#### PORTFOLIO MANAGERS' REPORT

Dear Shareholders:

ING Prime Rate Trust (the "Trust") is a diversified, closed-end management investment company that seeks to provide investors with as high a level of current income as is consistent with the preservation of capital. The Trust seeks to achieve this objective by investing, under normal circumstances, at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in U.S. dollar denominated floating rate secured senior loans.

# PERFORMANCE SUMMARY

The Trust declared \$0.11 of dividends during the third fiscal quarter and \$0.31 during the nine months ended November 30, 2012. Based on the average month-end net asset value ("NAV") per share of \$5.93 for the third fiscal quarter and \$5.85 for the nine-month period, this resulted in an annualized distribution rate<sup>(1)</sup> of 7.35% for the third fiscal quarter and 7.05% for the nine-month period. The Trust's total return for the third fiscal quarter, based on NAV, was 2.52% versus a total gross return on the S&P/LSTA Leveraged Loan Index (the "Index")<sup>(2)</sup> of 1.74% for the same quarter. For the nine months ended November 30, 2012, the Trust's total return, based on NAV<sup>(3)</sup>, was 8.19%, versus a total gross return on the Index of 5.66%. The total market value return<sup>(3)</sup> for the Trust's common shares during the third fiscal quarter was 6.60% and for the nine months ended November 30, 2012 was 19.63%.

#### MARKET UPDATE

The three-month period ended November 30, 2012 in the global loan market was characterized by one consistent and dominant theme: the ongoing search for reasonably priced income in a yield-starved environment. Despite a short-lived pullback in mid-November (a function of a surge in new issue supply and a collective fiscal reality check on the heels of the presidential election), Index returns during the period were enhanced by a continuing strong bid from investors of various stripes, including mutual and pension funds, insurance company accounts and, perhaps most noteworthy, the stream of new collateralized loan obligation ("CLO") vehicles brought to market since the first of the year. Generally stable fundamental credit conditions and a relatively quiet macro backdrop also provided a constructive environment for these demand-driven

- (1) The distribution rate is calculated by annualizing dividends and distributions declared during the period using the 30/360 convention and dividing the resulting annualized dividend by the Trust's average net asset value (in the case of NAV) or the average month-end NYSE Composite closing price (in the case of market). The distribution rate is based solely on the actual dividends and distributions, which are made at the discretion of management. The distribution rate may or may not include all investment income and ordinarily will not include capital gains or losses, if any.
- (2) The **Index** is an unmanaged total return index that captures accrued interest, repayments, and market value changes. It represents a broad cross section of leveraged loans syndicated in the United States, including dollar-denominated loans to overseas issuers. Standard & Poor's ("S&P") and the Loan Syndications and Trading Association ("LSTA") conceived the Index to establish a performance benchmark for the syndicated leveraged loan industry. The Index is not subject to any fees or expenses. An investor cannot invest directly in an index.

 $^{(3)}$  The total return is based on full reinvestment of dividends.

# PORTFOLIO MANAGERS' REPORT (continued)

technical drivers to flourish. Taken together, these elements conspired to push average loan prices higher (96.31% of par at November 30, from 95.50% at August 31). While major capital markets were experiencing spikes in volatility during the period, senior loans were relatively stable due to the protection provided by their rising prices.

#### **PORTFOLIO SPECIFICS**

The Trust outperformed the Index for the fiscal quarter, attributable primarily to favorable credit selection and the continued strong emphasis on attractive relative value within the secured loan category. The use of leverage for investment purposes also had a positive impact on NAV returns during the period. Continuing a repositioning exercise commenced several quarters back, the lower yielding portion of the portfolio has now been largely replaced with newer-vintage loans that offer wider credit spreads and, in most cases, LIBOR floors (i.e., a minimum LIBOR paid by the issuer pursuant to the underlying loan agreements). Seeking to take advantage of the strong technical environment in place during most of this fiscal quarter, the Trust selectively increased its holdings of certain, older bellwether issuers within the Index trading at a discount to par, in an effort to capture potential capital gains. Additionally, the Trust has been adding incremental second lien positions where the risk/return profile is considered attractive. As a result of these positioning exercises, the weighted average coupon of the Trust's loan assets, while off slightly from the current top reached during this reporting period due to a recent wave of repricing activity, remains quite healthy at 5.70%. Fundamental credit performance continued to be positive as the Trust did not own the two Index constituents that defaulted during the fiscal quarter.

Sector weightings remained fairly constant during the period, with the only notable movement coming in healthcare and electronics. The decrease in both of these sectors was a byproduct of active relative value trading designed to increase risk-adjusted yields. The Trust's top industry exposures at the end of the reporting period were retail, business equipment/services, healthcare and electronics; all were accretive to relative returns during the period.

# TOP TEN SENIOR LOAN ISSUERS AS OF NOVEMBER 30, 2012 AS A PERCENTAGE OF:

	TOTAL ASSETS	NET ASSETS
BJs Wholesale Club	1.9%	2.8%
Univision Communications, Inc.	1.8%	2.7%

Telecommunications	4.2%	6.4%
Radio & Television	4.0%	6.0%
Automotive	3.6%	5.3%
Utilities	3.4%	5.2%

<sup>(1)</sup> LIBOR stands for London Interbank Offered Rate, an average interest rate that leading commercial banks pay to borrow from other banks. LIBOR is a primary benchmark for short-term interest rates around the world.

