NOTE A Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month period ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007. For further information, refer to the consolidated financial statements and footnotes included in the Company's annual report on Form 10-K for the year ended December 31, 2006.

PACCAR paid a 50% common stock dividend to stockholders in August of 2006. All share and per share figures presented are adjusted for the effects of the dividend.

Reclassifications: Certain prior year amounts have been reclassified to conform to the 2007 presentation.

NOTE B Inventories

	794.6	837.5
Less LIFO reserve	(143.7)	(143.8)
	\$ 650.9	\$ 693.7

Under the LIFO method of accounting (used for approximately 47% of March 31, 2007 inventories), an actual valuation can be made only at the end of each year based on year-end inventory levels and costs. Accordingly, interim valuations are based on management's estimates of those year-end amounts.

Other Capital Stock Changes

In the three months ended March 31, 2007, PACCAR issued 661,856 additional common shares under deferred and stock compensation arrangements. PACCAR purchased 719,304 shares of its common stock at an average price of \$66.99 per share during the first three months of 2007.

Stock-based compensation expense for the first quarter was \$3.8 in 2007 and \$1.4 in 2006. As of March 31, 2007, there was \$16.3 of unamortized compensation cost related to unvested stock option and restricted stock awards, which is expected to be recognized over a remaining weighted-average vesting period of 1.7 years. Realized tax benefits related to the excess of deductible amounts over compensation costs recognized amounted to \$9.4 and \$5.5 for the first three months of 2007 and 2006, respectively, and have been classified as financing cash flows.

During the first three months of 2007, the Company granted employee stock options to buy 549,448 shares at an exercise price of \$66.84. The estimated fair value of the award was \$8.3 using the Black-Scholes-Merton model. The assumptions for the risk-free interest rate, expected volatility of common stock, dividend yield and expected life of the options were 4.80%, 30%, 4.0%, and 5 years, respectively. The Company also awarded 85,818 shares of restricted stock with a fair value of \$5.8 to employees and non-employee directors.

Diluted Earnings Per Share

The following table shows the additional amounts added to weighted average basic shares outstanding to calculate diluted earnings per share. These amounts primarily represent the dilutive effect of stock options. Antidilutive options are excluded from the diluted earnings per share calculation and are shown separately in the table below.

Three Months Ended March 31	2007	2006
Additional shares	1,447,800	1,387,100

NOTE G Income Taxes**Adoption of FIN 48**

The Company adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) effective January 1, 2007 with no effect on the Company's consolidated financial statements. As of the date of adoption, the Company had \$30.7 of unrecognized tax benefits, all of which would impact the effective tax rate if recognized. The Company is not currently under examination by the IRS and has completed examinations for all years through 2003. Open tax years for other major jurisdictions, including The Netherlands, United Kingdom, Canada, Mexico, and Australia, range from 2001 to 2006. Tax interest and penalties are classified as income taxes in the accompanying statements of income and were insignificant for all periods presented. The Company does not currently anticipate that any significant increase or decrease to the unrecognized tax benefit will be recorded during the next 12 months.

NOTE H Employee Benefit Plans

PACCAR has several defined benefit pension plans, which cover a majority of its employees. The Company also provides coverage of approximately 50% of medical costs for the majority of its U.S. employees from retirement until age 65.

The following information details the components of net periodic pension cost for the Company's defined benefit plans:

Three Months Ended March 31	2007	2006
<i>Components of Pension Expense:</i>		
Service cost	\$ 12.5	\$ 11.6
Interest on projected benefit obligation	16.5	14.2
Expected return on assets	(21.6)	(17.7)
Amortization of prior service costs	.9	1.0
Curtailment charge	2.8	
Recognized actuarial loss	1.9	2.6
Net pension expense	\$ 13.0	\$ 11.7

During the first quarter of 2007, the Company contributed \$3.4 to its pension plans. The curtailment charge in 2007 related to a production workforce reduction in the United States.

