RENTRAK CORPORATION**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****Note 1. Basis of Presentation**

The accompanying unaudited Condensed Consolidated Financial Statements of Rentrak Corporation have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with the accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. The results of operations for the three and nine-month periods ended December 31, 2007 are not necessarily indicative of the results to be expected for the entire fiscal year ending March 31, 2008. The Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included in our 2007 Annual Report to Shareholders.

The Condensed Consolidated Financial Statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to present fairly our financial position, results of operations and cash flows.

Certain reclassifications have been made to prior year amounts to conform to the current year presentation. See also Note 8 for information regarding the correction of prior period misstatements.

Note 2. Net Income Per Share

Basic net income per share (EPS) and diluted EPS are computed using the methods prescribed by Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share. Following is a reconciliation of the shares used for the basic EPS and diluted EPS calculations (in thousands):

	Three Months Ended Dec. 31, 2007	2006	Nine Months Ended Dec. 31, 2007	2006
Basic EPS:				
Weighted average number of shares of common stock outstanding	10,757	10,666	10,747	10,639
Diluted EPS:				
Effect of dilutive deferred stock units, stock options and warrants	523	583	516	540
	11,280	11,249	11,263	11,179

Options not included in diluted EPS because the exercise price of the options was greater than the average market price of the common shares for the period

Note 3. Business Segments, Significant Suppliers and Major Customers

Edgar Filing: RENTRAK CORP - Form 10-Q

We operate in two business segments, our Pay-Per-Transaction (PPT) Division and Advanced Media and Information (AMI) Division, and, accordingly, we report certain financial information by individual segment under this structure. The PPT Division focuses on managing our business operations that facilitate the delivery of home entertainment content products and related rental and sales information for that content to our Participating Retailers on a revenue sharing basis. The AMI Division concentrates on the management and growth of our Essentials Suite of business intelligence services, primarily offered on a recurring subscription basis, which are no longer in the early stages. Effective April 1, 2007, we realigned and moved our Direct Revenue Sharing (DRS) line of business from the AMI Division to the PPT Division. Prior period information has been reclassified to conform to the current presentation.

We did not have any revenues from our Other Division in the fiscal 2008 or fiscal 2007 periods.

Assets are not specifically identified by segment as the information is not used by the chief operating decision maker to measure the segments performance.

During the three and nine-month periods ended December 31, 2007 and 2006, we had Program Suppliers that supplied product which generated in excess of 10% of our total revenues as follows:

	Three Months Ended Dec. 31,		Nine Months Ended Dec. 31,	
	2007	2006	2007	2006
Program Supplier 1	20%	17%	17%	16%

Program Supplier 4	13%	1%	13%	1%
Program Supplier 5	6%	16%	7%	17%
Program Supplier 6	1%	8%	1%	10%

There were no other Program Suppliers who provided product that accounted for 10% or more of our total revenues for the three or nine-month periods ended December 31, 2007 or 2006. Our agreement with our fifth largest Program Supplier expired March 31, 2007. While we continue to receive some product from one of their divisions, the amount as a percentage of revenues has declined significantly. Also, we are no longer receiving product from our sixth largest Program Supplier as they formed an exclusive arrangement with a major retailer in the home video rental industry. Although management does not believe that the relationships with the remaining significant Program Suppliers will be terminated in the near term, a loss of any one of these suppliers could have an adverse effect on our financial condition and results of operations.

There were no customers that accounted for 10% or more of our total revenue in the three and nine-month periods ended December 31, 2007 or 2006.

Note 4. Stock-Based Compensation

We account for stock-based compensation pursuant to SFAS No. 123R, Share-Based Payment.

Edgar Filing: RENTRAK CORP - Form 10-Q

Stock option activity for the first nine months of fiscal 2008 was as follows:

	Options Outstanding	Weighted Average Exercise Price
Outstanding at March 31, 2007	1,185,664	\$ 6.10
Granted		
Exercised	(154,263)	6.06
Forfeited	(825)	3.84
Outstanding at December 31, 2007	1,030,576	6.11

As of December 31, 2007, unrecognized stock-based compensation related to outstanding, but unvested options was \$0.3 million, which will be recognized over the weighted average remaining vesting period of two years.

