Greene County Bancorp, Inc.

Notes to Consolidated Financial Statements

As of and for the Three Months Ended December 31, 2004 and 2003

(1) Basis of Presentation

The accompanying consolidated balance sheet information as of June 30, 2004 was derived from the audited consolidated financial statements of Greene County Bancorp, Inc. (the Company) and its wholly owned subsidiary, The Bank of Greene County (the Bank) and its subsidiary, Greene County Commercial Bank at June 30, 2004. The consolidated financial statements at and for the three and six months ended December 31, 2004 and 2003 are unaudited.

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-QSB and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. To the extent that information and footnotes required by GAAP for complete financial statements are contained in or are consistent with the audited financial statements incorporated by reference to Greene County Bancorp, Inc.'s Annual Report on Form 10-KSB for the year ended June 30, 2004, such information and footnotes have not been duplicated herein. In the opinion of management, all adjustments (consisting of only normal recurring items) necessary for a fair presentation of the financial position and results of operations and cash flows at and for the periods presented have been included. Amounts in the prior year's consolidated financial statements have been reclassified whenever necessary to conform to the current year's presentation. These reclassifications had no effect on net income or retained earnings as previously reported. All material inter-company accounts and transactions have been eliminated in the consolidation. The results of operations and other data for the six months ended December 31, 2004 are not necessarily indicative of results that may be expected for the entire fiscal year ending June 30, 2005.

CRITICAL ACCOUNTING POLICY

Greene County Bancorp, Inc.'s critical accounting policy relates to the allowance for loan losses (the Allowance). It is based on management's opinion of an amount that is intended to absorb losses in the existing portfolio. The allowance for loan losses is established through a provision for losses based on management's evaluation of the risk inherent in the loan portfolio, the composition of the portfolio, specific impaired loans and current economic conditions. Such evaluation, which includes a review of all loans for which full collectibility may not be reasonably assured, considers among other matters, the estimated net realizable value or the fair value of the underlying collateral, economic conditions, historical loan loss experience, management's estimate of probable credit losses and other factors that warrant recognition in providing for the allowance for loan losses. However, this evaluation involves a high degree of complexity and requires management to make subjective judgments that often require assumptions or estimates about highly uncertain matters. This critical accounting policy and its application are periodically reviewed with the Audit Committee and the Board of Directors.

While management uses available information to recognize losses on loans and (other real estate owned) OREO, future additions to the allowance, or OREO write-downs, may be necessary based on changes in economic conditions, asset quality or other factors. In addition, various regulatory authorities, as an integral part of their examination process, periodically review The Bank of Greene County's allowance and the carrying value of OREO and other assets. Such authorities may require The Bank of Greene County to recognize additions to the allowance and/or write down the carrying value of OREO or other assets based on their judgments of information available to them at the

time of their examination.

(2) Nature of Operations

The Bank of Greene County has six full-service offices and an operations center located in its market area consisting of Greene County and southern Albany County, New York. The Bank of Greene County is primarily engaged in the business of attracting deposits from the general public in The Bank of Greene County's market area, and investing such deposits, together with other sources of funds in loans and investment securities. During the quarter ended June 30, 2004, The Bank of Greene County opened a limited purpose commercial bank subsidiary the purpose of which is to serve local municipalities.

(3) Use of Estimates

(3) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses and valuation of other real estate owned (OREO).

(4) Earnings Per Share

(4) Earnings Per Share

Basic earnings per share (EPS) on common stock are computed by dividing net income by the weighted average number of shares of common stock outstanding for the period. Shares of restricted stock are not considered outstanding for the calculation of basic earnings per share until they become fully vested. Diluted earnings per share are computed in a manner similar to that of basic earnings per share except that the weighted average number of common shares outstanding is increased to include the number of incremental common shares that would have been outstanding under the treasury stock method if all potentially dilutive instruments (such as stock options and unvested restricted stock) became vested and (in the case of stock options) exercised during the period. Unallocated common shares held by the ESOP are not included in the weighted average number of common shares outstanding for either the basic or diluted earnings per share calculations.

	Net Income	Weighted Average Number of Shares Outstanding	Earnings Per Share
Six Months Ended			
December 31, 2004:	\$ 1,608,664		
Basic EPS		2,056,804	\$ 0.78
Diluted EPS		2,105,722	\$ 0.76
December 31, 2003:	\$ 1,441,648		
Basic EPS		2,001,796	\$ 0.72
Diluted EPS		2,058,837	\$ 0.70
Three Months Ended			
December 31, 2004:	\$ 804,144		

Basic EPS		2,058,693	\$	0.39
Diluted EPS		2,107,304	\$	0.38
December 31, 2003:				
	\$	754,336		
Basic EPS		2,003,134	\$	0.38
Diluted EPS		2,061,378	\$	0.37

(5) Dividends**(5) Dividends**

The Board of Directors declared a semi-annual \$0.42 per share cash dividend on July 21, 2004, for shareholders of record August 15, 2004, payable September 1, 2004. The dividend reflected an annual cash dividend rate of \$0.84 per share, which represented an increase from the previous annual cash dividend rate of \$0.80 per share. The increase in the dividend paid out was a result of improved earnings as well as the waiver of such dividends by Greene County Bancorp, MHC, the Company's mutual holding company.

(6) Impact of Inflation and Changing Prices

The consolidated financial statements of Greene County Bancorp, Inc. and notes thereto, presented elsewhere herein, have been prepared in accordance with U.S. generally accepted accounting principles, which require the measurement of financial position and operating results in terms of historical dollars without considering the change in the relative purchasing power of money over time and due to inflation. The impact of inflation is reflected in the increased cost of Greene County Bancorp, Inc.'s operations. Unlike most industrial companies, nearly all the assets and liabilities of Greene County Bancorp, Inc. are monetary. As a result, interest rates have a greater impact on Greene County Bancorp, Inc.'s performance than do the effects of general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the price of goods and services.

