total net sales in the same period of 2010. In U.S. dollars, retail net sales in the United States and Canada increased by 7.3 percent to U.S. \$3,205.2 million in the first nine months of 2011 from U.S. \$2,987.5 million for the same period in 2010, due to sales volume increases. During the first nine months of 2011, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 19.0 percent of our total net sales in the retail distribution segment and increased by 17.2 percent to Euro 534.4 million in the first nine months of 2011 from Euro 455.9 million, or 16.7 percent of our total net sales in the retail distribution segment for the same period in 2010, mainly due to an increase in consumer demand.

In the first nine months of 2011, net sales to third parties in our manufacturing and wholesale distribution segment in Europe were Euro 901.0 million, comprising 47.4 percent of our total net sales in this segment, compared to Euro 838.2 million, or 48.7 percent of total net sales in the segment, for the same period in 2010. The increase in net sales in Europe of Euro 62.8 million in the first nine months of 2011 as compared to the same period of 2010 constituted a 7.5 percent increase in net sales to third parties, due to a general increase in consumer demand. Net sales to third parties in the manufacturing

Table of Contents

and wholesale distribution segment in the United States and Canada were U.S. \$646.9 million and comprised 24.2 percent of total net sales in this segment for the first nine months of 2011, compared to U.S. \$558.7 million, or 24.7 percent of total net sales in the segment, for the same period of 2010. The increase in net sales in the United States and Canada was primarily due to a general increase in consumer demand. In the first nine months of 2011, net sales to third parties in the manufacturing and wholesale distribution segment in the rest of the world were Euro 539.2 million, comprising 28.4 percent of our total net sales in this segment, compared to Euro 459.7 million, or 26.7 percent of our net sales in this segment, in the same period of 2010. The increase of Euro 79.5 million, or 17.3 percent, in the first nine months of 2011 as compared to the same period of 2010, was due to the positive effect of currency fluctuations as well as an increase in consumer demand.

Cost of Sales. Cost of sales increased by Euro 92.4 million, or 6.0 percent, to Euro 1,621.8 million in the first nine months of 2011 from Euro 1,529.4 million in the same period of 2010, essentially in line with the increase of net sales in the period. As a percentage of net sales, cost of sales was 34.4 percent in the first nine months of 2011 and 2010. In the first nine months of 2011, the average number of frames produced daily in our facilities increased to approximately 268,700 as compared to approximately 237,200 in the same period of 2010, which was attributable to increased production in all manufacturing facilities in response to an overall increase in demand.

Gross Profit. Our gross profit increased by Euro 169.6 million, or 5.8 percent, to Euro 3,091.7 million in the first nine months of 2011 from Euro 2,922.1 million for the same period of 2010. As a percentage of net sales, gross profit increased to 65.6 percent in the first nine months of 2011 and 2010.

Operating Expenses. Total operating expenses increased by Euro 106.8 million, or 4.6 percent, to Euro 2,412.9 million in the first nine months of 2011 from Euro 2,306.1 million in the same period of 2010. As a percentage of net sales, operating expenses decreased to 51.2 percent in the first nine months of 2011, from 51.8 percent in the same period of 2010. Total operating expenses, excluding the above mentioned non-recurring items, increased by Euro 103.9 million, or 4.5 percent, to Euro 2,410.1 million in the first nine months of 2011 from Euro 2,306.1 million in the same period of 2010. As a percentage of net sales, operating expenses decreased to 51.1 percent in the first nine months of 2011, from 51.8 percent in the same period of 2010.

Selling and advertising expenses (including royalty expenses) increased by Euro 83.9 million, or 4.7 percent, to Euro 1,872.7 million in the first nine months of 2011 from Euro 1,788.8 million in the same period of 2010. Selling expenses increased by Euro 58.0 million, or 4.1 percent. Advertising expenses increased by Euro 20.3 million, or 7.1 percent. Royalties increased by Euro 5.6 million, or 7.5 percent. Net interest expense was Euro 79.4 million in the first nine months of 2011 as compared to Euro 72.7 million in the same period of 2010. The increase in net interest expense is attributable to an increase in the cost of debt, mainly due to (i) the arrangement of new long-term debt, which has extended the average maturity of the Group's debt and (ii) a higher debt exposure in certain emerging markets where the Group now operates, where the cost of indebtedness is significantly higher as compared to the cost of indebtedness in markets where the Group historically has obtained financing.

Net Sales. Net sales increased by Euro 59.1 million, or 4.0 percent, to Euro 1,523.8 million in the three-month period ended September 30, 2011 from Euro 1,464.7 million in the same period of 2010. Euro 36.8 million of such increase was attributable to the increased sales in the manufacturing and

wholesale distribution segment in the three-month period ended September 30, 2011 as compared to the same period in 2010, and increased sales in the retail distribution segment of Euro 22.2 million for the same period.

Net sales for the retail distribution segment increased by Euro 22.2 million, or 2.4 percent, to Euro 968.7 million in the three-month period ended September 30, 2011 from Euro 946.5 million in the same period in 2010. The increase is attributable to a 4.3 percent improvement in comparable store sales, in particular, there was a 3.7 percent increase in comparable store sales for the North American retail operations. The effects from currency fluctuations between the Euro (which is the Group's reporting currency) and other currencies in which the Group conducts business, in particular the weakening of the U.S. dollar, despite the strengthening of the Australian dollar compared to the Euro, decreased net sales in the retail distribution segment by Euro 68.2 million during the period.

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 36.8 million, or 7.1 percent, to Euro 555.1 million in the three-month period ended September 30, 2011 from Euro 518.3 million in the same period in 2010. This increase was mainly attributable to increased sales of most of the Group's house brands, in particular Ray-Ban and Oakley, and of some designer brands such as Polo, Burberry and Tiffany. These sales volume increases occurred in most of the geographic markets in which the Group operates. These positive effects were partially offset by negative currency fluctuations, in particular a weakening of the U.S. dollar and other minor currencies, including but not limited to the Brazilian Real and the Canadian dollar, which decreased net sales to third parties in the manufacturing and wholesale distribution segment by Euro 18.8 million, notwithstanding the strengthening of the Australian dollar.