On April 2, 2007, we granted 9,000 deferred stock units (DSUs) to each non-employee member of our Board of Directors, for a total of 45,000 DSUs, which vest one year from the date of grant. The fair market value of our common stock on the date of grant was \$15.45 per share. During the second quarter of fiscal 2008, 9,000 unvested deferred stock units previously granted were forfeited due to the retirement of a

member of the Board of Directors. Accordingly, the total value of the remaining DSUs granted was \$0.6 million. As of December 31, 2007, the unrecognized compensation expense related to unvested DSUs was \$0.1 million, which will be recognized over the weighted average remaining vesting period of three months.

DSU activity for the first nine months of fiscal 2008 was as follows:

	Units Outstanding	Weighted Average Grant Date Fair Value
Outstanding at March 31, 2007(1)	45,000	\$ 10.04
Granted	45,000	15.45
Issued	(9,000)	10.04
Forfeited	(9,000)	15.45
Outstanding at December 31, 2007	72,000	12.75

(1) These DSU awards vested in full on June 15, 2007, but will not be issued until the recipient ceases to be a director.

Note 5. Repurchase of Shares

During the nine-month period ended December 31, 2007, we repurchased a total of 104,571 shares of our common stock at an average price of \$11.69 per share, which totaled approximately \$1.2 million. The stock repurchase plan, approved by our Board of Directors in January 2006, authorizes the purchase of up to 1,000,000 shares of our common stock and does not have an expiration date. At December 31, 2007, 701,929 shares remained available for repurchase under this plan.

From January 1, 2008 through February 4, 2008, we have repurchased a total of 100,000 shares of our common stock at an average price of \$11.59 per share, which totaled approximately \$1.2 million. As of February 4, 2008, 601,929 shares remained available for repurchase under this plan.

Note 6. Adoption of Interpretation No. 48

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), which is an interpretation of FASB Statement No. 109. FIN 48 clarifies the accounting for uncertainty in tax positions and applies to situations where there is uncertainty as to the timing of the deduction, the amount of the deduction, or the validity of the deduction. FIN 48 requires that we adjust our financial statements to reflect only those tax positions that are more-likely-than-not to be sustained on audit, based on the technical merits of the position. FIN 48 requires that any necessary adjustment be recorded directly to the beginning balance of retained earnings in the period of adoption and reported as a change in accounting principle, if material.

The cumulative effect of applying FIN 48 has been recorded as an increase of \$1.3 million to our Accumulated Deficit and a corresponding increase to the long-term portion of Taxes Payable as it is not likely that this amount will be paid in the next twelve months. We also began

Edgar Filing: RENTRAK CORP - Form 10-Q

including income tax related interest and penalties expense in our provision for income taxes on our Condensed Consolidated Income Statements, in accordance with paragraph 19 of FIN 48. The amount of related interest and penalties expense for the three and nine-month periods ended December 31, 2007 was approximately \$12,000 and \$42,000, respectively, net of tax benefits.

As of April 1, 2007, the total amount of unrecognized tax benefits was \$1.7 million. This amount includes cumulative penalties and interest as of the date of adoption of \$0.3 million. Unrecognized tax benefits decreased by \$0.1 million in the three and nine-month periods ended December 31, 2007 and totaled \$1.6 million at December 31, 2007. All unrecognized tax benefits would affect the effective tax rate if recognized.

We file federal income tax returns, Canadian income tax returns and State of Oregon income tax returns, as well as multiple other state and local jurisdiction tax returns and have open tax periods in each of the jurisdictions for the years ended March 31, 2000 through March 31, 2007. unrecognized tax benefits of approximately \$0.4 million, before interest, relating to deductions for certain reserves and amortizable assets, may occur in the next twelve months as a result of a lapse of the applicable statute of limitations. We will continue to accrue interest related to these unrecognized tax positions during the next twelve months.

Note 7. Line of Credit Amendment

On December 1, 2007, the expiration date on our revolving line of credit agreement with Wells Fargo Bank was amended from December 1, 2007 to December 1, 2008.

