**NOTICE OF ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON JULY 23, 2013**

Dear Stockholders of Raptor Pharmaceutical Corp.:

On behalf of the Board of Directors of Raptor Pharmaceutical Corp., a Delaware corporation, we are pleased to deliver the accompanying proxy statement for our annual meeting of stockholders to be held at 8:00 a.m., local time, on July 23, 2013 at our corporate offices at 5 Hamilton Landing, Suite 160, Novato, California 94949, for the following purposes:

1. To elect eight directors named herein to our Board of Directors to serve until our next annual meeting of stockholders or until their respective successors are duly elected and qualified.
2. Advisory vote to approve the compensation of the Company's Named Executive Officers, as disclosed in the proxy statement accompanying this notice of annual meeting of stockholders.
3. To ratify the appointment by the Audit Committee of our Board of Directors of Burr Pilger Mayer, Inc. as Raptor's independent registered public accounting firm for the year ending December 31, 2013.
4. To approve the plan amendment to the Raptor Pharmaceutical Corp. 2010 Stock Incentive Plan, to increase the share reserve available for issuance under the plan by 3,000,000 shares, as well as approve other material amendments relating to the administration of the 2010 Stock Incentive Plan, which are more fully described in the proxy statement accompanying this notice of annual meeting of stockholders.
5. To transact such other business as may properly come before the annual meeting or any adjournment or postponement thereof.

The foregoing matters are described more fully in the accompanying proxy statement. Our Board of Directors has fixed May 31, 2013 as the record date for the determination of stockholders entitled to notice of, and to vote at, our annual meeting and any adjournment or postponement thereof. Only holders of record of shares of our common stock at the close of business on the record date are entitled to notice of, and to vote at, our annual meeting.

This year, we are pleased to take advantage of the U.S. Securities and Exchange Commission, or the SEC, rule that allows companies to furnish proxy materials to their stockholders over the Internet. As a result, we are mailing a notice of Internet availability of proxy materials, instead of a paper copy of our proxy materials, to our stockholders of record entitled to vote at our annual meeting. The notice of Internet availability of proxy materials contains instructions on how to access those documents over the Internet and also contains instructions on how to request a paper copy of our proxy materials, including our proxy statement, our 2012 Annual Report on Form 10-K and our 2012 Transition Annual Report on Form 10-KT, and a form of proxy card. Certain stockholders also will receive a full set of the proxy materials by mail. The notice of Internet availability of proxy materials is expected to be mailed to stockholders of record entitled to vote at our annual meeting on or about June 10, 2013. The full set of proxy materials is expected to be mailed on or about June 10, 2013 to certain stockholders of record entitled to vote at our annual meeting.

YOUR VOTE IS IMPORTANT. PLEASE READ THE PROXY STATEMENT CAREFULLY. EVEN IF YOU PLAN TO ATTEND THE ANNUAL MEETING, FOR THOSE STOCKHOLDERS WHO RECEIVED A PRINTED VERSION OF THE PROXY MATERIALS BY MAIL, WE REQUEST THAT YOU COMPLETE, SIGN AND

DATE THE ENCLOSED PROXY CARD AS PROMPTLY AS POSSIBLE AND RETURN IT IN THE ENCLOSED ENVELOPE TO ENSURE THAT YOUR SHARES ARE REPRESENTED AT THE MEETING. AS INSTRUCTED ON THE PROXY CARD, THE ENVELOPE REQUIRES NO POSTAGE

IF MAILED IN THE UNITED STATES. FOR THOSE STOCKHOLDERS WHO DID NOT RECEIVE A PRINTED VERSION OF THE PROXY MATERIALS BY MAIL, PLEASE FOLLOW THE INSTRUCTIONS IN THE NOTICE ON HOW TO ACCESS THE PROXY MATERIALS OVER THE INTERNET OR TO REQUEST A PAPER COPY OF THE PROXY MATERIALS, AND ON HOW TO VOTE. ALL STOCKHOLDERS MAY ALSO VOTE BY TELEPHONE OR INTERNET, BY FOLLOWING THE INSTRUCTIONS ON THE PROXY CARD. IF YOU VOTE BY TELEPHONE OR INTERNET, YOU DO NOT HAVE TO MAIL IN A PROXY CARD. VOTING IN ADVANCE BY MAIL, TELEPHONE OR INTERNET WILL NOT PREVENT YOU FROM VOTING IN PERSON AT THE ANNUAL MEETING (AND VOTES CAST AT THE ANNUAL MEETING WILL SUPERSEDE VOTES PREVIOUSLY SUBMITTED BY YOU), BUT IT WILL HELP TO ENSURE A QUORUM AND AVOID ADDED COSTS.

By Order of the Board of Directors,

/s/ Christopher M. Starr, Ph.D.

PROXY STATEMENT
FOR THE ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON JULY 23, 2013
GENERAL INFORMATION

This proxy statement is being furnished to holders of common stock, par value \$0.001 per share, of Raptor Pharmaceutical Corp., a Delaware corporation (unless the context otherwise requires, references herein to "Raptor," "the Company," "we," "us" and "our" refer to Raptor Pharmaceutical Corp., together with its subsidiaries), in connection with the solicitation of proxies by our Board of Directors for use at our 2013 annual meeting of stockholders to be held on July 23, 2013, at 8:00 a.m. local time at our corporate offices located at 5 Hamilton Landing, Suite 160, Novato, California 94949, and at any adjournment or postponement thereof, for the purposes set forth in the accompanying notice to stockholders. The specific proposals are described in more detail in this proxy statement. This proxy statement, the notice to stockholders, the accompanying form of proxy card and our annual report to stockholders will be made available on or about June 10, 2013 to stockholders of record as of the close of business on May 31, 2013, the record date for the annual meeting.

By properly completing and returning your proxy card, you will appoint Christopher M. Starr, Ph.D., and Georgia Erbez as your proxies at the annual meeting. Your proxies will vote your shares as you instruct, whether or not you attend the meeting. If you sign and return your proxy card but fail to instruct how to vote your shares, Dr. Starr or Ms. Erbez will vote your shares "FOR" the slate of directors nominated by our Board of Directors unless the authority to vote for the election of any such nominee is withheld, and if no contrary instructions are given, "FOR" the advisory approval of the compensation of the Company's Named Executive Officers, "FOR" the appointment of Burr Pilger Mayer, Inc. as our independent registered public accounting firm for the year ending December 31, 2013 and "FOR" the approval of the plan amendment to the Raptor Pharmaceutical Corp. 2010 Stock Incentive Plan. We recommend that you vote by proxy in advance of the annual meeting.

The Board of Directors does not know of any matters to be presented at the annual meeting other than those listed on the notice to stockholders and described in this proxy statement. If another matter is properly brought before the meeting or any adjournment or postponement thereof, your proxies will vote your shares in accordance with their judgment if you have completed your proxy card and authorized them to do so.

The Board of Directors encourages you to attend the annual meeting in person. If you decide to change your vote, you may revoke your proxy any time before your vote is cast at the annual meeting by

- (i) giving written notice of revocation to our Corporate Secretary,
- (ii) submitting a signed proxy card bearing a date later than the date of the prior proxy card,
- (iii) voting again via the Internet or by telephone or
- (iv) attending the annual meeting and voting in person.

Attendance at the annual meeting will not, in itself, constitute revocation of your proxy.

Our principal executive offices are located at 5 Hamilton Landing, Suite 160, Novato, California 94949 and our telephone number is (1-415) 382-8111 or toll free in the U.S. and Canada only (1-877) RAPTOR9 (1-877-727-8679).

Purpose of the Meeting

At our 2013 annual meeting, stockholders will be asked to consider and vote upon the following matters:

1. Proposal No. 1 – to elect eight directors named herein to our Board of Directors to serve until our next annual meeting of stockholders or until their respective successors are duly elected and qualified;
2. Proposal No. 2 – advisory vote to approve the compensation of the Company's Named Executive Officers;
3. Proposal No. 3 – to ratify the appointment by the Audit Committee of our Board of Directors of Burr Pilger Mayer, Inc. as our independent registered public accounting firm for the year ending December 31, 2013;
4. Proposal No. 4 – to approve the plan amendment to the Raptor Pharmaceutical Corp. 2010 Stock Incentive Plan to increase the share reserve available for issuance under the plan by 3,000,000 shares, as well as approve other material amendments relating to the administration of the 2010 Stock Incentive Plan; and
5. to transact such other business as may properly come before the annual meeting or any adjournment or postponement thereof.

Record Date; Outstanding Shares

Who is entitled to vote?

Only stockholders of record at the close of business on May 31, 2013 are entitled to notice of and to vote at the annual meeting and any adjournment thereof. Such stockholders are entitled to cast one vote, in person or by proxy, for each share of common stock outstanding in his, her or its name on the books of the Company as of the record date on all matters properly submitted for the vote of stockholders at the annual meeting. The authorized capital stock of the Company consists of:

- (i) One Hundred Fifty Million (150,000,000) shares of common stock, par value \$0.001 per share, of the Company, of which 56,754,823 shares were issued and outstanding as of the close of business on May 31, 2013, and
- (ii) Fifteen Million (15,000,000) shares of preferred stock, par value \$0.001 per share, of the Company, none of which were issued and outstanding as of the close of business on the record date.

For information regarding security ownership by management and by the beneficial owners of more than 5% of our common stock, see the section of this proxy statement titled "Security Ownership of Certain Beneficial Owners, Directors and Management."

Voting

Stockholders have three options for submitting their votes prior to the annual meeting: (1) via the Internet, (2) by telephone or (3) by mail. If you have Internet access, the Company encourages you to record your vote on the Internet. It is convenient, and it saves the Company significant postage and processing costs. In addition, when voting via the Internet or by telephone prior to the meeting date, your vote is recorded immediately, and there is no risk that postal delays will cause your vote to arrive late and therefore not be counted.

How do I vote if I am a registered stockholder?

You may vote by mail. If you are a registered stockholder (that is, if you hold your shares of common stock directly and not in street name) and you have received a printed version of the proxy materials, you may vote by mail by completing, signing and dating the enclosed proxy card and returning it in the enclosed postage prepaid envelope. Your shares will then be voted at the annual meeting in accordance with your instructions.

You may vote via the Internet. Go to the web address <http://www.proxyvote.com> and follow the instructions for Internet voting shown on the notice of Internet availability of proxy materials, or if you have received a printed version of the proxy materials by mail, follow the instructions for Internet voting shown on the proxy card.

You may vote by telephone. Call 1-800-690-6903 (toll free in the U.S. and Canada only) from a touch tone telephone and follow the instructions.

You may vote in person at the annual meeting. If you are a registered stockholder and attend the annual meeting (please bring a valid, government-issued photo identification, such as a driver's license or a passport to authenticate your identity and for entrance to the annual meeting), you may deliver your completed proxy card in person. If you attend the annual meeting, you may also submit your vote in person, and any previous votes that were submitted by you will be superseded by the vote that you cast at the annual meeting.

Am I entitled to vote if my shares are held in "street name"?

Yes, if a bank or brokerage firm holds your shares of common stock in "street name" for you, you are considered the "beneficial owner" of such shares. If your shares are held in "street name," these proxy materials are being forwarded to you by your bank or brokerage firm (the "record holder"), along with a voting instruction card. As the beneficial owner, you have the right to direct the record holder how to vote your shares, and the record holder is required to vote your shares in accordance with your instructions. Brokers holding shares of common stock in "street name" who are members of a stock exchange are required by the rules of the exchange to transmit this proxy statement to the beneficial owner of the shares of common stock and to solicit voting instructions with respect to the matters submitted to the stockholders.

How do I vote if I hold my shares in "street name"?

