Notes to the Condensed Consolidated Financial Statements

March 31, 2015 and December 31, 2014

(Unaudited)

Note 1 - Condensed Financial Statements

The accompanying unaudited financial statements have been prepared by VolitionRx Limited (the Company) without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at March 31, 2015, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed unaudited financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2014 audited financial statements. The results of operations for the periods ended March 31, 2015 and 2014 are not necessarily indicative of the operating results for the full years.

Note 2 - Going Concern

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has incurred losses since inception of \$21,519,583 and currently has no revenues, which creates substantial doubt about its ability to continue as a going concern.

The future of the Company as an operating business will depend on its ability to obtain sufficient capital contributions and/or financing as may be required to sustain its operations. Management's plan to address this need includes, (a) continued exercise of tight cost controls to conserve cash, (b) receiving additional grant funds, and (c) obtaining additional financing through debt or equity financing.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable

operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

Note 3 - Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with US generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company also regularly evaluates estimates and assumptions related to deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Principles of Consolidation

The accompanying condensed consolidated financial statements for the period ended March 31, 2015 include the accounts of the Company and its wholly-owned subsidiaries, Singapore Volition Pte. Ltd, Belgian Volition S.A., and Hypergenomics Pte. Ltd. All significant intercompany balances and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents. As at March 31, 2015 and December 31, 2014, the Company had \$11,031,377 and \$2,138,964 respectively in cash and cash equivalents.

(Unaudited)

Note 3 - Summary of Significant Accounting Policies (continued)

Basic and Diluted Net Loss Per Share

The Company computes net loss per share in accordance with ASC 260, Earnings Per Share, which requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing Diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. As at March 31, 2015, 2,268,669 dilutive warrants and 276,098 potentially dilutive options were excluded from the Diluted EPS calculation as their effect is anti-dilutive.

Foreign Currency Translation

The Company's functional currency is the Euro and its reporting currency is the United States dollar. Management has adopted ASC 830-20, Foreign Currency Matters - Foreign Currency Transactions. All assets and liabilities denominated in foreign currencies are translated using the exchange rate prevailing at the balance sheet date. For revenues and expenses, the weighted average exchange rate for the period is used. Gains and losses arising on translation or settlement of foreign currency denominated transactions or balances are included in other comprehensive loss.

Recent Accounting Pronouncements

Management has considered all recent accounting pronouncements issued since the last audit of our consolidated financial statements. The Company's management believes that these recent pronouncements will not have a material effect on the Company's consolidated financial statements.

Note 4 - Intangible Assets

The Company's intangible assets consist of intellectual property, principally patents, mainly acquired in the acquisition of ValiBio SA. The patents are being amortized over their remaining lives, which range from 8 to 16 years.

		Accumulated	March 31, 2015
	Cost	Amortization	Net Carrying Value

Patents	1,173,593	364,867	808,726

On February 20, 2015, The Company purchased the Nucleosomics® WO2005019826: Detection of Histone Modifications in Cell-Free Nucleosomes patent (i.e. the patent that underlies the NuQ®-M tests) from Chroma Therapeutics Limited for the sum of \$55,000. Prior to this date, the Company had held the exclusive licence for the patent.

During the three month period ended March 31, 2015, and the year ended December 31, 2014, the Company recognized \$21,170 and \$95,037 in amortization expense respectively.

VOLITIONRX LIMITED

Notes to the Condensed Consolidated Financial Statements

March 31, 2015 and December 31, 2014

(Unaudited)

Note 4 - Intangible Assets (continued)

The Company amortizes the long-lived assets on a straight line basis with terms ranging from 8 to 20 years. The annual estimated amortization schedule over the next five years is as follows:

2015 - remaining	\$	61,246
2016	\$	82,416
2017	\$	82,416
2018	\$	82,416
2019	\$	82,416

The Company periodically reviews its long lived assets to ensure that their carrying value does not exceed their fair market value. The Company carried out such a review in accordance with ASC 360 as of December 31, 2014. The result of this review confirmed that the fair value of the patents exceeded their carrying value as of December 31, 2014.

Note 5 - Related Party Transactions

The Company contracts with a related party to rent office space, be provided with office support staff, and have consultancy services provided on behalf of the Company. See Note 10 for obligation under the contract.