#### **ING Prime Rate Trust**

# PORTFOLIO MANAGERS' REPORT (continued)

The Trust continues to be well diversified with 241 individual issuers, representing 35 different industry sectors. The average issuer exposure at November 30 stood at 0.41% of AUM, while the average industry exposure closed the fiscal quarter at 2.8% of AUM. Both measures were relatively unchanged from the prior reporting period.

# Ratings Distribution as of November 30, 2012

Ва	35.16%
В	53.29%
Caa and below	8.76%
Not rated*	2.79%

Ratings distribution shows the percentage of the Trust's loan commitments (excluding cash and foreign cash) that are rated in each ratings category, based upon the categories provided by Moody's Investors Service, Inc. Ratings distribution is based on Moody's senior secured facility ratings. Moody's ratings classification methodology: Aaa rating denotes the least credit risk; C rating denotes the greatest credit risk. Loans rated below Baa by Moody's are considered to be below investment grade. Ratings can change from time to time, and current ratings may not fully reflect the actual credit condition or risks posed by a loan.

\* Not rated includes loans to non-U.S. borrowers (which are typically unrated) and loans for which the rating has been withdrawn.

# **OUTLOOK AND CURRENT STRATEGY**

As we turn the page on 2012, the investment landscape is still replete with challenges and potential market-moving issues, be they political, geopolitical or good old fashioned economic in flavor. Laying those unknowns aside for just a moment, looking exclusively at the current investment thesis for loans, we see a relatively constructive picture. Should the U.S. and/or global economy slide back into recession, we take comfort in the secured nature of the loan asset class, which historically has delivered significantly higher recovery rates upon default than virtually all other unsecured credit classes. Conversely, should we see the resumption of meaningful and sustainable economic growth, central bankers across the world, including those inhabiting the U.S. Federal Reserve, will be hard-pressed to maintain the unprecedented low/no interest rate regime that has been in place now for several years. When short-term interest rates eventually are lifted, we would expect the floating rate loan asset class to perform well, as it has historically during such periods.

# Average Annual Total Returns for the Years Ended November 30, 2012

	rears Linded November 30, 2012			
	1 Year	3 Years	5 Years	10 Years
Based on Net Asset Value				
(NAV)	13.70%	9.31%	3.76%	5.82%
Based on Market Value	30.34%	13.30%	6.13%	7.67%
S&P/LSTA Leveraged Loan				
Index	9.36%	7.79%	5.58%	5.77%
Credit-Suisse Leveraged				
Loan Index	9.19%	7.69%	4.71%	5.62%

The table above illustrates the total return of the Trust against the Indices indicated. An index has no cash in its portfolio, imposes no sales charges and incurs no operating expenses. An investor cannot invest directly in an index.

Total returns based on NAV reflect that ING Investments, LLC (the Trust's "Investment Adviser") may have waived or recouped fees and expenses otherwise payable by the Trust.

Performance data represents past performance and is no guarantee of future results. Investment return and principal value of an investment in the Trust will fluctuate. Shares, when sold, may be worth more or less than their original cost. The Trust's future performance may be lower or higher than the performance data shown. Please log on to www.inginvestment.com or call (800) 992-0180 to get performance through the most recent month end.

Calculation of total return assumes a hypothetical initial investment at the net asset value (in the case of NAV) or the New York Stock Exchange ("NYSE") Composite closing price (in the case of Market Value) on the last business day before the first day of the stated period, with all dividends and distributions reinvested at the actual reinvestment price.

Senior loans are subject to credit risks and the potential for non-payment of scheduled principal or interest payments, which may result in a reduction of the Trust's NAV.

This report contains statements that may be "forward-looking" statements. Actual results could differ materially from those projected in the "forward-looking" statements.

The views expressed in this report reflect those of the portfolio managers only through the end of the period of the report as stated on the cover. The portfolio managers' views are subject to change at any time based on market and other conditions.

# INDEX DESCRIPTIONS

The **S&P/LSTA Leveraged Loan Index** is an unmanaged total return index that captures accrued interest, repayments, and market value changes. It represents a broad cross section of leveraged loans syndicated in the United States, including dollar-denominated loans to overseas issuers. Standard & Poor's and the Loan Syndications & Trading Association ("LSTA") conceived the Index to establish a performance benchmark for the syndicated leveraged loan industry. An investor cannot invest directly in an index.

The **Credit-Suisse Leveraged Loan Index** is an unmanaged index of below investment grade loans designed to mirror the investable universe of the U.S. dollar-denominated leveraged loan market. An investor cannot invest directly in an index.

