Letter from the Chairman

Dear Shareholder,

U.S. economic growth was mixed during the 12-month reporting period. After gross domestic product (GDP) increased 1.7% in the fourth quarter of 2005, the economy then rebounded sharply in the first quarter of 2006. Over this period, GDP rose 5.6%, its best showing since the third quarter of 2003. In the second quarter of 2006, GDP growth was 2.6% and it further moderated to 2.0% in the third quarter. The economy strengthened in the fourth quarter, due largely to the increased consumer spending. Over this time, the advance estimate for GDP growth was 3.5%.

R. JAY GERKEN, CFA

Chairman, President and
Chief Executive Officer

After increasing the federal funds rateⁱⁱ to 5.25% in June its 17th consecutive rate hike the Federal Reserve Board (Fedⁱⁱ) paused from raising rates at its next five meetings. In its statement accompanying the January 2007 meeting, the Fed stated, Recent indicators have suggested somewhat firmer economic growth, and some tentative signs of stabilization have appeared in the housing market. Readings on core inflation have improved modestly in recent months, and inflation pressures seem likely to moderate over time.

During the reporting period, short- and long-term Treasury yields experienced periods of significant volatility. After peaking in late June with two- and 10-year Treasuries hitting 5.29% and 5.25%, respectively rates fell sharply as the Fed paused from its tightening cycle. In addition, inflationary pressures eased as oil prices fell after reaching a record high in mid-July. Overall, during the 12 months ended December 31, 2006, two-year Treasury yields increased to 4.82% versus 4.41% when the reporting period began. Over the same period, 10-year Treasury yields moved from 4.39% to 4.71%.

Western Asset Municipal Partners Fund Inc. I

The municipal market outperformed its taxable bond counterparts over the 12 months ended December 31, 2006. Over that period, the Lehman Brothers Municipal Bond Index^{iv} and the Lehman Brothers U.S. Aggregate Index^v, returned 4.84% and 4.33%, respectively.

Please read on for a more detailed look at prevailing economic and market conditions during the Fund's fiscal year and to learn how those conditions have affected Fund performance.

Special Shareholder Notices

Effective August 1, 2006, Legg Mason Partners Fund Advisor, LLC (LMPFA) became the Fund's investment manager and Western Asset Management Company (Western Asset) became the Fund's subadviser under a new sub-advisory agreement between LMPFA and Western Asset. LMPFA and Western Asset are wholly-owned subsidiaries of Legg Mason, Inc.

The portfolio managers who are responsible for the day-to-day management of the Fund remained the same immediately prior to and immediately after the date of these changes. LMPFA provides administrative and certain oversight services to the Fund. LMPFA has delegated to the subadviser the day-to-day management of the Fund. The management fee for the Fund remains unchanged.

Prior to October 9, 2006, the Fund was known as Salomon Brothers Municipal Partners Fund Inc.

Information About Your Fund

As you may be aware, several issues in the mutual fund industry (not directly affecting closed-end investment companies, such as this Fund) have come under the scrutiny of federal and state regulators. Affiliates of the Fund's manager have, in recent years, received requests for information from various government regulators regarding market timing, late trading, fees, and other mutual fund issues in connection with various investigations. The regulators appear to be examining, among other things, the open-end funds' response to market timing and shareholder exchange activity, including compliance with prospectus disclosure related

to these subjects. The Fund is not in a position to predict the outcome of these requests and investigations, or whether these may affect the Fund.

Important information with regard to recent regulatory developments that may affect the Fund is contained in the Notes to Financial Statements included in this report.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you meet your financial goals.

Sincerely,

R. Jay Gerken, CFA
Chairman, President and Chief Executive Officer

- (i) Gross domestic product is a market value of goods and services produced by labor and property in a given country.
- (ii) The federal funds rate is the interest rate that banks with excess reserves at a Federal Reserve district bank charge other banks that need overnight loans.
- (iii) The Federal Reserve Board is responsible for the formulation of a policy designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.
- (iv) The Lehman Brothers Municipal Bond Index is a broad measure of the municipal bond market with maturities of at least one year.
- (v) The Lehman Brothers U.S. Aggregate Index is a broad-based bond index comprised of Government, Corporate, Mortgage and Asset-backed issues, rated investment grade or higher, and having at least one year to maturity.

Fund Overview

Q. What were the overall market conditions during the Fund's reporting period?

A. The economy weakened during the period due, in part, to the lagged effect of higher short-term interest rates and a rapidly cooling housing market. Inflationary pressures intensified during the first half of the reporting period. However, as oil prices retreated from their July record high and housing prices moderated, inflation became less of an issue. The Federal Reserve Board (Fed) boosted its target federal funds rate from 4.25% when the reporting period began to 5.25% in June 2006. The Fed then held rates steady during the remainder of the reporting period.

The Treasury yield curveⁱⁱ flattened in 2006, as the difference between short- and long-term yields narrowed. Throughout much of 2006, the Treasury yield curve was inverted, with two-year Treasury yields surpassing their 10-year counterparts. Historically, this anomaly has often been a precursor of slowing economic growth and, in many cases, a recession. The municipal yield curve continued to flatten in 2006 and the spreads between two- and 10-year securities tightened to near historically low levels. Toward the end of the reporting period, the yield available with the 30-year municipal bond reached a 40 year low.ⁱⁱⁱ However, unlike the Treasury yield curve, the municipal curve did not invert during the year.^{iv}

New municipal bond issuance from state and local governments was approximately \$383 billion in 2006, the second largest year on record.^v It is important to point out that, unlike recent years when supply was inflated by the refinancing of bonds, in 2006 issuance for new projects dominated the market.^{vi} Overall, new supply was met with solid demand. In the past, purchases of municipal securities largely came from individual and institutional investors, as well as property and casualty insurers. More recently, hedge funds and arbitrage players have been drawn to the municipal market. This has resulted in a further flattening of the municipal yield curve.^{vii} As was the case in 2005, longer-term and lower rated municipal securities generated the strongest returns during the 12-month period ended December 31, 2006.^{viii}

Performance Review

For the 12 months ended December 31, 2006, Western Asset Municipal Partners Fund Inc. returned 4.68%, based on its net asset value (NAV^x) and 10.22% based on its New York Stock Exchange (NYSE) market price per share. In comparison, the Fund's unmanaged benchmark, the Lehman Brothers Municipal Bond Index,^x returned 4.84% and its Lipper General Municipal Debt (Leveraged) Closed-End Funds Category Average^{xi} increased 6.91% over the same time frame. Please note that Lipper performance returns are based on each Fund's NAV per share.