During the three-month period ended September 30, 2011, net sales in the retail distribution segment accounted for approximately 63.6 percent of total net sales, as compared to approximately 64.6 percent of total net sales for the same period in 2010. This decrease in sales for the retail distribution segment as a percentage of total net sales was primarily attributable to a 7.1 percent increase in net sales to third parties in our manufacturing and wholesale distribution segment for the three-month period ended September 30, 2011 from the same period of 2010, as compared to a 2.4 percent increase in net sales in the retail distribution segment for the three-month period ended September 30, 2011 from the same period of 2010.

During the three-month period ended September 30, 2011, net sales in the Group's retail distribution segment in the United States and Canada comprised 79.6 percent of total net sales in this segment as compared to 83.7 percent of the Group's total net sales in the same period of 2010. In U.S. dollars, retail net sales in the United States and Canada increased by 6.4 percent to U.S. \$1,089.0 million in the three-month period ended September 30, 2011 from U.S. \$1,023.5 million for the same period in 2010, due to sales volume increases. During the three-month period ended September 30, 2011, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 20.4 percent of total net sales in the retail distribution segment and increased by 28.5 percent to Euro 197.9 million in the three-month period ended September 30, 2011 from Euro 154.0 million, or 16.3 percent of total net sales in the retail distribution segment for the same period in 2010, mainly due to an increase in consumer demand.

During the three-month period ended September 30, 2011, net sales to third parties in the Group's manufacturing and wholesale distribution segment in Europe were Euro 219.0 million, comprising 39.5 percent of our total net sales in this segment, compared to Euro 216.2 million, or 41.7 percent of total net sales in the segment, for the same period in 2010. The increase in net sales in Europe of Euro 2.8 million in the three-month period ended September 30, 2011 as compared to the same period of 2010 constituted a 1.3 percent increase in net sales to third parties. Net sales to third parties in the manufacturing and wholesale distribution segment in the United States and Canada were U.S. \$224.4 million and comprised 28.6 percent of total net sales in this segment for the three-month period

ended September 30, 2011, compared to U.S. \$192.5 million, or 28.7 percent of total net sales in the segment, for the same period of 2010. The increase of Euro 24.2 million, or 15.8 percent, in the three-month period ended September 30, 2011 as compared to the same period of 2010, was due to an increase in consumer demand.

Gross Profit. Gross profit increased by Euro 34.3 million, or 3.6 percent, to Euro 999.2 million in the three-month period ended September 30, 2011 from Euro 964.9 million for the same period of 2010. In the first nine months of 2010 the change related to other assets/liabilities was mainly due to the investment of Euro (25.9) million in the security portfolio that was previously maintained by Group.

As of September 30, 2011, total assets increased by Euro 17.3 million to Euro 8,010.9 million, compared to Euro 7,993.6 million as of December 31, 2010.

Table of Contents

In the first nine months of 2011, non current assets increased by Euro 26.1 million, due to increases in net intangible assets (including goodwill) of Euro 35.4 million, property, plant and equipment net of Euro 34.3 million and deferred tax assets of Euro 7.0 million, offset by the decrease in investments of Euro 44.7 million and other assets of Euro 5.8 million.

The growth in net intangible assets was primarily due to a Euro 169.1 million increase, mainly related to the acquisition of Multiopicas Internacional, which was offset by the negative effects of foreign currency fluctuations of Euro 69.8 million and to the amortization for the period of Euro 63.9 million.

The increase in property, plant and equipment was primarily due to additions during the period of Euro 197.6 million partially offset by negative currency fluctuation effects of Euro 11.8 million and depreciation of Euro 165.6 for the period.

As of September 30, 2011, as compared to December 31, 2010:

Accounts receivable increased by Euro 29.5 million, mainly due to the increase in net sales during the first nine months of 2011;

Non-current liabilities decreased by Euro 264.3 million due to (i) the decrease of long-term debt by Euro 196.5 million, due to the reclassification of the short-term portion of Euro 172.5 million, (ii) the decrease in pension liability of Euro 26.7 million, (iii) the positive effect of currency fluctuations which decreased non-current liabilities by Euro 23.9 million and (iv) the decrease of Euro 25.1 million of interest rate derivatives liability as a result of an increase in interest rates, compared to December 31, 2010.

Our net financial position as of September 30, 2011 and December 31, 2010 was as follows:

<i>(Thousands of Euro)</i>	September 30, 2011 (unaudited)	December 31, 2010 (audited)

Long-term debt	(2,238,561)	(2,435,071)
Total	(2,078,525)	(2,111,433)

Bank overdrafts consist of the utilized portion of short-term uncommitted revolving credit lines borrowed by various subsidiaries of the Group.

As of September 30, 2011, we, together with our wholly-owned Italian subsidiary Luxottica S.r.l., had credit lines aggregating Euro 366.8 million. The interest rate is a floating rate of EURIBOR plus a margin on average of approximately 0.45 percent. At September 30, 2011, these credit lines were not utilized.

As of September 30, 2011, our wholly-owned subsidiary Luxottica U.S. Holdings maintained unsecured lines of credit with an aggregate maximum availability of Euro 99.3 million (U.S. \$134.1 million). The interest rate is a floating rate and is approximately USD LIBOR plus 80 basis points. At September 30, 2011, there were no outstanding borrowings on these credit lines (related to guarantees of letters of credit).

NON-IAS/IFRS MEASURES

Adjusted measures

We use in this Management Report certain performance measures that are not in accordance with IAS/IFRS. Such non-IAS/IFRS measures are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding our operational performance.

Such measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors. Such non-IAS/IFRS measures are explained in detail and reconciled to their most comparable IAS/IFRS measures below.

In order to provide a supplemental comparison of current period results of operations to prior periods, we have adjusted for certain non-recurring transactions or events. These adjustments impact: EBITDA, EBITDA margin, operating income, operating margins, net income and earnings per share as follows:

- a) an extraordinary gain of approximately Euro 21.0 million related to the acquisition of the 40 percent stake in Multiópticas Internacional;
- b) non-recurring costs related to Luxottica's 50th anniversary celebrations of approximately Euro 12.0 million; and
- c) non-recurring restructuring and start-up costs in the Retail Division of approximately Euro 11.8 million.

