Dear Stockholder:

You are cordially invited to attend the 2010 Annual Meeting of Kratos Defense & Security Solutions, Inc. (“Kratos”), which will be held at the Marriott Huntsville, 5 Tranquility Base, Huntsville, Alabama 35805, on Tuesday, May 11, 2010, at 9:00 a.m. local time. We hope you will be able to attend the meeting in person.

At our annual meeting, our stockholders will be asked to elect six directors to our Board of Directors; to ratify the Board’s selection of Grant Thornton LLP as our independent registered public accounting firm; to approve an amendment to our 2005 Equity Incentive Plan to increase the shares available for grant under the plan; to approve an amendment to our Employee Stock Purchase Plan to increase the shares available for purchase under the plan; and to transact such other business as may properly come before the meeting or any adjournment thereof. Following the formal annual meeting, we will also present a report on our operations and activities, and management will be pleased to answer your questions about us and our business.

Whether or not you plan to attend the annual meeting personally, and regardless of the number of shares of Kratos stock you own, it is important that your shares be represented at the annual meeting. This year, we are pleased to take advantage of Securities and Exchange Commission rules that allow companies to furnish their proxy materials over the Internet. As a result, we are mailing to most of our stockholders a Notice of Internet Availability of Proxy Materials instead of a paper copy of our proxy materials, which include the Notice of Annual Meeting, our Proxy Statement, our 2009 Annual Report and a proxy card or voting instruction form. The Notice contains instructions on how to access those documents on the Internet and how to cast your vote via the Internet. The Notice also contains instructions on how to request a paper copy of our proxy materials. All stockholders who do not receive the Notice will receive a paper copy of the proxy materials by mail. If you have received a paper copy of our proxy materials you can cast your vote by completing the enclosed proxy card and returning it in the postage-prepaid envelope provided, or by utilizing the telephone or Internet voting systems.

Sincerely,

Eric DeMarco

You are encouraged to access and review all of the important information contained in the proxy materials before voting.

Solicitation and Revocation of Proxy

Our Board is soliciting the accompanying proxy. In accordance with unanimous recommendations of our Board, the individuals named in the proxy will vote all shares represented by proxies in the manner designated, or if no designation is made, they will vote the proxies FOR the election of all of the director nominees and FOR each proposal. In their discretion, the proxy holders named in the proxy are authorized to vote on any other matters that may properly come before the Annual Meeting and at any continuation, postponement or adjournment of the Annual Meeting. As of the date of this Proxy Statement, our Board does not know of any other items of business that will be presented for consideration at the Annual Meeting other than those described in this proxy statement. The individuals acting as proxies will not vote on a particular matter if the proxy card representing those shares instructs them to abstain from voting on that matter or to the extent a proxy card is marked to show that some of the shares represented by the proxy card are not to be voted.

If you give a proxy, you may revoke it at any time before its use, either:

(1) by revoking it in person at the Annual Meeting;

(2) by writing, delivered to our Corporate Secretary at 4810 Eastgate Mall, San Diego, California, 92121 before the proxy is used; or

(3) by a later dated proxy card delivered to us at the above noted address before the proxy is used.

Your presence at the meeting will not revoke your proxy, but if you attend the meeting and cast a ballot, your proxy will be revoked as to the matters on which the ballot is cast.

Shares Outstanding and Voting Rights

Only stockholders of record as of the record date, March 18, 2010, will be entitled to a notice of and to vote at the Annual Meeting or at any continuation, postponement or adjournment of the original meeting. On the record date, we had two classes of voting stock outstanding, common stock and preferred stock. At March 18, 2010, 15,887,791 shares of common stock were issued and outstanding and 10,000 shares of Series B Convertible Preferred Stock were issued and outstanding. Each outstanding share of common stock entitles the holder to one vote and each outstanding share of Series B Convertible Preferred Stock entitles the holder to one hundred votes on all matters to be voted upon at the Annual Meeting.

How to Vote

You may vote by attending the Annual Meeting and voting in person or you may vote by submitting a proxy. If you are the record holder of your stock, you may vote by submitting your proxy via the Internet, by telephone or through the mail.

To vote via the Internet, follow the instructions on the Notice or go to the Internet address stated on your proxy card. To vote by telephone, call the number on your proxy card. If you receive only the Notice, you may follow the procedures outlined in the Notice to request a proxy card.

As an alternative to voting by telephone or via the Internet, you may vote by mail. If you receive only the Notice, you may follow the procedures outlined in the Notice to request a paper proxy card to submit your vote by mail. If you receive a paper copy of the proxy materials and wish to vote by mail, simply mark your proxy card, date and sign it and return it in the postage-prepaid envelope.

If you hold your shares of common stock in street name you will receive the Notice from your broker, bank or other nominee. Your broker, bank or other nominee will allow you to deliver your voting instructions via the Internet and may also permit you to submit your voting instructions by telephone. In addition, you may request paper copies of our Proxy Statement and proxy card by following the instructions on the Notice provided by your broker, bank or other nominee.

Votes submitted via the Internet or by telephone must be received by 11:59 P.M., Central Daylight Time on May 10, 2010. Submitting your proxy via the Internet or by telephone will not affect your right to vote in person should you decide to attend the Annual Meeting.

The Kratos 401(k) Plan provides that the trustee of the plan will vote the shares of our common stock that are not directly voted by the participants in the plan. If the trustee does not receive voting instructions from participants in the Kratos 401(k) Plan, the trustee may vote the shares of our common stock under such plan in the same proportion as the shares voted by all other respective plan participants. If the trustee receives a signed but not voted proxy card, the trustee will vote such shares of our common stock according to the Board's recommendations.

If you plan to attend the Annual Meeting and wish to vote in person, you will be given a ballot at the Annual Meeting. Please note that if your shares are held of record by a broker, bank or other nominee, and you decide to attend and vote at the annual meeting, your vote in person at the annual meeting will not be effective unless you present a legal proxy, issued in your name from your broker, bank or other nominee. Even if you plan to attend the annual meeting, we encourage you to submit your proxy to vote your shares in advance of the Annual Meeting.

Required Votes

The inspector of election appointed for the meeting by our Board will count the votes cast by proxy or in person at the Annual Meeting. The inspector will count those votes to determine whether or not a quorum is present. A majority in voting power of the shares entitled to vote represented in person or by proxy, will constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and broker shares that are voted as to any matter at the meeting will be included in determining if a quorum is present or represented at the Annual Meeting. Any broker holding shares of record for you is not entitled to vote on certain matters unless the broker receives voting instructions from you. Uninstructed shares, or broker non-votes, result when shares are held by a broker who has not received instructions from its customer on such matters and the broker has so notified us on a proxy form in accordance with industry practice or has otherwise advised us that the broker lacks voting authority. The effects of broker non-votes and abstentions on the specific items to be brought before the Annual Meeting are discussed under each item.

Cost and Method of Solicitation

We will bear the entire cost of solicitation of proxies, including preparation, assembly, printing and mailing of this proxy statement, the proxy card and any additional information furnished to our stockholders. Solicitation of proxies by mail may be supplemented by telephone or personal solicitation by our directors, officers or other regular

employees. No additional compensation will be paid to directors, officers or other regular employees for such services. Copies of solicitation materials will be furnished to banks brokerage houses, fiduciaries and custodians holding in their names shares of our common stock beneficially owned by others to forward to such beneficial owners. We may reimburse such persons for their costs in forwarding the solicitation materials to such beneficial owners.

Stockholder List

A complete list of registered stockholders entitled to vote at the meeting will be available for examination by any stockholder, for any purpose related to the meeting, for ten days prior to the meeting during ordinary business hours at our principal offices located at 4810 Eastgate Mall, San Diego, California 92121.

Vote Required

Each director is elected by a plurality of the votes cast with regard to the election of directors. The persons named in the enclosed proxy will vote the proxies they receive FOR the election of the nominees named above, unless a particular proxy card withholds authorization to do so, or provides contrary instructions. Because directors are elected by a plurality of the votes cast, abstentions and broker non-votes will not be counted in determining which nominees receive the largest number of votes cast. Each of the nominees has indicated that he is willing and able to serve as a director. If, before the Annual Meeting, any nominee becomes unable to serve, an event that is not anticipated by the Board, the proxies will be voted for the election of whomever the Board may designate.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE ELECTION OF
EACH OF THE NOMINEES FOR DIRECTOR.

PROPOSAL 2

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our Board has selected Grant Thornton LLP (“Grant Thornton”) as our independent registered public accounting firm for the fiscal year ending December 26, 2010, and has further directed that management submit the selection of the independent registered public accounting firm for ratification by our stockholders at our Annual Meeting. Grant Thornton has audited our financial statements since July 2005. Representatives of Grant Thornton are not expected to be present at the Annual Meeting.

Stockholder ratification of the selection of Grant Thornton as our independent registered public accounting firm is not required by our Bylaws or otherwise. However, the Board is submitting the selection of Grant Thornton to the stockholders for ratification as a matter of good corporate practice. If the stockholders do not ratify the selection, the Board and the Audit Committee will reconsider whether or not to retain Grant Thornton. Even if the selection is ratified, the Board and the Audit Committee may, in their discretion, direct the appointment of a different independent registered public accounting firm at any time during the year if they determine that such a change would be in our and our stockholders’ best interests.

Audit and All Other Fees

As part of its duties, the Audit Committee considers whether the provision of services, other than audit services, during the fiscal year ended December 27, 2009 by Grant Thornton is compatible with maintaining their independence.

The following table sets forth the aggregate fees for services provided to us by Grant Thornton for the fiscal years ended December 28, 2008 and December 27, 2009:

	Fiscal 2008	Fiscal 2009
Audit Fees(1)	\$ 948,350	\$ 815,286
Audit-Related Fees(2)	14,312	—
Tax Fees(3)	—	—
All Other Fees(4)	3,150	3,950
TOTAL	\$ 965,812	\$ 819,236

(1) Audit Fees consist of fees billed and expected to be billed for professional services rendered for the integrated audit of Kratos’ consolidated annual financial statements and review of the interim consolidated financial statements included in quarterly reports, services related to compliance with the provisions of the Sarbanes-Oxley Act, Section 404, and services that are normally provided by Grant Thornton in connection with statutory and regulatory filings or engagements. In 2008, Grant Thornton performed an integrated audit and these fees were not separately identified.

The amount for 2008 includes \$108,312 for Registration Statements of Forms S-4 and S-8. The amount for 2009 includes \$50,000 for Registration Statement Form S-3 and \$7,000 for work performed in connection with the Company's SEC comment letter responses.

(2) Audit-Related Fees consist of fees billed by Grant Thornton for the review of Grant Thornton's work papers by external parties.

(3) Tax Fees consist of fees billed and expected to be billed for professional services rendered for tax compliance, tax advice and tax planning. These services include assistance regarding federal state and local tax compliance, planning and advice; international tax compliance, planning and advice; review of federal, state, local and international income franchising and other tax returns.

(4) All Other Fees consist of fees for products and services other than the services reported above.

Audit Committee Pre-Approval Policy

The Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by our independent auditors. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services. The Audit Committee has delegated pre-approval authority to the Audit Committee Chairperson. The independent auditor and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent auditor in accordance with this pre-approval.

Since July 2005, each new engagement of Grant Thornton has been approved in advance by the Audit Committee.

Vote Required and Board of Directors' Recommendation

Approval of this proposal requires the affirmative vote of a majority of the shares present or represented by proxy and entitled to vote on this proposal, at a meeting at which a quorum is present. Abstentions will be counted as present for purposes of determining the presence of a quorum and will have the same effect as a vote against this proposal. Broker non-votes are not expected to result from the vote on Proposal 2.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THIS PROPOSAL.