Tender Offer

On July 28, 2006, the Fund, in accordance with its tender offer for up to 575,710 of its issued and outstanding shares of common stock, accepted and made payment of these

shares at \$14.26 per share (98% of the net asset value per share of \$14.55). These shares represent 10% of the Fund's then outstanding shares.

During the 12-month period, the Fund made distributions to shareholders totaling \$0.77 per share. The performance table shows the Fund's 12-month total return based on its NAV and market price as of December 31, 2006. **Past performance is no guarantee of future results.**

Performance Snapshot as of December 31, 2006 (unaudited)

Price Per Share	12-Month Total Return
\$14.79 (NAV)	4.68%
\$14.19 (Market Price)	10.22%

All figures represent past performance and are not a guarantee of future results.

Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions in additional shares.

Q. What were the most significant factors affecting Fund performance?

What were the leading contributors to performance?

A. During the reporting period, the Fund's underweight in AAA- and AA-rated securities enhanced results. An underweight to the three-to-five year portion of the municipal yield curve also aided relative returns. From a sector perspective, the Fund's overweight in healthcare and insured bonds, as well as an underweight in state general obligation bonds, was beneficial to performance. In terms of state-specific positioning, an underweight in New York and overweights in Indiana and Texas boosted returns.

What were the leading detractors from performance?

A. As the Fund invests primarily in investment grade municipals, it did not participate in the rally in lower quality issues during the year. In particular, the Fund did not hold riskier airline and tobacco settlement bonds, both of which performed very well during the 12-month period. An underweight to BBB-rated securities, as well as overweights in industrial revenue bonds and securities issued by the state of Washington also detracted from relative performance. Finally, the Fund's durationⁱⁱ, which was lower than its peer group, was a negative to performance.

Q. Were there any significant changes to the Fund during the reporting period?

A. There were no significant changes to the Fund's portfolio.

RISKS: An investment in the Fund is subject to risk, including the possible loss of the principal amount that you invest in the Fund. Certain investors may be subject to the Federal Alternative Minimum Tax (AMT), and state and local taxes will apply. Capital gains, if any, are fully taxable. As interest rates rise, bond prices fall, reducing the value of the Fund's fixed income securities. Lower-rated, higher-yielding bonds are subject to greater credit risk than higher-rated obligations.

10 Western Asset Municipal Partners Fund Inc. 2006 Annual Report

Bond Ratings (unaudited)

The definitions of the applicable rating symbols are set forth below:

Standard & Poor's Ratings Service (Standard & Poor's) Ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standings within the major rating categories.

- AAA Bonds rated AAA have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.
- AA Bonds rated AA have a very strong capacity to pay interest and repay principal and differs from the highest rated issue only in a small degree.
- A Bonds rated A have a strong capacity to pay interest and repay principal although it is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
- BBB Bonds rated BBB are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for debt in this category than in higher rated categories.
- BB, B, CCC, CC and C Bonds rated BB, B, CCC, CC and C are regarded, on balance, as predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. BB represents the lowest degree of speculation and C the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.
- D Bonds rated D are in default and payment of interest and/or repayment of principal is in arrears.

Moody's Investors Service (Moody's) Numerical modifiers 1, 2 and 3 may be applied to each generic rating from Aa to Caa, where 1 is the highest and 3 the lowest ranking within its generic category.

- Aaa Bonds rated Aaa are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as gilt edge. Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.
- Aa Bonds rated Aa are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in Aaa securities.
- A Bonds rated A possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.
- Baa Bonds rated Baa are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
- Ba Bonds rated Ba are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate and thereby not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.
- B Bonds that are rated B generally lack characteristics of desirable investments. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.
- Caa Bonds rated Caa are of poor standing. These issues may be in default or present elements of danger may exist with respect to principal or interest.

Edgar Filing: WESTERN ASSET MUNICIPAL PARTNERS FUND INC. - Form N-CSR

- Ca Bonds rated Ca represent obligations which are speculative in a high degree. Such issues are often in default or have other marked short comings.
- C Bonds rated C are the lowest class of bonds and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.
- NR Indicates that the bond is not rated by Standard & Poor's or Moody's.

Short-Term Security Ratings (unaudited)

- SP-1 Standard & Poor's highest rating indicating very strong or strong capacity to pay principal and interest; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- A-1 Standard & Poor's highest commercial paper and variable-rate demand obligation (VRDO) rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- VMIG 1 Moody's highest rating for issues having a demand feature VRDO.
- P-1 Moody's highest rating for commercial paper and for VRDO prior to the advent of the VMIG 1 rating.

Notes to Financial Statements

1. Organization and Significant Accounting Policies

Western Asset Municipal Partners Fund Inc. (the Fund) (formerly known as Salomon Brothers Municipal Partners Fund Inc.) was incorporated in Maryland on November 24, 1992 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended, (the 1940 Act). The Board of Directors authorized 100 million shares of \$0.001 par value common stock. The Fund's primary investment objective is to seek a high level of current income which is exempt from federal income taxes, consistent with the preservation of capital. As a secondary investment objective, the Fund intends to enhance portfolio value by purchasing tax exempt securities that, in the opinion of the investment manager, may appreciate in value relative to other similar obligations in the marketplace.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

(a) Investment Valuation. Securities are valued at the mean between the bid and asked prices provided by an independent pricing service that are based on transactions in municipal obligations, quotations from municipal bond dealers, market transactions in comparable securities and various other relationships between securities. Securities for which market quotations are not readily available or are determined not to reflect fair value, will be valued in good faith by or under the direction of the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates value.

(b) Concentration of Credit Risk. Since the Fund invests a portion of its assets in issuers located in a single state, it may be affected by economic and political developments in a specific state or region. Certain debt obligations held by the Fund are entitled to the benefit of insurance, standby letters of credit or other guarantees of banks or other financial institutions.

(c) Security Transactions and Investment Income. Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

(d) Distributions to Shareholders. Distributions to common shareholders from net investment income for the Fund, if any, are declared and paid on a monthly basis. The Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from federal and certain state income taxes, to retain such tax-exempt status

when distributed to the shareholders of the Fund. Distributions of net realized gains, if any, are taxable and are declared at least annually. Distributions to common shareholders are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP. Distributions to preferred shareholders are accrued and paid on a weekly basis and are determined as described in Note 4.

