NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements of Dillard s, Inc. (the Company) have been prepared in accordance with the rules of the Securities and Exchange Commission (SEC). Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement have been included. Operating results for the three and six months ended July 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending January 28, 2012 due to the seasonal nature of the business.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended January 29, 2011 filed with the SEC on March 23, 2011.

Reclassifications Certain items have been reclassified from their prior year classifications to conform to the current year presentation. These reclassifications had no effect on net income or stockholders equity as previously reported.

Note 2. Business Segments

The Company operates in two reportable segments: the operation of retail department stores (retail operations) and a general contracting construction company (construction).

For the Company s retail operations, the Company determined its operating segments on a store by store basis. Each store s operating performance has been aggregated into one reportable segment. The Company s operating segments are aggregated for financial reporting purposes because they are similar in each of the following areas: economic characteristics, class of consumer, nature of products and distribution methods. Revenues from external customers are derived from merchandise sales, and the Company does not rely on any major customers as a source of revenue. Across all stores, the Company operates one store format under the Dillard s name where each store offers the same general mix of merchandise with similar categories and similar customers. The Company believes that disaggregating its operating segments would not provide meaningful additional information.

Note 7. Commitments and Contingencies

On June 10, 2009, a lawsuit was filed in the Circuit Court of Pulaski County, Arkansas styled Billy K. Berry, Derivatively on behalf of Dillard's, Inc. v. William Dillard II et al, Case Number CV-09-4227-2 (the Berry case). The lawsuit generally seeks return of monies and alleges that certain officers and directors of the Company have been overcompensated and/or received improper benefits at the expense of the Company and its shareholders. On February 18, 2010, the Circuit Court entered an Order of Dismissal with Prejudice and Final Judgment dismissing the case as to all parties defendant. The Circuit Court's judgment was affirmed by the Arkansas Court of Appeals. Plaintiff has appealed the decision of the Court of Appeals to the Arkansas Supreme Court where it is currently pending. The named officers and directors will continue to contest these allegations vigorously.

On May 27, 2009, a lawsuit was filed in the United States District Court for the Eastern District of Arkansas styled Steven Harben, Derivatively on Behalf of Nominal Defendant Dillard's, Inc. v. William Dillard II et al, Case Number 4:09-IV-395. The lawsuit generally seeks return of monies and alleges that certain officers and directors of the Company have been overcompensated and/or received improper benefits at the expense of the Company and its shareholders. On September 30, 2010, the court dismissed the lawsuit in its entirety with prejudice but granted plaintiff's request to stay final judgment pending the exhaustion of all appeals in the Berry case, discussed above. It is not known whether the court will amend its Order upon exhaustion of the Berry appeals. If so, the named officers and directors intend to contest these allegations vigorously.

Various other legal proceedings, in the form of lawsuits and claims, which occur in the normal course of business, are pending against the Company and its subsidiaries. In the opinion of management, disposition of these matters is not expected to have a material adverse effect on the Company's financial position, cash flows or results of operations.

At July 30, 2011, letters of credit totaling \$86.0 million were issued under the Company's revolving credit facility.

Note 8. Benefit Plans

The Company has an unfunded, nonqualified defined benefit plan (Pension Plan) for its officers. The Pension Plan is noncontributory and provides benefits based on years of service and compensation during employment. Pension expense is determined using various actuarial cost methods to estimate the total benefits ultimately payable to officers and allocates this cost to service periods. The actuarial assumptions used to calculate pension costs are reviewed annually. The Company made contributions to the Pension Plan of \$1.0 million and \$2.1 million during the three and six months ended July 30, 2011, respectively. The Company expects to make contributions to the Pension Plan of approximately \$2.1 million for the remainder of fiscal 2011.

The components of net periodic benefit costs are as follows (in thousands):

Note 9. Revolving Credit Agreement

At July 30, 2011, the Company maintained a \$1.0 billion revolving credit facility (credit agreement) with JPMorgan Chase Bank (JPMorgan) as the lead agent for various banks, secured by the inventory of Dillard s, Inc. operating subsidiaries. The credit agreement expires December 12, 2012.

Borrowings under the credit agreement accrue interest starting at either JPMorgan s Base Rate minus 0.5% or LIBOR plus 1.0% (1.19% at July 30, 2011) subject to certain availability thresholds as defined in the credit agreement.

