WINMARK CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

1. Management's Interim Financial Statement Representation:

The accompanying condensed financial statements have been prepared by Winmark Corporation and subsidiaries (the Company), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. The Company has a 52/53 week year which ends on the last Saturday in December. The information in the condensed financial statements includes normal recurring adjustments and reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of such financial statements. This report should be read in conjunction with the audited financial statements and the notes thereto included in the Company's latest Annual Report on Form 10-K.

Revenues and operating results for the six months ended June 30, 2007 are not necessarily indicative of the results to be expected for the full year.

2. Organization and Business:

The Company offers licenses to operate franchises using the service marks Play it Again Sports®, Once Upon A Child®, Music Go Round®, Plato's Closet and Wirth Business Credit. In addition, the Company sells inventory to its Play It Again Sports® franchisees through its buying group. The Company also operates both small-ticket and middle-market equipment leasing businesses.

3. Long-Term Investments:

The Company has an investment in Tomsten, Inc. (Tomsten), the parent company of Archiver's retail chain. Archiver's is a retail concept created to help people preserve and enjoy their photographs. The Company has invested a total of \$7.5 million in the purchase of common stock of Tomsten. The Company's investment currently represents 18.3% of the outstanding common stock of Tomsten and is accounted for by the cost method. The Company has entered into a voting agreement with Tomsten appointing officers of Tomsten as the Company's proxy with the right to vote the Tomsten shares held by the Company consistent with the two largest shareholders of Tomsten (or in case of their disagreement, consistent with a majority of the remaining shareholders) as long as the Company owned such shares. No officers or directors of the Company serve as officers or directors of Tomsten.

On October 8, 2004, the Company agreed to make a \$2.0 million preferred stock investment in Commercial Credit Group, Inc. (CCG), a newly formed equipment leasing company specializing in construction, transportation and waste management equipment. At closing, the Company paid \$1.5 million for approximately 21.5% of the outstanding equity of CCG. The Company made the remaining \$500,000 investment on May 20, 2005. In August 2005, CCG raised an additional \$3.0 million of preferred stock. Subsequent to that financing, the Company owned approximately 17.7% of the outstanding equity of CCG. This investment was accounted for by the cost method.

Edgar Filing: WINMARK CORP - Form 10-Q

On February 15, 2006, the Company entered into two separate transactions with CCG whereby CCG (i) redeemed its 20,000 shares of Series A-1 preferred stock at face value of \$100 per share held by the Company and, (ii) issued \$2,000,000 of five-year senior subordinated notes that carry an interest rate of 14.75%, which is compounded quarterly. In connection with the redemption, a \$360,000 transaction fee was received by the Company. The Company recorded the \$360,000 fee as additional consideration for the redemption for its preferred stock which, when combined with the \$2,000,000 redemption proceeds, resulted in a gain of \$360,000 on the transaction. The gain is included in interest and other income for the six months ended July 1, 2006.

On October 13, 2004, the Company made a commitment to lend \$2.0 million to BridgeFunds Limited at an annual rate of 12% pursuant to several senior subordinated promissory notes. BridgeFunds Limited advances funds to claimants involved in civil litigation to cover litigation expenses. The proceeds of the loans are used to fund these advances. On October 13, 2004, February 9, 2005, May 24, 2005 and May 15, 2006, Winmark Corporation funded \$500,000, \$500,000, \$500,000 and \$500,000, respectively, of such \$2.0 million commitment. In addition, Winmark Corporation has received a warrant to purchase approximately 257,000 shares of BridgeFunds which currently represents 11.8% of the equity of BridgeFunds on a fully diluted basis. BridgeFunds is currently in the process of raising capital which, if successful, will reduce Winmark's fully diluted ownership.

4. Investment in Leasing Operations:

5. Accounting for Stock-Based Compensation:

In 2002, the Company adopted the fair value method recognition provisions of Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (Statement No. 123) using the prospective method as provided by Statement of Financial Accounting Standards No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*. In 2006, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123 *Share-Based Payment* (revised 2004) utilizing the modified prospective method. Compensation expense of \$291,100 and \$452,800 relating to the vested portion of the fair value of stock options granted subsequent to adoption of the fair value method was expensed to Selling, General and Administration Expenses in the first six months of 2007 and 2006, respectively.