Notes to Financial Statements (continued)

(e) **Federal and Other Taxes.** It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its income and net realized gains on investments, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements.

(f) **Reclassification.** GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. During the current year, the following reclassifications have been made:

	Undistributed Net Investment Income	Accumulated Net Realized Loss
(a)	\$ (6,484)	\$ 6,484

(a) Reclassifications are primarily due to differences between book and tax amortization of market discount on fixed income securities.

2. Investment Management Agreement and Other Transactions with Affiliates

Prior to August 1, 2006, Salomon Brothers Asset Management Inc. (SBAM), an indirect wholly-owned subsidiary of Legg Mason, Inc. (Legg Mason), acted as the investment manager of the Fund. Under the investment management agreement, the Fund paid an investment management fee calculated at an annual rate of 0.55% of the Fund's average weekly net assets. This fee is calculated daily and paid monthly. For purposes of calculating this fee, the liquidation value of any outstanding preferred stock of the Fund is not deducted in determining the Fund's net assets.

During the year ended December 31, 2006, SBAM waived a portion of their fees amounting of \$2,785.

Effective August 1, 2006, Legg Mason Partners Fund Advisor, LLC (LMPFA) became the Fund's investment manager and Western Asset Management Company (Western Asset) became the Fund's subadviser. The portfolio managers who are responsible for the day-to-day management of the Fund remained the same immediately prior to and immediately after the date of these changes. LMPFA and Western Asset are wholly-owned subsidiaries of Legg Mason.

LMPFA provides administrative and certain oversight services to the Fund. LMPFA has delegated to the subadviser the day-to-day portfolio management of the Fund. The Fund's investment management fee remains unchanged. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund.

Certain officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

3. Investments

During the year ended December 31, 2006, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$21,441,371
Sales	30,744,432

Notes to Financial Statements (continued)

At December 31, 2006, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were as follows:

Gross unrealized appreciation	\$5,042,975
Gross unrealized depreciation	(54,325)
Net unrealized appreciation	\$4,988,650

4. Auction Rate Preferred Stock

On April 2, 1993, the Fund closed its public offering of 800 shares of \$0.001 par value Auction Rate Preferred Stock (Preferred Stock) at an offering price of \$50,000 per share. The Preferred Stock has a liquidation preference of \$50,000 per share plus an amount equal to accumulated but unpaid dividends (whether or not earned or declared) and subject to certain restrictions, are redeemable in whole or in part.

Dividend rates generally reset every 7 days and are determined by auction procedures. The dividend rates on the Preferred Stock during the year ended December 31, 2006 ranged from 2.890% to 4.500%. The weighted average dividend rate for the year ended December 31, 2006 was 3.420%.

The Fund is subject to certain restrictions relating to the Preferred Stock. The Fund may not declare dividends or make other distributions on shares of common stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Stock would be less than 200%. The Preferred Stock is also subject to mandatory redemption at \$50,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in its Articles Supplementary are not satisfied.

The Preferred Stock Shareholders are entitled to one vote per share and generally vote with the common stock shareholders but vote separately as a class to elect two directors and on certain matters affecting the rights of the Preferred Stock.

The issuance of preferred stock poses certain risks to holders of common stock, including, among others the possibility of greater market price volatility and in certain market conditions, the yield to holders of common stock may be adversely affected.

The Fund is required to maintain certain asset coverages with respect to the Preferred Stock. If the Fund fails to maintain these coverages and does not cure any such failure within the required time period, the Fund is required to redeem a requisite number of the Preferred Stock in order to meet the applicable requirement. Additionally, failure to meet the foregoing asset requirements would restrict the Fund's ability to pay dividends to common shareholders.

5. Distributions Subsequent to December 31, 2006

Common Stock Distributions. On November 30, 2006, the Board of Directors of the Fund declared two common share distributions from net investment income, each in the

Notes to Financial Statements (continued)

amount of \$0.06 per share, payable on January 26, 2007 and February 23, 2007 to shareholders of record on January 19, 2007 and February 16, 2007, respectively.

Preferred Stock Distributions. The Board of Directors designated each of the following dividend periods as a Special Rate Period. With each auction date, the regular auction procedure resumes, subject to the Fund's ability to designate any subsequent dividend period as a Special Rate Period.

Auction Date	Commencement of	Rate Effective Through	Preferred Rate
12/29/06	1/2/07	1/8/07	4.500%
1/8/07	1/9/07	1/12/07	3.250
1/12/07	1/16/07	1/22/07	3.540
1/22/07	1/23/07	1/29/07	3.610

6. Income Tax Information and Distributions to Shareholders

The tax character of distributions paid during the fiscal years ended December 31, was as follows:

	2006	2005
Distributions paid from:		
Tax-Exempt Income	\$5,616,537	\$5,812,845
Net Long-term Capital Gains	28,202	170,175
Total Taxable Distributions	\$28,202	\$170,175
Total Distributions Paid	\$5,644,739	\$5,983,020

As of December 31, 2006, the components of accumulated earnings on a tax basis were as follows:

Undistributed tax-exempt income - net	\$216,030
Capital loss carry forward*	\$(43,010)
Other book/tax temporary differences (a)	(2,471)
Unrealized appreciation/(depreciation) (b)	4,988,650
Total accumulated earnings / (losses) - net	\$5,159,199

* The Fund had the following net capital loss carry forward remaining:

Year of Expiration	Amount
12/31/2014	\$(43,010)

This amount will be available to offset any future taxable capital gains.

- (a) Other book/tax temporary differences are attributable primarily to the deferral of post-October capital losses for tax purposes and differences in the book/tax treatment of various items.
- (b) The difference between book-basis and tax-basis unrealized appreciation / (depreciation) is attributable primarily to the tax deferral of losses on wash sales and the difference between book & tax amortization methods for market discount on fixed income securities.

Notes to Financial Statements (continued)

7. Regulatory Matters

On May 31, 2005, the U.S. Securities and Exchange Commission (SEC) issued an order in connection with the settlement of an administrative proceeding against Smith Barney Fund Management LLC (SBFM) and Citigroup Global Markets Inc. (CGM) relating to the appointment of an affiliated transfer agent for the Smith Barney family of mutual funds (the Affected Funds).

