NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The consolidated financial statements included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, except for the retirement of the Executive Officer (see Note 6), necessary for a fair presentation of the financial information for the periods indicated have been included. For further information regarding the Company's accounting policies, refer to the consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended September 30, 2003.

Aggregate amortization expenses were \$10,050 for the three months ended December 31, 2003 and 2002.

The Company applies Accounting Principles Board Opinion Number 25, *Accounting for Stock Issued to Employees* (APB 25) and related interpretations in accounting for options granted, which requires compensation expense for the Company's options to be recognized only if the market price of the underlying stock exceeds the exercise price on the date of grant. Accordingly, the Company has not recognized compensation expense for its options granted after 1994. Statement of Financial Accounting Standards (SFAS) No. 123, *Accounting for Stock-Based Compensation*, issued in October 1995, requires pro forma disclosures for option grants made after December 31, 1994, when accounting for stock-based compensation plans in accordance with APB 25.

If the Company elected to recognize compensation cost based on the fair value of the options granted at grant date as prescribed by SFAS No. 123, net income (loss) and earnings (loss) per common share would have been reduced to the pro forma amounts show below:

	Three Months Ended December 31,

Note 2. Inventories

The major components of inventories are:

	December 31, 2003 (Unaudited)	September 30, 2003
Finished goods	\$ 16,749,660	\$ 15,588,106

Raw materials and supplies	9,442,296	9,696,355
	\$ 28,556,598	\$ 28,664,895

Note 3. Financing Arrangements

Long-term debt consists of the following as of December 31, 2003:

Term loans under a credit agreement (i) (ii), interest payable monthly based on either the Eurodollar or prime rate at the Company's option, plus an applicable margin as defined in the agreement. The interest rate at December 31, 2003 was 4.92%. Future minimum quarterly principal installments of \$1,000,000 through September 30, 2006 with any remaining balance due September 30, 2006.	\$ 31,000,000
Revolving loans under a credit agreement (i), interest payable quarterly based on either the Eurodollar or prime rate at the Company's option, plus an applicable margin as defined in the agreement. The blended interest rate at December 31, 2003 was 4.96%. The revolving lines of credit terminate in October 2004.	18,300,000
Other	288,750
	49,588,750
Less current maturities	22,300,000
	\$ 27,288,750

(i) In October 2001, the Company entered into a \$70 million credit agreement, which consists of a \$40 million term loan and a \$30 million revolving loan facility. The credit agreement is collateralized principally by all assets located in the United States of America. Under the credit agreement, the Company is restricted from paying dividends to stockholders. Also, the Company is required to maintain unencumbered cash or marketable securities of \$4 million at the end of each fiscal quarter and to maintain certain financial covenants.

(ii) In addition to quarterly principal payments, the Company may be required to make additional principal payments based on results of the Company's domestic operating profits, as defined in the agreement.

Note 4. Earnings Per Common Share

Basic earnings per common share are calculated by dividing net income (loss) by the average common shares outstanding. On a diluted basis, shares outstanding are adjusted to assume the exercise of stock options.

	Three Months Ended December 31,	
	2003	2002
Net income (loss)	\$ 851,284	\$ (1,492,456)
Determination of shares:		
Weighted average number of common shares outstanding	5,596,174	5,571,125
Shares issuable on exercise of stock options, net of shares assumed to be purchased out of proceeds	82,842	*
Average common shares outstanding for diluted earnings per share computation	5,679,016	5,571,125
Earnings (loss) per common share:		
Basic	\$ 0.15	\$ (0.27)
Diluted	\$ 0.15	\$ (0.27)

* The effect of stock options have not been included for the three months ended December 31, 2002, as their effect would have been anti-dilutive.

The Company's Virgin Islands subsidiary, through the Economic Development Commission of the Government of the Virgin Islands of the United States, has received a 90% exemption from income taxes on operating income. This exemption is effective through September 2020. The per share effect of this exemption on earnings (on a diluted basis) was to increase earnings per share by \$0.07 and \$0.03 for the three months ended December 31, 2003 and 2002, respectively.

Note 5. Segment and Geographical Information

The Company operates primarily in the beverage alcohol industry in the United States. The Company reports its operating results in four segments:

Bulk Alcohol Products (rum, citrus brandy, citrus spirits, cane spirits, fortified citrus wine, purchased distilled products and byproducts)

Premium Branded Spirits (primarily Cruzan Estate Rums and Cruzan Flavored Rums)

Bottling Operations (contract bottling services and proprietary and private label products)

Vinegar and Cooking Wine (bulk vinegar, bulk cooking wine, vinegar stock and proprietary and private label case goods)

Corporate Operations includes expenses related to the Company's executive offices that are not allocated to its reportable segments. These expenses include payroll and related expenses, professional fees, consulting fees, rent for the Company's executive offices, insurance expense, directors' fees and utilities.