Table of Contents

The Group believes that these adjusted measures are useful to both management and investors in evaluating the Group's operating performance compared with that of other companies in its industry because they exclude the impact of non-recurring items that are not relevant to the Group's operating performance.

The adjusted measures referenced above are not measures of performance in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IAS/IFRS). These adjusted comparisons are included in this presentation in order to provide a supplemental view of operations that excludes items that are unusual, infrequent or unrelated to our ongoing core operations. See the tables below for a reconciliation of the adjusted measures discussed above to their most directly comparable IAS/IFRS financial measure or, in the case of adjusted EBITDA and adjusted EBITDA margin, to EBITDA and EBITDA margin, which is also a non-IAS/IFRS measure. For reconciliation of EBITDA and EBITDA margin to its most directly comparable IAS/IFRS measure, see the pages following the tables below:

EBITDA and EBITDA margin

EBITDA represents net income attributable to Luxottica Group stockholders, before non-controlling interest, provision for income taxes, other income/expense, depreciation and amortization. EBITDA margin means EBITDA divided by net sales. We believe that EBITDA is useful to both management and investors in evaluating our operating performance compared with that of other companies in our industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital

Table of Contents

spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business.

EBITDA and EBITDA margin are not measures of performance under IAS/IFRS. We include them in this Management Report in order to:

improve transparency for investors;

assist investors in their assessment of the Company's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;

assist investors in their assessment of the Company's cost of debt;

ensure that these measures are fully understood in light of how the Company evaluates its operating results and leverage;

properly define the metrics used and confirm their calculation; and

share these measures with all investors at the same time.

EBITDA and EBITDA margin are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company.

The Company cautions that these measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculating EBITDA may differ from methods used by other companies. We recognize that the usefulness of EBITDA has certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and expense may have material limitations;

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss.

We compensate for the foregoing limitations by using EBITDA as a comparative tool, together with IAS/IFRS measurements, to assist in the evaluation of our operating performance and leverage.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Free Cash Flow

Free cash flow represents net income before noncontrolling interests, taxes, other income/expense, depreciation and amortization (i.e., EBITDA) plus or minus the decrease/(increase) in working capital over the prior period, less capital expenditures, plus or minus interest income/(expense) and extraordinary items, minus taxes paid. We believe that free cash flow is useful to both management and investors in evaluating our operating performance compared with other companies in our industry. In particular, our calculation of free cash flow provides a clearer picture of our ability to generate net cash from operations, which is used for mandatory debt service requirements, to fund discretionary investments, pay dividends or pursue other strategic opportunities.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Table of Contents

Free cash flow is not a measure of performance under IAS/IFRS. We include it in this Management Report in order to:

Improve transparency for investors;

Assist investors in their assessment of our operating performance and our ability to generate cash from operations in excess of our cash expenses;

Ensure that this measure is fully understood in light of how we evaluate our operating results;

Properly define the metrics used and confirm their calculation; and

Share this measure with all investors at the same time.

Free cash flow is not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, this non-IAS/IFRS measure should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company.

The Company cautions that this measure is not a defined term under IAS/IFRS and its definition should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculation of free cash flow may differ from methods used by other companies. We recognize that the usefulness of free cash flow as an evaluative tool may have certain limitations, including:

The manner in which we calculate free cash flow may differ from that of other companies, which limits its usefulness as a comparative measure;

Free cash flow does not represent the total increase or decrease in the net debt balance for the period since it excludes, among other things, cash used for funding discretionary investments and to pursue strategic opportunities during the period and any impact of the exchange rate changes; and

Free cash flow can be subject to adjustment at our discretion if we take steps or adopt policies that increase or diminish our current liabilities and/or changes to working capital.

We compensate for the foregoing limitations by using free cash flow as one of several comparative tools, together with IAS/IFRS measurements, to assist in the evaluation of our operating performance.

The following table provides a reconciliation of free cash flow to EBITDA and the table above provides a reconciliation of EBITDA to net income, which is the most directly comparable IAS/IFRS financial measure:

Net debt to EBITDA ratio

Net debt means the sum of bank overdrafts, current portion of long-term debt and long-term debt, less cash. EBITDA represents net income before non-controlling interest, taxes, other income/expense, depreciation and amortization. The Company believes that EBITDA is useful to both management and investors in evaluating the Company's operating performance compared with that of other companies in its industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business. The ratio of net debt to EBITDA is a measure used by management to assess the Company's level of leverage, which affects our ability to refinance our debt as it matures and incur additional indebtedness to invest in new business opportunities. The ratio also allows management to assess the cost of existing debt since it affects the interest rates charged by the Company's lenders.

EBITDA and ratio of net debt to EBITDA are not measures of performance under International Financial Reporting Standards as issued by the International Accounting Standards Board (IAS/IFRS).

We include them in this Management Report in order to:

improve transparency for investors;

assist investors in their assessment of the Company's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;

assist investors in their assessment of the Company's cost of debt;

non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company.

The Company cautions that these measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that Luxottica Group's method of calculating EBITDA and the ratio of net debt to EBITDA may differ from methods used by other companies.

The Company recognizes that the usefulness of EBITDA and the ratio of net debt to EBITDA as evaluative tools may have certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and expense may have material limitations;

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss; and

The ratio of net debt to EBITDA is net of cash and cash equivalents, restricted cash and short-term investments, thereby reducing our debt position.

Because we may not be able to use our cash to reduce our debt on a dollar-for-dollar basis, this measure may have material limitations. We compensate for the foregoing limitations by using EBITDA and the ratio of net debt to EBITDA as two of several comparative tools, together with IAS/IFRS measurements, to assist in the evaluation of our operating performance and leverage.

See the table below for a reconciliation of net debt to long-term debt, which is the most directly comparable IAS/IFRS financial measure, as well as the calculation of the ratio of net debt to EBITDA. Notes to the INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF SEPTEMBER 30, 2011 (UNAUDITED)

1. BACKGROUND

Luxottica Group S.p.A. (hereinafter the "Company" or together with its consolidated subsidiaries, the "Group") is a company listed on Borsa Italiana and the New York Stock Exchange with its registered office located at Via C. Cantù 2, 20123 Milan (Italy).

