FOR IMMEDIATE RELEASE

SERONO DELIVERS SECOND QUARTER EPS OF \$12.92, UP 25.2% ON ADJUSTED* BASIS

- Strong operating margin of 29.0% of revenues -

Geneva, Switzerland, July 26, 2006 Serono (virt-x: SEO and NYSE: SRA), today reported its second quarter results for the period ended June 30, 2006.

Key Points for Second Quarter 2006

- Record total revenues of \$699.2m with product sales of \$628.7m
- Rebif® worldwide sales up 10.9% (+11.4% in local currencies) to \$361.6m
- Reported net income of \$189.2m up 25.9% on an adjusted* basis
- Basic EPS of \$12.92 per bearer share and \$0.32 per ADS
- H1 2006 product sales growth of 8.0% in local currencies, in line with full-year guidance of high single-digit growth
- 2006 EPS guidance of \$45.00 per bearer share reiterated
- Decision to move atacicept (TACI-Ig) into Phase 2 in rheumatoid arthritis and preliminary positive Phase 1b results in systemic lupus erythematosus

We have a solid business platform generating strong cash flow, as well as the financial strength and capability to execute value creating transactions, said Ernesto Bertarelli, Chief Executive Officer. We are entering an exciting, new chapter at Serono and I am confident that we will achieve our strategy for growth.

Given our financial performance in the first half of 2006, we are on track to achieve our EPS guidance of \$45.00, said Stuart Grant, Chief Financial Officer. Our EPS growth is driven by the strength of our operating margin which increased by an impressive eight percentage points in the first half of the year to 29.5% of total revenues.

* Non-IFRS financial measures included in order to permit assessment of the performance of the company's underlying business for the quarter were a \$30.0m (\$28.5m after-tax) gain on sale of investment in Celgene and a

\$3.7m write down of investment in CancerVax in Q2 2005.

1

Financial Performance

Total revenues increased by 3.3%, or 3.9% in local currencies, to \$699.2m in the second quarter of 2006 (Q2 2005: \$676.8m). Product sales grew 2.8%, or 3.3% in local currencies, to \$628.7m compared to a strong quarter last year (Q2 2005: \$611.5m). Excluding the impact on sales of the Bourn Hall clinic management buyout and the sale of a non-core business, TerraCell S.A., in 2005, as well as the introduction of generics of Novantrone® in early April 2006, sales growth was 7.0% in local currencies in the second quarter of 2006. Royalty and license income increased by 8.0% to \$70.5m (Q2 2005: \$65.3m).

Gross margin was strong at 88.2% of product sales (Q2 2005: 87.8%). Selling, General and Administrative expenses were up 5.1% to \$233.7m (Q2 2005: \$222.5m). Research and Development expenses were down 10.6% to \$130.3m (Q2 2005: \$145.8m) reflecting the completion of a number of Phase 3 trials last year, the transfer of the Serono Genetics Institute and the Bourn Hall clinic management buyout. Other operating expenses were down 12.2% to \$58.2m (Q2 2005: \$66.3m), largely due to lower royalty expense related to Novantrone®.

Operating income in the second quarter of 2006 was up 21.1% to \$203.0m (Q2 2005: \$167.7m) with an operating margin of 29.0% of total revenues (Q2 2005: 24.8% of total revenues).

Financial income was \$18.5m (Q2 2005: \$43.7m) and financial expense was \$6.1m (Q2 2005: \$10.0m). The second quarter of 2005 included an exceptional gain of \$30.0m resulting from the sale of an equity holding in Celgene, Inc. and a write-down of \$3.7m related to impairment in value of an equity stake in CancerVax.

Net income in the second quarter of 2006 was \$189.2m up 8.1% or 25.9% on adjusted* basis (Q2 2005: \$175.1m reported, \$150.3m adjusted*). Basic earnings per share in the second quarter of 2006 were up 7.5%, or 25.2% on adjusted* basis, to \$12.92 per bearer share (Q2 2005: \$12.02, \$10.32 adjusted*) and \$0.32 per American Depositary Share (Q2 2005: \$0.30, \$0.26 adjusted*).

