Investment Securities Valuation - Investments traded on national securities exchanges or in the over-the-counter market that are National Market System securities are valued at the last sale price or, lacking any sales, at the mean between the last bid and asked prices. Other over-the-counter securities are valued at the most recent bid prices as obtained from one or more dealers that make markets in the securities. Exchange traded investments for which market quotations are not readily available are valued at fair value as determined in good faith by the Trustees of the Fund. The value of venture capital and other restricted securities is determined in good faith by the Trustees. However, because of the uncertainty of venture capital and other restricted security valuations, these estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. Short-term investments with maturity of 60 days or less are valued at amortized cost.

Federal Income Tax Cost - At December 31, 2005, the total cost of securities of Federal income tax purposed was \$357,585,546. The net unrealized gain on securities held by the Fund was \$42,537,782, including gross unrealized gain of \$84,644,111 and gross unrealized loss of \$42,106,329.

Affiliate Transactions An affiliate issuer is a company in which the Fund holds 5% or more of the voting securities. Transactions with such companies during the three months ended December 31, 2005 were as follows:

| Issuer | Value on October 1, 2005 | Purchases | Sales | Income | Value on December 31, 2005 |

Venture Capital and Other Restricted Securities The following table details the acquisition date, cost, carrying value per unit, and value of the Fund's venture capital and other restricted securities at December 31, 2005, as determined by the Trustees of the Fund. The Fund may invest in

venture capital and other restricted securities if these securities would currently comprise 40% or less of net assets. The value of these securities represent 15% of the Fund's net assets at December 31, 2005. With the exception of Conor Medsystems, Inc. Restricted Common the Fund on its own does not have the right to demand that such securities be registered. Subject to certain conditions the Fund has the right to request registration of Conor Medsystems, Inc. Restricted Common.