The accounting policies of the reportable segments are the same as those referred to in Note 1 to the consolidated financial statements located in Item 8 of the Company's Annual Report on Form 10-K for the year ended September 30, 2003. The Company evaluates the performance of its operating segments based on income before income taxes, equity in income or loss of equity investees, interest income and interest expense. Material intersegment sales and transfers have been eliminated.

Edgar Filing: TODHUNTER INTERNATIONAL INC - Form 10-Q

Summarized financial information concerning the Company's reportable segments is shown in the following table.

Net sales, operating income (loss), depreciation and amortization and capital expenditures for the Company's reportable segments for the three months ended December 31, 2003 and 2002, and identifiable assets as of December 31, 2003 and 2002, were as follows:

Included in net sales for the United States are export sales, primarily to Europe, Canada and the Caribbean, totaling approximately \$2,472,000 and \$1,918,000 for the three months ended December 31, 2003 and 2002, respectively.

Note 6. Retirement of Executive Officer

On November 26, 2002, the Company announced the retirement and resignation of A. Kenneth Pincourt, Jr., its Founder, Chairman and Chief Executive Officer. The Company entered into a retirement agreement with Mr. Pincourt, setting forth the terms of his retirement and resignation. The retirement agreement replaced Mr. Pincourt's previous employment agreement. Under the retirement agreement, the Company elected to accelerate retirement benefits under its deferred compensation program and to continue to pay compensation and provide related benefits through July 15, 2004, the remaining term of Mr. Pincourt's previous employment contract.

Accelerated benefits under the deferred program amounted to \$1,040,987, of which \$549,220 had been accrued as of September 30, 2002. Mr. Pincourt's deferred compensation was paid to him on December 13, 2002. Also under the retirement agreement, Mr. Pincourt will continue to receive monthly payments of \$41,004 through July 15, 2004, one bonus payment of \$150,491, which was paid in October 2003, and a second bonus payment of \$119,138 payable on or before August 31, 2004. Among other benefits, Mr. Pincourt is also able to participate in any health insurance plan, employee benefit plan or other arrangement made available by the Company or its subsidiaries to its executives and key management employees, through July 15, 2004. The Company recorded a charge for the retirement of Mr. Pincourt during the first quarter of fiscal 2003. The effect of this charge was included in other expense in the Company's consolidated statement of income and amounted to \$1,503,925 before income taxes.

The following table summarizes the charge made during the first quarter of fiscal 2003 for Mr. Pincourt's retirement:

Deferred compensation	\$	1,040,987
Compensation and related benefits		1,012,158
Total		2,053,145
Less deferred compensation accrued as of September 30, 2002		(549,220)
Charged to expense	\$	1,503,925

Note 7. Income Taxes

The Company incurred losses for income tax purposes from its U.S. operations of \$1.3 million and \$2.0 million in 2003 and 2002, respectively. The Company has recorded an income tax benefit in the Company's consolidated statement of income and as a receivable included in other current assets on the Company's consolidated balance sheet.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

Management's Discussion and Analysis contains Forward-Looking Statements, as defined in section 27a of the Securities Act of 1933, as amended, and Section 21e of the Securities Exchange Act of 1934, as amended. Forward-Looking Statements are statements other than historical information or statements of current condition and relate to future events or the future financial performance of the Company. Some Forward-Looking Statements may be identified by use of such terms as believes, anticipates, intends or expects. Such Forward-Looking Statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such Forward-Looking Statements. The following is a list of factors, among others, that could cause actual results to differ materially from those contemplated by the Forward-Looking Statements: business conditions in certain market segments and industries and the general economy; competitive factors, including increased competition and price pressures; availability of third-party component products at reasonable prices; increased excise taxes; foreign currency exposure; changes in product mix between and among product lines; lower than expected customer orders and quarterly seasonal fluctuations of those orders; and product shipment interruptions. The Company undertakes no obligation to update or revise any Forward-Looking Statements, whether as a result of new information, future events or otherwise.

