Real Estate Investment Activity

In October 2010, the Company entered into an agreement with The Moinian Group, under which the Company provided a standby mortgage commitment and may make a future equity investment as part of a recapitalization of Three Columbus Circle. The recapitalization was completed in January 2011 and included a \$138.0 million equity investment by the Company.

In December 2010, the Company completed the acquisition of investments from Gramercy Capital Corp. comprised of: (1) the remaining 45 percent joint venture interest in the leased fee at 885 Third Avenue for \$39.3 million plus assumed mortgage debt of \$120.4 million; (2) the remaining 45 percent joint venture interest in the leased fee at 2 Herald Square for \$25.6 million plus assumed mortgage debt of \$86.1 million; and (3) the entire leased fee interest in 292 Madison Avenue for \$19.2 million plus assumed mortgage debt of \$59.1 million. These assets are all leased to third party operators.

In December 2010, the Company's \$12.0 million first mortgage collateralized by 11 West 34th Street was repaid at par, resulting in the Company's recognition of additional income of approximately \$1.1 million. Simultaneous with the repayment, the joint venture was recapitalized with the Company having a 30 percent interest. The property is subject to a long-term net lease arrangement and is encumbered by a five-year \$18.0 million mortgage that bears interest at 250 basis points over the 30-day LIBOR.

In December 2010, the Company acquired two fully leased retail condominiums in Williamsburg, Brooklyn, for \$18.4 million.

In December 2010, the Company's 180-182 Broadway joint venture with Jeff Sutton announced an agreement with Pace University to convey a long-term ground lease condominium interest to Pace University for 20 floors of student housing. The joint venture also admitted Harel Insurance and Finance, who contributed \$28.1 million to the joint venture, for a 49 percent partnership interest. Simultaneously, the joint venture also closed on a new five-year \$90.0 million construction loan, which bears interest at 275 basis points over the 30-day LIBOR.

In January 2011, the Company purchased City Investment Fund's 49.9 percent interest in 521 Fifth Avenue, thereby assuming full ownership of the leasehold position. The transaction valued the consolidated interest at approximately \$245.7 million.

Financing and Capital Activity

In October 2010, the Company's operating partnership issued \$345.0 million of 3.00 percent exchangeable senior notes due October 2017, inclusive of the \$45.0 million overallotment option, with a 30 percent conversion premium. The Company received net proceeds from the offering of approximately \$336.5 million.

In October 2010, the joint venture that owns 600 Lexington Avenue closed on a \$125.0 million seven-year mortgage to replace the \$49.9 million mortgage assumed upon acquisition of the property. The new mortgage bears interest at a rate of 200 basis points over LIBOR and is interest-only for the first two years.

Debt and Preferred Equity Investment Activity

The Company's debt and preferred equity investment portfolio totaled \$963.8 million at December 31, 2010, an increase of \$55.8 million from the balance at September 30, 2010. During the fourth quarter, the Company purchased or originated new debt investments of \$78.4 million, all of which are directly or indirectly collateralized by commercial office properties, and received \$22.5 million of proceeds from investments that were sold, redeemed or repaid. During the fourth quarter, the Company also recorded approximately \$4.8 million in additional reserves against its debt investments. The debt and preferred equity investment portfolio had a weighted average maturity of

3.36 years as of December 31, 2010 and had a weighted average yield for the quarter ended December 31, 2010 of 9.2 percent, exclusive of loans totaling \$136.9 million which are on non-accrual status.

Dividends

During the fourth quarter of 2010, the Company declared quarterly dividends on its outstanding common and preferred stock as follows:

- \$0.10 per share of common stock, which was paid on January 14, 2011 to stockholders of record on the close of business on January 3, 2011; and
- \$0.4766 and \$0.4922 per share on the Company's Series C and D Preferred Stock, respectively, for the period October 15, 2010 through and including January 14, 2011, which were paid on January 14, 2011 to stockholders of record on the close of business on January 3, 2011, and reflect regular quarterly dividends, which are the equivalent of annualized dividends of \$1.9064 and \$1.9688, respectively.

NON-GAAP Supplemental Financial Measures

Funds from Operations (FFO)

FFO is a widely recognized measure of REIT performance. We compute FFO in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than we do. The revised White Paper on FFO approved by the Board of Governors of NAREIT in April 2002 defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring and sales of properties, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. We present FFO because we consider it an important supplemental measure of our operating performance and believe that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITS, particularly those that own and operate commercial office properties. We also use FFO as one of several criteria to determine performance-based bonuses for members of our senior management. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs, providing perspective not immediately apparent from net income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of our financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions.

Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA)

The Company presents earnings before interest, taxes, depreciation and amortization (EBITDA) because the Company believes that EBITDA, along with cash flow from operating activities, investing activities and financing activities, provides investors with an additional indicator of the Company's ability to incur and service debt. EBITDA should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of our financial performance, as an alternative to net cash flows from operating activities (determined in accordance with GAAP), or as a measure of our liquidity. Adjusted earnings before interest, taxes, depreciation and amortization (Adjusted EBITDA) is calculated by adding income taxes, loan loss reserves and our share of joint venture depreciation and amortization to EBITDA.

Same-Store Net Operating Income

The Company presents same-store net operating income on a cash and GAAP basis because the Company believes that it provides investors with useful information regarding the operating performance of properties that are comparable for the periods presented. For properties owned since January 1, 2009 and still owned at the end of the current quarter, the Company determines GAAP net operating income by subtracting property operating expenses and ground rent from recurring rental and tenant reimbursement revenues. Cash net operating income (Cash NOI) is derived by deducting straight line and free rent from, and adding tenant credit loss allowance to, GAAP net operating income. Same-store net operating income is not an alternative to net income (determined in accordance with GAAP) and same-store performance should not be considered an alternative to GAAP net income performance.
