References in this document to we, us and our mean Dover Motorsports, Inc. and/or its wholly owned subsidiaries, as appropriate.

Item 1. **Business**

Dover Motorsports, Inc. is a public holding company that is a leading marketer and promoter of motorsports entertainment in the United States. Through our subsidiaries, we own and operate Dover International Speedway® in Dover, Delaware and Nashville Superspeedway® near Nashville, Tennessee. Our Dover facility promoted the following six events during 2013, all of which were under the auspices of the premier sanctioning body in motorsports - the National Association for Stock Car Auto Racing (NASCAR):

- 2 NASCAR Sprint Cup Series events;
- 2 NASCAR Nationwide Series events;
- 1 NASCAR Camping World Truck Series event; and
- 1 NASCAR K&N Pro Series East event.

In 2014, we are scheduled to promote six events, all of which will be sanctioned by NASCAR and held at Dover International Speedway.

On July 20-22, 2012, the inaugural Firefly Music Festival (Firefly) was held on our property in Dover, DE for which we received a fee for the use of our property and recorded revenues and related costs for the concession sales we managed. The three day event was promoted by Red Frog Events LLC and featured more than 40 musical acts. The Firefly event returned on June 21-23, 2013 and featured more than 70 musical acts. For the 2013 event, we received a fee for the use of our property and a percentage of the concession sales we managed. The Firefly event is scheduled to return on June 20-22, 2014 with over 100 musical acts.

We generate revenues primarily from the following sources:

- ticket sales;
- rights fees obtained for television and radio broadcasts of our events;
- sponsorship payments;
- luxury suite rentals;

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

- hospitality tent rentals and catering;
- concessions and souvenir sales and vendor commissions for the right to sell concessions and souvenirs at our facilities;
- expo space rentals; and
- track rentals and other event-related revenues.

We began our motorsports operations in 1969 in Dover, Delaware. Our predecessor, Dover Downs, Inc., was also engaged in harness horse racing operations and later ran our other gaming operations. As a result of several restructurings, our operations were segregated into two main operating subsidiaries - Dover International Speedway, Inc., incorporated in 1994, encompassed our motorsports operations, and Dover Downs, Inc., incorporated in 1967, conducted our gaming operations.

Effective March 31, 2002, we spun-off our gaming business which was then owned by our subsidiary, Dover Downs Gaming & Entertainment, Inc. (Gaming). On a tax-free basis, we made a pro rata distribution of all of the capital stock of Gaming to our stockholders. Our continuing operations subsequent to the spin-off consist solely of our motorsports activities and property rentals.

Nashville Superspeedway no longer promotes NASCAR events and did not seek sanction agreements from NASCAR for 2012, 2013 or 2014. We currently use the track for motorsports race team testing and continue to evaluate all of our options for the facility. We incurred a non-cash pre-tax impairment charge of \$4,329,000 in the fourth quarter of 2013 as a result of economic conditions and their impact on real estate values (see NOTE 3

Impairment Charges of the consolidated financial statements included elsewhere in this document for further discussion). Additionally, we incurred non-cash pre-tax impairment charges of \$15,687,000 and severance costs of approximately \$150,000 in the third quarter of 2011 as a result of our decision to no longer promote NASCAR events at this facility (see NOTE 3 Impairment Charges of the consolidated financial statements included elsewhere in this document for further discussion). In 2011 we recorded a \$2,250,000 pre-tax provision for contingent obligation reflecting the present value of the estimated portion of the Wilson County bonds debt service that may not be covered by the projected sales and incremental property taxes from the facility (see NOTE 13 Commitments and Contingencies of the consolidated financial statements included elsewhere in this document for further discussion). Due to changing interest rates, the provision for contingent obligation decreased by \$91,000 and \$316,000, net, in 2013 and 2012, respectively, and is \$1,843,000 at December 31, 2013.

We closed our Gateway facility in the fourth quarter of 2010 and terminated all of our leases for the real property underlying the racetrack in 2011. In September 2012, we sold all but one parcel of land we owned at the Gateway facility for \$585,000 and recognized a loss on sale of \$52,000. We continue to own approximately 14 acres of undeveloped land near the Gateway facility (see NOTE 4 Discontinued Operation of the consolidated financial statements included elsewhere in this document for further discussion).

We closed our Memphis Motorsports Park facility in October 2009 and executed an agreement to sell it in December 2010. The real estate sale closed on January 31, 2011. After closing costs and including the proceeds from the separate sale of all personal property at the facility in December 2010, our net proceeds were approximately \$2,000,000.

Dover International Speedway

We have promoted NASCAR-sanctioned racing events for 45 consecutive years at Dover International Speedway and currently promote six NASCAR-sanctioned events at the facility annually. Two races are in the NASCAR Sprint Cup Series professional stock car racing circuit, two races are in the NASCAR Nationwide Series racing circuit, one race is in the NASCAR Camping World Truck Series racing circuit and one race is in the NASCAR K&N Pro Series East racing circuit. Both NASCAR Sprint Cup Series events at Dover are scheduled to be broadcast on network television in 2014.

Each of the NASCAR Nationwide Series events, the Camping World Truck Series event and the K&N Pro Series East event at Dover International Speedway are conducted on the days before a NASCAR Sprint Cup Series event. Dover International Speedway is one of only seven speedways in North America that presents two NASCAR Sprint Cup Series events and two NASCAR Nationwide Series events each year. Additionally, it is one of only eight tracks to host three major NASCAR events at one facility on the same weekend. The spring and fall event dates have historically allowed Dover International Speedway to hold the first and last NASCAR Sprint Cup Series events in the Maryland to Maine region each year. Our fall event is the third of ten races in the Chase for the NASCAR Sprint Cup which determines the NASCAR Sprint Cup Series champion for the racing season. Beginning in 2014, NASCAR has changed the format for the Chase for the NASCAR Sprint Cup races, and our fall event will now be an elimination race in the Chase.

Dover International Speedway, widely known as the Monster Mile®, is a high-banked, one-mile, concrete superspeedway with permanent seating capacity of approximately 113,000. Unlike some superspeedways, substantially all grandstand and skybox seats offer an unobstructed view of the entire track. The concrete racing surface makes Dover International Speedway the only concrete superspeedway (one mile or greater in length) that conducts NASCAR Sprint Cup Series events. The superspeedway facility also features the Monster Bridge®. The climate controlled bridge spans across the width of the superspeedway at a height of 29 feet and houses 50-luxury seats, a refreshment bar and other amenities. The Monster Bridge is the only one of its kind in the motorsports industry and has been patented.

Nashville Superspeedway

In April 2001, we opened Nashville Superspeedway (Nashville) a motorsports complex approximately 35 miles from downtown Nashville in Wilson County, Tennessee. The 1.33-mile concrete superspeedway has 25,000 permanent grandstand seats. Nashville Superspeedway promoted two NASCAR Nationwide Series events and two NASCAR Camping World Truck Series events during the 2011 season. The facility also hosted other regional and national touring events, as well as track rentals.

Nashville Superspeedway no longer promotes NASCAR events and did not seek sanction agreements from NASCAR for 2012, 2013 or 2014. We currently use the track for motorsports race team testing and continue to evaluate all of our options for the facility.

Agreements with NASCAR

Sanction agreements are entered into with NASCAR on an annual basis. Pursuant to the typical sanction agreement, NASCAR grants its sanction to a promoter, such as Dover International Speedway, to organize, promote and hold a particular competition. The promoter sells tickets to the competition, sells or arranges for the sale of merchandise and concessions, and sells advertising, sponsorships and hospitality services. NASCAR conducts the competition, arranges for the drivers, and has sole control over the competition, including the right to require alterations to the promoter's facility and the right to approve or disapprove any advertising or sponsorship of the promoter. NASCAR also has exclusive rights to exploit live broadcast and certain broadcast and intellectual property rights related to the competition, and exclusive rights to sponsorship and promotional rights relative to the series to which a particular competition belongs. The promoter must pay the sanction fee and purse monies and receives a share of the live broadcast revenue contracted for by NASCAR. The promoter is responsible for the condition of the facility, for compliance with laws, for control of the public, for fire and medical equipment and personnel, for security, for insurance and for providing facilities and services required by NASCAR officials and the live broadcast personnel.

Dover International Speedway, Inc. has entered into two sanction agreements with NASCAR pursuant to which it will organize and promote two NASCAR Sprint Cup Series events in 2014. Our business is substantially dependent on these two agreements.

Under the terms of our sanction agreements, NASCAR retains 10% of the gross broadcast rights fees allocated to each NASCAR-sanctioned event as a component of its sanction fee. The remaining 90% is recorded as revenue. The event promoter is required to pay 25% of the gross broadcast rights fees to the event as part of the awards to the competitors, which we record as operating expenses.

Impairment Charge Recorded in 2013

Based upon the economic conditions that existed in the fourth quarter of 2013 and their impact on real estate values, we concluded that it was necessary for us to review the carrying value of the long-lived assets at Nashville for impairment. The Nashville assets recorded on our consolidated balance sheets consist exclusively of land. The recoverability of assets to be held and used was measured by a comparison of the carrying amount of the assets to the estimated undiscounted future cash flows expected to result from the use and eventual disposition of the assets. As a result of the recoverability test, we concluded that the carrying amount of our Nashville facility exceeded the undiscounted cash flows.

Since the carrying amount of the assets exceeded the fair value, an impairment charge was recognized by the amount by which the carrying amount of the assets exceeded the fair value. Fair value of the assets for the Nashville facility was determined based on the value of owned real estate at the facility. The long-lived assets deemed to be impaired consisted of land.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Based on the results of this analysis, we recorded a non-cash pre-tax impairment charge in the fourth quarter of 2013 to write-down the carrying value of long-lived assets at our Nashville facility to fair value, as follows:

	Carrying Value of Long-Lived Assets		Fair Value of Long-Lived Assets		Non-Cash Impairment Charges
Nashville facility	\$ 30,329,000	\$	26,000,000	\$	4,329,000

Impairment Charge Recorded in 2011

Based upon the economic conditions that existed in the third quarter of 2011 and their impact on our current and projected operations and cash flows at that time, and the potential impact on real estate valuations, combined with our decision to notify NASCAR that we would not seek 2012 sanction agreements, we concluded that it was necessary for us to review the carrying value of the long-lived assets at Nashville for impairment. The recoverability of assets to be held and used was measured by a comparison of the carrying amount of the asset to the estimated undiscounted future cash flows expected to result from the use and eventual disposition of the asset. As a result of the recoverability test, we concluded that the carrying amount of our Nashville facility exceeded the undiscounted cash flows.

Since the carrying amount of the assets exceeded the fair value, an impairment charge was recognized by the amount by which the carrying amount of the assets exceeded the fair value. Fair value of the assets for the Nashville facility was determined based on the value of owned real estate at the facility. The long-lived assets deemed to be impaired consisted of track facilities.

Based on the results of this analysis, we recorded a non-cash pre-tax impairment charge in the third quarter of 2011 to write-down the carrying value of long-lived assets at our Nashville facility to fair value, as follows:

	Carrying Value of Long-Lived Assets		Fair Value of Long-Lived Assets		Non-Cash Impairment Charges
Nashville facility	\$ 46,016,000	\$	30,329,000	\$	15,687,000

Competition

Our racing events compete with other racing events sanctioned by various racing bodies and with other sports and recreational events scheduled on the same dates. Racing events sanctioned by different organizations are often held on the same dates at different tracks. The quality of the competition, type of racing event, caliber of the event, sight lines, ticket pricing, location and customer conveniences, among other things, differentiate the motorsports facilities. We also compete with improving and expanding media coverage and content by network and cable broadcasters.

Seasonality

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

We derive substantially all of our total revenues from admissions, television broadcast rights and other event-related revenue attributable to two major motorsports event weekends held in the spring and fall. As a result, our business is highly seasonal.

Employees

As of December 31, 2013, we had approximately 50 full-time employees and 7 part-time employees. We engage temporary personnel to assist during our motorsports racing season, many of whom are volunteers. We believe that we enjoy a good relationship with our employees.

Available Information

We file annual, quarterly and current reports, information statements and other information with the United States Securities and Exchange Commission (the "SEC"). The public may read and copy any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC

also maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The address of that site is www.sec.gov.