The SEC order finds that SBFM and CGM willfully violated Section 206(1) of the Investment Advisers Act of 1940 (Advisers Act). Specifically, the order finds that SBFM and CGM knowingly or recklessly failed to disclose to the boards of the Affected Funds in 1999 when proposing a new transfer agent arrangement with an affiliated transfer agent that: First Data Investors Services Group (First Data), the Affected Funds then existing transfer agent, had offered to continue as transfer agent and do the same work for substantially less money than before; and that Citigroup Asset Management (CAM), the Citigroup business unit that, at the time, included the Affected Funds investment manager and other investment advisory companies, had entered into a side letter with First Data under which CAM agreed to recommend the appointment of First Data as sub-transfer agent to the affiliated transfer agent in exchange for, among other things, a guarantee by First Data of specified amounts of asset management and investment banking fees to CAM and CGM. The order also finds that SBFM and CGM willfully violated Section 206(2) of the Advisers Act by virtue of the omissions discussed above and other misrepresentations and omissions in the materials provided to the Affected Funds boards, including the failure to make clear that the affiliated transfer agent would earn a high profit for performing limited functions while First Data continued to perform almost all of the transfer agent functions, and the suggestion that the proposed arrangement was in the Affected Funds best interests and that no viable alternatives existed. SBFM and CGM do not admit or deny any wrongdoing or liability. The settlement does not establish wrongdoing or liability for purposes of any other proceeding.

The SEC censured SBFM and CGM and ordered them to cease and desist from violations of Sections 206(1) and 206(2) of the Advisers Act. The order requires Citigroup to pay \$208.1 million, including \$109 million in disgorgement of profits, \$19.1 million in interest, and a civil money penalty of \$80 million. Approximately \$24.4 million has already been paid to the Affected Funds, primarily through fee waivers. The remaining \$183.7 million, including the penalty, has been paid to the U.S. Treasury and will be distributed pursuant to a plan submitted for approval by the SEC. At this time, there is no certainty as to how the proceeds of the settlement will be distributed, to whom such distributions will be made, the methodology by which such distributions will be allocated, and when such distributions will be made.

The order also requires that transfer agency fees received from the Affected Funds since December 1, 2004 less certain expenses, be placed in escrow and provides that a portion of such fees may be subsequently distributed in accordance with the terms of the order.

On April 3, 2006, an aggregate amount of approximately \$9 million was distributed to the Affected Funds.

Notes to Financial Statements (continued)

The order required SBFM to recommend a new transfer agent contract to the Affected Funds' boards within 180 days of the entry of the order; if a Citigroup affiliate submitted a proposal to serve as transfer agent or sub-transfer agent, SBFM and CGM would have been required, at their expense, to engage an independent monitor to oversee a competitive bidding process. On November 21, 2005, and within the specified timeframe, the Fund's Board selected a new transfer agent for the Fund. No Citigroup affiliate submitted a proposal to serve as transfer agent. Under the order, SBFM also must comply with an amended version of a vendor policy that Citigroup instituted in August 2004.

Although there can be no assurance, the Affected Funds' does not believe that this matter will have a material adverse effect on the Affected Funds.

This Fund is not one of the Affected Funds and therefore did not implement the transfer agent arrangement described above and therefore will not receive any portion of the distributions.

On December 1, 2005, Citigroup completed the sale of substantially all of its global asset management business, including SBFM, to Legg Mason.

8. Other Matters

On September 16, 2005, the staff of the SEC informed SBFM and SBAM that the staff is considering recommending that the SEC institute administrative proceedings against SBFM and SBAM for alleged violations of Section 19(a) and 34(b) of the 1940 Act (and related Rule 19a-1). The notification is a result of an industry wide inspection by the SEC and is based upon alleged deficiencies in disclosures regarding dividends and distributions paid to shareholders of certain funds. Section 19(a) and related Rule 19a-1 of the 1940 Act generally require funds that are making dividend and distribution payments to provide shareholders with a written statement disclosing the source of the dividends and distributions, and, in particular, the portion of the payments made from each of net investment income, undistributed net profits and/or paid-in capital. In connection with the contemplated proceedings, the staff may seek a cease and desist order and/or monetary damages from SBFM or SBAM.

Although there can be no assurance, the Fund's manager believes that this matter is not likely to have a material adverse effect on the Fund.

9. Recent Accounting Pronouncements

During June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation 48 (FIN 48 or the Interpretation), *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement 109*. FIN 48 supplements FASB Statement 109, *Accounting for Income Taxes*, by defining the confidence level that a tax position must meet in order to be recognized in the financial statements. FIN 48 prescribes a comprehensive model for how a fund should recognize, measure, present, and disclose in its financial statements uncertain tax positions that the fund has taken or expects to take on a tax return. FIN 48 requires that the tax effects of a position be recognized only if it is more likely than not

Edgar Filing: WESTERN ASSET MUNICIPAL PARTNERS FUND INC. - Form N-CSR

to be sustained based solely on its technical merits. Management must be able to conclude that the tax law, regulations, case law, and other objective information regarding

22 Western Asset Municipal Partners Fund Inc. 2006 Annual Report

Notes to Financial Statements (continued)

the technical merits sufficiently support the position's sustainability with a likelihood of more than 50 percent. FIN 48 is effective for fiscal periods beginning after December 15, 2006, which for this Fund will be January 1, 2007. At adoption, the financial statements must be adjusted to reflect only those tax positions that are more likely than not to be sustained as of the adoption date. Management of the Fund has determined that adopting FIN 48 will not have a material impact on the Fund's financial statements.

On September 20, 2006, FASB released Statement of Financial Accounting Standards No. 157 *Fair Value Measurements* (FAS 157). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 157 and its impact on the financial statements has not yet been determined.

10. Tender Offer

On July 28, 2006, the Fund, in accordance with its tender offer for up to 575,710 of its issued and outstanding shares of common stock, accepted and made payment of these shares at \$14.26 per share (98% of the net asset value per share of \$14.55). These shares represent 10% of the Fund's then outstanding shares.

Subsequently, on January 17, 2007, the Fund, in accordance with its tender offer for up to 259,070 of its issued and outstanding shares of common stock, accepted and made payment of these shares at \$14.42 per share (98% of the net asset value per share of \$14.71). These shares represent 5% of the Fund's then outstanding shares. This transaction will be reflected in the 2007 financial statements.