Note 8: Correction of Prior Period Misstatements

During the third quarter of fiscal 2008, we discovered an error in our process relating to the accrual for guaranteed minimum revenues from our customers which caused revenues and the related income tax expense to be overstated in the prior eight fiscal quarters by \$576,000 and \$240,000, respectively. Accordingly, our accumulated deficit through the second quarter of fiscal 2008 was understated by \$336,000. This error had no impact on previously reported cash flows from operating, financing or investing activities and is considered to be immaterial to the previously reported results of operations as well as our financial position. Since the cumulative impact of this error would be material to the results of the current quarter ended December 31, 2007, we applied the guidance of Staff Accounting Bulletin No. 108 (SAB 108). This guidance requires that the prior period financial statements be corrected, even though such revision previously was, and continues to be, immaterial to the prior period financial statements.

The following table represents the impact of the misstatement on our income statements and balance sheets for all of the prior periods (in thousands except per share amounts):

Note 9. New Accounting Pronouncements

SFAS No. 141R and SFAS No. 160

Edgar Filing: RENTRAK CORP - Form 10-Q

In December 2007, the FASB issued SFAS No. 141R, Business Combinations, and SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements. SFAS Nos. 141R and 160 require most identifiable assets, liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at full fair value and require noncontrolling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with noncontrolling interest holders. Both statements are effective for periods beginning on or after December 15, 2008 and earlier adoption is prohibited. SFAS No. 141R will be applied to business combinations occurring after the effective date and SFAS No. 160 will be applied prospectively to all noncontrolling interests, including any that arose before the effective date. We are currently evaluating what impact, if any, the adoption of SFAS Nos. 141R and 160 will have on our financial position or results of operations. We believe that the impact, if any, will be immaterial.

EITF 07-3

In June 2007, the Emerging Issues Task Force (EITF) issued EITF 07-3, Accounting for Advance Payments for Goods or Services to Be Used in Future Research and Development Activities, which states that non-refundable advance payments for services that will be consumed or performed in a future period in conducting research and development activities on behalf of the company should be recorded as an asset when the advance payment is made and then recognized as an expense when the research and development activities are performed. EITF 07-3 is applicable prospectively to new contractual arrangements entered into in fiscal years beginning after December 15, 2007. We do not expect the adoption of EITF 07-3 to have a material effect on our financial position or results of operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

Certain information included in this Quarterly Report on Form 10-Q (including Management's Discussion and Analysis of Financial Condition and Results of Operations regarding revenue growth, gross profit margin and liquidity) constitute forward looking statements that involve a number of risks and uncertainties. Forward looking statements may be identified by the use of forward looking words such as may, will, expects, intends, anticipates, estimates or continues or the negative thereof or variations thereon or comparable terminology. The following factors are among the factors that could cause actual results to differ materially from the forward looking statements: our ability to retain and grow our customer base of retailers participating in the Pay-Per-Transaction system (the PPT System) (Participating Retailers) and customers for our business intelligence software and services; the financial stability of the Participating Retailers and their performance of their obligations under our PPT System; business conditions and growth in the video industry and general economic conditions, both domestic and international; customer demand for movies in various media formats; competitive factors, including increased competition, expansion of revenue sharing programs other than the PPT System by motion picture studios or other licensees or owners of the rights to certain video programming content (Program Suppliers) and new technology; the continued availability of digital videodiscs (DVDs) and videocassettes (Cassettes) (collectively Units) leased/licensed to home video specialty stores and other retailers from Program Suppliers; the loss of significant Program Suppliers; our ability to successfully develop and market new services, including our business intelligence services, to create new revenue streams; and the development of similar business intelligence services by competitors with substantially greater financial and marketing resources than our company. This Quarterly Report on Form 10-Q further describes some of these factors. In addition, some of the important factors that could cause actual results to differ from our expectations are discussed in Item 1A to our fiscal 2007 Form 10-K, which was filed with the Securities and Exchange Commission on June 13, 2007. These risk factors have not significantly changed since the filing of the fiscal 2007 Form 10-K.

Business Trends

Our corporate structure includes separate Pay-Per-Transaction (PPT) and Advanced Media and Information (AMI) operating divisions and, accordingly, we report certain financial information by individual segment under this structure.