Internet Address

We maintain a website where additional information concerning our business and various upcoming events can be found. The address of our Internet website is www.dovermotorsports.com. We provide a link on our website, under Investor Relations, to our filings with the SEC, including our annual report on Form 10-K, proxy statement, Section 16 reports, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports.

Item 1A. Risk Factors

In addition to historical information, this report includes forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, relating to our financial condition, profitability, liquidity, resources, business outlook, possible acquisitions, market forces, corporate strategies, consumer preferences, contractual commitments, legal matters, capital requirements and other matters. Documents incorporated by reference into this report may also contain forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. To comply with the terms of the safe harbor, we note that a variety of factors could cause our actual results and experience to differ substantially from the anticipated results or other expectations expressed in our forward-looking statements. When words and expressions such as: believes, expects, anticipates, estimates, plans, intends, objectives, aims, projects, forecasts, possible, seeks, may, could, should, might, likely or similar words or expressions are used, as well as our view, there can be no assurance or there is no way to anticipate with certainty, forward-looking statements may be involved.

In the section that follows below, in cautionary statements made elsewhere in this report, and in other filings we have made with the SEC, we list important factors that could cause our actual results to differ from our expectations. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors described below and other factors set forth in or incorporated by reference in this report.

These factors and cautionary statements apply to all future forward-looking statements we make. Many of these factors are beyond our ability to control or predict. Do not put undue reliance on forward-looking statements or project any future results based on such statements or on present or prior earnings levels.

Additional information concerning these, or other factors, which could cause the actual results to differ materially from those in our forward-looking statements is contained from time to time in our other SEC filings. Copies of those filings are available from us and/or the SEC.

Our Relationships With And The Success Of NASCAR Is Vital To Our Success In Motorsports

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Our continued success in motorsports is dependent upon the success of NASCAR and our ability to secure favorable contracts with and maintain a good working relationship with them. NASCAR regularly issues and awards sanctioned events and their issuance depends, in large part, on maintaining good working relationships with NASCAR. Our NASCAR events are sanctioned on an annual basis with no contractual obligation to renew. By awarding a sanctioned event or a series of sanctioned events, NASCAR does not warrant, nor are they responsible for, the financial success of any sanctioned event. Our success is directly tied to our ability to negotiate favorable terms to our sanction agreements, including the amount of the sanction fee and purse, and our ability to continue to derive economic benefits from such agreements, such as our share of live broadcast revenues.

Our ability to obtain additional sanctioned events in the future and to negotiate favorable terms to our sanction agreements and the success of NASCAR in attracting drivers and teams, signing series sponsors and negotiating favorable television and/or radio broadcast rights is dependent on many factors which are largely outside of our control. As our success depends on the terms of our sanction agreements and the success of each event or series that

we are promoting, a material change in the terms of a sanction agreement or a material adverse effect on NASCAR, such as the loss or defection of top drivers, the loss of significant series sponsors, or the failure to obtain favorable broadcast coverage or to properly advertise the event or series could result in a reduction in our revenues from live broadcast coverage, admissions, luxury suite rentals, sponsorships, hospitality, concessions and merchandise, which could have a material adverse effect on our business, financial condition and results of operations.

Changes To Media Rights Revenues Could Adversely Affect Us

Broadcast revenues that are paid to us by NASCAR represent the largest component of our revenues and earnings and any adverse changes to such revenues could adversely impact our results. NASCAR's current broadcast agreements, which expire in 2014, have yielded us significant cash flow. NASCAR announced it has reached a ten-year extension of its broadcast rights with FOX Sports Media Group (FOX). This agreement extends through the 2024 NASCAR season and allows FOX to retain the television rights to various NASCAR Sprint Cup Series races, various NASCAR Nationwide Series events and the entire NASCAR Camping World Truck Series season. On July 23, 2013, NASCAR announced it has reached a ten-year agreement with NBC Sports Group granting exclusive rights through 2024 to various NASCAR Sprint Cup Series races, various NASCAR Nationwide Series events, select NASCAR Regional & Touring Series events and other live content beginning in 2015. Material changes in the broadcast industry or the financial value of broadcast agreements, material changes in the ratings for NASCAR events or in the NASCAR race schedule, or material changes in the perception of fans or sponsors due to such factors could have a material adverse effect on our revenues and financial results.

We Rely On Sponsorship Contracts To Generate Revenues

We receive a portion of our annual revenues from sponsorship agreements, including the sponsorship of our various events and venue, such as title, official product and promotional partner sponsorships, billboards, signage and skyboxes. We are continuously in negotiations with existing sponsors and actively seeking new sponsors as there is significant competition for sponsorships. Some of our events may not secure a title sponsor every year, may not secure a sufficient number of sponsorships on favorable terms, or may not secure sponsorships sufficiently enough in advance of an event for maximum impact. Loss of our existing title sponsors or other major sponsorship agreements or failure to secure sponsorship agreements in the future on favorable terms could have a material adverse effect on our business, financial condition and results of operations.

Our Motorsports Events Face Intense Competition For Attendance, Television Viewership And Sponsorship

We compete with other auto speedways for the patronage of motor racing spectators as well as for sponsorships. Moreover, racing events sanctioned by different organizations are often held on the same dates at different tracks. The quality of the competition, type of racing event, caliber of the event, sight lines, ticket pricing, location and customer conveniences and amenities, among other things, distinguish the motorsports facilities. In addition, all of our events compete with other sports and recreational events scheduled on the same dates. As a result, our revenues and operations are affected not only by our ability to compete in the motorsports promotion market, but also by the availability of alternative spectator sports events, forms of entertainment, changing consumer preferences and opportunities for corporations to acquire sponsorships.

General Market And Economic Conditions, Including Consumer And Corporate Spending, Could Negatively Affect Our Financial Results

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Our financial results depend significantly upon a number of factors relating to discretionary consumer and corporate spending, including economic conditions affecting disposable consumer income and corporate budgets. The combination of high unemployment, high fuel prices, escalating health care costs, tight credit markets, difficult residential real estate and mortgage markets, stock market volatility, changes in (together with political uncertainty concerning) governmental policies relative to spending, taxation and regulation, among other factors, have led to low levels of consumer confidence. These economic factors have dampened, and may continue to dampen, consumer and corporate spending, including adversely impacting disposable income and recreational and entertainment spending, resulting in a negative impact on our motorsports and non-motorsports activities. We are unable to quantify the effect of these economic factors, but we believe that reduced consumer and corporate

spending has, and we believe will continue to, negatively impact admissions, sponsorship, advertising and hospitality spending, concession and souvenir sales demand, luxury suite, and other event related revenue, with related effects on our revenues, profitability and cash flows. High fuel prices could also significantly impact our future results.

These factors can impact both attendance at our events and advertising and marketing dollars available from the motorsports industry's principal sponsors and potential sponsors. Economic and other lifestyle conditions such as illiquid consumer and business credit markets adversely affect consumer and corporate spending thereby impacting our growth, revenue and profitability.

We cannot determine when or whether economic conditions will improve. Other factors that can affect consumer and corporate spending include hurricanes, flooding, earthquakes and other natural disasters, elevated terrorism alerts, terrorist attacks, military actions, air travel concerns, and geopolitical events, as well as various industry and other business conditions. Such factors or incidents, even if not directly impacting us, can disrupt or otherwise adversely impact the financial results, spending sentiment and interest of our present or potential customers. There can be no assurance that consumer and corporate spending will not be further adversely impacted by current or unforeseen economic or geopolitical conditions, thereby possibly having a material adverse impact on our future operating results and growth.

The Sales Tax And Property Tax Revenues To Service The Revenue Bonds For Infrastructure Improvements At Nashville May Be Inadequate

In September 1999, the Sports Authority of the County of Wilson (Tennessee) issued \$25,900,000 in revenue bonds to build local infrastructure improvements which benefit Nashville Superspeedway, of which \$18,800,000 was outstanding on December 31, 2013. Debt service on the bonds is payable solely from sales taxes and incremental property taxes generated from the facility. As of December 31, 2013 and 2012, \$1,908,000 and \$1,758,000, respectively, was available in the sales and incremental property tax fund maintained by the Sports Authority to pay the remaining principal and interest due under the bonds. During 2013, we paid \$969,000 into the sales and incremental property tax fund and \$819,000 was deducted from the fund for principal and interest payments. These bonds are direct obligations of the Sports Authority and therefore have historically not been required to be recorded on our consolidated balance sheet. In the event the sales taxes and incremental property taxes (applicable taxes) are insufficient to cover the payment of principal and interest on the bonds, we would become responsible for the difference. We are exposed to fluctuations in interest rates for these bonds. In the event we were unable to make the payments, they would be made under a \$19,115,000 irrevocable direct-pay letter of credit issued by our bank group. We would be responsible to reimburse the banks for any drawings made under the letter of credit. Such an event could have a material adverse effect on our business, financial condition and results of operations and compliance with debt covenants.

Nashville Superspeedway no longer promotes NASCAR events and did not seek sanction agreements from NASCAR for 2012, 2013 or 2014. Since the facility no longer generates sales taxes from NASCAR sanctioned events, we estimated that a portion of the debt service may not be covered by applicable taxes. As a result, we recorded a \$2,250,000 provision for contingent obligation in 2011 reflecting the present value of the estimated portion of the Wilson County bonds debt service that may not be covered by applicable taxes from the facility. Due to changing interest rates, the provision for contingent obligation decreased by \$91,000 and \$316,000, net, in 2013 and 2012, respectively, and is \$1,843,000 at December 31, 2013. An increase in interest rates would result in an increase in the portion of debt service not covered by applicable taxes and therefore an increase in our liability.

The Seasonality Of Our Motorsports Events Increases The Variability Of Quarterly Earnings

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Our business has been, and is expected to remain, seasonal given that it depends on our outdoor event weekends. We derive substantially all of our total revenues from admissions, event-related and broadcasting revenue attributable to our NASCAR-sanctioned events at Dover, Delaware which were held in June and September. As a result, quarterly earnings will vary.

Substantially All Of Our Motorsports Revenue is Attributable to One Location

Substantially all of our motorsports revenue comes from Dover International Speedway in Dover, Delaware. Any prolonged disruption of operations at this facility due to damage or destruction, inclement weather, natural disaster, work stoppages or other reasons could adversely affect our financial condition and results of operations. We maintain property and business interruption insurance to protect against certain types of disruption, but there can be no assurance that the proceeds of such insurance would be adequate to repair or rebuild our facilities or to otherwise compensate us for lost profits.

Our Insurance May Not Be Adequate To Cover Catastrophic Incidents

We maintain insurance policies that provide coverage within limits that are sufficient, in the opinion of management, to protect us from material financial loss incurred in the ordinary course of business. We also purchase special event insurance for motorsports events to protect against race-related liability. However, there can be no assurance that this insurance will be adequate at all times and in all circumstances. If we are held liable for damages beyond the scope of our insurance coverage, including punitive damages, our business, financial condition and results of operations could be materially and adversely affected.

In addition, sanctioning bodies could impose more stringent rules and regulations for safety, security and operational activities. Such regulations have included, for example, the installation of new retaining walls at our facilities, which have increased our capital expenditures, and increased security procedures which have increased our operational expenses.

Bad Weather Can Have An Adverse Financial Impact On Our Motorsports Events

We sponsor and promote outdoor motorsports events. Weather conditions, or even the forecast of poor weather, can affect sales of tickets, concessions and merchandise at these events. Although we sell many tickets well in advance of the outdoor events and these tickets are issued on a non-refundable basis, poor weather may adversely affect additional ticket sales and concessions and merchandise sales, which could have an adverse effect on our business, financial condition and results of operations.

We do not currently maintain weather-related insurance for major events. Due to the importance of clear visibility and safe driving conditions to motorsports racing events, outdoor racing events may be significantly affected by weather patterns and seasonal weather changes. Any unanticipated weather changes could impact our ability to stage events. This could have a material adverse effect on our business, financial condition and results of operations.

Postponement And/Or Cancellation Of Major Motorsports Events Could Adversely Affect Us

If one of our events is postponed because of weather or other reasons such as, for example, the general postponement of all major sporting events in this country following the September 11, 2001 terrorism attacks, we could incur increased expenses associated with conducting the rescheduled event, as well as possible decreased revenues from tickets, concessions and merchandise at the rescheduled event. If an event is

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

cancelled, we could incur the expenses associated with preparing to conduct the event as well as lose the revenues, including live broadcast revenues associated with the event.

If a cancelled event is part of a NASCAR series, we could experience a reduction in the amount of money received from television revenues for all of our NASCAR-sanctioned events in the series that experienced the cancellation. This would occur if, as a result of the cancellation, and without regard to whether the cancelled event was scheduled for one of our facilities, NASCAR experienced a reduction in broadcast revenues greater than the amount scheduled to be paid to the promoter of the cancelled event.

Due To Our Concentrated Stock Ownership, Stockholders May Have No Effective Voice In Our Management

We have elected to be treated as a controlled corporation as defined by New York Stock Exchange (NYSE) Rule 303A. We are a controlled corporation because a single person, Henry B. Tippie, the Chairman of our Board of Directors, controls in excess of fifty percent of our voting power. This means that he has the ability to determine the outcome of the election of directors at our annual meetings and to determine the outcome of many significant corporate transactions, many of which only require the approval of a majority of our voting power. Such a concentration of voting power could also have the effect of delaying or preventing a third party from acquiring us at a premium. In addition, as a controlled corporation, we are not required to comply with certain NYSE rules.

Our Success Depends On The Availability And Performance Of Key Personnel

Our continued success depends upon the availability and performance of our senior management team which possesses unique and extensive industry knowledge and experience. Our inability to retain and attract key employees in the future could have a negative effect on our operations and business plans.

We Are Subject To Changing Governmental Regulations And Legal Standards That Could Increase Our Expenses

Our motorsports facilities are on large expanses of property which we own. Laws and regulations governing the use and development of real estate may delay or complicate any improvements we choose to make and/or increase the costs of any improvements or our costs of operating.

If it is determined that damage to persons or property or contamination of the environment has been caused or exacerbated by the operation or conduct of our business or by pollutants, substances, contaminants or wastes used, generated or disposed of by us, or if pollutants, substances, contaminants or wastes are found on property currently or previously owned or operated by us, we may be held liable for such damage and may be required to pay the cost of investigation and/or remediation of such contamination or any related damage.

State and local laws relating to the protection of the environment also can include noise abatement laws that may be applicable to our racing events. In addition certain laws and regulations, including the Americans with Disabilities Act and the Occupational Safety and Health Act are constantly evolving. Changes in the provisions or application of federal, state or local environmental, land use or other laws, regulations or requirements to our facilities or operations, or the discovery of previously unknown conditions, could require us to make additional material expenditures to remediate or attain compliance.

Regulations governing the use and development of real estate may prevent us from acquiring or developing facilities, substantially delay or complicate the process of improving facilities, and/or increase the costs of any of such activities.

We undertake no obligation to publicly update or revise any forward-looking statements as a result of future developments, events or conditions. New risk factors emerge from time to time and it is not possible for us to predict all such risk factors, nor can we assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ

significantly from those forecast in any forward-looking statements. Given these risks and uncertainties, stockholders should not overly rely or attach undue weight to our forward-looking statements as an indication of our actual future results.

Item 1B. **Unresolved Staff Comments**

We have not received any written comments that were issued within 180 days before December 31, 2013, the end of the fiscal year covered by this report, from the SEC staff regarding our periodic or current reports under the Securities Exchange Act of 1934 that remain unresolved.

Item 2.

Properties

Dover International Speedway

Dover International Speedway is located in Dover, Delaware, on approximately 770 acres of land we own. Prior to the spin-off of Gaming from our company in 2002, both companies shared certain real property in Dover, Delaware. At the time of the spin-off, some of this real property was transferred to Gaming to ensure that the real property holdings of each company were aligned with its past uses and future business needs. During its harness racing season, Gaming has historically used the 5/8-mile harness racing track that is located on our property and is on the inside of our one-mile motorsports superspeedway. In order to continue this historic use, we granted a perpetual easement to the harness track to Gaming at the time of the spin-off. This perpetual easement allows Gaming to have exclusive use of the harness track during the period beginning November 1 of each year and ending April 30 of the following year, together with set up and tear down rights for the two weeks before and after such period. The easement requires that Gaming maintain the harness track but does not require the payment of any rent.

Various easements and agreements relative to access, utilities and parking have also been entered into between us and Gaming relative to our respective Dover, Delaware facilities. We pay rent to Gaming for the lease of our principal executive office space. Gaming also allows us to use its indoor grandstands in connection with our two annual motorsports weekends. This occasional grandstand use is not material to us and Gaming does not assess rent for it; Gaming may also discontinue our use at its discretion.

Nashville Superspeedway

Nashville Superspeedway is located on approximately 1,400 acres of land we own in Wilson County and Rutherford County, Tennessee. The facility is approximately 35 miles from downtown Nashville.

Intellectual Property

We have various registered and common law trademark rights, including, but not limited to, Dover, Dover Motorsports, Dover International Speedway, Nashville Speedway, Nashville Superspeedway, Monster Mile, Miles the Monster, Velocity, Monster Bridge, The Most Exciting Seat in Sports!, Concrete Monster, and Take a Kid to the Races. We also have limited rights to use the names and logos of NASCAR, various sponsors, drivers and other businesses in connection with promoting our events and certain merchandising programs. Due to the value of our intellectual property rights for promotional purposes, it is our intention to vigorously protect these rights, through litigation, if necessary.

Item 3.

Legal Proceedings

We are a party to ordinary routine litigation incidental to our business. Management does not believe that the resolution of any of these matters is likely to have a material adverse effect on our results of operations, financial condition or cash flows.

Item 4. **Mine Safety Disclosures**

Not applicable.

Executive Officers Of The Registrant

See Part III, Item 10 of this Annual Report on Form 10-K for information about our executive officers.

Part II

Item 5. Market For Registrant's Common Equity, Related Stockholder Matters And Issuer Purchases Of Equity Securities

Our common stock is listed on the New York Stock Exchange (NYSE) under the ticker symbol DVD. Our Class A common stock is not publicly traded but is freely convertible on a one-for-one basis into common stock at any time at the option of the holder thereof. As of February 28, 2014, there were 18,130,512 shares of common stock and 18,510,975 shares of Class A common stock outstanding. There were 832 holders of record for common stock and 12 holders of record for Class A common stock.

The high and low sales prices for our common stock on the NYSE and the dividends declared per share for the years ended December 31, 2013 and 2012 are detailed in the following table:

Quarter Ended:	High	Low	Dividends Declared
December 31, 2013	\$ 2.60	\$ 2.11	\$ 0.05
September 30, 2013	\$ 2.75	\$ 2.10	None
June 30, 2013	\$ 2.19	\$ 1.88	None
March 31, 2013	\$ 2.00	\$ 1.62	None
December 31, 2012	\$ 1.88	\$ 1.35	\$ 0.04
September 30, 2012	\$ 1.55	\$ 1.20	None
June 30, 2012	\$ 1.58	\$ 1.17	None
March 31, 2012	\$ 1.62	\$ 1.02	None

Our previous debt agreement with our bank group allowed us to pay dividends and repurchase shares of our common stock, for an aggregate amount of not more than \$2,500,000 in any fiscal year. The April 29, 2013 amendment to our credit facility removes the \$2,500,000 restriction.

On July 28, 2004, our Board of Directors authorized the repurchase of up to 2,000,000 shares of our outstanding common stock. The purchases may be made in the open market or in privately negotiated transactions as conditions warrant. The repurchase authorization has no expiration date, does not obligate us to acquire any specific number of shares and may be suspended at any time.

The following table details our purchases of equity securities for the three months ended December 31, 2013 (the average price paid per share does not include associated expenses):

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans

Item 6. **Selected Financial Data**

Not applicable.

Item 7. **Management's Discussion And Analysis Of Financial Condition And Results Of Operation**

The following discussion is based upon and should be read together with the consolidated financial statements and notes thereto included elsewhere in this document.

We classify our revenues as admissions, event-related, broadcasting and other. Admissions includes ticket sales for all of our events.

Event-related revenue includes amounts received from sponsorship fees; luxury suite rentals; hospitality tent rentals and catering; concessions and souvenir sales and vendor commissions for the right to sell concessions and souvenirs at our facilities; sales of programs; track rentals and other event-related revenues. Additionally, event related revenue includes amounts received for the use of our property and a portion of the concession sales from the Firefly Music Festival. Broadcasting revenue includes rights fees obtained for television and radio broadcasts of events held at our speedway and any ancillary media rights fees.

Revenues pertaining to specific events are deferred until the event is held. Concession revenue from concession stand sales and sales of souvenirs are recorded at the time of sale. Revenues and related expenses from barter transactions in which we provide advertising or other goods or services in exchange for sponsorships of motorsports events are recorded at fair value. Barter transactions accounted for \$477,000, \$424,000 and \$598,000 of total revenues for the years ended December 31, 2013, 2012 and 2011, respectively.

Expenses that are not directly related to a specific event are recorded as incurred. Expenses that specifically relate to an event are deferred until the event is held, at which time they are expensed. These expenses include prize and point fund monies and sanction fees paid to NASCAR, marketing and other expenses associated with the promotion of our racing events.

Our operating results for the 2013 race season reflect a decrease in admissions revenue. Management believes that our admissions revenue continues to be negatively impacted by declines in consumer and corporate spending from the recession, high fuel, food and health-care costs, high unemployment, difficult housing and credit markets, low levels of consumer confidence, stock market volatility and other economic factors, adversely impacting recreational and entertainment spending. The strength and duration of recovery in the United States economy currently remains uncertain. Higher fuel, food or health-care costs could significantly impact consumer spending and our future results. Changes in governmental taxing, regulatory, spending and other policies could significantly impact consumer spending, economic recovery and our future results. Government responses and actions may or may not successfully restore long-term stability to the credit and consumer markets and improve economic conditions. Record state and federal budgetary deficits could result in government responses such as higher consumer and corporate income or other tax rates. Governmental spending deficits could lead to higher interest rates and continued difficult borrowing conditions for consumers and corporate customers. Whether or when these conditions might improve cannot be determined at this time. Each of these negative factors, and particularly when combined, have and may further adversely impact various industries of our present and potential consumer and corporate customers, resulting in continued or further spending declines that could adversely impact our revenues and profitability.

Much of our total revenues are generated under long-term contracts, and much of our future revenues are already contracted under television broadcasting rights contracts. For example, the term of the existing eight-year NASCAR television broadcast agreement is through 2014, and as discussed further below in Liquidity and Capital Resources, NASCAR has announced new expanded multi-year, multi-platform broadcasting rights agreements for the yearly racing season beginning in 2015 through 2024. Management believes the attractive demographics surrounding motorsports continue to provide substantial opportunities for increasing our number of longer-term sponsorship partners.

Results of Operations

Year Ended December 31, 2013 vs. Year Ended December 31, 2012

Admissions revenue was \$9,521,000 in 2013 as compared to \$10,428,000 in 2012. The \$907,000 decrease was related to lower attendance at our 2013 NASCAR event weekends at Dover International Speedway.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Event-related revenue was \$9,190,000 in 2013 as compared to \$9,889,000 in 2012. The \$699,000 decrease was primarily related to lower revenues from the three-day Firefly Music Festival and, to a lesser extent, lower event-related revenues at our 2013 NASCAR event weekends. For the 2012 Firefly event, we received a fee for the use of our property and we recorded the revenue and the related costs for the concession sales we managed. For the 2013 Firefly event, we received a fee for the use of our property and a percentage of the concession sales we managed. This reduced our revenues and expenses related to the Firefly event; however, it resulted in a higher gross profit.

Broadcasting revenue increased to \$27,445,000 in 2013 as compared to \$26,404,000 in 2012 due to contractual increases in NASCAR's broadcasting rights agreement.

Operating and marketing expenses remained consistent at \$26,648,000 in 2013 as compared to \$26,688,000 in 2012. Higher expenses for our NASCAR event weekends were offset by lower costs related to the Firefly Music Festival. For the 2012 Firefly event, we recorded expenses related to concession sales, primarily cost of goods sold. For the 2013 Firefly event, we received a percentage of the concession sales and were not responsible for purchasing the inventory.

We concluded in the fourth quarter of 2013 that it was necessary for us to review the carrying value of the long-lived assets of our Nashville facility for impairment. Based on the results of this analysis, we recorded a \$4,329,000 non-cash pre-tax impairment charge in the fourth quarter of 2013 to write-down the carrying value of long-lived assets at our Nashville facility to fair value.

General and administrative expenses decreased to \$7,252,000 in 2013 as compared to \$7,560,000 in 2012. The \$308,000 decrease was primarily related to lower employee wages and benefit costs.

Depreciation expense remained consistent at \$3,291,000 in 2013 as compared to \$3,314,000 in 2012.

Net interest expense was \$959,000 in 2013 as compared to \$1,396,000 in 2012. The decrease was due to lower average borrowings and a lower average interest rate.

Our effective income tax rates for 2013 and 2012 were 48.7% and 43.3%, respectively. The increase in our effective income tax rate was primarily due to changes in the mix of taxable income and losses within our subsidiaries. One subsidiary had state taxable income which resulted in state income tax expense; however, another subsidiary with state tax losses has no state income tax benefits based upon the valuation allowances that we have recorded in connection with state net operating loss carry-forwards.

Earnings before income taxes was \$3,949,000 in 2013 as compared to \$8,062,000 in 2012. Excluding the non-cash pre-tax impairment charge and benefit for contingent obligation, net, our adjusted earnings before income taxes was \$8,187,000 in 2013 as compared to \$7,746,000 in 2012.

The above financial information is presented using other than generally accepted accounting principles (non-GAAP) and is reconciled to comparable information presented using GAAP. Non-GAAP adjusted earnings before income taxes and non-GAAP adjusted net earnings is derived by adjusting amounts determined in accordance with GAAP for the non-cash impairment charge and benefit for contingent obligation. We believe such non-GAAP information is useful and meaningful to investors, and is used by investors and us to assess core operations. This non-GAAP financial information may not be comparable to similarly titled measures used by other entities and should not be considered as an alternative to earnings before income taxes and net earnings which is determined in accordance with GAAP.

Year Ended December 31, 2012 vs. Year Ended December 31, 2011

We promoted six racing events during 2012 compared to ten racing events during 2011. We promoted two NASCAR Nationwide Series events and two NASCAR Camping World Truck Series events at our Nashville facility in 2011. These events did not occur in 2012 since we no longer promote NASCAR events at that facility. The majority of our revenues are derived from our two NASCAR Sprint Cup Series events.

Admissions revenue was \$10,428,000 in 2012 as compared to \$13,633,000 in 2011. The \$3,205,000 decrease was related to the aforementioned changes in our major motorsports event schedule and by lower admissions revenue at our NASCAR event weekends at Dover International Speedway primarily from lower average ticket prices pursuant to a new ticket pricing plan employed in 2012.

Event-related revenue was \$9,889,000 in 2012 as compared to \$10,309,000 in 2011. The \$420,000 decrease was primarily related to the aforementioned changes in our major motorsports event schedule. Partially offsetting the decrease were revenues from the inaugural three day Firefly Music Festival which was held on our property in July 2012. We received a fee for the use of our property and a portion of the concession sales for this event.

Broadcasting revenue decreased to \$26,404,000 in 2012 from \$27,778,000 in 2011. The decrease was related to the aforementioned changes in our major motorsports event schedule partially offset by an increase in broadcasting revenue at our Dover facility.

Operating and marketing expenses were \$26,688,000 in 2012 as compared to \$31,926,000 in 2011. The decrease was primarily related to the aforementioned changes in our major motorsports event schedule. Partially offsetting the decrease were expenses related to the inaugural three day Firefly Music Festival which was held on our property in July 2012.

General and administrative expenses were \$7,560,000 in 2012 as compared to \$8,329,000 in 2011. The decrease was primarily related to the fact that we promoted no events in Nashville in 2012 and from lower employee related expenses at our Dover facility.

Depreciation expense decreased to \$3,314,000 in 2012 as compared to \$4,588,000 in 2011. The decrease was primarily related to cessation of depreciation after the impairment of all depreciable assets of our Nashville facility during the third quarter of 2011.

Net interest expense was \$1,396,000 in 2012 as compared to \$2,245,000 in 2011. The decrease was due primarily to lower average borrowings as well as a lower average interest rate pursuant to our new credit facility entered into on April 12, 2011. Additionally, the 2011 interest expense

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

reflects the reversal of \$122,000 of previously recorded interest expense on uncertain income tax positions which were no longer subject to examination.

Our effective income tax rates for 2012 and 2011 were 43.3% and 31.0%, respectively. The lower effective income tax rate in the prior year was primarily due to the state tax losses at our Midwest facilities which have no state income tax benefits as a result of recording valuation allowances on the state net operating loss carry-forwards.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Earnings (loss) before income taxes was \$8,062,000 in 2012 as compared to (\$13,207,000) in 2011. Excluding the non-cash pre-tax impairment charges and (benefit) provision for contingent obligation, net, our adjusted earnings before income taxes was \$7,746,000 in 2012 as compared to \$4,730,000 in 2011.

	2012		2011
Earnings (loss) before income taxes	\$ 8,062,000	\$	(13,207,000)
Non-cash impairment charges			15,687,000
(Benefit) provision for contingent obligation, net	(316,000)		2,250,000
Adjusted earnings before income taxes	\$ 7,746,000	\$	4,730,000

Net earnings (loss) was \$4,571,000 in 2012 as compared to (\$9,114,000) in 2011. Excluding the non-cash impairment charges, net of income taxes and (benefit) provision for contingent obligation, net of income taxes, our adjusted net earnings was \$4,384,000 in 2012 as compared to \$2,419,000 in 2011.

	2012		2011
Net earnings (loss)	\$ 4,571,000	\$	(9,114,000)
Non-cash impairment charges, net of income taxes			10,197,000
(Benefit) provision for contingent obligation, net of income taxes	(187,000)		1,336,000
Adjusted net earnings	\$ 4,384,000	\$	2,419,000

The above financial information is presented using other than generally accepted accounting principles (non-GAAP) and is reconciled to comparable information presented using GAAP. Non-GAAP adjusted earnings from continuing operations before income taxes and non-GAAP adjusted earnings from continuing operations is derived by adjusting amounts determined in accordance with GAAP for the non-cash impairment charges and (benefit) provision for contingent obligation. We believe such non-GAAP information is useful and meaningful to investors, and is used by investors and us to assess core operations. This non-GAAP financial information may not be comparable to similarly titled measures used by other entities and should not be considered as an alternative to earnings (loss) from continuing operations before income taxes and earnings (loss) from continuing operations which is determined in accordance with GAAP.

Liquidity and Capital Resources

Our operations and cash flows from operating activities are seasonal in nature with a majority of our motorsports events occurring during the second and third quarters this year.

Net cash provided by operating activities was \$8,143,000 in 2013 as compared to \$10,945,000 in 2012. The decrease was primarily due to higher income tax payments in 2013 and lower receipts from advance ticket sales primarily as a result of a delay in the timing of our 2014 ticket renewal process.

Net cash used in investing activities was \$189,000 in 2013 as compared to net cash provided by investing activities of \$17,000 in 2012. Capital expenditures of \$315,000 in 2013 related to facility improvements and equipment purchases. Capital expenditures were \$468,000 in 2012 and related primarily to facility improvements. We sold portable grandstand seating that we no longer used in 2013 that resulted in proceeds and a gain of \$138,000. We completed the sale of several parcels of land at our Gateway facility in September 2012 which resulted in net proceeds of

\$585,000.

Net cash used in financing activities was \$7,965,000 in 2013 as compared to \$10,962,000 in 2012. We had net repayments on our outstanding line of credit of \$4,880,000 in 2013 as compared to \$9,460,000 in 2012. We paid \$1,831,000 and \$1,475,000 in cash dividends during 2013 and 2012, respectively. During 2013, we purchased and retired 442,526 shares of our outstanding common stock in the open market at an average purchase price of \$2.36 per share, not including nominal brokerage commissions. No purchases of our equity securities from the open market were made during 2012. As a result of modifying our credit agreement in 2013, we paid \$125,000 in bank fees.

On April 29, 2013, Dover Motorsports, Inc. and its wholly owned subsidiaries Dover International Speedway, Inc. and Nashville Speedway, USA, Inc., as co-borrowers, modified our secured credit agreement with our bank group. The credit facility was modified to: extend the maturity date to July 31, 2017; reduce the maximum borrowing limit to \$50,000,000 as of April 29, 2013, to \$42,500,000 as of December 31, 2013 and to \$35,000,000 as of December 31, 2014 and through the date of maturity; modify the maximum funded debt to earnings before interest, taxes, depreciation and amortization (leverage ratio); replace the interest expense coverage ratio with a fixed charge coverage ratio; remove any restrictions on the amount of stock repurchases and dividend payments; and provide that we may elect to enter into a negative pledge with the bank group in exchange for the release of the security interest in the collateral securing the agreement. Material adverse changes in our results of operations could impact our ability to maintain financial ratios necessary to satisfy these requirements. In addition, the credit agreement includes a material adverse change clause and provides the lenders with a first lien on all of our assets. The credit facility also provides that if we default under any other loan agreement, that would be a default under this facility. At December 31, 2013, there was \$14,820,000 outstanding under the credit facility at an interest rate of 1.67%. The credit facility provides for seasonal funding needs, capital improvements, letter of credit requirements and other general corporate purposes. Interest is based upon LIBOR plus a margin that varies between 125 and 175 basis points depending on the leverage ratio (150 basis points at December 31, 2013). In the event we elect to enter into the negative pledge, interest will be based upon LIBOR plus a margin that varies between 150 and 200 basis points depending on the leverage ratio. At December 31, 2013, we were in compliance with the terms of the credit facility. After consideration of stand-by letters of credit outstanding, the remaining maximum borrowings available pursuant to the credit facility were \$8,565,000 at December 31, 2013. We expect to be in compliance with the financial covenants, and all other covenants, for all measurement periods during the next twelve months.

Nashville Superspeedway no longer promotes NASCAR events and did not seek sanction agreements from NASCAR for 2012, 2013 or 2014. We currently use the track for motorsports race team testing and continue to evaluate all of our options for the facility. In 2011 we recorded a \$2,250,000 provision for contingent obligation reflecting the present value of the estimated portion of the Wilson County bonds debt service that may not be covered by the projected sales and incremental property taxes from the facility (see NOTE 13 Commitments and Contingencies of the consolidated financial statements included elsewhere in this document for further discussion). Due to changing interest rates, the provision for contingent obligation decreased by \$91,000 and \$316,000, net, in 2013 and 2012, respectively, and is \$1,843,000 at December 31, 2013.

We promoted six racing events in 2013 and 2012, and are scheduled to promote six events in 2014, all of which were sanctioned by NASCAR and held at our Dover International Speedway facility.

Broadcasting revenues continue to be a significant long-term revenue source for our business. Management believes this long-term contracted revenue helps stabilize our financial strength, earnings and cash flows. Also, NASCAR ratings can impact attendance at our events and sponsorship opportunities. A substantial portion of our profits in recent years has resulted from television revenues received from NASCAR contracts with various television networks, which is expected to continue for the foreseeable future. The current eight-year television broadcasting agreement with various television networks was negotiated and contracted by NASCAR (as were the new contracts discussed below). Our share of these television broadcast revenues are contracted, and purse and sanction fees are negotiated, with NASCAR on an annual basis for each NASCAR-sanctioned racing event scheduled to be held by us in the upcoming year. Under these annual agreements, we are obligated to conduct events in the manner stipulated under the terms and conditions of the respective sanctioning agreements.

NASCAR announced it has reached a ten-year, multi-platform agreement with FOX Sports Media Group (FOX) for the broadcasting and digital rights to 16 NASCAR Sprint Cup Series races, 14 Nationwide Series races and the entire Camping World Truck Series (along with practice and qualifying) beginning in 2015 through 2024. For the first time, the new agreement includes TV Everywhere rights that allow live-streaming of all FOX races, before and after race coverage, in-progress and finished race highlights, and replays of FOX-televised races to a Fox Sports-affiliated website which began in 2013. The new agreement also allows re-telecast of races on a FOX network and via video-on-demand for 24 hours and other ancillary programming, including a nightly NASCAR news and information show and weekend at-track shows. NASCAR and FOX Deportes, the number one US Latino sports network, have teamed up to provide our sport's most expansive Spanish-language broadcast offering ever with coverage of 15 NASCAR Sprint Cup Series races which started in 2013.

On July 23, 2013, NASCAR announced it has reached a ten-year comprehensive agreement with NBC Sports Group granting NBCUniversal (NBC) exclusive rights to the final 20 NASCAR Sprint Cup Series races, final 19 NASCAR Nationwide Series events, select NASCAR Regional & Touring Series events and other live content beginning in 2015. Further, NBC has been granted Spanish-language rights, certain video-on-demand rights and exclusive TV Everywhere rights for its NASCAR Sprint Cup Series and NASCAR Nationwide Series events.

We expect that our net cash flows from operating activities and funds available from our credit facility will be sufficient to provide for our working capital needs, capital spending requirements, stock repurchases, as well as any cash dividends our Board of Directors may declare at least through the next twelve months and also provide for our long-term liquidity. Based on current business conditions, we expect to spend approximately \$2,000,000 on capital expenditures during 2014. Additionally, we expect to contribute approximately \$50,000 to our pension plans during 2014.

Contractual Obligations

At December 31, 2013, we had the following contractual obligations and other commercial commitments:

	Total	2014	Payments Due by Period				Thereafter
			2015	2016	2017	2018	
Revolving line of credit	\$ 14,820,000	\$	\$		\$ 14,820,000	\$	
Estimated interest payments on revolving line of credit(a)	886,000	247,000		495,000	144,000		
Contingent obligation(b)	1,843,000					1,843,000	
Operating leases	27,000	15,000		12,000			
Pension contributions	50,000	50,000					
Total contractual cash obligations	\$ 17,626,000	\$ 312,000	\$ 507,000	\$ 14,964,000	\$ 1,843,000		

(a) The future interest payments on our revolving credit agreement were estimated using the current outstanding principal as of December 31, 2013 and current interest rates.

(b) In September 1999, the Sports Authority of the County of Wilson (Tennessee) issued \$25,900,000 in Variable Rate Tax Exempt Infrastructure Revenue Bonds, Series 1999, to acquire, construct and develop certain public infrastructure improvements which benefit Nashville Superspeedway, of which \$18,800,000 was outstanding at December 31, 2013. Annual principal payments range from \$800,000 in September 2014 to \$1,600,000 in 2029 and are payable solely from sales taxes and incremental property taxes generated from the facility. These bonds are direct obligations of the Sports Authority and therefore have historically not been required to be recorded on our consolidated balance sheet. If the applicable taxes are insufficient for the payment of principal and interest on the bonds, we would become responsible for the difference. We are exposed to fluctuations in interest rates for these bonds. In the event we were unable to make the payments, they would be made pursuant to a \$19,115,000 irrevocable direct-pay letter of credit issued by our bank group.

As of December 31, 2013 and 2012, \$1,908,000 and \$1,758,000, respectively, was available in the sales and incremental property tax fund maintained by the Sports Authority to pay the remaining principal and interest due under the bonds. During 2013, we paid \$969,000 into the sales and incremental property tax fund and \$819,000 was deducted from the fund for principal and interest payments. If we fail to maintain the letter of credit that secures the bonds or we allow an uncured event of default to exist under our reimbursement agreement relative to the letter of credit, the bonds would be immediately redeemable.

Nashville Superspeedway no longer promotes NASCAR events and did not seek sanction agreements from NASCAR for 2012, 2013 or 2014. We currently use the track for motorsports race team testing and continue to evaluate all of our options for the facility. In 2011 we recorded a \$2,250,000 provision for contingent obligation reflecting the present value of the estimated portion of the Wilson County bonds debt service that may not be covered by the projected sales and incremental property taxes from the facility (see NOTE 13 Commitments and Contingencies of the consolidated financial statements included elsewhere in this document for further discussion). Due to changing interest rates, the provision for contingent obligation decreased by \$91,000 and \$316,000, net, in 2013 and 2012, respectively, and is \$1,843,000 at December 31, 2013.

Critical Accounting Policies

The accounting policies described below are those we consider critical in preparing our consolidated financial statements. These policies include significant estimates made by management using information available at the time the estimates are made. As described below, these estimates could change materially if different information or assumptions were used.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating losses. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. We record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. As of December 31, 2013, our valuation allowance on state net operating loss carry-forwards net of federal income taxes was \$10,360,000, which decreased by \$1,805,000 in 2013. These state net operating losses are related to our Midwest facilities that have not produced taxable income. Valuation allowances fully reserve the state net operating loss carryforwards, net of federal tax benefit. We have considered ongoing prudent and feasible tax planning strategies in assessing the need for a valuation allowance. In the event we were to determine that we would be able to realize all or a portion of these deferred tax assets, an adjustment to the valuation allowance would increase earnings in the period such determination was made. Likewise, should we determine that we would not be able to realize all or a portion of our remaining deferred tax assets in the future, an adjustment to the valuation allowance would be charged to earnings in the period such determination was made.

Property and Equipment

Property and equipment are recorded at cost. Depreciation is provided for financial reporting purposes using the straight-line method over estimated useful lives ranging from 3 to 10 years for furniture, fixtures and equipment and up to 40 years for facilities. These estimates require assumptions that are believed to be reasonable. We perform reviews for impairment of long-lived assets whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. An impairment loss is measured as the amount by which the carrying amount of the asset exceeds its fair value.

We have recorded several impairment charges relating to our Midwest tracks to reduce the carrying value of the tracks to their then estimated fair value. Fair value was based on either independent third party appraisals or pending/completed sales transactions.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Determining fair value involves the use of estimates and assumptions. We employ estimates and assumptions that we believe to be reasonable but that are inherently uncertain and subject to change. In certain cases, industry events beyond our control have to be factored into our fair value analysis. Our initial impairment charge in 2006 was to all three Midwest tracks and resulted from a reduction in projected future cash flows based on new broadcast agreements with NASCAR. An additional impairment charge in 2008 resulted from (i) the decline in economic conditions and its impact on our projected operations, (ii) a lower than anticipated allocation of contractual revenue from NASCAR, and (iii) an agreement of sale for one of our Midwest tracks at a selling price lower than its carrying value. Additional impairment charges were taken in 2009, 2010 and 2011 and were primarily the result of the expiration in 2009 of an agreement of sale for one track that had previously formed the basis for the track's carrying value, the cessation of operations at another track announced in 2010 and the cessation of operations at the third track announced in 2011. Following these charges, the carrying value of the remaining assets has been reduced to

land value. The impairment charge recorded in 2013 was a result of economic conditions and their impact on real estate values.

We no longer conduct motorsports events at either of the remaining properties of our former Midwest tracks. We continue to own land with an appraised fair value of approximately \$630,000 near one of our former facilities and have exited from the various property leases under which we previously operated. The appraised fair value of the remaining facility primarily consists of its land value of approximately \$26,000,000 for approximately 1,400 acres.

Fair value for land is determined using valuation techniques such as the comparable sales approach. The primary economic assumptions used in the valuation techniques include: (i) land value which is estimated by comparable transactions; and (ii) that the highest and best use for the land is potential real estate development such as industrial warehouse or light manufacturing development. We review the fair value of the land on a regular basis and it is possible that the assumptions used to value the land can change in the future and this could have a significant effect on the outcome of future valuations.

Accrued Pension Cost

On June 15, 2011, we decided to freeze participation and benefit accruals under our pension plans. The freeze was effective July 31, 2011. The benefits provided by our defined-benefit pension plans are based on years of service and employee's remuneration through July 31, 2011. Accrued pension costs are developed using actuarial principles and assumptions which consider a number of factors, including estimates for the discount rate, expected long-term rate of return on assets and mortality. Changes in these estimates would impact the amounts that we record in our consolidated financial statements.

Recent Accounting Pronouncements

There have been no new accounting pronouncements made effective during the year ended December 31, 2013, or that are not yet effective, that have significance, or potential significance, to our consolidated financial statements.

Factors That May Affect Operating Results; Forward-Looking Statements

This report and the documents incorporated by reference may contain forward-looking statements. In Item 1A of this report, we disclose the important factors that could cause our actual results to differ from our expectations.

Item 7A. Quantitative And Qualitative Disclosures About Market Risk

Not applicable.

Item 8. **Financial Statements And Supplementary Data**

Our consolidated financial statements and the Report of Independent Registered Public Accounting Firm included in this report are shown on the Index to Consolidated Financial Statements on page 28.

Item 9. **Changes In And Disagreements With Accountants On Accounting And Financial Disclosure**

None.

Item 9A. **Controls and Procedures**

Our management is responsible for the preparation, integrity and objectivity of the consolidated financial statements and other financial information included in this Form 10-K. The consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles and reflect the effects of certain estimates and judgments made by management.

Our management also is responsible for establishing and maintaining a system of internal controls designed to provide reasonable assurance that assets are safeguarded and transactions are properly recorded and executed in accordance with management's authorization. The system is regularly monitored by direct management review and by internal auditors who conduct an extensive program of audits throughout our organization. The Director of Internal Audit reports directly to the Audit Committee of our Board of Directors. We have confidence in our financial reporting, the underlying system of internal controls, and our people, who are objective in their responsibilities and operate under our Code of Business Conduct and with the highest level of ethical standards. These standards are a key element of our control system.

The Audit Committee of our Board of Directors, which is comprised entirely of independent directors, has direct and private access to and meets regularly with management, our internal auditors and our independent registered public accounting firm to review accounting, reporting, auditing and internal control matters.

Management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of internal controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Also, any evaluation of the effectiveness of controls in future periods are subject to the risk that those internal controls may become inadequate because of changes in business conditions, or that the degree of compliance with the policies or procedure may deteriorate.

(a) Evaluation of Disclosure Controls and Procedures

We have established disclosure controls and procedures to ensure that relevant, material information is made known to the officers who certify our financial reports and to other members of senior management and the Board of Directors.

Based on their evaluation as of December 31, 2013, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective to ensure that the information we are required to disclose in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

(b) Management's Report on Internal Control Over Financial Reporting

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. We conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation, management concluded that our internal control over financial reporting was effective as of December 31, 2013.

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our independent registered public accounting firm pursuant to the rules of the SEC that permit us to provide only management's report in this annual report.

(c) *Changes in Internal Control Over Financial Reporting*

There have been no changes in our internal control over financial reporting during the fiscal quarter ended December 31, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. **Other Information**

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders

Dover Motorsports, Inc.:

We have audited the accompanying consolidated balance sheets of Dover Motorsports, Inc. and subsidiaries (the Company) as of December 31, 2013 and 2012, and the related consolidated statements of earnings (loss) and comprehensive income (loss) and cash flows for each of the years in the three-year period ended December 31, 2013. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Dover Motorsports, Inc. and subsidiaries as of December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2013, in conformity with U.S. generally accepted accounting principles.

DOVER MOTORSPORTS, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 Business Operations

References in this document to we, us and our mean Dover Motorsports, Inc. and/or its wholly owned subsidiaries, as appropriate.

Dover Motorsports, Inc. is a public holding company that is a leading marketer and promoter of motorsports entertainment in the United States. Through our subsidiaries, we own and operate Dover International Speedway® in Dover, Delaware and Nashville Superspeedway® near Nashville, Tennessee. Our Dover facility promoted the following six events during 2013, all of which were under the auspices of the premier sanctioning body in motorsports - the National Association for Stock Car Auto Racing (NASCAR):

- 2 NASCAR Sprint Cup Series events;
- 2 NASCAR Nationwide Series events;
- 1 NASCAR Camping World Truck Series event; and
- 1 NASCAR K&N Pro Series East event.

In 2014, we are scheduled to promote six events, all of which will be sanctioned by NASCAR and held at Dover International Speedway. Total revenues from these events were approximately 97%, 96% and 91% of total revenues for 2013, 2012 and 2011, respectively.

On July 20-22, 2012, the inaugural Firefly Music Festival (Firefly) was held on our property in Dover, DE for which we received a fee for the use of our property and recorded revenues and related costs for the concession sales we managed. The three day event was promoted by Red Frog Events LLC and featured more than 40 musical acts. The Firefly event returned on June 21-23, 2013 and featured more than 70 musical acts. For the 2013 event, we received a fee for the use of our property and a percentage of the concession sales we managed. The Firefly event is scheduled to return on June 20-22, 2014.