The Company is controlled by Delfin S.à r.l., based in Luxembourg. The chairman of the Board of Directors of the Company, Leonardo Del Vecchio, controls Delfin S.à r.l.

The Company's Board of Directors, at its meeting on October 24, 2011, approved for publication the Interim Consolidated Financial Statements as of September 30, 2011 (the "Third Quarter Financial Report").

The financial statements included in this Third Quarter Financial Report are unaudited.

2. BASIS OF PREPARATION

This Third Quarter Financial Report as of September 30, 2011 has been prepared in accordance with article 154-ter of the Legislative Decree No. 58 dated February 24, 1998.

The financial statements included in the Third Quarter Financial Report as of September 30, 2011 have been prepared in compliance with the International Financial Reporting Standards issued by the International Accounting Standards Board ("IASB") and endorsed by the European Union ("IAS/IFRS"), and in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting*.

The principles and standards used in the preparation of this unaudited Third Quarter Financial Report are consistent with those used in preparing the audited consolidated financial statements as of December 31, 2010, except as described in Note 3 "New Accounting Standards".

In particular, this financial report has been prepared on a going concern basis. Management believes that there are no material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern.

The consolidated financial statements in this Third Quarter Financial Report are composed of the consolidated statements of financial position, the consolidated statements of income, the consolidated statements of comprehensive income, the consolidated statements of stockholders' equity, the consolidated statements of cash flows and these Notes to the Interim Consolidated Financial Statements as of September 30, 2011.

The preparation of an interim report requires management to use estimates and assumptions that affect the reported amounts of revenue, costs, assets and liabilities, as well as disclosures relating to contingent assets and liabilities at the reporting date. Results published on the basis of such estimates and assumptions could vary from actual results that may be realized in the future.

These measurement processes and, in particular, those that are more complex, such as the calculation of impairment losses on non-current assets, are generally carried out only when the audited

consolidated financial statements for the fiscal year are prepared, when all the necessary information is available, unless there are indicators requiring immediate impairment testing. Similarly, the actuarial calculations necessary to calculate certain employee benefit liabilities, the changes to most deferred tax assets and liabilities and the impact of share-based payments are normally carried out when the audited consolidated financial statements for the fiscal year are prepared.

Lastly, with reference to Consob resolution no. 15519 of July 27, 2006, which addresses the format of the financial statements, the Company has not included any specific supplements to the statement of income, statement of financial position or statement of cash flows showing related party transactions, as these are immaterial. Please see Note 28 "Related Party Transactions" for additional details regarding transactions with related parties.

CONSOLIDATION AREA

Please refer to Note 4 "Business Combinations" for a discussion of changes affecting the consolidation area that occurred in the first nine months of 2011.

3. NEW ACCOUNTING STANDARDS

Beginning in 2011, the Group applied the following new accounting standards, amendments and interpretations, as revised by the IASB:

IFRS 3 Business Combinations: The amendment, applicable for annual periods beginning on or after July 1, 2010, clarifies that contingent consideration balances arising from business combinations whose acquisition date preceded the date when an entity first applied IFRS 3 as issued in 2008, do not have to be adjusted upon application of this IFRS. The amendment also clarifies that for each business combination, the acquirer shall measure at the acquisition date components of non-controlling interests in the acquiree that are present ownership interests and entitle the holder to a proportionate share of the entity's net assets in the event of liquidation. The amendment also specifies that an acquirer must measure a liability or an equity instrument related to share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment transactions with share-based payment transactions of the acquirer in accordance with the method set forth in IFRS 2 at the acquisition date. The amendment had no significant effects on the Group consolidated financial statements as of September 30, 2011.

IAS 24 (revised) Related party disclosures, issued in November 2009. It supersedes IAS 24 *Related party disclosures,* issued in 2003. The revised standard, mandatory for periods beginning on or after January 1, 2011, clarifies and simplifies the definition of a related party and removes the requirement for government-related entities to disclose details of all transactions with the government and other government-related entities. The amendment had no significant effects on the Group consolidated financial statements as of September 30, 2011.

IFRIC 14 amendments Prepayments of a minimum funding requirement, issued in November 2009. The amendments, effective for annual periods beginning January 1, 2011, correct an unintended consequence of IFRIC 14, IAS 19 *The limit on a defined benefit asset, minimum*

funding requirements and their interactions. Without the amendments, entities are not permitted to recognize as an asset certain voluntary prepayments for minimum funding contributions. The amendments had no significant effects on the Group consolidated financial statements as of September 30, 2011.

IFRIC 19 *Extinguishing financial liabilities with equity instruments*, issued in November 2009, is effective for annual periods beginning on or after July 1, 2010. The interpretation clarifies the accounting by an entity when the terms of a financial liability are renegotiated and result in the entity issuing equity instruments to a creditor of the entity to extinguish all or part of the financial liability. It requires a gain or loss to be recognized in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued. If the fair value of the equity instruments issued cannot be reliably measured, the equity instruments should be measured to reflect the fair value of the financial liability extinguished.

IAS 32 amendment *Classification of rights issues*, issued in October 2009. The amendment, applicable to annual periods beginning on or after February 1, 2010, addresses the accounting for rights issues that are denominated in a currency other than the functional currency of the issuer. Provided certain conditions are met, such rights issues are now classified as equity regardless of the currency in which the exercise price is denominated. The amendment applies retrospectively in accordance with IAS 8 *Accounting policies, changes in accounting estimates and errors*. The amendment had no significant effects on the Group consolidated financial statements as of September 30, 2011.

IFRS 7 *Financial Instruments: Disclosures*. The amendment, applicable to annual periods beginning on or after July 1, 2010, emphasizes the interaction between qualitative and quantitative disclosures about the nature and extent of risks arising from financial liabilities. The amendment eliminates the requirement to disclose the carrying amount of financial assets that would otherwise be past due or impaired where their terms were renegotiated. The amendment also eliminates the requirement to disclose the fair value of collateral and other credit enhancements, which can be potentially misleading, although an entity is still required to disclose a description of the collateral and its financial effects. The amendment had no significant effects on the Group consolidated financial statements as of September 30, 2011.

IAS 1 *Presentation of Financial Statements*. The amendment, applicable to annual periods beginning on or after January 1, 2011, requires, either in the statement of changes in equity or in the notes, an analysis of other comprehensive income by item. The amendment had no significant effects on the Group consolidated financial statements as of September 30, 2011.