For the first six months, net cash flow from operating activities before change in working capital was \$495.3m (H1 2005: \$354.1m), or \$355.3m after change in working capital (H1 2005: \$177.1m). The company's liquid financial assets were \$1.8 billion at the end of the second quarter 2006.

As of June 30, 2006, there were 14,647,162 outstanding equivalent bearer shares of Serono S.A., net of treasury shares. The total weighted average number of equivalent bearer shares of Serono S.A. was 14,645,802 for the three months ending June 30, 2006.

Key Product Sales

In the second quarter of 2006, Rebif® had a solid performance with sales of \$361.6m, up 10.9%, or 11.4% in local currencies (Q2 2005: \$326.0m). Rebif® continues to be the best-selling therapy for multiple sclerosis outside the US, with sales of \$242.5m, growing 5.5%, or 6.0% in local currencies (Q2 2005: \$229.8m). Four years after

* Non-IFRS financial measures included in order to permit assessment of the performance of the company's underlying business for the quarter were a \$30.0m (\$28.5m after-tax) gain on sale of investment in Celgene and a \$3.7m write down of investment in CancerVax in Q2 2005.

launch in the US, Rebif® maintains its strong growth and reached US sales of \$119.0m, up 23.7% (Q2 2005: \$96.2m).

In July 2006, Serono announced that the European Commission has approved an update of the Summary of Product Characteristics of Rebif® in order to align it with current medical practice. Throughout Europe, Rebif® is now approved for use after the diagnosis of multiple sclerosis has been confirmed based on one attack and subsequent positive magnetic resonance imaging scans.

Sales of Gonal-f® were \$139.3m (Q2 2005: \$149.9m), in line with the first quarter of 2006. Global sales of supporting products (Ovidrel®, Cetrotide®, Crinone® and Luveris®) were up 6.9%, or 7.5% in local currencies to \$23.8m (Q2 2005: \$22.2m).

Saizen® sales were \$53.8m (Q2 2005: \$53.6m), a growth of 7.6% over the first quarter of 2006. Serostim® sales were stable at \$17.3m (Q2 2005: \$17.3m). In Q2 2006, Serono submitted a Supplemental New Drug Application to the U.S. Food and Drug Administration for recombinant human growth hormone in HIV-associated adipose redistribution syndrome.

Sales of Raptiva®, the only biological therapy specifically developed for the treatment of psoriasis, were \$17.0m in the second quarter 2006 (Q2 2005: \$7.4m), a growth of 24.3% over the first quarter of 2006. The focus for 2006 is on increasing market penetration by leveraging the strong clinical data including the recently published CLEAR study and differentiating Raptiva® from TNF blockers. In July the first large-scale pharmaco-epidemiological study in psoriasis in Europe, CLEARST™, was initiated. This prospective, seven-year study in 7,000 patients with moderate-to-severe plaque psoriasis is further assessing the long-term safety of Raptiva in clinical practice.

Novantrone® sales in the second quarter of 2006 were \$5.4m, down 70.4%, consequent to the introduction of generics of mitoxantrone in the US in April 2006 (Q2 2005: \$18.3m).

R&D News

In June, favorable results from a Phase 1b clinical trial with atacicept (TACI-Ig) in rheumatoid arthritis were presented at the 7th Annual European Congress of Rheumatology. Atacicept was well tolerated across the full range of dose levels and schedules tested, and clear biologic effect was observed. Based on these promising results, Serono and ZymoGenetics expect to begin the Phase 2 clinical program of atacicept in patients with rheumatoid arthritis in the second half of 2006.

In July, preliminary results of two Phase 1b studies in systemic lupus erythematosus indicate that atacicept demonstrated a favorable tolerability profile and that biological activity consistent with the mode of action was observed. Full results of these studies are planned to be presented at a medical meeting later this year.