#### **ING Prime Rate Trust**

# PORTFOLIO MANAGERS' REPORT (continued)

YIELDS AND DISTRIBUTION RATES					
	Prime Rate	NAV 30-day SEC Yield <sup>(A)</sup>	Mkt. 30-Day SEC Yield <sup>(A)</sup>	Annualized Dist. Rate @ NAV <sup>(B)</sup>	Annualized Dist. Rate @ Mkt.(B)
November					
30, 2012	3.25%	7.92%	7.53%	7.47%	7.10%
August					
31, 2012	3.25%	7.55%	7.46%	7.12%	7.04%
May 31,					
2012	3.25%	7.60%	7.95%	6.86%	7.17%
February 29, 2012	3.25%	7.11%	7.48%	6.22%	6.53%

<sup>(</sup>A) Yield is calculated by dividing the Trust's net investment income per share for the most recent thirty days by the net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of Market) at quarter-end. Yield calculations do not include any commissions or sales charges, and are compounded for six months and annualized for a twelve-month period to derive the Trust's yield consistent with the U.S. Securities and Exchange Commission ("SEC") standardized yield formula.

Risk is inherent in all investing. The following are the principal risks associated with investing in the Trust. This is not, and is not intended to be, a description of all risks of investing in the Trust. A more detailed description of the risks of investing in the Trust is contained in the Trust's current prospectus.

**Credit Risk:** The Trust invests a substantial portion of its assets in below investment grade senior loans and other below investment grade assets. Below investment grade loans involve a greater risk that borrowers may not make timely payment of the interest and principal due on their loans. They also involve a greater risk that the value of such loans could decline significantly. If borrowers do not make timely payments of the interest due on their loans, the yield on the Trust's common shares will decrease. If borrowers do not make timely payment of the principal due on their loans, or if the value of such loans decreases, the value of the Trust's NAV will decrease.

**Interest Rate Risk:** Changes in short-term market interest rates will directly affect the yield on the Trust's common shares. If short-term market interest rates fall, the yield on the Trust's common shares will also fall. To the extent that the credit spreads on loans in the Trust experience a general decline, the yield on the Trust will fall and the value of the Trust's assets may decrease, which will cause the Trust's value to decrease. Conversely, when short-term market interest rates rise, because of the lag between changes in such short-term rates and the resetting of the floating rates on assets in the Trust's portfolio, the impact of rising rates will be delayed to the extent of such lag.

<sup>(</sup>B) The distribution rate is calculated by annualizing dividends and distributions declared during the period and dividing the resulting annualized dividend by the Trust's average net asset value (in the case of NAV) or the average month-end NYSE Composite closing price (in the case of market). The distribution rate is based solely on the actual dividends and distributions, which are made at the discretion of management. The distribution rate may or may not include all investment income and ordinarily will not include capital gains or losses, if any.

**Leverage Risk:** The Trust borrows money for investment purposes. Borrowing increases both investment opportunity and investment risk. In the event of a general market decline in the value of assets such as those in which the Trust invests, the effect of that decline will be magnified in the Trust because of the additional assets purchased with the proceeds of the borrowings. The Trust also faces the risk that it might have to sell assets at relatively less advantageous times if it were forced to de-leverage if a source of leverage becomes unavailable.

<sup>(</sup>a) Asset coverage ratios, for periods prior to fiscal 2009, represented the coverage available for both the borrowings and preferred shares expressed in relation to each \$1,000 of borrowings and preferred shares liquidation value outstanding. The Asset coverage ratio per \$1,000 of debt for periods subsequent to fiscal 2008, is presented to represent the coverage available to each \$1,000 of borrowings before consideration of any preferred shares

liquidation price, while the Asset coverage inclusive of Preferred Shares, presents the coverage available to both borrowings and preferred shares, expressed in relation to the per share liquidation price of the preferred shares.

<sup>(1)</sup> Includes excise tax fully reimbursed by the Investment Adviser.

<sup>(2)</sup> Annualized for periods less than one year.

See Accompanying Notes to Financial Statements 12

#### **ING Prime Rate Trust**

NOTES TO FINANCIAL STATEMENTS as of November 30, 2012 (Unaudited)

# NOTE 1 ORGANIZATION

ING Prime Rate Trust (the "Trust"), a Massachusetts business trust, is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a diversified, closed-end, management investment company. The Trust invests primarily in senior loans, which generally are not registered under the Securities Act of 1933, as amended (the "1933 Act"), and which contain certain restrictions on resale and cannot be sold publicly. These loans bear interest (unless otherwise noted) at rates that float periodically at a margin above the London Inter-Bank Offered Rate ("LIBOR") and other short-term rates.

#### NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with U.S. generally accepted accounting principles ("GAAP") for investment companies.

A. Senior Loan and Other Security Valuation. All Senior loans and other securities are recorded at their estimated fair value, as described below. Senior loans held by the Trust are normally valued at the average of the means of one or more bid and ask quotations obtained from dealers in loans by an independent pricing service or other sources determined by the Trust's Board of Trustees (the "Board") to be independent and believed to be reliable. Loans for which reliable market value quotations are not readily available may be valued with reference to another loan or a group of loans for which reliable quotations are readily available and whose characteristics are comparable to the loan being valued. Under this approach, the comparable loan or loans serve as a proxy for changes in value of the loan being valued.

The Trust has engaged independent pricing services to provide market value quotations from dealers in loans and, when such quotations are not readily available, to calculate values under the proxy procedure described above. As of November 30, 2012, 100.0% of total loans were valued based on these procedures. It is expected that most of the loans held by the Trust will continue to be valued with reference to quotations from the independent pricing service or with reference to the proxy procedure described above.