IAS 27 *Consolidated and separate financial statements*. The amendment clarifies the transition requirements for amendments arising as a result of IAS 27. The amendment had no significant effects on the Group consolidated financial statements as of September 30, 2011.

IAS 34 *Interim Financial Reporting*. The amendment clarifies that the information included in the interim financial reporting on significant transactions and events should update the relevant

information presented in the most recent annual report. The amendment had no significant effects on the Group consolidated financial statements as of September 30, 2011.

Amendments and interpretations of existing principles which are effective for reporting periods beginning after January 1, 2011, and not early adopted

IFRS 9 *Financial instruments*, issued in November 2009. This standard is the first step in the process to replace IAS 39 *Financial instruments: recognition and measurement*. IFRS 9 introduces new requirements for classifying and measuring financial assets. The new standard reduces the number of categories of financial assets pursuant to IAS 39 and requires that all financial assets be: (i) classified on the basis of the model which a company has adopted in order to manage its financial activities and on the basis of the cash flows from financing activities; (ii) initially measured at fair value plus any transaction costs in the case of financial assets not measured at fair value through profit and loss; and (iii) subsequently measured at their fair value or at the amortized cost. IFRS 9 also provides that embedded derivatives which fall within the scope of IFRS 9 must no longer be separated from the primary contract which contains them and states that a company may decide to directly record within the consolidated statement of comprehensive income any changes in the fair value of investments which fall within the scope of IFRS 9. The standard is not applicable until January 1, 2013, but is available for early adoption. The Group has not early adopted and has not yet assessed the full impact of adopting IFRS 9.

IFRS 10 *Consolidated Financial Statements*, issued on May 2011. The new model replaces the current duality of IAS 27 and SIC12. The standard states that an investor, regardless of the nature of its involvement with an entity (the investee), shall determine whether it is a parent by assessing whether it controls the investee. An investor controls an investee if and only if the investor has (i) the power over the investee, (ii) exposure, or rights, to variable returns from its involvement with the investee and (iii) the ability to use its power over the investee to affect the amount of the investor's returns.

IFRS 10 defines relevant activities as activities of the investee that significantly affect the investee's returns. Based on the new standard (i) power arises from rights (for the purpose of assessing power, only substantive rights are considered), (ii) there are possibilities of having power with less than 50% of voting rights, and (iii) potential voting rights are considered only if they are substantive, differently from IAS 27, under which only potential voting rights that are currently exercisable or convertible were relevant to determining control. The new standard introduces some factors to identifying whether a party is acting as an agent or a principal.

Concurrently with IFRS 10 the IASB issued in May 2011 IAS 27 "Separate Financial Statements", which prescribes the accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements. IFRS 10 and IAS 27 supersede IAS 27 "Consolidated and separate financial statements" (as amended in 2008),

IFRS 10 and IAS 27 are effective for annual periods beginning on or after January 1, 2013. Earlier application is permitted so long as IFRS 10, IFRS 11, IFRS 12 and IAS 28 (2011) are adopted at the same

3. NEW ACCOUNTING STANDARDS (Continued)

time. The standard has not been endorsed at the date the present financial statements were authorized for issue. The Group has not early adopted and has not yet assessed the full impact of adopting IFRS 10.

IFRS 12 *Disclosure of Interests in Other Entities*, issued in May 2011. IFRS 12 provides expanded disclosures about entity's interests in subsidiaries, associates and joint arrangements. IFRS 12 moves away from requiring a 'boiler-plate' list of disclosures to a more principles based approach. IFRS 12 applies only to the consolidated accounts. Disclosures relating to separate accounts are addressed in the revised IAS 27 Separate Financial Statements. IFRS 12 also provides a new set of disclosures related to unconsolidated structured entities. The new disclosures should enable users to understand the nature and extent of the entity's interests in unconsolidated structured entities and to evaluate the nature of risks associated with the structured entity. IFRS 12 provides a definition of a structured entity. IFRS 12 does not require disclosures for the interests in the other unconsolidated entities, which are outside of the definition of a structured entity. The standard is effective for annual periods beginning on or after January, 1 2013. Earlier application is encouraged. An entity can choose to provide any of the disclosures in IFRS 12 without being forced to adopt IFRS 10, IFRS 11, IFRS 12, IAS 27 (revised) or IAS 28 (revised). The standard has not been endorsed at the date the present financial statements were authorized for issue. The Group has not early adopted and has not yet assessed the full impact of adopting IFRS 12.

IFRS 11 *Joint Arrangements*, issued in May 2011. IFRS 11 supersedes IAS 31 and SIC-13 Jointly Controlled Entities Non-Monetary Contributions by Venturers. IFRS 11 mainly addresses two aspects of IAS 31: a) the structure of the arrangement was the only determinant of the accounting and b) that an entity had a choice of accounting treatment for interests in jointly controlled entities. Based on the new standard the 'types' of joint arrangements are reduced to two: joint operations and joint ventures. In a joint operation the parties that have joint control have rights to the assets and obligations for the liabilities. In a joint venture the parties that have joint control have rights to the net assets of the arrangements. The policy choice in IAS 31 of proportionate consolidation for jointly controlled entities has been eliminated while equity accounting has been made mandatory for participants in joint ventures. Entities that participate in joint operations are required to recognise their share of the assets, liabilities, revenues and expenses in accordance with applicable IFRS. The new standard is effective for annual periods beginning on or after January 1, 2013. Earlier application is permitted so long as IFRS 10, IFRS 12, IAS 27(2011) and IAS 28 (2011) are adopted at the same time. The standard has not been endorsed at the date the present financial statements were authorized for issue. The Group believes that IFRS 11 will not have a material impact on the Group consolidated financial statements.

IFRS 13 Fair value measurement, issued in May 2011. IFRS 13 sets out a single IFRS framework for measuring fair value and provides comprehensive guidance on how to measure the fair value of both financial and non-financial assets and liabilities. IFRS 13 applies when another IFRS requires or permits fair value measurement or disclosures about fair value measurements, thus it does not set out requirements on "when to" apply fair value measurement. IFRS 13 becomes effective on 1 January 2013. The standard has not been

endorsed at the date the present financial statements were authorized for issue. The Group has not early adopted and has not yet assessed the full impact of adopting IFRS 13.