Limited to 85% of the inventory of certain Company subsidiaries, availability for borrowings and letter of credit obligations under the credit agreement was \$843.5 million at July 30, 2011. No borrowings were outstanding at July 30, 2011. Letters of credit totaling \$86.0 million were issued under this credit agreement leaving unutilized availability under the facility of approximately \$757 million at July 30, 2011. There are no financial covenant requirements under the credit agreement provided availability exceeds \$100 million. The Company pays an annual commitment fee to the banks of 0.25% of the committed amount less outstanding borrowings and letters of credit.

Note 10. Stock Repurchase Programs

May 2011 Stock Plan

In May 2011, the Company s Board of Directors authorized the Company to repurchase up to \$250 million of the Company s Class A Common Stock under an open-ended plan (May 2011 Stock Plan). This authorization permits the Company to repurchase its Class A Common Stock in the open market, pursuant to preset trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934 (Exchange Act) or through privately negotiated transactions. At July 30, 2011, \$250.0 million in share repurchase authorization remained under the May 2011 Stock Plan.

Note 14. Fair Value Disclosures

The estimated fair values of financial instruments which are presented herein have been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of amounts the Company could realize in a current market exchange.

Edgar Filing: DILLARDS INC - Form 10-Q

The fair value of the Company's long-term debt and subordinated debentures is based on market prices or dealer quotes (for publicly traded unsecured notes) and on discounted future cash flows using current interest rates for financial instruments with similar characteristics and maturities (for bank notes and mortgage notes).

The fair value of the Company's cash and cash equivalents and trade accounts receivable approximates their carrying values at July 30, 2011 due to the short-term maturities of these instruments. The fair value of the Company's long-term debt at July 30, 2011 was approximately \$747 million. The carrying value of the Company's long-term debt at July 30, 2011 was \$745 million. The fair value of the Company's subordinated debentures at July 30, 2011 was approximately \$194 million. The carrying value of the Company's subordinated debentures at July 30, 2011 was \$200 million.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

The FASB's accounting guidance utilizes a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value into three broad levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities

Table of Contents

- Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly; these include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions

(in thousands)	Fair Value of Assets (Liabilities)	Basis of Fair Value Measurements		
		Quoted Prices In Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Long-lived assets held for sale				
As of July 30, 2011	\$ 26,348	\$	\$	\$ 26,348
As of January 29, 2011	27,548			27,548
As of July 31, 2010	\$ 31,748	\$	\$	\$ 31,748
As of January 30, 2010	33,956			33,956

During the six months ended July 30, 2011, long-lived assets held for sale with a carrying value of \$27.5 million were written down to their fair value of \$26.3 million, resulting in an impairment charge of \$1.2 million, which was included in earnings for the period. During the six months ended July 31, 2010, long-lived assets held for sale with a carrying value of \$34.0 million were written down to their fair value of \$31.7 million, resulting in an impairment charge of \$2.2 million, which was included in earnings for the period. The inputs used to calculate the fair value of these long-lived assets in both periods included selling prices from commercial real estate transactions for similar assets in similar markets that we estimated would be used by a market participant in valuing these assets.

Note 15. Recently Issued Accounting Standards

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The amendments in this update change the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements to ensure consistency between U.S. GAAP and IFRS. This update is effective for interim and annual periods beginning after December 15, 2011 and is to be applied prospectively. The Company does not expect the adoption of ASU No. 2011-04 to have a material impact on the Company's financial statements.

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220) Presentation of Comprehensive Income*, to make the presentation of items within other comprehensive income (OCI) more prominent. The new standard will require companies to present items of net income, items of OCI and total comprehensive income in one continuous statement or two separate consecutive statements, and companies will no longer be allowed to present items of OCI in the statement of stockholders' equity. This new update is effective for interim and annual periods beginning after December 15, 2011 and is to be applied retrospectively. The adoption of this new standard may change the order in which certain financial statements are presented and will provide additional detail in those financial statements when applicable, but will not have any other impact on the Company's financial statements.