In addition, if the Fund's common shares have traded on the New York Stock Exchange at an average discount from net asset value of 5% or more as of the last trading day in each week during the last 12-weeks of the previous calendar quarter, the Fund will commence up to 3 additional tenders, each for up to 5% of the then outstanding common shares of the Fund: by the end of the second and fourth calendar quarters of 2007 and the second calendar quarter of 2008, respectively. Although the Board of Directors of the Fund has committed to commence these tenders under the circumstances described, the Fund will not make such tenders if certain market conditions exist that would make it detrimental to the Fund and its shareholders to commence the tenders.

**Report of Independent Registered Public
Accounting Firm**

**The Board of Directors and Shareholders
Western Asset Municipal Partners Fund Inc.:**

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Western Asset Municipal Partners Fund Inc. (formerly Salomon Brothers Municipal Partners Fund Inc.), as of December 31, 2006, and the related statement of operations for the year then ended, and the statements of changes in net assets and the financial highlights for each of the years in the two-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The financial highlights for each of the years in the three-year period ended December 31, 2004 were audited by other independent registered public accountants whose report thereon, dated February 22, 2005, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the custodian and brokers or by other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Western Asset Municipal Partners Fund Inc. as of December 31, 2006, and the results of its operations for the year then ended, and the changes in its net assets and the financial highlights for each of the years in the two-year period then ended, in conformity with U.S. generally accepted accounting principles.

(1) The Fund's Board of Directors is divided into three classes: Class I, Class II and Class III. The terms of office of the Class I, II and III Directors expire at the Annual Meetings of Stockholders in the year 2009, 2007 and 2008, respectively, or thereafter in each case when their respective successors are duly elected and qualified. The Fund's executive officers are chosen each year by the Fund's Board of Directors to hold office for a one-year term and until their successors are duly elected and qualified.

(2) Mr. Gerken is an interested person of the Fund as defined in the Investment Company Act of 1940, as amended, because Mr. Gerken is an officer of LMPFA and certain of its affiliates.

(3) The term fund complex means two or more registered investment companies that:

Dividend Reinvestment Plan (unaudited)

Pursuant to certain rules of the SEC, the following additional disclosure is provided.

Pursuant to the Fund's Dividend Reinvestment Plan (Plan), holders of Common Stock whose shares of Common Stock are registered in their own names will be deemed to have elected to have all distributions automatically reinvested by American Stock Transfer & Trust Company (Plan Agent) in Fund shares pursuant to the Plan, unless they elect to receive distributions in cash. Holders of Common Stock who elect to receive distributions in cash will receive all distributions in cash by check in dollars mailed directly to the holder by the Plan Agent as dividend-paying agent. Holders of Common Stock who do not wish to have distributions automatically reinvested should notify the Plan Agent at the address below. Distributions with respect to Common Stock registered in the name of a bank, broker-dealer or other nominee (i.e., in street name) will be reinvested under the Plan unless the service is not provided by the bank, broker-dealer or other nominee or the holder elects to receive distributions in cash. Investors who own shares registered in the name of a bank, broker-dealer or other nominee should consult with such nominee as to participation in the Plan through such nominee, and may be required to have their shares registered in their own names in order to participate in the Plan.

The Plan Agent serves as agent for the holders of Common Stock in administering the Plan. After the Fund declares a distribution on the Common Stock or determines to make a capital gain distribution, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy the Fund's Common Stock in the open market, on the NYSE or elsewhere, for the participants' accounts. The Fund will not issue any new shares of Common Stock in connection with the Plan.

Participants have the option of making additional cash payments to the Plan Agent, monthly, in a minimum amount of \$250, for investment in the Fund's Common Stock. The Plan Agent will use all such funds received from participants to purchase shares of Common Stock in the open market on or about the first business day of each month. To avoid unnecessary cash accumulations, and also to allow ample time for receipt and processing by the Plan Agent, it is suggested that participants send in voluntary cash payments to be received by the Plan Agent approximately ten days before an applicable purchase date specified above. A participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Plan Agent not less than 48 hours before such payment is to be invested.

The Plan Agent maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in an account, including information needed by shareholders for personal and tax records. Shares of Common Stock in the account of each Plan participant will be held by the Plan Agent in the name of the participant, and each shareholder's proxy will include those shares purchased pursuant to the Plan.

In the case of holders of Common Stock, such as banks, broker-dealers or other nominees, who hold shares for others who are beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares of Common Stock certified from time to time by the holders as representing the total amount registered in such holders' names and held for the account of beneficial owners that have not elected to receive distributions in cash.

Dividend Reinvestment Plan (unaudited) (continued)

There is no charge to participants for reinvesting of distributions or voluntary cash payments. The Plan Agent's fees for the reinvestment of distributions and voluntary cash payments will be paid by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of distributions and voluntary cash payments made by the participant. The receipt of distributions under the Plan will not relieve participants of any income tax which may be payable on such distributions.

Participants may terminate their accounts under the Plan by notifying the Plan Agent in writing. Such termination will be effective immediately if notice in writing is received by the Plan Agent not less than ten days prior to any distribution record date. Upon termination, the Plan Agent will send the participant a certificate for the full shares held in the account and a cash adjustment for any fractional shares or, upon written instruction from the participant, the Plan Agent will sell part or all of the participant's shares and remit the proceeds to the participant, less a \$2.50 fee plus brokerage commission for the transaction.

Experience under the Plan may indicate that changes in the Plan are desirable. Accordingly, the Fund and the Plan Agent reserve the right to terminate the Plan as applied to any voluntary cash payments made and any distributions paid subsequent to notice of the termination sent to all participants in the Plan at least 30 days before the record date for the distribution. The Plan also may be amended by the Fund or the Plan Agent upon at least 30 days' written notice to participants in the Plan.

All correspondence concerning the Plan should be directed to the Plan Agent at 59 Maiden Lane, New York, New York 10038.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that from time to time the Fund may purchase, at market prices, shares of its common stock in the open market.

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (Commission) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's website at www.sec.gov. The Fund's Forms N-Q may be reviewed and copied at the Commission's Public Reference Room in Washington D.C., and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. To obtain information on Form N-Q from the Fund, shareholders can call 1-800-451-2010.

Information on how the Fund voted proxies relating to portfolio securities during the prior 12 month period ended June 30th of each year and a description of the policies and procedures that the Fund uses to determine how to vote proxies related to portfolio transactions is available (1) without charge, upon request, by calling 1-800-451-2010, (2) on each Fund's website at <http://www.leggmason.com/InvestorServices> and (3) on the SEC's website at <http://www.sec.gov>.

