**Item 8.01. Other Events.**

On Oct. 31, 2008, Northern States Power Company (NSP-Minnesota), a Minnesota corporation and wholly owned subsidiary of Xcel Energy, and enXco, an EDF Energies Nouvelles Company, announced plans to develop 351 megawatts of wind power in Minnesota and North Dakota by the end of 2011. Once developed, project ownership will be transferred to NSP-Minnesota.

The agreement targets approximately \$900 million in investment over three years and stems from a competitive bidding process launched late last year, pursuant to NSP-Minnesota's plan for meeting state renewable requirements and commitments. Under the agreement, NSP-Minnesota will seek necessary regulatory approvals to develop a 201-megawatt project in southwestern Minnesota and a 150-megawatt project in southeastern North Dakota. If approved, the projects are expected to become operational between 2010 and 2011. Attached as Exhibits to this Current Report on Form 8-K are NSP-Minnesota's press releases, which are incorporated herein by reference.

While there will be differences in the individual projects and at the various entities, Xcel Energy expects that the updated capital expenditure forecast, including this wind project, will be of a similar magnitude with the capital forecast for 2009 - 2011 as previously disclosed in its Form 10-K for the year ended Dec. 31, 2007.

The matters discussed herein are forward-looking statements that are subject to certain risks, uncertainties and assumptions. Actual results may vary materially. Forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update them to reflect changes that occur after that date. Factors that could cause actual results to differ materially are included in risk factors listed from time to time by Xcel Energy and NSP-Minnesota in reports filed with the Securities and Exchange Commission, including in Item 1A. Risk Factors, Item 7. Management's Discussions and Analysis of Financial Condition and Results of Operations and Exhibit 99.01 of Xcel Energy's and NSP-Minnesota's Annual Report on Form 10-K for the year ended Dec. 31, 2007 and Quarterly Report on Form 10-Q for the quarter ended Sept. 30, 2008.
