LIFEN, INC.
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS
NOVEMBER 30, 2002

The accompanying financial statements of Lifen, Inc. (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. In the opinion of management, the financial statements reflect all adjustments considered necessary for a fair presentation. For further information, refer to the financial statements and footnotes thereto included in our annual report on Form 10-KSB for the year ended August 31, 2002 as filed with the Securities and Exchange Commission on November 27, 2002.

Edgar Filing: LIFEN INC - Form 10QSB

Note 1. Organization

Lifen, Inc. (the "Company") was incorporated under the laws of the state of Delaware on November 10, 1997 under the name Digivision International, Ltd. The Company's name was changed to Lifen, Inc. on June 22, 2000. To date, the Company has had no commercial operations and has been engaged in the development of its business plan, market research, initial website development, and seeking initial financing in order to commence commercial operations.

Note 2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amount of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The most significant estimate relates to the valuation allowance in connection with deferred tax assets. Actual results could differ from those estimates.

Fixed Assets

Fixed assets are stated at cost. Depreciation is provided for utilizing the straight-line method over the estimated useful life of the asset. The cost of maintenance and repairs is charged to operations as incurred.

4

LIFEN, INC.
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS
NOVEMBER 30, 2002

Accounting for Impairment of Long-Lived Assets

In accordance with SFAS 121, the Company has adopted a policy of recording an impairment loss on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. Adoption of this statement will not have an impact on these financial statements.

Organization Costs

The Company has adopted SOP 98-5, "Reporting on the Costs of Start-up Activities", which requires that all costs of start-up activities and organization costs be expensed as incurred. The Company expects that the adoption of SOP 98-5, which is effective for fiscal years beginning after December 15, 1998, will not have a material effect on its financial statements.

Website Development

Edgar Filing: LIFEN INC - Form 10QSB

In March 2000, the Emerging Issues Task Force issued No. 00-02 ("EITF 00-02"), "Accounting for Website Development Costs." EITF 00-02 states that all costs relating to software used to operate a website and relating to development of initial graphics and web page design should be accounted for using Statement of Position ("SOP") 98-1. Under this SOP, costs incurred in the preliminary project stage should be expensed as incurred, as should most training and data conversion costs. External direct costs of materials and services and internal direct payroll-related costs should be capitalized once certain criteria are met. EITF 00-02 is effective for all fiscal quarters beginning after June 30, 2000. The Company's accounting policy for internal-use software, as required by SOP 98-1, incorporated the requirements of EITF 00-02. To date, no significant costs have been incurred.

Income Taxes

The Company records deferred income taxes using the liability method. Under the liability method, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial statement and income tax basis of the Company's assets and liabilities. An allowance is recorded, based on currently available information, when it is more likely than not that any or all of a deferred tax asset will not be realized. The provision for income taxes includes taxes currently payable, if any, plus the net change during the period presented in deferred tax assets and liabilities recorded by the Company.

There are no potentially dilutive securities which would be included in computation of fully diluted earnings per share.

LIFEN, INC.
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS
NOVEMBER 30, 2002

Note 7. Concentration of Credit Risk

The Company maintains a bank account at one bank as of November 30, 2002 with a balance of \$189,715 on deposit, only \$100,000 of which is insured under Federal law.

Note 8. Going Concern

Lifen, Inc. is considered to be a development stage company. Since inception, the Company has been engaged in the development of its business plan, market research, initial website development and seeking financing in order to commence commercial operations. At November 30, 2002, the Company had incurred losses during the development stage of \$597,000. Approximately \$36,000 of the cumulative losses have been non-cash services in exchange for common stock in the Company. The balance of the losses, approximately \$561,000, was funded by the private placements of common stock, which totaled \$841,000 as of November 30, 2002.

Management recognizes the need to raise additional funds to continue its planned operations. Primary to the Company's solvency in the coming year is the sale of additional equity in the Company, continuing the Company's strategy of funding development through additional equity financing. These funds will be used to manage working capital requirements and to fund ongoing development costs. Capital commitments for the next twelve months are minimal, and additional funds raised through private placements should be sufficient to meet the Company's obligations for that period and until the various planned activities are able to create significant cash flow. The Company plans to raise any necessary capital through the sale of additional equity.

If additional capital is not readily available, the Company will be forced to scale back its development activities such that its income will exceed its expenses. Although this will greatly slow the Company's development, it will allow for the Company's survival. Notwithstanding the foregoing, there is substantial doubt regarding the Company's ability to continue as a going concern, and as such, the Company is substantially dependent upon its ability to raise sufficient capital to cover its development costs.

Change of Fiscal Year End

On October 22, 2002, the Company's Board of Directors approved a change in the Company's fiscal year end from August 31st to December 31st, as reported in Form 8-K filed on November 6, 2002. This change became effective on December 31, 2002 and this Form 10-QSB for the quarterly period ended November 30, 2002 is being filed to comply with transition reporting requirements. Additionally, the Company will file on Form 10-KSB the report covering the transition period from September 1, 2002 to December 31, 2002.

Results of Operations

The Company did not have any revenue during the three month period ended November 30, 2002, or during the comparable period for the prior year, and has not had any revenue since its inception in November 1997.

12

The net loss for the three month period ended November 30, 2002 was \$142,046 compared to a net loss of \$16,038 for the comparable period in the prior year, an increased loss of \$126,008 resulting primarily from the payment of consulting fees to the Company's executives and administrative personnel as well as legal fees incurred for both general representation and assistance in various filings with the Securities and Exchange Commission.

The total cash and cash equivalents at November 30, 2002 were \$189,905 compared to \$440,517 at August 31, 2002, a decrease of \$250,612, resulting primarily from the aforementioned payment of consulting and legal fees, prepaid rent and acquisition of business equipment.

During this quarter, the Company began implementation of its new strategic direction by opening initial discussions with several companies that meet the Company's desired acquisition criteria. Although there can be no assurances that these discussions will result in the consummation of one or more acquisitions, the Company remains confident that the strategic direction chosen remains sound. Toward this end, during the current fiscal quarter, the Company entered into two consulting agreements regarding the identification of potential acquisitions. Refer to Financial Statements, Note 6, "Commitments and Contingencies."

Company Overview

The Company was duly incorporated under the laws of the state of Delaware on November 10, 1997 as Digivision International, Ltd., and the corporation name was changed to Lifen, Inc. (the Company) on June 22, 2000. To date, the Company has had no commercial operations and has been engaged in the development of its business plan, initial market research activities, initial web site development, and seeking initial funding in order to commence commercial operations.

Plan of Operation

The Company's success in achieving profitability will depend on its ability to consummate acquisitions of healthcare companies. During the implementation of its business plan, the Company will be subject to all of the risks inherent in an emerging business, including the need to provide reliable and effective

Edgar Filing: LIFEN INC - Form 10QSB

products and services, to develop marketing expertise, and to generate sales. In the event that the Company's projected market does not develop as anticipated, the Company's business, financial condition and results of operations could be materially adversely affected.

During the next twelve months, the Company intends to perform the activities required to establish its business operations. In executing its current plans, the Company's objectives will include the following:

- . Find healthcare companies to acquire and consummate acquisitions
- . Raise necessary funding for its business operations
- . Develop brand awareness
- . Build an operations structure to support the business
- . Develop management information systems and technology to support operations
- . Attract and retain qualified personnel

13

According to the Company's estimates, from \$1,000,000 to \$3,000,000 will be needed through the twelve months ending August 31, 2003 to establish these business operations, not including revenues from operations, which are not expected to materialize in significant amounts until the second or third calendar quarters of 2003 at the earliest. Primary to the Company's solvency in the coming year is raising additional equity.

Capital commitments for the next twelve months are minimal, and additional funds raised through various equity offerings should be sufficient to meet the Company's obligations for that period and until the various planned activities described herein are able to create significant cash flow. The Company has received an audit opinion which includes a "going concern" risk. The Company is aware of this risk and plans to raise any necessary capital through the sale of additional equity. If additional capital is not readily available, the Company will be forced to scale back its development activities such that its income will exceed its expenses. Although this will slow the Company's development, it will allow for the Company's survival. Notwithstanding the foregoing, there is substantial doubt regarding the Company's ability to continue as a going concern, and as such, the Company is substantially dependent upon its ability to raise sufficient capital to cover its development costs.

The Company plans to perform market research and development during the next twelve months regarding such considerations as additional definition of services to be offered, and pricing of services. The Company's planned business does not require the purchase of plants, factories, extensive capital equipment, or inventory.

The Company has no employees as of the date of this Report. There are intentions to hire employees during the next twelve months as its business plan is executed, which will be dependent on the Company's ability to raise the required funds. In the interim, the Company will rely on its management to perform the activities required for preliminary business development. The failure to attract and retain the required personnel would have a material adverse effect on the Company's business and results of operations.

Related Party Transaction

The Company's Chief Executive Officer and Chief Financial Officer also hold similar positions with First Medical Resources Corporation ("FMRC"). The Company advanced certain moving and equipment installation costs for the benefit of itself and FMRC. That portion advanced for the benefit of FMRC was repaid in

full to the Company in December, 2002. (See Note 5 to Financial Statements, Related Party Transactions.)

Ameristar is an affiliate of Remsen Group, Ltd. and Wilmont Holding Corp., two corporate shareholders of the Company. (See Note 5 to Financial Statements, Related Party Transactions.)