ITEM 2. CODE OF ETHICS.

The registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Board of Directors of the registrant has determined that William Hutchinson, the chairman of the Board's Audit Committee, possesses the attributes identified in Instruction 2(b) of Item 3 to Form N-CSR to qualify as an audit committee financial expert, and has designated Mr. Hutchinson as the audit committee financial expert. Mr. Hutchinson is an independent Director pursuant to paragraph (a)(2) of Item 3 to Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

a) Audit Fees. Effective June 17, 2005, PricewaterhouseCoopers LLP (PwC) resigned as the Registrant's principal accountant (the Auditor). The Registrant's audit committee approved the engagement of KPMG LLP (KPMG) as the Registrant's new principal accountant. The aggregate fees billed in the last two fiscal years ending December 31, 2005 and December 31, 2006 (the Reporting Periods) for professional services rendered for the audit of the Registrant's annual financial statements, or services that are normally provided by the Auditor in connection with the statutory and regulatory filings or engagements for the Reporting Periods, were \$40,000 in 2005 performed by PwC and \$40,000 in 2006 performed by KPMG.

b) Audit-Related Fees. The aggregate fees billed in the Reporting Periods for assurance and related services by PwC or KPMG that are reasonably related to the performance of the audit of the Registrant's financial statements and are not reported under paragraph (a) of this Item 4 were \$8,255 in 2005 and \$0 in 2006.

In addition, there were no Audit-Related Fees billed in the Reporting Period for assurance and related services by the Auditor to the Registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Western Asset Municipal Partners Fund Inc. (service affiliates), that were reasonably related to the performance of the annual audit of the service affiliates. Accordingly, there were no such fees that required pre-approval by the Audit Committee for the Reporting Periods (prior to May 6, 2003 services provided by the Auditor were not required to be pre-approved).

(c) Tax Fees. The aggregate fees billed in the Reporting Periods for professional services rendered by PwC and KPMG for tax compliance, tax advice and tax planning (Tax Services) were \$3,000 in 2005 performed by PwC and \$5,548 in 2006 performed by PwC and KPMG. These services consisted of (i) review or preparation of U.S. federal, state, local and excise tax returns; (ii) U.S. federal, state and local tax planning, advice and assistance regarding statutory, regulatory or administrative developments, and (iii) tax advice regarding tax qualification matters and/or treatment of various financial instruments held or proposed to be acquired or held.

Edgar Filing: WESTERN ASSET MUNICIPAL PARTNERS FUND INC. - Form N-CSR

There were no fees billed for tax services by PwC or KPMG to service affiliates during the Reporting Periods that required pre-approval by the Audit Committee.

d) There were no non-audit services rendered by KPMG to SBAM, or any entity controlling, controlled by or under common control with SBAM that provided ongoing services to the Registrant.

All Other Fees. There were no other non-audit services rendered by PwC or KPMG to Smith Barney Fund Management LLC (SBFM), and any entity controlling, controlled by or under common control with SBFM that provided ongoing services to Western Asset Municipal Partners Fund Inc. requiring pre-approval by the Audit Committee in the Reporting Period.

(e) Audit Committee s pre approval policies and procedures described in paragraph (c) (7) of Rule 2-01 of Regulation S-X.

(1) The Charter for the Audit Committee (the Committee) of the Board of each registered investment company (the Fund) advised by Smith Barney Fund Management LLC or Salomon Brothers Asset Management Inc. or one of their affiliates (each, an Adviser) requires that the Committee shall approve (a) all audit and permissible non-audit services to be provided to the Fund and (b) all permissible non-audit services to be provided by the Fund's independent auditors to the Adviser and any Covered Service Providers if the engagement relates directly to the operations and financial reporting of the Fund. The Committee may implement policies and procedures by which such services are approved other than by the full Committee.

The Committee shall not approve non-audit services that the Committee believes may impair the independence of the auditors. As of the date of the approval of this Audit Committee Charter, permissible non-audit services include any professional services (including tax services), that are not prohibited services as described below, provided to the Fund by the independent auditors, other than those provided to the Fund in connection with an audit or a review of the financial statements of the Fund. Permissible non-audit services may not include: (i) bookkeeping or other services related to the accounting records or financial statements of the Fund; (ii) financial information systems design and implementation; (iii) appraisal or valuation services, fairness opinions or contribution-in-kind reports; (iv) actuarial services; (v) internal audit outsourcing services; (vi) management functions or human resources; (vii) broker or dealer, investment adviser or investment banking services; (viii) legal services and expert services unrelated to the audit; and (ix) any other service the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Pre-approval by the Committee of any permissible non-audit services is not required so long as: (i) the aggregate amount of all such permissible non-audit services provided to the Fund, the Adviser and any service providers controlling, controlled by or under common control with the Adviser that provide ongoing services to the Fund (Covered Service Providers) constitutes not more than 5% of the total amount of revenues paid to the independent auditors during the fiscal year in which the permissible non-audit services are provided to (a) the Fund, (b) the Adviser and (c) any entity controlling, controlled by or under common control with the Adviser that provides ongoing services to the Fund during the fiscal year in which the services are provided that would have to be approved by the Committee; (ii) the permissible non-audit services were not recognized by the Fund at the time of the engagement to be non-audit services; and (iii) such services are promptly brought to the attention of the Committee and approved by the Committee (or its delegate(s)) prior to the completion of the audit.

(2) For the Western Asset Municipal Partners Fund Inc., the percentage of fees that were approved by the audit committee, with respect to: Audit-Related Fees were 100% and 100% for 2005 and 2006; Tax Fees were 100% and 100% for 2005 and 2006; and Other Fees were 100% and 100% for 2005 and 2006.

(f) N/A

(g) All Other Fees. The aggregate fees billed for all other non-audit services rendered by PwC to Salomon Brothers Asset Management (SBAM), and any entity controlling, controlled by or under common control with SBAM that provided ongoing services to Western Asset Municipal Partners Fund Inc., requiring pre-approval by the Audit Committee for the year ended December 31, 2005 which include the issuance of reports on internal control under SAS No. 70 related to various Citigroup Asset Management (CAM) entities a profitability review of the Adviser and phase 1 of an analysis of Citigroup's current and future real estate occupancy requirements in the tri-state area and security risk issues in the New York metro region was \$1.3 million all of which was pre-approved by the Audit Committee.