Amendments to IAS 1 *Presentation of Items of Other Comprehensive Income*, issued in June 2011. The Amendments require separate presentation of items of other comprehensive income that are reclassified subsequently to profit or loss (recyclable) and those that are not reclassified to profit or loss (non-recyclable). If items of other comprehensive income are presented before tax, then income tax is allocated to each respective group. The Amendments do not change the existing option to present an entity's performance in two statements; and do not address the content of performance statements (i.e., what is recognised in profit or loss and what is recognised in other comprehensive income) or recycling issues (i.e., what can be reclassified (recycled) subsequently to profit or loss and what cannot). The amendments are effective from July 1, 2012. The standard has not been endorsed at the date the present financial statements were authorized for issue. The Group has not early adopted and has not yet assessed the full impact of adopting the Amendments to IAS 1.

Amendments to IAS 19 *Employee benefits*, issued in June 2011. The standards make significant changes to the recognition and measurement of defined benefit pension expense and termination benefits, and to the disclosures for all employee benefits. Actuarial gains and losses are renamed 'remeasurements' and will be recognised immediately in 'other comprehensive income' (OCI) and will never be recycled to profit and loss in subsequent periods. Past-service costs will be recognised in the period of a plan amendment; unvested benefits will no longer be spread over a future-service period. A curtailment now occurs only when an entity reduces significantly the number of employees. Curtailment gains/losses are accounted for as past-service costs. Annual expense for a funded benefit plan will include net interest expense or income, calculated by applying the discount rate to the net defined benefit asset or liability. There will be less flexibility in income statement presentation. Benefit cost will be split between (i) the cost of benefits accrued in the current period (service cost) and benefit changes (past-service cost, settlements and curtailments) and (ii) finance expense or income. This analysis can appear in the income statement or in the notes. The standard is effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted. The standard has not been endorsed at the date the present financial statements were authorized for issue. The Group has not early adopted and has not yet assessed the full impact of adopting IFRS 19.

Amendments to IAS 12 *Recovery of underlying assets*, issued in December 2010. The amendments provide a practical approach for measuring deferred tax liabilities and deferred tax assets when investment property is measured using the fair value model in IAS 40 Investment Property. Under IAS 12, the measurement of deferred tax liabilities and deferred tax assets depends on whether an entity expects to recover an asset by using it or by selling it. The standard is effective for annual periods beginning on or after January, 1 2012. Earlier application is permitted. The standard has not been endorsed at the date the present financial statements were authorized for issue. The new standard will not have any impact on the Group consolidated financial statements.

IAS 28 *Investments in associates and Joint ventures*, issued in May 2011. The standard supersedes IAS 28 *Investments in associates* as amended in 2003. The standard incorporates the accounting for joint ventures and certain amendments discussed by the standard setting board during its redeliberations on the exposure draft ED 9. The standard is effective for annual periods beginning on or

after January, 1 2013. Earlier application is permitted so long as IFRS 10, IFRS 11, IFRS 12 and IAS 27(2011) are adopted at the same time. The standard has not been endorsed at the date the present financial statements were authorized for issue. 4. BUSINESS COMBINATIONS

On June 16, 2009, the Company closed an agreement with Multiópticas Internacional S.L. (MOI), a company operating under the GMO, Econoptics and SunPlanet retail brands in Chile, Peru, Ecuador and Colombia, pursuant to which Luxottica acquired a 40 percent participation in MOI. The total consideration paid for the acquisition of these stakes in MOI was Euro 41.4 million. Under the terms of the governing agreement, the Company has a call option for the remaining 60 percent of MOI, starting from the second half of 2012.

In May 2011 the Company entered into an agreement pursuant to which it has exercised in advance, on July 13, 2011, its call option on 57.28 percent of MOI share capital. Following the exercise of the call option the Company has increased its shareholdings in Multiópticas Internacional and as of the date of this interim financial report, the Company has purchased an additional 46.04 percent participation in MOI. The acquisition of the remaining 11.24 percent participation in MOI is expected to occur by the end of 2011.

As of September 30, 2011, the total consideration for the acquisition of the additional 46.04 percent participation in MOI totals Euro 65.8 million of which Euro 60.0 million has been paid as of September 30, 2011 and was determined on the basis of MOI's sales and EBITDA values at the acquisition date. The acquisition furthers the Company's strategy of continued expansion of its retail business in Latin America.

The Company uses various methods to calculate the fair value of the assets acquired and the liabilities assumed. The purchase price allocation was not completed at the date these interim Consolidated Financial Statements were authorized for issue. The Group has provisionally recognized goodwill and intangible assets for a total amount of approximately Euro 144.7 million.

The Group recognized a gain of Euro 21.0 million as a result of measuring at fair value its 40 percent equity interest in MOI held before the business combination. The gain is included within General & Administrative expenses in the Interim Consolidated Statement of Income for the period ended September 30, 2011.

12. INVESTMENTS

This item amounted to Euro 9.4 million (Euro 54.1 million at December 31, 2010). The decrease from December 31, 2010 is due to the acquisition of the additional 57 percent of MOI. As a result of the acquisition of a controlling interest MOI became a subsidiary and therefore has been consolidated line by line starting from the acquisition date. In 2010 MOI was an associated entity of the Company and therefore the related investment was accounted for under the equity method.

Other non-current assets amounted to Euro 142.3 million (Euro 148.1 million at December 31, 2010) and were primarily comprised of security deposits of Euro 29.5 million (Euro 24.8 million at December 31, 2010) and advances the Group has paid to certain licensees for future contractual minimum royalties, amounting to Euro 95.7 million (Euro 106.1 million at December 31, 2010).

This facility was an 18-month revolving credit facility that provided borrowing availability of up to Euro 150.0 million. The amounts borrowed under the revolving facility could be borrowed and repaid until final maturity. Interest accrued at EURIBOR plus 0.375 percent. The Company could select interest periods of one, three or six months. In June 2009, the Company renegotiated this credit facility. Interest accrued at EURIBOR plus 1.90 percent. The final maturity of the amended credit facility was July 13, 2011. On January 20, 2011, the Company terminated this credit line.