Introduction

The following discussion and analysis summarizes the significant factors affecting (i) consolidated results of operations of the Company for the three months ended December 31, 2003 compared to the three months ended December 31, 2002, and (ii) financial liquidity and capital resources. This discussion and analysis should be read in conjunction with the Company's consolidated financial statements and notes thereto included herein. Certain amounts presented in this Item 2 have been rounded to the nearest thousand or hundred thousand, as applicable, but the percentages calculated are based on actual amounts without rounding.

The Company operates primarily in the beverage alcohol industry in the United States. The Company is a leading producer and supplier of rum, brandy, wine and spirits to other beverage alcohol manufacturers; produces, imports and markets premium branded spirits; bottles beverage alcohol and other beverages on a contract basis and under its own labels; and produces vinegar and cooking wine. The Company reports its operating results in four segments: Bulk Alcohol Products (rum, citrus brandy, citrus spirits, cane spirits, fortified citrus wine, purchased distilled products and byproducts); Premium Branded Spirits (primarily Cruzan Estate Rums and Cruzan Flavored Rums); Bottling Operations (contract bottling services and proprietary and private label products); and Vinegar and Cooking Wine (bulk vinegar, bulk cooking wine, vinegar stock and proprietary and private label case goods).

Information regarding the net sales, operating income and total assets of each of the Company's business segments and information regarding geographic areas is set forth in Note 5 to the consolidated financial statements.

The Company's net sales and gross margins (gross profit as a percentage of net sales) vary depending on the mix of business among the Company's products. Historically, gross margins have been highest in bulk alcohol products and premium branded spirits and lower in bottling operations and vinegar and cooking wine operations.

The Company's customers often purchase bulk alcohol products in significant quantities or place significant orders for contract bottling services, distilled spirits, vinegar and cooking wine. Accordingly, the size and timing of purchase orders and product shipments can cause operating results to fluctuate significantly from quarter to quarter. Additionally, some Company products generate higher profit margins than others, and changes in the Company's product mix can cause gross margins to fluctuate. Certain aspects of the Company's business are seasonal, with increased demand for the Company's contract bottling services from April to October and increased production of the Company's bulk alcohol products from November to June, corresponding to

the Florida citrus harvest. As a result of these factors, the Company's operating results may vary significantly from quarter to quarter.

Net sales represent the Company's gross sales less excise taxes. Excise taxes are generally payable on sales of certain of the Company's bulk alcohol products and on all alcohol products bottled by the Company. However, there are no excise taxes paid on sales made to customers that have tax permits. Accordingly, excise taxes may vary significantly from period to period depending upon the Company's product and customer mix.

Three months ended December 31, 2003 compared to three months ended December 31, 2002. Unless otherwise noted, references to 2003 represent the three-month period ended December 31, 2003 and references to 2002 represent the three-month period ended December 31, 2002.

Net Sales. Net sales were \$22.4 million in 2003, an increase of 7.0% from net sales of \$21.0 million in 2002.

Net sales of bulk alcohol products were \$8.6 million in 2003, a decrease of 1.2% from net sales of \$8.7 million in 2002. The decrease resulted primarily from decreased shipments of citrus brandy, citrus spirits and cane spirits offset by increased shipments of rum and fortified citrus wine. The decrease in citrus brandy, citrus spirits and cane spirits was due in part to the timing of customer orders. In addition, in 2002, the Company had sales of citrus and cane spirits to new customers that had difficulty sourcing bulk alcohol from their regular suppliers. These sales did not reoccur in 2003.

Net sales of premium branded spirits were \$5.8 million in 2003, an increase of 38.9% from net sales of \$4.2 million in 2002. During the third quarter of fiscal 2002, the Company had introduced a new line of Cruzan products in the ready-to-drink category and sold approximately 134,000 cases of this product through September 30, 2002. During fiscal 2003, due to increased competition and management's expectation of limited growth potential within the ready-to-drink product category, the Company made a strategic decision to exit this category and concentrate on the growing segment of its premium branded spirits business, Cruzan Estate Rums and Cruzan Flavored Rums. In connection with management's decision to exit the ready-to-drink product category, during the fourth quarter of fiscal 2003, the Company entered into an

Edgar Filing: TODHUNTER INTERNATIONAL INC - Form 10-Q

agreement with a corporate trading company to receive trade credits upon installment deliveries of the Company's remaining inventory of ready-to-drink products. In 2003, net sales of premium branded spirits included \$0.6 million of Cruzan ready-to-drink products sold to this trading company. These sales represented the final sales of inventories of such products. Excluding Cruzan ready-to-drink product sales, net sales of premium branded spirits were \$5.2 million in 2003, an increase of 23.7% from net sales of \$4.2 million in 2002, as the premium branded spirits segment continued its double digit growth.