Nashville Superspeedway no longer promotes NASCAR events and did not seek sanction agreements from NASCAR for 2012, 2013 or 2014. We currently use the track for motorsports race team testing and continue to evaluate all of our options for the facility. We incurred a non-cash pre-tax impairment charge of \$4,329,000 in the fourth quarter of 2013 as a result of economic conditions and their impact on real estate values (see NOTE 3 Impairment Charges for further discussion). Additionally, we incurred a non-cash pre-tax impairment charge of \$15,687,000 and severance costs of approximately \$150,000 in the third quarter of 2011 as a result of our decision to no longer promote NASCAR events at this facility (see NOTE 3 Impairment Charges for further discussion). In 2011 we recorded a \$2,250,000 provision for contingent obligation reflecting the present value of the estimated portion of the Wilson County bonds debt service that may not be covered by the projected sales and

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

incremental property taxes from the facility (see NOTE 13 Commitments and Contingencies for further discussion). Due to changing interest rates, the provision for contingent obligation decreased by \$91,000 and \$316,000, net, in 2013 and 2012, respectively, and is \$1,843,000 at December 31, 2013.

We closed our Gateway facility in the fourth quarter of 2010 and terminated all of our leases for the real property underlying the racetrack in 2011. In September 2012, we sold all but one parcel of land we owned at the Gateway facility for \$585,000 and recognized a loss on sale of \$52,000. We continue to own approximately 14 acres of undeveloped land near the Gateway facility (see NOTE 4 Discontinued Operation for further discussion).

We closed our Memphis Motorsports Park facility in October 2009 and executed an agreement to sell it in December 2010. The real estate sale closed on January 31, 2011. After closing costs and including the proceeds from the separate sale of all personal property at the facility in December 2010, our net proceeds were approximately \$2,000,000.

NOTE 2 Summary of Significant Accounting Policies

Basis of consolidation and presentation The accompanying consolidated financial statements include the accounts of Dover Motorsports, Inc. and our wholly owned subsidiaries. Intercompany transactions and balances have been eliminated.

Investments Investments, which consist of mutual funds, are classified as available-for-sale and reported at fair-value in other assets in our consolidated balance sheets. Changes in fair value are reported in other comprehensive income (loss). See NOTE 9 Pension Plans, NOTE 10 Stockholders Equity and NOTE 11 Fair Value Measurements for further discussion.

Accounts receivable Accounts receivable are stated at their estimated collectible amount and do not bear interest.

Inventories Inventories of items for resale are stated at the lower of cost or market with cost being determined on the first-in, first-out basis.

Property and equipment Property and equipment is stated at cost. Depreciation is provided for financial reporting purposes using the straight-line method over the following estimated useful lives:

Facilities	10-40 years
Furniture, fixtures and equipment	3-10 years

Impairment of long-lived assets Long-lived assets are assessed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. An impairment loss is measured as the amount by which the carrying amount of the asset exceeds its fair value. Generally, fair value is determined using valuation techniques such as the comparable sales approach based on either independent third party appraisals or pending/completed sales transactions. See NOTE 3 Impairment Charges for further discussion.

Income taxes Deferred income taxes are provided on all differences between the tax basis of assets and liabilities and their reported amounts in the consolidated financial statements based upon enacted statutory tax rates in effect at the balance sheet date. We record a valuation allowance to reduce our deferred tax assets when uncertainty regarding their realizability exists. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. We recognize the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that has a greater than 50% likelihood of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. As of December 31, 2013, our valuation allowance on state net operating loss carry-forwards net of federal income taxes was \$10,360,000, which decreased by \$1,805,000 in 2013. These state net operating losses are related to our Midwest facilities that have not produced taxable income. Valuation allowances fully reserve the state net operating loss carryforwards, net of federal tax benefit.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Revenue recognition We classify our revenues as admissions, event-related, broadcasting and other. Admissions revenue includes ticket sales for all of our events. Event-related revenue includes amounts received from sponsorship fees; luxury suite rentals; hospitality tent rentals and catering; concessions and souvenir sales and vendor commissions for the right to sell concessions and souvenirs at our facilities; sales of programs; track rentals and other event-related revenues. Additionally, event related revenue includes amounts received for the use of our property and a portion of the concession sales from the Firefly Music Festival. Broadcasting revenue includes rights fees obtained for television and radio broadcasts of events held at our speedways and any ancillary media rights fees.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Revenues pertaining to specific events are deferred until the event is held. Concession and souvenir revenues are recorded at the time of sale. Revenues and related expenses from barter transactions in which we provide advertising or other goods or services in exchange for sponsorships of motorsports events are recorded at fair value. Barter transactions accounted for \$477,000, \$424,000 and \$598,000 of total revenues for the years ended December 31, 2013, 2012 and 2011, respectively.

Under the terms of our sanction agreements, NASCAR retains 10% of the gross broadcast rights fees allocated to each NASCAR-sanctioned event as a component of its sanction fee. The remaining 90% is recorded as revenue. The event promoter is required to pay 25% of the gross broadcast rights fees to the event as part of the awards to the competitors, which we record as operating expenses.

We were responsible for collecting sales taxes from our customers on certain revenue generating activities at our Midwest facilities and remitting these taxes to the appropriate governmental taxing authority. We included sales taxes in admissions and event-related revenues in our consolidated statements of earnings (loss) and comprehensive income (loss) with an equal amount in operating and marketing expenses. There were no sales taxes included in revenues or expenses for 2013 or 2012. Sales taxes included in revenues and expenses for the year ended December 31, 2011 were \$143,000.

Expense recognition The cost of non-event related advertising, promotion and marketing programs is expensed as incurred. Certain direct expenses pertaining to specific events, including prize and point fund monies and sanction fees paid to NASCAR, a majority of our marketing expenses and other expenses associated with the promotion of our racing events are deferred until the event is held, at which point they are expensed. Advertising expenses were \$1,160,000, \$1,093,000 and \$1,526,000 in 2013, 2012 and 2011, respectively.

Net earnings (loss) per common share Nonvested share-based payment awards that include rights to dividends or dividend equivalents, whether paid or unpaid, are considered participating securities, and the two-class method of computing basic and diluted net earnings (loss) per common share (EPS) is applied for all periods presented. The following table sets forth the computation of EPS (in thousands, except per share amounts):

	2013	2012	2011
Net earnings (loss) per common share basic:			
Net earnings (loss)	\$ 2,024	\$ 4,571	\$ (9,185)
Allocation to nonvested restricted stock awards	33	67	
Net earnings (loss) available to common stockholders	\$ 1,991	\$ 4,504	\$ (9,185)
Weighted-average shares outstanding	36,252	36,299	36,194
Net earnings (loss) per common share basic	\$ 0.05	\$ 0.12	\$ (0.25)
Net earnings (loss) per common share diluted:			
Net earnings (loss)	\$ 2,024	\$ 4,571	\$ (9,185)
Allocation to nonvested restricted stock awards	33	67	
Net earnings (loss) available to common stockholders	\$ 1,991	\$ 4,504	\$ (9,185)
Weighted-average shares and dilutive shares outstanding	36,252	36,299	36,194
Net earnings (loss) per common share diluted	\$ 0.05	\$ 0.12	\$ (0.25)

Accounting for stock-based compensation We recorded total stock-based compensation expense for our restricted stock awards of \$291,000, \$313,000 and \$407,000 as general and administrative expenses for the years ended December 31, 2013, 2012 and 2011, respectively. We

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

recorded income tax benefits (expense) of \$56,000, (\$4,000) and \$32,000 for the years ended December 31, 2013, 2012 and 2011, respectively, related to our restricted stock awards.

Use of estimates The preparation of the accompanying consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the reported amounts of assets and liabilities, disclosures about contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on our best estimates and judgment. We evaluate our estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which we believe to be reasonable under the circumstances. We adjust such estimates and assumptions when facts and circumstances dictate. Illiquid credit markets, volatile equity markets and declines in consumer spending have combined to increase the uncertainty inherent in such estimates and assumptions. As future events and their effects cannot be determined with precision, actual results could differ from these estimates. Changes in those estimates resulting from continuing changes in the economic environment will be reflected in the consolidated financial statements in future periods.

NOTE 3 Impairment Charges

Impairment Charge Recorded in 2013

Based upon the economic conditions that existed in the fourth quarter of 2013 and their impact on real estate values, we concluded that it was necessary for us to review the carrying value of the long-lived assets at Nashville for impairment. The Nashville assets recorded on our consolidated balance sheets consist exclusively of land. The recoverability of assets to be held and used was measured by a comparison of the carrying amount of the assets to the estimated undiscounted future cash flows expected to result from the use and eventual disposition of the assets. As a result of the recoverability test, we concluded that the carrying amount of our Nashville facility exceeded the undiscounted cash flows.

Since the carrying amount of the assets exceeded the fair value, an impairment charge was recognized by the amount by which the carrying amount of the assets exceeded the fair value. Fair value of the assets for the Nashville facility was determined based on the value of owned real estate at the facility. The long-lived assets deemed to be impaired consisted of land.

Based on the results of this analysis, we recorded a non-cash pre-tax impairment charge in the fourth quarter of 2013 to write-down the carrying value of long-lived assets at our Nashville facility to fair value, as follows:

	Carrying Value of Long-Lived Assets		Fair Value of Long-Lived Assets		Non-Cash Impairment Charges
Nashville facility	\$ 30,329,000	\$	26,000,000	\$	4,329,000

Impairment Charge Recorded in 2011

Based upon the economic conditions that existed in the third quarter of 2011 and their impact on our current and projected operations and cash flows at that time, and the potential impact on real estate valuations, combined with our decision to notify NASCAR that we would not seek 2012 sanction agreements, we concluded that it was necessary for us to review the carrying value of the long-lived assets at Nashville for impairment. The recoverability of assets to be held and used was measured by a comparison of the carrying amount of the asset to the estimated undiscounted future cash flows expected to result from the use and eventual disposition of the asset. As a result of the recoverability test, we concluded that the carrying amount of our Nashville facility exceeded the undiscounted cash flows.

Since the carrying amount of the assets exceeded the fair value, an impairment charge was recognized by the amount by which the carrying amount of the assets exceeded the fair value. Fair value of the assets for the Nashville facility was determined based on the value of owned real estate at the facility. The long-lived assets deemed to be impaired consisted of track facilities.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

Based on the results of this analysis, we recorded a non-cash pre-tax impairment charge in the third quarter of 2011 to write-down the carrying value of long-lived assets at our Nashville facility to fair value, as follows:

	Carrying Value of Long-Lived Assets		Fair Value of Long-Lived Assets		Non-Cash Impairment Charges
Nashville facility	\$ 46,016,000	\$	30,329,000	\$	15,687,000

NOTE 4 Discontinued Operation

The results of operations for our Gateway facility are being reported as a discontinued operation and accordingly, the accompanying consolidated financial statements report separately the operating results of this discontinued operation.

Summarized results of operations for our Gateway facility are as follows for the year ended December 31, 2011:

	2011
Revenues	\$ 2,000
Loss from discontinued operation before income taxes	(109,000)
Income tax benefit of discontinued operation	38,000
Loss from discontinued operation	(71,000)

There were no results of operations for our Gateway facility for 2013 or 2012. Additionally, there were no assets or liabilities of the discontinued operation in the consolidated balance sheet as of December 31, 2013 or 2012.

NOTE 5 Property and Equipment

Property and equipment consists of the following as of December 31:

	2013		2012
Land	\$ 41,916,000	\$	46,245,000
Facilities	85,349,000		85,209,000
Furniture, fixtures and equipment	6,955,000		6,794,000
	134,220,000		138,248,000
Less accumulated depreciation	(48,629,000)		(45,352,000)
	\$ 85,591,000	\$	92,896,000

Depreciation expense was \$3,291,000, \$3,314,000 and \$4,588,000 for the years ended December 31, 2013, 2012 and 2011, respectively.