Lastly, during the quarter it was announced that the novel fully human anti-CD3 monoclonal antibody, NI-0401, being developed in collaboration with NovImmune, has moved into a proof-of-concept trial in patients suffering from moderate-to-severe Crohn's Disease. This study is looking at the safety, tolerability and pharmacokinetics of intravenously administered NI-0401.

Conference Call and Webcast

Serono will hold a conference call on July 27, 2006, starting at 11:00 am US Eastern Time (17:00 Central European Time) during which Serono Management will present the Company's Second Quarter 2006 Results. About Serono

Serono is a global biotechnology leader. The Company has eight biotechnology products, Rebif®, Gonalf®, Luveris®, Ovidrel®/Ovitrelle®, Serostim®, Saizen®, Zorbitive and Raptiva®. In addition to being the world leader in reproductive health, Serono has strong market positions in neurology, metabolism and growth and has recently entered the psoriasis area. The Company's research programs are focused on growing these businesses and on establishing new therapeutic areas, including oncology and autoimmune diseases.

In 2005, Serono, whose products are sold in over 90 countries, achieved worldwide revenues of US\$2,586.4 million. Reported net loss in 2005 was US\$106.1 million, reflecting a charge of US\$725 million taken relating to the settlement of the US Attorney's Office investigation of Serostim. Excluding this charge as well as other non-recurring items, adjusted net income grew 28.4% to US\$565.3 million in 2005. Bearer shares of Serono S.A., the holding company, are traded on the virt-x (SEO) and its American Depositary Shares are traded on the New York Stock Exchange (SRA).

Quarterly Basic Earnings per Share is calculated in accordance with IAS 33 - Earnings per Share by dividing the Net Income attributable to bearer equity holders of Serono S.A., \$132.3 million for the three months ended June 30, 2006 (June 30, 2005: \$122.2 million), by the weighted average number of shares outstanding during the period presented. This is 10,240,586 bearer shares (2005: 10,161,095) and 11,013,040 registered shares (2005: 11,013,040). The total weighted average number of bearer shares is 14,645,802 (June 30, 2005: 14,566,311) for the three months ended June 30, 2006. As each American depositary share represents ownership interest in one fortieth of bearer share, Basic and Diluted Earnings per American depositary share is calculated as one fortieth of the Basic and Diluted Earnings per bearer share.

For quarterly Diluted Earnings per Share, the weighted average number of bearer shares outstanding is adjusted to assume conversion of all potential dilutive shares arising from outstanding stock options and the convertible bond. The number of bearer shares used to calculate the Diluted Earnings per Share for the three months ended June 30, 2006 was 10,685,403 (June 30, 2005: 10,609,689).

- Registered shares	9.96	192.4	% (10.78)
- American depository shares	0.62	192.4	% (0.67)

Basic Earnings / (Loss) per Share is calculated in accordance with IAS 33 - Earnings per Share by dividing the Net Income / (Loss) attributable to bearer equity holders of Serono S.A., \$258.1 million for the six months ended June 30, 2006 (June 30, 2005: net loss of \$273.9 million), by the weighted average number of shares outstanding during the period presented, being 10,237,254 bearer shares (2005: 10,158,113) and 11,013,040 registered shares (2005: 11,013,040). The total weighted average number of bearer shares is 14,642,470 (June 30, 2005: 14,563,329) for the six months ended June 30, 2006. As each American depository share represents ownership interest in one fortieth of bearer share, Basic and Diluted Earnings / (Loss) per American depository share is calculated as one fortieth of the Basic and Diluted Earnings / (Loss) per bearer share.

For Diluted Earnings / (Loss) per Share, the weighted average number of bearer shares outstanding is adjusted to assume conversion of all potential dilutive shares arising from outstanding stock options and the convertible bond. The number of bearer shares used to calculate the Diluted Earnings per Share for the six months ended June 30, 2006 was 10,699,936. The effect of outstanding stock options and the convertible bond were excluded from the calculation of Diluted Loss per Share for the six months ended June 30, 2005 as they were anti-dilutive.