Sales of the Company's Cruzan Estate Rums and Cruzan Flavored Rums increased 1.8% in 2003 compared to 2002. This growth rate for Cruzan Estate Rums and Cruzan Flavored Rums is a decline from previous periods. Sales of Cruzan Estate Rums and Cruzan Flavored Rums increased from \$2.2 million in fiscal 1996 to \$17.0 million in fiscal 2003. During this time, the Cruzan brand has been recognized as one of the fastest growing brands in the spirits industry by certain beverage industry publications and the Cruzan Rums have won numerous tasting awards from several prestigious beverage industry organizations. Beginning in fiscal year 2003, several of the Company's competitors began to introduce their own lines of flavored rum products into the marketplace, which has negatively impacted the level of sales growth of Cruzan Flavored Rums. The Company is also aware of other competitors that plan to introduce their own lines of flavored rum products into the marketplace in the near future. Some of the Company's competitors in the rum and flavored rum categories have significantly greater financial and other resources than the Company, which could adversely effect the Company's sales growth of Cruzan Rums and Cruzan Flavored Rums. As a response to such increased competition, and in order to provide further impetus to the growth of Cruzan Flavored Rums, management plans to significantly increase its marketing budget during fiscal 2004. Management believes that by increasing its marketing budget and maintaining its focus on the Cruzan brand, sales of Cruzan Estate Rums and Cruzan Flavored Rums will once again return to double digit growth for fiscal 2004.

Net sales of the Company's bottling operations were \$2.7 million in 2003, a decrease of 5.4% from net sales of \$2.8 million in 2002. While the unit volume of the Company's bottling operations increased 21.5% in 2003 as a result of business with new contract bottling customers, average unit prices declined as a result of a change in customer mix. During 2003, the Company lost a large private label bottling customer. Net sales to this customer were approximately \$1.6 million and 124,277 cases for the year ended September 30, 2003, or approximately 11.0% of bottling operations net sales and 3.3% of bottling operations volume. Net sales to this customer during 2002 were approximately \$0.7 million and 57,666 cases. Also during 2003, excise taxes decreased \$2.2 million compared to 2002. The decrease in sales to this private label bottling customer during 2003 accounted for approximately \$1.6 million of the \$2.2 million decrease in excise taxes. Management believes that the loss of this low margin business will not have a material effect on the Company's consolidated results of operations or financial position. During the third quarter of fiscal 2003, management began to implement a plan to consolidate the Company's bottling operations to increase efficiencies and reduce overhead in the future. Management expects to realize cost savings from this plan beginning in the third quarter of fiscal 2004.

Net sales of vinegar and cooking wine were \$5.3 million in 2003, an increase of 1.9% from net sales of \$5.2 million in 2002.

Gross Profit. Gross profit was \$7.1 million in 2003, an increase of 27.7% from gross profit of \$5.6 million in 2002. During 2003, bulk alcohol gross profit increased as a result of increased shipments of rum and fortified wine; premium branded spirits gross profit increased with sales; bottling operations gross profit increased due to new business with contract bottling customers; and vinegar and cooking wine gross profit decreased due to higher material cost. Gross margin increased to 31.8% in 2003 from 26.6% in 2002 as a result of changes in product mix.

Selling, General and Administrative Expenses. Selling, general and administrative expenses were \$6.2 million in 2003, an increase of 13.4% from \$5.5 million in 2002. The increase was primarily attributable to increased administrative, marketing and advertising expenses in the Company's premium branded spirits business as the Company continues to place emphasis on this growing business segment.

Operating Income. The following table sets forth the operating income (loss) by reportable segment of the Company for 2003 and 2002.

	Three Months Ended December 31,		% Change
	2003	2002	
	(In thousands)		
Bulk Alcohol Products	\$ 2,737	\$ 2,097	30.5
Premium Branded Spirits	(696)	(413)	
Bottling Operations	(980)	(1,282)	
Vinegar and Cooking Wine	866	1,172	(26.1)
Corporate Operations	(1,042)	(1,499)	
	\$ 885	\$ 75	1,076.4

As a result of the above factors, operating income was \$0.9 million in 2003, an increase of 1,076.4% from operating income of \$0.1 million in 2002.

The Company's premium branded spirits segment experienced operating losses of \$0.7 million in 2003 and \$0.4 million in 2002. The operating losses reflected the Company's continuing efforts to increase market share by reinvesting segment gross profits in selling and marketing expenses.