NOTE 6 Accrued Liabilities

Accrued liabilities consist of the following as of December 31:

	2013		2012
Payroll and related items	\$ 436,000	\$	426,000
Real estate taxes	984,000		997,000
Pension	729,000		707,000
Other	738,000		773,000
	\$ 2,887,000	\$	2,903,000

NOTE 7 Long-Term Debt

On April 29, 2013, Dover Motorsports, Inc. and its wholly owned subsidiaries Dover International Speedway, Inc. and Nashville Speedway, USA, Inc., as co-borrowers, modified our secured credit agreement with our bank group. The credit facility was modified to: extend the maturity date to July 31, 2017; reduce the maximum borrowing limit to \$50,000,000 as of April 29, 2013, to \$42,500,000 as of December 31, 2013 and to \$35,000,000 as of December 31, 2014 and through the date of maturity; modify the maximum funded debt to earnings before interest, taxes, depreciation and amortization (leverage ratio); replace the interest expense coverage ratio with a fixed charge coverage ratio; remove any restrictions on the amount of stock repurchases and dividend payments; and provide that we may elect to enter into a negative pledge with the bank group in exchange for the release of the security interest in the collateral securing the agreement. Material adverse changes in our results of operations could impact our ability to maintain financial ratios necessary to satisfy these requirements. In addition, the credit agreement includes a material adverse change clause and provides the lenders with a first lien on all of our assets. The credit facility also provides that if we default under any other loan agreement, that would be a default under this facility. At December 31, 2013, there was \$14,820,000 outstanding under the credit facility at an interest rate of 1.67%. The credit facility provides for seasonal funding needs, capital improvements, letter of credit requirements and other general corporate purposes. Interest is based upon LIBOR plus a margin that varies between 125 and 175 basis points depending on the leverage ratio (150 basis points at December 31, 2013). In the event we elect to enter into the negative pledge, interest will be based upon LIBOR plus a margin that varies between 150 and 200 basis points depending on the leverage ratio. At December 31, 2013, we were in compliance with the terms of the credit facility. After consideration of stand-by letters of credit outstanding, the remaining maximum borrowings available pursuant to the credit facility were \$8,565,000 at December 31, 2013. We expect to be in compliance with the financial covenants, and all other covenants, for all measurement periods during the next twelve months.

NOTE 8 Income Taxes

The current and deferred income tax (expense) benefit from continuing operations is as follows:

	Years ended December 31,		
	2013	2012	2011
Current:			
Federal	\$ (1,869,000)	\$ (136,000)	\$
State	(892,000)	(866,000)	(803,000)
	(2,761,000)	(1,002,000)	(803,000)
Deferred:

Deferred income tax assets and liabilities are comprised of the following as of December 31:

	2013		2012
Deferred income tax assets:			
Accruals not currently deductible for income taxes	\$ 1,846,000	\$	2,429,000
Net operating loss carry-forwards	11,070,000		13,947,000
Total deferred income tax assets	12,916,000		16,376,000
Deferred income tax liabilities:			
Depreciation	(19,070,000)		(20,739,000)
	(19,070,000)		(20,739,000)
Valuation allowance	(10,360,000)		(12,165,000)

Amounts recognized in the consolidated balance sheets:			
Current deferred income tax assets	\$ 76,000	\$	78,000
Noncurrent deferred income tax assets	336,000		490,000
Noncurrent deferred income tax liabilities	(16,926,000)		(17,096,000)
	\$ (16,514,000)	\$	(16,528,000)

Deferred income taxes relate to the temporary differences between financial accounting income and taxable income and are primarily attributable to differences between the book and tax basis of property and equipment and net operating loss carry-forwards (expiring through 2033). At December 31, 2013, we have available state net operating loss carryforwards of \$217,062,000. Valuation allowances which fully reserve the state net operating loss carryforwards, net of federal tax benefit, (decreased) increased in 2013, 2012 and 2011 by (\$1,805,000), (\$24,000) and \$1,777,000, respectively.

Interest expense on uncertain income tax positions is recorded as a component of interest expense. The uncertain income tax positions related to the appropriate period to depreciate certain of our assets and do not affect our effective income tax rate or our reported earnings. During 2011, our liability relating to uncertain income tax positions decreased by \$1,241,000 from the expiration of the statute of limitations.

No interest expense was recorded on our uncertain income tax positions in 2013, 2012 or 2011. During 2011, we reversed \$122,000 of previously recorded interest expense on uncertain income tax positions which are no longer subject to examination. There is no accrued interest on uncertain income tax positions as of December 31, 2013 or 2012.

The following table sets forth the changes in our uncertain income tax positions for the years ended December 31, 2013, 2012 and 2011:

We file income tax returns with the Internal Revenue Service (IRS) and the states in which we conduct business. We have identified the U.S. federal and state of Delaware as our major tax jurisdictions. As of December 31, 2013, tax years after 2009 remain open to examination for federal and Delaware income tax purposes.

NOTE 9 Pension Plans

We maintain a non-contributory tax qualified defined benefit pension plan that has been frozen since July 2011. All of our full time employees were eligible to participate in the qualified plan. Benefits provided by our qualified pension plan were based on years of service and employees remuneration over their employment period. Pension costs are funded in accordance with the provisions of the Internal Revenue Code. We also maintain a non-qualified, non-contributory defined benefit pension plan, the excess plan, for certain employees that has been frozen since July 2011. This excess plan provided benefits that would otherwise be provided under the qualified pension plan but for maximum benefit and compensation limits applicable under federal tax law. The cost associated with the excess plan is determined using the same actuarial methods and assumptions as those used for our qualified pension plan. The assets for the excess plan aggregate \$768,000 and \$680,000 as of December 31, 2013 and 2012, respectively, and are recorded in other assets in our consolidated balance sheets (see NOTE 11 Fair Value Measurements).

On June 15, 2011, we decided to freeze participation and benefit accruals under our pension plans, primarily to reduce some of the impact on earnings and volatility in cash flows that can accompany the maintenance of a defined benefit plan. The freeze was effective July 31, 2011. Compensation earned by employees up to July 31, 2011 is used for purposes of calculating benefits under our pension plan with no future benefit accruals after this date. Participants as of July 31, 2011 continue to earn vesting credit with respect to their frozen accrued benefits as they continue to work. We accounted for the freeze of our pension plans in 2011, which resulted in a curtailment loss of \$45,000, reduced our liability for pension benefits by \$544,000 and increased comprehensive earnings by \$589,000.

Effective December 1, 2012, we created a new non-elective, non-qualified supplemental executive retirement plan (SERP) in connection with the freezing of our pension plan. Its purpose is to provide deferred compensation to certain highly compensated employees that approximates the value of benefits lost by the freezing of the pension plan which are not offset by our enhanced matching contributions in our 401(k) plan. The SERP is a discretionary defined contribution plan and contributions made to the SERP in any given year are not guaranteed and will be at the sole discretion of our Compensation and Stock Incentive Committee. In 2013 and 2012, we recorded an expense of \$60,000 and \$60,000, respectively, related to the SERP and contributed \$55,000 and \$0, respectively, to the plan. The liability for pension benefits was \$65,000 and \$60,000 as of December 31, 2013 and 2012, respectively.

The following table sets forth the defined benefit plans funded status and amounts recognized in our consolidated balance sheets as of December 31:

	2013	2012

Amounts recognized in accumulated other comprehensive loss that have not yet been recognized as components of net periodic benefit cost at December 31 are as follows:

	2013		2012	
Net actuarial loss, pre-tax	\$	2,743,000	\$	4,255,000

The accumulated benefit obligation for our pension plans was \$9,982,000 and \$10,736,000, respectively, as of December 31, 2013 and 2012.

The components of net periodic pension (benefit) cost for the years ended December 31, 2013, 2012 and 2011 are as follows:

	2013		2012		2011	
Service cost	\$		\$		\$	153,000
Interest cost		443,000		454,000		491,000
Expected return on plan assets		(552,000)		(508,000)		(526,000)
Curtailement loss						45,000
Recognized net actuarial loss		100,000		80,000		139,000
Net amortization						10,000
	\$	(9,000)	\$	26,000	\$	312,000

For the year ending December 31, 2014, we expect to recognize the following amounts as components of net periodic benefit cost which are included in accumulated other comprehensive loss as of December 31, 2013:

Actuarial loss	\$	59,000
----------------	----	--------

The principal assumptions used to determine the net periodic pension cost for the years ended December 31, 2013, 2012 and 2011, and the actuarial value of the benefit obligation at December 31, 2013 and 2012 (the measurement dates) for our pension plans are as follows:

	Net Periodic Pension Cost			Benefit Obligation	
	2013	2012	2011	2013	2012
Weighted-average discount rate	4.4%	5.0%	6.1%	5.0%	4.4%
Weighted-average rate of compensation increase	n/a	n/a	4.0%	n/a	n/a
Expected long-term rate of return on plan assets	8.0%	8.0%	8.5%	n/a	n/a

The weighted-average discount rates were determined by matching estimated benefit cash flows to a yield curve derived from long-term, high-quality corporate bond curves.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

For 2013, we assumed a long-term rate of return on plan assets of 8.0%. In developing the 8.0% expected long-term rate of return assumption, we considered our historical compounded return and reviewed asset class return expectations and long-term inflation assumptions.

Our investment goals are to achieve a combination of moderate growth of capital and income with moderate risk. Acceptable investment vehicles will include mutual funds, exchange-traded funds (ETFs), limited partnerships, and individual securities. Our target allocations for plan assets are 60% equities and 40% fixed income. Of the equity portion, 50% will be invested in passively managed securities using ETFs and the other 50% will be invested in actively managed investment vehicles. We address diversification by investing in mutual funds and ETFs which hold large, mid and small capitalization U.S. stocks, international (non-U.S.) equity, REITS, and real assets (consisting of inflation-linked bonds, real estate and natural resources). A sufficient percentage of investments will be readily marketable in order to be sold to fund benefit payment obligations as they become payable.

Grand total	\$ 7,024,000	\$ 7,024,000	\$	\$

We expect to contribute approximately \$50,000 to our pension plans in 2014.

Estimated future benefit payments are as follows:

2014	\$ 1,045,000
2015	\$ 357,000
2016	\$ 366,000
2017	\$ 383,000
2018	\$ 444,000
2019-2023	\$ 2,437,000

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

We also maintain a defined contribution 401(k) plan that permits participation by substantially all employees. Beginning on January 1, 2012, we increased our matching contributions to the 401(k) plan in connection with the freezing of our defined benefit pension plan. Our matching contributions to the 401(k) plan were \$110,000 and \$108,000 in 2013 and 2012, respectively. Matching contributions were insignificant for 2011.

--------------------------------------	----	-------------	----	-------------

Holders of common stock have one vote per share and holders of Class A common stock have ten votes per share. There is no cumulative voting. Shares of Class A common stock are convertible at any time into shares of common stock on a share for share basis at the option of the holder thereof. Dividends on Class A common stock cannot exceed dividends on common stock on a per share basis. Dividends on common stock may be paid at a

higher rate than dividends on Class A common stock. The terms and conditions of each issue of preferred stock are determined by our Board of Directors. No preferred shares have been issued.

We adopted a stockholder rights plan in 2006. The rights are attached to and trade in tandem with our common stock and Class A common stock. Each right entitles the registered holder to purchase from us one share of common stock. The rights, unless earlier redeemed by our Board of Directors, will detach and trade separately from our common stock upon the occurrence of certain events such as the unsolicited acquisition by a third party of beneficial ownership of 10% or more of our outstanding combined common stock and Class A common stock or the announcement by a third party of the intent to commence a tender or exchange offer for 10% or more of our outstanding combined common stock and Class A common stock. After the rights have detached, the holders of such rights would generally have the ability to purchase such number of either shares of our common stock or stock of an acquirer of ours having a market value equal to twice the exercise price of the right being exercised, thereby causing substantial dilution to a person or group of persons attempting to acquire control of us. The rights may serve as a significant deterrent to unsolicited attempts to acquire control of us, including transactions involving a premium to the market price of our stock. This rights agreement expires on June 13, 2016, unless earlier redeemed.

On July 28, 2004, our Board of Directors authorized the repurchase of up to 2,000,000 shares of our outstanding common stock. The purchases may be made in the open market or in privately negotiated transactions as conditions warrant. The repurchase authorization has no expiration date, does not obligate us to acquire any specific number of shares and may be suspended at any time. During 2013, we purchased and retired 442,526 shares of our outstanding common stock at an average purchase price of \$2.36 per share, not including nominal brokerage commissions. No purchases of our equity securities were made pursuant to this authorization during 2012 or 2011. At December 31, 2013, we had remaining repurchase authority of 1,192,081 shares.

During the years ended December 31, 2013, 2012 and 2011, we purchased and retired 33,950, 23,779 and 29,575 shares of our outstanding common stock at an average purchase price of \$1.80, \$1.16 and \$1.76 per share, respectively. These purchases were made from employees in connection with the vesting of restricted stock awards under our 2004 Stock Incentive Plan and were not pursuant to the aforementioned repurchase authorization. Since the vesting of a restricted stock award is a taxable event to our employees for which income tax withholding is required, the plan allows employees to surrender to us some of the shares that would otherwise have vested in satisfaction of their tax liability. The surrender of these shares is treated by us as a purchase of the shares.