Adjusted net income and adjusted earnings per share are Non-IFRS financial measures and are not and should not be viewed as a substitute for IFRS reported net income and earnings per share. Non-IFRS financial measures are not standardized by IFRS and, therefore, have limits in its usefulness to investors and may not be comparable with the calculation of similar measures for other companies. Adjusted net income and adjusted earnings per share are an alternative view of performance used by management as they exclude those non-recurring, non-operational activities and transactions that are not necessarily relevant to understand the comparative operating performance of the company's underlying business for the period.

Selected explanatory notes to the interim financial report for the six months ended June 30, 2006 (unaudited)**1. Basis of Preparation**

This unaudited interim financial report of the Serono group (group or Serono) has been prepared in accordance with IAS 34 - Interim Financial Reporting and in accordance with the accounting policies set out in the Serono 2005 Annual Report, with the exception of the following new International Financial Reporting Standards adopted by the group:

IAS 19 (Amended), Employee Benefits Actuarial Gains and Losses, Group Plans and Disclosures The group has adopted the amendments to IAS 19, which introduces the option of an alternative recognition approach for actuarial gains and losses for defined benefit pension plans. The group has elected not to apply the option of recognizing actuarial gains and losses arising on its defined benefit plans in full in the statement of recognized income and expense and continues to recognize the amortization of actuarial gains and losses outside the corridor in the income statement.

The following amendments have been adopted by the group and have had no effect on these consolidated financial statements: IAS 39 (Amended), Cash Flow Hedge Accounting of Forecast Intragroup Transactions ; IAS 39 (Amended), The Fair Value Option ; IAS 39 and IFRS 4 (Amended), and Financial Guarantee Contracts .

These consolidated financial statements were approved for issuance on July 25, 2006 by Serono S.A.'s Board of Directors.

4. Taxes

The effective income tax rate for the six months ended June 30, 2006 is 12.5% (2005: 12.4%). The effective income tax rate is calculated by dividing the income tax expense by the income / (loss) before taxes reduced by capital and

other taxes, both without the tax impact of the litigation and related costs. Taxes recognized for the six months ended June 30, 2005 included \$64.5 million in deferred tax income from the recognition of the litigation expense and related costs as disclosed in note 11 concerning legal proceedings.

Six months ended June 30	2006 US\$000	2005 US\$000

Deferred tax income from litigation expense and related costs		64,525
Total taxes	59,619	(20,434)

5. Earnings / (loss) per share

Basic earnings / (loss) per share

Basic earnings / (loss) per share is calculated by dividing the net income /(loss) attributable to equity holders of Serono S.A. by the weighted average number of shares outstanding during the period presented. The number of outstanding shares is calculated by deducting the average number of shares purchased and held as treasury shares from the total number of issued shares.

Six months ended June 30	2006 US\$000	2005 US\$000
Net income / (loss) attributable to bearer equity holders of Serono S.A.	258,108	(273,861)
Net income / (loss) attributable to registered equity holders of Serono S.A.	111,067	(118,764)
Total net income / (loss) attributable to the equity holders of Serono S.A.	369,175	(392,625)
Weighted average number of bearer shares outstanding	10,237,254	10,158,113
Weighted average number of registered shares outstanding	11,013,040	11,013,040

Six months ended June 30	2006 US\$	2005 US\$
Basic earnings / (loss) per share		
Bearer shares	25.21	(26.96)
Registered shares	10.09	(10.78)
American depositary shares	0.63	(0.67)

Basis earnings per share for the three months ended June 30, 2006 was \$12.92 compared to \$12.02 for the three months ended June 30, 2005.

Diluted earnings / (loss) per share

For diluted earnings / (loss) per share, the weighted average number of bearer shares outstanding is adjusted to assume conversion of all potential dilutive shares arising from outstanding stock options and the convertible bond. For stock options, a calculation is made to determine the number of shares that could have been acquired at fair value based on proceeds from the exercise of stock options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the stock options. The difference is added to the denominator as additional shares for no consideration. There is no adjustment made to the numerator. For the convertible bond, the number of shares into which the bond is assumed to be fully convertible is added to the denominator. The numerator is increased by eliminating the interest expense, net of tax that would not be incurred if

Edgar Filing: SERONO S A - Form 6-K

the bond were converted. The effect of the convertible bond and the effect of the outstanding stock options were excluded from the calculation of diluted earning per share for the six months ended June 30, 2005, as they were anti-dilutive.

