**Report of Independent Registered Public Accounting Firm**

To the Participants and Administrator of the

American Savings Bank 401(k) Plan

In our opinion, the accompanying statement of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the American Savings Bank 401(k) Plan (the Plan ) at December 31, 2009, and the changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

**Report of Independent Registered Public Accounting Firm**

Hawaiian Electric Industries, Inc.  
Pension Investment Committee:

We have audited the accompanying statement of net assets available for benefits of the American Savings Bank 401(k) Plan (the Plan) as of December 31, 2008, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008, and the changes in net assets available for benefits for the year then ended, in conformity with U.S. generally accepted accounting principles.

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

**(1) Plan Description**

The American Savings Bank 401(k) Plan (the Plan or ASB Plan) was established by American Savings Bank, F.S.B. (ASB) effective January 1, 2008. The Plan is a defined contribution plan. ASB is the only participating employer in the Plan at this time.

On May 7, 2009, the Plan accounts of ASB participants were transferred from the Hawaiian Electric Industries Retirement Savings (HEIRS) Plan to newly created participant accounts in this Plan such that: (i) the sum of the participant account balances in the HEIRS Plan immediately prior to the transfer equalled the fair market value of the entire HEIRS Plan assets; (ii) the ASB participant account balances in the ASB Plan immediately after the transfer equalled the ASB participant account balances in the HEIRS Plan immediately prior to the transfer; and (iii) the HEIRS Plan account balances for the participants who remained in the HEIRS Plan did not change because of the transfer. The total value of transferred accounts was \$42,716,369 (which included \$1,279,880 of participant loans and \$56 in residual earnings). No funds were liquidated as a result of this transfer since assets of both plans are invested through the Hawaiian Electric Industries Retirement Savings Plan and the American Savings Bank 401(k) Plan Master Trust (Master Trust), and at the time of the transfer both plans offered the same investment options to their participants. All contributions, salary deferrals, and loan payments for ASB participants subsequent to this transfer date are posted to participant accounts in the ASB Plan.

The following description of the Plan provides general information solely for purposes of the audit of the Plan's financial statements. Participants should refer to the Plan document for a description of the Plan's provisions.

***(a) Administration of Plan Assets***

The compensation committee of the board of directors of ASB's parent company, Hawaiian Electric Industries, Inc. (HEI), appoints, removes, and replaces the members of the Pension Investment Committee (PIC), which is comprised of officers of HEI and its subsidiaries. The PIC is responsible for oversight of investment options and administration of the Plan. The PIC has appointed an Administrative Committee to oversee the day-to-day administration of the Plan, which includes the discretionary authority to interpret the Plan's provisions. The PIC has also appointed an Investment Committee to oversee the day-to-day financial affairs of the Plan. The Investment Committee is responsible for monitoring the investment options offered under the Plan and for making any filings required by the U.S. Securities and Exchange Commission. The Administrative and Investment Committees are comprised of employees of HEI and its subsidiaries and are chaired by a member of the PIC.

## Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 11-K

The Participating Employers and the Plan pay the Plan's administrative fees. Fees charged to the Plan are allocated to participant accounts. Participants may also be assessed interest and fees related to loans and withdrawals.

### *(b) Salary Reduction Contributions*

For purposes of salary reduction (401(k)) contributions, all common law employees of ASB (other than leased employees) are eligible to participate in the Plan upon employment.

Table of Contents

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

There were no salary reductions or catch-up contributions (for participants age 50 or older) to the Plan for 2008 and from January 1, 2009 to April 30, 2009. All ASB participant salary reduction and catch-up contributions were made to the HEIRS Plan for 2008 and from January 1, 2009 to April 30, 2009.

Effective with the payroll period ended May 1, 2009, ASB began to make salary reduction contributions to the Plan. Employees may make salary reduction contributions of up to 100% of available eligible compensation (i.e., compensation that is available after payroll taxes and other applicable withholdings) subject to a federal tax limit of \$16,500 in 2009 and \$15,500 in 2008. The limit is subject to adjustment for changes in the cost of living.

Participants who are age 50 or older, or who will reach age 50 during the year, may elect to make catch-up contributions, as defined in the Plan, subject to a federal tax limit of \$5,500 in 2009 and \$5,000 in 2008. The limit is subject to adjustment for changes in the cost of living.