In accordance with SFAS 123R, the fair value of each option granted in 2007 and 2006 was estimated on the date of the grant using the Black-Scholes option pricing model with the following assumptions:

Year Granted	Option Fair Value	Risk Free Interest Rate	Expected Life (Years)	Expected Volatility	Dividend Yield
2007	\$5.76	4.55	% 5	27.2%	none
2006	\$6.56 / \$10.25	4.58	% 5 / 7	26.3% / 41.0%	none

6. New Accounting Pronouncements:

The Company adopted the provisions of FASB Interpretation 48, *Accounting for Uncertainty in Income Taxes*, on January 1, 2007. Previously, the Company had accounted for tax contingencies in accordance with Statement of Financial Accounting Standards 5, *Accounting for Contingencies*. As required by Interpretation 48, which clarifies Statement 109, *Accounting for Income Taxes*, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, the Company applied Interpretation 48 to all tax positions for which the statute of limitations remained open. The implementation of Interpretation 48 did not have a material impact on the financial statements.

The amount of unrecognized tax benefits as of December 30, 2006, was \$258,500 primarily for potential foreign and state taxes. There have been no material changes in unrecognized tax benefits since December 30, 2006.

The Company is subject to income taxes in the U.S. federal jurisdiction, and various states and foreign jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for the years before 2003.

The Company recognizes interest accrued related to unrecognized tax benefits and penalties as income tax expense for all periods presented. The Company had accrued approximately \$23,000 for the payment of interest and penalties at December 30, 2006. Subsequent changes to accrued interest and penalties have not been significant.

In September 2006, the FASB issued FAS No. 157, *Fair Value Measurements* (FAS 157), which establishes a framework for reporting fair value and expands disclosure about fair value measurements. FAS 157 is effective for our 2008 fiscal year. The Company is currently evaluating the impact of this standard on our financial statements.

In February 2007, FASB issued FAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (FAS 159). FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. FAS 159 is effective for fiscal years after November 15, 2007. The Company is currently evaluating the impact of adopting this statement on our financial statements.

7. Reclassifications:

Certain amounts in the prior period financial statements have been reclassified to conform with the current year presentation. These reclassifications have no effect on net income or shareholders' equity as previously reported.

8. Earnings Per Share:

The Company calculates earnings per share in accordance with SFAS No. 128 by dividing net income by the weighted average number of shares of common stock outstanding to arrive at the Earnings Per Share - Basic. The Company calculates Earnings Per Share - Diluted by dividing net income by the weighted average number of shares of common stock and dilutive stock equivalents from the exercise of stock options and warrants using the treasury stock method. The weighted average diluted outstanding shares is computed by adding the weighted average basic shares outstanding with the dilutive effect of 112,867 and 223,814 stock options and warrants for the three months and 122,329 and 212,395 for the six months ended June 30, 2007 and July 1, 2006, respectively.

Stock options for 148,705 and 51,206 shares for the three months and 157,167 and 70,028 shares for the six months ended June 30, 2007 and July 1, 2006, respectively, were outstanding but were not included in the calculation of Earnings Per Share - Diluted because their exercise prices were greater than the average market price of the common shares and, therefore, including the options in the denominator would be anti-dilutive.

9. Shareholders' Equity:

Repurchase of Common Stock

Under the Board of Directors' authorization, the Company has the ability to repurchase up to 4,000,000 shares of its common stock, of which all but 227,253 shares have been repurchased through June 30, 2007. Repurchases may be made from time to time at prevailing prices, subject to certain restrictions on volume, pricing and timing. Since the inception of stock repurchase activities in November 1995 through June 30, 2007, the Company has repurchased 3,772,747 shares of its stock at an average price of \$14.02 per share. In the first six months of 2007, the Company repurchased 268,205 shares for an aggregate purchase price of \$4,765,095 or \$17.77 per share.

Dilutive Securities

As of June 30, 2007, the Company had options and warrants outstanding to purchase a total of 541,300 shares of its common stock with an average exercise price of \$14.11 per share. Of these, 331,600 were exercisable as of June 30, 2007.

Stock Option Plans

The Company has authorized up to 750,000 shares of common stock to be reserved for granting either nonqualified or incentive stock options to officers and key employees under the Company's 2001 Stock Option Plan (the 2001 Plan).