Highlights of the quarter ended July 30, 2011 compared to the quarter ended July 31, 2010 included:

Seasonality and Inflation

Our business, like many other retailers, is subject to seasonal influences, with a significant portion of sales and income typically realized during the last quarter of our fiscal year due to the holiday season. Because of the seasonality of our business, results from any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

We do not believe that inflation has had a material effect on our results during the periods presented; however, there can be no assurance that our business will not be affected by such in the future. In response to recent economic volatility in Asia and to increasing fabric prices (including cotton) and overseas wages, we have sought solutions to

Table of Contents

help minimize the effects of these events on our operations during fiscal 2011 by (1) negotiating efficiencies through our longstanding relationships with our current suppliers, (2) considering alternative manufacturing sources, (3) redesigning our garments and incorporating other types of fibers where appropriate and (4) adjusting price points as necessary. Consequently, we believe the effects of these currently known trends on our gross margins in fiscal 2011 will be minimal.

The percent change by category in the Company's retail operations segment sales for the three months ended July 30, 2011 compared to the three months ended July 31, 2010 as well as the percentage by segment and category to total net sales is as follows:

Net sales from the retail operations segment increased \$66.9 million or 5% during the three months ended July 30, 2011 compared to the three months ended July 31, 2010 while sales in comparable stores increased 6% between the same periods. Sales of ladies' apparel and accessories were up moderately. All other merchandise categories experienced a significant increase of sales between the periods with the exception of home and furniture which had a moderate decline.

The number of sales transactions decreased 1% for the three months ended July 30, 2011 over the comparable prior year period while the average dollars per sales transaction increased significantly. We recorded an allowance for sales returns of \$8.6 million and \$8.0 million as of July 30, 2011 and July 31, 2010, respectively.

We believe that we may continue to see some sales growth in the retail operations segment during the coming months; however, there is no guarantee of improved sales performance. Any further deterioration in the United States economy could have an adverse affect on consumer confidence and consumer spending habits, which could result in reduced customer traffic and comparable store sales, higher inventory levels and markdowns and lower overall profitability.

Edgar Filing: DILLARDS INC - Form 10-Q

Net sales from the construction segment decreased \$14.1 million or 47% during the three months ended July 30, 2011 compared to the quarter ended July 31, 2010. We believe this decrease is primarily attributable to the negative impact that the weak United States economy has had in previous quarters and continues to have on demand for construction projects in private industry. During the first six months of 2011, we have been awarded approximately \$123 million in new contracts.

Income from the Alliance increased during the three and six months ended July 30, 2011 compared to the three and six months ended July 31, 2010 primarily due to decreased credit losses partially offset by reduced finance charge and late charge fee income related to recent credit regulation legislation.

in cosmetics. Home and furniture experienced a slight gross margin decline while men's apparel and accessories experienced a moderate decline.

During the six months ended July 30, 2011 compared to the three months ended July 31, 2010, home and furniture, shoes and juniors' and children's apparel experienced moderate gross margin improvement while ladies' apparel and accessories had a slight improvement. Gross margin was flat in cosmetics, and men's apparel and accessories was down slightly.

Inventory increased 3% in comparable stores as of July 30, 2011 compared to July 31, 2010 as management has planned more aggressively in light of improved sales trends. A 1% change in the dollar amount of markdowns would have impacted net income by approximately \$3 million and \$4 million for the three and six months ended July 30, 2011, respectively.

We are continuing our efforts to manage the cadence of merchandise receipts to shorten the time span between receipt of product and point of sale to help reduce markdown risk and to keep customers engaged with a more continuous flow of fresh merchandise selections. We also seek marked differentiation from the traditional department store format through our efforts to improve our merchandise selections as well as our level of service. We are working to build and maintain relationships with merchandise vendors who offer distinctive products not normally offered by traditional department stores. At the same time, we are enhancing our service levels to support a higher end shopping experience and to build lasting client relationships.

The construction segment recorded a gross loss of \$0.8 million and \$0.1 million during the three and six months ended July 30, 2011, respectively. This gross margin decline of \$2.0 million (870 basis points of sales) and \$0.4 million (90 basis points of sales) from the prior year was the result of (a) fewer projects caused by the reduction in demand for construction services combined with pricing pressures in an already competitive marketplace and (b) a \$1.2 million loss recorded during the three months ended July 30, 2011 on an electrical contract. This decrease was partially offset by a \$2.2 million loss recorded in the prior year on certain electrical contracts stemming from job delays due to bad weather and job underperformance.