(7) Impact of Recent Accounting Pronouncements

In December 2004, the FASB issued SFAS No. 123(R), "Share-Based Payment" SFAS 123(R) amends SFAS No. 123, "Accounting for Stock-Based Compensation", and APB opinion 25, "Accounting for Stock Issued to Employees." SFAS No.123(R) requires that the cost of share-based payment transactions (including those with employees and non-employees) be recognized in the financial statements. SFAS No. 123(R) applies to all share-based payment transactions in which an entity acquires goods or services by issuing (or offering to issue) its shares, share options, or other equity instruments (except for those held by an ESOP) or by incurring liabilities (1) in amounts based (even in part) on the price of the entity's shares or other equity instruments, or (2) that require (or may require) settlement by the issuance of an entity's shares or other equity instruments. This statement is effective (1) for public companies qualifying as SEC small business issuers, as of the first interim period or fiscal year beginning after December 15, 2005, or (2) for all other public companies, as of the first interim period or fiscal year beginning after June 15, 2005, or (3) for all nonpublic entities, as of the first fiscal year beginning after December 15, 2005. Management is currently assessing the effect of SFAS 123(R) on the Company's financial statements.

(8) Stock-Based Compensation

At December 31, 2004, Greene County Bancorp, Inc. had two stock-based compensation plans, which are described more fully in Note 9 of the financial statements and notes thereto for the year ended June 30, 2004. SFAS No. 123, *Accounting for Stock-Based Compensation*, requires the measurement of the fair value of stock options or warrants granted to employees to be included in the statement of operations or, alternatively, disclosed in the notes to consolidated financial statements. The Company accounts for stock-based compensation of employees under the intrinsic value method of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations and has elected the disclosure-only alternative under SFAS No. 123. No stock-based compensation cost is reflected in net income, as all options granted under the plans had an exercise price

equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and earnings per share as if the Company had applied the fair value recognition provisions of FASB Statement No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation.

The fair value of each option grant has been estimated using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants in all periods presented: dividend yield of 3.0%, expected volatility of 29.54%, risk free interest rate of 4.78%, and expected term of 5 years.

(9) Subsequent Event

On January 19, 2005, the Board of Directors declared a semi-annual cash dividend of \$0.44 per share of the Company's common stock. The dividend reflects an annual cash dividend rate of \$0.88 cents per share, which represented an increase from the current annual cash dividend rate of \$0.84 per share. The dividend will be payable to stockholders of record as of February 15, 2005, and will be paid on March 1, 2005. The Company's mutual holding company has waived receipt of the cash dividend.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Overview of the Company's Activities and Risks

Greene County Bancorp, Inc.'s results of operations depend primarily on its net interest income, which is the difference between the income earned on Greene County Bancorp, Inc.'s loan and securities portfolios and its cost of funds, consisting of the interest paid on deposits and borrowings. Results of operations are also affected by Greene County Bancorp, Inc.'s provision for loan losses, income and expense pertaining to other real estate owned, gains and losses from sales of securities, noninterest income and noninterest expense. Noninterest income consists primarily of fees and service charges. Greene County Bancorp, Inc.'s noninterest expense consists principally of compensation and employee benefits, occupancy, equipment and data processing, and other operating expenses. Results of operations are also significantly affected by general economic and competitive conditions, changes in interest rates, as well as government policies and actions of regulatory authorities. Additionally, future changes in applicable law, regulations

or government policies may materially affect Greene County Bancorp, Inc.

To operate successfully, the Company must manage various types of risk, including but not limited to, market or interest rate risk, credit risk, transaction risk, liquidity risk, security risk, strategic risk, reputation risk and compliance risk. While all of these risks are important, the risks of greatest significance to the Company relate to market or interest rate risk and credit risk.

Market risk is the risk of loss from adverse changes in market prices and/or interest rate. Since net interest income (the difference between interest earned on loans and investments and interest paid on deposits and borrowings) is the Company's primary source of revenue, interest rate risk is the most significant non-credit related market risk to which the Company is exposed. Net interest income is affected by changes in interest rates as well as fluctuations in the level and duration of the Company's assets and liabilities.

Interest rate risk is the exposure of the Company's net interest income to adverse movements in interest rates. In addition to directly impacting net interest income, changes in interest rates can also affect the amount of new loan originations, the ability of borrowers and debt issuers to repay loans and debt securities, the volume of loan repayments and refinancings, and the flow and mix of deposits.

Credit risk is the risk to the Company's earnings and stockholder's equity that results from customers, to whom loans have been made and to the issuers of debt securities in which the Company has invested, failing to repay their obligations. The magnitude of risk depends on the capacity and willingness of borrowers and debt issuers to repay and the sufficiency of the value of collateral obtained to secure the loans made or investments purchased.

Special Note Regarding Forward Looking Statements

This quarterly report contains forward-looking statements. Greene County Bancorp, Inc. desires to take advantage of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and is including this statement for the express purpose of availing itself of the protections of the safe harbor with respect to all such forward-looking statements. These forward-looking statements, which are included in this Management's Discussion and Analysis and elsewhere in this quarterly report, describe future plans or strategies and include Greene County Bancorp, Inc.'s expectations of future financial results. The words "believe," "expect," "anticipate," "project," and similar expressions identify forward-looking statements. Greene County Bancorp, Inc.'s ability to predict results or the effect of future plans or strategies or qualitative or quantitative changes based on market risk exposure is inherently uncertain. Factors that could affect actual results include but are not limited to:

- (a) changes in general market interest rates,
- (b) general economic conditions,
- (c) legislative and regulatory changes,
- (d) monetary and fiscal policies of the U.S. Treasury and the Federal Reserve,
- (e) changes in the quality or composition of The Bank of Greene County's loan portfolio or the consolidated investment portfolios of Greene County Commercial Bank, The Bank of Greene County and Greene County Bancorp, Inc.,
- (f) deposit flows,
- (g) competition, and
- (h) demand for financial services in Greene County Bancorp, Inc.'s market area.

These factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on such statements, since results in future periods may differ materially from those currently expected because of various risks and uncertainties.

Comparison of Financial Condition as of December 31, 2004 and June 30, 2004**ASSETS**

Total assets of the Company increased to \$287.4 million at December 31, 2004 up from \$284.6 million at June 30, 2004. The asset composition shifted toward loans which amounted to \$156.2 million, or 54.4% of total assets at December 31, 2004, as compared to \$150.5 million, or 52.9% of total assets at June 30, 2004. The asset composition shifted away from investments which represented \$102.4 million or 35.6% of total assets at December 31, 2004 as compared to \$104.8 million or 36.8% of total assets at June 30, 2004.

CASH AND CASH EQUIVALENTS

Total cash and cash equivalents decreased to \$20.5 million at December 31, 2004 as compared to \$21.4 million at June 30, 2004, a decrease of \$0.9 million or 4.2%. Cash, such as vault cash and balances with correspondent banks, decreased to \$11.9 million at December 31, 2004 as compared to \$12.9 million at June 30, 2004. The change was a function of normal daily activities. Federal funds sold remained relatively consistent at \$8.5 million at December 31, 2004 and June 30, 2004.

INVESTMENT SECURITIES

Investment securities decreased to \$102.4 million at December 31, 2004 as compared to \$104.8 million at June 30, 2004, a decrease of \$2.4 million, or 2.3%. The decrease was the result of \$8.6 million in matured or called securities for the six-month period ended December 31, 2004. Principal payments on investment securities amounted to \$6.5 million during the six-month period ended December 31, 2004, including \$6.0 million in principal payments on mortgage-backed securities. Maturities and principal pay-downs were offset by purchases of \$12.7 million in investment securities, including \$7.6 million in mortgage-backed securities. The market value of the portfolio shifted to a net unrealized gain position of \$0.4 million at December 31, 2004 from an unrealized loss position of \$0.3 million at June 30, 2004. The new purchases along with the primarily level long-term interest rate environment have helped enhance the market value of the portfolio. The majority of the maturities during the quarter were U.S. government agencies and corporate securities shifting the portfolio composition away from these sectors and more significantly toward mortgage-backed securities and state and political subdivision securities. The Company continued to invest in locally generated municipal securities contributing to the increase of \$3.0 million in state and political subdivision securities during the six-month period ended December 31, 2004. The opening of Greene County Commercial Bank has helped promote the Company as a potential investor for various local state and political subdivision securities.

<i>(Dollars rounded to nearest thousand)</i>	Market value at Dec. 31, 2004	Percentage of portfolio	Market value at June 30, 2004	Percentage of portfolio

LOANS

Net loans receivable increased to \$154.7 million at December 31, 2004 from \$148.9 million at June 30, 2004, an increase of \$5.8 million, or 3.9%. The continued low interest rate environment and strong customer satisfaction from personal service continued to enhance loan growth. Mergers by local banking competitors also appear to have helped with loan growth and demand. Loan modifications and refinancing have slowed significantly during the six months ended December 31, 2004. As a result of these changes, the residential mortgage portfolio increased by \$5.4 million and the home equity portfolio increased by \$1.1 million during the six-month period. It appears consumers continue to use the equity in their homes and credit cards to fund financing needs for some activities where in the past an installment loan may have been the choice. The low financing options from auto makers continued to cut into the Bank's automobile loan generation.

<i>(Dollars rounded to nearest thousand)</i>	At Dec. 31, 2004	Percentage of portfolio	At June 30, 2004	Percentage of portfolio

ALLOWANCE FOR LOAN LOSSES

The allowance for loan losses is established through a provision for loan losses based on management's evaluation of the risk inherent in the loan portfolio, the composition of the loan portfolio, specific impaired loans and current economic conditions. Such evaluation, which includes a review of all loans on which full collectibility may not be reasonably assured, considers among other matters, the estimated net realizable value or the fair value of the underlying collateral, economic conditions, historical loan loss experience and other factors that warrant recognition in providing for an allowance for loan losses. In addition, various regulatory agencies, as an integral part of their examination process, periodically review The Bank of Greene County's allowance for loan losses and valuation of OREO. Such agencies may require The Bank of Greene County to recognize additions to the allowance based on their judgment about information available to them at the time of their examination. The allowance for loan losses is increased by a provision for loan losses (which results in a charge to expense) and is reduced by net charge-offs. The level of the provision for the six months and quarter ended December 31, 2004, was driven by the continued strong asset quality and the level of net charge-offs associated with the overdraft protection program. Various regulatory agencies issued guidance recommending banks include the charged off account balances associated with such program in the evaluation of the allowance for loan loss. The Company has implemented this guidance as net charge-offs were included with other operating expenses as other losses associated with customer accounts. The charged off amount does not include associated fees which would have been collected. Any future increase in the allowance for loan losses or loan charge-offs could have a material adverse effect on the Company's results of operations and financial condition.