For purposes of employee salary reduction contributions to the Plan, eligible compensation is defined as W-2 earnings during the Plan year modified by (a) excluding fringe benefits, ASB Dollars (as defined in the Plan document), reimbursements, moving and other expense allowances, special executive compensation, signing bonuses, retention bonuses, service awards, and similar non-performance based awards, and (b) including non-taxable elective contributions made by ASB to the Plan, a cafeteria plan, or a pre-tax transportation spending plan. Special executive compensation is noncash compensation and non-qualified deferred compensation available only to a select group of management employees. Federal tax law limits the amount of annual compensation that may be taken into account in determining contributions to the Plan. For 2009 and 2008, the maximum limit was \$245,000 and \$230,000, respectively. The compensation limit is subject to adjustment for increases in the cost of living.

Under the Internal Revenue Code (the Code), the Plan must satisfy certain tests designed to prohibit discrimination in favor of highly compensated employees. Each year, ASB must determine whether the contributions to the Plan satisfy these tests. If the tests are not satisfied, ASB will limit contributions to the Plan on behalf of highly compensated employees or distribute excess contributions to highly compensated employees to the extent necessary to meet the tests, or both.

*(c) Matching Contributions*

## Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 11-K

After one year of service, ASB matches employee salary reduction contributions at the rate of 100% of the first 4% of eligible compensation deferred. For AmeriMatch (as defined in the Plan document), compensation is defined in the same way it is defined for salary reduction contributions as described in note 1(b) above; however, compensation earned prior to an employee becoming eligible for AmeriMatch is not counted.

There were no matching contributions (AmeriMatch) made to the Plan for 2008 and from January 1, 2009 to April 30, 2009. All AmeriMatch contributions were made to the HEIRS Plan for 2008 and from January 1, 2009 to April 30, 2009.

Effective with the payroll period ending May 1, 2009, ASB began to make AmeriMatch contributions to the Plan. For 2009, ASB made matching contributions to the Plan of \$1,110,822.

Table of Contents

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

***(d) Employer Discretionary Contributions***

The Plan also includes an annual discretionary profit sharing feature (known as AmeriShare). All employees hired on or before July 1 and employed on the last day of any Plan year are eligible to share in any AmeriShare allocation for that year. Exceptions to the last-day requirement are made for those who die, become disabled, or retire during the year. Retirement is defined as termination of employment either after (i) attaining age 65 or (ii) attaining age 55 and completing 10 years of service with ASB, HEI or any HEI subsidiary. On February 11, 2010, the Board of Directors of ASB approved an AmeriShare contribution equal to 3.6% of eligible compensation for the 2009 Plan year. This AmeriShare contribution was deposited into eligible participant accounts on March 17, 2010. On February 23, 2009, the Board of Directors of ASB approved an AmeriShare contribution equal to 4% of 2008 eligible compensation for the 2008 Plan year. This AmeriShare contribution was deposited into eligible participant accounts on May 15, 2009.

For purposes of calculating any AmeriShare contribution, eligible compensation includes an eligible employee's annual base salary or pay plus commissions paid during the Plan year, but excludes any amounts deferred to the American Savings Bank Select Deferred Compensation Plan or any other non-qualified deferred compensation plan that are not includible in the gross income of the employee for the taxable year.

***(e) Participant Accounts***

Each participant has an individual account in the Plan, which may include one or more subaccounts. A participant's benefits equal the vested balance in the participant's account at the time of distribution. Each participant's account is credited with the participant's elective contributions, any AmeriMatch or AmeriShare contributions, and allocations of Plan earnings and gains or losses (whether realized or unrealized), and charged with an allocation of any administrative expenses paid by the Plan or charged directly to the participant's account. Participant accounts are valued at the end of each day that the New York Stock Exchange is open.

The Plan is intended to be an ERISA Section 404(c) plan, under which the fiduciaries of the Plan are relieved of liability for any losses that are the direct and necessary result of a participant's or beneficiary's exercise of control over the investments in his or her individual account. Participants are responsible for investing all amounts in their accounts using investment options offered under the Plan and for performance of such investments. The Plan currently offers various mutual funds and target-date funds, an ASB money market account, and a common stock fund that consists of shares of HEI common stock and short-term liquid investments. If a participant does not choose an investment option for any portion of the participant's account, such amounts are automatically invested in the age-appropriate Fidelity Freedom Fund specific to the participant's normal retirement age or such other investment as the PIC may direct, pending other direction by the participant.