PROPOSAL 3
APPROVAL OF AMENDMENT TO THE KRATOS DEFENSE & SECURITY SOLUTIONS, INC.
2005 EQUITY INCENTIVE PLAN TO INCREASE
THE AGGREGATE NUMBER OF SHARES THAT MAY BE ISSUED UNDER THE PLAN BY
1,250,000 SHARES

At the Annual Meeting, our stockholders will be asked to approve an amendment to the Kratos Defense & Security Systems, Inc. 2005 Equity Incentive Plan (the “2005 Plan”), to increase the maximum number of shares of common stock that may be issued under the 2005 Plan by 1,250,000 so that the total number of shares reserved for issuance under the 2005 Plan will be 1,900,000 shares. Our stockholders have previously authorized us to issue up to 650,000 shares of common stock under the 2005 Plan (subject to adjustment upon certain changes in the capital structure).

We are asking our stockholders to approve the increase to the 2005 Plan so that we can continue to use the 2005 Plan to attract and encourage the continued employment and service of, and maximum efforts by, officers, employees and other individuals by offering those persons an opportunity to acquire or increase a direct proprietary interest in our operations and future success. Since January 2007, we have pursued this goal primarily through the grant of restricted stock units. We believe that in our heavily human-capital intensive business, restricted stock units are an important factor in hiring and retaining talented personnel.

The Compensation Committee and the Board of Directors believe that in order to successfully attract and retain the best possible candidates for positions of responsibility, we must continue to offer a competitive equity incentive program. Importantly, when our stockholders previously approved an increase in the share reserve under the 2005 Plan on June 25, 2008, the Compensation Committee resolved to discontinue making equity award grants under our other equity incentive plans, including the Kratos 1999 Equity Incentive Plan and the Kratos 2000 Nonstatutory Stock Option Plan (the “Prior Plans”), and to cancel the remaining shares available for grant under the Prior Plans. In addition, our 2005 Plan does not allow us to issue shares forfeited or otherwise cancelled under the Prior Plans. As a result, as of March 5, 2010, no shares remained available for the future grant of stock awards, including restricted stock unit awards, under the 2005 Plan, and any of our other equity incentive plans.

The Board of Directors and the Compensation Committee believe that additional shares must be made available as our inability to offer equity compensation to our existing and new employees would seriously impact our ability to hire and retain employees. The Compensation Committee uses equity compensation in the form of restricted stock units as its principal form of long term compensation, and the Compensation Committee views this form as critical to achieving its compensation objectives for executives and the broader employee population. Accordingly, on March 17, 2010, the Compensation Committee unanimously adopted, subject to stockholder approval, an amendment to increase the maximum number of shares of common stock issuable under the 2005 Plan by 1,250,000 shares to a total of 1,900,000 shares (subject to adjustment upon certain changes in the capital structure of the company).

Our option overhang is relatively low and substantially all of the options outstanding have exercise prices that are materially higher than the current trading prices of the Company’s common stock, primarily due to the majority of these options being granted years ago when the Company was a commercial wireless business. In 2008 we issued a substantial number of shares in connection with our acquisitions of SYS and Digital Fusion, Inc., and we conducted a public offering in 2009 that materially increased our outstanding share count. Our acquisitions of SYS and Digital Fusion, Inc. also added an aggregate 700 additional employees, representing approximately 39% of our total current workforce.

Approval of the amendment to the 2005 Plan requires the affirmative vote of the holders of a majority of the shares of Common Stock present or represented and entitled to vote at the Annual Meeting. If the Company’s stockholders do not approve the amendment to the 2005 Plan, the 2005 Plan will terminate, the Company will no longer have an

equity incentive plan under which equity awards can be granted, and approximately 32% of the total grants made in January 2010, representing the restricted stock units granted in excess of the authorized shares available for grant, will be forfeited and cancelled (as described in further detail below).

Summary of the 2005 Plan

A summary of the 2005 Plan is set forth below. This summary is qualified in its entirety by the specific language of the 2005 Plan, a copy of which is available to any stockholder upon request.

Administration

The 2005 Plan is administered by the Compensation Committee. Subject to the terms of the 2005 Plan, the Compensation Committee may select participants to receive awards, determine the types of awards, and terms and conditions of awards, and interpret provisions of the 2005 Plan. The Compensation Committee determines at what time or times each award may be exercised or settled and the period of time, if any, after retirement, death, disability or termination of employment during which such awards may be exercised, vested or settled. The exercisability and vesting of any award may be accelerated by the Compensation Committee. The 2005 Plan forbids, without stockholder approval, the repricing of any outstanding stock option or stock appreciation right by an amendment which lowers the exercise price of such awards. However, the 2005 Plan does authorize, without stockholder approval, a stock option exchange program where such stock options or stock appreciation rights are either transferred to a financial institution for a cash payment or cancelled and replaced with new stock options or stock appreciation rights. The Board of Directors may terminate or amend the 2005 Plan at any time and for any reason. However, amendments will be submitted for stockholder approval to the extent required by the Internal Revenue Code or other applicable laws.

Common Stock Reserved for Issuance

The common stock issued or to be issued under the 2005 Plan consists of authorized but unissued shares and treasury shares. If any shares covered by an award are not purchased or are forfeited, or if an award otherwise terminates without delivery of any common stock, then the number of shares of common stock counted against the aggregate number of shares available under the plan with respect to the award will, to the extent of any such forfeiture or termination, again be available for making awards under the 2005 Plan.

Eligibility

Awards may be made under the 2005 Plan to our employees, directors and consultants, or the employees, directors and consultants of any present or future parent or subsidiary corporation. Incentive stock options may be granted only to employees who, as of the time of grant, are employees of us or a parent or subsidiary corporation. As of the end of January 2010, approximately 1,800 employees, 5 non-employee directors and no consultants were eligible to participate in the 2005 Plan.

Stock Options

The 2005 Plan permits the granting of options to purchase shares of common stock intended to qualify as incentive stock options under the Internal Revenue Code and stock options that do not qualify as incentive stock options. The exercise price of each stock option may not be less than 100% of the fair market value of our common stock on the date of grant. In the case of certain 10% stockholders who receive incentive stock options, the exercise price may not be less than 110% of the fair market value of our common stock on the date of grant. An exception to these requirements is made for options that we grant in substitution for options held by employees of companies that we acquire. In such a case the exercise price is adjusted to preserve the economic value of the employee's stock option from his or her former employer. The exercise price of each indexed stock option, and the terms and adjustments

which may be made to such an option, will be determined by the Compensation Committee in its sole discretion at the time of grant. On March 5, 2010, the closing price of our common stock on the Nasdaq Global Select Market was \$14.00 per share.

The 2005 Plan provides that the option exercise price may be paid in cash, by check, or in cash equivalent, by the assignment of the proceeds of a sale with respect to some or all of the shares being acquired upon the exercise of the option, to the extent legally permitted, by tender of shares of common stock owned by the optionee having a fair market value not less than the exercise price, by a net exercise procedure, or such other lawful consideration as approved by the Compensation Committee, or by any combination of these. Nevertheless, the Compensation Committee may restrict the forms of payment permitted in connection with any option grant. No option may be exercised unless the optionee has made adequate provision for federal, state, local and foreign taxes, if any, relating to the exercise of the option, including, if permitted or required by us, through the optionee's surrender of a portion of the option shares to us.

Options will become vested and exercisable at such times or upon such events and subject to such terms, conditions, performance criteria or restrictions as specified by the Compensation Committee. The maximum term of any option granted under the 2005 Plan is ten years, provided that an incentive stock option granted to a 10% stockholder must have a term not exceeding five years. The Compensation Committee will specify in each written option agreement, and solely in its discretion, the period of post-termination exercise applicable to each option.

Generally, stock options are nontransferable by the optionee other than by will or by the laws of descent and distribution, and are exercisable during the optionee's lifetime only by the optionee. However, a nonstatutory stock option may be assigned or transferred to the extent permitted by the Compensation Committee in its sole discretion.

Stock Appreciation Rights

A stock appreciation right gives a participant the right to receive the appreciation in the fair market value of our common stock between the date of grant of the award and the date of its exercise. We will pay the appreciation only in the form of shares of common stock. The Compensation Committee may grant stock appreciation rights under the 2005 Plan in tandem with a related stock option or as a freestanding award. A tandem stock appreciation right is exercisable only at the time and to the same extent that the related option is exercisable, and its exercise causes the related option to be canceled. Freestanding stock appreciation rights vest and become exercisable at the times and on the terms established by the Compensation Committee. The maximum term of any stock appreciation right granted under the 2005 Plan is ten years. Stock appreciation rights are generally nontransferable by the participant other than by will or by the laws of descent and distribution, and are generally exercisable during the participant's lifetime only by the participant.

Restricted Stock Awards

The Compensation Committee may grant restricted stock awards under the 2005 Plan in the form of a restricted stock bonus, for which the participant furnishes consideration in the form of services to us. Restricted stock awards may be subject to vesting conditions based on such service or performance criteria as the Compensation Committee specifies, and the shares acquired may not be transferred by the participant until vested. Unless otherwise provided by the Compensation Committee, a participant will forfeit any shares of restricted stock as to which the restrictions have not lapsed prior to the participant's termination of service. Participants holding restricted stock will have the right to vote the shares and to receive any dividends paid, except that dividends or other distributions paid in shares will be subject to the same restrictions as the original award.

Restricted Stock Units

The Compensation Committee may grant restricted stock units under the 2005 Plan, which represent a right to receive shares of common stock at a future date determined in accordance with the participant's award agreement. No monetary payment is required for receipt of restricted stock units or the shares issued in settlement of the award, the consideration for which is furnished in the form of the participant's services to us. The Compensation Committee may grant restricted stock unit awards subject to the attainment of performance goals similar to those described below in connection with performance shares and performance units, or may make the awards subject to vesting conditions similar to those applicable to restricted stock awards. Participants have no voting rights or rights to receive cash dividends with respect to restricted stock unit awards until shares of common stock are issued in settlement of such awards. However, the Compensation Committee may grant restricted stock units that entitle their holders to receive dividend equivalents, which are rights to receive additional restricted stock units for a number of shares whose value is equal to any cash dividends we pay.

Performance Awards

The Compensation Committee may grant performance awards subject to such conditions and the attainment of such performance goals over such periods as the Compensation Committee determines in writing and sets forth in a written agreement between us and the participant. These awards may be designated as performance shares or performance units. Performance shares and performance units are unfunded bookkeeping entries generally having initial values, respectively, equal to the fair market value determined on the grant date of a share of common stock and a dollar amount per unit which may be determined by the Compensation Committee. Performance awards will specify a predetermined amount of performance shares or performance units that may be earned by the participant to the extent that one or more predetermined performance goals are attained within a predetermined performance period. To the extent earned, performance awards may be settled in cash, shares of common stock (including shares of restricted stock) or any combination thereof.

Unless otherwise provided by the Compensation Committee, if a participant's service terminates due to the participant's death, disability or retirement prior to completion of the applicable performance period, the final award value will be determined at the end of the performance period on the basis of the performance goals attained during the entire performance period but will be prorated for the number of months of the participant's service during the performance period. If a participant's service terminates prior to completion of the applicable performance period for any other reason, the 2005 Plan provides that, unless otherwise determined by the Compensation Committee, the performance award will be forfeited. No performance award may be sold or transferred other than by will or the laws of descent and distribution prior to the end of the applicable performance period.

Deferred Stock Awards

The 2005 Plan provides that certain participants who are executives or members of a select group of highly compensated employees may elect to receive, in lieu of payment in cash or stock of all or any portion of such participant's cash and/or stock compensation, an award of deferred stock units. A participant electing to receive deferred stock units will be granted automatically, on the effective date of such deferral election, an award for a number of stock units equal to the amount of the deferred compensation divided by an amount equal to the fair market value of a share of our common stock as quoted by the national or regional securities exchange or market system on which the common stock is listed on the date of grant. A stock unit is an unfunded bookkeeping entry representing a right to receive one share of our common stock in accordance with the terms and conditions of the deferred stock unit award. Participants are not required to pay any additional cash consideration in connection with the settlement of a deferred stock unit award. A participant's compensation not paid in the form of a deferred stock unit award will be paid in cash in accordance with our normal payment procedures.