Six months ended June 30	2006 US\$000	2005 US\$000

Registered shares have a nominal value of CHF10 each and bearer shares have a nominal value of CHF25 each. Registered and bearer shares participate in dividends in proportion to their nominal value. Each share entitles the holder to one vote. The authorized share capital may be used by Serono S.A. or its affiliates to finance research and development projects and acquire interests in other companies.

The shareholders at the Annual General Meeting of Shareholders on April 25, 2006 authorized an increase in share capital by a maximum amount of CHF190,471,500 through the issuance of a maximum of 7,618,860 new bearer shares, each with a par value of CHF25, until April 25, 2008. The Board of Directors may proceed to increase the share capital all at once or in installments.

7. Treasury shares

There were 641,470 treasury shares held by the group as of January 1, 2006. During the six months ended June 30, 2006, no additional treasury shares were acquired (none in 2005). During the six months ended June 30, 2006, 5,395 treasury shares were granted to employees (5,766 shares in 2005) as part of the Employee Share Purchase Plan. In addition, 29 treasury shares were issued as part of the Stock Grant Plan and no additional treasury shares (988 shares in 2005) were issued upon the exercise of stock options as part of the Director Stock Option Plan. The total number of treasury shares held as of June 30, 2006 is 636,046.

8. Distribution of earnings

The proposed gross dividend in respect of 2005 of CHF4.00 gross (2005: CHF3.60) per registered share, CHF10.00 gross (2005: CHF9.00) per bearer share or CHF0.25 gross (2004: CHF0.23) per American depositary share, was approved by shareholders at the Serono Annual General Meeting held on April 25, 2006. The dividend equivalent to \$117.1 million was subsequently paid on April 28, 2006 and has been accounted for as an appropriation of retained earnings in the six months ended June 30, 2006.

9. Equity compensation plans

Employee Stock Option Plan

Stock options are granted to senior management members of Serono S.A. and its affiliates. Each stock option gives the holder the right to purchase one bearer share or one American depositary share (ADS) of Serono S.A. stock, depending on which affiliate employs the holder. Stock options are granted every plan year and vest as follows: 25% one year after date of grant, 50% after two years, 75% after three years and 100% after four years. Options expire six years after the fourth and final vesting date such that each option has a 10-year duration. The exercise price is equal to the fair market value of the underlying Serono S.A. bearer share or American depositary shares on the date of grant.

Movements in the number of employee bearer stock options and ADS stock options outstanding are as follows:

	2006	Weighted average exercise price CHF	2005	Weighted average exercise price CHF
	Bearer options		Bearer options	
Outstanding as of January 1	382,692	984	346,486	995

Outstanding as of June 30	2,464,180	16.86	1,755,400	16.51

During the six months ended June 30, 2006, 20,249 bearer stock options (2005: 7,885 bearer stock options) were exercised yielding proceeds of CHF14.6 million or \$11.4 million (2005: CHF4.9 million or \$3.9 million) and 61,300 ADS options (2005: 5,550 options) were exercised yielding proceeds of \$1.0 million (2005: \$0.1 million). Bearer and ADS stock options cancelled in all years since inception of the plan are the result of options forfeited by participants upon their departure from the group. The total number of bearer and ADS stock options available for grant as of June 30, 2006 is 95,571 options (2005: 210,566 options).