Allowance for loan losses	Six months	Six months
	ended	ended
	December	December
	31, 2004	31, 2003
Balance at the beginning of the period	\$ 1,241,091	\$ 1,163,825

Balance at the end of the period	\$ 1,281,732	\$ 1,200,176
Ratio of net charge-offs to average loans outstanding	0.02%	0.01%
Ratio of net charge-offs to nonperforming assets	9.15%	1.94%
Allowance for loan loss to nonperforming loans	392.65%	268.56%
Allowance for loan loss to net loans receivable	0.83%	0.85%

Nonaccrual Loans and Nonperforming Assets

Loans are reviewed on a regular basis. Management determines that a loan is impaired or nonperforming when it is probable at least a portion of the loan will not be collected in accordance with its contractual terms due to an irreversible deterioration in the financial condition of the borrower or the value of the underlying collateral. When a loan is determined to be impaired, the measurement of the loan is based on the present value of estimated future cash flows, except that all collateral-dependent loans are measured for impairment based on the fair value of the collateral. Management places loans on nonaccrual status once the loans have become over 90 days delinquent. Nonaccrual is defined as a loan in which collectibility is questionable and therefore interest on the loan will no longer be recognized on an accrual basis. A loan does not have to be 90 days delinquent in order to be classified as nonperforming. Other real estate owned is considered a nonperforming asset. The Bank of Greene County had no accruing loans delinquent more than 90 days at December 31, 2004 or June 30, 2004.

Analysis of Nonaccrual Loans and Nonperforming Assets

	At December 31, 2004	At June 30, 2004
Nonaccruing loans:		
Real estate mortgage loans:		
Residential mortgages loans (one- to four-family)	\$ 107,322	\$ 268,138
Commercial mortgage loans	53,285	---
Home equity	131,763	67,795
Commercial loans	19,615	---
Installment loans to individuals	14,442	4,782
Total nonaccruing loans	326,427	340,715
Real Estate Owned:		
Residential mortgages loans (one- to four-family)	---	97,689
Total real estate owned	---	97,689
Total nonperforming assets	\$ 326,427	\$ 438,404
Total nonperforming assets as a percentage of total assets	0.11%	0.15%
Total nonperforming loans to total loans	0.21%	0.23%

At December 31, 2004, gross interest income of \$14,870 would have been recorded on nonaccrual loans under their original terms if the loans had been current throughout the period. No interest income was recorded on nonaccrual loans or on accruing loans more than 90 days delinquent at December 31, 2004.

DEPOSITS

Total deposits increased to \$247.3 million at December 31, 2004 from \$243.7 million at June 30, 2004, an increase of \$3.6 million, or 1.5%. The composition of the deposit portfolio shifted toward noninterest bearing deposits and money market accounts which continued to contribute to the improvement in net interest spread and margin. Noninterest bearing accounts increased \$982,000 and money market accounts increased \$4.8 million offsetting decreases in certificates of deposit and savings accounts which declined \$465,000 and \$2.3 million, respectively, between December 31, 2004 and June 30, 2004. Marketing efforts to attract noninterest bearing deposits including free gift offers and emphasis on attracting commercial checking accounts continued to be successful. Greene County Commercial Bank's deposits grew by approximately \$4.8 million consisting of \$1.4 in certificates of deposit and \$3.4 million in money market accounts between June 30, 2004 and December 31, 2004.

<i>(Dollars rounded to nearest thousand)</i>	At Dec. 31, 2004	Percentage Of portfolio	At June 30, 2004	Percentage of portfolio
Noninterest bearing deposits	\$ 36,627	14.8%	\$ 35,645	14.6%
Certificates of deposit	56,557	22.9	57,022	23.4
Savings deposits	94,624	38.3	96,950	39.8
Money market deposits	38,666	15.6	33,867	13.9
NOW deposits	20,847	8.4	20,234	8.3
Total deposits	\$ 247,321	100.0%	\$ 243,718	100.0%

BORROWINGS

At December 31, 2004, The Bank of Greene County had the following borrowings:

Amount	Rate	Maturity Date
\$5,000,000	3.64% -Fixed two years, convertible thereafter	10/24/2013
2,500,000	6.80% -Fixed	10/04/2005
\$7,500,000		

The \$5.0 million borrowing is convertible given certain criteria including three-month LIBOR of at least 7.5%.

STOCKHOLDERS' EQUITY

The primary changes in stockholders' equity included changes in retained earnings and accumulated comprehensive income. Retained earnings was increased by net income of \$1.6 million and partially offset by dividends paid of \$382,000. Accumulated comprehensive income was affected by a shift in the available-for-sale portfolio from a net unrealized loss position of \$183,000 to an unrealized gain position of \$258,000, net of tax. Treasury stock decreased by \$30,000 due to the exercise of 2,800 options under the 2000 Stock Option Plan reducing the number of shares held in treasury to 95,792 shares.

Comparison of Operating Results for the six months and quarter ended December 31, 2004 and 2003**Average Balance Sheet**

The following Average Balance Sheet tables set forth certain information relating to Greene County Bancorp, Inc. for the six months and quarters ended December 31, 2004 and 2003. For the periods indicated, the total dollar amount of interest income from average interest-earning assets and the resultant yields, as well as the interest expense on average interest-bearing liabilities, are expressed both in dollars and rates. No tax equivalent adjustments were made. For the six months and quarters ended December 31, 2004 and 2003, average balances were based on daily averages, except for deposit accounts which were based on weekly averages. Interest and balances of nonaccrual loans and certain deferred origination fees and costs have been excluded from the average loan balances and yield calculations in these tables.

Rate / Volume Analysis

The following Rate / Volume tables present the extent to which changes in interest rates and changes in the volume of interest-earning assets and interest-bearing liabilities have affected Greene County Bancorp, Inc.'s interest income and interest expense during the periods indicated. Information is provided in each category with respect to:

- (i) Change attributable to changes in volume (changes in volume multiplied by prior rate);
- (ii) Change attributable to changes in rate (changes in rate multiplied by prior volume); and
- (iii) The net change.

The changes attributable to the combined impact of volume and rate have been allocated proportionately to the changes due to volume and the changes due to rate.

GENERAL

Return on average assets and return on average equity are common methods of measuring operating results. Return on average assets amounted to 1.12% for the six months and quarter ended December 31, 2004 as compared to 1.09% for the six months and 1.13% for quarter ended December 31, 2003. Return on average equity increased to 10.43% for the six months and 10.27% for the quarter ended December 31, 2004 as compared to 10.02% for the six months and 10.40% quarter ended December 31, 2003. The change in return on average assets and return on average equity was primarily the result of improved net interest income and increased noninterest income. Net income amounted to \$1.6 million for the six months and \$804,000 for the quarter ended December 31, 2004 as compared to \$1.4 million for the six months and \$754,000 for the quarter ended December 31, 2003, an increase of \$0.2 million or 14.3% when comparing the six-month periods and \$50,000 or 6.6% when comparing the quarterly periods. Average assets amounted to \$287.2 million for the six month period ended December 31, 2004 as compared to \$264.0 million for the same period ended December 31, 2003, an increase of \$23.2 million or 8.8%. Average assets amounted to \$286.7 million for the quarter ended December 31, 2004 as compared to \$266.9 million for the quarter ended December 31, 2003, an increase of \$19.8 million or 7.4%. Average equity amounted to \$30.9 million for the six month period ended December 31, 2004 as compared to \$28.8 million for the same period ended December 31, 2003, an increase of \$2.1 million or 7.3%. Average equity amounted to \$31.3 million for the quarter ended December 31, 2004 as compared to \$29.0 million for the quarter ended December 31, 2003, an increase of \$2.3 million or 7.9%. As illustrated, net income increased more significantly than average assets and average equity causing improvement in return on average assets and return on average equity when comparing the six month periods. Net interest income improvement was the most significant item contributing to the increase in return on average assets and average equity when comparing the quarterly periods ended December 31, 2004 and 2003.

INTEREST INCOME

Interest income amounted to \$7.0 million for the six months ended December 31, 2004 as compared to \$6.6 million for the six months ended December 31, 2003, an increase of \$0.4 million or 6.1%. Interest income amounted to \$3.5 million for the quarter ended December 31, 2004 as compared to \$3.4 million for the quarter ended December 31, 2003, an increase of \$0.1 million or 2.9%. The growth in average interest earning assets had the greatest impact on net interest income as illustrated in the rate/volume table above. Average interest earning assets amounted to \$266.5 million for the six months ended December 31, 2004 as compared to \$251.6 million for the six months ended December 31, 2003, an increase of \$14.9 million or 5.9%. The yield on such assets increased by 2 basis points to 5.27% for the six months ended December 31, 2004 as compared to 5.25% for the six months ended December 31, 2003. Average interest earning assets amounted to \$270.1 million for the quarter ended December 31, 2004 as compared to \$253.1 million for the quarter ended December 31, 2003, an increase of \$17.0 million or 6.7%. However, the yield on such assets decreased by 11 basis points to 5.20% for the quarter ended December 31, 2004 as compared to 5.31% for the quarter ended December 31, 2003. The interest earned on loans most significantly impacted overall

interest earned when comparing the six months and quarter ended December 31, 2004 and 2003. Average loans increased \$17.3 million to \$152.5 million for the six months ended December 31, 2004 as compared to \$135.2 million for the six months ended December 31, 2003. The average yield on such loans decreased 42 basis points to 6.52% for the six months ended December 31, 2004 compared to 6.94% for the six months ended December 31, 2003. Average loans increased \$17.1 million to \$154.3 million for the quarter ended December 31, 2004 as compared to \$137.2 million for the quarter ended December 31, 2003. The average yield on such loans decreased 33 basis points to 6.50% for the quarter ended December 31, 2004 compared to 6.83% for the quarter ended December 31, 2003. Changes in the average balance and yield on investments also had a significant impact on overall interest income when comparing both the six months and quarters ended December 31, 2004 and 2003. The average investment balance decreased by \$3.5 million and the yield on such investments increased 28 basis points to an average investment balance of \$99.3 million at an average yield of 3.87% for the six-month period ended December 31, 2004 as compared to an average investment balance of \$102.8 million at an average yield of 3.59% for the six-month period ended December 31, 2003. During the quarter ended December 31, 2004, the average balance of investments decreased \$1.0 million to \$101.3 million and the yield on such investments fell 19 basis points to 3.68% for the quarter ended December 31, 2004. Contributing to the decline in investment balance and yield was the maturity of approximately \$3.0 million in corporate securities over the six months and quarter ended December 31, 2004. The change in the yield on loans and investments was partially due to the change in the overall interest rate environment, which has increased significantly for short term rates between June and December 2004. Long term rates have not increased as significantly over the same time frame, but it is expected at some point the long term rates will also increase. The rise in short term rates are primarily the result of changes in the Federal Open Market rates such as the federal funds rate and discount rate.

It should be noted that during the quarter ended September 30, 2003, the FHLB of New York did not pay a dividend on its stock due to a loss it incurred on some investments. The dividend was restored during the quarter ended December 31, 2003 although at a significantly lower rate than the historical rate paid by the FHLB. Membership in FHLB of New York is an important source of liquidity for The Bank of Greene County and the investment in stock is based on the asset size of the Bank and it is not marketable.