Each deferred stock unit award will be evidenced by a written agreement between us and the participant specifying the number of stock units subject to the award and the other terms and conditions of the deferred stock unit award, consistent with the requirements of the 2005 Plan. Deferred stock unit awards are fully vested upon grant and will be settled by distribution to the participant of a number of whole shares of common stock equal to the number of stock units subject to the award on a date set forth in the participant's written agreement in accordance with the terms of the 2005 Plan at the time of his or her election to receive the deferred stock unit award. A holder of stock unit has no voting rights or other rights as a stockholder until shares of common stock are issued to the participant in settlement of the stock unit. However, participants holding stock units will be entitled to receive dividend equivalents with respect to any payment of cash dividends on an equivalent number of shares of common stock. Such dividend equivalents will be credited in the form of additional whole and fractional stock units determined by the fair market value of a share of common stock on the dividend payment date. Prior to settlement, no deferred stock unit award may be assigned or transferred other than by will or the laws of descent and distribution.

Other Stock-Based Awards

The Compensation Committee may also grant one or more awards not specifically identified by the terms of the 2005 Plan that would provide a participant with either: (i) a share of stock; (ii) the right to purchase a share of stock; (iii) a value derived from a share of stock; or (iv) an exercise or conversion privilege related to a share of stock. Other stock-based awards may be subject to vesting conditions based on such service or performance criteria as the Compensation Committee specifies, and any such award may not be transferred by the participant until vested.

Change in Control

The 2005 Plan defines a "Change in Control" as any of the following events upon which our stockholders immediately before the event do not retain immediately after the event, in substantially the same proportions as their ownership of shares of the company's voting stock immediately before the event, direct or indirect beneficial ownership of a majority of the total combined voting power of the voting securities of the company, its successor or the corporation

to which the assets of the company were transferred: (i) a sale or exchange by the stockholders in a single or series of related transactions of more than 50% of the company's voting stock; (ii) a merger or consolidation in which the company is a party; (iii) the sale, exchange or transfer of all or substantially all of the assets of the company; or (iv) a liquidation or dissolution of the company. If a Change in Control occurs, the surviving, continuing, successor or purchasing corporation or parent corporation thereof may either assume all outstanding awards or substitute new awards having an equivalent value.

In the event of a Change in Control and the outstanding stock options and stock appreciation rights are not assumed or replaced, then all unexercisable, unvested or unpaid portions of such outstanding awards will become immediately exercisable, vested and payable in full immediately prior to the date of the Change in Control.

Any award not assumed, replaced or exercised prior to the Change in Control will terminate. The 2005 Plan authorizes the Compensation Committee, in its discretion, to provide for different treatment of any award, as may be specified in such award's written agreement, which may provide for acceleration of the vesting or settlement of any award, or provide for longer periods of exercisability, upon a Change in Control.

Adjustments for Stock Dividends and Similar Events

The Compensation Committee will make appropriate adjustments in outstanding awards and the number of shares available for issuance under the 2005 Plan, including the individual limitations on awards, to reflect common stock dividends, stock splits and other similar events.

Section 162(m) of the Internal Revenue Code

Section 162(m) of the Internal Revenue Code, which we refer to as the Code, limits publicly-held companies such as us to an annual deduction for federal income tax purposes of \$1,000,000 for compensation paid to its chief executive officer, chief financial officer and the three most highly compensated executive officers (other than the chief executive officer and the chief financial officer) determined at the end of each year (the “covered employees”). However, performance-based compensation is excluded from this limitation. The 2005 Plan is designed to permit the Compensation Committee to grant awards that qualify as performance-based for purposes of satisfying the conditions of Section 162(m). To qualify as performance-based:

- the compensation must be paid solely on account of the attainment of one or more pre-established, objective performance goals;
- the performance goal under which compensation is paid must be established by a Compensation Committee comprising two or more directors who qualify as outside directors for purposes of the exception;
- the material terms under which the compensation is to be paid must be disclosed to and subsequently approved by stockholders of the corporation before payment is made in a separate vote; and
- the Compensation Committee must certify in writing before payment of the compensation that the performance goals and any other material terms were in fact satisfied.

In the case of compensation attributable to stock options and stock appreciation rights, the performance goal requirement (summarized above) is deemed satisfied, and the certification requirement (summarized above) is inapplicable, if the grant or award is made by the Compensation Committee; the plan under which the option or stock appreciation right is granted states the maximum number of shares with respect to which options and stock appreciation rights may be granted during a specified period to an employee; and under the terms of the option or stock appreciation rights, the amount of compensation is based solely on an increase in the value of the stock after the date of grant.

One or more of the following business criteria, on a consolidated basis, and/or with respect to specified subsidiaries or business units (except with respect to the total stockholder return and earnings per share criteria), are used by the Compensation Committee in establishing performance goals:

- revenue;
- gross margin;
- operating margin;
- operating income;
- pre-tax profit;

- earnings before interest, taxes, depreciation and amortization;
 - net income;
 - cash flow;
- the market price of our common stock;
 - earnings per share; and
 - return on stockholder equity.

Under the Section 162(m) of the Code, a director is an “outside director” if he or she is not a current employee of the corporation; is not a former employee who receives compensation for prior services (other than under a qualified retirement plan); has not been an officer of the corporation; and does not receive, directly or indirectly (including amounts paid to an entity that employs the director or in which the director has at least a five percent ownership interest), remuneration from the corporation in any capacity other than as a director.

In order to comply with Section 162(m) of the Code and ensure compensation attributable to awards under the 2005 Plan are performance based compensation, the maximum number of shares subject to stock options or stock appreciation rights that can be awarded under the 2005 Plan to any person is 200,000 per year. However, the company may also make a one-time additional grant of stock options or stock appreciation rights, in an additional amount of 100,000 shares, to any newly-hired person bringing such person’s first year maximum award to 300,000 shares. The maximum number of shares that can be awarded under the 2005 Plan to any person pursuant to restricted stock or restricted stock units is also 200,000 per year, which may also be increased by an additional 100,000 shares for the first year for any newly-hired person. The maximum number of shares that may be granted as performance shares to any person is 200,000 per fiscal year. The maximum amount that may be earned as a performance unit or an annual incentive award or other performance cash award in any fiscal year by any one person is \$1,000,000.

Federal Income Tax Consequences of the 2005 Plan

Incentive Stock Options

The grant of an option will not be a taxable event for the grantee or for us. A grantee will not recognize taxable income upon exercise of an incentive stock option, except that the alternative minimum tax may apply, and any gain realized upon a disposition of our common stock received pursuant to the exercise of an incentive stock option will be taxed as long-term capital gain if the grantee holds the shares for at least two years after the date of grant and for one year after the date of exercise (the “holding period requirement”). We will not be entitled to any business expense deduction with respect to the exercise of an incentive stock option, except as discussed below. For the exercise of an option to qualify for the foregoing tax treatment, the grantee generally must be our employee or an employee of one of our subsidiaries from the date the option is granted through a date within three months before the date of exercise of the option. In the case of a grantee who is disabled, the three-month period for exercise following termination of employment is extended to one year. In the case of a grantee who dies, both the time for exercising incentive stock options after termination of employment and the holding period for stock received through the exercise of the option are waived. If all of the foregoing requirements are met except the holding period requirement mentioned above, the grantee will recognize ordinary income upon the disposition of the common stock in an amount generally equal to the excess of the fair market value of the common stock at the time the option was exercised over the option exercise price (but not in excess of the gain realized on the sale). The balance of the realized gain, if any, will be capital gain. We will be allowed a business expense deduction to the extent the grantee recognizes ordinary income, subject to our compliance with Section 162(m) of the Code.

In the event an incentive stock option is amended in certain respects, such option may be considered deferred compensation and subject to the rules of Section 409A of the Code. An option subject to Section 409A of the Code which fails to comply with the rules of Section 409A can result in the acceleration of income recognition, an additional 20% tax obligation, plus potential penalties and interest. In addition, the amendment of an incentive stock option may convert the option from an incentive stock option to a nonqualified stock option.

Non-Qualified Options

The grant of an option will not be a taxable event for the grantee or us. Upon exercising a non-qualified option, a grantee will recognize ordinary income in an amount equal to the difference between the exercise price and the fair market value of the common stock on the date of exercise. Upon a subsequent sale or exchange of shares acquired pursuant to the exercise of a non-qualified option, the grantee will have taxable gain or loss, measured by the difference between the amount realized on the disposition and the tax basis of the shares (generally, the amount paid for the shares plus the amount treated as ordinary income at the time the option was exercised). If we comply with the restrictions of Section 162(m) of the Code, we will be entitled to a business expense deduction in the same amount and generally at the same time as the grantee recognizes ordinary income.

A grantee who has transferred a non-qualified stock option to a family member by gift will realize taxable income at the time the non-qualified stock option is exercised by the family member. The grantee will be subject to withholding of income and employment taxes at that time. The family member's tax basis in the shares of common stock will be the fair market value of the shares of common stock on the date the option is exercised. The transfer of vested non-qualified stock options will be treated as a completed gift for gift and estate tax purposes. Once the gift is completed, neither the transferred options nor the shares acquired on exercise of the transferred options will be includable in the grantee's estate for estate tax purposes.

Absent special limitations on exercisability, in the event a nonqualified stock option is granted with an exercise price that is below fair market value or is amended in certain respects, such option may be considered deferred compensation and subject to the rules of Section 409A of the Code, which provides rules regarding the timing of payment of deferred compensation. An option subject to Section 409A of the Code which fails to comply with the rules of Section 409A can result in the acceleration of income recognition, an additional 20% tax obligation, plus potential penalties and interest.

Restricted Stock

A grantee who is awarded restricted stock will not recognize any taxable income for federal income tax purposes in the year of the award, provided that the shares of common stock are subject to restrictions (that is, the restricted stock is nontransferable and subject to a substantial risk of forfeiture). However, the grantee may elect under Section 83(b) of the Code to recognize compensation income in the year of the award in an amount equal to the fair market value of the common stock on the date of the award, determined without regard to the restrictions. If the grantee does not make such a Section 83(b) election, the fair market value of the common stock on the date the restrictions lapse will be treated as compensation income to the grantee and will be taxable in the year the restrictions lapse. If we comply with the restrictions of Section 162(m) of the Code, we will be entitled to a deduction for compensation paid in the same amount treated as compensation income to the grantee in the year the grantee is taxed on the income.

Deferred Common Stock

There are no immediate tax consequences of receiving an award of deferred common stock under the 2005 Plan. A grantee who is awarded deferred common stock will be required to recognize ordinary income in an amount equal to the fair market value of shares issued to such grantee at the distribution date(s) under the deferral election, reduced by the amount, if any, paid for such shares. If we comply with the restrictions of Section 162(m) of the Code, we will be entitled to a deduction for compensation paid in the same amount treated as compensation income to the grantee in the year the grantee is taxed on the income.

Deferred common stock can be considered non-qualified deferred compensation and subject to Section 409A of the Code. A grant of a deferred common stock that does not meet the requirements of Section 409A of the Code can result in the acceleration of income recognition, an additional 20% tax obligation, plus penalties and interest.

Restricted Stock Units

There are no immediate tax consequences of receiving an award of restricted common stock units under the 2005 Plan. A grantee who is awarded restricted common stock units will be required to recognize ordinary income in an amount equal to the fair market value of shares issued to such grantee at the end of the restriction period or, if later, the payment date. If we comply with the restrictions of Section 162(m) of the Code, we will be entitled to a deduction for compensation paid in the same amount treated as compensation income to the grantee in the year the grantee is taxed on the income.

Stock Appreciation Rights

There are no immediate tax consequences of receiving an award of stock appreciation rights under the 2005 Plan. Upon exercising a stock appreciation right, a grantee will recognize ordinary income in an amount equal to the difference between the exercise price and the fair market value of the common stock on the date of exercise. If we comply with the restrictions of Section 162(m) of the Code, we will be entitled to a business expense deduction in the same amount and generally at the same time as the grantee recognizes ordinary income.