Grants under the 2001 Plan are made by the Board of Directors or a Board-designated committee at a price of not less than 100% of the fair market value on the date of grant. If an incentive stock option is granted to an individual who owns more than 10% of the voting rights of the Company's common stock, the option exercise price may not be less than 110% of the fair market value on the date of grant. The term of the options may not exceed 10 years, except in the case of nonqualified stock options, whereby the terms are established by the Board of Directors or a Board-designated committee. Options may be exercisable in whole or in installments, as determined by the Board of Directors or a Board-designated committee.

The Company also sponsors a Stock Option Plan for Nonemployee Directors (the Nonemployee Directors Plan) and has reserved a total of 300,000 shares for issuance to directors of the Company who are not employees. Each option granted under the Nonemployee Directors Plan vests and becomes exercisable in five equal increments, beginning one year after the date of grant.

Stock options granted and exercised under the 2001 Plan and Nonemployee Directors Plan as of June 30, 2007 were as follows:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (years)	Remaining Intrinsic Value
Outstanding at December 30, 2006	558,000	\$ 17.75	7.43	\$ 1,361,100
Granted	25,000	17.53		
Exercised	(112,200)	10.15		
Forfeited	(129,500)	21.35		
Outstanding at June 30, 2007	341,300	18.87	7.50	\$ 133,800
Exercisable at June 30, 2007	131,600	\$ 16.06	6.16	\$ 421,200

All unexercised options at June 30, 2007 have an exercise price equal to the fair market value on the date of the grant.

As of June 30, 2007, the Company had \$1.8 million of total unrecognized compensation expense related to stock options that is expected to be recognized over the remaining weighted average vesting period of 3.1 years.

Other Options

On March 22, 2000, Sheldon Fleck, a former consultant to the Company, was granted a warrant to purchase 200,000 shares of common stock at an exercise price of \$6 per share. This warrant will expire on March 22, 2008 if unexercised. Such warrant remains unexercised as of June 30, 2007.

10. Long-term Debt:

As of June 30, 2007, the Company had \$12.5 million outstanding on its Credit Facility bearing interest between 7.32% and 8.25%.

The Credit Facility has a borrowing base that is equal to two times the Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) of the Company's franchising and corporate overhead plus 90% of the amount of eligible leased assets. The line of credit will be used for growing the Company's leasing business, stock repurchases and general corporate purposes. The Credit Facility is secured by a lien against substantially all of the Company's assets.

Renewable Unsecured Subordinated Notes

In May 2006, the Company filed a public offering of up to \$50 million of Renewable Unsecured Subordinated Notes that was declared effective in June 2006. In addition to the operating lease obligations disclosed in Note 12 of the Company's Form 10-K for the year ended December 30, 2006, the Company has remained a guarantor on Company-owned retail stores that have been either sold or closed. The Company believes it has adequate accruals for any future liability.

The franchising segment franchises value-oriented retail store concepts that buy, sell, trade and consign merchandise. The leasing segment includes (i) Winmark Capital Corporation, a middle-market equipment leasing business and (ii) Wirth Business Credit, Inc., a small ticket equipment leasing business. Segment reporting is intended to give financial statement users a better view of how the Company manages and evaluates its businesses. The Company's internal management reporting is the basis for the information disclosed for its business segments. Segment assets are those that are directly used in or identified with segment operations, including cash, accounts receivable, prepaids, inventory, property and equipment and investment in leasing operations. ITEM 2: Management's Discussion and Analysis of Financial Condition and Results of Operations.**Overview**

As of June 30, 2007, we had 869 franchises and territories operating under the following brands: Play it Again Sports®, Once Upon a Child®, Plato's Closet®, Music Go Round® and Wirth Business Credit . Management closely tracks the following criteria to evaluate current business operations and future prospects: royalties, franchise fees, leasing activity, selling, general and administrative expenses, franchise openings and closings and franchise renewals.

Our most profitable sources of franchising revenue are royalties earned from our franchise partners and franchise fees for new openings and transfers.

During the first six months of 2007, our royalties increased \$478,900 or 5.0% compared to the first six months of 2006. Franchise fees increased \$41,700 or 6.2% compared to the same period last year and primarily reflect consistent new openings in established brands and the addition of the new Wirth Business Credit franchise system. During the first six months of 2007, revenue generated from the Company's leasing activities was \$1,771,500 compared to \$686,700 in the same period last year. (See Note 12 Segment Reporting.) The Company's leasing portfolio was \$26.3 million at June 30, 2007. (Investment in direct finance leases plus long-term investment in leasing operations.)