Non-audit fees billed by PwC for services rendered to Western Asset Municipal Partners Fund Inc. and CAM and any entity controlling, controlled by, or under common control with CAM that provides ongoing services to Western Asset Municipal Partners Fund Inc. during the reporting period was \$2.7 million for the year ended December 31, 2005.

Edgar Filing: WESTERN ASSET MUNICIPAL PARTNERS FUND INC. - Form N-CSR

Non-audit fees billed by KPMG for services rendered to Western Asset Municipal Partners Fund Inc. and CAM and any entity controlling, controlled by, or under common control with CAM that provides ongoing services to Western Asset Municipal Partners Fund Inc. during the reporting period was \$75,000 and \$0 for the years ended December 31, 2005 and December 31, 2006, respectively. Such fees relate to services provided in connection with the transfer agent matter as fully described in the notes to the financial statements.

(h) Yes. The Western Asset Municipal Partners Fund Inc.'s Audit Committee has considered whether the provision of non-audit services that were rendered to Service Affiliates, which were not pre-approved (not requiring pre-approval), is compatible with maintaining the Accountant's independence. ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Concerning Citigroup Asset Management (1)(CAM) Proxy Voting Policies and Procedures

The following is a brief overview of the Proxy Voting Policies and Procedures (the "Policies") that CAM has adopted to seek to ensure that CAM votes proxies relating to equity securities in the best interest of clients.

CAM votes proxies for each client account with respect to which it has been authorized to vote proxies. In voting proxies, CAM is guided by general fiduciary principles and seeks to act prudently and solely in the best interest of clients. CAM attempts to consider all factors that could affect the value of the investment and will vote proxies in the manner that it believes will be consistent with efforts to maximize shareholder values. CAM may utilize an external service provider to provide it with information and/or a recommendation with regard to proxy votes. However, the CAM adviser (business unit) continues to retain responsibility for the proxy vote.

In the case of a proxy issue for which there is a stated position in the Policies, CAM generally votes in accordance with such stated position. In the case of a proxy issue for which there is a list of factors set forth in the Policies that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the general principles set forth above and considering such enumerated factors. In the case of a proxy issue for which there is no stated position or list of factors that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the general principles set forth above. Issues for which there is a stated position set forth in the Policies or for which there is a list of factors set forth in the Policies that CAM considers in voting on such issues fall into a variety of categories,

including election of directors, ratification of auditors, proxy and tender offer defenses, capital structure issues, executive and director compensation, mergers and corporate restructurings, and social and environmental issues. The stated position on an issue set forth in the Policies can always be superseded, subject to the duty to act solely in the best interest of the beneficial owners of accounts, by the investment management professionals responsible for the account whose shares are being voted. Issues applicable to a particular industry may cause CAM to abandon a policy that would have otherwise applied to issuers generally. As a result of the independent investment advisory services provided by distinct CAM business units, there may be occasions when different business units or different portfolio managers within the same business unit vote differently on the same issue. A CAM business unit or investment team (e.g. CAM's Social Awareness Investment team) may adopt proxy voting policies that supplement these policies and procedures. In addition, in the case of Taft-Hartley clients, CAM will comply with a client direction to vote proxies in accordance with Institutional Shareholder Services (ISS) PVS Voting Guidelines, which ISS represents to be fully consistent with AFL-CIO guidelines.

In furtherance of CAM's goal to vote proxies in the best interest of clients, CAM follows procedures designed to identify and address material conflicts that may arise between CAM's interests and those of its clients before voting proxies on behalf of such clients. To seek to identify conflicts of interest, CAM periodically notifies CAM employees in writing that they are under an obligation (i) to be aware of the potential for conflicts of interest on the part of CAM with respect to voting proxies on behalf of client accounts both as a result of their personal relationships and due to special circumstances that may arise during the conduct of CAM's business, and (ii) to bring conflicts of interest of which they become aware to the attention of CAM's compliance personnel. CAM also maintains and considers a list of significant CAM relationships that could present a conflict of interest for CAM in voting proxies. CAM is also sensitive to the fact that a significant, publicized relationship between an issuer and a non-CAM Legg Mason affiliate might appear to the public to influence the manner in which CAM decides to vote a proxy with respect to such issuer. Absent special circumstances or a significant, publicized non-CAM Legg Mason affiliate relationship that CAM for prudential reasons treats as a potential conflict of interest because such relationship might appear to the public to influence the manner in which CAM decides to vote a proxy, CAM generally takes the position that relationships between a non-CAM Legg Mason affiliate and an issuer (e.g. investment management relationship between an issuer and a non-CAM Legg Mason affiliate) do not present a conflict of interest for CAM in voting proxies with respect to such issuer. Such position is based on the fact that CAM is operated as an independent business unit from other Legg Mason business units as well as on the existence of information barriers between CAM and certain other Legg Mason business units.

CAM maintains a Proxy Voting Committee to review and address conflicts of interest brought to its attention by CAM compliance personnel. A proxy issue that will be voted in accordance with a stated CAM position on such issue or in accordance with the recommendation of an independent third party is not brought to the attention of the Proxy Voting Committee for a conflict of interest review because CAM's position is that to the extent a conflict of interest issue exists, it is resolved by voting in accordance with a pre-determined policy or in accordance with the recommendation of an independent third party. With respect to a conflict of interest brought to its attention, the Proxy Voting Committee first determines whether such conflict of interest is material. A conflict of interest is considered material to the extent that it is determined that such conflict is likely to influence, or appear to influence, CAM's decision-making in voting proxies. If it is determined by the Proxy Voting Committee that a conflict of interest is not material, CAM may vote proxies notwithstanding the existence of the conflict.

If it is determined by the Proxy Voting Committee that a conflict of interest is material, the Proxy Voting Committee is responsible for determining an appropriate method to resolve such conflict of interest before the proxy affected by the conflict of interest is voted. Such determination is based on the particular facts and circumstances, including the importance of the proxy issue and the nature of the conflict of interest.