A stock appreciation right can be considered non-qualified deferred compensation and subject to Section 409A of the Code. A stock appreciation right that does not meet the requirements of Section 409A of the Code can result in the acceleration of income recognition, an additional 20% tax obligation, plus penalties and interest.

Performance Stock Awards

There are no immediate tax consequences of receiving an award of performance shares under the 2005 Plan. A grantee who is awarded performance shares will be required to recognize ordinary income in an amount equal to the fair market value of shares issued to such grantee pursuant to the award, reduced by the amount, if any, paid for such shares. If we comply with the restrictions of Section 162(m) of the Code, we will be entitled to a deduction for compensation paid in the same amount treated as compensation income to the grantee in the year the grantee is taxed on the income. Upon a grantee's disposition of performance shares, any gain realized in excess of the amount reported as ordinary income will be reportable by the grantee as a capital gain, and any loss will be reportable as a capital loss. Capital gain or loss will be long-term if the grantee has held the shares for at least one year. Otherwise, the capital gain or loss will be short-term.

Performance stock awards can be considered non-qualified deferred compensation and subject to Section 409A of the Code. A grant of a performance stock award that does not meet the requirements of Section 409A of the Code can result in the acceleration of income recognition, an additional 20% tax obligation, plus penalties and interest.

Performance and Annual Incentive Awards

The award of a performance or annual incentive award will have no federal income tax consequences for us or for the grantee. The payment of the award is taxable to a grantee as ordinary income. If we comply with the restrictions of Section 162(m) of the Code, we will be entitled to a business expense deduction in the same amount and generally at the same time as the grantee recognizes ordinary income.

Performance and annual incentive awards can be considered non-qualified deferred compensation and subject to Section 409A of the Code. A grant of a performance or annual incentive award that does not meet the requirements of Section 409A of the Code can result in the acceleration of income recognition, an additional 20% tax obligation, plus penalties and interest.

Amended 2005 Plan Benefits

Restricted stock units or other awards granted to our employees, including our executive officers, under the 2005 Plan from the 1,250,000 share reserve increase will be granted at the discretion of the Compensation Committee, and, accordingly, are not yet determinable. If stockholder approval of the amendment is obtained, the Company will grant annual restricted stock unit awards to each non-employee director as provided under the 2005 Plan. If stockholder approval of this amendment is not obtained, the awards made to our employees, executive officers and non-employee directors in January 2010 will be cancelled and forfeited on a pro rata basis, to the extent such grants exceeded the shares authorized for grant under the 2005 Plan, in the amounts set forth in the table below, and we will not be able to issue future awards under the 2005 Plan to any of our employees, executive officers or non-employee directors. Benefits under the 2005 Plan from the 1,250,000 share reserve increase will depend on a number of factors, including the fair market value of our common stock on future dates, actual performance against performance goals established with respect to performance awards and decisions made by the participants. Consequently, other than as provided above, it is not possible to determine the benefits that might be received by participants under the 2005 Plan.

The following table sets forth information with respect to (i) restricted stock units granted under the 2005 Plan during fiscal 2009 and (ii) restricted stock units awarded under the 2005 Plan during fiscal 2010, through March 5, 2010 (unless stockholder approval is not obtained, in which case the awards to our employees, executive officers and non-employee directors will be cancelled and forfeited on a pro rata basis in the amounts set forth below).

PROPOSAL 4
APPROVAL OF AMENDMENT TO THE KRATOS DEFENSE & SECURITY SOLUTIONS, INC.
1999 EMPLOYEE STOCK PURCHASE PLAN TO INCREASE THE AGGREGATE NUMBER OF
SHARES THAT MAY BE ISSUED UNDER THE PLAN BY 625,000 SHARES

At the Annual Meeting, the stockholders will be asked to approve an amendment to the Kratos Defense & Security Solutions, Inc. 1999 Employee Stock Purchase Plan (the "Purchase Plan") to increase the maximum number of shares of common stock that may be issued under the Purchase Plan by 625,000 shares. Our stockholders have previously approved the reservation of 435,000 shares of our common stock for purchase by employees under the Purchase Plan. As of March 16, 2010, a total of 71,861 shares remain available for future purchases, without giving effect to the proposed amendment.

Our Board of Directors believes that the Purchase Plan benefits us and our stockholders by providing our employees with an opportunity to purchase shares of common stock through payroll deductions, which helps to attract, retain and motivate valued employees. To provide a reasonable reserve of shares to permit us to continue offering this opportunity to our employees, the Board of Directors has adopted, subject to stockholder approval, an amendment to increase the number of shares of common stock remaining reserved for issuance under the Purchase Plan by 625,000 shares.

Employees who actively participate in the Purchase Plan may have up to 15% of their earnings for the period withheld pursuant to the Purchase Plan. The amount withheld is used at various purchase dates within the offering period to purchase shares of our common stock. The price paid for common stock at each such purchase date equals the lower of 85% of the fair market value of the common stock at the commencement date of that offering period or 85% of the fair market value of the common stock on the relevant purchase date. Employees may end their participation in the offering at any time during the offering period, and participation ends automatically upon termination of employment.

Summary of the Purchase Plan

The following summary is qualified in its entirety by the specific language of the Purchase Plan, a copy of which is available to any stockholder upon request.

General. At the beginning of each offering under the Purchase Plan (each, an "Offering"), each participant in the Purchase Plan is granted the right to purchase, through accumulated payroll deductions, up to a number of shares of our common stock determined on the first day of the Offering (a "Purchase Right"). The Purchase Right is automatically exercised on each purchase date during the Offering unless the participant has withdrawn from participation in the Purchase Plan prior to such date. The Purchase Plan is intended to qualify as an "employee stock purchase plan" under section 423 of the Internal Revenue Code.

Authorized Shares. Currently, a maximum of 71,861 authorized but unissued or reacquired shares of common stock remain available for issuance under the Purchase Plan, subject to appropriate adjustment in the event of any stock dividend, stock split, reverse stock split, recapitalization or similar change in our capital structure, or in the event of any merger, sale of assets or other reorganization. If any Purchase Right expires or terminates, the shares subject to the unexercised portion of such Purchase Right will again be available for issuance under the Purchase Plan.

Administration. The Purchase Plan is administered by the Board of Directors or a committee of the Board. (For purposes of this discussion, the term "Board" refers to either the Board of Directors or such committee.) Subject to the provisions of the Purchase Plan, the Board determines the terms and conditions of Purchase Rights granted under the plan. The Board has the authority to interpret the Purchase Plan and Purchase Rights granted thereunder, and any such

interpretation of the Board will be binding.

Eligibility. Any employee of the company or any parent or subsidiary of the company designated by the Board for inclusion in the Purchase Plan is eligible to participate in an Offering under the plan so long as the employee is customarily employed for at least 20 hours per week and more than five months in any calendar year. As of March 15, 2010, approximately 1,537 employees, including all executive officers, were eligible to participate in the Purchase Plan.

Offerings. Generally, each Offering under the Purchase Plan extends for a period of six months (the "Offering Period"). New Offering Periods begin every six months (an "Offering Date") and do not overlap. Offering Periods generally commence on January 1 and July 1 of each year. Shares are purchased on the last day of each purchase period. The Board may establish a different term for any Offering (not to exceed 27 months) or purchase period or different commencement or ending dates for an Offering or a purchase period.

Participation and Purchase of Shares. Participation in an Offering under the Purchase Plan is limited to eligible employees who authorize payroll deductions prior to the first day of an Offering Period. Payroll deductions may not exceed fifteen 15% percent of an employee's earnings on any payday during the Offering Period, provided that the Board may establish a different limit from time to time. An employee who becomes a participant in the Purchase Plan will automatically participate in each Offering beginning immediately after the last day of the Offering Period in which he or she is a participant until the employee withdraws from the Purchase Plan, becomes ineligible to participate, or terminates employment.

Subject to any uniform limitations or notice requirements imposed by the company, a participant may increase or decrease his or her rate of payroll deductions or withdraw from the Purchase Plan at any time during an Offering. Upon withdrawal, the company will refund without interest the participant's accumulated payroll deductions not previously applied to the purchase of shares. Once a participant withdraws from an Offering, that participant may not again participate in the same Offering at any later time. If the fair market value of a share of common stock on the Offering Date of the current Offering in which employees are participating is greater than such fair market value on the Offering Date of a new Offering, then, unless a participant elects otherwise, each participant will be automatically withdrawn from the current Offering after purchasing shares and enrolled in the new Offering.

On each Purchase Date, we issue to each participant in the Offering the number of shares of our common stock equal to the amount of payroll deductions accumulated for the participant during the Purchase Period divided by the purchase price, limited in any case by the number of shares subject to the participant's Purchase Right for that Offering. The price at which shares are sold under the Purchase Plan is established by the Board but may not be less than 85% of the lesser of the fair market value per share of common stock on the Offering Date or on the Purchase Date. The fair market value of the common stock on any relevant date generally will be the closing price per share as reported on the NASDAQ Global Select Market. On March 5, 2010, the closing price of our common stock as reported on the NASDAQ Global Select Market was \$14.00 per share. Any payroll deductions under the Purchase Plan not applied to the purchase of shares will be returned to the participant without interest, unless the amount remaining is less than the amount necessary to purchase a whole share of common stock, in which case the remaining amount may be applied to the next Purchase Period.

Termination or Amendment. The Purchase Plan will continue until terminated by the Board or until all of the shares reserved for issuance under the plan have been issued. The Board may amend or terminate the Purchase Plan at any time, except that the approval of our stockholders is required within 12 months of the adoption of any amendment increasing the number of shares authorized for issuance under the Purchase Plan, or changing the categories of corporations that may be designated by the Board as corporations whose employees may participate in the Purchase Plan.

Shares Purchased by Certain Persons

The aggregate numbers of shares of common stock purchased by our named executive officers under the Purchase Plan from its inception through March 5, 2010 are as follows:

	Shares of Common Stock Purchased under Purchase Plan
Named Executive Officer and Position	
Eric M. DeMarco, President and Chief Executive Officer	2,578
Deanna Lund, Executive Vice President and Chief Financial Officer	1,975
Laura Siegal, Vice President and Controller	44
Howard Bates, (Former) President, Kratos Government Solutions	2,193
Benjamin Goodwin, President, Public Safety and Security.	0
All current executive officers as a group(1)	4,597
All current employees as a group (excluding executive officers)	98,124

(1) Does not include Mr. Bates, as his employment with us terminated on December 31, 2009.

None of our directors who are not executive officers are eligible to participate in the Purchase Plan. Since its inception, no shares have been issued under the Purchase Plan to any other nominee for election as a director, or any associate of any such director, nominee or executive officer, and no other person has been issued five percent or more of the total amount of shares issued under the Purchase Plan.

Summary of U.S. Federal Income Tax Consequences

The following summary is intended only as a general guide as to the U.S. federal income tax consequences of participation in the Purchase Plan and does not attempt to describe all possible federal or other tax consequences of such participation or tax consequences based on particular circumstances.

Generally, there are no tax consequences to an employee of either becoming a participant in the Purchase Plan or purchasing shares under the Purchase Plan. The tax consequences of a disposition of shares vary depending on the period such stock is held before its disposition. If a participant disposes of shares within two years after the Offering Date or within one year after the Purchase Date on which the shares are acquired (such disposition being referred to as a “disqualifying disposition”), the participant recognizes ordinary income in the year of disposition in an amount equal to the difference between the fair market value of the shares on the Purchase Date and the purchase price. Such income may be subject to tax withholding by the employer. Any additional gain or any loss recognized by the participant resulting from the disposition of the shares is a capital gain or loss. If the participant disposes of shares at least two years after the Offering Date and at least one year after the Purchase Date on which the shares are acquired, the participant recognizes ordinary income in the year of disposition in an amount equal to the lesser of (i) the difference between the fair market value of the shares on the date of disposition and the purchase price or (ii) the difference between the fair market value of the shares on the Offering Date and the purchase price (determined as if the Purchase Right were exercised on the Offering Date). Any additional gain recognized by the participant on the disposition of the shares is a capital gain. If the fair market value of the shares on the date of disposition is less than the purchase price, there is no ordinary income, and the loss recognized is a capital loss. If the participant still owns the shares at the time of his or her death, the lesser of (i) the difference between the fair market value of the shares on the date of death and the purchase price or (ii) the difference between the fair market value of the shares on the Offering Date and the purchase price (determined as if the Purchase Right were exercised on the Offering Date) is

recognized as ordinary income in the year of the participant's death.

