Note 1: Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company, the accompanying unaudited condensed financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of September 30, 2008, the results of operations for the nine months ended September 30, 2008 and 2007, and cash flows

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form 10-Q

These financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's annual report on Form 10-KSB for the year ended December 31, 2007. There have been no updates or changes to our audited financial statements for the year ended December 31, 2007.

There is no provision for dividends for the quarter to which this quarterly report relates. The results of operations for the nine months ended September 30, 2008 are not necessarily indicative of the results to be expected for the full year.

Reclassification

Certain 2007 amounts have been reclassified to conform with the 2008 presentation. These reclassifications have no effect on net income.

Note 2: Software Development Costs

On May 15, 2008, Tombstone Cards, Inc. (Tombstone) entered into an Intellectual Property Transfer Agreement with InDis Baltic, a Lithuania company, to purchase all of the rights, title and interest in and to the technology, intellectual property and the proprietary technology contained in the computer software known as OIEPrint. OIEPrint was developed as part of a development agreement between Tombstone and InDis Baltic. As part of the Intellectual Property Transfer Agreement, Tombstone agreed to pay the following:

1. \$7,500 immediately upon mutual acceptance of Transfer Agreement,
2. \$7,500 upon final acceptance of the Technology,
3. 140,000 shares of restricted common stock of Tombstone upon final acceptance of the Technology, and
4. \$10,000 in 90 days from the final acceptance of the Technology.

During nine months ended September 30, 2008, Tombstone made the first payment of \$7,500 for OIEPrint, which is a deferred charge in the accompanying financial statements. In addition, Tombstone has agreed to provide InDis Baltic with an exclusive license to use the OIE technology for the consideration of \$1.00. Further, InDis Baltic has agreed to continue work as the programmer of the software over the next two phases of development.

During the nine months ended September 30, 2008, we have capitalized costs of \$37,795 as software development costs in connection with the development of the OIEPrint software. Upon completion of the software, these costs will be amortized over their useful life.

F-6

Costs associated with software purchased for internal use are accounted for in accordance with Statement of Position 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use" ("SOP 98-1"). SOP 98-1 provides guidance for the treatment of costs associated with computer software development and defines those costs to be capitalized and those to be expensed.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our unaudited financial statements and notes thereto included herein. In connection with, and because we desire to take advantage of, the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, we caution readers regarding certain forward looking statements in the following discussion and elsewhere in this report and in any other statement made by, or on our behalf, whether or not in future filings with the Securities and Exchange Commission. Forward-looking statements are statements not based on historical information and which relate to future operations, strategies, financial results or other developments. Forward looking statements are necessarily based upon estimates and assumptions that are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control and many of which, with respect to future business decisions, are subject to change. These uncertainties and contingencies can affect actual results and could cause actual results to differ materially from those expressed in any forward looking statements made by, or on our behalf. We disclaim any obligation to update forward-looking statements.

The independent registered public accounting firm's report on the Company's financial statements as of December 31, 2007, and for each of the years in the two-year period then ended, includes a "going concern" explanatory paragraph, that describes substantial doubt about the Company's ability to continue as a going concern.

PLAN OF OPERATIONS

At September 30, 2008, we had cash on hand of \$48,309. We intend to use our cash

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form 10-Q

funds to continue operations. We intend to continue to develop the business opportunities presented by our OIEPrint(TM) software and our business in the printing of custom playing cards. The development of the business opportunities includes continued marketing efforts and product testing over the next twelve months.

During the nine months ended September 30, 2008, we have focused on the continued development of our OIEPrint software and conducted the beta testing of such software. With the completion of the testing of the software, we began to offer the software for sale starting in October 2008. We offer two products:

- OIEPrint - is a platform, independent browser-based R (RIA) that supports template driven design and provides high-resolution PDF files to the printer; and
- OIEPrint Store - An advanced e-commerce solution that supports multiple customization options (e.g. paper color, paper weight, paper finish, collating, binding, shipping, etc.) and dependent variables (e.g. If you choose "A", you cannot choose "B" but can choose "C").

Over the next twelve months we intend to develop a third software product, OIEPrint VDP, a tool for linking database mining with custom printing and 1:1 marketing and release it for sales.

While each product will be available as a stand-alone license, we are offering a fully hosted solution for a monthly fee. Customization and implementation fees are also anticipated. We will offer the products through the Company, via a outbound sales staff that utilizes Web-based demos and Web-video in order to engage customers.

In the continuance of our business operations we do not intend to purchase or sell any significant assets and we do not expect a significant change in the number of employees of the Company.

We have adopted and maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is recorded, processed, summarized and reported within the time periods required under the SEC's rules and forms and that the information is gathered and communicated to our management, including our Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer), as appropriate, to allow for timely decisions regarding required disclosure.

As required by SEC Rule 15d-15(b), Messrs. Harris and Cox our Chief Executive Officer and Chief Financial Officer carried out an evaluation under the supervision and with the participation of our management, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 15d-14 as of the end of the period covered by this report. Based on the foregoing evaluation, Messrs. Harris and Cox have concluded that our disclosure controls and procedures are effective in timely alerting them to

material information required to be included in our periodic SEC filings and to ensure that information required to be disclosed in our periodic SEC filings is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure as a result of the deficiency in our internal control over financial reporting discussed below.

ITEM 4T. CONTROLS AND PROCEDURES

Management's Quarterly Report on Internal Control over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the company in accordance with as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation
- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized

Management's assessment of the effectiveness of the small business issuer's internal control over financial reporting is as of the quarter ended September 30, 2008. We believe that internal control over financial reporting is effective. We have not identified any, current material weaknesses considering the nature and extent of our current operations and any risks or errors in financial reporting under current operations.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

There was no change in our internal control over financial reporting that occurred during the fiscal quarter ended September 30, 2008, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