If you are a beneficial owner of shares of common stock registered in the name of your broker, bank, or other agent, you should have received a voting card and voting instructions with these proxy materials from that organization (rather than from the Company). In addition to providing you with instructions for voting by mail, your broker, bank, or other agent may permit you to vote your shares electronically, by telephone, or on the Internet. A large number of banks and brokerage firms participate in programs that offer telephone and Internet voting options. If your shares are held in an account at a bank or brokerage firm that participates in such a program, you may vote those shares electronically by telephone or on the Internet by following the instructions set forth on the voting form provided to you by your bank or brokerage firm.

These Internet and telephone voting procedures are designed to authenticate stockholders' identities, allow stockholders to vote their shares and confirm that stockholders' votes have been recorded properly. Stockholders voting via either telephone or the Internet should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies that must be borne by the stockholder using such services. Also, please be aware that the Company is not involved in the operation of these voting procedures and cannot take responsibility for any access, Internet or telephone service interruptions that may occur or any inaccuracies, erroneous or incomplete information that may appear.

What if I do not provide voting instructions for my shares of common stock on my proxy card or, with respect to such shares held in "street name," to my bank, brokerage firm, or other agent?

All shares entitled to vote and represented by properly executed proxy cards received prior to the annual meeting, and not revoked, will be voted at the annual meeting in accordance with the instructions indicated on those proxy cards. If no instructions are indicated on a properly executed proxy card, the shares represented by that proxy card will be voted: "FOR" the election of the director nominees unless the authority to vote for the election of any such nominee is withheld, if no contrary instructions are given; "FOR" the advisory vote to approve the compensation of the Company's Named Executive Officers; "FOR" the ratification of the appointment of Burr Pilger Mayer, Inc. as our independent registered public accounting firm for the year ending December 31, 2013; and "FOR" the approval of the plan amendment to the Raptor Pharmaceutical Corp. 2010 Stock Incentive Plan. If any other matters are properly presented for consideration at the annual meeting, including, among other things, consideration of a motion to adjourn the annual meeting to another time or place (including, without limitation, for the purpose of soliciting additional proxies), the persons named as proxies in the enclosed proxy card and acting thereunder will have discretion to vote on those matters in accordance with their best judgment, and authority to do so is included in the proxy.

If you do not give instructions to your bank, brokerage firm, or other agent, by the date specified in the statement accompanying such material, it will nevertheless be entitled to vote your shares of common stock in its discretion on "routine matters" and may give or authorize the giving of a proxy to vote the shares of common stock in its discretion on such matters. The ratification of independent public accountants is generally a routine matter; whereas the election of directors, actions with respect to stockholder advisory votes on executive compensation and the amendment to our 2010 Stock Incentive Plan are not considered routine matters. Absent your instructions, the record holder will not be

permitted to vote your shares on non-routine matters, which are referred to as "broker non-votes," including any non-routine matters properly brought before the annual meeting. Broker non-votes (shares held by brokers that do not have discretionary authority to vote on the matter and have not received voting instructions from their clients) are not counted or deemed to be present or represented for the purpose of determining whether stockholders have approved that proposal.

3

Who can attend the annual meeting?

Only stockholders eligible to vote or their authorized representatives will be admitted to the annual meeting. If you plan on voting at the annual meeting, you must bring a valid, government-issued photo identification, such as a driver's license or a passport, to authenticate your identity.

May I attend the annual meeting if I hold my shares in "street name"?

As the beneficial owner of shares, you are invited to attend the annual meeting. If your shares are held in "street name" (i.e., you are not a registered holder) and you wish to attend the annual meeting and/or vote in person, you must bring your broker or bank voter instruction card and a proxy, executed in your favor, from the record holder of your shares. In addition, you must bring a valid, government-issued photo identification, such as a driver's license or a passport, to authenticate your identity.

Can I change my vote after I submit my proxy card?

Yes, you may revoke your proxy given pursuant to this solicitation and change your vote any time before your shares are voted at the annual meeting:

- if you are a registered stockholder, by filing a written notice of revocation bearing a later date than the previously submitted proxy card with our Corporate Secretary before the taking of the vote at the annual meeting;
- by duly executing and submitting a later dated, properly completed proxy card relating to the same shares and delivering it to our Corporate Secretary before the taking of the vote at the annual meeting;
- by voting again via the Internet or by telephone before the taking of the vote at the annual meeting; or
-
- by attending the annual meeting and voting in person (attendance at the annual meeting will not in and of itself constitute a revocation of a proxy).

Any written notice of revocation or subsequently submitted proxy card must be received by our Corporate Secretary prior to the taking of the vote at the annual meeting. Such written notice of revocation or subsequently submitted proxy card should be hand delivered to our Corporate Secretary or should be sent so as to be delivered to Raptor Pharmaceutical Corp., 5 Hamilton Landing, Suite 160, Novato, California 94949, Attention: Corporate Secretary. Stockholders whose shares are held in "street name" should consult with their broker or nominee concerning the method for revoking their proxies.

Who will count the votes?

Broadridge will tabulate and certify the votes. Our Corporate Secretary will serve as the inspector of election at the annual meeting.

How does the Board of Directors recommend that I vote on the proposals?

Our Board of Directors recommends that you vote "FOR" each of the eight nominees for director in Proposal 1 and "FOR" Proposals 2, 3 and 4, as these proposals are further described in this proxy statement.

Will any other business be conducted at the meeting?

We do not currently anticipate that any other matters will be raised at the annual meeting. If any other matter properly comes before the stockholders for a vote at the annual meeting, however, your proxy (one of the individuals named on your proxy card) will vote your shares in accordance with his or her best judgment if you so authorize.

Quorum; Required Vote; Abstentions; Broker Non-Votes

How many shares must be present to hold the meeting?

Holders of one-third of the outstanding shares of common stock issued and outstanding as of the record date, or 56,754,823 shares, and entitled to vote at the annual meeting, present either in person or by proxy, constitutes a quorum and must be present at the annual meeting in order for the transaction of business. Stockholders are counted as present at the meeting if they (1) are present in person or (2) have properly submitted a proxy card or voted by telephone or by using the Internet.

Under the General Corporation Law of the State of Delaware, a vote withheld, an abstaining vote and a broker "non-vote" are counted as present and entitled to vote and are, therefore, included for purposes of determining whether a quorum is present at the annual meeting. A broker "non-vote" occurs when a broker or nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

What if a quorum is not present at the meeting?

If the shares of common stock present or represented at the annual meeting do not constitute the required quorum, the holders of a majority of the shares entitled to vote at the annual meeting who are present in person or represented by proxy may adjourn the annual meeting until a quorum is present or represented. The time and place of the adjourned annual meeting will be announced at the time the adjournment is taken, and no other notice may be given.

How many votes are required to elect the director nominees (Proposal 1)?

The affirmative vote of a plurality of the votes cast is required to elect the eight nominees as directors. This means that the eight nominees will be elected if they receive more affirmative votes than any other person. If you vote "WITHHELD" with respect to one or more nominees, your shares will not be voted with respect to the person or persons indicated, although they will be counted for purposes of determining whether there is a quorum.

What happens if a nominee is unable to stand for election?

If a nominee is unable to stand for election, our Board of Directors may either reduce the number of directors to be elected or select a substitute nominee. If a substitute nominee is selected, the proxy holder will vote your shares for the substitute nominee, unless you have withheld authority. Each nominee for election has agreed to serve if elected, and we have no reason to believe that any nominee will be unavailable to serve.

How many votes are required for the advisory approval of the compensation of the Company's Named Executive Officers (Proposal 2)?

The affirmative vote of a majority of voting power of the shares present in person or represented by proxy at our annual meeting is required for the advisory approval of the compensation of the Company's Named Executive Officers.

How many votes are required to approve the ratification of the appointment of Burr Pilger Mayer, Inc. as our independent registered public accounting firm for the year ending December 31, 2013 (Proposal 3)?

The affirmative vote of a majority of voting power of the shares present in person or represented by proxy at our annual meeting is required to approve the ratification of the appointment of Burr Pilger Mayer, Inc. as our independent registered public accounting firm for the year ending December 31, 2013.

How many votes are required to approve the adoption of the plan amendment to the Raptor Pharmaceutical Corp. 2010 Stock Incentive Plan (Proposal 4)?

The affirmative vote of a majority of voting power of the shares present in person or represented by proxy at our annual meeting is required to approve the adoption of the plan amendment to the Raptor Pharmaceutical Corp. 2010 Stock Incentive Plan.

How will abstentions and broker non-votes be treated?

An abstention will be treated as shares present for the purpose of determining the presence of a quorum and has the same effect as a vote against Proposals 2, 3 and 4. Shares voting "abstain" have no effect on the election of directors (Proposal 1). Broker "non-votes" will be treated as shares present for determining the presence of a quorum but have no effect and will not be counted towards the vote total for any proposal. See explanation under "What if I do not provide voting instructions for my shares of common stock on my proxy card or, with respect to such shares held in "street name," to my bank, brokerage firm, or other agent?" on page 4 of this proxy statement for more information on the impact of broker non-votes on each of the proposals.

Expenses

The Company is making this solicitation and will bear the cost of the solicitation of proxies, including the charges and expenses of brokerage firms and others of forwarding solicitation material to beneficial owners of common stock. In addition to the use of mails, proxies may be solicited by our directors, officers and other regular employees in person or by telephone, facsimile and e-mail. No additional compensation will be paid to directors, officers or other regular employees for such services.

In order to assure a quorum for the annual meeting, the Company has retained Georgeson Inc. to assist in the solicitation of proxies. Georgeson will be paid a fee of \$9,500 for their services plus reasonable out-of-pocket expenses. Without a quorum of holders of a majority of the outstanding shares of common stock issued and outstanding as of the record date of May 31, 2013 and entitled to vote at the annual meeting, the Company will incur additional costs in adjourning and postponing the annual meeting until such quorum is met. Such additional costs include additional printing and mailing of new proxy materials, which could result in substantial additional costs to the Company.

How to Obtain Directions to the Location of Our Annual Meeting of Stockholders

Our annual meeting is being held at the time and place set forth above under the heading "General Information." If you would like to attend the annual meeting to vote your shares in person, you can obtain directions to the annual meeting on our website www.raptorpharma.com under the heading "About Raptor - Contact."

Internet Availability of Proxy Materials

Why did I receive a notice in the mail regarding the Internet availability of proxy materials this year instead of a full set of proxy materials?

We are pleased to take advantage of the SEC rule that allows companies to furnish their proxy materials over the Internet. Accordingly, we have sent to certain of our stockholders of record and beneficial owners a notice regarding the Internet availability of proxy materials instead of a full set of proxy materials. Instructions on how to access the proxy materials over the Internet or to request a paper copy may be found in the notice of Internet availability of proxy materials. We will mail the notice of Internet availability of proxy materials on or about June 6, 2013.

Why didn't I receive a notice regarding the Internet availability of the proxy materials?

We will mail a paper copy of the proxy materials to certain stockholders on or about June 10, 2013.

What does it mean if I receive more than one notice of Internet availability of proxy materials or package of proxy materials?

If you received more than one notice of Internet availability of proxy materials or more than one package of proxy materials, this means that you have multiple accounts holding shares of our common stock. These may include accounts with our transfer agent and accounts with a broker, bank or other holder of record. Please vote all proxy cards and voting instruction cards that you receive with each notice of internet availability of proxy materials or package of proxy materials to ensure that all of your shares are voted.

How can I get electronic access to the proxy materials?

You can view the proxy materials on the Internet at the website referred to in your notice of Internet availability of proxy materials. The notice of annual meeting of stockholders, this proxy statement, the proxy card and our annual report to stockholders are available at www.proxyvote.com. These materials are also available on our website at <http://ir.raptorpharma.com/financials.cfm> under "SEC Filings."

How may I obtain a paper copy of the proxy materials?

If you received a notice regarding the Internet availability of the proxy materials, you will find instructions about how to obtain a paper copy of the proxy materials in your notice. We will mail a paper copy of the proxy materials to all stockholders to whom we do not send a notice of Internet availability of the proxy materials.

Change in Fiscal Year End

On December 4, 2012, our Board of Directors approved a change to our fiscal year end from August 31 to December 31. The change became effective at the end of the four months ended December 31, 2012. All references to "fiscal years" or "years" prior to this change refer to the twelve-month fiscal period covering September 1 through August 31, and each year after December 31, 2012, the fiscal year covers January 1 through December 31. We have included certain information in this proxy related to, among other things, the compensation of our directors and Named Executive Officers for both our prior fiscal year ended August 31, 2012, as well as the four month transition period ended December 31, 2012. In the future, the information we include in our proxy statement, including, but not limited to, the compensation related information for our directors and Named Executive Officers, will generally be based on our new fiscal year period covering January 1 through December 31.

7

PROPOSAL NO. 1: ELECTION OF DIRECTORS

Information about the Nominees

Your vote is requested in favor of eight directors named herein to our Board of Directors to serve until the next annual meeting of stockholders or until their successors are duly elected and qualified. Each of the nominees is currently a director of the Company and each of their terms expires at this annual meeting.

Our bylaws provide that the number of directors shall be determined from time to time by the Board of Directors, but may not be less than one. Our Board of Directors currently consists of eight persons.

Directors typically are elected for a period of one year and thereafter serve until the next annual meeting at which their successors are duly elected by our stockholders. Each nominee for election has agreed to serve if elected, and we have no reason to believe that any nominee will be unavailable to serve. If any nominee is unable or declines to serve as a director at the time of the annual meeting, the proxies named in the proxy card will vote for a nominee designated by the present Board of Directors to fill the vacancy. Unless otherwise instructed, the proxies named in the proxy card will vote all of the shares for which they hold proxies "FOR" the nominees named below.

Directors

The following table sets forth the name, age and position of each of our directors as of the date of this proxy statement.

Name	Age	Position(s) Held with the Company
Raymond W. Anderson (2)(3)	71	Director

Meetings and Committees of the Board of Directors

During the fiscal year ended August 31, 2012 and the four month transition period from September 1, 2012 to December 31, 2012, the Board of Directors met eight (8) times and two (2) times, respectively, and took action by written consent nine (9) times during the fiscal year ended August 31, 2012. In addition, under the Board's authorization, the Chief Executive Officer took action by written consent regarding the approval of stock options during the fiscal year ended August 31, 2012 and the four month transition period from September 1, 2012 to December 31, 2012, five (5) times and three (3) times, respectively. Each director attended at least 75% of the total number of meetings of the Board of Directors, as well as at least 75% of the total number of meetings of each committee of the Board of Directors on which he or she served. The Company does not have a formal policy requiring the members of our Board of Directors to attend our annual meetings of stockholders and one of the-then current directors attended our 2012 annual meeting of stockholders.

Board Leadership Structure and Role in Risk Oversight

Our Board of Directors does not have a policy on whether the offices of Chairman of the Board of Directors and Chief Executive Officer should be separate and, if they are to be separate, whether the Chairman of the Board should be selected from among the independent directors. Our Board of Directors believes that it should have the flexibility to make these determinations at any given time in the way that it believes best to provide appropriate leadership for the Company at that time. Our Board of Directors has reviewed our current Board of Directors' leadership structure in light of the composition of the Board of Directors, the Company's size, the nature of the Company's business, the regulatory framework under which the Company operates, the Company's stockholder base, the Company's peer group and other relevant factors. Considering these factors, the Company has determined to have a Chief Executive Officer and a separate Chairman of the Board of Directors. We have determined that this structure is currently the most appropriate Board leadership structure for the Company. Prior to September 1, 2012, the Company did not have an independent Chairman nor did we have a lead independent director, however, the Board of Directors believed that six independent directors out of eight directors was sufficient independent oversight of both the Chief Executive Officer and the Chairman of the Board. As of September 1, 2012, our Chairman became independent. During the fiscal year ended August 31, 2012 and the four month transition period from September 1, 2012 to December 31, 2012, all of our Board committees were comprised of independent directors.

The risk oversight function of our Board of Directors is carried out by both the Board of Directors and the Audit Committee. The Board of Directors and Audit Committee regularly review information regarding our credit, liquidity and operations, as well as the risks associated with each. Our Audit Committee meets periodically with management to discuss our major financial and operating risk exposures and the steps, guidelines and policies taken or implemented relating to risk assessment and risk management. Our Compensation Committee is responsible for overseeing the management of risks relating to our executive compensation plans and arrangements. Our Corporate Governance and Nominating Committee manages risks associated with the governance profile of the Company (including independence matters of our Board of Directors) and potential conflicts of interest and oversees management of risks associated with environmental, health and safety concerns. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board of Directors is informed about such risks by the committees.

Independence of Our Board of Directors

Our Board of Directors has determined that as of September 1, 2012, all current members of our Board of Directors are independent (as independence is currently defined in Rule 5605(a)(2) of the NASDAQ listing standards), except for Dr. Starr. Our Board of Directors has also determined that each member of our Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee is independent as defined by the SEC and NASDAQ rules.

The Audit Committee of our Board of Directors, herein referred to as the Audit Committee, has been established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (referred to herein as the Exchange Act). The Audit Committee is responsible for overseeing our accounting and financial reporting processes.

In such capacity, our Audit Committee:

- (i) has sole authority to appoint, replace and compensate our independent registered public accounting firm and is directly responsible for oversight of its work;
- (ii) approves all audit fees and terms, as well as any permitted non-audit services performed by our independent registered public accounting firm;
- (iii) meets and discusses directly with our independent registered public accounting firm its audit work and related matters; oversees and performs investigations with respect to our internal and external auditing procedures, including the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or auditing matters and the confidential and anonymous submission by employees of concerns regarding questionable accounting or auditing matters; and
- (iv) undertakes such other activities as the Audit Committee deems necessary or advisable and as may be required by applicable law.

Our Audit Committee currently consists of Mr. Anderson (Chair), Drs. Franklin and Keltner and Mr. Walbert. Mr. Anderson has been designated as the "audit committee financial expert" as defined by the regulations promulgated by the SEC. Our Board of Directors has determined that each member of the Audit Committee is independent as defined by NASDAQ and SEC rules applicable to audit committee members.

During the fiscal year ended August 31, 2012 and the transition period from September 1, 2012 through December 31, 2012, the Audit Committee met five (5) times and two (2) times, respectively. The charter of the Audit Committee can be found in the "Corporate Governance" section of our website at www.raptorpharma.com.

Compensation Committee

The Compensation Committee of our Board of Directors, herein referred to as the Compensation Committee, reviews, adopts and oversees our compensation strategy, policies, plans and programs, including:

- (i) the establishment of corporate and individual performance goals and evaluation of performance relevant to the compensation of our executive officers, directors and other senior management and staff;
- (ii) the review and approval of the terms of employment or service, including severance and change in control arrangements, of our Chief Executive Officer and the other executive officers;
the review and recommendation to the Board of Directors of the compensation plans and programs advisable for
- (iii) the Company, including the type and amount of compensation to be paid or awarded to non-employee directors;
and
- (iv) the administration of our equity compensation plans, pension and profit-sharing plans, deferred compensation plans and other similar plans and programs.

The Compensation Committee also reviews with management our Compensation Discussion and Analysis and considers whether to recommend that it be included in proxy statements and other filings.

The Compensation Committee has the exclusive authority and responsibility to determine all aspects of executive compensation packages for executive officers and makes recommendations to the Board of Directors regarding the compensation of non-employee directors. The executive officers are not present or involved in deliberations concerning their compensation. The Compensation Committee has the authority to retain compensation consultants to assist in its evaluation of executive and Director compensation. For additional description of the Compensation Committee's processes and procedures for consideration and determination of executive officer compensation, see the "Compensation Discussion and Analysis" section of this proxy statement.

Our Compensation Committee currently consists of Dr. Bruhn (Chair), Mr. Anderson, Mr. Samant and Mr. Walbert. Our Board of Directors has determined that each member of the Compensation Committee is independent as defined by NASDAQ rules.

In September 2011, our Compensation Committee hired Virginia Keller, at the time an outside Human Resources consultant, to update the benchmark of our base salaries, annual incentive cash bonuses and equity compensation (stock option grants) against the Aon Radford Global Life Sciences survey, a well-established blinded industry compensation survey. The Compensation Committee determined that during her consultation from September to December 2011, Ms. Keller was independent and there was no conflict of interest resulting from retaining Ms. Keller prior to and during her consulting engagement. In reaching these conclusions, the Compensation Committee considered the factors set forth in the SEC rules and the NASDAQ listing standards that recently became effective.

Subsequent to Ms. Keller's consulting engagement for the Compensation Committee, Ms. Keller was hired by Raptor on January 19, 2012, as Raptor's Director of Human Resources.

For the four month transition period from September 1 to December 31, 2012, our Compensation Committee hired Compensia, an independent compensation consulting firm to formulate its recommendations and update the benchmark of our base salaries, target bonus percentages and equity compensation (stock option grants) of our Named Executive Officers compared to equivalent positions in our peer companies and against Aon Radford Global Life Sciences survey for 2013. The Compensation Committee determined that Compensia is independent and there is no conflict of interest resulting from retaining Compensia currently or during the four month transition period from September 1 to December 31, 2012. In reaching these conclusions, the Compensation Committee considered the factors set forth in the SEC rules and the NASDAQ listing standards that recently became effective.

During the fiscal year ended August 31, 2012 and the transition period from September 1, 2012 through December 31, 2012, the Compensation Committee met three (3) times during each period. The charter of the Compensation Committee can be found in the "Corporate Governance" section of our website at www.raptorpharma.com.

Corporate Governance and Nominating Committee

The Corporate Governance and Nominating Committee of our Board of Directors, herein referred to as the Nominating Committee, has authority to review the qualifications of, interview and nominate candidates for election to our Board of Directors as well as develop a set of corporate governance principles for the Company. The primary functions of our Nominating Committee are to:

- (i) recruit, review and nominate candidates for election to our Board of Directors;
- (ii) monitor and make recommendations regarding committee functions, contributions and composition;
- (iii) develop the criteria and qualifications for membership on our Board of Directors; and
- (iv) provide oversight on all aspects of the Company's corporate governance functions.

The Nominating Committee develops the credentials and characteristics required of our Board of Directors and committee nominees in light of the composition of our Board of Directors and committees thereof, our business, operations, applicable legal and listing requirements, and other factors they consider relevant. The Nominating Committee may identify other candidates, if necessary, through recommendations from our directors, management, employees, the stockholder nomination process, or outside consultants. The Nominating Committee will review candidates in the same manner regardless of the source of the recommendation. For membership on our Board of Directors, the Nominating Committee takes into consideration applicable laws and regulations, diversity, age, skills, experience, integrity, ability to make independent analytical inquiries, understanding of our business and business environment, willingness to devote adequate time and effort to our Board of Directors' responsibilities and other relevant factors, including experience in the biotechnology and pharmaceutical industries. Although we do not have a formal diversity policy, when considering diversity in evaluating candidates, the Nominating Committee focuses on whether candidates can contribute varied perspectives, skills, experiences and expertise to the Board. The Nominating Committee's charter can be found in the "Corporate Governance" section of our website at www.raptorpharma.com. Our Nominating Committee currently consists of Dr. Keltner (Chair), Dr. Bruhn, Dr. Franklin and Mr. Samant. PROPOSAL NO. 2: ADVISORY VOTE TO APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

In accordance with the requirements of Section 14A of the Exchange Act (which was added by the Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Dodd-Frank Act, and related rules of the SEC, we are including in this proxy statement a proposal, subject to a non-binding, stockholder advisory vote, to approve the compensation of our Named Executive Officers described in the Compensation Discussion and Analysis section of this proxy statement. This proposal, commonly known as a "Say-on-Pay" proposal, gives you as a stockholder the opportunity to express your views on the compensation paid to our Named Executive Officers through the following resolution:

"RESOLVED, that the compensation paid to the Company's Named Executive Officers, as disclosed in this proxy statement pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby approved."

Because your vote is advisory, it will not be binding upon the Board of Directors; however, the Compensation Committee will take into account the outcome of the vote when considering future executive compensation arrangements. As described in detail under the heading "Compensation Discussion and Analysis," our executive compensation programs are designed to attract, motivate and retain our executives, who are critical to our success.

Under these programs, our Named Executive Officers are rewarded for the achievement of strategic and financial goals, which are expected to result in increased stockholder value. Unless the Board modifies its determination on the frequency of future "say-on-pay" advisory votes, the next advisory vote to approve the compensation of our Named Executive Officers will be held at the 2014 annual meeting of stockholders.

Required Vote

The affirmative vote of a majority of voting power of the shares present in person or represented by proxy at our annual meeting is required to approve on an advisory basis the compensation of our Named Executive Officers. **THE BOARD UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" PROPOSAL 2 APPROVING, ON A NON-BINDING ADVISORY BASIS, THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AS DESCRIBED IN THIS PROXY STATEMENT.**

PROPOSAL NO. 3: RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our Audit Committee has appointed the firm of Burr Pilger Mayer, Inc., an independent registered public accounting firm, to serve as our independent registered public accounting firm for our year ending December 31, 2013 and our Board of Directors recommends the stockholders vote for ratification of that appointment.

Burr Pilger Mayer, Inc. served as our independent registered public accounting firm during our transition period from September 1, to December 31, 2012, our fiscal years ended August 31, 2012, 2011 and 2010 and has served as RPC's independent registered public accounting firm from June 14, 2006 to September 29, 2009, the date our subsidiary effected a reverse triangular merger with RPC. A representative of Burr Pilger Mayer, Inc. is expected to be present at the annual meeting, with the opportunity to make a statement should the representative desire to do so, and be available to respond to appropriate questions.

Before making its selection, our Audit Committee carefully considered Burr Pilger Mayer, Inc.'s qualifications as our independent registered public accounting firm, which included a review of Burr Pilger Mayer, Inc.'s performance in prior years as RPC's independent auditor and in fiscal years 2010, 2011 and 2012 and the transition period from September 1 to December 31, 2012 as our independent auditor, as well as its reputation for integrity and competence in the fields of accounting and auditing. Our Audit Committee expressed its full satisfaction with Burr Pilger Mayer, Inc. in these respects.

Stockholder ratification of our Audit Committee's selection of Burr Pilger Mayer, Inc. as our independent registered public accounting firm is not required by law, our bylaws or other legal requirement. However, our Board of Directors is submitting our Audit Committee's selection of Burr Pilger Mayer, Inc. to our stockholders for ratification as a matter of good corporate governance. If our stockholders fail to ratify the selection, our Audit Committee will reconsider whether or not to retain that firm. Even if the selection is ratified, our Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such change would be in our and our stockholders' best interests.

The following is a summary of the fees and services provided for our transition period from September 1, 2012 through December 31, 2012 and fiscal years ended August 31, 2012 and 2011.

PROPOSAL NO. 4: APPROVAL OF THE PLAN AMENDMENT TO THE RAPTOR PHARMACEUTICAL CORP. 2010 STOCK INCENTIVE PLAN

In February 2010, our Board of Directors approved, and in March 2010 our stockholders approved, the Raptor Pharmaceutical Corp. 2010 Stock Incentive Plan, as subsequently amended and approved by our stockholders in March 2011, the "Plan". The Plan was adopted to recognize the contributions made by our employees, independent contractors, consultants, and directors, to provide those individuals with additional incentive to devote themselves to our future success and to improve our ability to attract, retain and motivate individuals upon whom our growth and financial success depends. The original Plan was filed as Appendix A to the Company's proxy statement for the 2010 annual meeting of stockholders. A link to the 2010 proxy statement is provided here:

<http://www.sec.gov/Archives/edgar/data/1070698/000107069810000006/raptorproxystatement.htm>.

In June 2013, our Board of Directors, subject to stockholder approval at this annual meeting, approved an amendment to the Plan, or the 2013 Plan Amendment, to ensure that the Company continues to operate successfully in a competitive marketplace in which its success depends on its ability to attract and retain employees, independent contractors, consultants, directors and other service providers of the highest caliber. The 2013 Plan Amendment would increase the share reserve available for issuance under the Plan, add a fungible share-counting provision, provide that shares purchased on the open market with the cash proceeds from exercise of any stock options shall not increase the number of shares available for future issuance under the Plan and provide that the administrator of the Plan may not cancel an outstanding option whose exercise price is greater than fair market value at the time of cancellation in exchange for cash, without shareholder approval. The 2013 Plan Amendment is set forth in Appendix A.

Proposal – 2013 Plan Amendment

Through the 2013 Plan Amendment, the Company is proposing to increase the share reserve available for issuance under the Plan by 3,000,000 shares to an aggregate of 11,936,383 shares. The 2013 Plan Amendment also adds a fungible share-counting provision stating that restricted stock and restricted stock unit awards will be counted against the reserve of shares available for issuance under the Plan as 1.35 shares for every one share actually issued and provides that shares purchased on the open market with the cash proceeds from exercise of any stock options shall not increase the number of shares available for future issuance under the Plan. The 2013 Plan Amendment also provides that the administrator of the Plan may not cancel an outstanding option whose exercise price is greater than fair market value at the time of cancellation in exchange for cash, without shareholder approval. As of May 31, 2013, 1,537,851 shares remained available for issuance under the Plan. Additionally, as of May 31, 2013, there were 7,398,532 stock options outstanding under Plan with a weighted average exercise price of \$4.70 and weighted average remaining term of 8.4 years. For all of the Company's equity compensation plans, as of May 31, 2013, there were 8,223,034 stock options outstanding with a weighted average exercise price of \$5.73 and weighted average remaining term of 7.9 years. In addition, as of May 31, 2013, there were no full-value awards (i.e., restricted shares and restricted share units) outstanding under the Company's equity compensation plans. Other than the foregoing, no other awards under the Company's equity compensation plans were outstanding or available for grant as of May 31, 2013. For a complete statement of the terms and provisions of the 2013 Plan Amendment, reference should be made to Appendix A.

In its determination to approve the 2013 Plan Amendment, our Board of Directors reviewed an analysis of certain burn rate, dilution and overhang metrics, and the costs of the 2013 Plan Amendment. Specifically, our Board of Directors considered that:

During the fiscal years ended August 31, 2012, 2011 and 2010, we granted equity awards representing a total of: 2,747,420; 2,231,790; and 302,772 (six month period since Plan inception) shares under the Plan, respectively. This level of equity awards represents a three-year adjusted average burn rate of 5.6% of weighted average shares of common stock outstanding.

If we do not increase the shares available for issuance under our equity plans, then based on historical usage rates of shares under our equity plans, we would expect to exhaust the share limit under our Plan by March 2014, at which time we would lose an important compensation tool aligned with stockholder interests to attract, motivate and retain highly qualified talent.

In fiscal years ended August 31, 2012, 2011 and 2010, our year-end overhang rate, calculated by dividing (i) the number of shares subject to equity awards outstanding at the end of the fiscal year plus the number of shares remaining available for issuance under our Plan by (ii) the number of our shares outstanding at the end of the fiscal year, was 17.7%, 18.0%, and 10.0%, respectively. If approved, the issuance of the additional shares to be reserved under the Plan would dilute the holdings of shareholders by an additional 4.4% on a fully diluted basis, based on the number of shares of our common stock outstanding as of May 31, 2013.

Summary of the Plan as Modified by the Proposed 2013 Plan Amendment

The summary below describes the Plan as modified by the 2013 Plan Amendment. This summary is not intended to be complete and reference should be made to Appendix A to the Company's proxy statement on Schedule 14A filed with the SEC on February 5, 2010 and Appendix A of this proxy statement for a complete statement of the terms and provisions of the Plan, as modified by the 2013 Plan Amendment. Capitalized terms used in these summaries and not otherwise defined will have the meanings ascribed to such terms in the Plan.

Purpose. The purpose of the Plan is (i) to enhance the Company's ability to attract highly qualified personnel; (ii) to strengthen its retention capabilities; (iii) to enhance the long-term performance and competitiveness of the Company; and (iv) to align the interests of Plan participants with those of the Company's stockholders.

Shares Subject to the Plan. As of May 31, 2013, the Plan provides for an aggregate availability of 8,936,383 shares. In addition, the Plan provides that no more than 9,000,000 shares of common stock may be issued pursuant to Awards under the Plan. The 2013 Plan Amendment would increase the number of shares available for issuance under the Plan by 3,000,000 shares to an aggregate of 11,936,383 shares; provided, however that such aggregate number of shares available for issuance under the Plan shall be reduced by 1.35 shares for each share delivered in settlement of any restricted share or restricted share unit. The currently available shares and the newly proposed shares shall be authorized but unissued shares, or shares that the Company has reacquired or otherwise holds in treasury or in a trust. The number of shares available for Awards and the terms of outstanding Awards are subject to adjustment as provided in the Plan for share splits, share dividends, recapitalizations and other similar events. Shares of common stock that are subject to any Award that expires, or is forfeited, cancelled or becomes unexercisable will again be available for subsequent Awards, except as prohibited by law. To the extent that a restricted share or restricted share unit expires, or is forfeited or cancelled or such Award is settled for cash (in whole or in part), as applicable, the shares available under the Plan shall be increased by 1.35 shares subject to such restricted share or restricted share unit that is forfeited, expired or settled in cash, as applicable. On the other hand, shares that a participant owns and tenders in payment of all or part of the exercise price of an Award or in satisfaction of applicable withholding taxes or shares purchased on the open market with the cash proceeds from the exercise of stock options shall not increase the number of shares available for future issuance under the Plan.

Administration. Either the Board of Directors or a committee appointed thereby will administer the Plan. The Board of Directors or any committee exercising discretion under the Plan from time to time is referred to as the "Committee." If the Committee is other than the Board, the Board of Directors may at any time appoint additional members to the Committee, remove and replace members of the Committee with or without cause, and fill vacancies on the Committee. With respect to decisions involving persons who are reporting persons pursuant to Rule 16b-3 of the Exchange Act, the Committee is to consist of two or more directors who are disinterested within the meaning of Rule 16b-3. With respect to decisions involving an Award intended to satisfy the requirements of Section 162(m) of the Code, the Committee is to consist of two or more directors who are "outside directors" for purposes of that Code section. The Committee may delegate administrative functions to individuals who are reporting persons for purposes of Rule 16b-3 of the Exchange Act, officers or employees of the Company or its affiliates. To the extent permitted by law, the Committee may authorize one or more persons who are reporting persons for purposes of Rule 16b-3 under the Exchange Act (or other officers) to make Awards to Eligible Persons who are not reporting persons for purposes of Rule 16b-3 under the Exchange Act (or other officers whom the Company has specifically authorized to make Awards).

Subject to the terms of the Plan, the Committee has express authority to determine the Eligible Persons who will receive Awards, the number of shares of common stock or units to be covered by each Award, and the terms and conditions of Awards. The Committee has broad discretion to prescribe, amend, and rescind rules relating to the Plan and its administration, to interpret and construe the Plan and the terms of all Award agreements, and to take all actions necessary or advisable to administer the Plan. Within the limits of the Plan, the Committee may accelerate the vesting

of any Award and may modify, replace, cancel or renew them, subject to stockholder approval to the extent required by Plan terms.

The Plan provides that the Company and its affiliates will, to the extent permitted by law, indemnify members of the board or the Committee and their delegates against any claims, liabilities or costs arising from the good faith performance of their duties under the Plan. The Plan releases these individuals from liability for good faith actions associated with the Plan's administration.

Eligibility. The Committee may grant options that are intended to qualify as incentive share options, or ISOs, only to Employees, and may grant all other Awards to Eligible Persons. The Plan and the discussion below use the term "Participant" to refer to an Eligible Person who has received an Award. The Plan provides that no Participant may receive Options that relate to more than 500,000 shares per fiscal year. As of May 31, 2013, substantially all of the 55 Employees (including officers) of the Company and its affiliates and all of the Company's non-employee directors would have been eligible to participate in the Plan.

21

Options. Options granted under the Plan provide Participants with the right to purchase shares of common stock at a predetermined exercise price. The Committee may grant options that are intended to qualify as ISOs or options that are not intended to so qualify, or Non-ISOs. The Plan also provides that ISO treatment may not be available for options that become first exercisable in any calendar year to the extent the value of the underlying shares that are the subject of the option exceeds \$100,000 (based upon the fair market value of the shares of common stock on the option grant date).

Exercise Price for Options. The exercise price of ISOs and Non-ISOs may not be less than 100% of the fair market value on the grant date of the shares of common stock subject to the Award (110% of fair market value for ISOs granted to Employees who, at the time of grant, own more than 10% of the Company's outstanding shares of common stock). As of May 31, 2013, the closing price per share of the Company's common stock on the NASDAQ Capital Market was \$7.59 per share.

Exercise of Options. To the extent exercisable in accordance with the agreement granting them, an option may be exercised in whole or in part, and from time to time during its term, subject to the times, circumstances, and conditions for exercise contained in the applicable agreement. With respect to options, the Committee has the discretion to accept payment of the exercise price in the form or combination of cash or check in U.S. dollars. The Committee also has the discretion to accept any other method of payment the Committee decides is acceptable. The term over which Participants may exercise options may not exceed ten years from the date of grant (five years in the case of ISOs granted to Employees who, at the time of grant, own more than 10% of the Company's outstanding shares of common stock).

Subject to the terms of the agreement evidencing an option grant, to the extent vested, the option may be exercised during the six-month period after the optionee retires, during the one-year period after the optionee's termination of service due to death or permanent disability, during the 90-day period after the optionee's termination of service for reasons other than Cause, Retirement, Disability or Death (but in no case later than the termination date of the option). The agreements evidencing the grant of an option may, in the discretion of the Committee, set forth additional or different terms and conditions applicable to such option upon a termination or change in status of the employment or service of the option holder. Options may not be exercised after a termination for "Cause," as defined in the Plan.

Restricted Shares and Restricted Units. Under the Plan, the Committee may grant restricted shares that are forfeitable until certain vesting requirements are met and may grant restricted share units which represent the right to receive shares of common stock after certain vesting requirements are met. For restricted Awards, the Plan provides the Committee with discretion to determine the terms and conditions under which a Participant's interest in such Awards becomes vested.

Cash dividends generally will be paid to restricted stockholders once their shares vest. Other adjustments normally will not be made to Awards on account of cash dividends.

Recoupment of Awards. Unless otherwise provided in an agreement granting an Award, and to the extent permitted by Applicable Law, the Committee may in its sole and absolute discretion, without obtaining the approval or consent of the Company's stockholders or of any Participant, require that a Participant reimburse the Company for all or any portion of any Awards granted under the Plan or may require the termination or rescission of, or the recapture associated with any Award, if and to the extent (i) the granting, vesting or payment of the Award was predicated on the achievement of certain financial results that were subsequently the subject of a material financial restatement, (ii) the Participant either benefited from a calculation that later proves to be materially inaccurate or the Participant engaged in fraud or misconduct that caused the need for a material financial restatement by the Company, and (iii) a lower granting, vesting, or payment of such Award would have occurred based upon the conduct described in clause (ii) above.

Income Tax Withholding. As a condition for the issuance of shares pursuant to Awards, the Plan requires satisfaction of any applicable federal, state, local, or foreign withholding tax obligations that may arise in connection with the award or the issuance of shares.

Federal Income Tax Consequences. With respect to nonqualified stock options, the Company is generally entitled to deduct and the optionee recognizes taxable income in an amount equal to the difference between the option exercise price and the fair market value of the shares at the time of exercise. A participant receiving incentive stock options will not recognize taxable income upon grant. Additionally, if applicable holding period requirements are met (e.g., the stock acquired upon exercise of an incentive stock option is held for a minimum of two years from the date of grant and one year from the date of exercise), the participant will not recognize taxable income at the time of exercise of the incentive stock option. However, the excess of the fair market value of the common stock received over the exercise price is an item of tax preference income potentially subject to the alternative minimum tax. The gain or loss (in an amount equal to the difference between the fair market value on the date of sale and the exercise price) upon disposition of such stock will be treated as a long-term capital gain or loss, and the Company will not be entitled to any deduction. If the holding period requirements described above are not met, the incentive stock option will be treated as one which does not meet the requirements of the Code for incentive stock options and the tax consequences described for nonqualified stock options will apply, although the amount of income recognized by the participant will be the (i) the excess of the fair market value of the shares at the time of exercise over the exercise price, or (ii) the excess of the amount realized on the disposition over the exercise price.

22

The current federal income tax consequences of other awards authorized under the Plan generally follow certain basic patterns: nontransferable restricted stock subject to a substantial risk of forfeiture and restricted stock units will result in income recognition equal to the excess of the fair market value over the price paid, if any, only at the time the restrictions applicable to such awards lapse (unless, with respect to an award of restricted stock, the recipient elects to accelerate recognition as of the date of grant). In each of the foregoing cases, the Company will generally have a corresponding deduction at the time the participant recognizes income, subject to Section 162(m) of the Code with respect to covered employees.

Transferability. Awards may not be sold, pledged, assigned, hypothecated, transferred or disposed of other than by will or the laws of descent and distribution, except to the extent the Committee permits lifetime transfers in the form of Non-ISOs or Restricted Shares to charitable institutions, certain family members or related trusts or otherwise.

Certain Corporate Transactions. The Committee shall equitably adjust the number of shares covered by each outstanding Award, and the number of shares that have been authorized for issuance under the Plan but as to which no Awards have yet been granted or that have been returned to the Plan upon cancellation, forfeiture or expiration of an Award, and the manner in which shares subject to restricted shares or restricted share units will be counted, as well as the price per share covered by each such outstanding Award, to reflect any increase or decrease in the number of issued shares resulting from a share split, reverse share split, share dividend, combination, recapitalization or reclassification of the shares, merger, consolidation, change in the form of organization, or any other increase or decrease in the number of issued shares effected without receipt of consideration by the Company. In the event of any such transaction or event, the Committee may provide in substitution for any or all outstanding Awards under the Plan such alternative consideration (including securities of any surviving entity) as it may in good faith determine to be equitable under the circumstances and may require in connection therewith the surrender of all Awards so replaced. In any case, such substitution of securities will not require the consent of any person who is granted Awards pursuant to the Plan. Except as expressly provided in the Plan, or in an Award Agreement, if the Company issues for consideration shares of stock of any class or securities convertible into shares of stock of any class, the issuance shall not affect, and no adjustment by reason thereof shall be required to be made with respect to, the number or price of shares subject to any Award.

In the event of a Change in Control (as defined in the Plan), the Plan currently provides that the Committee may at any time in its sole and absolute discretion and authority, without obtaining the approval or consent of the Company's stockholders or any Participant with respect to his or her outstanding Awards (except to the extent an Award provides otherwise), take one or more of the following actions: (i) arrange for or otherwise provide that each outstanding Award will be assumed or substituted with a substantially equivalent award by a successor corporation or a parent or subsidiary of such successor corporation; (ii) accelerate the vesting of Awards so that Awards shall vest (and, to the extent applicable, become exercisable) as to the shares that otherwise would have been unvested and provide that repurchase rights of the Company with respect to shares issued pursuant to an Award shall lapse as to the shares subject to such repurchase; (iii) arrange or otherwise provide for payment of cash or other consideration to Participants in exchange for the satisfaction and cancellation of outstanding Awards; or (iv) terminate all or some Awards upon the consummation of the transaction, provided that the Committee may in its sole discretion provide for vesting of all or some outstanding Awards in full as of a date immediately prior to consummation of the Change in Control. To the extent that an Award is not exercised prior to consummation of a transaction in which the Award is not being assumed or substituted, such Award shall terminate upon such consummation. The Committee may also make such other modifications, adjustments or amendments to outstanding Awards or to the Plan as the Committee deems necessary or appropriate, subject to the terms of the Plan.

The Plan currently defines a "Change in Control" as any of the following (i) any person or entity becomes a beneficial owner, directly to indirectly, of securities representing 50% or more of the combined voting power of the Company's outstanding securities, (ii) the Company consummates a merger or consolidation of the Company unless (x) the voting securities of the Company outstanding immediately before such transaction would continue to represent

at least 50% of the combined voting power of the voting securities of the Company or the surviving entity in such transaction, and (y) the event under clause (i) above has not occurred, (iii) the sale of all or substantially all of the Company's assets, or (iv) the stockholders of the Company approve a plan for liquidation or dissolution of the Company, not including for any of these purposes any transaction whereby the record holders of the Company's common stock immediately prior to such transaction continue to have substantially the same proportionate ownership in the entity which owns all or substantially all of the assets of the Company immediately following such transaction.

Finally, if the Company dissolves or liquidates other than as a part of a Change in Control, all Awards will terminate immediately prior to such dissolution or liquidation.

23

Term of the 2010 Plan; Amendments or Termination. The term of the Plan is 10 years from February 2, 2010, the date it was approved by our Board of Directors. The Board of Directors may from time to time, amend, alter, suspend, discontinue or terminate the Plan; provided that no amendment, suspension or termination of the Plan shall materially and adversely affect Awards already granted (with such an affect being presumed to arise from a modification that would trigger a violation of Section 409A of the Code) unless (i) it relates to an adjustment pursuant to certain transactions that change the Company's capitalization, (ii) it is otherwise mutually agreed between the Participant and the Committee, or (iii) the Committee determines in good faith, before a Change in Control, that the modification is not materially adverse to the Participant. However, no change shall be made that increases the total number of Shares reserved for issuance pursuant to Awards (except pursuant to a Change in Capitalization or a Change in Control) unless such change is authorized by the stockholders of the Company. Furthermore, neither the Company nor the Committee shall, without stockholder approval, allow for a repricing within the meaning of the federal securities laws applicable to proxy statement disclosures or provide for the cancellation of an outstanding Option whose exercise price is greater than Fair Market Value at the time of cancellation for the purpose of reissuing the Option to the Participant at a lower exercise price or granting a replacement Award of a different type or in exchange for cash.

New Plan Benefits. The Committee will grant Awards under the Plan at its discretion. Consequently, it is not possible to determine at this time the amount or dollar value of Awards to be provided under the Plan in the future, other than to note that the Committee has not granted Awards that are contingent upon the approval of the 2013 Plan Amendment as of May 31, 2013.

Historical Grants Table. The following table provides information with respect to cumulative awards granted under the Plan to our Named Executive Officers, executive officers, directors and employees as of May 31, 2013. As stated above, it is not possible to determine the amounts of awards that will be granted in the future to participants under the Plan.

Approval of the 2013 Plan Amendments

If the 2013 Plan Amendment is approved by the stockholders, our Board of Directors intends to cause the additional shares of common stock that will become available for issuance to be registered on a Form S-8 Registration Statement to be filed with the SEC at the Company's expense. The increase in the share reserve will result in further dilution of the Company's shares. If the 2013 Plan Amendment is not approved by the stockholders at this annual meeting, the Plan will remain in effect; however, only 1,537,851 shares remained available for grant as of May 31, 2013.