Prices from a pricing source may not be available for all loans and the Investment Adviser or ING Investment Management Co. LLC ("ING IM" or the "Sub-Adviser"), may believe that the price for a loan derived from market quotations or the proxy procedure described above is not reliable or accurate. Among other reasons, this may be the result of information about a particular loan or borrower known to the Investment Adviser or the Sub-Adviser that the Investment Adviser or the Sub-Adviser believes may not be known to the pricing service or reflected in a price quote. In this event, the loan is valued at fair value, as defined by the 1940 Act, as determined in good faith under procedures established by the Board and in accordance with the provisions of the 1940 Act. Under these procedures, fair value is determined by the Investment Adviser or Sub-Adviser and monitored by the Board through its Compliance Committee.

In fair valuing a loan, consideration is given to several factors, which may include, among others, the following: (i) the characteristics of and fundamental analytical data relating to the loan, including the cost, size, current interest rate, period until the next interest rate reset, maturity and base lending rate of the loan, the terms and conditions of the loan and any related agreements, and the position of the loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights,

remedies and interests with respect to the collateral; (iii) the creditworthiness of the borrower and the cash flow coverage of outstanding principal and interest, based on an evaluation of its financial condition, financial statements and information about the borrower's business, cash flows, capital structure and future prospects; (iv) information relating to

#### **ING Prime Rate Trust**

NOTES TO FINANCIAL STATEMENTS as of November 30, 2012 (Unaudited) (continued)

# NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

the market for the loan, including price quotations for, and trading in, the loan and interests in similar loans; (v) the reputation and financial condition of the agent for the loan and any intermediate participants in the loan; (vi) the borrower's management; and (vii) the general economic and market conditions affecting the fair value of the loan. Securities for which the primary market is a national securities exchange are valued at the last reported sale price. Securities reported by NASDAQ will be valued at the NASDAQ Official Closing Price. Securities traded in the over-the-counter market and listed securities for which no sale was reported on a valuation date are valued at the mean between the last reported bid and ask price on such exchange. Securities, other than senior loans, for which reliable market value quotations are not readily available, and all other assets, will be valued at their respective fair values as determined in good faith by, and under procedures established by, the Board. Investments in securities of sufficient credit quality maturing in 60 days or less from the date of acquisition are valued at amortized cost which approximates fair value.

Fair value is defined as the price that the Trust would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. Each investment asset or liability of the Trust is assigned a level at measurement date based on the significance and source of the inputs to its valuation. Quoted prices in active markets for identical securities are classified as "Level 1," inputs other than quoted prices for an asset or liability that are observable are classified as "Level 2" and unobservable inputs, including the sub-adviser's judgment about the assumptions that a market participant would use in pricing an asset or liability are classified as "Level 3." The inputs used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. Short-term securities of sufficient credit quality which are valued at amortized cost, which approximates fair value, are generally considered to be Level 2 securities under applicable accounting rules. A table summarizing the Trust's investments under these levels of classification is included following the Portfolio of Investments.

For the period ended November 30, 2012, there have been no significant changes to the fair valuation methodologies.

The Board has adopted methods for valuing securities and other assets in circumstances where market quotes are not readily available, and has delegated the responsibility for applying the valuation methods to the "Pricing Committee" as established by the Trust's Administrator. The Pricing Committee considers all facts they deem relevant that are reasonably available, through either public information or information available to the Investment Adviser or sub-adviser, when determining the fair value of the security. In the event that a security or asset cannot be valued pursuant to one of the valuation methods established by the Board, the fair value of the security or asset will be determined in good faith by the Pricing Committee. When the Trust uses these fair valuation methods that use significant unobservable inputs to determine its NAV, securities will be priced by a method that the Pricing Committee believes accurately reflects fair value and are categorized as Level 3 of the fair value hierarchy. The methodologies used for valuing securities are not necessarily an indication of the risks of investing in those securities valued in good faith at fair value nor can it be assured the Trust can obtain the fair value assigned to a security if they were to sell the security.

To assess the continuing appropriateness of security valuations, the Pricing Committee may compare prior day prices, prices on comparable securities, and traded prices to the prior or current day prices and the

Pricing Committee challenges those prices exceeding certain tolerance levels with the third party pricing service or broker source. For those securities valued in good faith at fair value, the Pricing Committee reviews and affirms the reasonableness of the valuation on a regular basis after considering all relevant information that is reasonably available.

#### **ING Prime Rate Trust**

NOTES TO FINANCIAL STATEMENTS as of November 30, 2012 (Unaudited) (continued)

# NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

For fair valuations using significant unobservable inputs, U.S. GAAP requires a reconciliation of the beginning to ending balances for reported fair values that presents changes attributable to total realized and unrealized gains or losses, purchases and sales, and transfers in or out of the Level 3 category during the period. The end of period timing recognition is used for the transfers between Levels of the Trust's assets and liabilities. A reconciliation of Level 3 investments is presented when the Trust has a significant amount of Level 3.

