Atlas Restructures Option Agreement on Grassy Mountain Gold Project; Assigns Option for Merger with Western Gold Resources, Inc. to Its Subsidiary

Denver...Atlas Minerals Inc. (the "Company") and its wholly-owned subsidiary, Atlas Precious Metals, Inc. (collectively "Atlas"), announced today that they have restructured the option agreement (as amended) with Seabridge Gold, Inc. (f/k/a Seabridge Resources Inc.) and its wholly-owned subsidiary, Seabridge Gold Corporation (collectively "Seabridge"), under which Seabridge has the right to acquire from Atlas the Grassy Mountain gold property located in eastern Oregon.

Under the original acquisition terms, Seabridge would have acquired the Grassy Mountain property by paying Atlas US\$1.7 million in a combination of cash, Seabridge common shares and notes for partial deferred payment. To accommodate a preference for upfront cash, the purchase terms with Seabridge have been restructured. Specifically, Seabridge has delivered to Atlas a US\$300,000 option payment in exchange for which Seabridge has obtained the right to acquire the Grassy Mountain property for US\$600,000, provided payment is received by Atlas on or before March 31, 2003

The Company has also assigned to Atlas Precious Metals, Inc. an option agreement with Western Gold Resources, Inc. ("Western Gold") dated September 4, 2002, pursuant to which the Company has the right to acquire 100% of the outstanding shares of Western Gold. Western Gold's primary asset is the Estrades polymetallic mine located approximately 120 miles northwest of Val-d'Or in northwestern Quebec. The Company is in the process of completing extensive due diligence of the Estrades mine.

As a result of this assignment, Atlas Precious Metals, Inc. now has the right to acquire Western Gold. In conjunction with the assignment, Western Gold agreed to extend the option period to March 31, 2003, or such other date as may be agreed upon, and Atlas Precious Metals, Inc. paid Western Gold the sum of \$50,000 which

Edgar Filing: ATLAS MINERALS INC - Form 8-K

will be deducted from the merger consideration otherwise due and payable to Western Gold upon completion of the merger. However, until the Company and Atlas Precious Metals, Inc. complete their due diligence of the Estrades mine, no decision regarding consummation of the merger has been made and no guarantee can be made that the merger will be completed.

Atlas President and CFO, Gary E. Davis, indicated that the foregoing transactions represent the initial steps in effecting necessary changes required to move Atlas forward. He noted that "the restructuring of the sale of Grassy Mountain was a key component of this effort."

In a separate transaction, Seabridge has agreed to provide US\$500,000 in financing for Atlas or a related subsidiary by March 31, 2003. Mr. Davis said that "he was gratified that Seabridge believed enough in Management's vision of the Company to actively participate in the rebuilding effort through the private financing."

The Company is in the business of development and exploitation of natural resource properties. Current efforts are being directed toward the identification of possible acquisition opportunities of smaller-scale properties, primarily in the sectors of industrial minerals, base metals, and precious metals, which can be placed into production quickly and at low cost.

For further information contact Gary E. Davis, President and Chief Financial Officer, at 303-292-1299.

On behalf of Atlas Minerals Inc.

"Gary E. Davis"
President and Chief Financial Officer