Our PPT Division focuses on managing our business operations that facilitate the delivery of home entertainment content products (DVDs, VHS tapes, etc.) and related rental and sales information for the content to home video specialty stores and other retailers, on a revenue sharing basis. We lease product from various suppliers, typically motion picture studios. Under our PPT System, retailers sublease that product from us and rent it to consumers. Retailers then share a portion of each retail rental transaction with us and we share a portion of revenue with the studio. Since we collect, process and analyze rental and sales information at the title level, we report that information to both the studio and the respective retailers.

Edgar Filing: RENTRAK CORP - Form 10-Q

Effective April 1, 2007, we moved our Direct Revenue Sharing (DRS) line of business from the AMI Division to the PPT Division. Prior period information has been reclassified to conform to the current presentation. Our DRS services collect, track, audit and report the results of DRS retailers, such as

Blockbuster Entertainment, Movie Gallery and Netflix, to the respective suppliers under established agreements on a fee for service basis.

Our AMI Division concentrates on the management and growth of our Essentials Suite of business intelligence services. Our Essentials Suite software and services, offered on a recurring subscription basis, provide unique data collection, management, analysis and reporting functions, resulting in business intelligence information valuable to our clients.

The PPT Division

The financial results from the PPT Division continue to be affected by the changing dynamics in the home video rental market. This market is highly competitive and influenced greatly by consumer spending patterns and behaviors. The end consumer has a wide variety of choices from which to select their entertainment content. Some examples include renting Units of product from our Participating Retailers or other Retailers, purchasing previously viewed Units from our Participating Retailers or other Retailers, ordering product via online subscriptions and/or online distributors, subscribing to at-home movie channels, purchasing and owning the Unit directly, or selecting an at-home pay-per-view or on-demand option. Our PPT system focuses on the traditional brick and mortar retailer. We believe that our system successfully addresses the many choices available to consumers and affords our Participating Retailers the opportunity to stock their stores with a wider selection of titles and a greater supply of popular box office releases. Most of our arrangements are structured so that the Participating Retailers pay minimal upfront fees and lower per transaction fees in exchange for ordering Units of all titles offered by a particular Program Supplier (referred to as output programs). Since these programs usually result in more overall Units rented, our Participating Retailers' revenue and the corresponding share with the studios have increased. These programs are, in part, an economic response to the changing dynamics of the home video rental market. We expect the growth of these output programs to continue, and believe that they will be financially beneficial for the Participating Retailers, Program Suppliers and us.

Our base of Participating Retailers continues to be strong and we are implementing strategies to obtain new Participating Retailers and Program Suppliers, as well as assist in the growth of our current Participating Retailers, in an effort to further stabilize and grow our overall PPT revenue and earnings streams.

Our agreement with our fifth largest Program Supplier expired March 31, 2007. While we continue to receive some new product from a division of that Program Supplier, the amounts are significantly less due to the loss of the other divisions. Also, we are no longer receiving product from our sixth largest Program Supplier as they formed an exclusive arrangement with a major retailer in the home video rental industry. We continue to be in good standing with our remaining Program Suppliers and we make on-going efforts to enhance those business relationships through improvement of current services offered and the development of new service offerings. We are also continually seeking to develop business relationships with new Program Suppliers. In November 2005, based on our successful involvement with a major studio in Canada, we entered into a revenue sharing agreement with that studio's U.S. operator, which extends product offerings to Participating Retailers in the U.S. This agreement was effective for titles released beginning in January 2006, giving our U.S. Participating Retailers access to the large volume of high quality entertainment that this major studio has been delivering for years, and yielding 17% of our total revenues in the first nine months of fiscal 2008. Also, in October 2006, we began offering product from a major studio to our U.S. Participating Retailers yielding 13% of our total revenues in the first nine months of fiscal 2008. Two additional Program Suppliers each represented 17% of our total revenues in the first nine months of fiscal 2008. As is typical of our agreements with Program Suppliers, most of our relationships with these Program Suppliers may be terminated without cause upon thirty days' written notice by either party.

AMI and Other Divisions

We are also allocating significant resources towards our business intelligence service offerings, both those services that are currently operational as well as those that are in various stages of development. Our suite of business intelligence services has been well received in the various targeted markets to date, as our offerings fit well with the needs identified by those market participants. Our Essentials™ business intelligence service offerings which are fully operational and no longer in significant stages of development, realized a revenue increase of 34% during the

first nine months of fiscal 2008 compared to the first nine months of

fiscal 2007. We intend to continue to invest in our existing, as well as new, business intelligence services in the near-term as we expand the markets we serve and our service lines, which likely will lower our earnings. Longer-term, we believe these services will provide significant future revenue and earnings streams and contribute to our overall success.