We have a stock incentive plan which provides for the grant of up to 1,500,000 shares of common stock to our officers and key employees through stock options and/or awards valued in whole or in part by reference to our common stock, such as nonvested restricted stock awards. Under the plan, nonvested restricted stock vests an aggregate of twenty percent each year beginning on the second anniversary date of the grant. The aggregate market value of the nonvested restricted stock at the date of issuance is being amortized on a straight-line basis over the six-year period. As of December 31, 2013, there were 401,374 shares available for granting options or stock awards.

There were no outstanding stock options as of December 31, 2011 or thereafter. No stock options were granted or exercised during the three year period ending December 31, 2013. No compensation expense was recognized related to stock options for the years ended December 31, 2013, 2012 or 2011.

Nonvested restricted stock activity for the year ended December 31, 2013 was as follows:

Number of Shares	Weighted Average
---------------------	---------------------

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

			Grant Date Fair Value
Nonvested at December 31, 2012	574,000	\$	2.04
Granted	153,000	\$	1.80
Vested	(133,400)	\$	2.96
Forfeited	(19,600)	\$	1.64
Nonvested at December 31, 2013	574,000	\$	1.77

The aggregate market value of the nonvested restricted stock at the date of issuance is being amortized on a straight-line basis over the six-year service period or the service period remaining until normal retirement age, if shorter. The total fair value of shares vested during the years ended December 31, 2013, 2012 and 2011 based on the weighted average grant date fair value was \$394,000, \$474,000 and \$547,000, respectively. The grant-date fair value of nonvested restricted stock awards granted during the years ended December 31, 2013, 2012 and 2011 was \$1.80, \$1.04 and \$1.78, respectively. We recorded compensation expense of \$291,000, \$313,000 and \$407,000 related to restricted stock awards for the years ended December 31, 2013, 2012 and 2011, respectively. As of December 31, 2013, there was \$502,000 of total unrecognized compensation cost related to nonvested restricted stock awards granted to employees under our stock incentive plan. That cost is expected to be recognized over a weighted-average period of 3.6 years.

NOTE 11 Fair Value Measurements

Our financial instruments are classified and disclosed in one of the following three categories:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The following table summarizes the valuation of our financial instrument pricing levels as of December 31, 2013 and 2012:

	Total	Level 1	Level 2	Level 3
2013:				
Available-for-sale securities	\$ 768,000	\$ 768,000	\$	\$
2012:				
Available-for-sale securities	\$ 680,000	\$ 680,000	\$	\$

Our investments in available-for-sale securities consist of mutual funds. These investments are included in other assets on our consolidated balance sheets.

The carrying amounts of other financial instruments reported in our consolidated balance sheets for current assets and current liabilities approximate their fair values because of the short maturity of these instruments.

Edgar Filing: DOVER MOTORSPORTS INC - Form 10-K

At December 31, 2013 and 2012, there was \$14,820,000 and \$19,700,000, respectively, outstanding under our revolving credit agreement. The borrowings under our revolving credit agreement bear interest at the variable rate described in NOTE 7 Long-Term Debt and therefore we believe approximate fair value. We consider the inputs utilized to determine the fair value of borrowings under our revolving credit agreement to be Level 2 inputs.

The following table summarizes the valuation of our pricing levels for non-financial assets that are measured at fair value on a non-recurring basis as of December 31, 2013:

	Total	Level 1	Level 2	Level 3	2013 Losses
Long-lived assets held and used	\$ 26,000,000	\$	\$	\$ 26,000,000	\$ 4,329,000

Fair value of the long-lived assets held and used was determined using a valuation methodology which gave specific consideration to the value of the owned real estate (refer to NOTE 3 Impairment Charges for further discussion).

NOTE 12 Related Party Transactions

During the years ended December 31, 2013, 2012 and 2011, Dover Downs Gaming & Entertainment, Inc. (Gaming), a company related through common ownership, allocated costs of \$1,854,000, \$1,865,000 and \$1,963,000, respectively, to us for certain administrative and operating services, including leased space. We allocated certain administrative and operating service costs of \$220,000, \$217,000 and \$347,000, respectively, to Gaming for the years ended December 31, 2013, 2012 and 2011. The allocations were based on an analysis of each company's share of the costs. In connection with our NASCAR event weekends at Dover International Speedway, Gaming provided certain services, primarily catering, for which we were invoiced \$801,000, \$804,000 and \$855,000, during the years ended December 31, 2013, 2012 and 2011, respectively. Additionally, we invoiced Gaming \$294,000, \$381,000 and \$397,000, during 2013, 2012 and 2011, respectively, for a skybox suite, tickets, display space, our commission for suite catering and other services to the events. As of December 31, 2013, our consolidated balance sheet included a \$4,000 receivable from Gaming for the aforementioned items. We settled this item in January of 2014. The net costs incurred by each company for these services are not necessarily indicative of the costs that would have been incurred if the companies had been unrelated entities and/or had otherwise independently managed these functions; however, management believes that these costs are reasonable.

Prior to the spin-off of Gaming from our company in 2002, both companies shared certain real property in Dover, Delaware. At the time of the spin-off, some of this real property was transferred to Gaming to ensure that the real property holdings of each company was aligned with its past uses and future business needs. During its harness racing season, Gaming has historically used the 5/8-mile harness racing track that is located on our property and is on the inside of our one-mile motorsports superspeedway. In order to continue this historic use, we granted a perpetual easement to the harness track to Gaming at the time of the spin-off. This perpetual easement allows Gaming to have exclusive use of the harness track during the period beginning November 1 of each year and ending April 30 of the following year, together with set up and tear down rights for the two weeks before and after such period. The easement requires that Gaming maintain the harness track but does not require the payment of any rent.

Various easements and agreements relative to access, utilities and parking have also been entered into between us and Gaming relative to our respective Dover, Delaware facilities. We pay rent to Gaming for the lease of our principal executive office space. Gaming also allows us to use its indoor grandstands in connection with our two annual motorsports weekends. This occasional grandstand use is not material to us and Gaming does not assess rent for it; Gaming may also discontinue our use at its discretion.

In April of 2002, we spun-off our gaming business which was then owned by our subsidiary, Dover Downs Gaming & Entertainment, Inc. On a tax-free basis, we made a pro rata distribution of all of the capital stock of Gaming to our stockholders. Our continuing operations subsequent to the spin-off consist solely of our motorsports activities.

In conjunction with the spin-off of Gaming by us, the two companies entered into various agreements that addressed the allocation of assets and liabilities between the two companies and that define the companies' relationship after the separation. Among these are the Real Property Agreement and the Transition Support Services Agreement.

The Real Property Agreement governs certain real property transfers, leases and easements affecting our Dover, Delaware facility.

The Transition Support Services Agreement provides for each of the two companies to provide each other with certain administrative and operational services. The party receiving the services is required to pay for them within 30 business days after receipt of an invoice at rates agreed upon by the companies. The agreement may be terminated in whole or in part 90 days after the request of the party receiving the services or 180 days after the request of the party providing the services.

Henry B. Tippie, Chairman of our Board of Directors, controls in excess of fifty percent of our voting power. Mr. Tippie's voting control emanates from his direct and indirect holdings of common stock and Class A common stock and from his status as trustee of the RMT Trust, our largest stockholder. This means that Mr. Tippie has the

ability to determine the outcome of the election of directors and to determine the outcome of many significant corporate transactions, many of which only require the approval of a majority of our voting power.

Patrick J. Bagley, Timothy R. Horne, Denis McGlynn, Jeffrey W. Rollins, R. Randall Rollins, Richard K. Struthers and Henry B. Tippie are all Directors of Dover Motorsports, Inc. and Gaming. Denis McGlynn is the President and Chief Executive Officer of both companies, Klaus M. Belohoubek is the Senior Vice President General Counsel and Secretary of both companies and Timothy R. Horne is the Senior Vice President Finance and Chief Financial Officer of both companies. Mr. Tippie controls in excess of fifty percent of the voting power of Gaming.

NOTE 13 Commitments and Contingencies

We lease equipment at our facilities with leases expiring at various dates through 2016. Total rental payments charged to operations amounted to \$44,000, \$52,000 and \$96,000 for the years ended December 31, 2013, 2012 and 2011, respectively.

In September 1999, the Sports Authority of the County of Wilson (Tennessee) issued \$25,900,000 in Variable Rate Tax Exempt Infrastructure Revenue Bonds, Series 1999, to acquire, construct and develop certain public infrastructure improvements which benefit Nashville Superspeedway, of which \$18,800,000 was outstanding at December 31, 2013. Annual principal payments range from \$800,000 in September 2014 to \$1,600,000 in 2029 and are payable solely from sales taxes and incremental property taxes generated from the facility. These bonds are direct obligations of the Sports Authority and therefore have historically not been required to be recorded on our consolidated balance sheet. If the sales taxes and incremental property taxes (applicable taxes) are insufficient for the payment of principal and interest on the bonds, we would become responsible for the difference. In the event we were unable to make the payments, they would be made pursuant to a \$19,115,000 irrevocable direct-pay letter of credit issued by our bank group. We are exposed to fluctuations in interest rates for these bonds.

As of December 31, 2013 and 2012, \$1,908,000 and \$1,758,000, respectively, was available in the sales and incremental property tax fund maintained by the Sports Authority to pay the remaining principal and interest due under the bonds. During 2013, we paid \$969,000 into the sales and incremental property tax fund and \$819,000 was deducted from the fund for principal and interest payments. If we fail to maintain the letter of credit that secures the bonds or we allow an uncured event of default to exist under our reimbursement agreement relative to the letter of credit, the bonds would be immediately redeemable.

Nashville Superspeedway no longer promotes NASCAR events and did not seek sanction agreements from NASCAR for 2012, 2013 or 2014. Since the facility no longer generates sales taxes from NASCAR sanctioned events, we estimated that a portion of the debt service may not be covered by applicable taxes. As a result, we recorded a \$2,250,000 provision for contingent obligation in 2011 reflecting the present value of the estimated portion of the Wilson County bonds debt service that may not be covered by applicable taxes from the facility. Due to changing interest rates, the provision for contingent obligation decreased by \$91,000 and \$316,000, net, in 2013 and 2012, respectively, and is \$1,843,000 at December 31, 2013. An increase in interest rates would result in an increase in the portion of debt service not covered by applicable taxes and therefore an increase in our liability.

We have employment, severance and noncompete agreements with certain of our officers and directors under which certain change of control, severance and noncompete payments and benefits might become payable in the event of a change in our control, defined to include a tender offer or the closing of a merger or similar corporate transactions. In the event of such a change in control and the subsequent termination of employment of all employees covered under these agreements, we estimate that the maximum contingent liability would range from \$7,700,000 to \$9,500,000 depending on the tax treatment of the payments.

To the extent that any of the potential payments or benefits due under the agreements constitute an excess parachute payment under the Internal Revenue Code and result in the imposition of an excise tax, each agreement requires that we pay the amount of such excise tax plus any additional amounts necessary to place the officer or director in the same after-tax position as he would have been had no excise tax been imposed. We estimate that the tax gross ups that could be paid under the agreements in the event the agreements were triggered due to a change of

control could be between \$1,100,000 and \$2,900,000 and these amounts have been included in the maximum contingent liability disclosed above. This maximum tax gross up figure assumes that none of the payments made after the hypothetical change in control would be characterized as reasonable compensation for services rendered. Each agreement with an executive officer provides that fifty percent of the monthly amount paid during the term is paid in consideration of the executive officer's non-compete covenants. The exclusion of these amounts would reduce the calculated amount of excess parachute payments subject to tax. We are unable to conclude whether the Internal Revenue Service would characterize all or some of these non-compete payments as reasonable compensation for services rendered.

We are also a party to ordinary routine litigation incidental to our business. Management does not believe that the resolution of any of these matters is likely to have a material adverse effect on our results of operations, financial position or cash flows.

(a) During the fourth quarter of 2013, we recorded a non-cash pre-tax impairment charge of \$4,329,000 (\$2,814,000 after income taxes) related to our long-lived assets at our Nashville Superspeedway facility. See NOTE 3 Impairment Charges.

Our operations are seasonal in nature with a majority of our motorsports events occurring during the second and third quarters.