The portion of the Plan that is invested, pursuant to participant investment directions, in the HEI Common Stock Fund is designated as an employee stock ownership plan (ESOP). Amounts contributed to the Plan for investment in the HEI Common Stock Fund or transferred to the HEI Common Stock Fund from other investment alternatives become part of the ESOP component of the Plan.

Table of Contents

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

There are two limitations on the amount a participant may invest in the HEI Common Stock Fund. First, participants may not direct more than 20% of any contribution to the HEI Common Stock Fund. Second, participants and beneficiaries are prohibited from making transfers or exchanges from other investment alternatives into the HEI Common Stock Fund if the transfer or exchange would cause the participant's or beneficiary's investment in the HEI Common Stock Fund to exceed 20% of the participant's or beneficiary's total account balance.

*(f) Distributions*

Distributions from participants' accounts are generally made upon retirement, death, permanent disability, or other termination of employment. Active participants who attain age 59½ may begin making withdrawals while still employed by ASB.

A retired or terminated participant may elect to receive partial distributions (once per year). Retired participants may also elect to receive required minimum distributions from the Plan.

Account balances of \$5,000 or less are automatically distributed upon termination of employment. Any automatic distribution of more than \$1,000 (but not more than \$5,000) is made in the form of a direct rollover to an Individual Retirement Account (IRA) designated by the Administrative Committee, unless the participant requests a cash distribution.

Distributions from the HEI Common Stock Fund are in the form of HEI common stock, with any fractional shares paid in cash or, if the participant so elects, cash. Distributions of HEI Stock Ownership Plan (HEISOP) subaccounts invested in the HEI Common Stock Fund may be made in installments, generally over a period of no more than five years, or may be made in a single lump sum (in stock or in cash).

The participant's account will be reduced by any unpaid loan balance prior to distribution.

*(g) Death Benefits*

Upon the death of a participant, the full value in the participant's account is payable as a death benefit to the participant's designated beneficiary. Generally, the death benefit must be paid in full by the end of the year that includes the fifth anniversary of the participant's death. A married participant's spouse is automatically the participant's beneficiary, unless the participant designates someone else as the beneficiary with the spouse's written consent. If a participant dies while receiving installment distributions from a HEISOP subaccount, the remaining installments will be paid to the participant's beneficiary.

***(h) Withdrawals While Employed***

Prior to termination of employment, a participant may request a withdrawal from his or her account in the event of hardship. Hardship is defined as an immediate and heavy financial need as a result of the following: (1) payment of tuition and related educational fees and room and board expenses for the next 12 months of postsecondary education incurred by the participant or the participant's spouse, children, or other tax dependents; (2) the purchase of a participant's principal residence (excluding mortgage payments); (3) payment of unreimbursed medical expenses incurred by the participant or the participant's spouse, children, or other tax dependents that would be deductible under Section 213(d) of

Table of Contents

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

the Code (determined without regard to whether the expenses exceed 7.5% of adjusted gross income); (4) payment of funeral expenses of a family member; (5) payment to prevent eviction from a participant's principal residence or foreclosure on a mortgage on the participant's principal residence; or (6) payment of expenses for the repair of damage to the participant's principal residence that would qualify for a casualty deduction under Section 165 of the Code (determined without regard to whether the loss exceeds 10% of adjusted gross income). A participant who receives a hardship withdrawal is prohibited from making additional pre-tax salary reduction contributions to the Plan for six months following the hardship withdrawal.

Upon request, a participant may withdraw tax-deductible voluntary contributions or after-tax contributions previously allowed under the Plan. These contributions are no longer permitted under the Plan.

Participants who elect to invest portions of their account balances in the HEI Common Stock Fund (the ESOP component of the Plan) may elect to receive cash distributions of periodic dividends attributable to such investments or may elect to have such dividends reinvested.

A participant who is age 59½ or older may elect to receive an in-service distribution from his or her account once per year.

*(i) Participant Loans*

Effective May 7, 2009, existing participant loans for ASB participants were transferred to this Plan from the HEIRS Plan and participants were eligible to request new loans from this Plan.