If the participant disposes of the shares in a disqualifying disposition, we should be entitled to a deduction equal to the amount of ordinary income recognized by the participant as a result of the disposition, except to the extent such deduction is limited by applicable provisions of the Internal Revenue Code.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

Our Board of Directors has adopted corporate governance guidelines to assist it in the exercise of its responsibilities and to serve the interests of the Company and our stockholders. The corporate governance guidelines are available for review on our website at www.kratosdefense.com.

Director Independence

Our Board of Directors has unanimously determined that four of our directors standing for election, Messrs. Anderson, Carano, Hoglund and Jarvis, who constitute a majority of the Board, are “independent” directors as that term is defined by Nasdaq Marketplace Rule 5605(a)(2). In making this determination, the Board has affirmatively determined, considering broadly all relevant facts and circumstances regarding each independent director, that none of the independent directors has a material relationship with us (either directly or as a partner, stockholder, officer or affiliate of an organization that has a relationship with us). In addition, based upon such standards, the Board determined that Mr. DeMarco is not “independent” because he is our President and Chief Executive Officer and Mr. Liberatore is not “independent” because of his employment with Kratos in the prior three years.

Nominations for Directors

The Nominating and Corporate Governance Committee is responsible for screening potential director candidates and recommending qualified candidates to the Board for nomination. The committee will consider and evaluate any recommendation for director nominees proposed by a stockholder who (i) has continuously held at least 1% of the outstanding shares of our common stock entitled to vote at the annual meeting of stockholders for at least one year by the date the stockholder makes the recommendation and (ii) undertakes to continue to hold the common stock through the date of the meeting. In order to be evaluated in connection with our established procedures for evaluating potential director nominees, any recommendation for director nominee submitted by a qualifying stockholder must be received by us no later than 120 days prior to the anniversary of the date proxy statements were mailed to stockholders in connection with the prior year’s annual meeting of stockholders. Any stockholder recommendation for director nominee must be submitted to the Corporate Secretary in writing at 4810 Eastgate Mall, San Diego, California 92121 and must contain the following information:

- A statement by the stockholder that he/she is the holder of at least 1% of Kratos’ common stock and that the stock has been held for at least a year prior to the date of the submission and that the stockholder will continue to hold the shares through the date of the annual meeting of stockholders;
 - The candidate’s name, age, contact information and current principal occupation or employment;
- A description of the candidate’s qualifications and business experience during, at a minimum, the last five years, including his/her principal occupation and employment and the name and principal business of any corporation or other organization in which the candidate was employed;
 - The candidate’s resume; and
 - Three references.

The goal of the Nominating and Corporate Governance Committee of our Board is to assemble a board of directors that brings a variety of perspectives and skills derived from high quality business and professional experience to Kratos. In doing so, the Nominating and Corporate Governance Committee also considers candidates with appropriate

non-business backgrounds.

Other than the foregoing, there are no stated minimum criteria for director nominees. However, the Nominating and Corporate Governance Committee may also consider such other factors as it may deem are in Kratos' best interests and that of our stockholders. The Nominating and Corporate Governance Committee does, however, recognize that under applicable regulatory requirements at least one member of our board of directors must meet the criteria for an "audit committee financial expert" as defined by SEC rules, and that at least a majority of the members of our board of directors must meet the definition of "independent director" under the NASDAQ Marketplace Rules or the listing standards of any other applicable self regulatory organization. The Nominating and Corporate Governance Committee also believes it to be appropriate for certain key members of our management to participate as members of our board of directors.

The Nominating and Corporate Governance Committee identifies nominees by first evaluating the current members of our Board willing to continue to serve. Current members of our Board with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of our Board with that of obtaining a new perspective. If any member of our Board does not wish to be considered for re-election at an upcoming annual meeting of stockholders, the Nominating and Corporate Governance Committee identifies the desired skills and experience of a new nominee in light of the criteria above. In such cases, all of the members of our Board are polled for suggestions as to individuals meeting the criteria for nomination to our Board. Research may also be performed to identify qualified individuals. If the Nominating and Corporate Governance Committee believes that our Board requires additional candidates for nomination, it may explore alternative sources for identifying additional candidates. This may include engaging, as appropriate, a third party search firm to assist in identifying qualified candidates.

All directors and director nominees are required to submit a completed form of directors' and officers' questionnaire as part of the nominating process. The process may also include interviews and additional background and reference checks for non-incumbent nominees, at the discretion of the Nominating and Corporate Governance Committee.

As stated in our Corporate Governance Guidelines, nominees for director are to be selected on the basis of, among other criteria, experience, knowledge, skills, expertise, integrity, diversity, ability to make analytical inquiries, understanding of or familiarity with our business, products or markets or similar business, products or markets, and willingness to devote adequate time and effort to Board responsibilities. The Committee may establish additional criteria and is responsible for assessing the appropriate balance of criteria required of Board members. Although we do not have a written policy with respect to Board diversity, the Nominating and Governance Committee and the Board believe that a diverse board leads to improved Company performance by encouraging new ideas, expanding the knowledge base available to management and fostering a boardroom culture that promotes innovation and vigorous deliberation.

Stockholder Communications with Directors

The Board has adopted a Stockholder Communications with Directors Policy. The Stockholder Communications with Directors Policy is available for review on our website at www.kratosdefense.com/about/governance.asp. Stockholders and other interested parties may communicate with one or more members of the Board or the non management directors as a group in writing by regular mail. Those who wish to send such communications may do so by addressing their communication to: Chairman of the Board or Board of Directors, c/o Corporate Secretary, Kratos Defense & Security Solutions, Inc., 4810 Eastgate Mall, San Diego, California, 92121.

The Board has instructed the Corporate Secretary to review all communications so received and to exercise his or her discretion not to forward to the Board correspondence that is inappropriate such as business solicitations, frivolous communications and advertising, routine business matters and personal grievances. However, any director may at any time request the Corporate Secretary to forward any and all communications received by the Corporate Secretary but

not forwarded to the directors.

Code of Ethics

Our Board has adopted a Code of Ethics that applies to all of our directors, officers and employees. The Code of Ethics is available for review on our website at www.kratosdefense.com/about/governance.asp, and is also available in print, without charge, to any stockholder who requests a copy by writing to us at Kratos Defense & Security Solutions, Inc., 4810 Eastgate Mall, San Diego, California, 92121, Attention: Investor Relations. Each of our directors, employees and officers, including our chief executive officer, chief financial officer and corporate controller, and all of our other principal executive officers, are required to comply with the Code of Ethics. There have not been any waivers of the Code of Ethics relating to any of our executive officers or directors in the past year.

Meetings and Committees of the Board

Our Board is responsible for overseeing the management of our business. We keep our directors informed of our business at meetings and through reports and analyses presented to the Board and the committees of the Board. Regular communications between our directors and management also occur apart from meetings of the Board and committees of the Board.

Meeting Attendance

Our Board normally meets quarterly, but may hold additional meetings as required. During fiscal year 2009, the Board held three regularly scheduled meetings and three special meetings and acted by unanimous written consent five times. Each of our directors attended at least 75% of the Board meetings he was eligible to attend; and with the exception of Mr. Carano, each director attended at least 75% of the aggregate of the total number of Board meetings and the total number of meetings of each committee of the Board on which he was serving. Four of our directors attended last year's annual meeting of stockholders.

Our Board of Directors has adopted a "Director Attendance at Annual Meeting Policy" which is available for review on our website at www.kratosdefense.com.

Committees of the Board of Directors

Our Board currently has three standing committees to facilitate and assist the Board in the execution of its responsibilities: the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee.

Audit Committee

Our Audit Committee consists of Messrs. Anderson (Chairperson), Hoglund and Jarvis. Our Board has affirmatively determined that each member of the Audit Committee is independent under Nasdaq Marketplace Rule 5605(a)(2), and meets all other qualifications under Nasdaq Marketplace Rule 5605(e), the Sarbanes-Oxley Act of 2002 and applicable rules of the Securities and Exchange Commission. Our Board has also affirmatively determined that Mr. Hoglund qualifies as an "audit committee financial expert" as such term is defined in Regulation S-K under the Securities Act of 1933. During 2009, the Audit Committee held three regular meetings and three special meetings.

The Audit Committee acts pursuant to a written charter, which is available for review on our website at www.kratosdefense.com/about/governance.asp. The responsibilities of the Audit Committee include overseeing, reviewing and evaluating our financial statements, accounting and financial reporting processes, internal control functions and the audits of our financial statements. The Audit Committee is also responsible for the appointment, compensation, retention, and as necessary, the termination of our independent auditors.

Compensation Committee

Our Compensation Committee consists of Messrs. Carano, Hogle and Jarvis (Chairperson). Our Board has affirmatively determined that each member of the Compensation Committee is independent as such term is defined under Nasdaq Marketplace Rule 5605(a)(2). During 2009, the Compensation Committee met three times. Our Board has adopted a charter for the Compensation Committee which is available for review on our website at www.kratosdefense.com/about/governance.asp. The Compensation Committee reviews and makes recommendations to our Board of Directors concerning the compensation and benefits of our executive officers, including the Chief Executive Officer, and directors, oversees the administration of our stock option and employee benefits plans, and reviews general policy relating to compensation and benefits.

Nominating and Corporate Governance Committee

On February 27, 2008, our Board established a Nominating and Corporate Governance Committee composed of Messrs. Carano (Chairperson), Hogle (Chairperson) and Jarvis. The Nominating and Corporate Governance Committee evaluates and recommends to the Board nominees for each election of directors. The Nominating and Corporate Governance Committee met three times in 2009. Our Board has adopted a charter for the Nominating and Corporate Governance Committee and a copy of that charter is available for review on our website at www.kratosdefense.com/about/governance.asp. The responsibilities of the Nominating and Corporate Governance Committee include making recommendations to the Board with respect to the nominations or elections of directors and providing oversight of our corporate governance policies and practices.

Board Leadership Structure

The Board believes that its current independent Board structure is best for our Company and provides good corporate governance and accountability. The Board does not have a fixed policy regarding the separation of the roles of the Chairman of the Board and the Chief Executive Officer because it believes the Board should be able to freely select the Chairman of the Board based on criteria that it deems to be in the best interests of the Company and its stockholders. The functions of the Board are carried out by the full Board, and when delegated, by the Board committees. Each director is a full and equal participant in the major strategic and policy decisions of our Company.

The Board believes that the current structure of a separate Chairman of the board and a separate Chief Executive Officer is the optimum structure for the Company at this time, taking into consideration Mr. DeMarco's active role in pursuing the Company's growth strategies through mergers and acquisitions.

Board Role in Risk Management

The risk oversight function of the Board is carried out by both the Board and the Audit Committee. As provided in its charter, the Audit Committee meets periodically with management to discuss our major financial and operating risk exposures and the steps, guidelines and policies taken or implemented relating to risk assessment and risk management. Matters of strategic risk are considered by the Board as a whole. Each quarter, our Director of Internal Audit reports directly to the Audit Committee on the activities of our internal audit function and at least annually our Vice President of Legal Affairs and Compliance reports direct to the Audit Committee on our ethics compliance program. Management also reports to the Audit Committee on legal, finance, accounting and tax matters at least quarterly. The Board is provided with reports on legal matters at least quarterly and on other matters related to risk oversight on an as needed basis.