Management monitors several nonfinancial factors in evaluating the current business operations and future prospects, including franchise openings and closings and franchise renewals. The following is a summary of our franchising activity for the first six months ended June 30, 2007:

	TOTAL 12/30/06	OPENED	CLOSED	TOTAL 6/30/07	SIX MONTHS ENDING 6/30/07 AVAILABLE FOR RENEWAL	COMPLETED RENEWALS

<u>Once Upon A Child®</u>

<u>Wirth Business Credit</u>						
Territories	20	6	(0)	26	0	0
Total Franchises/Territories	844	36	(11)	869	16	12

Renewal activity is a key focus area for management. Our franchisees sign 10-year agreements with us. The renewal of existing franchise agreements as they approach their expiration is an indicator that management monitors to determine the health of our business and the preservation of future royalties. During the six months ended June 30, 2007, the Company renewed 12 franchise agreements of the 16 franchise agreements that were available for renewal.

Edgar Filing: WINMARK CORP - Form 10-Q

Management continually monitors the level and timing of selling, general and administrative expenses. The major components of selling, general and administrative expenses include salaries, wages and benefits, provision for credit losses, advertising, travel, occupancy, legal and professional fees. During the six months ended June 30, 2007, selling, general and administrative expense increased due to salaries and outside services.

	Six Months Ended	
	June 30, 2007	July 1, 2006
Selling, general and administrative expenses	\$ 10,082,600	\$ 8,728,300

Our ability to grow our profits is dependent on our ability to: (i) effectively support our franchise partners so that they produce higher revenues, (ii) open new franchises, (iii) increase lease originations of Wirth Business Credit, Inc. and Winmark Capital Corporation and (iv) control our selling, general and administrative expenses.

As of June 30, 2007, the company had no other material outstanding commitments.

The Company's Credit Facility with LaSalle Bank National Association has a borrowing base that is equal to two times the Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA) of the franchising and corporate segments plus 90% of the amount of eligible leased assets. The line of credit will be used for growing our leasing business, stock repurchases and general corporate purposes. The Credit Facility is secured by a lien against substantially all of our assets.

On April 19, 2006, we announced the filing of a shelf registration on Form S-1 registration statement with the Securities and Exchange Commission for the sale of up to \$50 million of renewable subordinated unsecured notes with maturities from three months to ten years. In June 2006, the Form S-1 registration became effective. In March 2007, the Company filed Post-Effective Amendment Number 2 to the public offering that was declared effective March 30, 2007. We intend to use the net proceeds from the offering to pay down our credit facility, expand our leasing portfolio, to make acquisitions, to repurchase common stock and for other general corporate purposes. As of June 30, 2007, \$16.9 million of the renewable subordinated notes have been sold.

We believe that cash generated from future operations and cash on hand will be adequate to meet our current obligations and operating needs. We believe that the combination of our cash on hand, the cash generated from our franchising business, cash generated from discounting sources, our bank line of credit as well as our renewable subordinated unsecured notes, will be adequate to fund our planned operations, including leasing activity, for 2007.

Critical Accounting Policies

The Company prepares the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. As such, the Company is required to make certain estimates, judgments and assumptions that it believes are reasonable based on information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. There can be no assurance that actual results will not differ from these estimates. The critical accounting policies that the Company believes are most important to aid in fully understanding and evaluating the reported financial results include the following:

Revenue Recognition Royalty Revenue and Franchise Fees

The Company collects royalties from each franchise based on a percentage of retail store gross sales. The Company recognizes royalties as revenue when earned. At the end of each accounting period, estimates of royalty amounts due are made based on applying historical weekly sales information to the number of weeks of unreported franchisee sales. If there are significant changes in the actual performances of franchisees versus estimates, royalty revenue would be impacted. During the first six months of 2007, the Company collected \$122,800 more than estimated at December 30, 2006. As of June 30, 2007, royalty receivables were \$1,176,500.

The Company collects franchise fees when franchise agreements are signed and recognizes the franchise fees as revenue when the franchise is opened, which is the Company has performed substantially all initial services required by the franchise agreement. Franchise fees collected from franchisees but not yet recognized as income are recorded as deferred revenue in the liability section of the Company's balance sheet. As of June 30, 2007, deferred franchise fees were \$1,104,600.

