**Release** 9 September 2008, Lisbon

## **Notification about mobile termination tariffs**

Portugal Telecom ( PT ) announces that its subsidiary TMN was notified today by ICP-ANACOM, the Portuguese telecoms regulator, that its decision related with the specification of the obligation of price control concerning the wholesale markets of voice call termination in individual mobile networks (market 16) that established a significant reduction of the maximum prices to be applied by the mobile operators with significant market power in the termination of voice calls, which was released to the market in 7 July 2008, will only become effective as of 23 August 2008.

As such, until that date TMN will apply the termination prices that were in place at the time (Euro 0.11 per minute).

Notwithstanding, PT maintains its view in what concerns the illegalities evidenced that would the current decision of the regulator and will continue to recourse to the legal means at its disposal to contest its legality and effectiveness.

## FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
