FOR IMMEDIATE RELEASE

Xyratex Ltd Announces Preliminary Results for the Fourth Quarter and Fiscal Year 2008

Havant, UK, January 6, 2009 Xyratex Ltd (Nasdaq: XRTX), a leading provider of enterprise class data storage subsystems and storage process technology, today announced preliminary results for the fourth quarter and fiscal year ended November 30, 2008.

Based upon preliminary, unaudited information, Xyratex Ltd expects:

- Revenues for the fourth quarter to be \$285.4 million, an increase of 15.1% compared to revenues of \$248 million for the same period last year. Revenues for the full year to be \$1,049.7 million, an increase of 12.7% compared to revenues of \$931.6 million for fiscal year 2007.
- A fourth quarter GAAP net loss of \$63.2 million, or \$2.17 per diluted share compared to GAAP net income of \$11.7 million in the same period last year. A GAAP net loss for fiscal year 2008 of \$55.4 million, or \$1.90 per diluted share compared to a GAAP net income of \$28.1 million for fiscal year 2007.
- A fourth quarter non-GAAP net loss of \$6.3 million, or \$0.22 per diluted share compared to non-GAAP net income of \$13.1 million, in the same quarter a year ago. A non-GAAP net income for fiscal year 2008 of \$9.5 million, or a diluted earnings per share of \$0.32 compared to non-GAAP net income of \$37.5 million, or \$1.26 per diluted share, for fiscal year 2007(1).
- Gross profit margin in the fourth quarter of 9.8%, compared to 18.5% in the same period last year and 17.6% in the prior quarter.

Included in both the 2008 fourth quarter and full year preliminary GAAP results, but excluded from the non-GAAP results are the following significant charges:

- A non-cash impairment of Goodwill of \$34.3 million. The Company has considered the value of Goodwill as required under FAS142 and primarily as a result of the recent share price decline, associated with the current macroeconomic environment, it has concluded that a full impairment should be taken against the value of Goodwill.
- A non-cash valuation allowance against the deferred tax asset of \$20.6 million. This valuation allowance relates primarily to UK tax losses which are not expected to be utilized as a result of the current economic situation, certain tax concessions in the UK and the tax structure of the overall Xyratex Ltd group. This valuation allowance does not indicate in itself that the overall Xyratex Ltd group will not be profitable in future fiscal periods.

Included in both the 2008 fourth quarter and full year GAAP and non-GAAP preliminary results are the following significant charges:

- An additional Inventory provision of approximately \$5 million. This provision primarily relates to the Networked Storage Solutions (NSS) RAID products which have seen a material decline in demand associated with the current global economic situation.
- A specific provision of \$9.5 million representing inventory and future vendor claims. This provision is associated with a specific NSS customer's product forecast which currently indicates a transition to an updated version sooner than originally planned, giving rise to an exposure on long lead time components. The value of this exposure is dependent upon product demand and final timing of this proposed transition.

As at the date of this release, the Company is still assessing the extent of this specific provision and opportunities to mitigate the overall exposure. The outcome of this exercise is not expected to be finalized until the end of January at the earliest and hence the Company has provided at this point what it believes will be its maximum probable exposure of \$9.5 million. This is the one area where the Company recognizes a material level of uncertainty and has resulted in all financial results in this press release being described as preliminary. Adjustment to the provision may be required once the analysis is completed, and any such adjustment will be reflected in a subsequent filing giving final 2008 fourth quarter and full year results.

Revenues from sales of our NSS products are expected to be \$222.3 million in the fourth quarter as compared to \$187.2 million in the same quarter a year ago, an increase of 18.7%. Gross profit margin in the NSS business is expected to be 5.0% as compared to 15.0% a year ago, having been reduced by 6.5% as a result of the provisions described in the preceding section. Revenues from sales of our Storage Infrastructure (SI) products are expected to be \$63.1 million as compared to \$60.8 million in the same quarter a year ago, an increase of 3.9%. Gross profit margin in the Storage Infrastructure business is expected to be 27.3% as compared to 29.7% a year ago.