Income Taxes

The total amount of unrecognized tax benefits as of July 30, 2011 and July 31, 2010 was \$8.2 million and \$14.7 million, respectively, of which \$5.5 million and \$10.8 million, respectively, would, if recognized, affect the effective tax rate. The Company classifies accrued interest expense and penalties relating to income tax in the condensed consolidated financial statements as income tax expense. The total accrued interest and penalties in the condensed consolidated balance sheets as of July 30, 2011 and July 31, 2010 was \$3.4 million and \$4.9 million, respectively. The estimated range of the reasonably possible unrecognized tax benefit decrease in the next twelve months is between \$0.5 million and \$1.5 million. During the three months ended July 30, 2011, the IRS concluded its examination of the Company's federal income tax returns for the fiscal tax years 2008 through 2009, and no significant changes occurred in these tax years as a result of such examination. Changes in the Company's assumptions and judgments can materially affect amounts recognized in the condensed consolidated balance sheets and statements of income.

The Company's estimated federal and state income tax rate, inclusive of income on and equity in losses of joint ventures, was approximately 28.5% and (3.6)% for the three months ended July 30, 2011 and July 31, 2010, respectively. During the three months ended July 30, 2011, income taxes included the recognition of tax benefits primarily related to federal tax credits, decreases in net operating loss valuation allowances, and decreases in net deferred tax liabilities resulting from legislatively-enacted state tax rate reductions. During the three months ended July 31, 2010, income taxes included the recognition of tax benefits primarily due to a state administrative settlement.

The Company's estimated federal and state income tax rate, inclusive of income on and equity in losses of joint ventures, was approximately 34.5% and 32.7% for the six months ended July 30, 2011 and July 31, 2010, respectively. During the six months ended July 30, 2011, income taxes included the recognition of tax benefits primarily related to federal tax credits, decreases in net operating loss valuation allowances, and

Edgar Filing: DILLARDS INC - Form 10-Q

decreases in net deferred tax liabilities resulting from legislatively-enacted state tax rate reductions. During the six months ended July 31, 2010, income taxes included the recognition of tax benefits primarily due to a state administrative settlement and federal tax credit refund claims.

The Company's income tax rate for the remainder of fiscal 2011 is dependent upon results of operations and may change if the results for fiscal 2011 are different from current expectations. The income tax rate may also change based on the way in which the tax structure of the real estate investment trust formed in January 2011 is finalized. The Company's effective tax rate for the remainder of fiscal 2011 is estimated to approximate 36%.

Table of Contents**Income on Joint Venture**

Net cash flows from operations decreased to \$125.0 million during the six months ended July 30, 2011 compared to \$128.7 million for the six months ended July 31, 2010. This \$3.7 million decrease is primarily attributable to a decrease of \$33.4 million related to changes in working capital items, primarily of changes in inventories as the Company responds to improved sales trends. This decrease was partially offset by higher net income, as adjusted for non-cash items, of \$29.7 million for the six months ended July 30, 2011 as compared to the six months ended July 31, 2010.

GE owns and manages Dillard's branded proprietary credit card business under the Alliance that expires in fiscal 2014. The Alliance provides for certain payments to be made by GE to the Company, including a revenue sharing and marketing reimbursement. The Company received income of approximately \$45.2 million and \$43.2 million from GE during the six months ended July 30, 2011 and July 31, 2010, respectively. While future cash flows under this Alliance are difficult to predict, the Company expects income from the Alliance to improve moderately during fiscal 2011 compared to fiscal 2010. The amount the Company receives is dependent on the level of sales on GE accounts, the level of balances carried on the GE accounts by GE customers, payment rates on GE accounts, finance charge rates and other fees on GE accounts, the level of credit losses for the GE accounts as well as GE's funding costs.

expects peak borrowings under the credit facility during fiscal 2011, net of invested cash, to be approximately \$200 million. NEW ACCOUNTING STANDARDS

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The amendments in this update change the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements to ensure consistency between U.S. GAAP and IFRS. This update is effective for interim and annual periods beginning after December 15, 2011 and is to be applied prospectively. The Company does not expect the adoption of ASU No. 2011-04 to have a material impact on the Company's financial statements.

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220) Presentation of Comprehensive Income*, to make the presentation of items within other comprehensive income (OCI) more prominent. The new standard will require companies to present items of net income, items of OCI and total comprehensive income in one continuous statement or two separate consecutive statements, and companies will no longer be allowed to present items of OCI in the statement of stockholders' equity. This new update is effective for interim and annual periods beginning after December 15, 2011 and is to be applied retrospectively. The adoption of this new standard may change the order in which certain financial statements are presented and will provide additional detail in those financial statements when applicable, but will not have any other impact on the Company's financial statements.