Sources of Revenue

Revenue by segment includes the following:

PPT Division

- order processing fees generated when Units are ordered by and distributed to retailers;
- transaction fees generated when retailers rent Units to consumers; additionally, certain arrangements include guaranteed minimum revenues from our customers; we recognize the guaranteed minimum revenue on the street (release) date in accordance with Statement of Position 00-2, Accounting by Producers or Distributors of Films, (SOP 00-2) provided all other revenue recognition criteria are met;
- sell-through fees generated when retailers sell previously-viewed rental Units to consumers;
- buy-out fees generated when retailers purchase Units at the end of the lease term; and
- DRS fees from data tracking and reporting services provided to Program Suppliers.

AMI Division

- revenues from Box Office Essentials™;
- revenues from Home Entertainment Essentials™;
- revenues from Supply Chain Essentials™; and
- revenues from OnDemand Essentials™.

Other Division

- revenue relating to other products and/or services which are still in the development stage, including AdEssentials™, which will capture census-level data regarding viewing patterns of on-demand advertising for reporting to marketers and advertising agencies.

Revenue

Revenue decreased \$2.8 million, or 10.5%, to \$23.9 million in the three-month period ended December 31, 2007 (the third quarter of fiscal 2008) compared to \$26.7 million in the three-month period ended December 31, 2006 (the third quarter of fiscal 2007) and decreased \$6.7 million, or 8.7%, to \$70.9 million in the nine-month period ended December 31, 2007 compared to \$77.6 million in the nine-month period ended December 31, 2006. The decreases in revenue were primarily due to decreases within our PPT Division, partially offset by increases from our Essentials Suite of products in our AMI Division, as described more fully below.

PPT Division

PPT revenues decreased \$3.5 million, or 14.3%, and \$8.6 million, or 12.0%, respectively, in the three and nine-month periods ended December 31, 2007 compared to the same periods of the prior fiscal year primarily as a result of lower volumes of Units shipped and lower rental transactions (in thousands):

Order processing fees decreased \$0.2 million, or 8.8%, and \$1.0 million, or 14.8%, respectively, in the three and nine-month periods ended December 31, 2007 compared to the same periods of the prior fiscal year. Order processing fees were affected by the following:

Increase (decrease) in fee per Unit	\$	0.06	\$	(0.03)
Effect of increase (decrease) in fee per Unit on revenue	\$	0.1 million	\$	(0.2) million

The decrease in volume in the nine-month period ended December 31, 2007 compared to the same period of 2006 was due to an overall weakness in the quality of titles released in the current period compared to the same period of the prior year and the loss of two of our major Program Suppliers. These suppliers represented 7% and 24%, respectively, of our total revenues during the three-month periods ended December 31, 2007 and 2006 and 8% and 27%, respectively, during the nine-month periods ended December 31, 2007 and 2006.

Fees per Unit are affected by our mix of Units received from Program Suppliers with varying rates of upfront fees and tend to fluctuate from period to period.

Transaction fees decreased \$2.4 million, or 14.8%, and \$5.8 million, or 12.1%, respectively, in the three and nine-month periods ended December 31, 2007 compared to the same periods of the prior fiscal year primarily due to lower rental transactions. Rental transactions at our Participating Retailers decreased 14% and 13%, respectively, while the rate per transaction remained relatively unchanged. Rental transactions have declined due to the overall market conditions and the loss of the Program Suppliers noted above.

Sell-through fees decreased \$0.5 million, or 13.1%, and \$0.9 million, or 7.8%, respectively, in the three and nine-month periods ended December 31, 2007 compared to the same periods of the prior fiscal year primarily due to an overall decrease in the volume of Units released.

DRS fees decreased \$0.3 million, or 20.1%, and \$0.8 million, or 14.8%, respectively, in the three and nine-month periods ended December 31, 2007 compared to the same periods of the prior fiscal year primarily due to the loss of one major studio customer.

AMI Division

Edgar Filing: RENTRAK CORP - Form 10-Q

AMI revenues increased \$0.7 million, or 38.4%, and \$1.9 million, or 34.2%, respectively, in the three and nine-month periods ended December 31, 2007 compared to the same periods of the prior fiscal year. Revenues related to our Essentials™ business intelligence service offerings have increased primarily due to our continued investment in, and successful marketing of, these offerings, which has increased our customer base and expanded our service offerings.

Other Division

We did not have any revenues from our Other Division in the first nine months of fiscal 2008 or fiscal 2007.

Cost of Sales

Cost of sales consists of order processing costs, transaction costs, sell-through costs, handling and freight costs in the PPT Division and costs in the AMI Division associated with certain Essentials™ business intelligence service offerings. These expenditures represent the direct costs to produce revenues.

In the PPT Division, order processing costs, transaction costs and sell through costs represent the amounts due to the Program Suppliers that hold the distribution rights to the Units. Freight costs represent the cost to pick, pack and ship orders of Units to the Participating Retailers. Our cost of sales can also be impacted by the release dates of Units with guarantees. We recognize the guaranteed minimum costs on the release date. The terms of some of our agreements result in 100% cost of sales on titles in the first month in which the Unit is released, which results in lower margins during the initial portion of the revenue sharing period. Once the Unit's rental activity exceeds the required amount for these guaranteed minimums, margins generally expand during the second and third months of the Unit's revenue sharing period. However, since these factors are highly dependent upon the quality, timing and release dates of all new products, margins may not expand to any significant degree during any period. As a result, it is difficult to predict the ultimate impact these Program Supplier Revenue Sharing programs with guaranteed minimums will have on future results of operations in any reporting period.

In the AMI Division, a portion of the Essentials™ business intelligence service offerings costs represent costs associated with the operation of a call center for our Box Office Essentials™ services, as well as costs associated with amortizing capitalized internally developed software used to provide the corresponding services and direct costs incurred to obtain, cleanse and process data and maintain our systems.

Cost of sales decreased \$2.4 million, or 12.4%, and \$5.5 million, or 10.4%, respectively, in the three and nine-month periods ended December 31, 2007 compared to the same periods of the prior fiscal year. Cost of sales as a percentage of revenue was 70.9% and 67.5%, respectively, in the three and nine-month periods ended December 31, 2007 compared to 72.5% and 68.8%, respectively, in the same periods of the prior fiscal year.

The decreases in cost of sales were primarily due to the decreases in revenues discussed above, as well as to the decreases in cost of sales as a percentage of revenue. The decreases in cost of sales as a percentage of revenue were primarily due to a shift to more AMI Division revenue as compared to PPT Division revenue. We achieve higher gross margins on our AMI Division revenue than on our PPT Division revenue. As revenues increase in our AMI Division, cost of sales as a percentage of revenues should decrease as most of our costs are fixed. Also, effective April 1, 2007, we increased the estimated lives of our capitalized software to five years from three years based on a review of our previous usage of such internally developed software. Therefore, costs associated with amortizing this software decreased in the first three quarters of fiscal 2008 compared to the same periods of fiscal 2007.

Selling and Administrative

Selling and administrative expenses consist primarily of compensation and benefits, development, marketing and advertising costs, legal and professional fees, communications costs, depreciation and amortization of tangible fixed assets and software, real and personal property leases, as well as other general corporate expenses.

Selling and administrative expenses were relatively flat in the third quarter of fiscal 2008 compared to the third quarter of fiscal 2007 and increased \$0.8 million, or 4.4%, to \$19.0 million in the nine-month period ended December 31, 2007 compared to \$18.2 million in the same period of the prior fiscal year.

Edgar Filing: RENTRAK CORP - Form 10-Q

Selling and administrative expenses in the three and nine-month periods ended December 31, 2007 compared to the same periods of the prior fiscal year included increases of \$0.1 million and \$0.3 million, respectively, in stock-based compensation related to the issuance of deferred stock units on April 2, 2007. In addition, selling and administrative expense increased \$0.3 million and \$0.8 million, respectively, related to the hiring of additional personnel associated with the expansion of our AMI Division. These factors were offset by a \$0.3 million decrease in our bonus accrual in the third quarter of fiscal 2008 compared to the third

quarter of fiscal 2007. As a percentage of revenues, selling and administrative expenses were 26.5% and 26.9%, respectively, for the three and nine-month periods ended December 31, 2007 compared to 23.8% and 23.5%, respectively, for the comparable periods of the prior fiscal year primarily due to the increase in dollars spent in the nine-month period combined with decreased revenues over which to spread fixed costs in both periods.

