Item 2.01 Acquisition and Disposition of Assets.

On August 3, 2006, we sold our interest in Midland Cogeneration Venture (MCV) to GSO Capital Partners and Rockland Capital Energy Investments for \$13 million. The sale includes our approximate 44-percent interest in MCV, a 1,575-megawatt natural gas-fired power plant located in Midland, Michigan. We previously wrote down our interest in MCV to zero; therefore, the sale will result in a third quarter 2006 pre-tax gain of approximately \$13 million. In addition, we will record a non cash, mark-to-market loss during the third quarter on natural gas supply agreements with MCV as a result of this sale, as previously disclosed. Due to their affiliated nature, we have not historically recognized gains or losses on these gas supply contracts to the extent of our 44 percent ownership interest. Based on our estimated value of these contracts as of June 30, 2006, the loss would be approximately \$135 million. This loss represents the cumulative unrecognized mark-to-market losses on these contracts attributable to our interest.

This Current Report on Form 8-K is being filed to report the completion of the sale and present the pro forma impacts of the sale on our historical financial statements.

Item 9.01 Financial Statements and Exhibits.

- (b) Pro forma financial information.

The accompanying unaudited pro forma financial statements are based on our historical condensed consolidated financial statements as of and for the six months ended June 30, 2006 and our consolidated financial statements for the year ended December 31, 2005, adjusted for the effects of the sale of MCV, as described above. The unaudited pro forma condensed consolidated balance sheet as of June 30, 2006, assumes the disposition occurred on the balance sheet date. The unaudited pro forma condensed consolidated statements of income for the six months ended June 30, 2006 and year ended December 31, 2005, assume the disposition occurred on January 1, 2005. The unaudited pro forma financial statements should be read in conjunction with the historical consolidated financial statements included in our Current Report on Form 8-K dated May 12, 2006 (which updated the financial information originally presented in our 2005 Annual Report on Form 10-K) and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2006, and should not be construed to be indicative of future results or results that actually would have occurred had the transaction occurred at the dates presented. In addition, these pro forma financial statements were prepared in accordance with Article 11 of Regulation S-X. Accordingly, we have not assumed any cost savings or synergies that might occur related to the transaction.

El Paso Historical

These amounts represent our historical consolidated balance sheet amounts as of June 30, 2006 and income statement amounts for the six months ended June 30, 2006 and for the year ended December 31, 2005. The amounts as of and for the six months ended June 30, 2006 were derived from our Current Report on Form 10-Q for the quarter ended June 30, 2006. The amounts for the year ended December 31, 2005 were derived from our Current Report on Form 8-K dated May 12, 2006.

Pro Forma Adjustments

The pro forma adjustments represent:

- (a) the receipt of proceeds from the sale of our investment;
 - (b) the tax effect of the mark-to-market liability using a statutory rate of 35 percent;
 - (c) the current and non-current portion of the mark-to-market liability of natural gas supply agreements with MCV based on estimated values of these agreements, which represents the cumulative unrecognized mark-to-market losses on these contracts attributable to our interest;
 - (d) the tax effect of the gain on sale using a statutory rate of 35 percent;
 - (e) the impact of the gain on the sale, net of taxes;
 - (f) the impact of the mark-to-market liability, net of taxes;
 - (g) the non cash mark-to-market gains (losses) on natural gas supply agreements with MCV based on changes in the estimated values of these agreements for the six months ended June 30, 2006 and for the year ended December 31, 2005, which represents changes in the cumulative unrecognized mark-to-market losses on these contracts attributable to our interest during those periods;
 - (h) the tax effect of the pro forma adjustments using the statutory rate of 35 percent; and
 - (i) the elimination of our historical earnings from unconsolidated affiliates related to MCV, net of impairments.