The following information details the components of net periodic retiree cost for the Company's unfunded postretirement medical and life insurance plans:

Three Months Ended March 31	2007	2006
<i>Components of Retiree Expense:</i>		
Service cost	\$ 1.4	\$.9
Interest cost	1.3	1.1
Recognized actuarial loss	.3	.3
Recognized net initial obligation	.1	.1
Net retiree expense	\$ 3.1	\$ 2.4

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS:

PACCAR recorded higher sales and net income in the first quarter of 2007 compared to year-earlier levels. First quarter 2007 total net sales and revenues increased 3% to \$3.98 billion compared to the \$3.85 billion in the first quarter of 2006. First quarter 2007 net income of \$365.6 million increased 7% from \$342.0 million in the first quarter of 2006. Included in first quarter 2007 net income is a \$14.7 million gain on sale of property in the United Kingdom. The translation effect of stronger foreign currencies, primarily the euro, increased first quarter 2007 sales by \$128.6 million and net income by \$15.0 million compared to the first quarter of 2006.

Truck segment net sales and revenues increased to \$3.68 billion in the first quarter of 2007 from \$3.61 billion in the first quarter of 2006. Truck segment income before income taxes of \$423.2 million decreased slightly compared to \$428.1 million in the first quarter of 2006, reflecting the impact of lower build rates in the U.S. and Canada, partially offset by higher build rates in Europe, Mexico and Australia. First quarter gross margins were 14.7% in 2007 and 14.8% in 2006. Gross margins in 2007 were impacted by \$10 million of work-force reduction costs in the U.S. and Canada.

The U.S. and Canadian truck markets have declined, as anticipated, due to market reaction to new emissions regulations that became effective January 1, 2007 requiring new trucks to be equipped with emissions reducing engine technology that significantly increased the price of a new truck. Industry orders in the first quarter were well below the previous year as many customers placed orders for pre-2007 emissions-compliant trucks in 2006. As a result of this prebuy, the Company expects industry Class 8 heavy-duty retail sales to be in the range of 190,000 to 220,000 units for 2007. PACCAR's Peterbilt and Kenworth truck divisions in the U.S. and Canada have adjusted production levels accordingly. The lower demand and related build rate adjustments will have a dampening effect on financial results until the industry absorbs the new trucks purchased in 2006.

Truck sales remain strong at the Company's operations in Europe, Mexico and Australia. In Europe, industry sales in the above 15 tonne truck market continue to be strong and are expected to be in the range of 265,000 to 280,000 units for 2007 compared to 268,500 in 2006. PACCAR's DAF truck operations in Europe are increasing production rates.

Selling, general and administrative expense (SG&A) increased \$10.5 million compared to the first quarter of 2006, including \$3.8 million due to stronger foreign currencies, primarily the euro. As a percent of sales, SG&A increased to 3.2% from 3.0%.

Financial Services segment revenues increased 24% to \$264.0 million from \$212.5 million last year due to higher asset levels and interest rates. Financial Services income before income taxes of \$65.6 million in the first quarter of 2007 increased nearly 20% compared to the \$54.8 million earned in the first quarter of 2006. The improvement was due primarily to higher finance gross profit resulting from portfolio growth and continued low credit losses. Past dues continued at low levels with accounts 30 days or more past due at 1.4% of portfolio balances as of March 31, 2007 compared to 1.2% as of March 31, 2006.

The effective tax rate for the first quarter of 2007 was 32.0% compared to 32.9% last year (excluding a \$6.0 million favorable tax settlement). The lower effective tax rate reflects the impact of a higher proportion of income from foreign operations and higher tax exempt income.

LIQUIDITY AND CAPITAL RESOURCES:

PACCAR's Truck and Other working capital (current assets minus current liabilities) increased \$295.8 million during the first quarter of 2007 compared to December 31, 2006. Total Truck and Other cash and marketable debt securities decreased \$282.1 million to \$2.35 billion at the end of the first quarter of 2007.

Cash provided by operations was \$412.8 million in the first quarter of 2007 compared to \$479.4 million in the first quarter of 2006. The decrease in cash provided by operations in 2007 was due primarily to changes in components of working capital. During the first quarter of 2007, in addition to dividend payments, the Company used cash to purchase treasury stock and make capital investments.

At March 31, 2007, PACCAR's European finance subsidiary, PACCAR Financial Europe (PFE), had \$289.6 million available for issuance under the \$1.0 billion medium term-note program registered with the London Stock Exchange. PFE intends to renew this program (which is renewable annually through the filing of a new prospectus) by the end of the second quarter of 2007.

At the end of March 2007, the Company had lines of credit arrangements of \$2.3 billion. Included in these arrangements were \$2.0 billion of committed bank facilities, of which \$1.0 billion matures in July 2007 and \$1.0 billion matures in 2010.

Other information on liquidity and sources of capital as presented in the 2006 Annual Report to Stockholders continues to be relevant.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK
