ACQUISITION OF A 70% STAKE IN GHANA TELECOM

Vodafone¹ announces today that it has agreed to acquire a 70% stake in Ghana Telecommunications Company Limited (Ghana Telecom), a leading telecommunications operator in Ghana, from the Government of Ghana for a total consideration of US\$900 million (£452 million), on a debt-free, cash-free basis, implying a total enterprise value for Ghana Telecom of approximately US\$1.3 billion (£646 million). The Government of Ghana will retain a 30% stake in the company.

Commenting on the transaction, Arun Sarin, Chief Executive of Vodafone, said:

Ghana is one of the most attractive markets in Africa with mobile subscribers growing at more than 55% p.a. and mobile penetration around 35%. Our extensive operating experience together with our portfolio of products and services position us well to deliver a superior mobile experience to Ghanaian customers and significantly improve financial performance. I expect that our investment will generate substantial benefits for Vodafone and for the Ghanaian economy and we are delighted that we will be working in partnership with the Government of Ghana.

Strong strategic rationale and turnaround opportunity

The principal benefits to Vodafone are:

- Exposure to the attractive and growing Ghanaian telecommunications market
- total population of 24 million with more than 50% under the age of 25
- real GDP growth of 6.3% in 2007, contained inflation and a stable political background

- low mobile penetration at c.35%, with 2.7 million subscribers added in 2007
- significant additional growth prospects from recent oil field discoveries

¹ The purchaser is Vodafone International Holdings B.V., a wholly owned subsidiary of the Vodafone Group.

- Majority control of the number 3 mobile player and leading fixed-line operator
 - number 3 mobile player with approximately 17% market share and 1.4 million customers as at 31 March 2008
 - leading fixed line and broadband operator with c.99% of the total number of lines and c.90% market share of the retail ADSL market
 - revenue growth of 9.3%² in the 12 months ended 31 December 2007 to US\$290 million and a 2007 reported EBITDA of US\$42 million
- Substantial turnaround potential
 - Over the next 5 years, Vodafone expects Ghana Telecom to invest over US\$500 million in its operations and network, restoring and expanding network coverage and completing and integrating the fibre backbone
 - Vodafone plans to leverage its experience of rapid network deployment in India and other emerging markets, its brand and successful customer propositions such as M-PESA and ultra-low cost handsets, to accelerate Ghana Telecom's growth
 - Through these actions, Vodafone intends that Ghana Telecom will deliver a superior product and service offering in the Ghanaian market and thereby raise its mobile market share over time to around 25%, reversing recent underperformance

Other transaction details

As part of the transaction price, it has been agreed that the Government of Ghana's fibre network assets will be transferred to Ghana Telecom.

The transaction remains subject to certain closing conditions, including approval from the Ghanaian Parliament. Vodafone expects the transaction to close in the third quarter of calendar year 2008.

Financial impact on Vodafone

The transaction meets Vodafone's stated financial investment criteria.

Edgar Filing: VODAFONE GROUP PUBLIC LTD CO - Form 6-K

The transaction is expected to be broadly neutral to adjusted earnings per share in the first year of acquisition.

2 Stated revenue growth is based on local currency.

(1) Conditional awards of shares were granted on 29 July 2008 by the Company. The awards have been granted in accordance with the Vodafone Global Incentive Plan (incorporating co-investment). The vesting of these awards is conditional on continued employment with the Vodafone Group, retention of co-investment and on the satisfaction of a performance condition approved by the Remuneration Committee. The performance measure is based on free cash flow performance with a multiplier that is based on comparative total shareholder return (TSR) performance. The free cash flow performance is based on a three year cumulative adjusted cash flow figure. The target free cash flow level is set by reference to the Company's three year plan and market expectations, 12.5% of the award will vest for target performance, rising further to 50% vesting for maximum performance. The multiplier is based on the TSR of Vodafone Group Plc over the three year performance period 1 April 2008 to 31 March 2011 relative to a peer group of five companies within the European Telecoms sector as well as one emerging market composite. There will be no increase in vesting until TSR performance exceeds median, at which point the multiplier will increase up to two on a linear basis for upper quintile performance. The maximum vesting is 100% for maximum free cash flow performance (50%) and maximum TSR performance (multiplier of 2). For further details of the Plan, please see page 74 of the Company's 2008 Annual Report, available at www.vodafone.com.

(2) These awards are also conditional on the directors and other PDMRs being compliant with the Company's share ownership guidelines, which provide that they will acquire and maintain minimum levels of shareholding. The levels

are four times salary for the Chief Executive, three times salary for other Board directors and two times salary for the other PDMRs, who are members of the Executive Committee.

(3) These share awards which were granted on 26 July 2005 have vested following assessment of the performance and employment conditions to which the awards were subject. The awards were granted in accordance with the rules of the Vodafone Group Plc 1999 Long Term Stock Incentive Plan and the Vodafone Group Global Long Term Incentive Plan (Performance Shares). Based on the performance achieved, 40% of the shares comprised in the awards have vested.

(4) The figures in column C are the number of shares sold on behalf of directors/PDMRs. 521,631 shares were sold at 131.31 pence per share on 28 July 2008 and 127,434 shares at 131.25 pence per share on 29 July 2008. These share sales were made, inter alia, to satisfy the tax liabilities arising on the vesting of the performance shares.

(5) The Company was advised by UBS Trustees (Jersey) Limited that on 29 July 2008 the above named directors and PDMRs acquired an interest in the number of shares of $11\frac{3}{7}$ cents each in the Company in column D above at the price of 131.85 pence per share.

(6) The figures in column E are the net number of shares by which the shareholdings of the directors and PDMRs have increased following these transactions, excluding share options and unvested incentive shares.

As a result of the above, the interests in shares (excluding share options and unvested incentive shares) of the following Directors are as follows:
