INDEPENDENT ACCOUNTANT'S REVIEW REPORT

Board of Directors
CareDecision Corporation
(formerly ATR Search Corporation)
(a Development Stage Company)
New York, NY

We have reviewed the accompanying balance sheet of CareDecision Corporation (formerly ATR Search Corporation) (a Nevada corporation) (a development stage company) as of June 30, 2003 and the related statements of operations for the three and six months ended June 30, 2003 and 2002 and for the period July 6, 2000 (Inception) to June 30, 2003, and statements of cash flows for the six months ended June 30, 2003 and 2002 and for the period July 6, 2000 (Inception) to June 30, 2003. These financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, which will be performed for the full year with the objective of expressing an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material

Edgar Filing: CAREDECISION CORP - Form 10QSB

modifications that should be made to the accompanying financial statements referred to above for them to be in conformity with generally accepted accounting principles in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has had limited operations and has not commenced planned principal operations. This raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We previously audited, in accordance with generally accepted auditing standards, the balance sheet of CareDecision Corporation (formerly ATR Search Corporation) (a development stage company) as of December 31, 2002, and the related statements of operations, stockholders' equity, and cash flows for the year then ended (not presented herein) and in our report dated April 4, 2003, we expressed an unqualified opinion on those financial statements.

 Notes

Note 1 - Basis of presentation

The consolidated interim financial statements included herein, presented in accordance with United States generally accepted accounting principles and stated in US dollars, have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

Edgar Filing: CAREDECISION CORP - Form 10QSB

These statements reflect all adjustments, consisting of normal recurring adjustments, which, in the opinion of management, are necessary for fair presentation of the information contained therein. It is suggested that these consolidated interim financial statements be read in conjunction with the consolidated financial statements of the Company for the period ended December 31, 2002 and notes thereto included in the Company's Form 10-KSB. The Company follows the same accounting policies in the preparation of consolidated interim reports.

Results of operations for the interim periods are not indicative of annual results.

Note 2 - Going concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. As noted above, the Company is in the development stage and, accordingly, has not yet generated a proven history of operations. Since its inception, the Company has been engaged substantially in financing activities and developing its product line, incurring substantial costs and expenses. As a result, the Company incurred accumulated net losses from July 6, 2000 (inception) through the period ended June 30, 2003 of \$2,928,220. In addition, the Company's development activities since inception have been financially sustained by capital contributions.

The ability of the Company to continue as a going concern is dependent upon its ability to raise additional capital from the sale of common stock and, ultimately, the achievement of significant operating results. The accompanying financial statements do not include any adjustments that might be required should the Company be unable to recover the value of its assets or satisfy its liabilities.

Note 3 - Change in accounting principle

The Company determined during the three months ending June 30, 2003 that it is appropriate to reclassify software acquired in 2002 from intellectual property to fixed assets. The effect of the change in accounting principle requires a restatement of the December 31, 2002 and March 31, 2003 financial statements in order to properly reflect the asset reclassification and the related adjustment to depreciation expense. The effect of this change was to decrease net income for the year ended December 31, 2002 and the three months ended March 31, 2003 by \$119,988 and \$63,409, respectively. Retained earnings as of January 1, 2002 has been adjusted for the retroactive application of the change in accounting principle.

Note 4 - Fixed assets

On February 5, 2003, the Company acquired fully-developed software valued at \$181,250 from CareDecision.net, Inc., the former parent corporation of Medicius, Inc. Medicius, Inc. was acquired by the Company in June 2002. Several of the control persons from CareDecision.net, Inc. are in similar positions of control at the Company.

Edgar Filing: CAREDECISION CORP - Form 10QSB

Depreciation expense totaled \$165,652 for the six-month period ended June 30, 2003.

Forward-Looking Statements

This Quarterly Report contains forward-looking statements about our business, financial condition and prospects that reflect our assumptions and beliefs based on information currently available. We can give no assurance that the expectations indicated by such forward-looking statements will be realized. If any of our assumptions should prove incorrect, or if any of the risks and uncertainties underlying such expectations should materialize, our actual results may differ

Edgar Filing: CAREDECISION CORP - Form 10QSB

materially from those indicated by the forward-looking statements.

The key factors that are not within our control and that may have a direct bearing on operating results include, but are not limited to, acceptance of our services, our ability to expand our customer base, our ability to raise capital in the future, the retention of key employees and changes in the regulation of our industry. There may be other risks and circumstances that we are unable to predict. When used in this Quarterly Report, words such as, "believes," "expects," "intends," "plans," "anticipates," "estimates" and similar expressions are intended to identify forward-looking statements, although there may be certain forward-looking statements not accompanied by such expressions. All forward-looking statements are intended to be covered by the safe harbor created by Section 21E of the Securities Exchange Act of 1934.

General

Our principal products are: an E-Health handheld information appliance (PDA) software application package, and an E-commerce handheld information appliance and network designed for the hotel, motel and apartment marketplace. We presently have a comprehensive suite of medical information technology, cooperative advertising, instant messaging and fulfillment, and electronic commerce applications that are Internet enhanced, integrated for medical professional use, and hotel management/guest use, both software suites on a wireless PDA Internet appliance. These applications have been designed to meet the needs of the inpatient and outpatient medical environments, and the hotel management and guest (consumer), and are not just commercially viable but also regulatory standard compliant. Additionally, our software applications were conceived and implemented to offer the management level user, either the medical professional or hotel manager, the ability to prospective and retrospective commerce.

Our software is designed to integrate point of service applications. The medical appliance, the longest available product, monitors treatment protocols and up to the moment patient histories coupled with real-time on-line medical insurance claims submission. Our ultimate key to success resides in providing the private practice physician with the capability to, sequentially, learn about the history of his or her patient during, or prior to, entering the examining room, treat the patient and update the insurer of the episode of care. Accomplishing these objectives resolves a major dilemma for the health care provider; instantaneous communication of vital patient related information at or before the patient encounter.

The hotel/motel and apartment software makes use of much of the foundation technologies resident in the medical product, however, given the differences in the two markets that the products service, the hotel/motel product is much more cooperative oriented, offering more consumer transactional services with the compliment of advertising.

/11/

Edgar Filing: CAREDECISION CORP - Form 10QSB

Our technologies are grounded in the central need to furnish the doctor with crucial point-of-care patient information rapidly and reliably via a PDA. It utilizes the power of the Internet to move large amounts of data to and from a variety of platforms securely via a powerful Windows CE based PDA designed for portability and upgradability. Totally compliant with the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), this PDA technology is among the first to offer complicated and real-time point of care applications, previously legacy (mainframe or PC network) system applications, on a totally portable (PDA) appliance.

Our PDA software operates on any Microsoft Windows CE "Pocket PC" based handheld device, either in a wireless or "wired" mode. The local host for our PDA devices is a Windows (9X, NT or later) based PC in the physician's office, which, in turn, permits one to eight of the aforementioned PDAs to be linked to either a medical network or hotel/motel wide area network, and allows each PDA to become a uniquely identified mobile node on that network, independent of PC linkage, thereby, assisting the professional in the review of relevant histories, transactions, and for the medical related product --medications and prescriptions, lab test ordering, medical step processes and protocols and specialist referral processes.

The PDA software provides rules based software capabilities and the ability to receive order fulfillment information for over 5,000 users simultaneously, which represents approximately 3 years of user encounters in a typical network setting, and allows medical professionals to access payor and health plan business rules, and policy/plan coverage's directly from the plan(s).

Results of Operations

The following is an itemization of our results of operations for the six-month period ended June 30, 2003. In the comparable period ended June 30, 2002, the Company had yet to begin significant operations and therefore there were no expenses associated with these items.

REVENUES. Total revenues for the six-month period ended June 30, 2003 were \$1,850. As a development stage company we have yet to generate significant revenues and we cannot guarantee with certainty when we will begin to generate significant revenues. Our future revenues will be reliant on the acceptance of our software systems, communication tools and suite of software applications.

GENERAL AND ADMINISTRATIVE. General and Administrative expenses relate to the operation and leasing costs of our corporate office. General and administrative expenses for the six-month period ended June 30, 2003 were \$83,989 compared to \$182,849 for the six-month period ended June 30, 2002. General and Administrative expenses decreased by approximately 54% from the comparable period as the Company consolidated operations after its merger in 2002. The company, in anticipation of its merger made purchases of equipment and other office related supplies in conjunction with the start of initial business operations in the six-month period ended June 30, 2002.

Edgar Filing: CAREDECISION CORP - Form 10QSB

PAYROLL. Payroll expense consists primarily of management and employee salaries. Total payroll expense for the six-month period ended June 30, 2003 was \$122,794. The Company incurred no payroll expense for the six-month period ended June 30, 2002.

PROFESSIONAL FEES. Professional fees include fees paid to our accountants and attorneys. Our professional fees were \$43,228 for the six-month period ended June 30, 2003. The Company incurred no professional fees for the six-month period ended June 30, 2002.