Risks Related to Compensation Policies and Practices

The Compensation Committee has considered whether the Company's overall compensation program for employees in 2010 creates incentives for employees to take excessive or unreasonable risks that could materially harm the Company. We believe that several features of our compensation policies for management employees appropriately mitigate such risks, including a mix of long- and short-term compensation incentives that we believe is properly weighted, the uniformity of compensation policies across the Company, and the use of our 2010 business plan, which the Compensation Committee regards as setting an appropriate level of risk taking for the Company, as a baseline for our Annual Incentive Plan targets. We also believe the Company's internal legal and financial controls appropriately mitigate the probability and potential impact of an individual employee committing the Company to a harmful long-term business transaction in exchange for short-term compensation benefits.

Certain Relationships and Related Party Transactions

During fiscal year 2009, there were no transactions to which the Company was or is a party in which the amount involved exceeds \$120,000 and in which any director, officer or beneficial holder of more than 5% of any class of our voting securities or member of such person's immediate family had or will have a direct or indirect material interest.

Procedures for Approval of Related Party Transactions

Under its charter, the Audit Committee of our Board is charged with reviewing all potential related party transactions. Our policy has been that the Audit Committee, which is comprised solely of independent, disinterested directors, reviews and then recommends such related party transactions to the entire Board for further review and approval. All such related party transactions are then required to be reported under applicable SEC rules. Aside from this policy, we have not adopted additional procedures for review of, or standards for approval of, related party transactions, but instead review such transactions on a case-by-case basis.

Compensation Discussion and Analysis

Overview

This compensation discussion and analysis explains the material elements of the compensation awarded to, earned by, or paid to each of our executive officers who served as named executive officers during the last completed fiscal year. The named executive officers during the last completed fiscal year include Eric DeMarco, President and Chief Executive Officer; Deanna Lund, Executive Vice President and Chief Financial Officer; Laura Siegal, Vice President, Corporate Controller, Secretary, and Treasurer; Benjamin Goodwin, President, Public Safety and Security Segment; and Howard Bates, President, Kratos Government Solutions Segment, who served as an executive officer in 2009 until his departure from the Company effective December 31, 2009.

Compensation Program Objectives and Philosophy

The Compensation Committee of our Board, which we refer to in this section as the “Committee,” currently oversees the design and administration of the executive compensation program at Kratos. The Committee has adopted an executive compensation policy that has as its primary objective serving our stockholders by attracting, retaining and motivating talented and qualified individuals to manage and lead our business. The Committee’s primary objectives in structuring and administering the executive compensation policy are to:

- attract, motivate and retain talented and dedicated executive officers;
- tie annual and long-term cash and stock incentives to achievement of measurable corporate and individual performance objectives; and
- reward individual performance; and reinforce business strategies and objectives for enhanced stockholder value.

The Committee evaluates both performance and compensation of employees to ensure that we have the ability to attract and retain employees and that compensation provided to employees remains competitive relative to the compensation paid to similarly situated employees of peer companies. The Committee endeavors to ensure that the total compensation paid to our executive officers is fair, reasonable and competitive.

The principal elements of the current executive compensation program are base salary, annual incentive cash bonus awards, long-term equity incentives in the form of restricted stock units, other benefits and perquisites, post-termination severance and accelerated vesting of previously granted equity awards upon termination and/or a change in control. Other benefits and perquisites at Kratos consist of life and health insurance benefits and a qualified 401(k) savings plan equivalent to those offered to all employees.

The Committee views these components of compensation as related but distinct. Although the Committee does review total compensation, we do not believe that significant compensation derived from one component of compensation should negate or offset compensation from other components. We determine the appropriate level for each compensation component based in part, but not exclusively, on compensation for similar positions at peer companies, the Committee’s view of internal equity and consistency, and other considerations we deem relevant, such as rewarding extraordinary performance.

Determination of Compensation Awards

The Committee has historically performed, at least annually, a strategic review of our executive officers' compensation to determine whether we provide adequate incentives and motivation to our executive officers and whether we adequately compensate our executive officers relative to comparable officers in other similarly situated companies. The Committee's most recent review occurred in November 2009.

Committee meetings typically have included, for all or a portion of each meeting, not only the Committee members but also our Chief Executive Officer and Vice President of Human Resources. For compensation decisions relating to executive officers other than the Chief Executive Officer, the Committee typically considers recommendations from the Chief Executive Officer. When determining compensation for the Chief Executive Officer, the Committee takes into account, but does not rely solely upon, the recommendation of the Chief Executive Officer. Compensation for the Chief Executive Officer is determined by discussions among and action by the members of the Committee acting in consultation with the other independent members of the Board and market data obtained on behalf of the Committee. Neither the Company nor the Committee engaged a compensation consultant during fiscal 2009.

It is our policy generally to qualify compensation paid to executive officers for deductibility under Section 162(m) of the Internal Revenue Code. Section 162(m) generally prohibits the company from deducting the compensation of officers that exceeds \$1,000,000 unless that compensation is based on the achievement of objective performance goals. We believe that our 1999 and 2005 Equity Incentive Plans (the "Equity Plans") are structured to qualify the stock options, restricted shares and stock unit awards issued thereunder as performance-based compensation and to maximize the tax deductibility of such awards. However, we may at our discretion pay compensation to our officers that is non-deductible.

Base Compensation

We provide our named executive officers and other executives with base salaries that we believe enable us to hire and retain individuals in a competitive environment and to reward individual performance and contribution to our overall business goals, while taking into account the unique circumstances of our company. We review base salaries for our named executive officers annually and salary increases, if any, are based on the executive's success in contributing to our short-term and long-term objectives, as well as any unique challenges faced by us. We also take into account the base compensation paid by companies believed to be our competitors and by other public companies with which we believe we generally compete for key executives within our market and geographical region. The base salary of our Chief Executive Officer is reviewed and recommended by the Committee acting in consultation with the other independent members of our Board.

In November 2009, the Committee applied the above principles and decided to adjust certain of the executive officers' salaries commensurate with their various roles and responsibilities and applied the above principles in connection with their review of peer companies' executive compensation policies, taking into consideration the size and organizational structure of those peer companies. The Committee determined to increase Mr. DeMarco's base salary from \$440,000 to \$490,000, Ms. Lund's base salary from \$330,000 to \$350,000, Ms. Siegal's base salary from \$225,000 to \$236,000, and Mr. Goodwin's base salary from \$210,000 to \$218,000, all effective on March 29, 2010.

Retention Cash Bonus Awards

For fiscal 2009, Mr. DeMarco, Ms. Lund, and Ms. Siegal were eligible to receive cash retention awards under our retention cash bonus awards program (the “Retention Program”). In establishing the Retention Program, the Committee considered the continuing significant challenges faced by our corporate management team related to, among other things, (i) the refocusing of our business as a defense contractor and security systems integrator for the federal government and state and local agencies, (ii) ongoing matters relating to historical legal issues, (iii) the implementation of our growth strategy through acquisitions and related integration activities and (iv) ongoing securities litigation. The Committee also considered the critical importance of retaining Mr. DeMarco, Ms. Lund and Ms. Siegal to the Company and the multiple roles each of these executives performs for the Company. In particular, the Committee considered the fact that most comparable companies have much larger executive teams performing the functions allocated to Mr. DeMarco, Ms. Lund and Ms. Siegal. The Committee was influenced by the fact that Mr. DeMarco effectively performed the role of Chief Executive Officer, President and Chief Operating Officer and many of the functions typically handled by executives in charge of corporate development and strategy, mergers and acquisitions and investor relations at comparable companies. Similarly, Ms. Lund and Ms. Siegal performed functions typically assigned to a corporate treasurer, senior vice president of finance and planning and corporate risk manager at comparable companies. Further, the vacancy in our general counsel position required each of these executives to perform additional duties that increased their level of commitment and responsibility to our Company. Finally, the Committee acknowledged that each of these executives possessed vital institutional knowledge that could not be quickly or effectively replaced in the event that any of them were to resign, and as a result the Committee placed the highest priority on designing a retention bonus program that would motivate these executives to remain with the Company. The Committee determined in November 2008 that the Retention Program should be continued through 2009 in order to retain key executive officers through our ongoing and demanding transition period.

The cash awards under the Retention Program vested over the course of fiscal year 2009, with the last vesting date occurring on December 27, 2009, and were paid out in increments over this period and during the first quarter of 2010. These awards were offered based upon the significant critical contributions delivered prior to and during the transformation of the Company as well as expected future performance and contributions, including those in relation to addressing ongoing historical legal matters and continued growth of the Company within an aggressive time frame. Because the awards are based upon these critical contributions to the Company’s success, they are contingent upon continued employment through the vesting period. If the eligible executive officer’s employment were to have terminated during fiscal year 2009, the executive officer would have forfeited all subsequent payouts. The value of the award for each executive officer was determined at the recommendation of the chief executive officer based on an assessment of the retention risk for each eligible executive officer and such individual’s expected impact on the future success and growth of the Company and their roles in addressing the historical matters.

The Committee determined in November 2009 that these executive officers would be eligible to receive performance based awards under our annual cash bonus award program for 2010 and elected to discontinue the Retention Program in recognition of the successful conclusion of significant legacy issues and integration of acquired businesses.

The following table sets forth the awards and vesting periods for each of the named executive officers under the Retention Program.

Named Executive Officer	Vesting June 28,	Vesting September 27,	Vesting December 27,	Total Possible Payments
-------------------------	------------------	-----------------------	----------------------	-------------------------

	2009	2009	2009	
Eric DeMarco	\$ 220,000	\$ 110,000	\$ 220,000	\$ 550,000
Deanna Lund	123,750	61,875	123,750	309,375
Laura Siegal	50,625	25,312	50,625	126,563
Benjamin Goodwin (1)	—	—	—	—
Howard Bates (1)	—	—	—	—

(1) Mr. Bates and Mr. Goodwin were not eligible to participate in the Retention Program, as they were instead eligible to receive performance based awards under our annual cash bonus award program.

Annual Cash Bonus Awards

All employees are eligible for an annual cash bonus award based upon achievement or contributions to the Company. The executive officers who do not participate in the Retention Program and other key members of our management have the opportunity to receive incentive compensation in the form of annual discretionary bonuses of cash based upon the achievement of certain individual and company performance objectives during the fiscal year. Typically, target cash bonus awards are based upon a percentage of the executive's salary and range from 25% to 100% of the executive officer's salary. In determining the appropriate level of target bonus for each officer, the Committee considers the recommendation of the chief executive officer and other information collected from public sources for similar positions at peer companies. Under the bonus plan, a majority of each executive's target bonus amount is based on goals related to the Company's achievement of specific financial targets for the fiscal year, which typically include a combination of EBITDA, cash flow, revenues, and other key financial metrics of the business, while the remaining portion of the bonus is based on specific individualized operational objectives. In order to receive any award on the financial targets, a minimum threshold must be achieved. Once achieved, the executive would typically receive a pro rata percentage of his or her bonus target based on linear interpolation. Generally, the executive will not receive any of the company performance-based portion of the target bonus if the financial metrics fall below the minimum achievement threshold.

The Committee and/or our Chief Executive Officer retain wide discretion to interpret the terms of the cash bonus plan and to identify the extent to which an individual's performance objectives have been met in any particular fiscal year. The Committee and/or the Chief Executive Officer also retain the right to exclude extraordinary charges or other special circumstances in determining whether the objectives were met during any particular fiscal year and may decide to grant 100% of the targeted cash bonus award even if the financial targets do not fall within the specified range, based upon an evaluation of business conditions and industry trends. In addition, the Committee and/or Chief Executive Officer may approve cash bonuses outside of the cash bonus plan. For example, the Committee and/or Chief Executive Officer may approve bonus awards in connection with an executive officer's efforts and accomplishments with respect to our strategic initiatives and milestones, and such bonus awards may overlap with or be in addition to bonus awards under the cash bonus plan.