Stock-Based Compensation

The Company currently uses the Black-Scholes option pricing model to determine the fair value of stock options. The determination of the fair value of the awards on the date of grant using an option-pricing model is affected by stock price as well as assumptions regarding a number of complex and subjective variables. These variables include implied volatility over the term of the awards, actual and projected employee stock option exercise behaviors, risk-free interest rate and expected dividends.

The Company evaluates the assumptions used to value awards on an annual basis. If factors change and the Company employs different assumptions for estimating stock-based compensation expense in future periods or if the Company decides to use a different valuation model, the future periods may differ significantly from what it has recorded in the current period and could materially affect operating income, net income and net income per share.

Impairment of Long-term Investments

On an annual basis, the Company evaluates our long-term investments for impairment. The impairment, if any, is measured by the difference between the assets' carrying amount and their fair value, based on the best information available, including market prices, discounted cash flow analysis or other financial metrics that management utilizes to help determine fair value. Judgments made by management related to the fair value of its long-term investments are affected by factors such as the ongoing financial performance of the Investees, additional capital raises by the Investees as well as general changes in the economy.

Leasing Income Recognition

Leasing income is recognized under the effective interest method. The effective interest method of income recognition applies a constant rate of interest equal to the internal rate of return on the lease. When a lease is 90 days or more delinquent, the lease is classified as being on non-accrual and the Company stops recognizing leasing income on that date.

Allowances for Credit Losses

The Company maintains an allowance for credit losses at an amount that it believes to be sufficient to absorb losses inherent in existing lease portfolio as of the reporting dates. A provision is charged against earnings to maintain the allowance for credit losses at the appropriate level. If the actual results are different from the Company's estimates, results could be different. The Company's policy is to charge-off against the allowance the estimated unrecoverable portion of accounts once they reach 121 days delinquent.

Forward Looking Statements

The statements contained in this Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations that are not strictly historical fact, including without limitation, our statement that we will have adequate capital and reserves to meet our current and contingent obligations and operating needs, are forward looking statements made under the safe harbor provision of the Private Securities Litigation Reform Act. Such statements are based on management's current expectations as of the date of this Report, but involve risks, uncertainties and other factors that may cause actual results to differ materially from those contemplated by such forward looking statements. Investors are cautioned to consider these forward looking statements in light of important factors which may result in material variations between results contemplated by such forward looking statements and actual results and conditions. See the section appearing in our annual report on Form 10-K for the fiscal year ended December 30, 2006 entitled Risk Factors and Part II, Item 1A in this Report for a more complete discussion of certain factors that may cause our actual results to differ from those in our forward-looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date they were made. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

The Company incurs financial markets risk in the form of interest rate risk. The Company currently has available a \$20.0 million line of credit with LaSalle Bank National Association. We had \$12.5 million of debt outstanding at June 30, 2007 under this line of credit. The interest rate applicable to this agreement is based on either the bank's base rate or LIBOR. Our earnings would be affected by changes in these short-term interest rates. Risk can be quantified by measuring the financial impact of a near-term adverse increase in short-term interest rates. At our current level of borrowings, a one percent increase in our applicable rate would reduce annual pretax earnings by \$125,000. We had no interest rate derivatives in place at June 30, 2007 to mitigate this risk.

Approximately \$118,000 of our cash and cash equivalents at June 30, 2007 were invested in money market mutual funds, which are subject to the effects of market fluctuations in interest rates.

Although we conduct business in foreign countries, international operations are not material to our consolidated financial position, results of operations or cash flows. Additionally, foreign currency transaction gains and losses were not material to our results of operations for the six months ended June 30, 2007. Accordingly, we are not currently subject to material foreign currency exchange rate risks from the effects that exchange rate movements of foreign currencies would have on our future costs or on future cash flows we would receive from our foreign activity. To date, we have not entered into any foreign currency forward exchange contracts or other derivative financial instruments to hedge the effects of adverse fluctuations in foreign currency exchange rates.

ITEM 4: Controls and Procedures

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)). Based on this evaluation, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There was no change in the Company's internal control over financial reporting during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

In addition to the other information set forth in this report, including the important information in Forward-Looking Statements, you should carefully consider the Risk Factors discussed in the Company's Annual Report on Form 10-K for the year ended December 30, 2006. If any of those factors were to occur, they could materially adversely affect our financial condition or future results, and could cause our actual results to differ materially from those expressed in our forward-looking statements in this report. The Company is aware of no material changes to the Risk Factors discussed in our Annual Report on Form 10-K for the year ended December 30, 2006.