Required Vote

Approval of the 2013 Plan Amendment requires the affirmative vote of a majority of voting power of the shares present in person or represented by proxy at the annual meeting at which a quorum is present.

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE "FOR" THE APPROVAL OF THE 2013 PLAN AMENDMENT TO THE RAPTOR PHARMACEUTICAL CORP. 2010 STOCK INCENTIVE PLAN.

Named Executive Officer Compensation Compensation Discussion and Analysis

Overview

The Compensation Committee of our Board of Directors, herein referred to as the Compensation Committee, has overall responsibility for the compensation program for our executive officers. The Compensation Committee reviews, adopts and oversees our compensation strategy, policies, plans and programs, including:

- (i) the establishment of corporate and individual performance goals and evaluation of performance relevant to the compensation of our executive officers and other senior management and staff;
- (ii) the review and approval of the terms of employment or service, including severance and change in control arrangements, of our Chief Executive Officer and the other executive officers;
- (iii) the review and recommendation to the Board of Directors of the compensation plans and programs advisable for the Company, including the type and amount of compensation to be paid or awarded to non-employee directors; and
- (iv) the administration of our equity compensation plans, pension and profit-sharing plans, deferred compensation plans and other similar plans and programs.

In evaluating executive officer pay, the Compensation Committee may retain the services of an independent compensation consultant or research firm and consider recommendations from our Chief Executive Officer and persons serving in managerial positions over a particular executive officer with respect to goals and compensation of the executive officer. The executive officers are not present or involved in deliberations concerning their compensation. Our Compensation Committee assesses the information it receives in accordance with its business judgment. All decisions with respect to executive compensation are first approved by our Compensation Committee and then submitted, together with the Compensation Committee's recommendations, to our Board of Directors for final approval. Our Chief Executive Officer is not present for the discussion of and approval of his compensation. However, some compensation elements for our Chief Executive Officer are approved as an integral part of a company-wide action or program.

We choose to pay the various elements of compensation discussed in order to attract, retain and motivate our high quality executive talent, reward annual performance and provide incentive for the achievement of intermediate and long-term strategic goals.

We believe that the compensation of our executives (and their functional or business teams) should reflect their success in achieving key objectives and individual performance factors. The key objectives broadly include:

- (1) establishing and executing on product development program milestones within planned budgetary expenditures and timelines;
- (2) securing adequate funds to achieve program objectives, to maintain solvency and to moderate financial risk;
- (3) expanding our preclinical product pipeline through creation of novel proprietary products, by utilization of technology, or by acquiring/ in-licensing new preclinical or clinical products and technology;
- (4) creating corporate partnerships, contracts, collaborations and in-licensing or out-licensing products and technologies to achieve strategic objectives;
- (5) submitting and receiving satisfactory results from regulatory submissions and interactions with regulators;
- (6) developing a strong intellectual property position enhancing the value of our product candidates and technologies;
- (7)

developing and implementing all aspects of major marketing and sales support programs for innovative prescription pharmaceuticals, especially for products targeted at ultra-orphan or orphan disease indications; developing and leading an integrated direct field sales and medical liaison specialist force for the enrollment of (8) patients into Company programs for prescription of innovative pharmaceuticals for treatment of patients with ultra-orphan or orphan diseases, meeting sales revenue projections under intense competitive and business environmental conditions;

27

- selecting and managing contract manufacturing organizations at the active pharmaceutical ingredient and drug product manufacturing levels (including packaging and other relevant activities) in full compliance with
- (9) demanding regulatory controls, (as cGMP) and within product total manufacturing cost boundaries in order to meet commercial and clinical product demand schedules;
 - developing and managing quality assurance and quality control functions in compliance with regulatory
 - (10) requirements designed to ensure the safety and efficacy of our pharmaceutical products and therapeutic drug monitoring programs under both clinical and commercial conditions;
 - developing and maintaining a regulatory, marketing, and sales organization to launch and develop ultra-orphan
 - (11) and orphan products in international markets, with initial focus on countries with the EU and other European markets, meeting sales revenue projections under intense competitive and difficult economic conditions;
 - developing and managing coordinated systems of third party logistics providers, pharmacies, and other
 - (12) organizations to provide efficient controls over and distribution of Company products; and
 - (13) increasing short-term and long-term stockholder value.

Key individual factors for each executive include:

- (1) the value of their unique skills and capabilities to support our short and long-term performance;
- (2) performance of their management responsibilities;
- (3) leadership qualities in enhanced team performance;
- (4) business judgment and execution skills;
- current compensation arrangements, especially in comparison to the compensation of other executives in similar
- (5) positions in competitive companies within our industry and whether an increase in responsibilities and change in title is warranted;
- (6) short and long-term potential to enhance stockholder value; and
- (7) contributions as a member of the executive management team.

Our allocation between currently paid cash compensation and longer term equity compensation is intended to balance the requirement for adequate base compensation to attract, retain and motivate highly skilled personnel, while providing equity incentives to maximize long-term value for our stockholders and thus for our employees. We provide cash compensation in the form of base salary and annual, discretionary incentive cash bonuses to reward performance against preset written goals and objectives. We provide non-cash equity compensation to reward performance against current, intermediate and long-term strategic goals and provide a basis for improved financial security for the employee if our stockholders and we have financial success.

The Role of Stockholder Say-on-Pay Votes

We provide our stockholders with the opportunity to cast a non-binding advisory vote on the compensation of our Named Executive Officers' and on the frequency with which this vote should be conducted in future years. During fiscal year 2012, our Named Executive Officers included our principal executive officer (Chief Executive Officer), our principal financial officer (Chief Financial Officer), and our three most highly compensated executive officers other than the principal executive officer and principal financial officer. In May 2012 at our Annual Meeting of Stockholders, based upon total shares voted, our stockholders approved our Named Executive Officers' compensation with a 94% affirmative vote and 89% of voters voted for a one year frequency for say-on-pay. Although the stockholder vote is non-binding, the Compensation Committee will consider the outcome of the vote when making future compensation decisions for Named Executive Officers. In addition, we will conduct future stockholder advisory votes on the compensation of our Named Executive Officers once every year, until the next required stockholder advisory vote on the frequency of future stockholder advisory votes on the compensation of our Named Executive Officers, which we will conduct no later than our 2014 Annual Meeting of Stockholders.

Compensation Risks

We believe that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on the Company. In addition, the Compensation Committee believes that the mix and design of the elements of executive compensation do not encourage management to assume excessive risks.

The Compensation Committee reviewed the elements of executive compensation to determine whether any portion of executive compensation encouraged excessive risk taking and concluded:

- significant weighting towards long-term equity compensation (with multiple year vesting schedules and long expiration terms) discourages short-term risk taking;
- for key decision-making officers, base salary makes up a significant majority of cash compensation even with full achievement of annual incentive (cash) awards;
- goals are appropriately set to avoid targets that, if not achieved, result in a large percentage loss of compensation;
- as a pharmaceutical product development company with industry standard long development timelines, prior to U.S. drug approval in April 2013, we did not face the same level of short-term risks associated with compensation for employees at other companies in rapidly changing markets; and
- with a U.S. drug approved in April 2013, as a company with an ultra-orphan product in the critical phase of market launch, the capital market risk has increased due to the short term focus on the emerging product performance in the pharmaceutical marketplace. This potentially affects both short-term cash and long-term equity compensation.

Furthermore, compensation decisions include subjective considerations, which moderate the influence of formulaic or objective factors which may encourage excessive risk taking.

Elements of Compensation

Elements of compensation for our executives generally include:

- base salary (typically subject to review and potential adjustment annually based on inflation factors, industry competitive salary levels, our ability to pay, and performance on corporate and individual goals);
- annual performance bonuses which are paid in cash and are based primarily on performance against preset written goals;
- equity compensation (which to date has been implemented using stock option awards with multiple year vesting terms and up to ten year expiration periods);
- 401(k) plan Company matching contributions;
- health, disability and life insurance; and
- employment terms and conditions including severance and change in control provisions primarily delineated in individual employment contracts or employer offer letters and Company policies.

Base Salary

At hire, base salaries are set for our executives based on the scope of each executive's responsibilities, as well as their qualifications, breadth of experience, performance record in similar situations, depth and breadth of appropriate functional expertise and close match with position requirements. Competitive market compensation paid by similar companies in our industry for individuals with similar responsibilities is a fundamental consideration.

Shortly after the end of each fiscal year, the Compensation Committee conducts an annual review of base salaries and the overall compensation package as a basis for any adjustments. Annual adjustments, if any, are typically made effective retroactive to the first day of the new fiscal year. The basis for salary adjustments may include merit increases in the competitive marketplace, adjustments to move individuals toward our target penetration in the competitive salary range for similar positions, increased duties and responsibilities, and sustained superior performance against goals and in special assignments. Adjustments may be made during the fiscal year for promotions, for highly urgent competitive reasons, for sustained superior performance in new or special challenges or

circumstances, and similar reasons (mid-year adjustments generally require unusual or special circumstances).

Edgar Filing: Raptor Pharmaceutical Corp - Form DEF 14A

Fiscal Year Ended August 31, 2012

The Compensation Committee made recommendations and the Board of Directors approved base salary compensation for our executive officers for the fiscal year ended August 31, 2012 taking into account:

- our status as an early-stage product development company without revenues or meaningful cost sharing collaborative agreements;
- competitive levels of compensation; and
- our ability to pay at this stage of our funding capability.

In September 2011, following its usual practice, our Compensation Committee hired Virginia Keller, at the time an outside Human Resources consultant, to update the benchmark of our base salaries, annual incentive cash bonuses and equity compensation (stock option grants) against the Aon Radford Global Life Sciences survey, a well-established blinded industry compensation survey. In addition, our Compensation Committee considered individual performance and competitive salaries paid to executive officers of other biopharmaceutical/biotechnology companies similar in size, stage of development and other characteristics. In making its recommendations, the Compensation Committee took into account assessments and recommendations submitted by the person serving as the manager of a particular executive officer.

After consideration of competitive salary compensation factors, the Board of Directors acting on the recommendation of the Compensation Committee, increased the salaries of our Named Executive Officers.

Effective September 1, 2011, the base salary of Dr. Starr, our Chief Executive Officer, was increased to \$356,807. This represents the 45th percentile for the comparative companies in the Aon Radford Global Life Sciences survey, a blinded industry compensation survey, grouping for companies with under 50 employees. This increase constituted a 3% increase in Dr. Starr's base salary.

Effective September 1, 2011, Ms. Tsuchimoto and Mr. Reichenberger both received 3% increases to their fiscal year 2011 base salaries, Mr. Daley received a 5.8% increase and Dr. Rioux received a 7.6% increase to equate their salaries to the 45th percentile for the comparative companies in the Radford survey grouping for companies with under 50 employees. These raises were to match merit increases among companies in the Radford survey and to maintain the relative position in the Radford survey grouping for companies with under 50 employees.

Four month transition period from September 1, 2012 through December 31, 2012

With the appointment on September 10, 2012 of Ms. Smith as Executive Vice President, Strategy, Chief Operations Officer and Ms. Erbez as Chief Financial Officer, Secretary and Treasurer, effective September 10, 2012, our Named Executive Officers for the four month transition period were Dr. Starr, Ms. Erbez, Ms. Tsuchimoto, Ms. Smith, Mr. Daley and Dr. Rioux.

The Compensation Committee made recommendations and the Board of Directors approved base salary compensation for our newly appointed and exiting executive officers effective September 2012.

