Siebert Financial Corp. & Subsidiaries
Notes to Consolidated Financial Statements
Six Months Ended June 30, 2009 and 2008
(Unaudited)

1. Organization and Basis of Presentation:

The consolidated financial statements include the accounts of Siebert Financial Corp. (the Company) and its wholly owned subsidiaries Muriel Siebert & Co., Inc. (Siebert) and Siebert Women's Financial Network, Inc. (WFN). All material intercompany balances and transactions have been eliminated. Investment in two entities in which the Company has ownership interests of 49% and 33.33%, respectively, are accounted for by the equity method. The statements are unaudited; however, in the opinion of management, all adjustments considered necessary to reflect fairly the Company's financial position and results of operations, consisting of normal recurring adjustments, have been included.

The accompanying consolidated financial statements do not include all of the information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America. Accordingly, the statements should be read in conjunction with the audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008. Because of the nature of the Company's business, the results of any interim period are not necessarily indicative of results for a full year.

2. Securities Transactions:

Securities transactions include trading profits, commission revenues and related clearing expenses which are recorded on a trade date basis.

Marketable securities are valued at fair value. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Siebert clears all its security transactions through two unaffiliated clearing firms on a fully disclosed basis. Accordingly, Siebert does not hold funds or securities for or owe funds or securities to its customers. Those functions are performed by the clearing firms, which are highly capitalized.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. In determining fair value, the Company often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 valued based on quoted prices at the measurement date for identical assets or liabilities trading in active markets.

Level 2 quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability.

Level 3 valuations derived from valuation techniques in which one or more significant inputs is not readily observable.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-Q

As of June 30, 2009, accounts which are measured at fair value are classified as follows:

Securities owned	Level 1	Level 2	Total
New York State Dormitory Revenue Bonds		\$ 507,000	\$ 507,000
New York State Thruway Authority Second Generation Highway & Bridge		\$ 251,000	\$ 251,000
New York General Obligation Bonds		\$ 115,000	\$ 115,000
New York State Authority Personal Income Tax		\$ 112,000	\$ 112,000
Common stock	\$ 217,000		\$ 217,000
	\$ 217,000	\$ 985,000	\$ 1,202,000
Securities sold short			
United States Treasury Bonds	\$ 865,000		\$ 865,000
	\$ 865,000		\$ 865,000

Common stocks held long and treasury bonds sold short classified within Level 1 of the fair value hierarchy and are valued on the last business day of the year at the last available reported sales price on the primary securities exchange.

Municipal Bonds held long classified within Level 2 of the fair value hierarchy are valued based on prices obtained from pricing sources, which derive values from observable inputs.

3. Earnings per Share:

Basic earnings per share is calculated by dividing net income by the weighted average outstanding shares during the period. Diluted earnings per share is calculated by dividing net income by the number of shares outstanding under the basic calculation and adding all dilutive securities, which consist of options. The treasury stock method is used to reflect the dilutive effect of outstanding options, which, for the three months ended June 30, 2009 and 2008 amounted to 14,839 and 52,172 additional shares, respectively, added to the basic weighted average outstanding shares of 22,195,886 and 22,211,895, respectively and for the six months ended June 30, 2009 and 2008 amounted to 15,034 and 52,534 additional shares, respectively added to the basic weighted average outstanding shares of 22,197,658 and 22,212,120, respectively. Potentially dilutive securities consisting of outstanding options not included in the computation of diluted income per share as the effect would have been anti-dilutive for all periods amounted to 1,727,200 shares.

4. Net Capital:

Siebert is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. Siebert has elected to use the alternative method, permitted by the rule, which requires that Siebert maintain minimum net capital, as defined, equal to the greater of \$250,000 or two percent of aggregate debit balances arising from customer transactions, as defined. The net capital rule of the New York Stock Exchange also provides that equity capital may not be withdrawn or cash dividends paid if resulting net capital would be less than five percent of aggregate debits. As of June 30, 2009, Siebert had net capital of approximately \$24,362,000 as compared with net capital requirements of \$250,000.

5. Capital Transactions:

On January 22, 2008, the Board of Directors of the Company authorized a buy back of up to 300,000 shares of common stock. Shares will be purchased from time to time, at management's discretion, in the open market and in private transactions. During the six months ended June 30, 2009, the Company purchased 8,017 shares at an average price of \$1.67.

Summarized financial data (presented in thousands) of Siebert Brandford Shank & Co., LLC, (SBS) is set forth below. Income from SBS is considered to be integral to Siebert's operations and material to the results of operations.

Siebert's share of net income for the three months ended June 30, 2009 and 2008 amounted to \$1,559,000 and \$1,644,000, respectively, and for the six months ended June 30, 2009 and 2008 amounted to \$2,470,000 and \$1,597,000, respectively.

Siebert's share of undistributed earnings from SBS amounted to \$6,861,000 at June 30, 2009. Such amount may not be immediately available for distribution to Siebert for various reasons including the amount of SBS's available cash, the provisions of the agreement between Siebert and the principals and SBS's continued compliance with its regulatory and net capital requirements.

7. SBS Financial Products Company, LLC

The Company has a 33.33% ownership interest in, and the two individual principals of SBS have an aggregate 66.66% ownership interest in, SBS Financial Products Company, LLC, (SBSFPC) which engages in derivatives transactions related to the municipal underwriting business. Income/(loss) from SBSFPC is considered to be integral to the Company's operations and material to the results of operations.

Summarized financial data of SBSFPC is set forth below.

	June 30,

The Company's share of net loss for the three months ended June 30, 2009 and 2008 amounted to \$115,000 and \$8,000 and for the six months ended June 30, 2009 and 2008 amounted to \$182,000 and \$18,000, respectively.

At June 30, 2009, SBSFPC had an accumulated loss of \$569,000 of which the Company's share was \$190,000.

8. Contingent Liabilities:

Siebert terminated a clearing agreement (the Clearing Agreement) with Pershing LLC (Pershing) in 2003. Based on consultation with counsel, Siebert believes that \$1,500,000 that it advanced to Pershing in January 2003 should have been returned. Pershing expressed its belief that it was entitled to retain the advance and receive a minimum of \$3 million for its unreimbursed costs, a termination fee of \$500,000 and \$5 million for lost revenues. Siebert received a release for the \$3 million related to disputed claims for unreimbursed fees and costs. In 2004, Siebert decided not to commence proceedings against Pershing and charged off the \$1,500,000 advance to Pershing. Siebert believes the Pershing claims are without merit and that the ultimate outcome of this matter will not have a material adverse effect on the Company's results of operations or financial position.

The Company is involved in various routine lawsuits of a nature deemed by the Company customary and incidental to its business. In the opinion of management, the ultimate disposition of such actions will not have a material adverse effect on its financial position or results of operations.

9. Recent Accounting Pronouncements

In May 2009, the FASB issued SFAS No. 165 Subsequent Events (SFAS 165). SFAS 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS 165 sets forth (1) The period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, (2) The circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements and (3) The disclosures that an entity should make about events or transactions that occurred after the balance sheet date. SFAS 165 is effective for interim or annual financial periods ending after June 15, 2009. The Company adopted SFAS 165 in the quarter ended June 30, 2009 and evaluated subsequent events through August 14, 2009, the date the financial statements were issued.

In June 2009, the FASB issued SFAS No. 166 Accounting for Transfers of Financial Assets an amendment of FASB Statement No. 140 (SFAS 166). SFAS 166 improves the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-Q

performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. SFAS 166 is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. The Company is evaluating the impact the adoption of SFAS 166 will have on its financial statements.

In June 2009, the FASB issued SFAS No. 167 Amendments to FASB Interpretation No. 46(R) (SFAS 167). SFAS 167 improves financial reporting by enterprises involved with variable interest entities and to address (1) the effects on certain provisions of FASB Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities, as a result of the elimination of the qualifying special-purpose entity concept in SFAS 166 and (2) constituent concerns about the application of certain key provisions of Interpretation 46(R), including those in which the accounting and disclosures under the Interpretation do not always provide timely and useful information about an enterprise's involvement in a variable interest entity. SFAS 167 is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. The Company is evaluating the impact the adoption of SFAS 167 will have on its financial statements.

In April 2009, the FASB issued FASB Staff Position No. FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments (FSP FAS 107-1 and APB 28-1). FSP FAS 107-1 and APB 28-1 extends the disclosure requirements of SFAS No. 107 to interim period financial statements, in addition to the existing requirements for annual periods and reiterates SFAS No. 107's requirement to disclose the methods and significant assumptions used to estimate fair value. FSP FAS 107-1 and APB 28-1 is effective for the Company's interim periods ending after June 15, 2009 and will be applied on a prospective basis. FSP FAS 107-1 and APB 28-1 were adopted June 30, 2009 and had no impact on the Company's disclosures.

In April 2009, the FASB issued FASB Staff Position No. FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly (FSP FAS 157-4). FSP FAS 157-4 is effective for the Company's interim and annual periods ending after June 15, 2009 and will be applied on a prospective basis. FSP FAS 157-4 was adopted June 30, 2009 and had no impact on the Company's financial position, results of operations or cash flows.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with our audited consolidated financial statements as of and for the year ended December 31, 2008, and the unaudited consolidated financial statements and the notes thereto contained elsewhere in this Quarterly Report.

Business Environment

The stock market rebounded in the second quarter of 2009 despite the volatility in the marketplace due to the financial crisis affecting the global economy. Competition in the securities industry remains intense especially with regard to retail customer account acquisition and retention.

Like other securities firms, we are directly affected by general economic and market conditions including fluctuations in volume and prices of securities, changes and prospects for changes in interest rates and demand for brokerage and investment banking services, all of which can affect our relative profitability. In periods of reduced market activity, profitability is likely to be adversely affected because certain expenses, including salaries and related costs, portions of communications costs and occupancy expenses remain relatively fixed. Earnings, or loss, for any period should not be considered representative of any other period.

Recent Developments

On January 23, 2008, the Board of Directors of the Company authorized a buy back of up to 300,000 shares of common stock. During the six months ended June 30, 2009, the Company purchased 8,017 shares at an average price of \$1.67.

Critical Accounting Policies

We generally follow accounting policies standard in the brokerage industry and believe that our policies appropriately reflect our financial position and results of operations. Our management makes significant estimates that effect the reported amounts of assets, liabilities, revenues and expenses and the related disclosure of contingent assets and liabilities included in the financial statements. The estimates relate primarily to revenue and expense items in the normal course of business as to which we receive no confirmations, invoices, or other documentation at the time the books are closed for a period. We use our best judgment, based on our knowledge of these revenue transactions and expenses incurred, to estimate the amounts of such revenue and expense. We are not aware of any material differences between the estimates used in closing our books for the last five years and the actual amounts of revenue and expenses incurred when we subsequently receive the actual confirmations, invoices or other documentation. Estimates are also used in determining the useful lives of intangible assets, and the fair value of intangible assets and securities. Our management believes that its estimates are reasonable.

Results of Operations
