Item 1.01 Entry Into A Material Definitive Agreement.

On May 15, 2009, SL Green Realty Corp. (the Company) completed an underwritten public offering (the Offering) of 19,550,000 shares of its common stock, par value \$0.01 per share (the Shares), with Merrill Lynch, Pierce, Fenner & Smith Incorporated, as representative of the several underwriters (the Underwriters). The Shares were issued and sold by the Company to the Underwriter at a public offering price of \$20.75 per Share pursuant to an underwriting agreement (the Underwriting Agreement) dated as of May 12, 2009 by and among the Company, SL Green Operating Partnership, L.P., the operating partnership through which the Company conducts its real estate activities, and the Underwriters. The Shares include 2,550,000 shares issued and sold pursuant to the Underwriter's exercise of its over-allotment option under the Underwriting Agreement. A copy of the Underwriting Agreement is filed herewith as Exhibit 1.1.

The net proceeds to the Company from the offering after deducting underwriting discounts and commissions and expenses were approximately \$387.4 million. The Company plans to use the net proceeds from the offering for general corporate and/or working capital purposes, which may include investment opportunities, purchases of the indebtedness of its subsidiaries in the open market from time to time, and the repayment of indebtedness at the applicable maturity or put date.

Item 7.01 Regulation FD

On May 18, 2009, the Company issued a press release announcing the completion of the Offering, a copy of which is furnished herewith as Exhibit 99.1.

After considering the effect of the offering of 19,550,000 shares of common stock, the receipt of the expected net offering proceeds and the use of those proceeds for general corporate and/or working capital purposes, which may include investment opportunities, purchases of the indebtedness of its subsidiaries in the open market from time to time, and the repayment of indebtedness at the applicable maturity or put date, the offering will have a dilutive effect of approximately \$0.90 and \$1.00 for the low and high range or a range of \$4.35 to \$4.50 per diluted share, respectively, from the Company's previously announced forecast for funds from operations per diluted share for the year ending December 31, 2009.

Non-GAAP Supplemental Financial Measures

Funds from Operations (FFO)

FFO is a widely recognized measure of REIT performance. The Company computes FFO in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than we do. The revised White Paper on FFO approved by the Board of Governors of NAREIT in April 2002 defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring and sales of properties, plus real estate related depreciation and amortization and after adjustments for unconsolidated

partnerships and joint ventures. The Company presents FFO because it considers it an important supplemental measure of its operating performance and believes that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITS, particularly those that own and operate commercial office properties. The Company also uses FFO as one of several criteria to determine performance-based bonuses for members of its senior management. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs, providing perspective not immediately apparent from net income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of the Company's financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of its liquidity, nor is it indicative of funds available to fund its cash needs, including its ability to make cash distributions.

The statements above that are not historical facts are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements can be identified by the use of words such as may, will, plan, should, expect, anticipate, estimate, continue, or comparable terminology. Such forward-looking statements are inherently subject to certain risks, trends and uncertainties, many of which the Company cannot predict with accuracy and some of which the Company might not even anticipate, and involve factors that may cause actual results to differ materially from those projected or suggested. Readers are cautioned not to place undue reliance on these forward-looking statements and are advised to consider the factors listed above together with the additional factors under the heading "Disclosure Regarding Forward-Looking Statements" and "Risk Factors" in the Company's Annual Reports on Form 10-K, as may be supplemented or amended by the Company's Quarterly Reports on Form 10-Q. The Company assumes no obligation to update or supplement forward-looking statements that become untrue because of subsequent events, new information or otherwise.