To formulate its recommendations, our Compensation Committee hired Compensia, an independent compensation consulting firm to update the benchmark of our base salaries, target bonus percentages and equity compensation (stock option grants) of our Named Executive Officers compared to equivalent positions in our peer companies and against Aon Radford Global Life Sciences survey, a well-established blinded industry compensation survey. In addition, our Compensation Committee considered individual performance. The peer companies selected jointly by Compensia and our Compensation Committee consisted of the following:

Aegerion Pharmaceuticals	Dyax	Progenics Pharmaceutical
Affymax	Dynavax Technologies	Sangamo BioSciences
Amicus Therapeutics	MAP Pharmaceuticals	Synageva BioPharma
ArQule	Neurocrine Biosciences	Transcept Pharmaceuticals
Avanir Pharmaceuticals	Novavax	Vical
Corcept Therapeutics	Omeros	Zalicus
Curis	Oncothyreon	
Depomed	Orexigen Therapeutics	

These peer companies were determined to be appropriate from a market capitalization and from a corporate progress/stage of development and corporate strategy perspective. At the time of the peer review, the Company's market capitalization was below the median of the peer group market capitalization (200-day average market capitalization as of September 5, 2012). In addition, our Compensation Committee considered individual performance, recommendations submitted by the person serving as the manager of a particular executive officer and our ability to pay at our current stage of development.

After consideration of competitive salary compensation factors, the Board of Directors acting on the recommendation of the Compensation Committee, increased (or set in the case of Ms. Smith and Ms. Erbez) the salaries of our Named Executive Officers.

Annual Incentive Cash Bonus and Other Non-Equity Incentive Plan Compensation

All of our executive officers are eligible for annual and discretionary cash and stock option bonuses pursuant to their employment agreements.

Our Compensation Committee has implemented an annual performance program. Annual performance goals are determined and documented in writing at the beginning of each fiscal year for the Company as a whole (corporate goals) and for each executive (individual goals). Should there be a meaningful change in our situation, environment, or operating strategy, goals may be modified or new, more appropriate goals may be instituted upon the recommendation of our Compensation Committee and approval by our Board of Directors.

Performance against our corporate goals and the executive's individual goals is considered by our Compensation Committee in evaluating performance and as a significant contributing factor in determining all aspects of the compensation of our executives. Performance against goals is the primary factor in determining annual cash incentive bonuses.

Goals are weighted in importance and are time-bound. When taken as a whole, goals are intended to be challenging goals which will have a meaningful impact on stockholder value, either immediately or as preparatory steps required for future achievements.

The achievement scores are desired to be measurable and quantifiable when appropriate. After judgmental evaluation of performance, achievement scores may be awarded which recognize partial performance of a goal or award additional score points for exceptional performance due to unanticipated challenges or superior performance.

Fiscal Year Ended August 31, 2012

Fiscal Year 2012 Corporate Goals

Our corporate goals are grouped into our major activities with the weighting shown.

Development of RP103 for Cystinosis (weighted 60%)

- File for marketing approval in the U.S. and the EU by March 2011;
- Respond to FDA/EMA comments to NDA/MAA filings within regulatory timeframes; and
- Establish a European headquarters with a General Manager hired in anticipation of EU launch by June 2011.

Finance (weighted 30%)

- Manage cash burn and execute planned programs;
- Raise funds in order to end fiscal year 2012 with one year of cash; and
- Improve stockholder base by increasing stock ownership percentage of the target stockholder groups.

Development of RP103 for Other Indications (weighted 10%)

- Commence our Phase 2b non-alcoholic steatohepatitis, or NASH, clinical trial by March 2012; and
- Complete enrollment of our Phase 2/3 Huntington's disease, or HD, clinical trial in France by December 2011.

An overall corporate achievement score of 78% was determined by our Board of Directors to reflect the achievement of the majority of the most important fiscal year 2012 goals as agreed in advance by the Board of Directors, including completion of key regulatory filings for our RP103 cystinosis program, commencement of our NASH Phase 2b clinical trial, complete enrollment of our Huntington's disease Phase 2/3 clinical trial, and meeting critical financial

objectives. Goals that were not met or only partially met were generally lower weighted goals, including a delay in the full enrollment of the HD clinical trial and the improvement of our stockholder base.

32

Fiscal Year 2012 Individual Goals

Our Chief Executive Officer's individual goals are identical to the corporate goals. Individual goals are proposed by each executive and reviewed by our Chief Executive Officer. After review and modification, if necessary, by our Compensation Committee, the goals are approved by our Board of Directors.

In fiscal year 2012, a significant percentage of the value of the individual executive officer's goals was based on our performance against his/her goals which directly support our corporate goals. During fiscal year 2012, each executive officer made a significant contribution to the achievement of our corporate goals. The remaining value is based on achievement of goals which are more focused on needed achievements within the executive's areas of responsibility.

Each organizational level in the Company has a target percentage of the annual base salary for annual incentive bonus awards. Such awards are granted at the sole discretion of our Board of Directors, include subjective aspects of performance, and can be modified based on multiple factors including our available financial resources, our overall performance and others. Bonuses are pro-rated for the time of service within the year. An employee must still be in active service at the time of our board's determination to be eligible to be paid an annual incentive bonus.

Awards can vary up to 125% of the target percentage based on assessment of the achievement of meaningful additional goals or sustained superior performance in the conduct of duties and responsibilities in the employee's position.

The percentages are set at 100% achievement of applicable corporate and individual goals. The target bonus percentages for our Named Executive Officers for fiscal year 2012 were as follows: Dr. Starr 40% of his annual base salary; Ms. Tsuchimoto and Mr. Reichenberger 27.5% each; and Mr. Daley and Dr. Rioux 30% each.

Fiscal Year 2012 Goal Achievements for Christopher M. Starr, Ph.D., Our Chief Executive Officer

Dr. Starr's annual incentive bonus equals 40% of base salary (the base salary target percentage) multiplied by a corporate achievement score of 78% equaled an annual incentive bonus of \$112,000. The corporate achievement score of 78% reflects the judgment of the Board of Directors that the majority of the fiscal year 2012 goals as agreed in advance were met, as described above.

Fiscal Year 2012 Goal Achievements for Kim R. Tsuchimoto, Our Former Chief Financial Officer, Secretary and Treasurer (Currently VP, Finance)

Ms. Tsuchimoto had a major role in the achievement of our corporate financial goals. In recognition of this factor, corporate financial goals account for 50% of Ms. Tsuchimoto's fiscal year 2012 annual incentive bonus, while individual goals account for the remaining 50%. Ms. Tsuchimoto's annual incentive bonus (which target was up to 27.5% of her base salary) for fiscal year 2012 totaled \$65,000 and was based upon achievement of 90% of the corporate financial goals and on the achievement of 100% of the following individual goals: establishment of European tax structure; continued development of strategic financial model by major product programs in accordance with project plan; and merging two holding companies in order to reduce Delaware taxes by December 2011.

Fiscal Year 2012 Goal Achievements for Ted Daley, Our Chief Business Officer

Mr. Daley had a major role in the achievement of our corporate goals. In recognition of this factor, corporate program goals account for 85% of Mr. Daley's fiscal year 2012 annual incentive bonus, while individual goals account for the remaining 15%. Mr. Daley's annual incentive bonus (which target was up to 30% of his base salary) for fiscal year 2012 totaled \$65,000 and was based upon achieving 88% of his corporate goals and 33% of the following individual

goals (representing an achievement score percentage of 80%); continued development of strategic financial model by major product programs in accordance with project plan (achieved); and obtain a second out-license partner for Convivia (not achieved).

Fiscal Year 2012 Goal Achievements for Patrice Rioux, M.D., Ph.D., Our Chief Medical Officer

Dr. Rioux had a major role in the achievement of our corporate goals. In recognition of this factor, corporate program goals account for 100% of Dr. Rioux's fiscal year 2012 annual incentive bonus. Dr. Rioux's annual incentive bonus (which target was up to 30% of his base salary) for fiscal year 2012 totaled \$80,000 and was based upon achievement of 80% achievement of the corporate program goals (priority review was not obtained and HD full enrollment was achieved later than the goal date of December 2011).

33

Fiscal Year 2012 Goal Achievements for Patrick Reichenberger, Our Vice President, Commercial Operations

Mr. Reichenberger had a minor role in the achievement of our corporate program goals but achieved significant individual goals. Corporate program goals account for 15% of Mr. Reichenberger's fiscal year 2012 annual incentive bonus, while individual goals account for 85%. Mr. Reichenberger's annual incentive bonus (which target was up to 27.5% of his base salary) for fiscal year 2012 totaled \$50,000 and was based upon achieving 100% of his corporate program goal of establishing a European headquarters and hiring a European General Manager of European commercial operations and on achieving 100% of the following individual goals (representing an achievement score percentage of 85%): setting up a patient registry by August 2012; establishing a reimbursement HUB for RP103 (RaptorCares™) by August 2012; commencing implementation of early-access, named patient program for cystinosis patients; continuing development of strategic financial model by major product programs in accordance with project plan; completing a European distribution agreement.

In summary, after further qualitative discussion of the level of achievement for each Named Executive Officer, consideration of partial achievement of goals, assessments of adverse changes in environmental conditions which can change the difficulty of achievement of a goal, changes within the fiscal year of corporate operating strategy and priorities, and other factors, the Board of Directors awarded the following annual incentive bonuses to our Named Executive Officers:

Name and Position	Fiscal Year 2012 Annual Incentive Bonus
Christopher M. Starr, Ph.D. Chief Executive Officer	\$ 112,000
Kim R. Tsuchimoto, Former Chief Financial Officer	65,000
Ted Daley, President	65,000
Patrice P. Rioux, M.D., Ph.D., Chief Medical Officer	80,000
Patrick Reichenberger, VP, Commercial Operations	50,000

These target bonus percentages were increased (or were set for new executive officers) after review practices of our peer companies indicated that our previous percentages were not competitive with our peer company compensation practices and could contribute unfavorably to the competitive compensation position for key executives of our Company.

Our corporate goals effective September 2012 are grouped into our major activities with the weighting shown.

Development of RP103 for Cystinosis (weighted 70%)

- NDA approval on PDUFA date;

Corporate and individual goals are weighted based upon importance and impact to Raptor.

Equity Incentive Programs (Currently Based on Stock Options)

We believe that equity grants provided to our executive officers (and all members of our team) create a strong link to our long-term financial and equity market performance, create an ownership culture, and closely align the interests of our executive officers with the interests of our stockholders. Because of the direct relationship between the value of an equity award and the future market price of our common stock, we believe that granting equity awards is the best method of motivating executive officers to manage in a manner that is consistent with our stockholders' and our Company's interests. In addition, we believe that the continuous vesting feature of our equity grants promotes executive officer (and staff) retention because this feature provides an incentive of potentially increasing value to our executive officers during the vesting period.

In determining the size of equity grants to our executive officers, our Compensation Committee considered: our performance; the applicable executive officer's performance; comparative competitive levels of equity compensation for similar peer companies; the vesting of such awards; the number of shares available under our 2010 Equity Incentive Plan, or the 2010 Plan, and projected future needs to support future staff growth; the recommendations of management and consultants; and external data sources which support a comparative competitive analyses.

With respect to newly hired executives, our practice is to include equity compensation (currently based on stock option grants) as an integral part of the compensation package for inclusion in the executive's employment agreement. The compensation package, including the stock option grant, is approved by a unanimous written consent executed by our Board of Directors. The executive's stock option exercise price is based upon the closing price the day preceding the later of board approval or the executive's first day of employment.

Under the 2010 Plan, we were initially authorized to grant up to an aggregate of 3,000,000 stock options or restricted stock or restricted stock units over the ten year life of the 2010 Plan. On April 7, 2011, our stockholders passed amendments to the 2010 Plan which allow for an increase of the grant pool based upon 5% of our common stock outstanding as of April 7, 2011, August 31, 2011 and August 31, 2012 up to an aggregate maximum increase of 6,000,000 shares. The April 7, 2011, August 31, 2011 and August 31, 2012 increases added 1,629,516, 1,778,459 and 2,528,407 shares, respectively, available for grant under the 2010 Plan. As of December 31, 2012, options to purchase 7,790,794 shares of our common stock were outstanding and 1,947,420 shares of our common stock remained available for future issuance under the 2010 Plan.