The minimum loan amount is \$1,000 and the maximum amount of all loans under the Plan is limited to the lesser of \$50,000, reduced by the highest outstanding loan balance during the prior 12 months, or 50% of the participant's eligible vested account balance. Loan terms generally may not exceed 5 years, except that loans used to purchase a principal residence may have terms of up to 15 years. The interest rate on loans is set at the time a participant applies for the loan. The interest rate on loans is 1% above the Federal Reserve prime rate of interest as of the last working day of the month preceding the month the loan is made. All outstanding loans are secured by 50% of the participant's vested account balance, determined when a loan is approved. Principal and interest payments are made rateably through payroll deductions. Participants are allowed up to two loans outstanding at any one time from the Plan.

*(j) Vesting*

Participants are 100% vested in their account at all times.

Table of Contents

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

**(2) Summary of Accounting Policies**

***(a) Basis of Accounting***

The Plan prepares its financial statements under the accrual method of accounting.

***(b) Use of Estimates***

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

***(c) Investment Valuation and Income Recognition***

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements. Net appreciation or depreciation in the fair value of investments includes realized and unrealized changes in the values of investments bought, sold, and held during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

***(d) Participant Loans***

Participant loans are stated at amortized cost.

***(e) Payment of Benefits***

The Plan records benefits when they are paid.

***(f) Risks and Uncertainties***

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Master Trust held common stock in HEI representing approximately 15% of the Plan's net assets at December 31, 2009.

***(g) Recent Accounting Standards***

In April 2009, the Financial Accounting Standard Board (FASB) issued standards and other guidance that enhances disclosures regarding fair value measurements and impairment of securities. The standards provide guidance related to determining fair values when there is no active market or where the price inputs being used represent distressed sales. It provides guidelines for making fair value measurements more consistent with the principles presented in an earlier standard by reaffirming that

Table of Contents

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

the objective of fair value measurement is to reflect how much an asset would be sold for in an orderly transaction (as opposed to a distressed or forced transaction) at the date of the financial statements under current market conditions. Specifically, it reaffirms the need to use judgement in determining fair values when markets have become inactive.

The Plan adopted these standards in 2009 and provided additional disclosures regarding fair value measurements. In connection with the adoption of the fair value measurement standards, the Plan adopted the provisions of Accounting Standards Update No. 2009-12, Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent), which allows for estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value, using net asset value per share or its equivalent as a practical expedient. The adoption of these standards did not have a material impact on the Plan's financial statements.

In May 2009, the FASB established general standards of accounting for and disclosure of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued, which provide: (1) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (2) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and (3) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The Plan adopted the standards in 2009. The adoption of these standards did not have a material impact on the Plan's financial statements.

In June 2009, the FASB issued a standard that established the Accounting Standards Codification (ASC) as the single source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Plan adopted this standard in 2009 and has eliminated or revised citations for previous standards in this report.

In January 2010, the FASB issued Accounting Standards Update No. 2010-06, Improving Disclosures about Fair Value Measurements which requires new fair value hierarchy disclosures and clarifies existing disclosures. Certain provisions are effective for the Plan in 2010, while other provisions are effective for the Plan in 2011. The adoption of this update is not expected to have a material impact on the Plan's financial statements.

Table of Contents

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

**(3) Investments**

The following table presents the fair value of investments. Investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008 are separately identified.

	2009	2008
Plan interest in Master Trust	\$ 53,681,978	\$
Total investments at fair value	\$ 53,681,978	\$

**(4) Fair Value Measurements**

*(a) Fair Value of Financial Instruments*

The following is a description of the valuation methodologies used for assets measured at fair value.

*ASB Money Market Account* - Valued at cost which approximates fair value.

*Mutual Funds* - Valued at the net asset value of shares held by the Plan at year-end.

*Hawaiian Electric Industries, Inc. Common Stock Fund* - Invests primarily in shares of HEI common stock with a fractional amount invested in interest-bearing cash equivalents. Investment in HEI common stock is valued at the closing price on the last business day of the Plan year reported on the active market on which the common stock is traded. Cash equivalents include investments in money market funds valued at cost, which approximates fair value.

*Participant Loans* - Stated at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

***(b) Fair Value Hierarchy***

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The following are the three levels of the fair value hierarchy under FASB ASC 820:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Table of Contents

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

- Level 2 inputs are quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level of input that is significant to the fair value measurement in its entirety.