On May 29, 2008, the Company entered into a Euro 250.0 million revolving credit facility, guaranteed by its subsidiary, Luxottica U.S. Holdings Corp. 20. LONG-TERM DEBT (Continued)

On November 10, 2010, the Company issued senior unsecured guaranteed notes to institutional investors (Eurobond November 10, 2015) for an aggregate principal amount of Euro 500.0 million. The notes mature on November 10, 2015 and interest accrues at 4.00 percent. The notes are listed on the Luxembourg Stock Exchange (ISIN XS0557635777). The notes were issued in order to exploit favorable market conditions and extend the average maturity of the Group's debt. The Notes contain certain financial and operating covenants. The Company was in compliance with those covenants as of September 30, 2011.

(c) On June 3, 2004 the Company and US Holdings entered into a credit facility with a group of banks providing for loans in the aggregate principal amount of Euro 740.0 million and U.S. \$325.0 million. The five-year facility consisted of three Tranches (Tranche A, Tranche B and Tranche C). The March 10, 2006 amendment increased the available borrowings to Euro 1,130.0 million and U.S. \$325.0 million, decreased the interest margin and defined a new maturity date of five years from the date of the amendment for Tranche B and Tranche C. In February 2007, the Company exercised an option included in the amendment to the term and revolving facility to extend the maturity date of Tranches B and C to March 2012. In February 2008, the Company exercised an option included in the amendment to the term and revolving facility to extend the maturity date of Tranches B and C to March 2013. Tranche A, which was to be used for general corporate purposes, including the refinancing of existing Company debt as it matures, was a Euro 405.0 million amortizing term loan requiring repayment of nine equal quarterly installments of principal of Euro 45.0 million beginning in June 2007. Tranche A expired on June 3, 2009 and was repaid in full. Tranche B is a term loan of U.S. \$325.0 million which was drawn upon on October 1, 2004 by US Holdings to finance the purchase price of the acquisition of Cole National Corporation ("Cole"). Amounts borrowed under Tranche B will mature in March 2013. Tranche C is a Revolving Credit Facility of Euro 725.0 million-equivalent multi-currency (Euro/US dollar). Amounts borrowed under Tranche C may be repaid and reborrowed with all outstanding balances maturing in March 2013. The Company can select interest periods of one, two, three or six months with interest accruing on Euro-denominated loans based on the corresponding EURIBOR rate and US dollar-denominated loans based on the corresponding LIBOR rate, both plus a margin between 0.20 percent and 0.40 percent based on the "Net Debt/EBITDA" ratio, as defined in the agreement. The interest rate on September 30, 2011 was 0.587 percent for Tranche B, while Tranche C was not used. The credit facility contains certain financial and operating covenants. The Company was in compliance with those covenants as of September 30, 2011. Under this credit facility, Euro 217.1 million was borrowed as of September 30, 2011.

During the third quarter of 2007, the Group entered into 13 interest rate swap transactions with an aggregate initial notional amount of U.S. \$325.0 million with various banks ("Tranche B Swaps"). These swaps will expire on March 10, 2012. The Tranche B Swaps were entered into as a cash flow hedge on Tranche B of the credit facility discussed above. The Tranche B Swaps exchange the floating rate of LIBOR for an average fixed rate of 4.634 percent per annum. The ineffectiveness of cash flow hedges was tested at the inception date and at least every three months. The results of the tests indicated that the cash flow hedges are highly effective.

(d) On November 14, 2007, the Group completed the merger with Oakley for a total purchase price of approximately U.S. \$2.1 billion. In order to finance the acquisition of Oakley, on October 12, 2007, the Company and US Holdings entered into two credit facilities with a group of banks providing for certain

term loans and a short-term bridge loan for an aggregate principal amount of U.S. \$2.0 billion. The term loan facility is a term loan of U.S. \$1.5 billion, with a five-year term, with options to extend the maturity on two occasions for one year each time. The term loan facility is divided into two facilities, Facility D and Facility E. Facility D is a U.S. \$1.0 billion amortizing term loan requiring repayments of U.S. \$50.0 million on a quarterly basis starting from October 2009, made available to US Holdings, and Facility E consists of a bullet term loan in an aggregate amount of U.S. \$500.0 million, made available to the Company. Interest accrues on the term loan at LIBOR plus 20 to 40 basis points based on "Net Debt to EBITDA" ratio, as defined in the facility agreement (0.496 percent for Facility D and 0.593 percent for Facility E on September 30, 2011). In September 2008, the Company exercised an option included in the agreement to extend the maturity date of Facilities D and E to October 12, 2013. These credit facilities contain certain financial and operating covenants. The Company was in compliance with those covenants as of September 30, 2011. U.S. \$1.1 billion was borrowed under this credit facility as of September 30, 2011.

During the fourth quarter of 2007, the Group entered into ten interest rate swap transactions with an aggregate initial notional amount of U.S. \$500.0 million with various banks ("Tranche E Swaps"). These swaps will expire on October 12, 2012. The Tranche E Swaps were entered into as a cash flow hedge on Facility E of the credit facility discussed above. The Tranche E Swaps exchange the floating rate of LIBOR for an average fixed rate of 4.260 percent per annum. The ineffectiveness of cash flow hedges was tested at the inception date and at least every three months. The results of the tests indicated that the cash flow hedges are highly effective.

During the fourth quarter of 2008 and the first quarter of 2009, US Holdings entered into 14 interest rate swap transactions with an aggregate initial notional amount of U.S. \$700.0 million with various banks ("Tranche D Swaps"), which will start to decrease by U.S. \$50.0 million every three months beginning on April 12, 2011. The final maturity of these swaps will be October 12, 2012. The Tranche D Swaps were entered into as a cash flow hedge on Facility D of the credit facility discussed above. The Tranche D Swaps exchange the floating rate of LIBOR for an average fixed rate of 2.587 percent per annum. The ineffectiveness of cash flow hedges was tested at the inception date and at least every three months. The results of the tests indicated that the cash flow hedges are highly effective.