- **B.** Security Transactions and Revenue Recognition. Revolver and delayed draw loans are booked on a settlement date basis. Security transactions and senior loans are accounted for on trade date (date the order to buy or sell is executed). Realized gains or losses are reported on the basis of identified cost of securities sold. Dividend income is recognized on the ex-dividend date. Interest income is recorded on an accrual basis at the then-current interest rate of the loan. The accrual of interest on loans is partially or fully discontinued when, in the opinion of management, there is an indication that the borrower may be unable to meet payments as they become due. If determined to be uncollectable, accrued interest is also written off. Cash collections on non-accrual senior loans are generally applied as a reduction to the recorded investment of the loan. Senior loans are generally returned to accrual status only after all past due amounts have been received and the borrower has demonstrated sustained performance. For all loans, except revolving credit facilities, fees received are treated as discounts and are accreted whereas premiums are amortized. Fees associated with revolving credit facilities are deferred and recognized over the shorter of four years or the actual term of the loan.
- *C. Foreign Currency Translation.* The books and records of the Trust are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:
- (1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the day.
- (2) Purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the market values are presented at the foreign exchange rates at the end of the day, the Trust does not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses from investments. For securities, which are subject to foreign withholding tax upon disposition, liabilities are recorded on the Statement of Assets and Liabilities for the estimated tax withholding based on the securities current market value. Upon disposition, realized gains or losses on such securities are recorded net of foreign withholding tax.

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Trust's books, and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in

securities at fiscal year end, resulting from changes in the exchange rate. Foreign security and currency transactions may involve certain considerations and risks not typically associated with investing in U.S. companies and the U.S. government. These risks include, but are not limited to, revaluation of currencies and future adverse political and economic developments which could cause securities and their markets to be less liquid and prices more volatile than those of comparable U.S. companies and U.S. government securities.

#### **ING Prime Rate Trust**

NOTES TO FINANCIAL STATEMENTS as of November 30, 2012 (Unaudited) (continued)

# NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

- D. Forward Foreign Currency Contracts. The Trust has entered into forward foreign currency contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S. dollar denominated investment securities. A forward foreign currency contract is an agreement between two parties to buy and sell a currency at a set price on a future date. The market value of a foreign currency contract fluctuates with changes in foreign currency exchange rates. Forward foreign currency contracts are marked to market daily and the change in value is recorded by the Trust as an unrealized gain or loss and is reported in the Statement of Assets and Liabilities. Realized gains or losses equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed are recorded upon delivery or receipt of the currency and are included in the Statement of Operations along with the change in unrealized appreciation or depreciation. These instruments may involve market risk in excess of the amount recognized in the Statement of Assets and Liabilities. In addition, the Trust could be exposed to risk if the counterparties are unable to meet the terms of the contracts or if the value of the currency changes unfavorably to the U.S. dollar. Open forward foreign currency contracts are presented following the Portfolio of Investments. For the period ended November 30, 2012, the Trust had an average quarterly contract amount on forward foreign currency contracts to sell of \$40.227.632.
- **E. Federal Income Taxes.** It is the policy of the Trust to comply with the requirements of subchapter M of the Internal Revenue Code that are applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized capital gains to its shareholders. Therefore, a federal income tax or excise tax provision is not required. Management has considered the sustainability of the Trust's tax positions taken on federal income tax returns for all open tax years in making this determination. No capital gain distributions shall be made until the capital loss carryforwards have been fully utilized or expire.
- **F. Distributions to Common Shareholders.** The Trust declares and pays dividends monthly from net investment income. Distributions from capital gains, if any, are declared and paid annually. The Trust may make additional distributions to comply with the distribution requirements of the Internal Revenue Code. The character and amounts of income and gains to be distributed are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles for investment companies. The Trust records distributions to its shareholders on the ex-dividend date.
- **G. Dividend Reinvestments.** Pursuant to the Trust's Shareholder Investment Program (the "Program"), BNY Mellon Investment Servicing (U.S.) Inc. ("BNY"), the Program administrator, purchases, from time to time, shares of beneficial interest of the Trust on the open market to satisfy dividend reinvestments. Such shares are purchased on the open market only when the closing sale or bid price plus commission is less than the NAV per share of the Trust's common shares on the valuation date. If the market price plus commissions is equal to or exceeds NAV, new shares are issued by the Trust at the greater of (i) NAV or (ii) the market price of the shares during the pricing period, minus a discount of 5%.
- *H. Use of Estimates.* The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

*I. Share Offerings.* The Trust issues shares under various shelf registration statements, whereby the net proceeds received by the Trust from share sales may not be less than the greater of (i) the NAV per share or (ii) 94% of the average daily market price over the relevant pricing period.

#### **ING Prime Rate Trust**

NOTES TO FINANCIAL STATEMENTS as of November 30, 2012 (Unaudited) (continued)

#### NOTE 3 INVESTMENTS

For the period ended November 30, 2012, the cost of purchases and the proceeds from principal repayment and sales of investments, excluding short-term notes, totaled \$904,433,782 and \$892,406,995, respectively. At November 30, 2012, the Trust held senior loans valued at \$1,220,478,539 representing 98.8% of its total investments. The fair value of these assets is established as set forth in Note 2.

The senior loans acquired by the Trust typically take the form of a direct lending relationship with the borrower, and are typically acquired through an assignment of another lender's interest in a loan. The lead lender in a typical corporate loan syndicate administers the loan and monitors the collateral securing the loan.