Mr. Bates, who served as President of our Government Solutions segment until December 2009, and Mr. Goodwin, who serves as President of our Public Safety and Security segment, were the only named executive officers eligible to participate in the above cash bonus award plan for fiscal year 2009. Under the plan, Mr. Bates was eligible to receive up to \$150,000, or 50% of his annual salary, if financial targets and individual performance goals were achieved, and up to an additional \$150,000, or 50% of his annual salary, if financial targets were exceeded; and Mr. Goodwin was eligible to receive up to a maximum of \$84,000, or 40% of his annual salary. They were each eligible to receive up to 25% of their annual target bonus amount if they achieved certain individualized performance goals including improvement in identifying, winning and retaining new business through implementation of better processes, achievement of consistently high customer satisfaction, aggressive management of overhead costs and utilization

rates, limitation of unallowable usage compared to budgets, improvement of voluntary retention, improvement of division proposal skills, and support of corporate initiatives, and 75% of their annual target bonus amount if we achieved certain financial targets such as reaching consolidated EBITDA goals, and each of their respective business segments achieving EBITDA, revenue, win rate, and cash collection goals. In January 2010, as part of Mr. Bates's separation agreement, Mr. Bates received cash payments equal to \$57,552, based on the estimated attainment of financial and individual objectives for 2009. In March 2010, under the cash bonus award plan for 2009, Mr. Goodwin received cash payments equal to \$18,000 based on meeting financial and individual objectives.

During fiscal year 2009, the Committee did not establish a cash bonus award plan for our named executive officers other than Messrs. Bates and Goodwin. Instead, the annual cash bonus awards for all other named executive officers were replaced for fiscal year 2009 with the cash awards under the Retention Program described in detail above. As a result, Mr. DeMarco, Ms. Lund and Ms. Siegal did not participate in our cash bonus award plan in 2009. As described above, the Committee has decided to discontinue the Retention Program for these executive officers in 2010 and to establish a cash bonus award plan based on the attainment of financial and individual objectives, similar to the award plans described for Messrs. Bates and Goodwin.

Equity Compensation

We believe that equity ownership by our executive officers provides important incentives for such officers to make decisions and take actions that maximize long-term stockholder value. The Committee develops its equity award determinations based on its judgments as to whether the complete compensation packages provided to our executives, including prior equity awards, provide sufficient incentives to build stockholder value and align the interests of our executive officers with those of our stockholders, and are sufficient to retain, motivate and adequately award each of our executives. This judgment is based in part on information provided by reviewing the equity compensation practices of companies believed to be our competitors and by other public companies with which we believe we generally compete for key executives.

We grant equity compensation to our executive officers and other employees under our Equity Plans. Most initial equity awards vest over a four-year period from the date of grant, with 25% vesting on the first anniversary of the date of grant and the balance vesting monthly over a three-year period. Subsequent equity awards to employees with over one year of service vest on a monthly basis over a four-year period. Our equity awards typically have a 10-year contractual term. In addition, as of April 1, 2008, our employees, including our executive officers, have been able to purchase shares of our Common Stock under our 1999 Employee Stock Purchase Plan.

The Committee reviews and approves all grants made to our officers under the Equity Plans and in connection with the initial hiring, promotions, extraordinary achievements or compensation adjustments. In addition to these factors, the size and timing of grants are generally subject to policies established by the Committee regarding the position of the grantee within our company, the overall number of options actually granted to the optionee in the past and the extent of vesting of prior grants. In general, the option grants are also subject to post-termination and change-in-control provisions. In January 2007, for various business reasons, we generally discontinued the use of stock options as a form of equity compensation and instead began to issue restricted stock units on a limited basis. No options were granted to executive officers during fiscal years 2007, 2008 or 2009.

Beginning in fiscal year 2007, the Board adopted a policy of equity ownership to our executive officers through restricted stock units. These restricted stock units vest at the earlier of (i) ten years from the date of grant, (ii) upon a change in control of the company, or (iii) upon termination of employment without cause. Consistent with its belief that equity ownership by executive officers provides important incentives to make decisions and take actions that maximize long-term stockholder value, on January 2, 2009, we granted restricted stock unit awards as follows:

Grantee Officer	No. Restricted Stock Unit Awards Granted
Eric DeMarco	30,000
Deanna Lund	20,000
Laura Siegal	5,000
Benjamin Goodwin	7,500
Howard Bates	20,000

In addition, on January 4, 2010, the Committee granted further restricted stock unit awards set forth in the table below (subject to the approval of the increase in the share reserve of our 2005 Plan, as described elsewhere in this Proxy Statement). Mr. DeMarco, Ms. Lund and Ms. Siegal vest fully at the earlier of (i) ten years from the date of grant, (ii) upon a change in control of the Company, or (iii) upon termination of employment without cause. Mr. Goodwin's

award vests annually over five years and vests fully (i) upon a change in control of the Company, or (ii) upon a separation from service not related to voluntary termination or termination for cause.

Grantee Officer	No. Restricted Stock Unit Awards Granted
Eric DeMarco	50,000
Deanna Lund	30,000
Laura Siegal	10,000
Benjamin Goodwin	12,500
Howard Bates	---

Executive Benefits and Perquisites

All of our executives are eligible to participate in our employee benefit plans, including medical, dental, life insurance and 401(k) plans. These plans are available to all benefit eligible employees on an equal basis. It is generally our policy not to extend significant perquisites to executives that are not available to employees generally. We have no current plans to make changes to levels of benefits and perquisites provided to executives.

Change in Control and Severance Benefits

Pursuant to employment agreements with Mr. DeMarco and Mr. Bates and severance and change in control agreements with Ms. Lund, Mr. Goodwin, and Ms. Siegal, we provide these officers the opportunity to receive additional compensation and benefits in the event of their termination or a change in control. Severance and change in control provisions are summarized below in the section headed “Employment Agreements; Potential Payments upon Termination or Change in Control.” The Committee’s analysis indicates that our severance and change in control provisions are consistent with the provisions and benefit levels of other companies disclosing such provisions as reported in public SEC filings. We believe that our severance and change in control arrangements with our executive officers are reasonable and within the range offered by peer companies.

COMPENSATION COMMITTEE REPORT(1)

The Compensation Committee reviews and approves our compensation programs on behalf of the Board. In fulfilling its oversight responsibilities, the Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Committee recommended to our Board that the Compensation Discussion and Analysis be included in our Annual Report on Form 10-K and this Proxy Statement.

Employment Agreements; Potential Payments Upon Termination or Change in Control

In addition to other compensation arrangements described elsewhere in this Proxy Statement, we have entered into agreements with four of our named executive officers as follows:

On November 14, 2003, we entered into an Executive Employment Agreement with Mr. DeMarco in connection with his duties as an executive of the company. The agreement was amended and restated on August 4, 2008. Among other things, the terms of the amended and restated agreement provide for Mr. DeMarco's compensation, eligibility to receive annual incentive awards and to participate in long-term incentive, employee benefit and retirement programs. In the event that Mr. DeMarco is terminated without cause, he will be entitled to a lump sum equal to three times the sum of his current base salary, plus three times his target bonus potential for the year, less any bonus already received for such year, vesting of all equity awards and participation for Mr. DeMarco and his dependents in our employee health care program for one year or, if earlier, until Mr. DeMarco procures health care coverage through another employer. Additionally, in the event that there is a change of control of the Company, Mr. DeMarco shall be entitled to accelerated vesting of 50% of all outstanding and unvested equity awards. Furthermore, Mr. DeMarco shall also be entitled to the severance compensation described above should Mr. DeMarco's employment be terminated as a result of such change in control. The vesting terms of Mr. DeMarco's restricted stock units are governed by the agreements under which each restricted stock unit was granted; and pursuant to such restricted stock unit agreements, Mr. DeMarco's unvested restricted stock units vest in the event of a termination of service without cause and a change in control. Assuming a change in control had occurred on December 27, 2009, this provision would have resulted in accelerated vesting of unvested equity awards valued at \$2,275,875.

If Mr. DeMarco had been terminated on December 27, 2009 without cause or in connection with a change in control, he would have received the following benefits under his employment agreement: (i) a lump sum payment of \$2,970,000, equal to three times his current base salary and three times his target bonus potential for the year, (ii) the accelerated vesting of his restricted stock unit awards with an aggregate market value on December 27, 2009 of \$2,275,875, (iii) continued participation by Mr. DeMarco and his family in the company's group health insurance benefits on the same terms as during his employment until the earlier of one year following his termination or procurement of health care coverage through another employer, provided that if the company's insurance carrier will not allow for such benefits continuation the company shall pay the premiums required to continue Mr. DeMarco's group health care coverage during the period under the applicable provisions of the Consolidated Omnibus Budget Reconciliation Act of 1985 ("COBRA"), with an aggregate annual cost of \$16,111.

Under Mr. DeMarco's agreement, a change in control is deemed to have occurred in the event of any one of the following occurrences: (i) the acquisition by an individual person or entity or a group of individuals or entities acting in concert, directly or indirectly, through one transaction or a series of related transaction, of more than 50% of the company's outstanding voting securities; (ii) a merger or consolidation of the company with or into another entity after which the company's stockholders immediately prior to such transaction hold less than 50% of the voting securities of the surviving entity; (iii) a sale of all or substantially all of the company's assets; or (iv) the change in the majority of the Board of Directors pursuant to a successful hostile proxy contest.

On March 28, 2005, we entered into a Severance and Change in Control Agreement with Ms. Lund, which was subsequently amended and restated on March 28, 2006. The agreement was further amended and restated on August 4, 2008. The terms of this amended and restated agreement provide that upon a change in control of the company, Ms. Lund shall be entitled to accelerated vesting of 50% of all of her outstanding and unvested stock options and any

applicable stock appreciation rights. Upon the one-year anniversary of a Change in Control or a Triggering Event (as defined below), whichever occurs first, all remaining unvested stock options and applicable stock appreciation rights shall be fully vested. Additionally, in the event of a termination without cause Ms. Lund shall be entitled to accelerated vesting of 100% of her outstanding and unvested stock options and any applicable stock appreciation rights.

The Severance and Change in Control Agreement also provides for severance payments to Ms. Lund as follows: (i) if Ms. Lund is terminated without cause, she is entitled to (A) severance compensation equal to one year of her base salary then in effect, (B) continuation of her then current health insurance coverage at the same cost to her as prior to termination for a period of one year following termination, and (C) the vesting of any then unvested stock options held by her or (ii) if she voluntarily resigns after a change in control as a result of a material change in the nature of her role or job responsibilities or the relocation of her principal place of work to a location more than 30 miles from her work location immediately prior to the change in control (each of which we refer to as a “Triggering Event”), she is entitled to: (A) severance compensation, equal to two years of her base salary then in effect, plus her maximum bonus amount for two years and (B) continuation of her then current health insurance coverage at the same cost to her as prior to termination for a period of two years following termination or resignation.

A “Change In Control” is deemed to have occurred in the event of (i) the acquisition by an individual person or entity or a group of individuals or entities acting in concert, directly or indirectly, through one transaction or a series of transactions, of more than 50% of the outstanding voting securities of the company; (ii) a merger or consolidation of the company with or into another entity after which the stockholders of the company immediately prior to such transaction hold less than 50% of the voting securities of the surviving entity; (iii) any action or event that results in the Board of Directors consisting of fewer than a majority of Incumbent Directors (“Incumbent Directors” refers to directors who either (A) are directors of the company as of the date of the Change in Control Agreements, or (B) are elected or nominated for election to the Board with the affirmative votes of at least a majority of the Incumbent Directors at the time of such election or nomination); or (iv) a sale of all or substantially all of the assets of the Company.

The vesting terms of Ms. Lund’s restricted stock units are governed by the agreements under which each restricted stock unit was granted; and pursuant to such restricted stock unit agreements, Ms. Lund’s unvested restricted stock units vest in the event of a termination of service without cause and a change in control. Assuming a change in control had occurred on December 27, 2009, this provision would have resulted in accelerated vesting of unvested equity awards valued at \$612,000.