Director Stock Option Plan

Stock options are granted to members of the Board of Directors of Serono S.A. Each stock option gives the holder the right to purchase one bearer share of Serono S.A. stock. Stock options are granted every plan year and vest beginning one year after their grant rateably over four years. Each option has a 10-year duration. The exercise price is equal to the fair market value of the underlying Serono S.A. bearer share on the date of grant. There were 5,200 options granted (2005: 5,200) to directors during the six months ended June 30, 2006. No director stock options were cancelled or exercised (1,320 option were exercised in 2005, yielding total proceeds of CHF0.7 million) during the six months ended June 30, 2006. There are 27,000 director stock options outstanding as of June 30, 2006 (2005: 24,600 director stock options) with a weighted average exercise price of CHF798 (2005: CHF770).

A total compensation expense of \$10.7 million (2005: \$8.8 million) has been recognized for the six months ended June 30, 2006 arising on share-based payment transactions related to stock options. The compensation expense in 2006 has been charged to the appropriate income statement headings as follows: cost of product sales \$0.8 million, selling, general and administrative \$5.7 million and research and development \$4.2 million.

Employee Share Purchase Plan

The group has an Employee Share Purchase Plan (ESPP) covering substantially all of its employees. The ESPP is designed to allow employees to purchase every calendar year bearer shares or American depositary shares at 85% of the lower of the average market values in the 10 days preceding the beginning and end of the calendar year. Shares purchased under the ESPP are granted in January of the following calendar year. Purchases under the ESPP are subject to certain restrictions and may not exceed 15% of the employee s annual salary. During the six months ended

June 30, 2006, 21,904 bearer shares (2005: 20,940 bearer shares) were issued to employees at a price of CHF630 per share (2005: CHF630 per share). As of June 30, 2006, a total of \$5.8 million (2005: \$5.6 million) in contributions was held by the group to be used to purchase bearer and American depositary shares on behalf of employees in January 2007.

Shares purchased under the ESPP that are held for one calendar year after the purchase date entitle each participant to receive, on a one-time basis in early January of each year, one matching share for every three shares purchased and held. In January 2006, 5,437 bearer shares (2005: 5,766 bearer shares) were distributed to employees.

The total compensation expense of \$2.7 million (2005: \$3.8 million) has been recognized for the six months ended June 30, 2006 arising on share-based payment transactions related to the ESPP discount and matching shares. The compensation expense in 2006 has been charged to the appropriate income statement headings as follows: cost of product sales \$0.5 million, selling, general and administrative \$1.5 million and research and development \$0.7 million.

Director Share Purchase Plan

The group has a share purchase plan reserved for its Board of Directors (the DSPP). The DSPP allows board members to purchase Serono S.A. bearer shares through allocation of 50% or 100% of their gross yearly fees. Each cycle commences on the first business day following the Annual General Meeting of Shareholders (the AGM) and concludes on the day of the next AGM. Directors must elect to participate in the DSPP at the beginning of each cycle. The purchase price per share is 85% of the fair market value of the share on the fifth business day following the AGM. Shares are purchased at the end of each cycle. There were 1,800 bearer shares issued to the directors that participate in the plan during the first six months of 2006 (1,348 in 2005).

Restricted Share Plan

The group has a Restricted Share Plan whereby employees may be granted restricted share awards as a result of an award based on certain performance criteria. Shares granted under this plan generally have a three-year vesting period. No shares were granted to employees during the first six months of 2006 and 2005.

Stock Grant Plan

The group adopted a new Stock Grant Plan effective January 1, 2006, whereby selected employees may be granted restricted share awards at the absolute discretion of the Board of Directors. Shares granted under this plan will vest in three annual installments on the first, second and third anniversaries of the grant date subject to continuous employment from the grant date to the vesting dates. There were 29,917 bearer shares and 856,430 American depositary shares granted to selected employees during the first six months of 2006. The compensation expense in 2006 of \$8.8 million has been charged to the appropriate income statement headings as follows: cost of product sales \$0.6 million, selling, general and administrative \$5.3 million and research and development \$2.9 million.

10. Principal shareholders

As of June 30, 2006, Bertarelli Biotech S.A., a corporation with its principal offices at Chésereux (Vaud), Switzerland, held 57.01% of the capital and 66.93% of the voting rights in Serono S.A. Ernesto Bertarelli controls Bertarelli Biotech S.A. On the same date, Maria-Iris Bertarelli, Ernesto Bertarelli and Donata Bertarelli Späth owned in the aggregate 4.77% of the capital and 8.58% of the voting rights of Serono S.A.