The worsening macroeconomic environment and the pace at which business conditions have changed have resulted in some significant one time non-cash and cash charges in the fourth quarter as detailed in this press release. I do however remain cautiously optimistic with regard to our long-term opportunities and competitive position. I fundamentally believe that we have the right combination of technology and financial strength to be successful in the markets we serve. And while we are not immune from constrained capital expenditure by the Hard Drive Industry, I believe our competitive differentiation and business fundamentals in both of our businesses remain strong, said Steve Barber, CEO of Xyratex. We will remain focused on executing in all areas of our business as we navigate through the current challenging macroeconomic environment.

Business Outlook

Given the reduced visibility caused by the recent changes in the macroeconomic environment, Xyratex Ltd will not be providing formal financial guidance for the first quarter of fiscal year 2009.

Conference Call/Webcast Information

Xyratex quarterly results conference call will be broadcast live via the internet at www.xyratex.com/investors on Tuesday, January 6, 2009 at 2:00 p.m. Pacific Time/5:00 p.m. Eastern Time. You can also access the conference call by dialing +1 (866) 713-8562 in the United States and +1 (617) 597-5310 outside of the United States, passcode 19353013. The press release will be posted to the company web site www.xyratex.com.

A replay will be available through January 13, 2009 following the live call by dialing +1 (888) 286-8010 in the United States and +1 (617) 801-6888 outside the United States, replay code 81888650.

(1) Non-GAAP net income (loss) and diluted earnings (loss) per share excludes (a) amortization of intangible assets, (b) equity compensation expense, (c) specified non-recurring or non-cash items, such as the impairment of goodwill and the valuation allowance against a deferred tax asset, and (d) the related tax effects. Reconciliation of non-GAAP net income and diluted earnings per share to GAAP net income and GAAP diluted earnings per share is included in a table immediately following the condensed consolidated statements of cash flow below.

The intention in providing these non-GAAP measures is to provide supplemental information regarding the Company's operational performance whilst recognizing that they have material limitations and that they should only be referred to with reference to the corresponding GAAP measure.

The Company believes that the provision of these non-GAAP financial measures is useful to investors and investment analysts because it enables comparison to the Company's historical operating results, those of competitors and other industry participants and also provides transparency to the measures used by management in operational and financial decision making. In relation to the specific items excluded: (a) intangible assets represent costs incurred by the acquired business prior to acquisition, are not cash costs and will not be replaced when the assets are fully amortized and therefore the exclusion of these costs provides management and investors with better visibility of the costs required to generate revenue over time; (b) equity compensation expense is non-cash in nature, is outside the control of management during the period in which the expense is incurred and in addition has not been measured consistently as a result of the implementation of FAS 123R; (c) the impairment of goodwill and the valuation allowance against the deferred tax asset is non-recurring, non-cash and is not comparable across periods or with other companies; (d) the exclusion of the related tax effects of excluding items (a) to (c) is necessary to show the effect on net income of the change in tax expense that would have been recorded if these items had not been incurred.

Safe Harbor Statement

This press release contains forward looking statements. These statements relate to future events or our future financial performance. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Factors that might cause such a difference include our inability to compete successfully in the competitive and rapidly changing marketplace in which we operate, failure to retain key employees, changes in our customers volume requirements, cancellation or delay of projects and adverse general economic conditions in the United States and internationally. These risks and other factors include those listed under "Risk Factors" and elsewhere in our Annual Report on Form 20-F as filed with the Securities and Exchange Commission (File No. 000-50799). In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue," or the negative of these terms or other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

About Xyratex

Xyratex is a leading provider of enterprise class data storage subsystems and storage process technology. The company designs and manufactures enabling technology that provides OEM and disk drive manufacturers with data storage products to support high-performance storage and data communication networks. Xyratex has over 20 years of experience in research and development relating to disk drives, storage systems and high-speed communication protocols.

Founded in 1994 in an MBO from IBM, and with headquarters in the UK, Xyratex has an established global base with R&D and operational facilities in Europe, the United States and South East Asia.