INTEREST EXPENSE

Interest expense amounted to \$1.6 million for the six months ended December 31, 2004 as compared to \$1.7 million for the six months ended December 31, 2003, a decrease of \$0.1 million. Interest expense amounted to \$794,000 for the quarter ended December 31, 2004 as compared to \$857,000 for the quarter ended December 31, 2003, a decrease of \$63,000. The average balance of interest bearing liabilities amounted to \$254.3 million and the average rate decreased to 1.26% for the six months ended December 31, 2004 as compared to an average balance of \$234.4 million with an average rate of 1.47% for the six months ended December 31, 2003, an increase in average interest bearing liabilities of \$19.9 million and a decrease in average rate of 21 basis points. The average balance of interest bearing liabilities amounted to \$254.3 million and the average rate decreased to 1.25% for the quarter ended December 31, 2004 as compared to an average balance of \$237.8 million with an average rate of 1.44% for the quarter ended December 31, 2003, an increase in average interest bearing liabilities of \$16.5 million and a decrease in average rate of 19 basis points. The average rate paid on certificates of deposits had the most significant impact on the overall rate of interest bearing liabilities. The average rate on certificates of deposits decreased 45 basis points to 2.10% for the six months ended December 31, 2004 as compared to 2.55% for the six months ended December 31, 2003. The average rate on certificates of deposits decreased 33 basis points to 2.12% for the quarter ended December 31, 2004 as compared to 2.45% for the quarter ended December 31, 2003. The average balances of such certificates of deposit decreased by \$4.4 million and \$3.9 million for the six months and quarter ended December 31, 2004 due primarily to the continued low interest rate environment. The shift in the deposit portfolio to more noninterest bearing deposits and lower rate money market accounts also contributed to lower interest expense. Noninterest bearing deposits represented \$36.6 million or 14.8% of deposits at December 31, 2004 as compared to \$29.1 million or 12.8% of deposits at December 31, 2003. Money market accounts represented \$38.7 million or 15.6% of deposits at December 31, 2004 as compared to \$28.5 million or 12.5% of deposits at December 31, 2003.

Interest expense on borrowings amounted to \$208,000 and \$89,000 on average balances of \$8.4 million and \$7.5 million resulting in average rates of 4.98% and 4.75% for the six months and quarter ended December 31, 2004, respectively. This compares to interest expense of \$230,000 and \$132,000 on average balances of \$9.9 million and \$11.8 million resulting in average rates of 4.65% and 4.49% for the six months and quarter ended December 31, 2003, respectively. The declines in average balances and average rates paid on such borrowings caused the lower borrowing expense. The pay off of \$2.5 million in borrowings at the beginning of September 2004 which carried a rate of 6.82% helped to reduce the overall average rate paid on such borrowings.

Due to the large portion of fixed rate residential mortgages in the Company's asset portfolio, interest rate risk is a concern and the Company will continue to monitor the situation and attempt to adjust the asset and liability mix as much as possible to take advantage of the benefits and reduce the risks or potential negative effects of a rising rate environment. Management attempts to mitigate the interest rate risk through balance sheet composition. Several strategies are used to help manage interest rate risk such as maintaining a high level of liquid assets such as short-term federal funds sold and various investment securities, and maintaining a high concentration of less interest-rate sensitive and lower-costing core deposits.

NET INTEREST INCOME

Net interest income increased to \$5.4 million for the six months ended December 31, 2004 as compared to \$4.9 million for the six months ended December 31, 2003, an increase of \$0.5 million or 10.2%. Net interest income increased to \$2.7 million for the quarter ended December 31, 2004 as compared to \$2.5 million for the quarter ended December 31, 2003, an increase of \$0.2 million or 8.0%. This growth in net interest income was the result of improved net interest spread and net interest margin when comparing the six months and quarters ended December 31, 2004 and 2003. Net interest spread increased 23 basis points to 4.01% for the six months ended December 31, 2004 from 3.78% for the six months ended December 31, 2003, and eight basis points to 3.95% for the quarter ended December 31, 2004 as compared to 3.87% for the quarter ended December 31, 2003. Net interest margin increased 19 basis points to 4.07% for the six months ended December 31, 2004 from 3.88% for the six months ended December 31, 2003, and 7 basis points to 4.03% for the quarter ended December 31, 2004 as compared to 3.96% for the quarter ended December 31, 2003. Growth in interest earning assets, particularly growth in loans offset declines in rates paid on such loans and the lower rates paid on certificates of deposits also significantly contributed to the improvement in net interest margin and spread when comparing the six months and quarters ended December 31, 2004 and 2003.

Due to the large level of long term fixed rate loans, The Bank of Greene County may experience compression of net interest margin and spread in a rising rate environment. A large increase in long term rates could cause lending demand to decrease and expected interest rates offered on deposits to increase which will put pressure on net interest margin and spread which could potentially have a negative impact on overall earnings. Management attempts to mitigate these risks via balance sheet composition, investment purchases and by maintaining high levels of liquidity.

PROVISION FOR LOAN LOSSES

The provision for loan loss for the six months ended December 31, 2004 and 2003 amounted to \$70,500 and \$45,000, respectively. The provision for loan loss for the quarter ended December 31, 2004 amounted to \$27,000 and zero for the quarter ended December 31, 2003. The levels of provisions for loan loss were affected by loan growth, and strong asset quality. During the six months ended December 31, 2004, The Bank of Greene County began including net charge-offs associated with the Overdraft Protection Program in the analysis of the allowance for loan loss, which contributed about \$31,000 to the level of the provision. The charge-offs associated with the overdraft protection program were previously included in other noninterest expense. Nonperforming assets to total assets amounted to 0.11% and nonperforming loans to total loans amounted to 0.21% at December 31, 2004 as compared to nonperforming assets to total assets which amounted to 0.16% and nonperforming loans to total loans which amounted to 0.31% at December 31, 2003. The collateral associated with the residential mortgages and home equities

classified as nonaccrual was deemed sufficient and the amount of installment and other loans classified as nonaccrual were insignificant at approximately \$34,000 in principal balance at December 31, 2004.