The short-term bridge loan facility was for an aggregate principal amount of U.S. \$500.0 million. Interest accrued on the short-term bridge loan at LIBOR (as defined in the facility agreement) plus 0.15 percent. The final maturity of the credit facility was eight months from the first utilization date. On April 29, 2008, the Company and US Holdings entered into an amendment and transfer agreement to this short-term bridge loan facility. The terms of this amendment and transfer agreement, among other things, reduced the total facility amount from U.S. \$500.0 million to U.S. \$150.0 million, effective on July 1, 2008, and provided for a final maturity date that was 18 months from the effective date of the agreement. From July 1, 2008, interest accrued at LIBOR (as defined in the facility agreement) plus 0.60 percent. On November 27, 2009, the Company and US Holdings amended the U.S. \$150.0 million short-term bridge loan facility to, among other things, reduce the total facility amount from U.S. \$150.0 million to U.S. \$75.0 million, effective November 30, 2009, and provide for a final maturity date of November 30, 2011. The new terms also provided for the repayment of U.S. \$25.0 million on November 30, 2010 and the remaining principal at the final maturity date. From November 30, 2009, interest accrued at LIBOR (as defined in the facility agreement) plus 1.90 percent. US Holdings prepaid U.S. \$25.0 million on

27. COMMITMENTS AND RISKS

The Group has commitments under contractual agreements in place. Such commitments relate to the following:

royalty agreements signed with certain designers whereby the Group is required to pay royalties and advertising fees calculated as a percentage of turnover (as contractually defined) guaranteeing, in some cases, a minimum annual amount. These agreements require minimum payments of an aggregate of Euro 314.2 million as of September 30, 2011 and Euro 392.4 million as of December 31, 2010.

rental and operating lease agreements for various stores, plants, warehouses and offices, along with a portion of the IT system and motor vehicles. The agreements include renewal options subject to various conditions. The rental and licensing agreements for the Group's points of sale in the United States often include rent increase clauses and conditions requiring the payment of progressively higher rent installments, in addition to an established minimum, in relation to the achievement of sales targets set forth in such agreements. Future minimum rental payments required under these rental and operating agreements were Euro 1,075.3 million as of September 30, 2011 and Euro 1,285.0 million as of December 31, 2010.

other commitments which include future payments for endorsement contracts, supplier purchases and other long-term commitments mainly consist of cars, machinery and equipment lease commitments. Future payments related to those commitments were Euro 95.7 million as of September 30, 2011 and Euro 32.8 million as of December 31, 2010.

Guarantees

The United States Shoe Corporation, a wholly-owned subsidiary within the Group, has guaranteed the lease payments for five stores in the United Kingdom. A sixth such lease terminated on June 30, 2011. These lease agreements have varying termination dates through June 30, 2017. At September 30, 2011, the Group's maximum liability amounted to Euro 3.4 million (Euro 4.0 million at December 31, 2010).

A wholly-owned U.S. subsidiary guaranteed future minimum lease payments for lease agreements on certain stores. Total minimum guaranteed payments under this guarantee were Euro 1.2 million (U.S. \$1.6 million) at September 30, 2011 (Euro 1.5 million at December 31, 2010). The commitments provided for by the guarantee arise if the franchisee cannot honor its financial commitments under the lease agreements.

Credit lines

As of September 30, 2011 and as of December 31, 2010, the Company had unused short-term lines of credit of approximately Euro 638.4 million and Euro 559.8 million, respectively.

27. COMMITMENTS AND RISKS (Continued)

The Company and its wholly-owned Italian subsidiary Luxottica S.r.l. maintain unsecured lines of credit with primary banks for an aggregate maximum credit of Euro 366.8 million. These lines of credit are renewable annually, can be canceled on short notice and have no commitment fees. At September 30, 2011, these credit lines were not utilized.

US Holdings maintains unsecured lines of credit with three separate banks for an aggregate maximum credit of Euro 99.3 million (U.S. \$134.1 million). These lines of credit are renewable annually, can be canceled on short notice and have no commitment fees. At September 30, 2011, there were no amounts borrowed against these lines, however, there was Euro 32.0 million in aggregate face amount of standby letters of credit outstanding related to guarantees on these lines of credit (see below).

The blended average interest rate on these lines of credit is approximately LIBOR plus 0.40 percent.

Outstanding Standby Letters of Credit

A wholly-owned U.S. subsidiary has obtained various standby and trade letters of credit from banks that aggregated Euro 32.0 million and Euro 34.0 million as of September 30, 2011 and December 31, 2010, respectively. Most of these letters of credit are used for security in risk management contracts, purchases from foreign vendors or as security on store leases. Most standby letters of credit contain evergreen clauses under which the letter is automatically renewed unless the bank is notified not to renew. Trade letters of credit are for purchases from foreign vendors and are generally outstanding for a period that is less than six months. Substantially all the fees associated with maintaining the letters of credit fall within the range of 40 to 60 basis points annually.

Litigation

The Group and its subsidiaries are involved in the following legal and regulatory proceedings of which, unless already settled or otherwise concluded, the timing and outcomes are inherently uncertain and such outcomes could have an adverse effect on the Group's business, financial position or operating results.

French Competition Authority Investigation

Our French subsidiary Luxottica France S.A.S., together with other major companies which operate in the French eyewear industry, has been the subject of an investigation conducted by the French Competition Authority relating to pricing practices in such industry. The investigation is still ongoing and, to date, no formal action has yet been taken by the French Competition Authority. As a consequence, it is not possible to estimate or provide a range of potential liability that may be involved in this matter. The outcome of any such action, which the Group intends to vigorously defend, is inherently uncertain, and there can be no assurance that such action, if adversely determined, will not have a material adverse effect on our business, results of operations and financial condition.

Other proceedings

The Group is a defendant in various other lawsuits arising in the ordinary course of business. It is the opinion of the management of the Group that it has meritorious defenses against all such outstanding claims, which the Company will vigorously pursue, and that the outcome of such claims, individually or in the aggregate, will not have a material adverse effect on the Group's consolidated financial position or results of operations.

The beneficiaries of the 2008 PSP will be granted the right to receive ordinary shares ("Units"), without consideration, at the end of the three-year vesting period subject to achievement of certain EPS targets determined by the Board of Directors. On April 28, 2011, the Board of Directors approved grants totalling 764,750 Units. This was the fourth grant awarded under the 2008 PSP.