Common and preferred shares, and stock purchase warrants held in the portfolio were acquired in conjunction with loans held by the Trust. Certain of these stocks and warrants are restricted and may not be publicly sold without registration under the 1933 Act, or without an exemption under the 1933 Act. In some cases, these restrictions expire after a designated period of time after issuance of the shares or warrants.

Dates of acquisition and cost or assigned basis of restricted securities are as follows:

# NOTE 4 MANAGEMENT AND ADMINISTRATION AGREEMENTS

The Trust has entered into an investment management agreement ("Investment Advisory Agreement") with the Investment Advisor, an Arizona limited liability company, to provide advisory and management services. The Investment Advisory Agreement compensates the Investment Advisor with a fee, computed daily and payable monthly, at an annual rate of 0.80% of the Trust's Managed Assets. For purposes of the Investment Advisory Agreement, "Managed Assets" shall mean the Trust's average daily gross asset value, minus the sum of the Trust's accrued and unpaid dividends on any outstanding preferred shares and accrued liabilities (other than liabilities for the principal amount of any borrowings incurred, commercial paper or notes issued by the Trust and the liquidation preference of any outstanding preferred shares).

**ING Prime Rate Trust** 

NOTES TO FINANCIAL STATEMENTS as of November 30, 2012 (Unaudited) (continued)

# NOTE 4 MANAGEMENT AND ADMINISTRATION AGREEMENTS (continued)

The Investment Adviser entered into a Sub-Advisory agreement with ING IM, a Delaware limited liability company. Subject to such policies as the Board or the Investment Adviser may determine, ING IM manages the Trust's assets in accordance with the Trust's investment objectives, policies, and limitations.

The Trust has also entered into an administration agreement with ING Funds Services, LLC (the "Administrator") to provide administrative services and also to furnish facilities. The Administrator is compensated with a fee, computed daily and payable monthly, at an annual rate of 0.25% of the Trust's Managed Assets.

# NOTE 5 TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES

The Trust has adopted a Deferred Compensation Plan (the "Plan"), which allows eligible non-affiliated trustees as described in the Plan to defer the receipt of all or a portion of the trustees fees payable. Amounts deferred are treated as though invested in various "notional" funds advised by ING Investments until distribution in accordance with the Plan.

# NOTE 6 COMMITMENTS

The Trust has entered into a \$400 million 364-day revolving credit agreement which matures July 22, 2013, collateralized by assets of the Trust. Borrowing rates under this agreement are based on a fixed spread over LIBOR, and a commitment fee is charged on the unused portion. Prepaid arrangement fees are amortized over the term of the agreement. The amount of borrowings outstanding at November 30, 2012, was \$356.4 million. Weighted average interest rate on outstanding borrowings during the period was 1.15%, excluding fees related to the unused portion of the facilities, and other fees. The amount of borrowings represented 27.14% of total assets at November 30, 2012. Average borrowings for the period ended November 30, 2012 were \$341,564,727 and the average annualized interest rate was 1.31% excluding other fees related to the unused portion of the facilities, and other fees.

As of November 30, 2012, the Trust had unfunded loan commitments pursuant to the terms of the following loan agreements:

\$400.000

# Leslie's Poolmart, Inc.

The net unrealized appreciation on these commitments of \$2,062 as of November 30, 2012 is reported as such on the Statement of Assets and Liabilities.

#### NOTE 7 RIGHTS AND OTHER OFFERINGS

As of November 30, 2012, outstanding share offerings pursuant to shelf registrations were as follows:

Registration Date	Shares Registered	Shares Remaining
8/17/09	25,000,000	24,980,237
8/17/09	5,000,000	5,000,000

As of November 30, 2012 the Trust had no Preferred Shares outstanding. The Trust may consider issuing Preferred Shares during the current fiscal year or in the future.

#### NOTE 8 SUBORDINATED LOANS AND UNSECURED LOANS

The Trust may invest in subordinated loans and in unsecured loans. The primary risk arising from investing in subordinated loans or in unsecured loans is the potential loss in the event of default by the issuer of the loans. The Trust may acquire a subordinated loan only if, at the time of acquisition,

18

#### **ING Prime Rate Trust**

NOTES TO FINANCIAL STATEMENTS as of November 30, 2012 (Unaudited) (continued)

#### NOTE 8 SUBORDINATED LOANS AND UNSECURED LOANS (continued)

it acquires or holds a senior loan from the same borrower. The Trust will acquire unsecured loans only where the Investment Adviser believes, at the time of acquisition, that the Trust would have the right to payment upon default that is not subordinate to any other creditor. Subject to the aggregate 20% limit on other investments, the Trust may invest up to 20% of its total assets in unsecured floating rate loans, notes and other debt instruments and 5% of its total assets in floating rate subordinated loans. As of November 30, 2012, the Trust held no subordinated loans or unsecured loans.

#### NOTE 9 CAPITAL SHARES

Transactions in capital shares and dollars were as follows:

	I	e Months Ended ember 30, 2012	Year Ended February 29, 2012
Number of Shares			
Reinvestment of distributions from			
common shares		153,748	152,404
Proceeds from shares sold			10,144
Net increase in shares outstanding		153,748	162,548
Dollar Amount (\$)			
Reinvestment of distributions from			
common shares	\$	907,100	\$ 916,239
Proceeds from shares sold			61,590
Net increase	\$	907,100	\$ 977,829

#### NOTE 10 FEDERAL INCOME TAXES

The amount of distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles for investment companies. These book/tax differences may be either temporary or permanent. Permanent differences are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences are not reclassified. Key differences include the treatment of short-term capital gains, foreign currency transactions, and wash sale deferrals. Distributions in excess of net investment income and/or net realized capital gains for tax purposes are reported as return of capital.

Dividends paid by the Trust from net investment income and distributions of net realized short-term capital gains are, for federal income tax purposes, taxable as ordinary income to shareholders.

The tax composition of dividends and distributions to shareholders was as follows:

Nin	e Months E	Ended November 30, 2012	Year Ende	d February 29, 2012
Ordinary Income		Ord	inary Income	
	\$	45,545,331	\$	46,539,479

The tax-basis components of distributable earnings and the capital loss carryforwards which may be used to offset future realized capital gains for federal income tax purposes as of February 29, 2012 are detailed below. The Regulated Investment Company Modernization Act of 2010 (the "Act") provides an unlimited carryforward period for newly generated capital losses. Under the Act, there may be a greater likelihood that all or a portion of the Trust's pre-enactment capital loss carryforwards may expire without being utilized due to the fact that post-enactment capital losses are required to be utilized before pre-enactment capital loss carryforwards.

			\$(236,882,265)	-	

The Trust's major tax jurisdictions are U.S. federal and Arizona. The earliest tax year that remains subject to examination by these jurisdictions is 2008.

As of November 30, 2012, no provision for income tax is required in the Trust's financial statements as a result of tax positions taken on federal and state income tax returns for open tax years. The Trust's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state department of revenue.

#### NOTE 11 RESTRUCTURING PLAN

The Adviser, Sub-Adviser and the Administrator are indirect, wholly-owned subsidiaries of ING U.S., Inc. ("ING U.S."). ING U.S. is a U.S.-based financial institution whose subsidiaries operate in the retirement, investment, and insurance industries. As of November 30, 2012, ING U.S. is a wholly-owned subsidiary of ING Groep N.V. ("ING Groep"), which is a global financial institution of Dutch origin, with operations in more than 40 countries.

In October 2009, ING Groep submitted a restructuring plan (the "Restructuring Plan") to the European Commission to receive approval for state aid granted to ING Groep by the Dutch State in November 2008 and March 2009. To receive approval for this state aid, ING Groep was required to divest its insurance and investment management businesses, including ING U.S. by the end of 2013. In November 2012, ING Groep announced the European Commission agreed to an amendment to the Restructuring Plan which will extend the time for the completion of the divestiture. Under the terms of the amendment, at least 25% of ING U.S. has to be divested by the end of 2013, more than 50% has to be divested by the end of 2014, with the remaining interest divested by the end of 2016. It is anticipated that an initial public offering of a portion of the ING U.S. common stock will be conducted in 2013 as part of the Restructuring Plan. ING Groep has stated that it intends to sell the remainder of its ownership interest in ING U.S. through one or more additional public offerings of ING U.S. stock or, possibly, through one or more privately negotiated sales of the stock. There can be no assurance that ING Groep will be able to divest its interest in ING U.S. through the sale of its stock.

The investment advisory agreement for the Trust provides that it will terminate automatically in the event of its assignment, which would occur upon a transfer of a controlling block of the shares of the Adviser. The Restructuring Plan may result in a need to obtain further Board and shareholder approval of new advisory

agreements.

The Restructuring Plan, whether implemented through public offerings or other means, may be disruptive to the businesses of ING U.S. and its subsidiaries, including the Adviser and affiliated entities that provide services to the Trust, and may cause, among other things, interruption of business operations or services, diversion of management's attention from day-to-day operations, reduced access to capital, and loss of key employees or customers. Completion of the Restructuring Plan is expected to result in the Adviser's loss of access to the resources of ING Groep, which could

#### **ING Prime Rate Trust**

NOTES TO FINANCIAL STATEMENTS as of November 30, 2012 (Unaudited) (continued)

#### NOTE 11 RESTRUCTURING PLAN (continued)

adversely affect its business. Currently, the Adviser does not anticipate that the Restructuring Plan will have an adverse impact on its operations or the operations of the Trust.

During the time that ING Groep retains a controlling interest in ING U.S., circumstances affecting ING Groep, including restrictions or requirements imposed on ING Groep and its subsidiaries, including ING U.S. and the Adviser, by U.S., European and other authorities, may negatively affect ING U.S. and the Adviser. For example, restrictions on activities of entities controlled by ING Groep, including ING U.S. and the Adviser, could be imposed under U.S., European or other laws or regulations, as a result of activities engaged in by ING Groep and its subsidiaries over which ING U.S. and the Adviser have no control.