NONINTEREST INCOME

Noninterest income increased to \$1.4 million for the six months ended December 31, 2004 as compared to \$1.3 million for the six months ended December 31, 2003, an increase of \$0.1 million or 7.7%. Noninterest income increased to \$706,000 for the quarter ended December 31, 2004 as compared to \$649,000 for the quarter ended December 31, 2003, an increase of \$57,000 or 8.8%. Noninterest income associated with service charges increased as a result of an increase in the number of accounts. Customers continue to value the Carefree Overdraft Privilege product. The Company has had success in its new investment services business offered through Investors Marketplace which has helped offset a decline in the recognition of fees associated with refinancing activities. Referral fees generated from the Company's collaboration with Fenimore Asset Management and Transfirst credit card processors continue to grow. Fees from debit card activity continue to increase due to larger volumes from more customers and increased frequency in the use of the cards by existing card holders. Profit on other real estate owned amounted to \$19,500 for the six months ended December 31, 2004 as compared to \$1,500 for the six months ended December 31, 2003.

NONINTEREST EXPENSE

Noninterest expense amounted to \$4.5 million, and \$4.1 million for the six months ended December 31, 2004 and 2003, respectively, an increase of \$0.4 million, or 9.8%. Noninterest expense amounted to \$2.3 million, and \$2.1 million for the quarters ended December 31, 2004 and 2003, respectively, an increase of \$0.2 million or 9.5%.

The most significant items contributing to the overall increases in noninterest expense were higher salary and employee benefits. Salary and employee benefits amounted to \$2.5 million, and \$2.1 million for the six months ended December 31, 2004 and 2003, respectively. Salary and employee benefits amounted to \$1.3 million, and \$1.1 million for the quarters ended December 31, 2004 and 2003, respectively. Salaries and employee benefits costs increased \$337,000 and \$176,000 when comparing the six months and quarters ended December 31, 2004 and 2003, respectively. Additional staffing, including marketing and information technology staff contributed to the higher expense. The increased reliance on technology to enhance products and services offered to customers, increased regulatory burden and information security as well as the upcoming Core system conversion were the primary reasons for the new information technology staff.

Occupancy expense amounted to \$231,000 and \$211,000, for the six months ended December 31, 2004, an increase of \$20,000 or 9.5%. The increase was the result of higher real estate taxes as well as higher utility and insurance expenses. Depreciation on buildings also increased slightly due to renovations and modifications made at the Main Branch Office.

Equipment and furniture expense amounted to \$324,000 and \$281,000 for the six months ended December 31, 2004 and 2003, respectively, an increase of \$43,000 or 15.3%. Equipment and furniture expense amounted to \$168,000 and \$141,000 for the quarters ended December 31, 2004 and 2003, respectively, an increase of \$27,000 or 19.1%. The increased expenses were primarily due to higher depreciation some of which is the result of modifications and renovations to the Operations Center and Main office. Expense associated with upgrading the ATM machines to be Triple DES compatible was also incurred over the six-month period ended December 31, 2004.

Service and data processing amounted to \$555,000 and \$276,000, respectively for the six months and quarter ended December 31, 2004 as compared to \$490,000 and \$259,000, respectively for the six months and quarter ended December 31, 2003. Service and data processing increased \$65,000 and \$17,000 when comparing the six months and quarters ended December 31, 2004 and 2003, respectively. Expense associated with service and data processing

included fees paid to Fiserv for outsourced data processing and was driven by the number of accounts processed which continue to grow due to new customers including new municipal activities of Greene County Commercial Bank. Also, included in this category were expenses associated with the additional internet banking services such as online bill pay functionality. Fees paid to Visa© for processing debit cards were also included in this category and continue to increase as usage grows.

Office supplies expense amounted to \$58,000 for the six months ended December 31, 2004 as compared to \$50,000 for the six months ended December 31, 2003, and increase of \$8,000 or 16.0%. The increase was primarily the result of supply needs for Greene County Commercial Bank and normal volume.

Other noninterest expense amounted to \$855,000 for the six months ended December 31, 2004 and \$920,000 for the six months ended December 31, 2003, a decrease of \$65,000. During the six months ended December 31, 2003, the Company incurred various expenses such as legal fees in the start-up of Greene County Commercial Bank these fees amounted to \$34,000 such fees were not incurred during the six months ended December 31, 2004. Greene County Commercial Bank activities were included in the consolidated group for the Company at and for the periods ended December 31, 2004. Charge-offs associated with the Carefree Overdraft Privilege amounted to \$40,000 for the six-month period ended December 31, 2003 and such charge-offs have been reclassified into provision for loan losses for the six-month period ended December 31, 2004.

INCOME TAXES

The provision for income taxes directly reflects the expected tax associated with the revenue generated for the given year and certain regulatory requirements. The effective tax rate decreased to 28.7% for the six months and quarter ended December 31, 2004, compared to 30.8% for the six months and 29.2% for the quarter ended December 31, 2003. A major reason for the changes in effective rates was the increase in the percentage of income that municipal securities and other tax free investments contributed to total income during the quarter and six-month periods as well as tax benefits received for various stock based compensation plans.

LIQUIDITY AND CAPITAL RESOURCES

Market risk is the risk of loss in a financial instrument arising from adverse changes in market rates or prices such as interest rates, foreign currency exchange rates, commodity prices, and equity prices. Greene County Bancorp, Inc. s most significant form of market risk is interest rate risk since the majority of Greene County Bancorp, Inc. s assets and liabilities are sensitive to changes in interest rates. Greene County Bancorp, Inc. s primary sources of funds are deposits and proceeds from principal and interest payments on loans, mortgage-backed securities and debt securities, with lines of credit available through the Federal Home Loan Bank as needed. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit outflows, mortgage prepayments, and lending activities are greatly influenced by general interest rates, economic conditions and competition.