The Company's bottling operations segment reported an operating loss of \$1.0 million in 2003 compared to an operating loss of \$1.3 million in 2002. During the third quarter of fiscal 2003, management began to implement a plan to consolidate the Company's bottling operations to increase efficiencies and reduce overhead. Management expects this business to return to profitability during the fourth quarter of fiscal 2004.

Interest Expense. Interest expense was \$0.7 million in 2003 and 2002. The Company's borrowing rates were higher in 2003 compared to 2002. However, higher rates were offset by lower average borrowings during 2003, resulting in slightly lower interest expense.

Other Expense. On November 26, 2002, the Company announced the retirement and resignation of A. Kenneth Pincourt, Jr., its Founder, Chairman and Chief Executive Officer. The Company has entered into a retirement agreement with Mr. Pincourt, setting forth the terms of his retirement and resignation. The retirement agreement replaces Mr. Pincourt's previous employment agreement. Under the retirement agreement, the Company elected to accelerate retirement benefits under its deferred compensation program and to continue to pay compensation and provide related benefits through July 15, 2004, the remaining term of Mr. Pincourt's previous employment contract.

Edgar Filing: TODHUNTER INTERNATIONAL INC - Form 10-Q

Accelerated benefits under the deferred program amounted to \$1,040,987, of which \$549,220 had been accrued as of September 30, 2002. Mr. Pincourt's deferred compensation was paid to him on December 13, 2002. Also under the retirement agreement, Mr. Pincourt will continue to receive monthly payments of \$41,004 through July 15, 2004, one bonus payment of \$150,491, which was paid in October 2003, and a second bonus payment of \$119,138 payable on or before August 31, 2004. Among other benefits, Mr. Pincourt is also able to participate in any health insurance plan, employee benefit plan or other arrangement made available by the Company or its subsidiaries to its executives and key management employees, through July 15, 2004. The Company recorded a charge for the retirement of Mr. Pincourt during 2002. The effect of this charge was included in other expense in the Company's consolidated statement of income and amounted to \$1,503,925 before income taxes.

The following table summarizes the charge made during the first quarter for Mr. Pincourt's retirement:

Deferred compensation	\$	1,040,987
Compensation and related benefits		1,012,158
Total		2,053,145
Less deferred compensation accrued as of September 30, 2002		(549,220)
Charged to expense	\$	1,503,925

Income Tax Expense. During 2003 and 2002, the Company incurred operating losses from its U.S. operations and recorded an income tax benefit of \$0.2 million and \$0.3 million, respectively. The Company's Virgin Islands subsidiary has a 90% exemption from U.S. Virgin Islands income taxes. The exemption is effective through September 2020. In addition, the Company benefited from the extraterritorial income exclusion in 2003 and 2002.

Financial Liquidity and Capital Resources

General

The Company's principal use of cash in its operating activities is for purchasing raw materials to be used in its manufacturing operations and purchasing imported products for its premium branded spirits business. The Company's source of liquidity has historically been cash flow from operations and from borrowings on its line of credit. Some of the Company's manufacturing operations are seasonal and the Company's borrowings on its line of credit vary during the year. For example, the Company uses citrus molasses as its primary raw material in the production of citrus brandy and spirits at its two Florida distilleries. The Company buys citrus molasses, a by-product of citrus juice production, from local manufacturers of citrus juice and concentrate during the citrus harvest, which generally runs from November to June. The Company begins purchasing citrus molasses in November and, due to the short life of the citrus molasses it purchases, manufactures and builds inventory of citrus brandy and spirits through June. Another seasonal business of the Company is its contract bottling services. Demand for contract bottling services is highest during the months from April through October. Management believes that cash provided by its operating and financing activities will provide adequate resources to satisfy its working capital, liquidity and anticipated capital expenditure requirements for both its short-term and long-term capital needs.

Operating Activities

Net cash provided by operating activities in 2003 was \$6.1 million, which resulted from \$2.0 million in net income adjusted for noncash items, and \$4.1 million representing the net decrease in operating assets and liabilities.

Investing and Financing Activities

Edgar Filing: TODHUNTER INTERNATIONAL INC - Form 10-Q

Net cash used in investing activities in 2003 was \$0.1 million, which resulted primarily from \$1.1 million of capital expenditures, offset by proceeds from the sale of property and equipment, collections on notes receivable and redemptions of short-term investments.

Net cash used in financing activities in 2003 was \$1.6 million, which resulted primarily from payments of \$1.0 million of long-term debt and \$0.7 million in payments on the Company's line of credit.