CONSULTING. Consulting expense includes fees paid to consultants in relation to the preparation of required SEC filings, and to individuals engaged to assist management in the furtherance of our business plan. Consulting expenses for the six-month period ended June 30, 2003 were \$356,000 compared to \$409,446 for the six-month period ended June 30, 2002. Consulting expense decreased by approximately 13% from the comparable period as the Company has consolidated the use of consultants after its merger to assist in the furtherance of our business model.

SOFTWARE DEVELOPMENT. Software Development expense was minimal as our software systems; communication tools and suite of software applications are complete. Software Development expense for the six-month period ended June 30, 2003 was \$3,950. The Company incurred no software development expense for the six-month period ended June 30, 2002.

DEPRECIATION. Depreciation was \$165,652 for the six-month period ended June 30, 2003 compared to \$1,393 for the six-month period ended June 30, 2002. This represents depreciation on the assets of the Company. Depreciation expense has increased significantly from the comparable period due to the assets purchased in the six-month period ended June 30, 2002, which are now on depreciation schedules.

TOTAL OPERATING EXPENSES. Total operating expenses for the six-month period ended June 30, 2003 were \$775,613 compared to \$593,688 for the six-month period ended June 30, 2002. Total operating expenses increased by approximately 31% due mainly to our addition of staff and subsequent incurrence of payroll expense and the increase in depreciation expense on the assets of the Company. Our most significant operating expenses are consulting, payroll and depreciation expenses.

LOSS ON DEBT SETTLEMENT. In the six-month period ended June 30, 2003 the Company retired past debts valued at \$37,094. There was no debt retired in the comparable six-month period ended June 30, 2002.

INTEREST INCOME. Interest income was \$561 for the six-month period ended June 30, 2003 compared to \$967 for the six-month period ended June 30, 2002.

INTEREST EXPENSE. Interest expense was \$22,804 for the six-month period ended June 30, 2003 compared to \$8,251 for the six-month period ended June 30, 2002. Interest expense increased significantly as a result of the receipt of loans totaling

\$113,791 in the six-month period ended June 30, 2003 that bear an interest rate of 9%.

LOSS FROM OPERATIONS/NET LOSS. Our loss from operations was \$833,100 for the six-month period ended March 31, 2003 compared to \$599,917 for the six-month period ended June 30, 2002. It should be expected that we will continue to incur losses from operations until such time as revenues can be generated to cover such costs.

Future Business

The elements of our future business strategy include: expanding geographically into key markets through a combination of opening new offices and developing relationships with clients to generate demand for our services, particularly for the company's hotel/motel and apartment products; recruiting qualified, medical software and other technical personnel to perform technical, implementation and support duties as contracts are entered into, although there can be no assurance that any such contracts will be secured; and pursuing entry into new markets complementary to our proposed operations. Future operations are dependent upon our ability to implement our business and marketing strategies and to establish relationships and contracts with health insurers and HMOs to provide our e-healthcare products and services, and to establish relationships with large hotel and/or motel chains for our hotel/motel products.

Liquidity and Capital Resources

Management believes our cash on hand of \$11,913 will not be sufficient to fund ongoing fiscal 2003 and 2004 operations and provide for our working capital needs given we have negative working capital of \$635,261. Thus we will from time to time need to raise additional funds through capital markets. Our accountant has issued a note concerning our ability to continue as a going concern. As we are still considered to be in the development stage, our prospects of continuing as a going concern are contingent upon our ability to raise additional capital and to achieve and maintain profitable operations. Revenues generated over and above expenses will be used for further development of our services, to provide financing for marketing and promotion, to secure additional customers, equipment and personnel, and for other working capital purposes.

To date, we have financed our cash flow requirements through an issuance of common stock and through the issuance of notes. During the six months ended June 30, 2003, we received loans totaling \$113,791 from a Company shareholder and director. The notes bear interest at 9% per annum and are due 365 days from date of issuance. In addition, during the six months ended June 30, 2003, we received \$100,150 from Robert Cox, President of CareDecision Corporation. This note bears an interest rate of 9% per annum and is due 365 days from date of issuance.

During our normal course of business, we will experience net negative cash flows from operations, pending receipt of revenues.

Edgar Filing: CAREDECISION CORP - Form 10QSB

Further, we will be obtaining financing to fund operations through additional common stock offerings, note issuances and bank borrowings, to the extent available, or to obtain additional financing to the extent necessary to augment our available cash on hand.

All investor inquiries should be directed via mail to Mr. Robert Cox, President, CareDecision Corporation, 2660 Townsgate Road, Suite 300, Westlake Village, California 91361.