Note 8 - Fair Value Measurements

On a recurring basis, we measure certain financial assets and liabilities based upon the fair value hierarchy. The following table presents information about the Company's liabilities measured at fair value as of March 31, 2015:

	Level 1	Level 2	Level 3	Fair Value at March 31, 2015
Liabilities				
Derivative Liability	\$ -	\$ -	\$ -	-

	Level 1	Level 2	Level 3	Fair Value at December 31, 2014

Derivative liability	\$ -	\$ 1,577,640	\$ -	1,577,640

The fair value changes in the fair value of recurring fair value measurements using model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data (Level 2), relate solely to the derivative liability as follows:

Balance as of December 31, 2014	\$ 1,577,640
Exercise of warrants attached to derivative liability	\$ (74,347)
Adjustment due to expiry of derivative liability	\$ (1,163,549)
Fair value adjustments	\$ (339,744)
Balance as of March 31, 2015	\$ -

Note 9 - Derivative Financial Instruments

The balance sheet caption derivative liability consisted of derivative features embedded in exercisable warrants which had a ratchet provision within their agreements. The balance at March 31, 2015 and December 31, 2014 was \$nil and \$1,577,640, respectively.

The valuation of the derivative liability is determined using a Black-Scholes Model because that model embodies all of the relevant assumptions that address the features underlying these instruments. Significant assumptions used in the Black-Scholes model at March 31, 2015 and December 31, 2014 include the following:

Note 10 Commitments and Contingencies

a) Walloon Region Grant

On March 16, 2010, the Company entered into an agreement with the Walloon Region government in Belgium wherein the Walloon Region would fund up to a maximum of \$1,137,102 (€1,048,020) to help fund the research endeavors of the Company in the area of colorectal cancer. The Company had received the entirety of these funds in respect of approved expenditures as of March 31, 2014. Under the terms of the agreement, the Company is due to repay \$341,131 (€314,406) of this amount by installments over the period June 30, 2014 to June 30, 2023. The Company has recorded the balance of \$795,971 (€733,614) to other income in previous years as there is no obligation to repay this amount. In the event that the Company receives revenue from products or services as defined in the agreement, it is due to pay a 6 percent royalty on such revenue to the Walloon Region. The maximum amount payable to the Walloon Region, in respect of the aggregate of the amount repayable of \$341,131 (€314,406) and the 6 percent royalty on revenue, is twice the amount of funding received. As at March 31, 2015, a total of \$314,006 (€289,406) was outstanding to be repaid to the Walloon Region under this agreement.

b) Administrative Support Agreement

On August 6, 2010, (and as amended, effective from October 1, 2011 and March 1, 2015) the Company entered into agreements with a related party to rent office space, contract for office support staff, and have consulting services provided on behalf of the Company. From March 1, 2015, the agreements require the Company to pay \$7,950 (\$7,720 for January and February 2015) per month for office space and staff services as well as approximately \$8,000 (\$6,500 for January and February 2015) per month in fees for one senior executive. The Company is also required to pay for all reasonable expenses incurred. The contract is in force for 12 months with automatic extensions of 12 months with a 3 month notice required for termination of the contract.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF PLAN OF OPERATION

This Management's Discussion and Analysis of Plan of Operation contains forward-looking statements. These forward-looking statements are not historical facts but rather are based on current expectations, estimates and projections. We may use words such as anticipate, expect, intend, plan, believe, foresee, estimate and variations of these words and similar expressions to identify forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted. You should read this report completely and with the understanding that actual future results may be materially different from what we expect. The forward-looking statements included in this report are made as of the date of this report and should be evaluated with consideration of any changes occurring after the date of this Report. We will not update forward-looking statements even though our situation may change in the future and we assume no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Liquidity and Capital Resources

As of March 31, 2015, the Company had cash of \$11,031,377, prepayments and other current assets of \$298,537 and current liabilities of \$996,567. This represents a working capital surplus of \$10,333,347.

On February 6, 2015, the Company received \$8.5million net proceeds for 2,475,000 shares of common stock for an aggregate purchase price of \$3.75 per share concurrent with an up-listing to the NYSE MKT. In addition, on February 13, 2015, 343,383 shares of common stock were issued at a price of \$3.75 per share, with net proceeds of \$1.2 million being received, and on March 6, 2015, 400,000 shares of common stock were issued at a price of \$3.75 per share, with net proceeds of \$1.5 million.

We intend to use our cash reserves to predominantly fund further research and development activities. We do not currently have any substantial source of revenues and expect to rely on additional future financing, through the sale of additional stock, but there is no assurance that we will be successful in raising further funds.

In the event that additional financing is delayed, the Company will prioritize the maintenance of its research and development personnel and facilities, primarily in Belgium, and the maintenance of its patent rights. However the completion of clinical validation studies and regulatory approval processes for the purpose of bringing products to the IVD market would be delayed. In the event of an ongoing lack of financing, we may be obliged to discontinue operations, which will adversely affect the value of our common stock.

Overview of Operations

Management has identified the specific processes and resources required to achieve the near and medium term objectives of the business plan, including personnel, facilities, equipment, research and testing materials including antibodies and clinical samples, and the protection of intellectual property. To date, operations have proceeded satisfactorily in relation to the business plan. However it is possible that some resources will not readily become available in a suitable form or on a timely basis or at an acceptable cost. It is also possible that the results of some processes may not be as expected and that modifications of procedures and materials may be required. Such events could result in delays to the achievement of the near and medium term objectives of the business plan, in particular the progression of clinical validation studies and regulatory approval processes for the purpose of bringing products to the IVD market. However, at this point, the most significant risk to the Company is that it will not succeed in obtaining additional financing in the medium term.

Results of Operations**Three Months Ended March 31, 2015 and 2014**

The following table sets forth the Company's results of operations for the three months ended March 31, 2015 and the comparative period for the three months ended March 31, 2014.

	Three Months Ended	Three Months Ended		Percentage

Weighted Average Basic and Diluted Common Shares Outstanding	16,461,816	12,246,424	4,215,392	34%

Revenues

The Company had no revenues from operations in the three months ended March 31, 2015, and no revenues from operations in the comparative period for the three months ended March 31, 2014. The Company's operations are still predominantly in the development stage.

Operating Expenses

For the three months ended March 31, 2015, the Company's operating expenses increased by \$1,111,703, or 90% in comparison to the three months ended March 31, 2014. Operating expenses are comprised of salaries and office

administrative fees, research and development expenses, professional fees, and other general and administrative expenses.

Salaries and office administrative fees increased by \$167,859. The increase was primarily due to an increase in share option expense of \$134,434, as additional stock options were granted in the third quarter of 2014. This was offset by a decrease in costs of warrants issued to consultants of \$64,971. Other increases in costs in this area included additional accountancy costs related to increased activity associated with the up-listing of the Company onto the NYSE MKT and additional compensation for senior executives of the Company. Research and development expenses increased by \$340,318, due principally to an increase of \$194,107, as a result of a new study at Hvidovre Hospital in Denmark that commenced in August 2014. There was also a general increase in sampling activity, with costs such as antibodies, chemicals and samples increasing by \$127,622. Professional fees increased by \$424,678, which included additional fees of \$43,764 for investor relations services to raise the profile of the Company and NYSE MKT registration fees of \$80,000. In addition, within professional fees, legal costs increased by \$303,699 year on year. Increased legal activity associated with the Company's up-list and other contractual areas explained this change. General and administrative expenses increased by \$178,848. This was mainly due to an increase in fundraising services expense of \$94,400 and additional insurance costs of \$24,757.

Net Other Income/ Expenses

For the three months ended March 31, 2015, the Company recognized other income of \$339,744, as compared to net other expenses of \$956,253 for the three months ended March 31, 2014. The other income in 2015 related to the re-measurement of a derivative liability associated with warrants issued in February 2014. Specifically, the re-measurement occurred when 25,000 of these warrants were exercised in February 2015 and when the remaining derivative liability was re-measured and expired on February 27, 2015.

For the three months ended March 31, 2014, the Company recorded other income of \$143,987, representing grant funds received from public bodies in respect of approved expenditures, where there is no obligation to repay. The Company also recorded other expense of \$1,100,240, in relation to the aforementioned derivative liability, resulting from the issue of 1,500,000 warrants attached to the issue of 1,500,000 shares, together with 30,975 warrants issued to agents.

Net Loss

For the three months ended March 31, 2015, our net loss was \$2,010,132, a decrease of \$184,294 or 8% in comparison to a net loss of \$2,194,426 for the three months ended March 31, 2014. The change is a result of the changes described above.