Stock Options. Stock options granted by us have an exercise price equal to the fair market value of our common stock on the day prior to grant, typically vest over a four-year period with 6/48ths vesting six months after the vesting commencement date and the remainder vesting ratably each month thereafter based upon continued employment or service, and generally expire ten years after the date of grant. Incentive stock options also include certain other terms necessary to assure compliance with the Internal Revenue Code of 1986, as amended, or the Code. In special, limited circumstances, we have granted stock options, which vested 25% upon grant and 1/36th per month thereafter and expire 10 years from the grant date. Our annual grants to our non-employee directors vest 25% per quarter.

Restricted Stock and Restricted Stock Units. Our 2010 Plan authorizes us to grant restricted stock and restricted stock units. We have not issued restricted stock or restricted stock units under the 2010 Plan. The Compensation Committee reviews the relative advantages and disadvantages of restricted stock as a compensation alternative at each annual cycle and may issue restricted stock in the future depending on the analysis in the future.

Fiscal Year Ended August 31, 2012

In September 2011, our Compensation Committee analyzed our equity compensation program compared to equity compensation in comparative companies. This analysis was a continuation of analysis performed by our Compensation Committee and board in 2010 based on input from investors, from their own professional experience, and from our own comparative analysis, that our equity compensation program was not competitive in our segment of the biopharmaceutical industry.

A brief outline of the comparative equity compensation study follows: The study was based on equity compensation comparisons between a group of 23 comparative companies and the Company. The selected comparative companies were companies whose common stock is traded on the NASDAQ or the NYSE/AMEX stock exchanges, had market capitalizations between approximately \$35 million and \$350 million, and were in the biopharmaceutical industry at approximately the same stage of development (development stage with products in development but without a commercial product base) as us. Compensation and stock data was extracted from public records for the 23 comparative companies and for us. The data was used to calculate the fully diluted number of common shares outstanding for each company and for each company's equity compensation program. Additional data was extracted for chief executive officer total and cash compensation and for the accumulated deficit for each company.

The companies whose data was used in the fiscal year 2012 comparative company analysis were:

Acadia	Dynavax Technologies	Oncothyreon
Amicus Therapeutics	GenVec	Peregrine Pharmaceuticals
Anadys Pharmaceuticals	Inovio Pharmaceuticals	Stem Cells, Inc.
ArQule	Neurocrine Biosciences	Sunesis
Avanir Pharmaceuticals	NeurogesX	Transcept Pharmaceuticals
Celldex Therapeutics	Novavax	Vical
Cytokinetics	Omeros	Zaliscus
CytRX Corporation	OncoGenex Pharmaceuticals	

The primary measurement for each company was the percent calculated by the fully diluted equity compensation common share equivalents (primarily stock options, restricted stock and restricted stock units, and stock options exercised) divided by the total fully diluted common shares outstanding (primarily common stock outstanding, stock options outstanding and warrants outstanding).

In percent of equity compensation divided by fully diluted common stock equivalents outstanding, we ranked 20 of the 24 comparative companies (including us) in the study; our percentage was 6.9% and the median percent was 9.75%. In terms of the current market capitalization divided by the accumulated deficit, we ranked first in this approximate measurement of the efficiency of the company in creating stockholder value.

After consideration of this analysis, which reflects our less than competitive position compared to peer or comparative companies, our Compensation Committee recommended that actions should be initiated to improve over time our equity compensation position to approximate the median value of the equity compensation programs of our peers. In line with our equity award program initiated in October 2010, we continue our initiative of granting additional stock options (in a proportional manner based on the recently reviewed 2011 annual awards) to officers, directors and staff to increase the potential future value of their equity compensation.

Our Compensation Committee plans to review the competitive equity compensation position of our Company annually. Actions, if any, will be based on the performance of our Company and individuals, available stock options for equity compensation, an updated competitive analysis and other factors.

Fiscal Year 2012 Equity Compensation Award

On September 22, 2011, after a discussion of the equity compensation situation and alternatives, our board approved the recommendation of our Compensation Committee. With respect to our Named Executive Officers and our non-employee directors, our board awarded stock options relating to fiscal year 2012 to purchase up to the following number of shares at an exercise price of \$5.13 per share, vesting 6/48ths on the 6 month anniversary of the grant date and 1/48th per month thereafter, with a 10 year expiry from grant date: Dr. Starr 345,048 shares; Ms. Tsuchimoto, Mr. Daley and Dr. Rioux 113,616 shares each; and Mr. Reichenberger 90,000 shares. In addition, our Named Executive Officers were awarded annual stock option grants to purchase up to the following number of shares: Dr. Starr 115,016 shares; Ms. Tsuchimoto, Mr. Daley and Dr. Rioux 37,872 shares each; and Mr. Reichenberger 20,000 shares. Dr. Starr did not participate in the discussion or approval of his option grant.

Also, the non-employee members of our board as of September 22, 2011 (Mr. Anderson, Dr. Bruhn, Dr. Franklin, Dr. Keltner, Mr. Sager, Mr. Samant and Mr. Walbert), were each granted options to purchase 90,000 shares with the same terms as executive officers, as outlined above. These grants were in addition to annual stock option grants to purchase up to the following number of shares: Mr. Anderson, Dr. Franklin, Dr. Keltner and Mr. Sager 30,000 shares each and Dr. Bruhn, Mr. Samant and Mr. Walbert 15,000 shares each, all of which vest 25% per quarter.

The effect of the September 22, 2011 stock option grants was to make our equity compensation program more competitive by increasing the percentage of equity compensation to the fully diluted common share equivalents outstanding to 9.4% which was considered by the Company to be closer to the target of the 9.75% median percentage.

In summary, during the fiscal year ended August 31, 2012, our Named Executive Officers were awarded stock options in the amounts indicated below. All options granted to our Named Executive Officers are intended to be qualified stock options as defined under Section 422 of the Code to the extent possible.

In September 2012, our Compensation Committee engaged Compensia, an independent compensation consulting firm to analyze our equity compensation program for our Named Executive Officers compared to equity compensation of equivalent named executive officers in comparative companies as discussed above in the section Base Salary – four month transition period from September 1, 2012 through December 31, 2012.

On September 25, 2012, after a discussion and review of Compensia's compensation report, our board approved the recommendation of our Compensation Committee to implement Compensia's results. With respect to our Named Executive Officers and our directors, our board awarded stock options relating to fiscal year 2013 to purchase up to the following number of shares at an exercise price of \$5.49 per share, vesting 6/48ths on the 6 month anniversary of the grant date and 1/48th per month thereafter, with a 10 year expiry from grant date: Dr. Starr 150,000 shares; Mr. Daley and Dr. Rioux 67,000 shares each. Since Ms. Erbez and Ms. Smith were hired on September 10, 2012, and had received new hire stock options, no other incentive options were granted to either of them. Dr. Starr did not participate in the discussion or approval of his option grant.

Also, the non-employee members of our board as of September 25, 2012 (Mr. Anderson, Dr. Bruhn, Dr. Franklin, Dr. Keltner, Mr. Sager, Mr. Samant and Mr. Walbert), were each granted options to purchase 50,000 shares which vest 25% per quarter.

Perquisites

Broad-based benefit plans are an integral component of competitive executive compensation packages. Our benefits include a 401(k) savings plan with the Company matching provisions (when such matching is financially viable), healthcare benefits such as medical, dental, and vision plans, and disability and life insurance benefits. We have no structured perquisite benefits, and do not provide any deferred compensation programs or supplemental pensions to any executives. At its discretion, our Compensation Committee may revise, amend or add to the executive's benefits if it deems it advisable.

During our fiscal year ended August 31, 2012 and our four month transition period from September 1 to December 31, 2012, our executives did not receive any perquisites and were not entitled to benefits that are not otherwise available to all of our employees. In addition, we did not provide pension arrangements, post-retirement health coverage or similar benefits for our executives or employees.

Defined Contribution Plan

We maintain a qualified retirement plan pursuant to Code Sections 401(a) and 401(k) covering substantially all employees, subject to certain minimum age and service requirements, herein referred to as our 401(k) Plan. Our 401(k) Plan allows employees to make voluntary pre-tax contributions. The assets of the 401(k) plan are held in trust for participants and are distributed upon the retirement, disability, death or other termination of employment of the participant.

Employees who participate in our 401(k) Plan may contribute to their 401(k) account up to the maximum amount that varies annually in accordance with the Code. We also make available to 401(k) plan participants the ability to direct the investment of their 401(k) accounts in a well-balanced spectrum of various investment funds.

At our discretion, we provide for a 401(k) Company matching in the amount of 100% of the first 3% of salary that an employee defers and 50% of the next 2% of salary that an employee defers, in compliance with the Internal Revenue Service's Safe Harbor rules.

Information regarding Dr. Rioux's annual salary and bonuses received during the year ended August 31, 2012 are described below under the headings "Annual Incentive Cash Bonuses" and "Equity Incentive Programs (Currently Based on Stock Options)" above.

In January 2011, we executed an employment arrangement with Patrick Reichenberger with an annual base salary of \$230,000. Mr. Reichenberger also earned a \$10,000 sign-on bonus and is eligible for an annual bonus based upon our annual bonus compensation program. Mr. Reichenberger was granted stock options to purchase up to 120,000 shares of our common stock at an exercise price of \$3.52 which vest over four years with a six month cliff vest and expire 10 years from grant date. Information regarding Mr. Reichenberger's annual salary and bonuses received during the year ended August 31, 2012 are described below under the headings "Annual Incentive Cash Bonuses" and "Equity Incentive Programs (Currently Based on Stock Options)" above.

If Dr. Starr's employment is constructively terminated or terminated by us without cause, including in the event of a change of control, then he will be entitled to continue to receive his base salary, bonus and other benefits for a period of 12 months from the date of termination. In addition, if the termination occurs after a change of control, all of Dr. Starr's vested and unvested options to purchase our stock are immediately exercisable in full. If Ms. Erbez's, Ms. Smith's or Ms. Tsuchimoto's employment is constructively terminated or terminated by us without cause not during the 12 months following a change in control, she will be entitled to continue to receive her base salary and other certain benefits for 12 months after such termination. In addition, all of her vested options or stock appreciation rights with respect to our common stock will remain exercisable until the first anniversary of the termination of her employment, and all shares of our common stock owned by her will immediately be released from any and all resale or repurchase rights restrictions. If Ms. Erbez, Ms. Smith or Ms. Tsuchimoto is terminated without cause or is constructively terminated by us within the 12 months following a change in control, in addition to the payments

described in the preceding two sentences, all of her unvested equity and equity-based awards (including stock options) will vest immediately and will remain exercisable until the second anniversary of the termination of employment.

Additionally, she will be entitled to a lump sum payment equal to the average of the annual bonus payments received by her in the two years preceding the year of termination. If Mr. Reichenberger's, Dr. Rioux's or Mr. Daley's employment is constructively terminated or terminated by us without cause, including in the event of a change of control, then such officer will be entitled to continue to receive his base salary and certain other benefits for a period of six months from the date of termination.

If any officer's employment is terminated for cause, by death or due to a voluntary termination, we shall pay to such officer, or in the case of termination due to death, his or her estate, the compensation and benefits payable through the date of termination or, in the case of Ms. Erbez, Ms. Smith and Ms. Tsuchimoto, if such officer's employment is terminated by death, through the third month anniversary of termination.

If any officer's employment is terminated due to disability, we shall pay to such officer the compensation and benefits payable through the date of termination. Except for Mr. Reichenberger and Dr. Rioux, we shall continue to pay such officer's salary for three months following such termination, at the end of which time such officer may be entitled to receive short-term and eventually long-term disability benefits, subject to the terms of and pursuant to our then current disability insurance plans.