Interest Income

Interest income was \$0.4 million and \$1.2 million, respectively, for the three and nine-month periods ended December 31, 2007 compared to \$0.4 million and \$1.1 million, respectively, for the same periods of the prior fiscal year. Our average combined cash and investment balance was \$33.9 million and \$29.8 million for the nine-month periods ended December 31, 2007 and 2006, respectively.

Income Taxes

Our effective tax rate was 44.5% and 39.4%, respectively, in the nine-month periods ended December 31, 2007 and 2006. Our effective tax rate differs from the federal statutory tax rate primarily due to state income taxes. The increase in rate is also due to changes associated with our adoption of FIN 48. See Note 6: *Adoption of Interpretation No. 48* of the Notes to the Condensed Consolidated Financial Statements.

Liquidity and Capital Resources

Our sources of liquidity include our cash, cash equivalents and marketable securities, cash expected to be generated from future operations and investment income and our \$15.0 million line of credit. Based on our current financial projections and projected cash needs, we believe that our available sources of liquidity will be sufficient to fund our current operations, the continued current development of our business intelligence services and other cash requirements through at least December 31, 2008.

Cash and cash equivalents increased \$10.7 million to \$22.1 million at December 31, 2007 compared to \$11.4 million at March 31, 2007. This increase resulted primarily from \$2.8 million provided by our operating activities, the net maturity of \$9.7 million of marketable securities and \$0.8 million provided by the issuance of our common stock. These factors were partially offset by \$1.8 million used for the purchase of property and equipment and \$1.2 million used for the repurchase of our common stock. Our current ratio was 4.0:1.0 at December 31, 2007 and 3.3:1.0 at March 31, 2007.

Accounts receivable, net of allowances, decreased \$1.9 million to \$17.7 million at December 31, 2007 compared to \$19.6 million at March 31, 2007, primarily due to lower revenues during the quarter ended December 31, 2007, compared to the last quarter of our fiscal year ended March 31, 2007.

During the first nine months of fiscal 2008, we spent \$1.8 million on property and equipment, including \$1.3 million for the capitalization of internally developed software for our business intelligence service offerings. We anticipate spending a total of approximately \$2.6 million on property and equipment in fiscal 2008, including approximately \$1.8 million for the capitalization of internally developed software, primarily for our business intelligence service offerings. Other capital expenditures in fiscal 2008 will be primarily for computer equipment.

Edgar Filing: RENTRAK CORP - Form 10-Q

Accounts payable decreased \$2.7 million to \$11.0 million at December 31, 2007 compared to \$13.7 million at March 31, 2007, primarily attributable to lower payments due to Program Suppliers as a result of lower volumes.

Taxes payable, net of taxes receivable, increased \$1.2 million to \$1.2 million at December 31, 2007 compared to \$32,000 at March 31, 2007 primarily due to our implementation of FIN 48 and the timing of estimated tax payments relating to fiscal 2008. See Note 6: *Adoption of Interpretation No. 48* of the Notes to the Condensed Consolidated Financial Statements.

Edgar Filing: RENTRAK CORP - Form 10-Q

Accrued compensation decreased \$0.5 million to \$1.1 million at December 31, 2007 compared to \$1.6 million at March 31, 2007, primarily due to the payment of annual accrued bonuses relating to the fiscal year ended March 31, 2007.

Deferred rent, current and long-term, of \$1.1 million at December 31, 2007 represents amounts received for qualified renovations on our corporate headquarters and free rent for the first three months of the lease term. The deferred rent is being amortized against rent expense over the term of the related lease and will be recognized at approximately \$29,000 per quarter.