The Company's revolving credit facility, which expires in October 2004, provides for maximum borrowings of \$30 million. Borrowings under this facility were \$18.3 million at December 31, 2003. The Company intends to extend or refinance this facility prior to its scheduled expiration (see Note 3 to the consolidated financial statements).

The Company's bank debt was \$49.3 million as of December 31, 2003, and its ratio of total debt to equity was 0.95 to 1.

The Company has not paid dividends to stockholders since becoming a public company in 1992. The Company intends to continue to retain earnings for use in its business and, therefore, does not anticipate declaring or paying cash dividends in this fiscal year. Also, the payment of cash dividends is restricted by the Company's credit agreement. In addition to quarterly term loan principal payments required by the credit agreement, the Company may be required to make additional principal payments based on the results of the Company's domestic operating profits, as defined in the credit agreement.

The Company's share of the undistributed earnings of the Bahamian and Virgin Islands subsidiaries was approximately \$7.3 million and \$31.6 million, respectively, as of September 30, 2003. See Note 10 to the Company's consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended September 30, 2003 for additional information on income taxes related to these subsidiaries.

Based on current plans and business conditions, management expects that its cash, cash equivalents, and short-term investments, together with any amounts generated from operations and available borrowings, will be sufficient to meet the Company's cash requirements for at least the next 12 months.

Effects of Inflation and Changing Prices

The Company's results of operations and financial condition have not been significantly affected by inflation and changing prices. The Company has been able, subject to normal competitive conditions, to pass along rising costs through increased selling prices.

Critical Accounting Policies

The Company's significant accounting policies are more fully described in Note 1 to the Company's consolidated financial statements located in Item 8 of its Annual Report on Form 10-K for the year ended September 30, 2003. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses, and the related disclosures of contingent assets and liabilities. Actual results could differ from those estimates under different assumptions or conditions. The Company believes that the following critical accounting policy is subject to estimates and judgments used in the preparation of its consolidated financial statements:

The Company has goodwill and intangible assets associated with business acquisitions. The Company reviews these assets for impairment annually and whenever an event occurs or circumstances change that would more likely than not reduce the fair value of these assets below their carrying value. If the fair value of these assets is less than their carrying value, then an impairment loss would be recognized equal to the excess of the carrying value over the fair value of the asset.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. See Recent Accounting Pronouncements, below.

Recent Accounting Pronouncements

As of March 31, 2003, the Company adopted Financial Accounting Standards Board Interpretation No. 45 (FIN 45), Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. FIN 45 requires a guarantor to recognize at the inception of a guarantee, a liability for the fair value or market value, of the obligation undertaken in issuing the guarantee and must disclose the information in its interim and annual financial statements. The provisions related to recognizing a liability at inception for the fair value of the guarantor's obligation does not apply to guarantees issued between entities under common control and therefore is not applicable to the Company. Management believes that this standard does not have a material effect on the Company's consolidated financial position or results of operations.

In January 2003, the Financial Accounting Standards Board issued FIN 46, Consolidation of Variable Interest Entities. FIN 46 clarifies the application of Accounting Research Bulletin 51, Consolidated Financial Statements, for certain entities that do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties or in which equity investors do not have the characteristics of a controlling financial interest (variable interest entities). Variable interest entities within the scope of FIN 46 will be required to be consolidated by their primary beneficiary. The primary beneficiary of a variable interest entity is determined to be the party that absorbs a majority of the entity's expected losses, receives a majority of its expected returns, or both. FIN 46 applied immediately to variable interest entities created after January 31, 2003, and to variable interest entities in which the Company obtains an interest after that date. FIN 46 was effective July 1, 2003 to variable interest entities in which the Company holds a variable interest that it acquired before February 1, 2003. Management believes this standard does not have a material effect on the Company's consolidated financial position or results of operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The information required under this Item 3 is incorporated herein by reference to the Company's Annual Report on Form 10-K for the year ended September 30, 2003.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) that are designed to ensure that information required to be disclosed in the Company's reports under the Exchange Act are recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that the information is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired objectives, and management was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation and subject to the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the design and operation of the Company's disclosure controls and procedures provided reasonable

assurance that the disclosure controls and procedures are effective to accomplish their objectives.

Changes in Internal Control Over Financial Reporting

In addition, management, including the Company's Chief Executive Officer and Chief Financial Officer, reviewed the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act), and there have been no significant changes in the Company's internal control or in other factors that could significantly affect the Company's internal control over financial reporting during the period covered by this report.