#### NOTE 12 SUBSEQUENT EVENTS

Subsequent to November 30, 2012, the Trust paid the following dividends from net investment income:

Per Share Amount	Declaration Date	Record Date	Payable Date	
\$ 0.037	11/30/12	12/10/12	12/24/12	
\$ 0.038	12/21/12	12/31/12	1/11/13	

Effective January 1, 2013, an expense limitation of 1.20% was implemented for the Trust. ING Groep, the ultimate parent company of the adviser and ING affiliated sub-adviser, has announced plans for the separation of its U.S.-based insurance, retirement services and investment management operations, which include the adviser and ING affiliated sub-adviser, into an independent, standalone company. These separation plans may be deemed to be a change of control, in which case the investment advisory and sub-advisory agreements for the Trust would terminate and trigger the need for new agreements, which would require the approval of the Board and, with respect to all investment advisory and sub-advisory agreements, the shareholders of the Trust. At a meeting held on January 10, 2013, the Board approved new advisory and sub-advisory agreements for the Trust that would take effect in connection with the separation plans. Information regarding the basis for the Board's approval of the investment advisory and investment sub-advisory relationships will be disclosed in the Trust's annual shareholder report to be dated February 28, 2013.

The Trust has evaluated events occurring after the Statement of Assets and Liabilities date (subsequent events) to determine whether any subsequent events necessitated adjustment to or disclosure in the financial statements. Other than the above, no such subsequent events were identified.

## ADDITIONAL INFORMATION (Unaudited)

### SHAREHOLDER INVESTMENT PROGRAM

The Trust offers a Shareholder Investment Program (the "Program") which allows holders of the Trust's common shares a simple way to reinvest dividends and capital gains distributions, if any, in additional common shares of the Trust. The Program also offers holders of the Trust's common shares the ability to make optional cash investments in any amount from \$100 to \$100,000 on a monthly basis.

For dividend and capital gains distribution reinvestment purposes, BNY will purchase shares of the Trust on the open market when the market price plus estimated fees is less than the NAV on the valuation date. The Trust will issue new shares for dividend and capital gains distribution reinvestment purchases when the market price plus estimated fees is equal to or exceeds the net asset value on the valuation date. New shares may be issued at the greater of: (i) NAV; or (ii) the market price of the shares during the pricing period, minus a discount of 5%.

For optional cash investments, shares will be purchased on the open market by BNY when the market price plus estimated fees is less than the NAV on the valuation date. New shares will be issued by the Trust for optional cash investments when the market price plus estimated fees is equal to or exceeds the net asset value on the valuation date. Such shares will be issued at a discount to market, determined by the Trust, between 0% and 5%.

There is no charge to participate in the Program. Participants may elect to discontinue participation in the Program at any time. Participants will share, on a *pro rata* basis, in the fees or expenses of any shares acquired in the open market.

Participation in the Program is not automatic. If you would like to receive more information about the Program or if you desire to participate, please contact your broker or the Trust's Shareholder Services Department at (800) 992-0180.

### **KEY FINANCIAL DATES CALENDAR 2012 DIVIDENDS:**

Record date will be two business days after each Ex-Dividend Date. These dates are subject to change.

#### **ING Prime Rate Trust**

## ADDITIONAL INFORMATION (Unaudited) (continued)

#### STOCK DATA

The Trust's common shares are traded on the New York Stock Exchange (Symbol: PPR). Effective March 1, 2002, the Trust's name changed to ING Prime Rate Trust and its CUSIP number changed to 44977W106. The Trust's NAV and market price are published daily under the "Closed-End Funds" feature in Barron's, The New York Times, The Wall Street Journal and many other regional and national publications.

### REPURCHASE OF SECURITIES BY CLOSED-END COMPANIES

In accordance with Section 23(c) of the 1940 Act, and Rule 23c-1 under the 1940 Act the Trust may from time to time purchase shares of beneficial interest of the Trust in the open market, in privately negotiated transactions and/or purchase shares to correct erroneous transactions.

#### **NUMBER OF SHAREHOLDERS**

The approximate number of record holders of Common Stock as of November 30, 2012 was 3,458 which does not include approximately 45,800 beneficial owners of shares held in the name of brokers of other nominees.

#### PROXY VOTING INFORMATION

A description of the policies and procedures that the Trust uses to determine how to vote proxies related to portfolio securities is available: (1) without charge, upon request, by calling Shareholder Services toll-free at 1-800-336-3436; (2) on the Trust's website at www.inginvestment.com and (3) on the SEC's website at www.sec.gov. Information regarding how the Trust voted proxies related to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Trust's website at www.inginvestment.com and on the SEC's website at www.sec.gov.

#### **QUARTERLY PORTFOLIO HOLDINGS**

The Trust files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Trust's Forms N-Q are available on the SEC's website at www.sec.gov. The Trust's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC, and information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330; and is available upon request from the Trust by calling Shareholder Services toll-free at (800) 336-3436.

### **CERTIFICATIONS**

In accordance with Section 303A.12 (a) of the New York Stock Exchange Listed Company Manual, the Trust submitted the Annual CEO Certification on August 2, 2012 certifying that he was not aware, as of that date, of any violation by the Trust of the NYSE's Corporate governance listing standards. In addition, as required by Section 203 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Trust's principal executive and financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Trust's disclosure controls and procedures and

internal controls over financial reporting.