Notes payable of \$1.0 million at December 31, 2007 represents a \$0.7 million loan from the Portland Development Commission (PDC), a \$58,000 conditional grant from the PDC and a \$0.2 million loan from the State of Oregon related to our fiscal 2007 corporate headquarters renovations. The loan from the PDC of \$0.7 million does not bear interest until it becomes due, which is January 1, 2009, and contains provisions relating to forgiveness if we meet certain requirements. If the loan is not forgiven, it will accrue interest at the rate of 8.5% per annum beginning January 1, 2009. Similar terms apply to the conditional grant of \$58,000. The loan from the State of Oregon of \$0.2 million bears interest at the rate of 5% per annum and contains provisions relating to forgiveness if we meet certain requirements. We are currently in compliance with these agreements.

In January 2006, our board of directors adopted a share repurchase program authorizing the purchase of up to 1.0 million shares of our common stock. During fiscal 2008, through February 4, 2008, we purchased 204,571 shares at an average price of \$11.64 per share. Through February 4, 2008, 398,071 shares had been repurchased under this plan at an average price of \$10.88 per share and 601,929 shares remained available for purchase. This plan does not have an expiration date.

We currently have a secured revolving line of credit for \$15.0 million, with a maturity of December 1, 2008. Interest on the line of credit is at our choice of either the bank's prime interest rate minus 0.5 percent or LIBOR plus 1.5 percent. The credit line is secured by substantially all of our assets. The line of credit includes certain financial covenants requiring: (1) a consolidated pre-tax income to be achieved each fiscal quarter of a minimum of \$1.00, and consolidated after-tax income not less than \$1.00 on an annual basis, determined at fiscal year end; (2) a minimum current ratio of 1.5:1.0, measured quarterly; and (3) a maximum debt-to-tangible net worth ratio of 1.5:1.0, measured quarterly. Based upon the financial results reported as of, and for the quarter ended December 31, 2007, we determined that we were in compliance with the financial covenants at December 31, 2007. At December 31, 2007, we had no outstanding borrowings under this agreement.

Critical Accounting Policies and Estimates

With the exception of the adoption of Interpretation No. 48 as described in Note 6 of Notes to Condensed Consolidated Financial Statements, we reaffirm the critical accounting policies and estimates as reported in our fiscal 2007 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission on June 13, 2007.

New Accounting Pronouncements

See Note 9 of Notes to Condensed Consolidated Financial Statements for a discussion of new accounting pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK.

There have been no material changes in our reported market risks since the filing of our fiscal 2007 Form 10-K, which was filed with the Securities and Exchange Commission on June 13, 2007.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (Exchange Act). Based on that evaluation our Chief Executive Officer and our Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

Other than as described below, there has been no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

Internal Control Significant Deficiency and Remediation Steps

During the third quarter of fiscal 2008, we determined that a significant deficiency existed in our process relating to the accrual for guaranteed minimum revenues from our customers, which caused revenues, accounts receivable and related income taxes to be overstated, which errors we have determined to be immaterial to the related corresponding financial reporting periods.

The guaranteed revenue recognition and accrual process relies upon certain internal controls, as well as review and analysis performed in the monthly financial closing process. During the closing of the financial results for October 2007, management detected the error while performing its monthly financial review and analysis procedures. These procedures were the primary internal controls for the mitigation of the financial reporting risks involving the issues underlying the current error, which spanned the prior eight fiscal quarters. Since the error that occurred during those fiscal quarters was immaterial to those financial reporting periods, it was not detected by use of internal control procedures during that time. Management has evaluated the error in accordance with SAB 108. Please see Note 8 of Notes to the Condensed Consolidated Financial Statements.

To improve our internal controls relating to our guaranteed revenue recognition and accrual process, we will review and analyze the billing details at a higher level of precision to ensure that the amounts accrued and recognized on total guaranteed revenues earned do not exceed the ultimate billed amounts. We believe that these additional steps to enhance our internal control procedures have eliminated the deficiency in our internal control processes related to the guaranteed revenue recognition and accrual process and, while we have not formally tested the operation of these internal controls, we believe they are now operating effectively and we will enhance management review to provide that assurance.

PART II OTHER INFORMATION

ITEM 1A. RISK FACTORS

Our Annual Report on Form 10-K for the fiscal year ended March 31, 2007 includes a detailed discussion of our risk factors. There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K. Accordingly, the information in this Form 10-Q should be read in conjunction with the risk factors and information disclosed in our fiscal 2007 Form 10-K, which was filed with the Securities and Exchange Commission on June 13, 2007.