**(5) Interest in Master Trust**

Effective December 31, 2008, the Trust Agreement between Hawaiian Electric Industries, Inc. and Fidelity Management Trust Company was amended to include the Hawaiian Electric Industries Retirement Savings Plan and the American Savings Bank 401(k) Plan in a Master Trust. As such, all of the Plan's investments are in the Master Trust. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Fidelity Management Trust Company (the Trustee).

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions, transfers and allocated investment income or loss less actual distributions and allocated administrative expenses. At December 31, 2009, the Plan's interest in the net assets of the Master Trust was approximately 18%. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the daily valuation of the balances invested by each plan.

The following table presents the investments of the Master Trust.

2009

2008

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 11-K

Mutual Funds	\$	206,181,633	\$

**AMERICAN SAVINGS BANK 401(k) PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

**(6) Plan Termination**

Although it has not expressed any intent to do so, ASB has the right under the Plan to discontinue its contributions at any time or to terminate the Plan.

**(7) Federal Income Taxes**

The Plan and related trust are qualified under the Code and are exempt from federal income taxes under Sections 401(a) and 501(a) of the Code. On July 17, 2009, ASB submitted the April 24, 2009 restatement of the Plan to the Internal Revenue Service for a determination letter. Although the Plan has not yet received a determination letter from the IRS, the Administrative Committee and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Participants generally are not subject to federal income taxes on pre-tax contributions or on income or realized gains until a distribution from the Plan is made. However, pre-tax salary reduction contributions are subject to applicable employment taxes.

Participants' income on after-tax contributions made prior to July 1, 1992, which were subsequently transferred to this Plan on May 7, 2009, is not subject to federal income taxes until a distribution from the Plan is made.

Distributions made before a participant reaches age 59½ are subject to a special 10% federal excise tax except for (1) distributions upon death or permanent disability of the participant; (2) distributions (after separation from service) that are part of a series of substantially equal periodic payments over the life of the participant or the joint lives of the participant and his or her beneficiary; (3) distributions after the participant separates from service after reaching age 55; (4) distributions to an alternate payee under a qualified domestic relations order; (5) distributions on account of extraordinary medical expenses; (6) dividends paid on employer stock and distributed in accordance with Section 404(k) of the Code; (7) distributions made on account of an IRS levy against a participant's benefits; (8) distributions of certain excess amounts; and (9) distributions of elective deferrals to certain individuals called to active military duty.

## Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 11-K

Eligible rollover distributions that are not rolled over in a direct rollover are subject to a 20% federal withholding tax. Participants may not elect to forego such withholding. Hardship withdrawals and direct rollovers to another eligible plan or IRA are not subject to the 20% withholding tax.

Distributions are generally taxable to a participant in the year of distribution, except for (1) amounts rolled over to another tax-qualified plan or IRA; (2) amounts representing net unrealized appreciation in shares of HEI common stock distributed in kind as part of a lump-sum distribution (unless the distributee elects to be currently taxed on such appreciation); and (3) distributions of after-tax contributions. Distributions in the form of HEI common stock are valued at fair market value for the purpose of determining the amount distributed, but the portion of such stock distributions representing net unrealized appreciation is not taxed until the participant disposes of the stock (unless the participant elects to be taxed at the time of distribution).

Notes to Financial Statements

December 31, 2009 and 2008

**(8) Related-Party Transactions**

Certain Plan investments represent shares of mutual funds managed by Fidelity Management and Research Company (FMR). Fidelity Management Trust Company (FMTC), an affiliate of FMR, is the Trustee of the Plan, and therefore, transactions with FMR qualify as party-in-interest transactions.

Fees charged to the Plan and currently paid for by ASB and HEI for record-keeping services provided by Fidelity Investments Institutional Operations Company, Inc., an affiliate of both FMR and FMTC, amounted to approximately \$40,843 and \$0 for the years ended December 31, 2009 and 2008, respectively.

Plan participants may elect to invest in the ASB Money Market Account. ASB is the Plan sponsor, and therefore, these transactions are considered party-in-interest transactions.

Plan participants may also elect to invest in the HEI Common Stock Fund, which consists of shares of HEI common stock and short-term liquid investments. HEI is the parent of ASB, and therefore, these transactions are considered party-in-interest transactions. Transactions in shares of HEI common stock qualify as party-in-interest transactions under the provisions of ERISA for which a statutory exemption exists. During the year ended December 31, 2009, the Master Trust made purchases of 124,075 shares or \$1.8 million and sales of 160,871 shares or \$2.4 million of HEI common stock.
