ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On August 2, 2018, Becton, Dickinson and Company (“BD”) issued a press release announcing its financial results for its third fiscal quarter ending June 30, 2018. A copy of the press release is furnished as Exhibit 99.1 to this report. The press release furnished as Exhibit 99.1 contains certain financial measures that differ from those presented in accordance with U.S. generally accepted accounting principles (“non-GAAP measures”), as follows:

**Currency-Neutral Revenue Growth.** We present revenue growth rates for the third quarter and first nine months of fiscal year 2018, and the corresponding prior periods, after eliminating the effect of foreign currency translation, which can fluctuate from period to period. Management believes these adjustments help investors to better understand the underlying performance of BD compared to the prior periods.

**Comparable Revenue Growth.** We present our estimated revenue growth for the third quarter and first nine months of fiscal year 2018 on an adjusted “comparable”, currency-neutral basis, which assumes that our acquisition of C.R. Bard, Inc. (“Bard”) occurred at the start of our 2017 fiscal year, with adjustments to (1) account for the movement of certain product lines between our Medical segment and Interventional segment, (2) eliminate the revenues relating to certain divestitures, (3) account for the reclassification of certain royalties previously reported by Bard as revenues; and (4) eliminate intercompany revenues. We also show estimated comparable revenue growth for fiscal year 2018 for the total company and Interventional segment after adjusting for the estimated adverse impact of Hurricane Maria in Puerto Rico during BD’s first fiscal quarter of fiscal 2018 and, for the total company, after further adjusting for the estimated impact of our previously announced change in the business model of our dispensing business. We believe these non-GAAP measures of revenue growth help investors better understand and evaluate the performance of the combined company following the Bard acquisition, as well as our revenue guidance for fiscal year 2018 in relation to fiscal year 2017, as they allow for year-to-year comparability.

Adjusted comparable revenues for fiscal year 2017 are presented for illustrative purposes only, and are not necessarily indicative of the operating results or financial position that would have occurred if the Bard acquisition had been consummated on the date indicated, nor is the information necessarily indicative of the results of operations that may be expected for any future period or date. BD and Bard may have performed differently had they actually been combined during the periods presented and such differences may be material.

**Adjusted Earnings Per Share.** We present diluted earnings per share (“EPS”) for the third quarter and first nine months of fiscal year 2018, and the corresponding prior periods, after eliminating items that we believe are not part of our ordinary operations and affect the comparability of the periods presented (“adjusted EPS”). These include adjustments for purchase accounting adjustments, acquisition-related transaction, integration and restructuring costs, financing costs, hurricane recovery costs, the loss resulting from the extinguishment of certain long-term debt, the reversal of a litigation reserve, the net impact of investment gains and asset impairments, a non-cash charge related to the previously mentioned change in the business model of our dispensing business, the dilutive impact of shares issued to fund the Bard acquisition, and additional tax expense relating to the recent U.S. tax legislation. We believe adjustments for these items allow investors to better understand the underlying operating results of BD and facilitate comparisons between the periods shown. We also show the growth in adjusted EPS compared to the prior year periods after eliminating the impact of foreign currency translation to further enable investors to evaluate BD’s underlying earnings performance compared to the prior year periods.

We also present our estimated adjusted EPS for fiscal year 2018 after eliminating the above-mentioned items and show growth in adjusted EPS for fiscal year 2018 after further adjusting for the anticipated impact of foreign currency translation in fiscal year 2018. Management believes that these adjustments allow investors to better evaluate BD’s anticipated underlying earnings performance for fiscal year 2018 in relation to our underlying fiscal year 2017 performance.

BD’s management uses each of these non-GAAP measures in its own evaluation of BD’s performance, particularly when comparing performance to past periods and to the performance of peer companies. Management also uses the non-GAAP results for budget planning purposes on a quarterly and annual basis.

BD provides non-GAAP measures to investors on a supplemental basis in addition to our GAAP results, as they provide additional insight into BD's financial results. Management believes the non-GAAP results provide a reasonable measure of BD's underlying performance before the effects of items that are considered by management to be outside of BD's underlying operational results or that affect period to period comparability. However, non-GAAP results should not be considered in

---

isolation and are not in accordance with, or a substitute for, GAAP results. Also, our non-GAAP results may differ from similar measures used by other companies, even if similar terms are used to identify such measures. Although BD's management believes non-GAAP results are useful in evaluating the performance of its business, its reliance on these measures is limited since items excluded from such measures may have a material impact on BD's net income, earnings per share or cash flows calculated in accordance with GAAP. Therefore, management typically uses non-GAAP results in conjunction with GAAP results to address these limitations. Investors should also consider these limitations when evaluating BD's results.