11. Legal proceedings

Serono's principal US subsidiary, Serono Inc., received a subpoena in 2001 from the US Attorney's office in Boston, Massachusetts requesting that it produce documents for the period from 1992 forward relating to Serostim. During 2002, Serono Inc. also received subpoenas from the states of California, Florida, Maryland and New York, which mirror the requests in the US Attorney's subpoena. Other pharmaceutical companies have received similar subpoenas as part of an ongoing, industry-wide investigation by the states and the federal government into sales, marketing and other practices. These investigations seek to determine whether such practices violated any laws, including the

Federal False Claims Act or the US Food, Drug and Cosmetic Act or constituted fraud in connection with Medicare and/or Medicaid reimbursement to third parties. Serono cooperated fully with the investigation and agreed to settle this dispute in October 2005. Under the terms of the settlement agreement, approximately \$724.9 million was paid as a comprehensive settlement with federal and state governments and to cover related costs. Serono's US holding company, Serono Holding Inc., also entered into a Corporate Integrity Agreement with the Office of Inspector General of the US Department of Human Health Services in connection with the investigation.

In September 2005, the Government Employees Hospital Association (GEHA), a health insurance plan, filed a purported class action on behalf of third party payors and individual consumers against Serono Inc. and Serono International S.A. alleging that Serono Inc. and Serono International S.A. inflated the average wholesale price (AWP) of certain products, and that this inflation caused GEHA to overpay for those products. In November 2005, GEHA filed an amended complaint alleging, in addition to its average wholesale price claims, that Serono illegally promoted and marketed Serostim. On February 22, 2006, GEHA requested (and Serono consented to) permission from the court to file a Second Amended Class Action Complaint which adds another plaintiff, District Council 37 Health & Security Plan Trust (alleged to be a third party payor of prescriptions for its members), does not contain any AWP claims, adds Serono Laboratories, Inc. as a defendant, alleges that Serono illegally promoted and marketed Serostim, and alleges that Serono used improper and inappropriate sales and marketing practices to increase the sales of other Serono products, including Cetrotide, Crinone, Gonal-F, Fertinex, Ovidrel, Pergonal, Profasi, Rebif, and Saizen. The allegations in the Second Amended Complaint concerning Serostim are drawn from the government investigation of Serostim discussed above. The Second Amended Complaint alleges eight counts: (1) violation of 18 U.S.C. § 1962(C) (civil RICO); (2) violation of 18 U.S.C. § 1962(C) (civil RICO); (3) violation of 18 U.S.C. § 1962(D) (civil RICO conspiracy); (4) civil conspiracy; (5) violation of the Massachusetts Consumer Protection Act; (6) violation of consumer protection statutes of 44 states and the District of Columbia; (7) common law fraud; and (8) unjust enrichment. The parties are still engaged in preliminary motion practice and the Serono Defendants have not yet filed an answer. The Serono Defendants intend to vigorously defend the lawsuit. The final settlement or adjudication of this matter could have a material adverse effect on the operations or financial condition of the company. The company cannot predict the timing of the resolution of this matter or ultimate outcome.

On April 7, 2006, Eugene Francis filed a purported class action on behalf of all persons or entities that paid a portion of the purchase price for Serostim against Serono Inc., Serono Laboratories, Inc., and certain other parties. The allegations of the complaint concern only the sales and marketing of Serostim, and are substantially similar to the allegations concerning Serostim made in the GEHA matter described above. The complaint contains the same eight counts as the GEHA Second Amended Complaint described above. The parties are still engaged in preliminary motion practice, and the Serono Defendants have not yet filed an answer. The case has been consolidated with the GEHA case. The Serono Defendants intend to vigorously defend this case. The final settlement or adjudication of this case could have a material adverse effect on the operations or financial condition of the company. The company cannot predict the timing of the resolution of these cases or ultimate outcome.