The low market interest rate environment had helped to improve the net interest spread and margin in recent quarters; however, an increasing or flat market interest rate environment is expected to have the reverse effect, especially in the case of a rapidly increasing interest rate environment.

Mortgage loan commitments totaled \$4.6 million at December 31, 2004. The unused portion of overdraft lines of credit amounted to \$0.6 million, the unused portion of home equity lines of credit amounted to \$4.0 million, and the unused portion of commercial lines of credit amounted to \$3.4 million at December 31, 2004. Greene County Bancorp, Inc. anticipates that it will have sufficient funds available to meet current loan commitments based on the level of cash and cash equivalents as well as the available for sale investment portfolio and borrowing capacity from Federal Home Loan Bank of New York.

The Bank of Greene County is anticipating relocating the Cairo branch during fiscal 2005 and the Coxsackie branch during fiscal 2006 in order to better service our customers. Due to the tremendous retail and commercial deposit growth experienced by the Company in the last several years, which is expected to continue, these branch facilities have been outgrown. It is expected that the Company will have sufficient cash or other means of liquidity to fund these projects.

The Bank of Greene County met all regulatory capital requirements at December 31, 2004 and June 30, 2004. Consolidated shareholders' equity represented 11.02 % of total assets at December 31, 2004 and 10.48% of total assets of June 30, 2004.

Item 3. Controls and Procedures

Under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and in timely altering them to material information relating to the Company (or its consolidated subsidiaries) required to be filed in its periodic SEC filings.

There has been no change in the Company's internal control over financial reporting in connection with the quarterly evaluation that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

Greene County Bancorp, Inc. is not engaged in any material legal proceedings at the present time.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the quarter ended December 31, 2004, no purchases of registrant's equity securities were completed by the registrant or any affiliate.

Item 3. Defaults Upon Senior Securities

Not applicable

Item 4. Submission of Matters to a Vote of Security Holders

On October 27, 2004, the Company held an annual meeting of shareholders. At the meeting, proposals to (1) elect Walter H. Ingalls, Paul Slutzky and David H. Jenkins, to serve as directors of the Company for terms of three years and until their respective successors have been elected and qualified, Arthur Place, be elected to serve as director of the Company for terms of two years and until his successor has been elected and qualified, and (2) ratify the engagement of PricewaterhouseCoopers LLP, to be the Company's auditors for the June 30, 2005 fiscal year were approved. There were no broker non-votes. The votes cast for and against these proposals were as follows:

Election to the Board of Directors For Withheld

Walter H. Ingalls	1,979,267	1,312
Paul Slutzky	1,979,914	585
David H. Jenkins	1,979,267	1,312
Arthur Place	1,977,006	3,483

Ratification of PricewaterhouseCoopers LLP For Against Abstain

Number of votes	1,978,778	488	1,263
-----------------	-----------	-----	-------

Item 5. Other Information

Not applicable

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits

31.1 Certification of Chief Executive Officer, adopted pursuant to Rule 13a-14(a)/15d-14(a)

31.2 Certification of Chief Financial Officer, adopted pursuant to Rule 13a-14(a)/15d-14(a)

32.1 Statement of Chief Executive Officer, furnished pursuant to U.S.C. section 1350

32.2 Statement of Chief Financial Officer, furnished pursuant to U.S.C. section 1350

(b) Reports on Form 8-K

-A current report on Form 8-K was filed on November 4, 2004 to report results of operations and financial condition as of and for the first fiscal quarter ended September 30, 2004.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed by the undersigned thereunto duly authorized.

**Certification of Chief Executive Officer Pursuant to
Section 302 of the Sarbanes-Oxley Act of 2002**

I, J. Bruce Whittaker, President and Chief Executive Officer, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of Greene County Bancorp, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;
4. The small business issuer's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - c) disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
5. The small business issuer's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors:
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.

EXHIBIT 32.1

**Statement of Chief Executive Officer
Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002**

J. Bruce Whittaker, President and Chief Executive Officer, of Greene County Bancorp, Inc. (the Company) certifies in his capacity as an officer of the Company that he has reviewed the Quarterly Report of the Company on Form 10-QSB for the quarter ended December 31, 2004 and that to the best of his knowledge:

1. the report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934;
and
- 2.the information contained in the report fairly presents, in all material respects, the financial condition and results of operations of the Company as of the dates and for the periods covered by the report.

This statement is authorized to be attached as an exhibit to the report so that this statement will accompany the report at such time as the report is filed with the Securities and Exchange Commission pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, 18 USC 1350. It is not intended that this statement be deemed to be filed for purposes of the Securities Exchange Act of 1934, as amended.

EXHIBIT 32.2

**Statement of Chief Financial Officer
Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002**

Michelle M. Plummer, Chief Financial Officer, of Greene County Bancorp, Inc. (the Company) certifies in her capacity as an officer of the Company that he or she has reviewed the Quarterly Report of the Company on Form 10-QSB for the quarter ended December 31, 2004 and that to the best of her knowledge:

1. the report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- 2.the information contained in the report fairly presents, in all material respects, the financial condition and results of operations of the Company as of the dates and for the periods covered by the report.

This statement is authorized to be attached as an exhibit to the report so that this statement will accompany the report at such time as the report is filed with the Securities and Exchange Commission pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, 18 USC 1350. It is not intended that this statement be deemed to be filed for purposes of the Securities Exchange Act of 1934, as amended.