Under her Severance and Change in Control Agreement, if Ms. Lund had been terminated without cause on December 27, 2009, she would have received the following benefits: (i) severance compensation equal to one year of her base salary then in effect, in the amount of \$330,000 and (ii) continuation of her then current health insurance coverage at the same cost to her as prior to her termination for a period of one year following termination with an aggregate annual cost of \$10,583, and the accelerated vesting of her restricted stock unit awards with an aggregate market value on December 27, 2009 of \$612,000. If Ms. Lund had voluntarily resigned on December 27, 2009 following a Triggering Event and a Change in Control she would have received the following benefits: (i) severance compensation equal to two years of her base salary and target bonus then in effect, in the amount of \$1,155,000 (ii) continuation of her then current health insurance coverage at the same cost to her as prior to her termination for a period of two years following termination totaling \$21,166, and (iii) the accelerated vesting of her restricted stock unit awards with an aggregate market value on December 27, 2009 of \$612,000.

On July 12, 2007, we entered into a Severance and Change in Control Agreement with Ms. Siegal, which was subsequently amended and restated on August 4, 2008, providing that, upon a change of control Ms. Siegal shall be entitled to (i) the immediate vesting of 50% of all stock options and any applicable stock appreciation rights granted to Ms. Siegal that remain unvested as of the date of the change in control and (ii) the vesting of the remaining stock options and stock appreciation rights on the earlier of the one year anniversary date of the change of control or the termination of, or resignation by, Ms. Siegal as a result of certain triggering events following the change in control.

In addition, if following a change of control Ms. Siegal is terminated without cause, Ms. Siegal shall be entitled to receive a severance payment equal to nine months of her base salary and, if needed, her then current health insurance coverage at the then current employee cost during the nine month period following such termination. If Ms. Siegal resigns from the Company as a result of certain triggering events following a change in control, Ms. Siegal is entitled to receive a severance payment equal to nine months of her base salary plus her maximum bonus amount for such nine month period and, if needed, her then current health insurance coverage at the then current employee cost during the nine month period following such resignation. Further, in the event that Ms. Siegal is terminated without cause, Ms. Siegal is entitled to the immediate vesting of 100% of all stock options and stock appreciation rights granted to Ms. Siegal as of the date of such termination.

The vesting terms of Ms. Siegal's restricted stock units are governed by the agreements under which each restricted stock unit was granted; and pursuant to such restricted stock unit agreements, Ms. Siegal's unvested restricted stock units vest in the event of a termination of service without cause and a change in control. Assuming a change in control had occurred on December 27, 2009, this provision would have resulted in accelerated vesting of unvested equity awards valued at \$142,800.

Under her Severance and Change in Control Agreement, if Ms. Siegal had been terminated without cause on December 27, 2009, she would have received the following benefits: (i) severance compensation equal to nine months of her base salary then in effect, in the amount of \$168,750, (ii) continuation of her then current health insurance coverage at the same cost to her as prior to her termination for a period of nine months following termination totaling \$1,474, and (iii) the accelerated vesting of her restricted stock unit awards with an aggregate market value on December 27, 2009 of \$142,800. If Ms. Siegal had voluntarily resigned on December 27, 2009 following a Triggering Event and a Change in Control she would have received the following benefits: (i) severance compensation equal to nine months of her base salary and target bonus then in effect in the amount of \$236,250 (ii) continuation of her then current health insurance coverage at the same cost to her as prior to her termination for a period of nine months following termination totaling \$1,474, and (iii) the accelerated vesting of her restricted stock unit awards with an aggregate market value on December 27, 2009 of \$142,800.

On December 31, 2007, we entered into an Employment Agreement with Mr. Bates. Among other things, the terms of the agreement provide for Mr. Bates' compensation, eligibility to receive annual incentive awards and to participate in long-term incentive, employee benefit and retirement programs. On December 31, 2009, we entered into a Separation Agreement and General Release (the "Release") with Mr. Bates. The Release provided for continuing salary and benefits payments to Mr. Bates during 2010, consistent with his existing employment agreement with the Company which the Company assumed when it acquired Haverstick in 2007.

Mr. Bates' Separation Agreement provides for a severance payment equal to (i) his base salary of \$300,000 through December 31, 2010, payable on a bi-weekly basis, (ii) continuation of premiums and benefits with respect to health, disability and welfare plans, with an annual aggregate cost of \$17,868, as though Mr. Bates had remained employed through December 31, 2010, and (iii) the accelerated vesting of his restricted stock unit awards, which had an aggregate market value on December 27, 2009 of \$280,500. All amounts noted above will be paid to Mr. Bates over 2010 on a bi-weekly basis.

On June 28, 2008, when we acquired SYS Technologies, we assumed an existing Employment Agreement between SYS Technologies and Mr. Goodwin, in connection with his duties as an executive of SYS Technologies. Among other things, the terms of the agreement provide for Mr. Goodwin's compensation, eligibility to receive incentive compensation and to participate in long-term incentive, employee benefit and retirement programs. Additionally, in the event that there is a termination of Mr. Goodwin's employment without cause, or in the event Mr. Goodwin terminates his employment with good reason because his position or duties have been modified by the Company to such an extent that his duties are substantially no longer consistent with the position for which he was employed, Mr. Goodwin shall be entitled to receive (A) severance compensation equal to one year of his base salary then in effect, and (B) continuation of his then current health insurance coverage at the same cost to him as prior to termination for a period of one year following termination. Pursuant to the agreement under which restricted stock units were granted to Mr. Goodwin, unvested restricted stock units held by him would vest upon a change in control or termination without cause. Assuming a change in control had occurred on December 27, 2009, this provision would have resulted in accelerated vesting of unvested equity awards valued at \$76,500. Under his Employment Agreement and restricted stock unit agreement, if Mr. Goodwin had been terminated without cause or terminated his employment with us for good reason on December 27, 2009, he would have received the following benefits: (i) severance compensation equal to one year of his base salary then in effect, in the amount of \$210,000 and (ii) continuation of his then current health insurance coverage at no cost to him for a period of one year following termination with an aggregate annual cost of \$10,583, and (iii) the accelerated vesting of his stock options awards and restricted stock unit awards with an aggregate market value on December 27, 2009 of \$76,500.

REPORT OF THE AUDIT COMMITTEE

As more fully described in its charter, the Audit Committee oversees our financial reporting process on behalf of our Board. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. Grant Thornton is responsible for performing an audit of our annual consolidated financial statements in accordance with generally accepted accounting principles (GAAP) and for issuing a report on those statements and expressing an opinion on the conformity of these audited financial statements. Grant Thornton also reviews our interim financial statements in accordance with Statement on Auditing Standards No. 100 (interim financial information). The Audit Committee oversees our financial reporting process and internal control structure on behalf of the Board. The Audit Committee met six times during 2009, including meeting regularly with Grant Thornton and our internal auditors, both privately and with management present.

In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed with management and Grant Thornton the audited and interim financial statements, including Management's Discussion and Analysis, included in the Company's Reports on Form 10-K and Form 10-Q. These reviews included a discussion of:

- our critical accounting policies;
- the reasonableness of significant financial reporting judgments made in connection with the financial statements, including the quality (and not just the acceptability) of our accounting principles;
 - the clarity and completeness of financial disclosures;
- the effectiveness of our internal control over financial reporting, including management's and Grant Thornton's reports thereon, the basis for the conclusions expressed in those reports and changes made to our internal control over financial reporting during 2009;
- items that could be accounted for using alternative treatments within GAAP, the ramifications thereof and the treatment preferred by Grant Thornton;
- the annual management letter issued by Grant Thornton, management's response thereto and other material written communications between management and Grant Thornton;
- unadjusted audit differences noted by Grant Thornton during its audit of our annual financial statements; and
 - the potential effects of regulatory and accounting initiatives on our financial statements.

In connection with its review of our annual consolidated financial statements, the Audit Committee also discussed with Grant Thornton other matters required to be discussed with the auditors under Statement on Auditing Standards No. 61, as modified or supplemented (communication with audit committees) and those addressed by Grant Thornton's written disclosures and its letter provided under Independence Standards Board Standard No. 1, as modified or supplemented (independence discussions with audit committees).

The Audit Committee is responsible for the engagement of the independent auditors and has appointed Grant Thornton to serve in that capacity since July 2005. In connection therewith, the Audit Committee:

- reviewed Grant Thornton's independence from the Company and management, including Grant Thornton's written disclosures described above;
- reviewed periodically the level of fees approved for payment to Grant Thornton and the pre-approved non-audit services it has provided to us to ensure their compatibility with Grant Thornton's independence; and
 - reviewed Grant Thornton's performance, qualifications and quality control procedures.

Among other matters, the Audit Committee also:

- reviewed the scope of and overall plans for the annual audit and the internal audit program;
- consulted with management and Grant Thornton with respect to our processes for risk assessment and risk management;
 - reviewed the adequacy of certain of our financial policies;
- reviewed and approved our policy with regard to the hiring of former employees of the independent auditors;
- reviewed and approved our policy for the pre-approval of audit and permitted non-audit services by the independent auditors;
- received reports pursuant to our policy for the submission and confidential treatment of communications from employees and others about accounting, internal controls and auditing matters;
- reviewed with management the scope and effectiveness of our disclosure controls and procedures, including for purposes of evaluating the accuracy and fair presentation of our financial statements in connection with certifications made by the Chief Executive Officer and Chief Financial Officer; and
- reviewed significant legal developments and our processes for monitoring compliance with law and Company policies.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board, and the Board approved, that the audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 27, 2009 for filing with the SEC. The Audit Committee also recommended, and the Board has approved, the selection of Grant Thornton as our independent auditors for 2010.

Respectfully submitted,

THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS
Scott Anderson, Chairperson
William Hogle
Scot Jarvis

This report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that we specifically incorporate this information by reference, and shall not otherwise be deemed filed under such acts.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as “householding,” potentially means extra convenience for stockholders and cost savings for companies.

This year, a number of brokers with account holders who are the Company’s stockholders will be “householding” our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that they will be “householding” communications to your address, “householding” will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in “householding” and would prefer to receive a separate proxy statement and annual report, please notify your broker, direct your written request to Kratos Defense & Security Solutions, Inc., c/o Corporate Secretary, 4810 Eastgate Mall, San Diego, California 92121 or call Investor Relations at (858) 812-7300. Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request “householding” of their communications should contact their brokers.

STOCKHOLDER PROPOSALS

Pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), stockholders may present proper proposals for inclusion in our proxy statement and for consideration at our next annual meeting of stockholders. To be eligible for inclusion in our 2011 proxy statement, a stockholder’s proposal must be received by us no later than December 2, 2010 and must otherwise comply with Rule 14a-8 under the Exchange Act.

Pursuant to the terms of our Bylaws, stockholders wishing to submit proposals or director nominations, including those that are not to be included in such proxy statement and proxy, must provide timely notice in writing to our Secretary. To be timely, a stockholder’s notice must be delivered to or mailed and received at our principal executive offices not less than 120 days prior to the date on which we first mailed our notice of the meeting for the previous year’s annual meeting of stockholders, or not later than the tenth day following the date on which we mail the notice of meeting for the current year if during the prior year we did not hold an annual meeting or if the date of the annual meeting was changed more than 30 days from the prior year, or in the event of a special meeting. Stockholders are advised to review our Bylaws, which contain additional requirements with respect to advance notice of stockholder proposals and director nominations.

While our board will consider proper stockholder proposals that are properly brought before the annual meeting, we reserve the right to omit from our 2011 proxy statement stockholder proposals that we are not required to include under the Exchange Act, including Rule 14a-8 thereunder.

ANNUAL REPORT

Our 2009 Annual Report on Form 10-K accompanies the proxy materials being provided to all stockholders. We will provide, without charge, additional copies of our 2009 Annual Report on Form 10-K upon the receipt of a written request by any stockholder.

OTHER MATTERS

The Board of Directors knows of no other matters that will be presented for consideration at our annual meeting. If any other matters are properly brought before the meeting, it is the intention of the persons named in the accompanying proxy to vote on such matters in accordance with their best judgment.

Directors