() Citigroup Asset Management comprises CAM North America, LLC, Salomon Brothers Asset Management Inc, Smith Barney Fund Management LLC, and other affiliated investment advisory firms. On December 1, 2005, Citigroup Inc. (Citigroup) sold substantially all of its worldwide asset management business, Citigroup Asset Management, to Legg Mason, Inc. (Legg Mason). As part of this transaction, CAM North America, LLC, Salomon Brothers Asset Management Inc and Smith Barney Fund Management LLC became wholly-owned subsidiaries of Legg Mason. Under a licensing agreement between Citigroup and Legg Mason, the names of CAM North America, LLC, Salomon Brothers Asset Management Inc, Smith Barney Fund Management LLC and their affiliated advisory entities, as well as all logos, trademarks, and service marks related to Citigroup or any of its affiliates (Citi Marks) are licensed for use by Legg Mason. Citi Marks include, but are not limited to, Citigroup Asset Management, Salomon Brothers Asset Management and CAM . All Citi Marks are owned by Citigroup, and are licensed for use until no later than one year after the date of the licensing agreement. Legg Mason and its subsidiaries, including CAM North America, LLC, Salomon Brothers Asset Management Inc, and Smith Barney Fund Management LLC are not affiliated with Citigroup.

(a)(2): DATA TO BE PROVIDED BY FINANCIAL CONTROL

The following tables set forth certain additional information with respect to the fund's portfolio managers for the fund. Unless noted otherwise, all information is provided as of December 31, 2006.

Other Accounts Managed by Portfolio Managers

The table below identifies the number of accounts (other than the fund) for which the fund's portfolio managers have day-to-day management responsibilities and the total assets in such accounts, within each of the following categories: registered investment companies, other pooled investment vehicles, and other accounts. For each category, the number of accounts and total assets in the accounts where fees are based on performance is also indicated.

Portfolio Manager(s)	Registered Investment Companies	Other Pooled Investment Vehicles	Other Accounts
Robert Amodeo	32 registered investment companies with \$18.6 billion in total assets under management	1 Other pooled investment vehicles with \$7.9 billion in 1 assets under management	16 Other accounts with \$948 million in total assets under management*
Thomas Croak	32 registered investment companies with \$18.6 billion in total assets under management	1 Other pooled investment vehicles with \$7.9 in assets under management	16 Other accounts with \$948 million in total assets under management*
S. Kenneth Leech	134 registered investment companies with \$101 billion in total assets under management	119 Other pooled investment vehicles with \$125.5 billion in assets under management	953 Other accounts with \$274 billion in total assets under management*

* Includes 96 account managed, totaling \$31 billion, for which advisory fee is performance based.

(a)(3): Portfolio Manager Compensation

With respect to the compensation of the portfolio managers, the Advisers' compensation system assigns each employee a total compensation target and a respective cap, which are derived from annual market surveys that benchmark each role with their job function and peer universe. This method is designed to reward employees with total compensation reflective of the external market value of their skills, experience, and ability to produce desired results.

Standard compensation includes competitive base salaries, generous employee benefits, and a retirement plan.

In addition, employees are eligible for bonuses. These are structured to closely align the interests of employees with those of the Advisers, and are determined by the professional's job function and performance as measured by a formal review process. All bonuses are completely discretionary. One of the principal factors considered is a portfolio manager's investment performance versus appropriate peer groups and benchmarks. Because portfolio managers are generally responsible for multiple accounts (including the Portfolio) with similar investment strategies, they are compensated on the performance of the aggregate group of similar accounts, rather than a specific account. A smaller portion of a bonus payment is derived from factors that include client service, business development, length of service to the Adviser, management or supervisory responsibilities, contributions to developing business strategy and overall contributions to the Adviser's business.

Finally, in order to attract and retain top talent, all professionals are eligible for additional incentives in recognition of outstanding performance. These are determined based upon the factors described above and include Legg Mason, Inc. stock options and long-term incentives that vest over a set period of time past the award date.

Potential Conflicts of Interest

Potential conflicts of interest may arise in connection with the management of multiple accounts (including accounts managed in a personal capacity). These could include potential conflicts of interest related to the knowledge and timing of a Portfolio's trades, investment

opportunities and broker selection. Portfolio managers may be privy to the size, timing and possible market impact of a Portfolio's trades.

It is possible that an investment opportunity may be suitable for both a Portfolio and other accounts managed by a portfolio manager, but may not be available in sufficient quantities for both the Portfolio and the other accounts to participate fully. Similarly, there may be limited opportunity to sell an investment held by a Portfolio and another account. A conflict may arise where the portfolio manager may have an incentive to treat an account preferentially as compared to a Portfolio because the account pays a performance-based fee or the portfolio manager, the Advisers or an affiliate has an interest in the account. The Advisers have adopted procedures for allocation of portfolio transactions and investment opportunities across multiple client accounts on a fair and equitable basis over time. All eligible accounts that can participate in a trade share the same price on a pro-rata allocation basis in an attempt to mitigate any conflict of interest. Trades are allocated among similarly managed accounts to maintain consistency of portfolio strategy, taking into account cash availability, investment restrictions and guidelines, and portfolio composition versus strategy.

With respect to securities transactions for the Portfolios, the Advisers determine which broker or dealer to use to execute each order, consistent with their duty to seek best execution of the transaction. However, with respect to certain other accounts (such as pooled investment vehicles that are not registered investment companies and other accounts managed for organizations and individuals), the Advisers may be limited by the client with respect to the selection of brokers or dealers or may be instructed to direct trades through a particular broker or dealer. In these cases, trades for a Portfolio in a particular security may be placed separately from, rather than aggregated with, such other accounts. Having separate transactions with respect to a security may temporarily affect the market price of the security or the execution of the transaction, or both, to the possible detriment of a Portfolio or the other account(s) involved. Additionally, the management of multiple Portfolios and/or other accounts may result in a portfolio manager devoting unequal time and attention to the management of each Portfolio and/or other account.

It is theoretically possible that portfolio managers could use information to the advantage of other accounts they manage and to the possible detriment of a Portfolio. For example, a portfolio manager could short sell a security for an account immediately prior to a Portfolio's sale of that security. To address this conflict, the Advisers have adopted procedures for reviewing and comparing selected trades of alternative investment accounts (which may make directional trades such as short sales) with long only accounts (which include the Portfolios) for timing and pattern related issues. Trading decisions for alternative investment and long only accounts may not be identical even though the same Portfolio Manager may manage both types of accounts. Whether the Adviser allocates a particular investment opportunity to only alternative investment accounts or to alternative investment and long only accounts will depend on the investment strategy being implemented. If, under the circumstances, an investment opportunity is appropriate for both its alternative investment and long only accounts, then it will be allocated to both on a pro-rata basis.

A portfolio manager may also face other potential conflicts of interest in managing a Portfolio, and the description above is not a complete description of every conflict of interest that could be deemed to exist in managing both a Portfolio and the other accounts listed above.