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Future Financings

We will continue to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of equity securities or arrange for debt or other financing to fund our operations and other activities.

Critical Accounting Policies

Our financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

We regularly evaluate the accounting policies and estimates that we use to prepare our financial statements. A complete summary of these policies is included in the notes to our financial statements. In general, management's estimates are based on historical experience, on information from third party professionals, and on various other assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

Exemption From Registration. *The shares of Common Stock referenced herein were issued in reliance upon one of the following exemptions:*

(a) The shares of Common Stock referenced herein were issued in reliance upon the exemption from securities registration afforded by the provisions of Section 4(2) of the Securities Act of 1933, as amended, ("Securities Act"), based upon the following: (a) each of the persons to whom the shares of Common Stock were issued (each such person, an "Investor") confirmed to the Company that it or he is an "accredited investor," as defined in Rule 501 of Regulation D promulgated under the Securities Act and has such background, education and experience in financial and business matters as to be able to evaluate the merits and risks of an investment in the securities, (b) there was no public offering or general solicitation with respect to the offering of such shares, (c) each Investor was provided with certain disclosure materials and all other information requested with respect to the Company, (d) each Investor acknowledged that all securities being purchased were being purchased for investment intent and were "restricted securities" for purposes of the Securities Act, and agreed to transfer such securities only in a transaction registered under the Securities Act or exempt from registration under the Securities Act and (e) a legend has been, or will be, placed on the certificates representing each such security stating that it was restricted and could only be transferred if subsequently registered under the Securities Act or transferred in a transaction exempt from registration under the Securities Act.

We made this determination in part based on the representations of the Investor(s), which included, in pertinent part, that such Investor(s) was an accredited investor as defined in Rule 501(a) under the Securities Act, and upon such further representations from the Investor(s) that (a) the Investor is acquiring the securities for his, her or its own account for investment and not for the account of any other person

and not with a view to or for distribution, assignment or resale in connection with any distribution within the meaning of the Securities Act, (b) the Investor agrees not to sell or otherwise transfer the purchased securities unless they are registered under the Securities Act and any applicable state securities laws, or an exemption or exemptions from such registration are available, (c) the Investor either alone or together with its representatives has knowledge and experience in financial and business matters such that he, she or it is capable of evaluating the merits and risks of an investment in us, and (d) the Investor has no need for the liquidity in its investment in us and could afford the complete loss of such investment. Our determination is made based further upon our action of (a) making written disclosure to each Investor prior to the closing of sale that the securities have not been registered under the Securities Act and therefore cannot be resold unless they are registered or unless an exemption from registration is available, (b) making written descriptions of the securities being offered, the use of the proceeds from the offering and any material changes in the Company's affairs that are not disclosed in the documents furnished, and (c) placement of a legend on the certificate that evidences the securities stating that the securities have not been registered under the Securities Act and setting forth the restrictions on transferability and sale of the securities, and upon such inaction of the Company of any general solicitation or advertising for securities herein issued in reliance upon Rule 506 of Regulation D and Section 4(2) of the Securities Act.

(c) The shares of Common Stock referenced herein were issued pursuant to and in accordance with Rule 903 of Regulation S of the Act. We completed the offering of the shares pursuant to Rule 903 of Regulation S of the Act on the basis that the sale of the shares was completed in an "offshore transaction", as defined in Rule 902(h) of Regulation S. We did not engage in any directed selling efforts, as defined in Regulation S, in the United States in connection with the sale of the shares. Each investor represented to us that the investor was not a "U.S. person", as defined in Regulation S, and was not acquiring the shares for the account or benefit of a U.S. person. The agreement executed between us and each investor included statements that the securities had not been registered pursuant to the Act and that the securities may not be offered or sold in the United States unless the securities are registered under the Act or pursuant to an exemption from the Act. Each investor agreed by execution of the agreement for the shares: (i) to resell the securities purchased only in accordance with the provisions of Regulation S, pursuant to registration under the Act or pursuant to an exemption from registration under the Act; (ii) that we are required to refuse to register any sale of the securities purchased unless the transfer is in accordance with the provisions of Regulation S, pursuant to registration under the Act or pursuant to an exemption from registration under the Act; and (iii) not to engage in hedging transactions with regards to the securities purchased unless in compliance with the Act.
