**Item 9: Regulation FD Disclosure. [Results of Operations and Financial Condition.]**

**Use of Non-GAAP Financial Information**

To supplement our consolidated financial statements presented in accordance with generally accepted accounting principles, or GAAP, we use pro forma operating results. Our pro forma results exclude a charge relating to in-process research and development expenses. Our management believes that the presentation of pro forma results provides useful information to investors regarding certain additional financial and business trends relating to our financial condition and results of operations. Pro forma operating results are not based on any standardized methodology prescribed by GAAP and are not necessarily comparable to similar measures presented by other companies. Pro forma operating results should not be considered in isolation or as a substitute for operating results prepared in accordance with GAAP.

As a result of the acquisition of Yxlon International Holding GmbH, our management believes pro forma operating results are a useful measure that facilitates period-to-period operating comparisons. Pro forma operating results exclude the effects of charges related to the acquisition of Yxlon. We report pro forma operating results to provide investors with an alternative method for assessing our operating results in a manner that is focused on what we believe to be our core business operations.

Pursuant to the requirements of Regulation G, we have provided a reconciliation of the non-GAAP financial measures to the most directly comparable GAAP financial measures. We have provided a reconciliation of pro forma operating results to GAAP operating results in Schedule 1. In addition, we have provided a reconciliation of reportable segment revenues and income (loss) from operations to consolidated revenues and income (loss) from operations is provided in Schedule 2.
